No. MC 71096 (Sub No. 35), filed November 23, 1960. Applicant: NORWALK TRUCK LINES, INC., 180 Milan Avenue, Norwalk, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, livestock, automobiles, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between points in Indiana, Michigan, Ohio, and Pennsylvania: I. (1) between junction U.S. Highway 6 and Indiana Highway 2 and La Porte, Ind.; from junction U.S. Highway 6 and Indiana Highway 2 over Indiana Highway 2 to La Porte and return over the same route, (2) between junction Indiana Highway 15 and U.S. Highway 6 and Bristol, Ind. (via Goshen); from junction Indiana Highway 15 and U.S. Highway 6 over Indiana Highway 15 to Bristol and return over the same route; (3) between junction Indiana Highway 13 and U.S. Highway 33 and junction Indiana Highway 13 and U.S. Highway 6 (4 miles west of Ligonier); from junction Indiana Highway 13 and U.S. Highway 33 over Indiana Highway 13 to junction U.S. Highway 6 and return over the same route: II. between junction U.S. Highway 131 and U.S. Highway 112 and Kalamazoo, Mich.; from junction U.S. Highway 131 and U.S. Highway 112 over U.S. Highway 131 to Kalamazoo and return over the same route. III. (1) between junction U.S. Highway Alternate 20 and U.S. Highway 20 (north of Montpelier, Ohio), and junction U.S. Highway Alternate 20 and Ohio Highway 2 (North of Wauseon, Ohio); from junction U.S. Highway Alternate 20 and U.S. Highway 20 over U.S. Highway Alternate 20 to junction Ohio Highway 2 and return over the same route; (2) between junction Ohio Highway 65 and Ohio Highway 69 and junction U.S. Highway 30N and Ohio Highway 69; from junction Ohio Highway 65 and Ohio Highway 69 via Ohio Highway 69 to junction with U.S. Highway 30N and return over the same route. NOTE: That segment of Ohio Highway 69 between junction Ohio Highway 18 and McComb is included in Docket No. 71096 page 11, 9th para. (3) between Toledo, Ohio and junction U.S. Highway 25 and U.S. Highway 30N; from Toledo over U.S. Highway 25 to junction U.S. Highway 30N and return over the same route; (4) between junction Ohio Highway 18 and U.S. Highway 25 and Findlay, Ohio; from junction Ohio Highway 18 and U.S. Highway 25 over unnumbered highway to junction with U.S. Highway 224, hence via U.S. Highway 224 to Findlay and return over the same route; (5) between Bucyrus and Shelby, Ohio; from Bucyrus over Ohio Highway 96 to Shelby and return over the same route; (6) between Lodi and Cleveland, Ohio; from Lodi over U.S. Highway 42 to Cleveland and return over the same route; (7) between junction Ohio 82 and Ohio 57 and Warren, Ohio; from junction Ohio 82 and Ohio 57 over Ohio 82 to Warren and return over the same route; (8) between Cleveland and Massillon, Ohio; from junction Ohio 18 and U.S. Highway 21 over U.S. Highway 21 to Massillon and return over the same route; (9) between Ravenna, and Warren, Ohio; from Ravenna over Ohio Highway 5 to Warren and return over the same route, and IV. between junction U.S. Highway 422 and U.S. Highway 19 and Butler, Pa.; from junction U.S. Highway 422 and U.S. Highway 19 over U.S. Highway 422 to Butler and return over the same route.

NOTE: For operating convenience only, serving no termini, intermediate or off-route points.

No. MC 105957 (Sub No. 47), filed November 23, 1960. Applicant: DELTA MOTOR LINE, INC., Post Office Box 3867, Jackson, Miss. Applicant's attorney: Harold D. Miller, Jr., Suite 700 Petroleum Building, P.O. Box 141, Jackson, Miss. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods, as defined by the Commission, commodities in bulk, those requiring special equipment, and those injurious or contaminating to other lading, between the plant site of the Archer Daniels Midland Company, approximately 7.3 miles from Peoria, Ill., at or near Mapleton, Ill., as an off-route point in connection with applicant's authorized regular route operations to and from Peoria, Ill.

No. MC 108905 (Sub No. 20), filed November 22, 1960. Applicant: JASPER & CHICAGO MOTOR EXPRESS, INC., Indiana Highways 45 and 56, Jasper, Ind. Applicant's attorney: John E. Lesow, 3737 North Meridian Street, Indianapolis 8, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, dangerous explosives, livestock, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, and those injurious or contaminating to other lading, serving the plant site of Midwest Steel Corporation, located on U.S. Highway 12, approximately 2 miles east of the Lake-Porter County line, at or near Portage, Ind., as an off-route point in connection with applicant's presently authorized regular route operations in the States of Indiana, Illinois, and Kentucky.

No. MC 110525 (Sub No. 430) filed November 23, 1960. Applicant: CHEMICAL TANK LINES, INC., 520 East Lancaster Avenue, Downington, Pa. Applicant's attorney: Leonard A. Jaskiewicz, Munsey Building, Washington 4, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Soybean oil*, in bulk, in tank vehicles, from Bellevue, Ohio, to Dayton, Ky., and *rejected shipments* of above-described commodity, on return.

NOTE: Section 210, dual operations may be involved. Applicant holds contract carrier authority in Permit No. MC 117505 and Subs thereunder. Common control may be involved.

No. MC 111231 (Sub No. 44), filed November 18, 1960. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, Ark. Applicant's representative: B. J. Wiseman (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, livestock, grain, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Springdale, Ark., and Marked Tree, Ark.: (a) from Springdale over Arkansas Highway 68 to its junction with U.S. Highway 62 at or near Alpena, thence over U.S. Highway 62 to its junction with U.S. Highway 65, thence over U.S. Highway 65 to its junction with Arkansas Highway 66 at or near Leslie, serving no intermediate points and serving Leslie for purposes of joinder only; (b) From Leslie over Arkansas Highway 66 to its junction with Arkansas Highway 14, thence over Arkansas Highway 14 to Newport, serving the intermediate points of Elberta, Alco, Timbo, Newnata, Mountain View, St. James, Pleasant Grove, Marcella, Melrose, Locust Grove, Desha, Salado, Rosie, and Macks, and the off-route points of Oxley and Oil Trough, with service at Newport restricted to joinder purposes only; (c) From Newport over Arkansas Highway 14 to its junction with U.S. Highway 63 at or near Marked Tree, serving no intermediate points. Service at Termini restricted to joinder only.

No. MC 114194 (Sub No. 33), filed November 23, 1960. Applicant: KREIDER TRUCK SERVICE, INC., 8003 Collinsville Road, East St. Louis, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rum and blends*, in bulk; from Covington, Ky., to St. Louis, Mo., and *empty containers or other such incidental facilities*, used in transporting the above-described commodities, and *rejected shipments*, on return.

MOTOR CARRIERS OF PASSENGERS

No. MC 1501 (Sub No. 212), filed November 21, 1960. Applicant: THE GREYHOUND CORPORATION, 140 South Dearborn Street, Chicago 3, Ill. Applicant's attorney: R. H. Warns, Commerce Counsel, The Greyhound Corporation (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, express, newspapers* and *mail* in the same vehicle with passengers, between Elizabethtown, Ky., and junction of Interstate Highway 65 and U.S. Highway 31-W, at or near Upton, Ky.: from Elizabethtown over Interstate Highway 65 to its junction with U.S. Highway 31-W, and return over the same route, serving all intermediate points.

No. MC 1501 (Sub No. 213), filed November 21, 1960. Applicant: THE GREYHOUND CORPORATION, 140 South Dearborn Street, Chicago 3, Ill. Applicant's attorney: R. H. Warns, Commerce Counsel, The Greyhound Corporation (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, express, newspapers* and *mail* in the same vehicle with passengers, between Rome, Ga., and junction of U.S. Highway 41 and new unnumbered four-lane highway at or near Cartersville, Ga.: from Rome over new unnumbered four-lane highway to its junction with U.S. Highway 41 north of Cartersville, and return over the same route, serving all intermediate points.

No. MC 1501 (Sub No. 214), filed November 28, 1960. Applicant: THE GREYHOUND CORPORATION, 140 South Dearborn Street, Chicago 3, Ill. Applicant's attorney: Raymond H. Warns, Commerce Counsel, The Greyhound Corporation (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, express, newspapers and mail* in the same vehicle with pasengers, (1) between Marion, Ill., and the junction of Interstate Highway 57 and U.S. Highway 51 approximately two miles north of Ullin, Ill.: from Marion over Interstate Highway 57 to its Junction with U.S. Highway 51, and return over the same route, serving no intermediate points. (2) Between Cairo, Ill., and Sikeston, Mo.: from Cairo, Ill., over U.S. Highway 60 to Sikeston, Mo., and return over the same route, serving no intermediate points.

NOTE: Applicant states it proposes to join or tack this authority, if granted, to: *MC 1501 Sub 25 Route 2* "Between St. Louis, Mo., and Paducah, Ky., serving the intermediate points of Cairo, Ill., and Wickliffe, Ky., and all other intermediate points except those on U.S. Highway 51 between Cairo and Wickliffe." So much of the above as pertains to U.S. Highway 51 between junction of Interstate Highway 57 and U.S. Highway 51 and Cairo, Ill. *MC 1501 Sub 25 Route 1* "Between St. Louis, Mo., and Vicksburg, Miss., serving all intermediate points and the off-route points of Caruthersville, Hayti, Cape Girardeau, Fredericktown, and St. Francois, Mo." So much of the above as pertains to U.S. Highway 61 between Sikeston, Mo., and Vicksburg, Miss.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carrier of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC-F 7488 (COLORADO MOTORWAY, INC.—PURCHASE—M. M. YOUNG), published in the April 6, 1960, issue of the FEDERAL REGISTER on page 2937. Application filed November 29, 1960, for temporary authority under section 210a(b).

No. MC-F 7715 (correction) (UNITED TRANSPORTATION CO. OF RHODE ISLAND — PURCHASE — THOMAS L. McCORMICK), published in the November 30, 1960, issue of the FEDERAL REGISTER on page 12273. The publication should have indicated that application has been filed for temporary authority under section 210a(b).

No. MC-F 7720. Authority sought for control and merger by READING TRANSPORTATION COMPANY, Reading Terminal, 12th and Market Streets, Philadelphia 7, Pa., of the operating rights (with certain exceptions as noted below) and property of KARN'S TRANSFER, INC., 345 West Elm Street, Hazleton, Pa., and for acquisition by READING COMPANY, also of Philadelphia, of control of such rights and property through the transaction. Applicants' attorney: Lockwood W. Fogg, Jr., Reading Terminal, Philadelphia 7, Pa. KARN'S TRANSFER, INC., holds the following Interstate Commerce Commission *common carrier* operating rights: (1) *General commodities*, excepting, among others, household goods and commodities in bulk, over regular routes, between Reading, Pa., and Carbondale, Pa., serving all intermediate and certain off-route points; *general commodities*, excepting, among others, household goods and commodities in bulk, over irregular routes, between New York, N.Y., and certain points in New Jersey, on the one hand, and, on the other, certain points in Pennsylvania; *shirts and milling supplies*, between Hazelton, Pa., and Baltimore, Md.; *foodstuffs and canned goods* (limited to the transportation of these commodities having an immediately prior movement in rail pool cars), from Hazleton, Pa., to certain points in Pennsylvania; *such commodities* as are dealt in by wholesale and retail grocery stores (limited to the transportation of these commodities having an immediately prior movement in rail pool cars), from Hazleton, Pa., to certain points in Pennsylvania; *synthetic yarn* and *synthetic staple fibre*, from Hazleton, Pa., to certain points in New York, restricted to shipments having a prior or subsequent movement by motor vehicle to Hazleton; *empty racks, beams, and shipping containers* used in transporting the described synthetic yarn and synthetic staple fibre, from certain points in New York to Hazleton, Pa., subject to the restriction that shipments transported by carrier shall be limited to those having a prior or subsequent movement by motor vehicle from Hazleton; (2) *cellulose acetate*, in bulk, over irregular routes, from Parlin, N.J., to Meadville, Pa.; (3) *rayon yarn* and *rayon products*, over irregular routes, from Meadville, Pa., to points in New York, Connecticut, Massachusetts, and Rhode Island and certain points in Virginia; *refused yarn* and *empty spools, cones and other articles* used in the shipping of yarn, from the immediately-above-specified destination points to Meadville, Pa.; *synthetic yarn, synthetic fibre, synthetic staple fibre, synthetic fibre products* (except rayon yarn and rayon products), and *materials and supplies* used in packing and shipping such commodities, from Meadville, Pa., to points in New York, New Jersey, Connecticut, Massachusetts, and Rhode Island and certain points in Virginia; *articles* used in packing and shipping the commodities named immediately above, from the immediately-above-specified destination points to Meadville, Pa.; *synthetic yarn, synthetic fibre, synthetic staple fibre, synthetic fibre products, rayon yarn* and *rayon products* (limited to transportation of traffic having a prior or subsequent movement by connecting motor carrier), from Meadville, Pa., to Scranton, Wilkes-Barre, Hazleton, Reading, and Philadelphia, Pa.; *materials and supplies* used in packing and shipping the commodities described immediately above (subject to the immediately-above-described limitation), from Scranton, Wilkes-Barre, Hazleton, Reading, and Philadelphia, Pa., to Meadville, Pa.; (4) *household goods*, over irregular routes, between Hazleton, Pa., and points within 35 miles of Hazleton, on the one hand, and, on the other, points in Massachusetts, Connecticut, New York, New Jersey, Ohio, Delaware, Maryland, Rhode Island, West Virginia, Virginia, North Carolina, and the District of Columbia. The application states that READING TRANSPORTATION COMPANY will acquire the rights described in (1) above, that the operating rights described in (2) above are to be canceled, and that those in (3) and (4) above are to be transfered by KARN'S TRANSFER, INC., to two other parties. No applications seeking the approval thereof have yet been filed. READING TRANSPORTATION COMPANY is authorized to operate as a *common carrier* of property in Pennsylvania and New Jersey, and as a *common carrier* of passengers in Pennsylvania, New Jersey, Connecticut, New York, Maryland, Delaware, Virginia, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC-F 7721. Authority sought for purchase by PENNSYLVANIA TRANSFER CO., 631 Cascade Street, New

Castle, Pa., of the operating rights and property of FRANK WIMER, 460 East Washington Street, New Castle, Pa., and for acquisition by JULIUS W. GARDOCKY, also of New Castle, of control of such rights and property through the purchase. Applicants' attorney: Henry M. Wick, Jr., 1515 Park Building, Pittsburgh 22, Pa. Operating rights sought to be transferred: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier* over regular routes, between New Castle, Pa., and Mercer, Pa., between New Castle, Pa., and Bessemer, Pa., between New Castle, Pa., and Koppel, Pa., serving certain intermediate points and subject to the following conditions: (1) The service to be performed by said carrier shall be limited to that which is auxiliary to or supplemental of rail service of the Pennsylvania Railroad Company, hereinafter called the Pennsylvania, (2) shipments transported by said carrier shall be limited to those which it receives from or delivers to the Pennsylvania under a through bill of lading covering, in addition to movement by said carrier, a prior or subsequent movement by rail, (3) all contractual arrangements between said carrier and the Pennsylvania shall be reported to the Commission and shall be subject to revisions, if and as the Commission finds it to be necessary in order that such arrangements shall be fair and equitable to the parties, and (4) such further specific conditions as the Commission, in the future, may find it necessary to impose in order to restrict said carrier's operations to service which is auxiliary to, or supplemental of, rail service; *general commodities*, excepting, among others, household goods and commodities in bulk, over irregular routes, between New Castle, Pa., on the one hand, and, on the other, certain points in Pennsylvania; *household goods*, as defined by the Commission, between points in Lawrence County, Pa., on the one hand, and, on the other, points in Ohio, New York, and West Virginia; *soap, soap powder, vegetable shortening, vegetable oil*, and *synthetic detergents*, from New Castle, Pa., to certain points in Pennsylvania. Vendee is authorized to operate as a *common carrier* in Pennsylvania, New Jersey, New York, Ohio, West Virginia, Illinois, Maryland, Michigan, Indiana, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-7723. Authority sought for purchase by M. I. O'BOYLE & SON, INC., doing business as O'BOYLE TANK LINES, 1825 Jefferson Place NW., Washington 6, D.C., of a portion of the operating rights and certain property of JAMES F. BLACK, doing business as PARKVILLE TRUCKING COMPANY, 3818 Pulaski Highway (Mail: P.O. Box 4168 East End Station), Baltimore, Md., and for acquisition by FRANK L. GRIMM, 3708 Oliver Street NW., Washington, D.C. and SARAH F. CARL, Gaithersburg, Md., of control of such rights and property through the purchase. Applicants' attorney: Dale C. Dillon, 1825 Jefferson Place NW., Washington 6, D.C. Operating rights sought to be transferred: *Chemicals*, in bulk, as a *common carrier* over irregular routes from Baltimore, Md., to Coatesville, Marcus Hook, and Philadelphia, Pa., Linden, N.J., and Washington, D.C., and from Linden and Jersey City, N.J., and Marcus Hook and Chester, Pa., to Baltimore, Md.; *sulphuric acid*, in bulk, in tank vehicles, between Baltimore, Md., on the one hand, and, on the other, points on Long Island, N.Y., and points in New Jersey, and New York, N.Y.; *alum*, in bulk and in burlap bags, between Baltimore, Md., on the one hand, and on the other, York, Pa., points in Virginia on and east of U.S. Highway 1, all points in Delaware, and those in New Jersey, except Warners, N.J.; *alum*, in bulk, from Baltimore, Md., to Batavia, Brockport, Fairport, Leroy, and Westfield, N.Y., and points in Ohio; *hydrofluosilicic acid*, in bulk, in tank vehicles, from Carneys Point, N.J., to Baltimore, Md.; *silica gel catalyst*, in bulk, in covered hopper vehicles, from Baltimore, Md., to Delaware City, Del., Westville, N.J., and Yorktown, Va., and from Baltimore, Md., to Warren, Pa.; Vendee is authorized to operate as a *common carrier* in the District of Columbia, Maryland, Virginia, Pennsylvania, West Virginia, Delaware, New Jersey, New York, Ohio, North Carolina, Illinois, Indiana, Michigan, Minnesota, Missouri, Wisconsin, Massachusetts, Rhode Island, Tennessee, Alabama, Florida, Georgia, South Carolina, Arkansas, Connecticut, Iowa, Kentucky, Louisiana, Maine, Mississippi, New Hampshire, and Vermont. Application has been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

[Notice 146]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

DECEMBER 2, 1960.

The following letter-notices of proposals to operate over deviation routes for operating convenience only with service at no intermediate points have been filed with the Interstate Commerce Commission, under the Commission's Deviation Rules Revised, 1957 (49 CFR 211.1 (c) (8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1(d) (4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(e)) at any time but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 2202 (Deviation No. 17) ROADWAY EXPRESS, INC., 147 Park Street, P.O. Box 471, Akron 9, Ohio, filed November 22, 1960. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Hartford, Conn., over Interstate Highway 91 to Springfield, Mass., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From New York, N.Y., over U.S. Highway 1 to New Haven, Conn., thence over U.S. Highway 5 via Hartford, Conn., to Springfield, Mass., thence over U.S. Highway 20 via Worcester, Mass., to Boston, Mass.; from New York to Hartford as specified above, thence over Alternate U.S. Highway 5 to Springfield, thence to Worcester as specified above and thence over Massachusetts Highway 9 to Boston, and return over the same routes.

No. MC 3474 (Deviation No. 1), MUNDY MOTOR LINES, P.O. Box 331, Roanoke 3, Va., filed November 22, 1960. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Stephens City, Va., over Virginia Highway 277 to junction U.S. Highway 340 near White Post, Va., thence over U.S. Highway 340 to junction U.S. Highway 40 near Frederick, Md., thence over U.S. Highway 40 to Baltimore, Md., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Stephens City over Virginia Highways 277 and 12 to junction U.S. Highway 50, thence over U.S. Highway 50 to Washington, D.C., and thence over U.S. Highway 1 to Baltimore and return over the same route.

No. MC 10875 (Deviation No. 1), BRANCH MOTOR EXPRESS COMPANY, 300 Maspeth Avenue, Brooklyn 11, N.Y., filed November 14, 1960. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From junction of Hunterdon County Highway 523 and U.S. Highway 202 near Flemington, N.J., over Hunterdon County Highway 523 to Stockton, N.J., thence across the Delaware River to Center Bridge, Pa., and thence over Pennsylvania Highway 263 to junction U.S. Highway 202 near Lahaska, Pa., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From the junction of U.S. Highways 202 and 206 near Raritan, N.J., over U.S. Highway 202 to junction Pennsylvania Highway 263, near Lahaska, Pa., and return over the same route.

No. MC 29988 (Deviation No. 6), DENVER-CHICAGO TRUCKING COMPANY, INC., 45th and Jackson Streets, Denver, Colo., filed November 9, 1960. Attorney David Axelrod, 39 North La Salle Street, Chicago, Ill. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From the junction of U.S. Highway 30 and Illinois Highway 47 over Illinois Highway 47 to junction U.S. Business Route 30, thence over U.S. Business Route 30 to junction Illinois Highway 55, thence over Illinois Highway 55 to junction East-West Ogden Thruway near Aurora, Ill., thence over East-West Ogden Thruway to junction Interstate Highway 90 near Elmhurst, Ill., and thence over Interstate Highway 90 to Chicago and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Denver, Colo., over U.S. Highway 85 to Greeley, Colo., thence over U.S. Highway 34 to junction U.S. Highway 6, thence over U.S. Highway 6 to Sterling, Colo. (also from Denver over U.S. Highway 6 to Sterling) thence over U.S. Highway 138 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction Alternate U.S. Highway 30, and thence over Alternate U.S. Highway 30 to Chicago; from junction of U.S. Highway 30 and Alternate U.S. Highway 30 over U.S. Highway 30 to Aurora, Ill., thence over Illinois Highway 65 to junction U.S. Highway 34, and thence over U.S. Highway 34 to Chicago, and return over the same routes.

No. MC 35628 (Deviation No. 4), INTERSTATE MOTOR FREIGHT SYSTEM, 134 Grandville Avenue SW., Grand Rapids 2, Mich., filed November 21, 1960. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Columbus, Ohio, over Interstate Highway 71 to junction U.S. Highway 224 and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Cincinnati over Ohio Highway 3 to Wooster, Ohio, thence over Ohio Highway 5 to Akron, Ohio, thence over Ohio Highway 8 to Cleveland, Ohio; from Columbus over U.S. Highway 42 to Cleveland, and return over the same routes.

No. MC 35628 (Deviation No. 5), INTERSTATE MOTOR FREIGHT SYSTEM, 134 Grandville Avenue SW., Grand Rapids 2, Mich., filed November 21, 1960. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Painesville, Ohio, over Ohio Highway 44 to junction Interstate Highway 90, thence over Interstate Highway 90 to Interchange No. 50 near Buffalo, N.Y., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From the Indiana-Ohio State line over U.S. Highway 20 to junction Ohio Highway 120, thence over Ohio Highway 120 to Toledo, Ohio, thence over Ohio Highway 51 to junction U.S. Highway 20 and thence over U.S. Highway 20 to the Pennsylvania-Ohio State line; from the Ohio-Pennsylvania State line over U.S. Highway 20 to Boston, Mass., and return over the same routes.

No. MC 35628 (Deviation No. 6), INTERSTATE MOTOR FREIGHT SYSTEM, 134 Grandville Avenue SW., Grand Rapids 2, Mich., filed November 21, 1960. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Albany, N.Y., over Interstate Highway 87 to junction Interstate Highway 90 thence over Interstate Highway 90 to junction U.S. Highway 20 and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Albany over U.S. Highway 20 to junction Interstate Highway 90 and return over the same route.

No. MC 35628 (Deviation No. 7), INTERSTATE MOTOR FREIGHT SYSTEM, 134 Grandville Avenue SW., Grand Rapids 2, Mich., filed November 16, 1960. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Cincinnati, Ohio, over Interstate Highway 75 to Dayton, Ohio, and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Cincinnati and Dayton over U.S. Highway 25.

MC 51255 (Deviation No. 4), HAECKL'S EXPRESS, INCORPORATED, P.O. Box 2025, Terre Haute, Ind., filed November 21, 1960. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions over a deviation route as follows: From Chicago, Ill., over the Calumet Skyway (Interstate Highway 94) to the Illinois-Indiana State line, thence over the Indiana East-West Toll Road to the Indiana-Ohio State line, thence over the Ohio Turnpike to junction U.S. Highway 25 south of Toledo, Ohio, and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Chicago over U.S. Highway 54 (formerly Illinois Highway 49) to junction unnumbered highway, thence south over unnumbered highway to Chicago Heights, Ill., thence over U.S. Highway 30 to junction Indiana Highway 53, thence over Indiana Highway 53 to Montmorenci, Ind., thence over U.S. Highway 52 to Indianapolis, Ind., thence over U.S. Highway 40 to junction U.S. Highway 35, thence over U.S. Highway 35 to Dayton, Ohio, thence over U.S. Highway 25 to junction Ohio Turnpike south of Toledo, Ohio.

No. MC 65660 (Deviation No. 2), WARNER & SMITH MOTOR FREIGHT, INC., Walnut and Shenango Streets, Sharpsville, Pa., filed November 22, 1960. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Cherry Tree, Pa., over Pennsylvania Highway 417 to Franklin, Pa., and return over the same route, for operating convenience only, serving no intermediate point. The notice indicates that the carrier is presently authorized to transport the same commodities between Cherry Tree and Franklin over Pennsylvania Highway 8.

No. MC 77486 (Deviation No. 1), ADMIRAL TRANSIT, INC., 2785 Fairview Avenue, St. Paul 13, Minn., filed November 23, 1960. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Hudson, Wis., over Interstate Highway 94 to Eau Claire, Wis., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Hudson and Eau Claire over U.S. Highway 12.

No. MC 109972 (Deviation No. 1), HARRIS EXPRESS INC., 1425 North Tryon Street, Charlotte 6, N.C., filed November 14, 1960. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Greensboro, N.C., over U.S. Highway 29 to junction U.S. Highway 58 at Danville, Va., thence over U.S. Highway 58 to junction Virginia Highway 304 near Riverdale, Va., thence over Virginia Highway 304 to junction U.S. Highway 360 near Scottsburg, Va., thence over U.S. Highway 360 to junction U.S. Highway 1 to Richmond, Va., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Greensboro, over U.S. Highway 70 to Durham, N.C., thence over U.S. Highway 15 to Oxford, N.C., thence over U.S. Highway 158 to Henderson, N.C., thence over U.S. Highway 1 to Richmond, and return over the same route.

No. MC 112908 (Deviation No. 1), KINGSWAY TRANSPORTS LIMITED, P.O. Box 1220, Montreal (Quebec) Canada, filed November 15, 1960. Attorney S. Harrison Kahn, 1110 Investment Building, Washington 5, D.C. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over deviation routes as follows: (A) From New York, N.Y., over New York Highway 9A to the George Washington Bridge, thence over the George Washington Bridge to junction U.S. Highway 9W, thence over U.S. Highway 9W to junction New York Thru-

way, Interstate Highway 87, thence over Interstate Highway 87 to Suffern, N.Y.; (B) from Suffern over the New York Thruway, Interstate Highway 87, to Albany, N.Y.; and (C) from Albany, N.Y., over Interstate Highway 87 to Saratoga Springs, N.Y., and return over the same routes for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From New York through the Holland Tunnel to junction New Jersey Highway 3, thence over New Jersey Highway 3 to junction New Jersey Highway 17, thence over New Jersey Highway 17 to the New York-New Jersey State line; from Suffern over New York Highway 17 to junction New York Highway 32, thence over New York Highway 32 to Newburgh, N.Y., thence over U.S. Highway 9W to Albany, N.Y.; from Albany over U.S. Highway 9 to Saratoga Springs, and return over the same routes.

By the Commission.

MOTOR CARRIER TRANSFER PROCEEDINGS

DECEMBER 2, 1960.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 63772. By order of November 30, 1960, the Transfer Board approved the transfer to Daniel's Express Co., Inc., New York, N.Y., of Permit in No. MC 106720, issued November 7, 1946, to Daniel Schack, doing business as Daniel's Express Co., New York, N.Y., authorizing the transportation of: Empty glass bottles, over irregular routes, from New York, N.Y., to Newark, Passaic, and Irvington, N.J., with no transportation for compensation on return. Edward M. Alfano, 2 West 45th Street, New York 36, N.Y., attorney for applicants.

No. MC-FC 63777. By order of November 30, 1960, the Transfer Board approved the transfer to Reichert Transport, Inc., Fosston, Minn., of Certificate in No. MC 17639, issued September 13, 1960, to Donn Reichert, Dean Reichert and Arvilla Reichert, a partnership, doing business as Reichert Transport, Fosston, Minn., authorizing the transportation of: General Commodities, excluding household goods, commodities in bulk, and other specified commodities between Gully, Minn., and points within 25 miles of Gully, on the one hand, and, on the other, Fargo, Grand Forks, and Union Stockyards, N. Dak. A. R. Fowler, 2288 University Avenue, St. Paul 14, Minn., attorney for applicants.

[Rev. S. O. 562, Taylor's I.C.C. Order 126]

CANADIAN PACIFIC RAILWAY CO. ET AL.

Diversion or Rerouting of Traffic

On account of possible work stoppage by certain employees of Canadian railroads the Railway Association of Canada has issued embargo which, in the opinion of Charles W. Taylor, Agent, will result in the affected carriers being unable to transport traffic routed over their lines. *It is ordered,* That:

(a) Rerouting of traffic: Because of possible work stoppage and embargo placed, the following railroads and their connections:

The Canadian Pacific Railway Company rail lines in Canada, Canadian National Railway Company rail lines in Canada, Quebec Central Railway Company, The Dominion Atlantic Railway Company, Ontario Northland Railway, Napierville Junction Railway Company, Northern Alberta Railways Company, The Algoma Central and Hudson Bay Railway Company, and The Toronto, Hamilton and Buffalo Railway Company.

being unable to transport traffic in accordance with shippers' routing, are hereby authorized to divert and reroute such traffic over any available route to expidite the movement, regardless of the routing shown on the waybill. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad or railroads desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: The carrier diverting or rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic authorized by said Agent is deemed to be due to carriers' disability, the rates applicable to traffic diverted or rerouted shall be the rates which were applicable at the time of shipments on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with the pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 12:01 p.m., November 29, 1960.

(g) Expiration date: This order shall expire at 11:59 p.m., December 15, 1960, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Office of the Federal Register.

Issued at Washington, D.C., November 29, 1960.

INTERSTATE COMMERCE COMMISSION, CHARLES W. TAYLOR, *Agent.*

[F.R. Doc. 60-11351; Filed, Dec. 6, 1960; 8:49 a.m.]

[Rev. S. O. 562, Taylor's I.C.C. Order 126-A]

CANADIAN PACIFIC RAILWAY CO. ET AL.

Diversion or Rerouting of Traffic; Vacation of Order

Upon further consideration of Taylor's I.C.C. Order No. 126 (Canadian Railroads) and good cause appearing therefor:

It is ordered, That:

(a) Taylor's I.C.C. Order No. 126, be, and it is hereby vacated and set aside.

(b) *Effective date.* This order shall become effective at 9:00 a.m., November 30, 1960.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Office of the Federal Register.

Issued at Washington, D.C., November 30, 1960.

INTERSTATE COMMERCE COMMISSION, CHARLES W. TAYLOR, *Agent.*

FOURTH SECTION APPLICATIONS FOR RELIEF

DECEMBER 2, 1960.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 36751: *Sugar—To points in southern territory.* Filed by O. W. South, Jr., Agent (No. A4046), for interested rail carriers. Rates on sugar, in packages (returned), in carloads, from points in southern, western trunk-line, southwestern and official (including Illinois), territories, to points in southern territory.

Grounds for relief: Carrier competition.

Tariff: Supplement 41, 26 and 22 to Southern Freight Association tariffs I.C.C. N-10, N-12 and N-5, respectively.

FSA No. 36752: *Bituminous fine coal to Oak Creek Power Plant, Wis.* Filed by Illinois Freight Association, Agent (No. 116), for interested rail carriers. Rates on bituminous fine coal, in carloads, subject to 1,000 tons of 2,000 pounds each minimum per shipment and further subject to 12-month minimum of 1,250,000 tons, from mines in Illinois, Indiana, and western Kentucky via rail-lake or all rail routes, to Oak Creek Power Plant, Wis.

Grounds for relief: Railwater and natural gas competition.

Tariff: Illinois Freight Association tariff I.C.C. 951.

FSA No. 36753: *Fresh meats and packing house products from points in central, Illinois, and WTL territories.* Filed by Western Trunk Line Committee, Agent (No. A-2156), for interested rail carriers. Rates on fresh meats and packing house products, in carloads, as described in the application, from specified points in central, Illinois, and western trunkline territories, to points in southern territory.

Grounds for relief: Truck competition, shortline distance formula and grouping.

Tariff: Western Trunk Line Committee, Agent, tariff I.C.C. A-4344, and supplements 4, 7, and 8 thereto, also other schedules listed in the application.

FSA No. 36754: *Bituminous fine coal to Franklin, Va.* Filed by O. W. South, Jr., Agent (No. A4047), for interested rail carriers. Rates on bituminous fine coal, in carloads, from origins on Southern Railway in southwest Virginia, to Franklin, Va.

Grounds for relief: Maintain origin rate relationships.

Tariff: Supplement 92 to Southern Railway Tariff I.C.C. A-11352.

FSA No. 36755: *Class and commodity rates from and to Midwest (Portage), Ogden Dunes, and Wilson, Ind.* Filed by Illinois Freight Association, Agent (No. 119), for interested rail carriers. Rates on various commodities moving on class or commodity rates from and to Midwest (Portage), Ogden Dunes, and Wilson, Ind.

Grounds for relief: Establishment of new stations.

By the Commission.

DEPARTMENT OF LABOR

Wage and Hour Division

CERTIFICATES AUTHORIZING EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM RATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 524 (24 F.R. 9274) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.24, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Alabama Textile Products Corp., Andalusia, Ala.; effective 12-1-60 to 11-30-61 (men's dress and sport shirts, work pants).

Anthracite Shirt Co., 1 South Franklin Street, Shamokin, Pa.; effective 12-1-60 to 11-30-61 (men's and boys' dress and sport shirts).

Berwick Shirt Co., 10th and Pine Streets, Berwick, Pa.; effective 11-24-60 to 11-23-61 (men's sport shirts).

Blue Bell, Inc., Mt. Jackson, Va.; effective 12-1-60 to 11-30-61 (boys', girls' and ladies' dungarees).

Duti-Duds, Inc., 1117 Clay Street, Lynchburg, Va.; effective 12-2-60 to 12-1-61 (women's cotton, nylon and dacron uniforms).

Gattman Sportswear, Inc., Gattman, Miss.; effective 11-27-60 to 11-26-61 (men's dress slacks).

Glen of Michigan, Div. of Rhea Manufacturing Co., 77 Hancock Street, Manistee, Mich.; effective 12-6-60 to 12-5-61. Learners may not be employed at special minimum wage rates in the production of separate skirts. (Misses' dresses, blouses, children's outerwear.)

International Latex Corp., Manchester, Ga.; effective 12-1-60 to 11-30-61 (brassieres).

Lady Ester Lingerie Corp., 10th and Walnut Streets, Berwick, Pa.; effective 12-1-60 to 11-30-61 (ladies' and children's slips).

Myco Manufacturing Co., Inc., Montgomery, Pa.; effective 12-1-60 to 11-30-61 (ladies' housecoats, dusters, robes).

Publix Tennessee Corp., Huntingdon, Tenn.; effective 12-1-60 to 11-30-61 (men's and boys' sport shirts).

Regal Shirt Corp., South Third Street, Catawissa, Pa.; effective 12-1-60 to 11-30-61 (men's knit sport shirts).

Wargosa Manufacturing Co., Inc., 101 Bel Air Drive, Columbia, Tenn.; effective 12-1-60 to 11-30-61 (men's sport shirts).

The following learner certificates were issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Armored Garments, Inc., Cabin Road, Spruce Pine, N.C.; effective 12-1-60 to 11-30-61; 10 learners (boys' and men's denim dungarees).

Gloucester Pants Co., Inc., 377 Main Street, Gloucester, Mass.; effective 12-1-60 to 11-30-61; 10 learners (men's and boys' trousers).

The Jay Garment Co., Brookville, Ind.; effective 12-1-60 to 11-30-61; 10 learners (children's overalls, boys').

Meyers & Son Manufacturing Co., Inc., First and Jefferson Streets, Madison, Ind.; effective 11-14-60 to 10-8-61; 10 learners (replacement certificate) (men's one piece work suits, work aprons).

Meyers & Son Manufacturing Co., Inc., New Castle, Ky.; effective 11-16-60 to 11-15-61; 10 learners (men's one piece work suits).

More Manufacturing Co., Marissa, Ill.; effective 11-16-60 to 11-15-61; 10 learners (housecoats, pajamas and petticoats).

The following learner certificate was issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

The H. D. Lee Co., Inc., Sulphur Springs, Texas; effective 11-20-60 to 5-19-61; 50 learners (pants).

Hosiery Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.40 to 522.44, as amended).

Corinth Seamless Hosiery, Inc., 311 South Liddon Lake Road, Corinth, Miss.; effective 11-19-60 to 5-18-61; 20 learners for plant expansion purposes (seamless).

Nebel Knitting Co., 101 West Worthington Avenue, Charlotte, N.C.; effective 11-22-60 to 11-21-61; 5 percent of the total number of factory production workers for normal labor turnover purposes (full-fashioned, seamless).

Triangle Hosiery Co., Inc., 510 Grimes Street, High Point, N.C.; effective 11-20-60 to 11-19-61; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' socks).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.30 to 522.35, as amended).

Brown Century Corp., Lake Village, Ark.; effective 11-16-60 to 11-15-61; 5 learners for normal labor turnover purposes (men's and boys' knitted underwear).

Brown Century Corp., Lake Village, Ark.; effective 11-16-60 to 5-15-61; 45 learners for plant expansion purposes (men's and boys' knitted underwear).

Chadbourn Textiles, Inc., Chadbourn, N.C.; effective 11-23-60 to 11-22-61; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' knitted tee shirts).

Cluett, Peabody & Co., Inc., Eveleth, Minn.; effective 11-28-60 to 11-27-61; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's underwear).

Shoe Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.50 to 522.55, as amended).

Loree Footwear Corp., Jefferson County, Big Run, Pa.; effective 12-1-60 to 11-30-61; 10 percent of the total number of factory production workers for normal labor turnover purposes (women's casuals).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 25th day of November 1960.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

Title 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

SUBCHAPTER I—DETERMINATION OF PRICES

PART 871—SUGAR BEETS

1960 Crop

Pursuant to the provisions of section 301(c)(2) of the Sugar Act of 1948, as amended (herein referred to as "act"), after investigation and due consideration of evidence presented at the public hearings held in January 1960 (for southern Oregon, California, and western Nevada), and during December 1959 (for States other than those regions), the following determination is hereby issued:

§ 871.13 Fair and reasonable prices for the 1960 crop of sugar beets.

A producer of sugar beets who is also a processor of sugar beets (herein referred to as "processor") shall have paid, or contracted to pay for sugar beets of the 1960 crop grown by other producers and processed by him, in accordance with the following requirements:

(a) *Purchase agreements.* The price for sugar beets shall be not less than that determined pursuant to the 1960 crop sugar beet purchase contract between the processor and producers.

(b) *Applicability.* The requirements of this section apply to sugar beets grown by a producer within the proportionate share for the farm and processed by the processor for the extraction of sugar or liquid sugar.

(c) *Reporting requirements.* The processor shall report to the Director, Sugar Division, Commodity Stabilization Service, U.S. Department of Agriculture, Washington 25, D.C., within 60 days after the close of the sales period specified in the sugar beet purchase contract an itemized statement, for each settlement district, signed by an authorized official of the company or certified by an independent accountant showing the computation of "net proceeds" or "net returns" as specified in such contract. Such statement shall be substantially in the form as that contained in Schedule A: *Provided*, That if the processor markets beet sugar to an affiliate company or other affiliate business entity he shall report separately the quantity of sugar so marketed and the gross sales price and the net returns derived therefrom.

SCHEDULE A—STATEMENT OF AVERAGE NET RETURNS OR NET PROCEEDS FROM SALES OF SUGAR[1]

Company .....
Settlement area .....
Period .....

	Per hundredweight sugar (dollars)
Gross sales price:	
Total returns	
Less sales and marketing expenses:	
Federal excise tax	
Freight on sugar to destination	
Cash discount	
Allowances	
Brokerage	
Off-site storage (actually paid)	
Storage (computed charge)[2]	
Loading and handling	
Taxes	
Insurance	
Cost of packing in excess of basis pack	
Advertising	
Sales department expenses:	
Salaries	
Travel	
Miscellaneous	
Other (specify)	
Total expense	
Net returns	

[1] Include proceeds from the sales of molasses and beet pulp where the purchase contract specifies that such proceeds are to be included in calculating the net return.

[2] Explain any charges which have been computed for storage in connection with a facility owned by the processor.

(d) *Subterfuge.* The processor shall not reduce returns to producers below those determined in accordance with the requirements of this section through any subterfuge or device whatsoever.

STATEMENT OF BASES AND CONSIDERATIONS

a. *General.* The foregoing determination establishes the fair and reasonable price requirements which must be met, as one of the conditions for payment under the act, by a producer who processes sugar beets of the 1960 crop grown by other producers.

b. *Requirements of the act.* Section 301(c)(2) of the act provides that the producer on the farm who is also, directly or indirectly, a processor of sugar beets or sugarcane, as may be determined by the Secretary, shall have paid, or contracted to pay under either purchase or toll agreements, for any sugar beets or sugarcane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing.

c. *1960 fair price determination.* This determination provides that a processor shall be deemed to have complied with the fair price provisions of the act if he has paid, or contracted to pay, prices for sugar beets not less than those determined pursuant to his 1960 crop purchase contract with producers.

Several representatives of producers testified at the public hearings. The representative of the Nyssa-Nampa Beet Growers Association stated that the increased volume of sugar beets and sugar production in recent years had resulted in larger profits to processors but that producers' returns per ton of beets were less because of lower net returns from the larger volume of beet sugar sold in distant markets. Representatives of other grower associations concurred in the statement of this witness. The representative of the California Beet Growers Association stated that processors at times sell sugar below their quoted prices which results in lower net returns. The witness recommended that the Department give growers some assistance in pointing the way to an alternative basis for pricing sugar beets, such as determining net returns on the basis of quoted sugar prices, which might cause processors to be less likely to grant price concessions. He also recommended that processors be required to furnish producers with a detailed statement of the marketing expenses used in computing net returns for the purpose of making settlements with producers. In testifying with respect to purchase contracts in the Imperial Valley, the witness pointed out that sugar beets contracted by one processor in this region must be transported a considerable distance to the mill for processing. The contract provides that a stated portion of the freight cost be borne by the producer, subject to change in the amount by which the total freight cost stated in the contract increases or decreases. The witness recommended that the determination prohibit the operation of such an escalator clause because the freight cost to the producer is not fixed.

The viewpoint of producers in wishing to explore a different basis for settlement for sugar beets is completely understandable. They absorb a larger part of sugar price concessions than do processors under current sugar beet purchase contracts at sugar prices which have prevailed in recent years. Sugar beet purchase contracts currently used have evolved through negotiations between producers and processors over the past 40 years. The producer is paid for his sugar beets on the basis of the quality of the beets delivered to the processor and the net returns obtained by the processor from beet sugar sales (or in some re-

gions, sales of sugar and by-products). Thus, the producer shares, along with the processor, the price risk involved in marketing sugar. In the negotiations which led to the development of many of the present contracts, producers actively sought a higher percentage share in increments of net returns encompassing the level of such net returns of recent years and processors sought a larger percentage of net returns at levels below this range. Some contracts were negotiated on a straight-line percentage participation in net return increments rather than the varying percentage participation at the several net return increments, which tended to balance the interests of producers and processors at all levels of net returns.

Marketing beet sugar has become progressively more difficult as the beet sugar marketing quotas have increased. This has sharpened competition, increased discounts, and involved greater freight absorptions.

Most beet sugar is produced in areas having a low population and industrial density. Once the nearby markets which offer high net returns have been saturated, remaining production must be sold in distant and less favorable markets. This involves higher marketing costs such as freight absorption, in-transit storage and additional sales contacts. This sugar is sold in competition with west coast, gulf and east coast cane sugar and frequently at a price concession. Although California has high population and industrial density, it has a surplus of both beet and cane sugar. Beet sugar sales have accounted for an increasingly larger share of the total sugar sales in the State, while the proportion of beet sugar which must be marketed in distant territories has been reduced and average net returns thereby increased. Admittedly, price concessions have been instrumental in achieving a larger share of the home market. To the extent that such price concessions have been greater than necessary to acquire marketing outlets, if indeed there have been any such, the major burden of such price concessions has fallen upon producers. However, it is in the interest of processors to sell their annual production of sugar at times and places and in the manner calculated to yield the most favorable net returns possible within the marketing climate created by the Sugar Act. Their own success depends upon this.

The principal value in the present participating type contract, resides in the fact that the sharing of the price risk enables the processor to pay higher prices for sugar beets than would otherwise be possible at a given level of net returns. If the processor were to pay a fixed price for sugar beets, regardless of sugar prices, he would need to be compensated for assuming the full price risk. Likewise, if the processor were to assume the responsibility of paying for sugar beets on the basis of net returns computed from price quotations, rather than net returns actually realized, he would need to be compensated for the price risk greater than the one he now assumes. It is not clear, therefore, that adoption of a quoted price basis of computing net returns would be more advantageous to producers. It would involve risks which the Government, certainly, should not impose upon growers.

There is no authoritative central source for quoted refined beet sugar prices. In this respect, the situation is different than for raw cane sugar for which there is a central source of price quotations, which is used in making settlements between producers and processors for sugarcane. Processors of refined beet sugar periodically issue announcements of prices for the different types of beet sugar and the terms of sale. These announcements are offers to sell beet sugar. Price changes may be made to meet "announced competition" or "unannounced competition". Usually the announcements contain price concessions or allowances for certain territories or may offer favorable prices for sales during a certain period of time. These releases indicate general market price levels but are complicated because of variations concerning time, place, quality, and package and thus do not constitute a convenient or even an authoritative basis of market price quotations.

Over the past decade a number of alternative methods of pricing sugar beets have been examined. Among these are (1) adjusting net returns for a local area to national average net returns; (2) relating local area net returns to national average raw and refined sugar prices; (3) basing prices for sugar beets on gross returns rather than on net returns; and (4) the use of tolling contracts under which producers would receive payment in kind and would have the responsibility of marketing, or would form a cooperative association to market their sugar. However, each of these alternatives presents special problems and considerations for producers and processors. Some would necessitate reevaluation of risk recognition in the purchase contracts. To the extent that processors assume added risks they would be entitled to added protection. One would necessitate duplication by growers or associations of growers of marketing facilities already available to processors. The Department is not convinced that the adoption of any one of them would be an improvement upon the participating principle incorporated in the present contracts.

An examination of the 1960 crop purchase contracts negotiated by producers and processors shows that the provisions relating to payments for sugar beets conform in most respects to those applicable to the 1959 crop. A majority of the contracts contain minor changes in some of the other provisions. In analyzing these contracts, consideration has been given to the comparative operating results of producers and processors obtained by field study for a recent crop and recast in terms of prospective conditions for the 1960 crop. The analysis indicates that prices payable for sugar beets as specified in the 1960 crop purchase contracts are fair and reasonable at current prices of sugar.

In recent years some of the processors have erected storage facilities to reduce the volume of sugar which would otherwise be placed in public storage. These processors have obtained agreement with producers whereby the accounting system used in computing net returns under the contract for sugar marketed would be modified so as to include a charge for these storage facilities. In recognition of this situation, Schedule A of this determination provides for separate reporting of actual expenditures for public storage and charges computed for storage in facilities owned by the processor.

Accordingly, I hereby find and conclude that the foregoing price determination will effectuate the price provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U.S.C. Sup. 1153. Interprets or applies Sec. 301, 61 Stat. 929; 7 U.S.C. Sup. 1131)

Issued this 5th day of December 1960.

E. T. BENSON,
Secretary of Agriculture.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS AND POULTRY

PART 72—TEXAS (SPLENETIC) FEVER IN CATTLE

Areas Regulated in Florida and New York

Pursuant to the provisions of sections 1 through 4 of the Act of March 3, 1905, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, and sections 4 through 7 of the Act of May 29, 1884, as amended (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126), Part 72, Title 9, Code of Federal Regulations, is hereby amended as follows:

1. Section 72.2 is amended by changing the heading and the third and fourth sentences thereof to read, respectively, as follows:

§ 72.2 Splenetic or tick fever in cattle in described territory in Florida, New York, Texas, Puerto Rico, and the Virgin Islands of the United States; restrictions on movement of cattle.

* * * Notice is also hereby given that there is reason to believe that said disease may exist in portions of the States of Florida and New York. Therefore, those portions of the State of Florida described in § 72.5a and those portions of the State of New York described in § 72.5b are hereby regulated, and the movement of cattle therefrom into any other State or Territory or the District of Columbia shall be made only in accordance with the provisions of this part and Part 71 of this chapter.

2. A new § 72.5b is issued to read:

§ 72.5b Area regulated in New York.

(a) The following portion of the State of New York is regulated:

Greene County. Beginning at a point in the Town of Catskill 100 feet north of a large rock, which rock is mentioned in the description of the first premises described in a deed from Austin T. Simmons to the Catskill Game Farm, Incorporated, dated September 8, 1958, recorded in the Greene County Clerks office in book 370 at page 476, and which point of beginning is in the west line of the first described premises in said deed and running southerly from said point of beginning along the west line of the premises first described in the above mentioned deed, and an extension thereof, a distance of 450 feet; thence, running westerly at right angles to the first described line, a distance of 350 feet; thence, running northerly parallel to the first described line, a distance of 450 feet; thence, running easterly a distance of 350 feet to the point of beginning.

(b) All of the provisions of this part and Part 71 of this chapter which are applicable to quarantined areas shall apply to such regulated area in the same manner and to the same extent as if it were quarantined.

§ 72.5a [Amendment]

3. Subparagraph (1) of paragraph (a) of § 72.5a, relating to Hillsborough County in Florida, is amended to read:

(1) Hillsborough County: Beginning at the intersection of U.S. Highway No. 301 and Buffalo Avenue, running 2.7 miles west to the intersection of Buffalo Avenue and 50th Street; thence, 1 mile south to the intersection of 50th Street and Columbus Drive; thence, 1.3 miles east to the intersection of Columbus Drive and State Road No. 574, continuing 1.1 miles east to the intersection of State Road No. 574 and State Road No. 43; thence, 0.7 mile southeast to the intersection of State Road No. 43 and U.S. Highway No. 301; thence, 1.6 miles north to the intersection of U.S. Highway No. 301 and Buffalo Avenue, the point of beginning; and the northeast ¼ of section 20, Township 28 South, Range 19 East, less the rectangle in the southwest corner thereof extending 100 feet eastward from the west boundary of the northeast ¼ section, and 40 feet northward from the south boundary of the northeast ¼ section.

(Secs. 1–4, 33 Stat. 1264, as amended, 1265, as amended, secs. 1, 2, 32 Stat. 791, as amended, 792, as amended, secs. 4–7, 23 Stat. 32, as amended; 21 U.S.C. 111–113, 115, 117, 120, 121, 123–126)

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment imposes certain further restrictions necessary to prevent the spread of splenetic or tick fever. It must be made effective immediately to accomplish its purpose in the public interest. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 2d day of December 1960.

M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F.R. Doc. 60-11395; Filed, Dec. 7, 1960; 8:48 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 592; Amdt. 231]

PART 507—AIRWORTHINESS DIRECTIVES

Lockheed 188 Aircraft

Amendment 202, 25 F.R. 9241, requiring modification of the electrical system on Lockheed 188 aircraft incorrectly referenced Lockheed Electra Alert Service Bulletin 405 rather than 408 in the final parenthetical statement. Therefore, Amendment 202 is being amended to correct the bulletin number. Since the amendment is for correction, notice and public procedure hereon are unnecessary and the amendment will be made effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is amended as follows:

Amendment 202, Lockheed 188 aircraft (25 F.R. 9241) is amended by deleting "405" from the final parenthetical statement and inserting in lieu thereof "408".

This amendment shall become effective December 8, 1960.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on December 2, 1960.

GEORGE C. PRILL,
Acting Director, Bureau of Flight Standards.

[F.R. Doc. 60-11368; Filed, Dec. 7, 1960; 8:45 a.m.]

[Reg. Docket No. 593; Amdt. 232]

PART 507—AIRWORTHINESS DIRECTIVES

Boeing 707 Aircraft

Satisfactory service experience with Boeing 707 main landing gear truck beam on aircraft which have been modified in accordance with Boeing Service Bulletin No. 535 and No. 535B referenced in Amendment 53, 24 F.R. 9386, shows that an increase in the inspection interval from 300 to 320 flight-hours will not adversely affect the current level of safety. Accordingly, the inspection interval in the final paragraph of Amendment 53 is being extended to 320 flight-hours.

Since this amendment provides a relaxation and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment will become effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is amended as follows:

Amendment 53, Boeing Model 707 aircraft, 24 F.R. 9386, is amended by changing the final phrase of the last paragraph to read "the inspection interval may be extended from 60 to 320 flight-hours."

The amendment shall become effective December 8, 1960.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on December 2, 1960.

GEORGE C. PRILL
Acting Director, Bureau of Flight Standards.

[F.R. Doc. 60-11369; Filed, Dec. 7, 1960; 8:45 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 60-LA-50]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Federal Airway, Associated Control Areas and Reporting Points

On September 22, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9122) stating that the Federal Aviation Agency proposed to revoke, in its entirety, Red Federal airway No. 56, its associated control areas, and reporting points.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, Parts 600 and 601 (14 CFR Parts 600, 601) are amended as follows:

1. Section 600.256 *Red Federal airway No. 56 (Red Bluff, Calif., to Whitmore, Calif.)* is revoked.

2. Section 601.256 *Red Federal airway No. 56 control areas (Red Bluff, Calif., to Whitmore, Calif.)* is revoked.

3. Section 601.4256 *Red Federal airway No. 56 (Red Bluff, Calif., to Whitmore, Calif.)* is revoked.

These amendments shall become effective 0001 e.s.t., February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 1, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11373; Filed, Dec. 7, 1960; 8:45 a.m.]

[Airspace Docket No. 60-LA-42]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Federal Airway, Associated Control Areas and Reporting Points

On September 22, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9122) stating that the Federal Aviation Agency proposed to revoke, in its entirety, Red Federal airway No. 71, its associated control areas, and reporting points.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, Parts 600 and 601 (14 CFR Parts 600, 601) are amended as follows:

1. Section 600.271 *Red Federal airway No. 71 (El Paso, Tex., to Lubbock, Tex.)* is revoked.

2. Section 601.271 *Red Federal airway No. 71 control areas (El Paso, Tex., to Lubbock, Tex.)* is revoked.

3. Section 601.4271 *Red Federal airway No. 71 (El Paso, Tex., to Lubbock, Tex.)* is revoked.

These amendments shall become effective 0001 e.s.t., February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 1, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11375; Filed, Dec. 7, 1960; 8:46 a.m.]

[Airspace Docket No. 60-NY-74]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of a Segment of Federal Airway, Associated Control Areas and Reporting Points, and Modification of Control Area Extension

On September 14, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8827), stating that the Federal Aviation Agency proposed to revoke the segment of Green Federal airway No. 3 which extends from Goshen, Ind., to New York, N.Y., its associated control areas and reporting points. In addition, the Goshen control area extension would be modified.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

§ 600.13 [Amendment]

1. § 600.13 (14 CFR 600.13), the follow changes are made:

(a) In the caption "*(Oakland, Calif., to Des Moines, Iowa, and Goshen, Ind., to New York, N.Y.)*" is deleted and "*(Oakland, Calif., to Des Moines, Iowa)*" is substituted therefor.

(b) In the text "From the Goshen, Ind., RR via the Toledo, Ohio radio range station; Cleveland, Ohio, radio range station; Youngstown, Ohio, radio range station; the intersection of the east course of the Youngstown, Ohio, radio range and the west course of the Philipsburg, Pa., radio range; Philipsburg, Pa., radio range station; Allentown, Pa., radio range station; the intersection of the east course of the Allentown, Pa., radio range and the southwest course of the New York, N.Y., (La Guardia), radio range to the New York, N.Y. (La Guardia), radio range station." is deleted.

§ 601.13 [Amendment]

2. In the caption of § 601.13 (14 CFR 601.13) "*(Oakland, Calif., to Des Moines, Iowa, and Goshen, Ind., to New York, N.Y.)*" is deleted and "*(Oakland, Calif., to Des Moines, Iowa)*" is substituted therefor.

§ 601.4013 [Amendment]

3. In § 601.4013 (14 CFR 601.4013), the following changes are made:

(a) In the caption "*(Oakland, Calif., to Des Moines, Iowa, and Goshen, Ind., to New York, N.Y.)*" is deleted and "*(Oakland, Calif., to Des Moines, Iowa)*" is substituted therefor.

(b) In the text "Des Moines, Iowa, radio range station; Goshen, Ind., radio range station; Toledo, Ohio, radio range station; Cleveland, Ohio, radio range station; Youngstown, Ohio, radio range station; Philipsburg, Pa., radio range station; Selinsgrove, Pa., nondirectional radio beacon; Allentown, Pa., radio range station." is deleted and "Des Moines, Iowa, RR." is substituted therefor.

4. Section 601.1257 (14 CFR 601.1257) is amended to read:

§ 601.1257 Control area extension (Goshen, Ind.).

The airspace within a 15-mile radius of the Goshen VOR, including the airspace NE of the Goshen VOR bounded on the W by VOR Federal airway No. 277, on the N by VOR Federal airway No. 10, on the NE by VOR Federal airway No. 30, and on the S by VOR Federal airway No. 92.

These amendments shall become effective 0001 e.s.t., February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 1, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11376; Filed, Dec. 7, 1960; 8:46 a.m.]

[Airspace Docket No. 60-LA-47]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Federal Airway, Associated Control Areas and Reporting Points

On September 22, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9121) stating that the Federal Aviation Agency proposed to revoke, in its entirety, Blue Federal airway No. 67, its associated control areas, and reporting points.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, Parts 600 and 601 (14 CFR Parts 600, 601) are amended as follows:

1. Section 600.667 *Blue Federal airway No. 67 (Yuma, Ariz., to Las Vegas, Nev.)* is revoked.

2. Section 601.667 *Blue Federal airway No. 67 control areas (Yuma, Ariz., to Las Vegas, Nev.)* is revoked.

3. Section 601.4667 *Blue Federal airway No. 67 (Yuma, Ariz., to Las Vegas, Nev.)* is revoked.

These amendments shall become effective 0001 e.s.t., February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 1, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11377; Filed, Dec. 7, 1960; 8:46 a.m.]

[Airspace Docket No. 60-WA-266]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Modification of Federal Airways, Control Area Extensions, Coded Jet Routes and Domestic VOR Reporting Points

The purpose of these amendments to §§ 600.6066, 601.7001, 601.1111, 602.501, 602.502, and 602.503 of the regulations of the Administrator is to change the name of the San Diego control area extension, VOR Federal airway No. 66, the Pacific, Calif., intersection, and VOR/VORTAC jet routes No. 1, 2, and 3. Such action is taken herein.

Since these changes are editorial in nature and will not assign or reassign the use of the navigable airspace, notice and public procedure hereon are unnecessary and they may be made effective on less than 30 days' notice.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), the following actions are taken:

1. In the text of § 600.6066 (14 CFR 600.6066, 25 F.R. 4278, 6686, 8098, 9944) "From the San Diego, Calif., VOR." is deleted and "From the Mission Bay, Calif., VOR." is substituted therefor.

2. In the text of § 601.1111 (25 F.R. 9364) "The airspace within a 21-mile radius of the San Diego VOR extending counter-clockwise from the San Diego VOR 251° True radial to the boundary of the Miramar, Calif., control area extension (§ 601.1223), within 5 miles either side of the 251° True radial of the San Diego VOR" is deleted and "The airspace within a 21-mile radius of the Mission Bay, Calif., VOR extending counterclockwise from the Mission Bay VOR 251° True radial to the boundary of the Miramar, Calif., control area extension (§ 601.1223), within 5 miles either side of the 251° True radial of the Mission Bay VOR" is substituted therefor.

3. In the text of § 601.7001 (25 F.R. 7489) Pacific INT is amended as follows: "San Diego, Calif.," is deleted and "Mission Bay, Calif.," is substituted therefor.

4. In the text of § 601.7001 (14 CFR 601.7001) "San Diego, Calif., omnirange station." is deleted and "Mission Bay, Calif., VOR." is substituted therefor.

5. In the text of § 602.501 (14 CFR 602.501) "From the San Diego, Calif.," is deleted and "From the Mission Bay, Calif.," is substituted therefor.

6. In the text of § 602.502 (14 CFR 602.502, 25 F.R. 3067) "From the San Diego, Calif.," is deleted and "From the Mission Bay, Calif.," is substituted therefor.

7. In the text of § 602.503 (14 CFR 602.503) "From the San Diego, Calif.," is deleted and "From the Mission Bay, Calif.," is substituted therefor.

These amendments shall become effective 0001 e.s.t., December 15, 1960.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 1, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[Airspace Docket No. 60-FW-74]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Area

On October 1, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9416) stating that the Federal Aviation Agency proposed to modify the Longview, Tex., control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 601.2288 (14 CFR 601.2288) is amended to read:

§ 601.2288 Longview, Tex., control zone.

Within a 5-mile radius of the Gregg County Airport (latitude 32°23'15" N., longitude 94°42'50" W.), and within 2 miles either side of the 313° True radial of the Gregg County, Tex., VOR extending from the 5-mile radius zone to 12 miles NW of the VOR.

This amendment shall become effective 0001 e.s.t., February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 2, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[Airspace Docket No. 60-FW-68]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Zone

On October 1, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9417) stating that the Federal Aviation Agency proposed to modify the Augusta, Ga., control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 601.2131 (14 CFR 601.2131) is amended to read:

§ 601.2131 Augusta, Ga., control zone.

Within a 5-mile radius of Bush Field, Augusta, Ga. (latitude 33°22'05" N., longitude 81°57'40" W.), and within 2 miles either side of the 130° True bearing from the Augusta RR extending from the 5-mile radius zone to the RR; within 2 miles either side of the 141° True radial of the Augusta VOR extending from the 5-mile radius zone to 2.5 miles NW, excluding that portion which coincides with the Savannah River, Ga., Prohibited Area (P-378).

This amendment shall become effective 0001 e.s.t., February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 2, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[Airspace Docket No. 60-FW-66]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Control Area Extension

On September 22, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9123) stating that the Federal Aviation Agency proposed to revoke the Cross City, Fla., control area extension.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, Part 601 (14 CFR Part 601) is amended as follows:

Section 601.1320 *Control area extension (Cross City, Fla.)* is revoked.

This amendment shall become effective 0001 e.s.t., February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 1, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[Airspace Docket No. 60-WA-229]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Modification of Coded Jet Routes

On October 1, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9418) stating that the Federal Aviation Agency proposed to modify VOR/VORTAC jet routes No. J-23-V, J-26-V, J-45-V, J-51-V, J-53-V, and J-55-V.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

1. In the text of § 602.523 (14 CFR 602.523, 25 F.R. 1094) "Wichita Falls, Tex., VOR; Oklahoma City, Okla., VOR;" is deleted and "Wichita Falls, Tex., VORTAC; INT of the Wichita Falls VORTAC 028° True and the Oklahoma City, Okla., VORTAC 202° True radials; Oklahoma City VORTAC;" is substituted therefor.

2. In the text of § 602.526 (14 CFR 602.526) "Roswell 216° radials;" is deleted and "Roswell 213° True radials;" is substituted therefor.

3. In the text of § 602.545 (14 CFR 602.545) "Nashville, Tenn., VOR; St. Louis, Mo., VOR" is deleted and "Nashville, Tenn., VORTAC; INT of the Nashville VORTAC 316° True and the St. Louis, Mo., VORTAC 129° True radials; St. Louis VORTAC;" is substituted therefor.

4. In the text of § 602.551 (14 CFR 602.551) "INT Florence, S.C., 008° and the Raleigh 232° radials" is deleted.

5. In the text of § 602.553 (14 CFR 602.553) "via the Miami, Fla., VOR; West Palm Beach, Fla., VOR; Vero Beach, Fla., VOR; Jacksonville, Fla., VOR; INT Jacksonville 347° and Augusta 176° radials; Augusta, Ga., VOR;" is deleted and "via the INT of the Key West VOR 054° True and the Miami, Fla., VORTAC 214° True radials; Miami VORTAC; West Palm Beach, Fla., VORTAC; Vero Beach, Fla., VOR; INT of the Vero Beach VOR 339° True and the Jacksonville, Fla., VORTAC 163° True radials; Jacksonville VORTAC; INT of the Jacksonville VORTAC 343° True and the Augusta, Ga., VOR 180° True radials; Augusta VOR;" is substituted therefor.

6. In the text of § 602.555 (14 CFR 602.555) "INT Florence 008° and Raleigh 232° radials; Raleigh, N.C., VOR;" is deleted and "INT of the Florence VOR 007° True and the Raleigh, N.C., VORTAC 224° True radials; Raleigh VORTAC;" is substituted therefor.

These amendments shall become effective 0001 e.s.t., January 12, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 1, 1960.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7948 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Contact Lens Specialists, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.170 *Qualities or properties of product or service:* § 13.170-22 Corrective, orthopedic, etc.; § 13.190 *Results;* § 13.288 *Unique nature or advantages.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Contact Lens Specialists, Inc. (Boston, Mass.), et al., Docket 7948, October 12, 1960]

In the Matter of Contact Lens Specialists, Inc., a Corporation, and Leonard G. Wolfson, Individually and as an Officer of Said Corporation

Consent order requiring Boston sellers to cease representing falsely in advertising that all persons could wear their contact lenses and without discomfort; that eyeglasses could be discarded; that the lenses would correct all defects in vision; and that they differed from other lenses.

The order to cease and desist is as follows:

It is ordered, That respondents Contact Lens Specialists, Inc., a corporation, and its officers, and Leonard G. Wolfson, individually and as a former officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of their contact lenses, do forthwith cease and desist, directly or indirectly, from:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or by implication, that:

(a) All persons in need of visual correction can successfully wear respondents' contact lenses.

(b) There is no discomfort from wearing respondents' contact lenses.

(c) A person can wear said contact lenses all day without discomfort unless it is clearly revealed that this is possible only after such person has become fully adjusted thereto.

(d) Eyeglasses can always be discarded upon the purchase of respondents' contact lenses.

(e) Respondents' contact lenses will correct all defects in vision.

(f) Respondents' contact lenses are different than other contact lenses in that they permit tears to bathe the cornea of the eye of the wearer; or are different in any other respect, unless such is the fact.

2. Disseminating or causing to be disseminated any advertisement, by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of said products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any representation prohibited in paragraph 1, above, or which fails to reveal the facts set out in paragraph 1(c) above.

It is further ordered, That the complaint be, and the same hereby is, dismissed as to Leonard G. Wolfson as an officer of said corporation.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent Contact Lens Specialists, Inc., a corporation and Leonard G. Wolfson, individually, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 12, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F.R. Doc. 60-11379; Filed, Dec. 7, 1960; 8:46 a.m.]

Title 41—PUBLIC CONTRACTS

Chapter 5—General Services Administration

PART 5-1—GENERAL

Antitrust Violations

Part 5-1 is amended by adding new Subpart 5-1.9, as follows:

Subpart 5-1.9—Reporting Possible Antitrust Violations

§ 5-1.901 General.

Whenever circumstances arise that, in the opinion of the contracting officer, may indicate collusive practices or any other type of suspect bidding procedure, which may result in other than truly competitive prices to the Government and violation of the antitrust laws, he shall handle the matter in accordance with Subpart 1-1.9.

Effective date. These regulations are effective immediately.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Dated: December 1, 1960.

FRANKLIN FLOETE,
Administrator.

Chapter 50—Division of Public Contracts, Department of Labor

PART 50-201—GENERAL REGULATIONS

Partial Exemption of Barter or Exchange Contracts of the Commodity Credit Corporation From the Walsh-Healey Public Contracts Act and Miscellaneous Amendments

In accordance with section 6 of the Walsh-Healey Public Contracts Act (49 Stat. 2038, 41 U.S.C. 40) and 41 CFR 50-201.601, the Secretary of Agriculture has requested an exception or exemption from the representation required under section 1(a) of the Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. 35(a).) that the government contractor be the manufacturer of or a regular dealer in the materials to be manufactured or used in the performance of the contract, for commodity exchange contracts entered into by the Commodity Credit Corporation with contractors to barter or exchange agricultural commodities under the Commodity Credit Corporation Charter Act (secs. 4(h), 5 (d) and (f), 62 Stat. 1070 and 1072, 15 U.S.C. 714b(h), 714c(d) and (f)), section 416 of the Agricultural Act of 1949 (63 Stat. 1058, 7 U.S.C. 1431), section 103(a)(2) of the Agricultural Act of 1954 (68 Stat. 898, 7 U.S.C. 1743(a)(2)), or section 303 of the Agricultural Trade Development and Assistance Act of 1954 (68 Stat. 459, 7 U.S.C. 1692).

The request is based upon a finding by the Secretary of Agriculture that the stipulation in question would seriously impair the conduct of Government business with respect to the barter or exchange programs since the fundamental purpose of the programs is the disposal abroad of surplus agricultural commodities rather than the procurement of material and, to this end, it is necessary at times to transact business with a contractor who may not be the "manufacturer" or a "regular dealer" within the meaning of the Walsh-Healey Public Contracts Act.

Upon the basis of the presentation of the Secretary of Agriculture and pursuant to section 6 of the Walsh-Healey Public Contracts Act, I have decided that the public interest will be served by excepting and exempting the above-discussed barter or exchange contracts from the requirement of section 1(a) of the Act and 41 CFR 50-201.1 that the contractor represents that he is the manufacturer of or a regular dealer in the materials, supplies, articles, or equipment to be manufactured or used in the performance of the contract.

Accordingly, to effect this purpose, to separate the total from the partial exemptions, to make editorial revision necessitated by the changed status of Alaska and Hawaii, and to eliminate an obsolete reference to emergency plant facilities contracts, 41 CFR 50-201.603 is amended and a new section, 41 CFR 50-201.604 is provided, to read as follows:

§ 50-201.603 Full administrative exemptions.

The following classes of contracts have been exempted from the application of § 50-201.1 pursuant to the procedure required under section 6 of the act:

(a) Contracts for public utility services including electric light and power, water, steam, and gas;

(b) Contracts for materials, supplies, articles, or equipment no part of which will be manufactured or furnished within the geographic limits of the States of the United States of America, Puerto Rico, the Virgin Islands, or the District of Columbia: In addition, the representations and stipulations required by the act and this part in any contract for materials, supplies, articles, or equipment to be manufactured or furnished in part within and in part outside such geographic limits shall not be applicable to any work performed under the contract outside such geographic limits;

(c) Contracts covering purchases against the account of a defaulting contractor where the stipulations required in this section were not included in the defaulted contract;

(d) Contracts awarded to sales' agents or publisher representatives, for the delivery of newspapers, magazines or periodicals by the publishers thereof.

(Secs. 4 and 6, 49 Stat. 2038, 41 U.S.C. 38 and 40)

§ 50-201.604 Partial administrative exemptions.

(a) Contracts with a person who regularly buys and sells coal on his own account in lots of not less than a cargo or railroad carload, or with a person who is authorized by one or more persons engaged in mining coal to negotiate and conclude contracts for the furnishing thereof in such lots, are exempt from the requirement of section 1(a) of the act and § 50-201.1 of this part that such person represent that he is a manufacturer or a regular dealer in coal: *Provided, however,* That all the following terms and conditions are met:

(1) That such person will notify the persons engaged in mining the coal that the purchaser thereof is the United States and that provisions of the Public Contracts Act are applicable; and

(2) That such person, apart from the liability of the mines, shall be liable for the observance in the mines of all the labor standards provided in section 1 of the act; and

(3) That such person notify the contracting agency that he will accept the contract upon the terms and conditions set forth above.

(b) Commodity exchange contracts entered into by the Commodity Credit Corporation under the Commodity Credit Corporation Charter Act (secs. 4(h), 5 (d) and (f), 62 Stat. 1070 and 1072, 15 U.S.C. 714b(h), 714c (d) and (f)), section 416 of the Agricultural Act of 1949 (63 Stat. 1058, 7 U.S.C. 1431), section 103(a)(2) of the Agricultural Act of 1954 (68 Stat. 898, 7 U.S.C. 1743(a)(2)), or section 303 of the Agricultural Trade Development and Assistance Act of 1954 (68 Stat. 459, 7 U.S.C. 1692), are exempt from the requirement of section 1(a) of the act and of § 50-201.1 that the Government contractor represents that he is the manufacturer of or a regular dealer in the materials, supplies, articles or equipment to be manufactured or used in the performance of the contract.

(Secs. 4 and 6, 49 Stat. 2038, 41 U.S.C. 38 and 40)

Signed at Washington, D.C., this 2d day of December 1960.

JAMES P. MITCHELL,
Secretary of Labor.

[F.R. Doc. 60-11411; Filed, Dec. 7, 1960; 8:50 a.m.]

PART 50-202—MINIMUM WAGE DETERMINATIONS

Electron Tubes and Related Products Industry

Miscellaneous exceptions have been filed criticizing the findings and conclusions expressed in the tentative decision determining the prevailing minimum wages in the electron tubes and related products industry (25 F.R. 7801). Many of these exceptions merely repeat contentions fully discussed in rulings of record, including the tentative decision. Some of them do not relate to the mate-

rial issues of fact, law, and discretion presented by the evidence of record in this proceeding. Through not all of the remaining ones were deemed of sufficient persuasiveness to merit discussion in the tentative decision, none are new in the sense that they were not considered in the preparation of that decision. Each exception has been carefully considered. None appears to warrant further discussion here. Each is overruled. Each finding and conclusion, together with the reason and basis therefor, which is expressed in the tentative decision is hereby made final.

Accordingly, upon the findings and conclusions stated herein, pursuant to authority under the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U.S.C., sec. 35 et seq.), and in accordance with the Administrative Procedure Act (60 Stat. 237; 5 U.S.C 1001), Title 41 of the Code of Federal Regulations, Part 50–202, is hereby amended by the addition of § 50–202.58 (41 CFR Part 50–202) to read as follows:

§ 50–202.58 Electron tubes and related products industry.

(a) *Definition.* The electron tubes and related products industry is defined as that industry which manufactures or furnishes electron tubes and related products including the following products and/or parts specially designed for incorporation therein: Radio and television receiving type tubes; transmitting, industrial, and special-purpose tubes, including high vacuum and vapor rectifier tubes, thyratrons, magnetrons, klystrons and other velocity modulated tubes, photo tubes, cathode ray tubes, and geiger-mueller tubes; and solid-state semiconductor devices. The following products are specifically excluded: (1) Gas-filed tubes used for illumination; (2) glow lamps and strobotrons; (3) X-ray and rectifier tubes specially designed for use in X-ray equipment; (4) the following types of parts: Metal stampings, getters, lead wires, and any part made exclusively of glass, plastics, germanium, silicon, ceramics, mica, graphite, or rubber; and (5) television receiving type cathode ray tubes.

(b) *Minimum wages.* (1) The minimum wage for persons employed in the manufacture or furnishing of solid-state semiconductor devices under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than $1.35 per hour arrived at either on a time or piece rate basis.

(2) The minimum wage for persons employed in the manufacture or furnishing of products of the electron tubes and related products industry, except solid-state semiconductors, under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than $1.42 per hour arrived at either on a time or piece rate basis.

(c) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(d) *Effective date.* This section shall be effective and the minimum wages established herein shall apply as to all contracts subject to the Walsh-Healey Public Contracts Act, bids for which are solicited or negotiations otherwise commenced on or after January 7, 1960.

(Secs. 1, 4, 49 Stat. 2036, as amended, 2038; 41 U.S.C. 35, 38)

Signed at Washington, D.C., Dec. 3, 1960.

JAMES P. MITCHELL,
Secretary of Labor.

[F.R. Doc. 60–11412; Filed, Dec. 7, 1960; 8:50 a.m.]

Title 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

[CGFR 60–75]

DEFINITIONS, MARINE WELDING, ELECTRICAL INDICATOR CIRCUITS, CASUALTY INVESTIGATION RECORDS, AND TEMPORARY EXEMPTIONS FROM NUMBERING REQUIREMENTS

The amendments in this document are editorial in nature to bring up-to-date certain names and cross references, change wording of a regulation so that requirements in the Code of Federal Regulations and a Coast Guard pamphlet will read the same, and remove from the Code of Federal Regulations those requirements which by their own terms have expired and no longer are in effect. Because these amendments are editorial in nature, it is hereby found that the Coast Guard is exempt from compliance with the Administrative Procedure Act (respecting notice of proposed rule making, public rule making procedures thereon, and effective date requirements thereof).

To correct references to the States of Alaska and Hawaii, the amendments to 46 CFR 24.10–13, 30.10–36, 70.10–21, 90.10–17, and 110.15–105 delete wording describing them as "territories."

The amendment to 56.01–80(d)(1) clarifies requirements regarding types of welded joints in class I piping where pipes are of diameters not exceeding 2 inches, by inserting a comma after the phrase "pipe ends" and before the word "or" in the third sentence to seperate the types of welded joints described. The amendment to 46 CFR 56.05–1(p) changes a cross reference to the standard qualification test bending jig from figure "56.01–10(e)" to "56.01–10(j6)."

The amendment to 46 CFR 111.45–10(a) changes the general requirements for remote control, electrical interlock, and indicator circuits by changing in the first sentence a phrase from "following deviation" to the word "deviations" so that the wording in the Code of Federal Regulations and the published Coast Guard pamphlet CG–259 will be in agreement.

To remove doubt as to the Coast Guard's actions in a casualty or accident, the amendment to 46 CFR 136.13–20(c) deletes from the first sentence a phrase indicating that determinations have been made with respect to finding persons responsible or otherwise culpable with respect to such casualty or accident. This deletion brings the requirements regarding disclosure of information from casualty records in line with casualty investigation policy and removes the inference that adjudications have been made.

Since the temporary exemptions from numbering requirements for undocumented vessels have expired, for record purposes the text of 46 CFR 171.01–6 is deleted.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Orders 120, dated July 31, 1950 (15 F.R. 6521), 167–9, dated August 3, 1954 (19 F.R. 5915), 167–14, dated November 28, 1954 (19 F.R. 8026), 167–17, dated June 29, 1955 (20 F.R. 4976), 167–20, dated June 18, 1956 (21 F.R. 4894), CGFR 56–28, dated July 24, 1956 (21 F.R. 5659), and 167–38, dated October 26, 1959 (24 F.R. 8857), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments are prescribed and shall become effective on and after the date of publication of this document in the FEDERAL REGISTER:

SUBCHAPTER C—UNINSPECTED VESSELS

PART 24—GENERAL PROVISIONS

Subpart 24.10—Definition of Terms Used in This Subchapter

Section 24.10–13 *International voyage* is amended by changing in the first sentence a phrase from "* * * the Territory of Alaska, Commonwealth of Puerto Rico, Territory of Hawaii, * * *" to "* * * Alaska, Hawaii, Commonwealth of Puerto Rico, * * *."

(R.S. 4405, as amended, 4462, as amended, sec. 17, 54 Stat. 166, as amended; 46 U.S.C. 375, 416, 526p)

SUBCHAPTER D—TANK VESSELS

PART 30—GENERAL PROVISIONS

Subpart 30.10—Definitions

Section 30.10–36 *International voyage—TB/OC* is amended by changing in the first sentence a phrase from "* * * the Territory of Alaska, Commonwealth of Puerto Rico, Territory of Hawaii, * * *" to "* * * Alaska, Hawaii, Commonwealth of Puerto Rico, * * *."

(R.S. 4405, as amended, 4417a, as amended, 4462, as amended; 46 U.S.C. 375, 391a, 416)

SUBCHAPTER F—MARINE WELDING

PART 56—ARC WELDING, GAS WELDING, AND BRAZING

Subpart 56.01—Arc Welding and Gas Welding

Section 56.01–80 *Welded piping* is amended by revising the third sentence of subparagraph (d)(1) by inserting a comma between the phrase "pipe ends" and the word "or."

(R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416)

Subpart 56.05—Tests and Inspection

Section 56.05–1 *Test plates* is amended by revising the second sentence of paragraph (p) by changing the cross reference at the end thereof from figure "56.01–10(e)" to "56.01–10(j6)."

(R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416)

SUBCHAPTER H—PASSENGER VESSELS

PART 70—GENERAL PROVISIONS

Subpart 70.10—Definition of Terms Used in This Subchapter

Section 70.10–21 *International voyage* is amended by changing in the first sentence a phrase from "* * * the Territory of Alaska, Commonwealth of Puerto Rico, Territory of Hawaii, * * *" to "* * * Alaska, Hawaii, Commonwealth of Puerto Rico, * * *."

(R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416)

SUBCHAPTER I—CARGO AND MISCELLANEOUS VESSELS

PART 90—GENERAL PROVISIONS

Subpart 90.10—Definition of Terms Used in This Subchapter

Section 90.10–17 *International voyage* is amended by changing in the first sentence a phrase from "* * * the Territory of Alaska, Commonwealth of Puerto Rico, Territory of Hawaii, * * *" to "* * * Alaska, Hawaii, Commonwealth of Puerto Rico, * * *."

(R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416)

SUBCHAPTER J—ELECTRICAL ENGINEERING

PART 110—GENERAL PROVISIONS

Subpart 110.15—Definition of Terms Used in This Subchapter

Section 110.15–105 *International voyage* is amended by changing in the first sentence a phrase from "* * * the Territory of Alaska, Commonwealth of Puerto Rico, Territory of Hawaii, * * *" to "* * * * Alaska, Hawaii, Commonwealth of Puerto Rico, * * *."

(R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416)

PART 111—ELECTRICAL SYSTEM; GENERAL REQUIREMENTS

Subpart 111.45—Motor Circuits and Controllers

Section 111.45–10 *Remote-control, electrical interlock, and indicator circuits* is amended in the first sentence of paragraph (a) by changing a phrase from "* * * following deviation * * *" to the word "* * * deviations * * *."

(R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416)

SUBCHAPTER K—MARINE INVESTIGATIONS AND SUSPENSION AND REVOCATION PROCEEDINGS

PART 136—MARINE INVESTIGATION REGULATIONS

Subpart 136.13—Disclosure of Records

Section 136.13–20 *Casualty investigation records* is amended by deleting from the first sentence of paragraph (c) the phrase "* * * whether or not any person(s) has been determined responsible or otherwise culpable with respect to the casualty or accident, and * * *."

(R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416)

SUBCHAPTER S—NUMBERING OF UNDOCUMENTED VESSELS, STATISTICS ON NUMBERING, AND "BOATING ACCIDENT REPORTS" AND ACCIDENT STATISTICS

PART 171—STANDARDS FOR NUMBERING

Subpart 171.01—General

Section 171.01–6 *Temporary exemptions until July 1, 1960,* is deleted since all exemptions granted thereunder have expired.

(Sec. 3, 60 Stat. 238, and sec. 633, 63 Stat. 545; 5 U.S.C. 1002, 14 U.S.C. 633)

Dated: November 30, 1960.

[SEAL] A. C. RICHMOND,
Admiral, U.S. Coast Guard, Commandant.

[F.R. Doc. 60–11397; Filed, Dec. 7, 1960; 8:49 a.m.]

Title 50—WILDLIFE

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Salton Sea National Wildlife Refuge, California

In compliance with the requirements of the Act of May 18, 1948, (62 Stat. 238, 16 U.S.C. 695) it has been determined that a major portion of the crops in the vicinity of the Salton Sea National Wildlife Refuge, California, has been harvested and that the period of susceptibility of such crops to wildfowl depredation has passed. Accordingly, since the possibility of crops being damaged by waterfowl is minor, the following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER. The limitation of time makes it impracticable to give public notice of proposed rule making.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

CALIFORNIA

SALTON SEA NATIONAL WILDLIFE REFUGE

Public hunting of migratory game birds on the Salton Sea National Wildlife Refuge, California, is permitted only on the area designated by signs as open to hunting. This open area, comprising 1,080 acres or 21 percent of the total area of the refuge, is delineated on a map available at the refuge headquarters and from the Bureau of Sport Fisheries and Wildlife, Washington 25, D.C. Hunting shall be subject to the following conditions:

(a) Species permitted to be taken: Coots, ducks (except canvasback and redhead) and geese (except Ross's geese).

(b) Open season: Ducks and coots from 12 noon to sunset December 10, 1960, and from one-half hour before sunrise to sunset December 11, 14, 17, 18, 21, 24, 25, 26, 28, 31, 1960, and January 1, 4, 7, 8, 1961. Geese from 12 noon to sunset December 10, 1960, and from one-half hour before sunrise to sunset December 11, 14, 17, 18, 1960.

(c) Daily bag limits: Duck 6, coots 25, geese 6. The daily bag limit for ducks may not include more than 1 wood duck and 1 hooded merganser; but in addition to the daily bag limit for other ducks, the daily bag limit may include 5 American and red-breasted mergansers, singly or in the aggregate of both kinds; and the daily bag limit for geese may not include more than 1 Canada goose nor more than 3 of the dark species.

(d) Methods of hunting:

(1) Weapons: Shotguns up to and including 10 gauge which are incapable of holding more than 3 shells and longbows with arrows only may be used. The possession or use of single ball or rifle shell shotgun shells is prohibited.

(2) Dogs—Not to exceed two dogs per hunter may be used only to retrieve wounded or dead waterfowl and coots.

(3) Blinds—Temporary blinds of approved material may be constructed.

(4) Guides—Persons may employ guides while hunting on the area subject to the restrictions of State law and regulations.

(5) Boats—Boats only without motors will be permitted.

(e) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32.

(2) A Federal permit is not required to enter the public hunting area, but a permit issued by the California State Fish and Game Department is required. Hunters, upon entering or leaving the hunting areas, shall report at designated checking stations as may be established for the regulation of hunting activity and shall furnish information pertaining to their hunting as requested.

(3) The provisions of this special regulation are effective to January 9, 1961.

DANIEL H. JANZEN,
Director, Bureau of Sport Fisheries and Wildlife.

DECEMBER 2, 1960.

[F.R. Doc. 60–11380; Filed, Dec. 7, 1960; 8:45 a.m.]

PART 33—SPORT FISHING

Arrowwood National Wildlife Refuge, North Dakota

The following special regulation is issued.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

ARROWWOOD NATIONAL WILDLIFE REFUGE

Sport fishing on the Arrowwood National Wildlife Refuge, North Dakota, is permissible only under the following conditions:

(a) Species permitted to be taken: As prescribed by State regulations.

(b) Open season: Daylight hours during the period December 15, 1960, through March 12, 1961.

(c) Daily creel limits: As prescribed by State regulations.

(d) Methods of fishing: As prescribed by State regulations.

(e) Description of areas open to fishing: Fishing is permitted in accordance with the above on all refuge waters of the Arrowwood National Wildlife Refuge, except those designated by signs as closed to fishing. The open areas comprise approximately 2,900 acres or 18 percent of the total refuge area and are delineated on maps available at the refuge headquarters and from the Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis 8, Minnesota.

(f) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) Fishermen shall use such routes of travel as are designated by the refuge officer in charge.

(3) A Federal permit is not required to enter the public fishing area.

(4) The provisions of this special regulation are effective December 15, 1960, through March 12, 1961.

W. A. ELKINS,
Acting Regional Director,
Bureau of Sport Fisheries and Wildlife.

DECEMBER 2, 1960.

[F.R. Doc. 60-11381; Filed, Dec. 7, 1960; 8:46 a.m.]

PART 33—SPORT FISHING

Lake Ilo National Wildlife Refuge, North Dakota

The following special regulation is issued.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

LAKE ILO NATIONAL WILDLIFE REFUGE

Sport fishing on the Lake Ilo National Wildlife Refuge, North Dakota is permissible only under the following conditions:

(a) Species permitted to be taken: As prescribed by State regulations.

(b) Open season: Daylight hours during the period December 15, 1960, through March 12, 1961.

(c) Daily creel limits: As prescribed by State regulations.

(d) Methods of fishing: As prescribed by State regulations.

(e) Description of areas open to fishing: Fishing is permitted in accordance with the above on the posted area which comprises approximately 1,300 acres and 33 percent of the total refuge and which is described as follows:

All water areas within the refuge.

(f) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective December 15, 1960, through March 12, 1961.

W. A. ELKINS,
Acting Regional Director,
Bureau of Sport Fisheries and Wildlife.

DECEMBER 2, 1960.

[F.R. Doc. 60-11382; Filed, Dec. 7, 1960; 8:47 a.m.]

PART 33—SPORT FISHING

Long Lake National Wildlife Refuge, North Dakota

The following special regulation is issued.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

LONG LAKE NATIONAL WILDLIFE REFUGE

Sport fishing on the Long Lake National Wildlife Refuge, North Dakota is permissible only under the following conditions:

(a) Species permitted to be taken: As prescribed by State regulations.

(b) Open season: Daylight hours during the period December 15, 1960, through March 12, 1961.

(c) Daily creel limits: As prescribed by State regulations.

(d) Methods of fishing: As prescribed by State regulations.

(e) Description of areas open to fishing: Fishing is permitted in accordance with the above on the posted area which comprises approximately 10,000 acres and 45 percent of the total refuge and which is described as follows:

All water areas within the refuge.

(f) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective December 15, 1960, through March 12, 1961.

W. A. ELKINS,
Acting Regional Director,
Bureau of Sport Fisheries and Wildlife.

DECEMBER 2, 1960.

[F.R. Doc. 60-11383; Filed, Dec. 7, 1960; 8:47 a.m.]

PART 33—SPORT FISHING

Lower Souris National Wildlife Refuge, North Dakota

The following special regulation is issued.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

LOWER SOURIS NATIONAL WILDLIFE REFUGE

Sport fishing on the Lower Souris National Wildlife Refuge, North Dakota is permissible only under the following conditions:

(a) Species permitted to be taken: As prescribed by State regulations.

(b) Open season: Daylight hours during the period December 15, 1960, through March 12, 1961.

(c) Daily creel limits: As prescribed by State regulations.

(d) Methods of fishing: As prescribed by State regulations.

(e) Description of areas open to fishing: Fishing is permitted in accordance with (a) above on the posted area which comprises approximately 10,000 acres and 18 percent of the total refuge and which is described as follows:

All water areas within the refuge except those within 200 feet of water control structures or open spillways.

(f) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective December 15, 1960, through March 12, 1961.

W. A. ELKINS,
Acting Regional Director,
Bureau of Sport Fisheries and Wildlife.

DECEMBER 2, 1960.

[F.R. Doc. 60-11384; Filed, Dec. 7, 1960; 8:47 a.m.]

PART 33—SPORT FISHING

Tewaukon National Wildlife Refuge, North Dakota

The following special regulation is issued.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

TEWAUKON NATIONAL WILDLIFE REFUGE

Sport fishing on the Tewaukon National Wildlife Refuge, North Dakota is permissible only under the following conditions:

(a) Species permitted to be taken: As prescribed by State regulations.

(b) Open season: Daylight hours during the period December 15, 1960, through March 12, 1961.

(c) Daily creel limits: As prescribed by State regulations.

(d) Methods of fishing: As prescribed by State regulations.

(e) Description of areas open to fishing: Fishing is permitted in accordance with the above on the posted area which comprises approximately 300 acres and five percent of the total refuge and which is described as follows:

The refuge waters in White Lake and Cutler Marsh in the SE¼SE¼ Section 26, SE¼ Section 34, and the NE¼ and S½ of Section 35, T. 130 N., R. 54 W., 5th P.M.

(f) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective December 15, 1960, through March 12, 1961.

W. A. ELKINS,
Acting Regional Director,
Bureau of Sport Fisheries & Wildlife.

DECEMBER 2, 1960.

[F.R. Doc. 60-11385; Filed, Dec. 7, 1960; 8:47 a.m.]

PART 33—SPORT FISHING

Upper Souris National Wildlife Refuge, North Dakota

The following special regulation is issued.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

UPPER SOURIS NATIONAL WILDLIFE REFUGE

Sport fishing on the Upper Souris National Wildlife Refuge, North Dakota is permissible only under the following conditions:

(a) Species permitted to be taken: As prescribed by State regulations.

(b) Open season: Daylight hours during the period December 15, 1960, through March 12, 1961.

(c) Daily creel limits: As prescribed by State regulations.

(d) Methods of fishing:

(1) Tackle—as prescribed by State regulations.

(2) Bait—the use of minnows, fish, or parts thereof, either alive or dead, is prohibited in all refuge waters north of the Lake Darling Dam. (Dam No. 83, near refuge headquarters.)

(3) Nets and seines—the use of nets or seines for capturing minnows or fish is prohibited in all refuge waters north of the Lake Darling Dam.

(e) Description of areas open to fishing: Fishing is permitted in accordance with the above on all refuge waters of the Upper Souris National Wildlife Refuge except those designated by signs as closed to fishing. The open areas comprise approximately 6,000 acres or 19 percent of the total refuge area and are delineated on maps available at the refuge headquarters and from the Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis 8, Minnesota.

(f) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective December 15, 1960, through March 12, 1961.

W. A. ELKINS,
Acting Regional Director,
Bureau of Sport Fisheries & Wildlife.

DECEMBER 2, 1960.

[F.R. Doc. 60-11386; Filed, Dec. 7, 1960; 8:47 a.m.]

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 923, 1012]

[Docket Nos. AO-251-A3, AO-278-A4]

MILK IN APPALACHIAN AND BLUEFIELD MARKETING AREA

Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreements and to Orders

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreements and orders regulating the handling of milk in the Appalachian and Bluefield marketing areas. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C., not later than the close of business the 15th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreements and to the orders, were formulated, was conducted at Bristol, Virginia, on April 12–13, 1960, and Bluefield, West Virginia, on April 14, 1960, pursuant to notice thereof which was issued March 23, 1960 (25 F.R. 2579).

The material issues on the record of the hearing relate to:

1. Consolidation of the Bluefield order with the Appalachian order.
2. Provisions in the consolidated Appalachian order with respect to:
   (a) Marketwide pooling for distribution of proceeds among producers;
   (b) Milk to be priced and pooled;
   (c) Classification and allocation of milk;
   (d) Class prices;
   (e) Payments on other source milk;
   (f) Producer-settlement fund;
   (g) Base and excess plan; and
   (h) Administrative provisions.

1. Consolidation of the Bluefield order with the Appalachian order.

Order No. 112 regulating the handling of milk in the Bluefield marketing area should be consolidated with Order No. 23 regulating the handling of milk in the Appalachian marketing area.

The Appalachian and Bluefield marketing areas are composed of nine counties, three of which are in Southwestern Virginia, and the remainder in adjoining or nearby areas in West Virginia, Kentucky, and Tennessee. Tazewell County in Virginia, which is part of the Bluefield marketing area, adjoins Washington County of the Appalachian marketing area. The two marketing areas thus constitute a continuous territory except for Harlan County, Kentucky, and Wise County, Virginia, which are a part of the Appalachian marketing area but separated from the rest by intervening counties.

The Appalachian order was made effective October 1, 1954, and the Bluefield order on October 1, 1956. Since the issuance of the Bluefield order, developments in the marketing system for milk in both areas have tended to bring the markets into closer relationship with respect to both supplies and sales.

Plants regulated under the Appalachian order and handling more than half of the milk regulated under the order are in competition with the four Bluefield handlers. An Appalachian handler with a plant at Bristol, Virginia, maintains a distribution point at Richlands, Virginia, in the Bluefield marketing area. Another Appalachian handler with a plant at Big Stone Gap, Virginia, distributes milk on routes in the Bluefield marketing area. There are also regular movements of packaged milk from an Appalachian order plant at Bristol, Virginia, to a Bluefield order plant at Welch, West Virginia, both of which are operated by the same company. This handler is one of the largest of the four handlers regulated by the Bluefield order.

Members of the cooperative association represent approximately 85 percent of all producers on the markets, supplying 90 percent of the fluid milk requirements of handlers under both orders. This association also operates a milk receiving plant presently regulated under the Appalachian order. Shipments of milk from this plant are made to plants under both orders to supply variable day-to-day fluid milk requirements.

The Bluefield marketing area is located north of the Appalachian marketing area. The supply for the Bluefield market comes from farms located in the counties in the marketing area and counties to the south and southeast of the marketing area. Some of these counties adjoin the Appalachian marketing area. In large part, handlers serving the two markets now depend upon a common supply. The milk deliveries of producers whose farms are located between or approximately equidistant from the two marketing areas are commonly shifted back and forth among handlers in the two markets according to individual handlers' daily needs. This accommodation of handlers' requirements is provided for by the proponent producer association. The association also arranges for the disposition of the surplus milk of both markets by diversion to manufacturing plants or shipment of milk to other markets after the milk is accumulated at its receiving plant.

Handlers in these markets are engaged mainly in fluid milk operations, although several have minor manufacturing operations, mostly for cottage cheese. They receive at their plants only that milk needed for such uses. From time to time, as their requirements vary, they call upon the cooperative association for milk from additional producers. The disposition of the standby reserve of milk has become the primary responsibility of the cooperative association. The association also has become the primary agency for disposing of the normal seasonal surplus of milk.

The cooperative association has adopted the policy of reblending the proceeds from the sale of its members' milk. Some members objected to this arrangement and withdrew from the association. This has increased the burden of market surplus carried by the remaining members. The proposed consolidation of the two markets, along with a change to marketwide pooling, will result in a proportionate sharing of the burden of surplus milk by producers.

The Appalachian and Bluefield orders should be consolidated to cover the combined territory of the existing marketing areas. The administrative and marketing service accounts under both orders should be consolidated also. At the time the new order is made effective, some handlers will owe producers certain monies for preceding months. Any such amount owed by handlers should be paid into the producer-settlement fund; on the other hand, audit adjustments with respect to underpayment of individual producers for milk delivered prior to order consolidation should be paid to the producers to whom the money is owed. Producers thus will receive all monies owed them for milk delivered in prior periods.

2. Provisions in the consolidated Appalachian order.

Provisions in the Appalachian and Bluefield orders are substantially similar and the Appalachian order provisions are appropriate as the terms and provisions of the consolidated order except as hereinafter discussed. The following findings and conclusions describe the instances in which provisions of the consolidated order would differ from the provisions of the present Appalachian order.

(a) *Marketwide pooling.* Individual-handler pools have been operated under both the Appalachian and Bluefield orders since their inception. Handlers have continued to be primarily distributors of fluid milk, and have little in the way of manufacturing operations except cottage cheese for their own route disposition. At the time the orders were

established it was the practice of handlers to divert seasonal or week-end surplus of milk to nearby manufacturing plants.

The cooperative association, representing about eighty-five percent of the producers for these markets, now has assumed the responsibility for balancing supplies among handlers. This is accomplished through operation of truck routes to bring the milk from producers' farms to handler's plants, the operation of an association plant to carry short-time standby reserves, and diversion of unneeded milk to manufacturing plants. As a result of carrying on this operation of balancing supplies among handlers and disposing of surplus milk, the association has found it necessary to reblend returns from all sales of their members' milk. Otherwise, members delivering milk to the association plant would receive less than fluid, or Class I, milk prices for a larger proportion of their milk than members delivering to other handlers' plants.

Some members of the association have objected to the reblending of proceeds, and one group of producers whose milk is delivered to a high utilization handler have cancelled their membership. Under individual-handler pooling such producers have received virtually a straight Class I price for their milk while the burden of carrying the balancing supplies of the market reserves has fallen on the association. As a result the association members receive a significantly lower blended return than nonmember producers.

To yield an equitable sharing by all producers of the lower returns realized from the necessary seasonal excess and reserve supplies of milk by all producers delivering milk to plants regulated under the consolidated Appalachian order, marketwide pooling should be provided.

(b) *Milk to be priced and pooled.* The intent and precise application of the order regulation will be facilitated by definitions of the terms "producer", "handler", "pool plant", and other terms as needed. The term "plant" should be defined as the lands, buildings, surroundings, facilities and equipment, whether owned and operated by one or more persons, constituting a single operating unit or establishment at which milk or milk products are received, processed, or packaged. It is intended that this definition will include not only the plants at which handlers receive and bottle milk for distribution, but also any plant at which the operation consists merely of receiving the milk into holding tanks and shipping the milk out to other plants. In the case of a manufacturing facility handling milk not qualified for the fluid market and operated in conjunction with a facility for handling milk for the fluid market, the two facilities would be considered as one plant unless they are physically separated in a manner which would preclude any commingling of the two milk supplies and separate records are maintained in a manner satisfactory to the market administrator. A facility should not be considered a plant if it serves solely as a place or shelter for transferring milk from one truck to another truck without any other facility for holding and processing the milk on the premises. Use of a building primarily for holding bottled (packaged) milk or products in finished form would not qualify it as a "plant".

The establishment of a marketwide pool requires definition of pool plants. Pool plants should be defined in a manner which qualifies any plant which is substantially associated with the market. Except for the cooperative association plant, all plants upon which the market now depends for fluid milk are engaged primarily in distributing milk on routes in and near the marketing area. Such manufacturing operations as exists are used almost exclusively for the manufacture of cottage cheese. Most of the milk supply of local plants comes directly from producers' farms. Some milk, however, moves through the association plant to proprietary handlers' plants.

Although in the present situation all plants from which distribution is made in the marketing area are largely engaged in only this business, the order should provide standards whereby any plant may qualify as a pool plant if it is substantially associated with the fluid business of the market. Any plant which has as its major function the distribution of milk for fluid use would qualify under these standards, provided it also has a substantial portion of its fluid milk business in the marketing area. On the other hand, if a plant has only a minor portion of its business in the marketing area, it would not be subject to regulation. Regulation of such plants is unnecessary to accomplish the purposes of the order and might place such plants at a competitive disadvantage with respect to unregulated markets with which they are more closely associated.

In line with these general principles, any plant which uses 50 percent of its milk receipts for fluid distribution should be considered as primarily engaged in the fluid milk business. In making such a percentage determination, the receipts to be included should be all receipts of milk qualified under some health authority for use for fluid distribution, whether received directly from producers' farms or from a cooperative association of producers in its capacity as a handler. With respect to the percentage of a pool plant's fluid distribution in the marketing area, at least 10 percent of the business should be on routes in the marketing area. This is sufficient to establish a substantial association with the market.

A requirement of 20 percent of the fluid business in the marketing area, as proposed by the producer association, is unnecessary and could result in administrative problems in the case of any plant which had a large part of such required percentage of its business in the area but failed to meet the total requirement. Although plants now operating in the marketing area generally have enough fluid sales in the area to more than exceed such a percentage, consideration must be given to the possibility of new handlers entering the marketing area and the fact that some of the existing handlers have a large portion of their sales outside the marketing area and may extend such operations. Any plant which distributes milk in the marketing area but fails to meet the requirements of the pool plant definition should be subject to certain obligations under the order regulation with respect to sales in the marketing area. The necessity for such requirements is explained in another part of the findings and conclusions.

The pool plant definition should also include a plant which has insufficient or no direct distribution in the marketing area but which ships 50 percent of its receipts from qualified dairy farmers and cooperative associations to pool plants which distribute milk in the marketing area. This percentage requirement should apply on a month-to-month basis, except that any plant which has so qualified as a pool plant for the months of August through March should be allowed to continue as a pool plant for the succeeding months of April through July. This provision for the months of April through July is in recognition of the seasonal nature of milk production, which for this market tends to be higher during these months than in other times of the year. Normally plants which supply a market through shipments to distributing plants are located at a greater distance from the marketing area than the location of farmers whose milk could be moved directly from their farms to the distributing plants. Consequently, it is normal that the distributing plants will have their requirements more fully met by the direct receipts from farmers during the April through July period, and receive a lesser quantity from the shipping plants upon which they nevertheless must depend during other months. The automatic pooling of a shipping plant during the April through July period would apply unless the plant operator notified the market administrator of his desire to withdraw the plant from the pool.

In the case of a plant operated by a cooperative association which is used to meet the day-to-day requirements of handlers, special provision should be made for pooling. Such a plant is now operated under the Appalachian order to serve both Appalachian and Bluefield handlers. Not enough milk is shipped from the plant to qualify it for pooling under the regular percentage standards, since handlers' changing needs are met largely by adjustments in routes and deliveries direct from producers' farms. In instances where the precise requirements of handlers cannot be met by such direct deliveries, milk received at the association plant is transferred from there to such handlers. Irregularities in handlers' bottling requirements and frequent requests for partial loads are principal reasons for such transfers. Thus, the plant serves as a normal part of the supply system for the market. Further, intermittent deliveries to this plant from dairy farmers who otherwise regularly supply pool handlers is a regular part of the operation of balancing supplies among all handlers and assuring a readily available reserve.

Another part of the milk handling operation by this plant is the accumulation of loads for shipment to other fluid markets. This business has not interfered

with its function in supplying the Appalachian and Bluefield markets. If the association plant were a pool plant under the consolidated order, it would follow that all utilization of producer milk at the plant, including transfers to other fluid markets, must be accounted for in the marketwide pool at class prices. This requirement may affect the ability of the association to compete for sales in unregulated markets. It is not possible, however, to separate the milk disposed of to outside markets from that disposed of to these two markets so that the farmer would be unregulated and the latter subject to the order. All of the milk handled in the plant is supplied by dairy farmers who are regular producers for the Appalachian-Bluefield markets and accordingly should be accounted for in the same manner as all other producer milk received by pool plants under the order.

It is necessary that the order definition of pool plant apply uniformly to all plants which may become associated with the market, regardless of ownership or location. Accordingly, specific standards should be provided for the determination of whether a plant operated by any cooperative association qualifies as a pool plant. The function of the existing association plant as part of the market supply system is definitely related to the fact that most of the milk of association members is needed by handlers in their pool plants, and most frequently moves directly from producers' farms to handlers' plants. The volume of such milk deliveries and the amount of milk shipped from the association plant to other handlers' plants should be used as a measurement of the relationship of the cooperative association plant to the market.

The association proposed that when member deliveries and shipments from its plant amount to 50 percent of the total milk deliveries of all members to all plants (regulated and unregulated), the association plant should qualify as a pool plant. The amount of milk from members delivered directly or indirectly to other handlers' plants usually would be at least 75 percent of total milk deliveries by all members to pool and nonpool plants. (At present receipts of milk from association members at pool plants represent about 90 percent of the total receipts of milk at all pool plants in the two markets.) The recommended standards should accommodate the present operation of the cooperative association and at the same time assure all producers that additional supplies will not be added which will unnecessarily burden the market. To allow some margin for variations in production and sales, a minimum delivery of 70 percent of member milk should be required.

In order to facilitate the application of the definition of pool plant, the order should contain a definition of the term "route". A "route" should be defined as any delivery to retail or wholesale outlets (including delivery by a vendor or sale from a plant or plant store) of any milk or milk products classified as Class I milk other than a delivery to a plant. This definition will cover the normal Class I disposition of distributing plants to customers such as stores, homes, restaurants, and hotels, and will exclude transfers of milk whether in bulk or packaged form to other plants. Contract sales to military installations or Government institutions which are Class I milk business would, of course, be considered "route" disposition.

The term "producer" should apply to any person who produces milk which meets the requirements of a duly constituted health authority for distribution in the marketing area and which is received at a pool plant.

The definitions of "producer" and "producer milk" also should provide for diversion of producer milk to a nonpool plant. If the handler who is an operator of the pool plant diverts the milk for his account, such milk should be deemed to have been received by such handler at the pool plant from which it is diverted. If a cooperative association diverts producer milk from a pool plant which the cooperative association does not operate, the milk should be deemed to have been received by the cooperative association at the location of the pool plant from which diverted.

Because of the limited nature of the manufacturing operations in handlers' plants, it is often necessary that milk in excess of handlers' immediate needs be moved to some unregulated manufacturing plant. It often would be inefficient for such milk to be moved first through a handler's plant, or through the plant operated by the cooperative association, and thence to the manufacturing plant. Diversion of milk so that it moves directly from the producer's farm to the manufacturing plant is the most efficient method of handling, and should be provided for so as to allow the dairy farmer to retain producer status during temporary periods when his milk is not needed in handlers' plants. There should be some general requirement in the order, however, that producers whose milk is diverted have a substantial association with the market, so that the marketwide pool would not at any time become burdened with surplus supplies of milk accumulated by handlers and accounted for continuously under a diversion provision. Although no specific recommendation was made on the record, it is reasonable that producer milk should not be diverted for a greater period during the months of August through February than the period during which the milk is received at pool plants. These are months when producer receipts are just adequate for Class I fluid milk requirements plus the necessary reserve; therefore, diversions of milk should be limited to few occasions. Producers would lose status for the month once diversions exceeded 15 days during any one of the above months. It is so provided in the attached order language.

It is further provided in the definition of "producer" to include dairy farmers whose milk is received from the cooperative association in its capacity as a handler at pool plants. This is in accord with the requirements on handlers as recommended herein.

The definition of "producer milk" should provide that all milk which moves directly from the producer's farm to a handler's pool plant, including that bulk tank milk for which a cooperative association is a handler, shall be producer milk. In the case of bulk tank milk for which a cooperative association is a handler, the milk shall be considered to have been received as producer milk by such cooperative association at the location of the pool plant to which it is delivered.

The term "handler" should include the operator of a pool plant, and the operator of a nonpool plant from which milk is disposed of on routes in the marketing area. With respect to producer milk diverted from a pool plant, if it is diverted by the plant operator, he would be the handler who must account for such milk. If the milk is diverted by a cooperative association, then the association should be the handler to account for such milk.

A cooperative association requested that it be allowed to be the handler with respect to milk picked up at farms in tank trucks which it subsequently delivers to handlers' plants if such collection of milk from the farms is performed under the control of the cooperative association. The principal cooperative association in these markets is already performing such collection function as explained in detail in the previous findings. The measurement of the amount of milk collected at each farm, the taking of samples for butterfat tests, and decisions as to the destination of such milk are under the close supervision of the cooperative association. So that the order may be effective in identifying milk which is producer milk, and establishing responsibility for receipt of milk and its accurate measurement and testing, it is desirable in this market that the cooperative association be the responsible handler for bulk tank milk. This will facilitate record keeping and accounting for deliveries of milk from producers whose milk goes to different handlers on different days during the month, and in cases where a tank truckload is split between two or more pool plants. Under this arrangement the cooperative association, as a handler, will be responsible to the marketwide pool for such milk at class prices.

The payment provisions of the order should require the pool plant operator to pay the cooperative association for milk so delivered at not less than the class prices. These provisions will implement the requirement of the Act that cooperative associations receive for their member milk at least the minimum class prices which all handlers must pay.

The definition of a "producer-handler" should be modified from that now contained in both the Appalachian and Bluefield orders which specifies that a producer-handler is a person who operates a dairy farm and an approved plant from which Class I milk is disposed of in the marketing area, and who receives no milk from other dairy farmers. It is intended that the term "producer-handler" apply to a person dependent primarily upon his own farm

production as a supply for a fluid milk business. Such a person from time to time may obtain supplemental supplies from pool plants. Since it is the nature of the producer-handler's business that he would normally need such supplemental milk for Class I use, the classification provisions of the order should provide for the transfer of Class I milk from pool plants to producer-handlers. A producer-handler might also look to unregulated sources for supplemental milk for his fluid milk requirements. To allow producer-handlers to obtain unpriced milk for fluid milk requirements, would be inequitable to pool handlers who must account for milk at class prices. The term "producer-handler" therefore should not include operators who receive other source milk for utilization as Class I milk.

(c) *Classification and allocation of milk.* The definitions of Class I and Class II milk under the Appalachian and Bluefield orders are identical and may be adopted in the consolidated order with only slight modification.

Handlers proposed that fluid milk products used as animal feed should be classified as Class II milk. The orders now provide that the skim milk portion of any product disposed of for livestock feed may be so classified. In support of their proposal, handlers testified that such packaged products as homogenized milk and chocolate milk, when returned from stores, are ordinarily disposed of for animal feed. Handlers have found it impossible to separate and salvage the butterfat from such route returns.

Both the skim milk and butterfat portions of homogenized milk and milk drinks (plain and flavored) disposed of for animal feed should be classified as Class II milk. Such classification should be based upon specific records showing the amounts of skim milk and butterfat so disposed of, which are made available to the market administrator for verification of such disposition.

The provision for allowance of shrinkage in Class II now in the Bluefield order should be adopted in the same form in the consolidated order. This provision differs slightly from that in the Appalachian order in that proration of shrinkage to Class I and Class II is not affected by use of diverted milk in nonpool plants. Also, milk received from a cooperative association in its capacity as a handler is included with direct receipt of producer milk at the pool plant for the purposes of computing shrinkage.

The classification provisions now in the orders with respect to transfers of milk from pool plants to other pool plants or nonpool plants may be adopted largely in the same form in the consolidated order. The mileage limitation of 200 miles, which was originally adopted in the Bluefield order as the distance within which transfers to unregulated plants would be classified on the basis of actual use, should apply under the consolidated order. The greater distance of 300 miles adopted in the amendment to the Bluefield order April 1, 1959, is no longer applicable to the present market situation. The points of reference from which distance is measured should be the City Halls of Bluefield, West Virginia, and Kingsport, Tennessee.

Provision should be made for the classification in Class I of Class I milk products transferred from a pool handler to a producer-handler.

In the case of concentrated milk products which result from the removal of any of the water contained in the original milk or skim milk from which the product has been prepared, the handler should account for the receipt and utilization of such product on the basis of the quantity of skim milk contained in the original milk used to produce such product. The pounds of skim milk to be accounted for as received and utilized in the case of such concentrated products should, therefore, be the weight of the nonfat milk solids contained in the product plus all of the water originally associated with such solids.

A more refined allocation procedure should be adopted than presently provided for in the two orders. The new procedure would maintain the general principles that producer milk receipts should be given priority in assignment to Class I use. Accordingly, other types of milk receipts should be subtracted first from the gross Class II utilization of the pool plant, or from the class agreed upon under the applicable rules in the case of transfers between pool plants. In the subtraction of other source milk, distinction should be made between processed forms of milk products specified in the definition of Class II milk as compared with fluid forms specified in the definition of Class I milk. This distinction is needed to recognize that the former type of milk product may originate within the plant and enters into the accounting only because it is reprocessed or converted to another product during the month. It follows that if such products are used in Class I disposition, there would be no basis for application of the Class I location allowance thereon. A further distinction should be made between other source milk which originates at plants regulated under another Federal order and other source milk which originates at plants not regulated by any Federal order. This should be done so as to give limited priority in Class I assignment to milk which has been priced under another order. Such a priority is now acknowledged between the Appalachian and Bluefield orders.

Handlers requested that producer milk should not have complete priority for Class I assignment if a pool plant received milk from a plant regulated under another Federal order. It was requested that an amount of Class II utilization equal to 5 percent of the receipts of producer milk at the plant be set aside prior to the assignment of other Federal order milk. This provision is adopted in the accompanying order language so as to allow handlers sufficient flexibility in obtaining needed supplies for their fluid business during periods when the market supply of producer milk is relatively close to the volume of Class I sales. This special assignment provision should apply only when the total receipts of producer milk for the month are less than 110 percent of the net volume of Class I disposition of pool plants. The term "net" is used to indicate that in the case of milk transferred between handlers the same milk would not be accounted for twice in arriving at the amount of Class I disposition of pool plants. Whenever this special allocation provision applies, the amount of Class II utilization which had been set aside would be re-entered in the total amount of utilization being accounted for after the subtraction of other Federal order milk. Provision should be made in the allocation procedure to assure clearance of inventories each month. This may be accomplished by providing that opening inventory shall be allocated to Class II only to the extent that remaining Class II utilization exceeds closing inventory. This procedure will simplify the determination of the appropriate amount of any reclassification payment due on opening inventory assigned to Class I in the current month and assure that no such payment is assessed on other Federal order milk in inventory which was originally classified and priced in Class I in the originating market. Inventories of Class I milk products on hand at a plant which is first pooled during the month should be allocated as other source milk received at the plant during the month.

(d) *Class prices—Class I price.* The Class I price should be the basic formula price plus differentials of $2.10 for the months of August through February, and $1.66 for the months of March through July.

The basic formula prices under the two orders are similar and are continued under the consolidated order in essentially the same form. The basic formula price is the highest of (1) the average price paid by certain Midwest condensaries adjusted to a four percent butterfat test, (2) a price resulting from a formula based on market prices for butter and nonfat dry milk, and (3) the Class II price. The only difference in the basic formula price under the two orders is that in the computation of the Class II price a different list of manufacturing plant pay prices is used. The list to be used under the consolidated order is discussed under the findings on the Class II price. It is not expected that any of the changes in the list of plants would have any immediate effect on the level of Class I price. Since January 1958 the average pay price of all such plants has been considerably lower than the other alternatives for computing the basic formula price. The list of Midwest condensery plants used should omit the plant at Mount Pleasant, Michigan, which has ceased operations.

The proposed revision in the butter-nonfat dry milk basic price formula presented by producers should not be adopted. This revision would have increased the average monthly Class I price approximately 9 cents in 1958 and 8 cents in 1959. Since the purpose of the basic formula price is to arrive at a proper Class I price, the propriety of any such increase in the basic formula

price depends entirely on the level at which the Class I price should be established. The level of Class I prices is discussed below.

Since the Appalachian order was made effective October 1, 1954, the Class I price differentials have been $2.10 for the months of August through February and $1.70 for all other months. The Class I price differentials under the Bluefield order, which were made effective October 1, 1956, have been the same as those under the Appalachian order except that in the months of April, May and June, they have been 25 cents less. This has resulted in an annual average of Class I differentials under the Bluefield order of $1.871 as compared with $1.933 under the Appalachian order.

The schedule of Class I differential adopted herein would result in an annual average differential of $1.917 per hundredweight. It is expected that this would return approximately the same total money to producers under the consolidated order as is now received under the two orders. Since the largest producer association, which represents about 85 percent of the producers delivering to plants in the two markets, has established the practice of payment to producer members at a blended average price based on payments made by handlers in the two areas, the prices adopted herein should result in little change, if any, in the blended returns to producers.

Consolidated statistics of the two markets show a reasonable relationship of producer milk supplies to Class I milk for the years 1957, 1958, and 1959. Substantial quantities of producer milk have been available for shipment during the past two years to other southern markets, primarily for fluid use. In addition, it has been necessary on other occasions to divert producer milk to local manufacturing plants. In view of current supplies, which may be characterized as ample but not burdensome to the market, the proposal of the cooperative association to use the present higher Appalachian Class I price differential for the consolidated Appalachian order, should not be adopted.

A handler proposal which would have established two pricing districts, one for the present Appalachian marketing area and another for Bluefield under the consolidated order was abandoned by proponents at the hearing. Nevertheless, such a pricing arrangement should be reviewed because of the lower Class I price during April, May and June which has applied under the Bluefield order as compared to the Appalachian Class I price for the same months.

The separate price district for the Bluefield area is not established under the consolidated order largely because the location of supply areas and the movement of milk within the consolidated marketing area are more in agreement with the plan for a single price level for the entire area. A large part of the supply for the Bluefield handlers comes from producers with farms located on the side of the Bluefield area nearest to the present Appalachian marketing area. Milk of many of these farmers is shifted between the markets from time to time. Also, there are regular movements of milk from the plant of one Appalachian handler to his plant in the Bluefield area. The common conditions of supply for the present Bluefield and Appalachian marketing areas support a common price under the consolidated order.

Class II price. The list of manufacturing plants specified in the Bluefield order plus the Franklin Milk Company, Jonesboro, Tennessee, should be used for the purposes of establishing the Class II price during the months of March through August and as an alternative to the butter-powder formula price in the months of September through February under the consolidated order. These Class II formula prices are also used as an alternative basic formula price.

The Class II price under each of the Appalachian and Bluefield orders is an average of selected manufacturing plant prices during March through August and the higher of this price or a butter-powder formula price during September through February. The butter-powder formula price is identical in both orders, and no change is herein recommended for the consolidated order. The list of manufacturing plants for the Class II pricing formula under the Bluefield order contains nine plants, two of which are Kraft Foods Company plants located at Independence, Virginia and Greeneville, Tennessee. The list of nine manufacturing plants in the Class II pricing formula under the Appalachian order contains seven of the same plants as under the Bluefield order, and two Pet Milk Company plants at Mayfield and Bowling Green, Kentucky instead of the two Kraft Food Company plants.

Proponents of the consolidated Appalachian order proposed the addition of the prices reported by the Franklin Milk Company plant located at Jonesboro, Tennessee, to the prices reported by the nine manufacturing plants under the Bluefield order. This series was proposed as a more representative value of manufacturing milk in this area. Handlers supported the use of the ten listed manufacturing plants.

During 1959, the proposed annual average Class II price would have exceeded the Appalachian order Class II price by approximately 2 cents and the Bluefield order Class II price by 1 cent. During the period November 1958 to February 1960, manufacturing plant prices were the effective Class II price in 12 months. The butter-powder formula portion of the Class II price exceeded the manufacturing plant prices in September, October, November and December 1959.

Premiums are paid in excess of reported pay prices of manufacturing plants for ungraded milk. The cooperative association has received prices in excess of these prices for surplus milk. The plant at Jonesboro, Tennessee added to the list of manufacturing plants under the order is within the marketing area and serves as an outlet for surplus milk. In view of these considerations, it is concluded that the ten plants being more representative of the price level for manufacturing milk in the consolidated area should be used for Class II pricing purposes.

Location differentials. The City Hall, Harlan, Kentucky, should be included along with the City Limits, Kingsport, Tennessee (under the present Appalachian order); City Halls of Bluefield and Welch, West Virginia, and the County Courthouse, Princeton, West Virginia (under the Bluefield order) as points for determining producer and handler location differentials.

This system of multiple basing points should provide equitable pricing of milk throughout this marketing area consisting of a number of widely scattered communities. The addition of the City Hall, Harlan, Kentucky to those presently under the two orders provides points throughout the consolidated marketing area. The present rate of differentials, which are the same under both orders, should be continued for the consolidated order.

(e) *Payments on other source milk.* The consolidated order should provide for payments on other source milk allocated to Class I milk in pool plant(s), and on Class I milk distributed on routes in the marketing area through a nonpool plant, which is in excess of such plant's receipts of milk from Federal order plants, classified and priced as Class I milk.

Compensatory payment provisions are necessary in orders with marketwide pooling to protect the integrity of regulation and to deter the displacement of regular producer milk by unpriced milk. Regulation of all milk disposed of in the marketing area or the drawing of marketing area boundaries to include the total distribution areas of all handlers doing business in a particular marketing area, is neither practical nor possible.

Full regulation applies only to milk received at pool plants under this order. Special provision is made for plants which distribute minor volumes of milk in this marketing area. Nonpool fluid milk plants distributing fluid milk products on routes in the marketing area in amounts which do not exceed 10 percent of their total fluid milk sales are not required to equalize. These plants, with only a small proportion of their route distribution in the regulated market, should be considered as primarily associated with outside markets. Such plants could be at a serious disadvantage in competition with other nonpool plants in their normal market if they were required to pay order prices for all of their fluid milk. On the other hand, the requirement that Class I milk sales in the marketing area by nonregulated handlers be accounted for at the Class I price by payments to the pool as herein recommended will negate any pricing advantage on such milk.

This provision offers protection from the use of seasonal surplus milk at less than class prices. If handlers were permitted to use surplus milk at a cost less than that provided under the order, such milk would tend to displace producer milk. If other markets could dispose of their seasonal surplus in this market for Class I use, without an equalization payment, regular producer milk would be displaced in Class I use. The supply of milk for this market would be jeopardized, unstable market prices would prevail, and adequate production of milk for the market would be in doubt. These marketing conditions would be contrary to the purposes of the Agricultural Marketing Agreement Act. Therefore, an essential provision of this order is one that neutralizes the advantage created for unpriced other source milk, in order to insure the effectiveness of the classified pricing program and to promote orderly marketing of milk.

The Class II price under the recommended order represents the prevailing price for milk for manufacturing purposes. Similarly, the Class II price reflects the value of surplus milk in adjacent fluid milk markets which is disposed of through manufacturing plants. Thus, payment which reflects the difference between Class I and Class II prices will assure producers and fully regulated handlers that Class I milk disposed of in the marketing area will be priced the same to all handlers as required by the Act.

A proposal was made at the hearing that handlers operating pool plants make payments into the producer-settlement fund on any amount of other source milk which, under the allocation procedure, was allocated to Class I disposition.

Payments would not apply to other source milk which originated under another order where such milk had been classified and priced as Class I milk. The standards used by the Secretary to establish Class I prices under other orders are those used to determine Class I prices under this order. Alignment of Class I prices under the orders can be achieved through adjustment of the prices as recommended herein rather than by assignment of equalization payments on such milk.

Payments are to be made on other source milk received at a pool plant in the form of Class II milk products and allocated to Class I milk at the difference between the applicable Class I price and Class II price for the location of the pool plant. Payments should be made on other source milk received at a pool plant in the form of products specified as Class I milk and allocated to Class I milk, at the difference between the Class I and Class II price, subject to the location differential applicable at the nearest nonpool plant from which such other source milk is received. Further, payments should be made by handlers operating nonpool plants which distribute Class I milk in the marketing area at the difference between the Class I price and Class II price at the location of the nonpool plant.

(f) *Producer-settlement fund.* Provision for the establishment of the producer-settlement fund is necessary under the marketwide pooling arrangement adopted in the consolidated order. The producer-settlement fund, administered by the market administrator, is the repository for payments from handlers of the difference that the value of their milk according to utilization is greater than the amount required to be paid to producers or cooperative associations at the uniform price, payments on unpriced milk made by operators of nonpool plants, and adjustments of errors in previous payments. Payments are made to handlers from the producer-settlement fund, for distribution to producers through the uniform price, when the handlers' total value of milk according to utilization is less than the amount required to be paid to producers or cooperative associations, and for adjustments due to errors in payments.

Money should be retained in the producer-settlement fund to maintain a reserve to compensate for late payments, moneys due a handler on the basis of audit, and the fraction remaining from the computation of the uniform price to the nearest full cent. The maintenance of a reserve will facilitate the orderly operation of the pool. This reserve should be accumulated by deducting between 4 and 5 cents from the uniform price, after adding an amount equal to one-half of the unobligated balance to the pool from which the uniform price is computed.

Payments by handlers operating pool or nonpool plants should be made to the producer-settlement fund on or before the 12th day after the end of each month. Payments out of the producer-settlement fund to handlers operating pool plants should be made before the 13th day after the end of the month.

(g) *Base and excess plan.* The base and excess provisions presently in the two orders are the same as herein adopted with one exception. Base rules should be revised to provide for the establishment of bases for producers who deliver milk to a plant which first becomes regulated either during or after the base-forming months (September through February). Establishment of bases under this provision would depend on the operator of the new plant furnishing to the market administrator the necessary records for each producer.

Producers' representatives proposed that provision be made for bases for producers delivering to a plant operated by a cooperative association which obtained pooling status after the start of the base-forming period.

The purpose of a base-excess plan is to encourage more even production throughout the year in line with the seasonal requirements of Class I milk. This purpose will nevertheless be implemented by providing opportunity for the operator of a newly regulated plant to establish the seasonality of receipts and hence bases for each of his producers. However, the operator should be required to furnish the market administrator the necessary records to verify his receipts from each producer during the base-forming months. Without such a provision, as was pointed out by representatives of the cooperative association, producers delivering to newly regulated plants would receive excess prices for their milk during the months of April through July. The base rules have been so revised.

(h) *Administrative provisions.* The consolidated order is redrafted to incorporate new or revised language consistent with the order revisions, conforming and clarifying changes, and to facilitate application of various provisions.

The milk on which the expense of administration is charged should be revised to exclude milk under another order on which administrative assessment has been paid under another Federal order. Handlers regulated under the Knoxville Federal order proposed elimination of assessment under both orders for milk distributed in parts of the consolidated marketing area. The functions of the market administrator, for which the administrative assessment provides the necessary funds, are sufficiently performed under one Federal order and the resulting information can be made available to additional Federal orders if there is a need for such information regarding milk distributed in the various Federal order marketing areas. Therefore, milk distributed in this marketing area from another Federal order market and subject to the administrative assessment in the market where the milk is under full regulation is excluded from such assessment under this order.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions, and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the re-

spective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

RECOMMENDED MARKETING AGREEMENT AND ORDER AMENDING THE ORDERS

The following order amending the orders regulating the handling of milk in the Appalachian and Bluefield marketing areas is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended:

DEFINITIONS

§ 923.1 Act.

"Act" means Public Act No. 10, 73d Congress, as amended, and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

§ 923.2 Secretary.

"Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 923.3 Department.

"Department" means the United States Department of Agriculture.

§ 923.4 Person.

"Person" means any individual, partnership, corporation, association or other business unit.

§ 923.5 Cooperative association.

"Cooperative Association" means any cooperative marketing association of dairy farmers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 923.6 Appalachian marketing area.

"Appalachian marketing area" hereinafter called the marketing area, means all of the territory geographically located within the perimeters of the counties of Greene, Sullivan, and Washington in Tennessee; Tazewell, Washington, and Wise in Virginia; McDowell and Mercer in West Virginia; and Harlan in Kentucky.

§ 923.7 Route.

"Route" means any delivery to retail or wholesale outlets (including delivery by a vendor or sale from a plant or plant store) of any milk or milk products classified as Class I milk pursuant to § 923.41(a) other than a delivery to a plant.

§ 923.8 Plant.

"Plant" means the land, buildings, surroundings, facilities and equipment whether owned and operated by one or more persons constituting a single operating unit or establishment at which milk or milk products are received and processed or packaged: *Provided*, That this definition shall not be deemed to include any separate building, premises or facilities the primary function of which is to hold or store packaged milk or milk products in finished form in transit on routes.

§ 923.9 Pool plant.

"Pool plant" means any plant except the plant of a producer-handler or a plant described in § 923.61:

(a) From which during the month:

(1) Total disposition of Class I milk is equal to not less than 50 percent of its receipts of milk, from dairy farmers (including such receipts from a cooperative association in its capacity as a handler), and

(2) Disposition of Class I milk on routes in the marketing area is equal to not less than 10 percent of its total Class I milk disposition on routes both inside and outside the marketing area;

(b) From which milk or milk products approved or recognized by a duly constituted health authority for distribution within the marketing area are shipped as milk, skim milk or cream, in fluid form, in an amount equal to not less than 50 percent of its receipts of such milk or milk products from dairy farmers and cooperative associations to plant(s) specified in paragraph (a) of this section: *Provided*, That any plant which qualifies as a pool plant pursuant to this paragraph in each of the months of August through March shall be a pool plant for the following months of April through July unless the operator of such plant files with the market administrator prior to the first day of any month of April through July a written request for nonpool status for such month; or

(c) Which is operated by a cooperative association, if the volume of milk transferred from such plant to other pool plants during the month, plus the volume of milk received at other pool plants from dairy farmers who are members of such cooperative association is equal to not less than 70 percent of the total volume of milk received at all plants from dairy farmers who are members of such association and who produce milk in compliance with the requirements of a duly constituted health authority for fluid consumption.

§ 923.10 Handler.

"Handler" means (a) any person in his capacity as the operator of a pool plant; (b) any person in his capacity as the operator of a nonpool plant from which Class I milk is disposed of on routes in the marketing area or from which milk, skim milk or cream in fluid form is shipped to a plant which disposes of Class I milk on routes in the marketing area; (c) any cooperative association of producers with respect to producer milk diverted by it from a pool plant to a nonpool plant; and (d) any cooperative association with respect to the milk of its producer members which is delivered directly from the farm to the pool plant of another handler, in a tank truck owned and operated by, under contract to, or under control of such cooperative association, if the cooperative notifies in writing both the market administrator and the handler to whom the milk is delivered that it wishes to be the handler for such milk. The cooperative association shall be considered the handler for such milk, effective the first day following receipt of such notice, and the milk so delivered shall be considered to have been received by such cooperative association at the location of the pool plant to which it is delivered.

§ 923.11 Producer.

"Producer" means any person except a producer-handler, who produces milk in compliance with the requirements of a duly constituted health authority for distribution within the marketing area, which milk is (a) received at a pool plant, or (b) received by a cooperative association in its capacity as a handler pursuant to § 923.10(d), or (c) diverted from a pool plant to a nonpool plant other than a plant of a producer-handler: (1) Any day during the months of March through July, and (2) on not more than 15 days during any of the months of August through February: *Provided*, That the milk so diverted shall be deemed to have been received at the pool plant from which diverted if diverted for the account of the operator of such plant, or at a pool plant at the same location if diverted for the account of a cooperative association.

§ 923.12 Producer milk.

"Producer milk" means only that skim milk or butterfat contained in milk (a) received at a pool plant directly from producers or from a cooperative association pursuant to § 923.10(d), or (b) diverted from a pool plant to a nonpool plant in accordance with the conditions set forth in § 923.11(c).

§ 923.13 Other source milk.

"Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of products designated as Class I milk pursuant to § 923.41(a), except (1) such products which are received from pool plants including receipts for which the cooperative association is a handler pursuant to § 923.10(d), or (2) producer milk; and

(b) Products designated as Class II milk pursuant to § 923.41(b)(1) from any source (including those from a pool plant's own production), which are reprocessed or converted to another product in the plant during the month.

§ 923.14 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a plant from which Class I milk is disposed of on routes in the marketing area whose only source of supply for Class I milk is milk of his own production and products designated as Class I milk pursuant to § 923.41(a) from pool plants.

§ 923.15 Chicago butter price.

"Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department.

§ 923.16 Base milk.

"Base milk" means milk received at a pool plant from a producer during any of the months of April through July which is not in excess of such producer's base for such month computed pursuant to § 923.81.

§ 923.17 Excess milk.

"Excess milk" means either (a) milk received at a pool plant from a producer during any of the months of April through July, which is in excess of base milk received from such producer during such month, or (b) milk received during such month from a producer for whom no base can be computed pursuant to § 923.80.

MARKET ADMINISTRATOR

§ 923.20 Designation.

The agency for the administration of this part shall be a market administrator, appointed by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal by the Secretary.

§ 923.21 Powers.

The market administrator shall have the following powers with respect to this part:

(a) Administer its terms and provisions;

(b) Receive, investigate, and report to the Secretary complaints of violations;

(c) Make rules and regulations as are necessary to effectuate its terms and provisions; and

(d) Recommend amendments to the Secretary.

§ 923.22 Duties.

The market administrator shall perform all the duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon duty and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer terms and provisions of this part;

(c) Obtain a bond in a reasonable amount, and with reasonable surety thereon, covering each employee who handles funds entrusted to the market administrator;

(d) Pay from the funds received pursuant to § 923.98, the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses, except those incurred under § 923.97, that are necessarily incurred by him in the maintenance and functioning of his office, and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce at his descretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports or payments required by this part;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as the Secretary may request;

(h) Prepare and disseminate to producers, handlers, and the public, information as he deems necessary;

(i) On or before the 12th day after the end of each month, report to each cooperative association which so request in writing, the percentage of producer milk delivered by members of such association which was used in each class by each handler receiving such milk. For the purpose of this report the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler.

(j) Verify all reports and payments of each handler, by audit or such other investigation, as may be necessary, of such handler's records and facilities and of the records and facilities of any person upon whose utilization the classification of skim milk and butterfat depends; and

(k) On or before the date specified herein, publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate, the following: (1) The 6th day of each month, the Class I milk price, and the Class I butterfat differential, both for the current month; and the Class II milk price, and the Class II butterfat differential; both for the preceding month; and (2) the 10th day of each month, the uniform price, or the uniform prices for base milk and excess milk and the producer butterfat differential, all for the preceding month.

REPORTS, RECORDS, AND FACILITIES

§ 923.30 Reports of receipts and utilization.

(a) On or before the 6th day after the end of each month, each handler shall report to the market administer, for each of his pool plants and for each accounting period elected in such month, in the detail and on forms prescribed by the market administrator, as follows:

(1) The respective quantities of skim milk and butterfat contained in receipts of producer milk;

(2) The quantities of skim milk and butterfat contained in products designated as Class I milk pursuant to § 923.41(a)(1) received from other pool plants and from a cooperative association in its capacity as a handler pursuant to § 923.10(d);

(3) The quantities of skim milk and butterfat contained in other source milk;

(4) The inventories of skim milk and butterfat in products designated as Class I milk pursuant to § 923.41(a) on hand at the beginning and end of the month;

(5) The utilization of all skim milk and butterfat required to be reported by this part, including a separate statement of the disposition of Class I milk outside the marketing area; and

(6) Such other information with respect to his utilization of butterfat and skim milk as the market administrator may prescribe.

(b) On or before the 6th day after the end of each month, each cooperative association, with respect to milk for which it is a handler pursuant to § 923.10(d) or § 923.11(c), shall report to the market administrator for such month, and for each accounting period elected in such month, in the detail and on forms prescribed by the market administrator, as follows:

(1) The quantities of skim milk and butterfat contained in receipts of producer milk; and

(2) The quantities of skim milk and butterfat contained in milk delivered to each pool plant and in the milk diverted to each nonpool plant.

(c) Each handler who submits reports on the basis of an accounting period of less than a month, as described in § 923.35, shall submit a summary report of the same information for the entire month.

§ 923.31 Other reports.

(a) Each producer-handler and each handler operating a nonpool plant shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler operating a pool plant shall report to the market administrator on or before the first day other source milk is received in the form of milk, fluid skim milk or cream at his pool plant, his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product.

§ 923.32 Payroll reports.

On or before the 20th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of milk for the preceding month for each of his pool plants which shall show: (a) The name and address of each producer, (b) the total pounds and the average butterfat test of milk received from such producer, including, for the months of April through July, the total pounds of base and excess milk, (c) the days on which milk was received from such producer if less than a full month, (d) the rate and net amount of payment to each producer, and (e) the amount and nature of any deductions or charges involved in such payments.

§ 923.33 Records and facilities.

Each handler shall maintain and make available to the market administrator during the usual hours of business such

accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and other milk products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and other milk products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions authorized by producers, and disbursement of money so deducted.

§ 923.34 Retention of records.

All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c(15)(A) of the Act, or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 923.35 Accounting periods.

A handler may account for receipts of milk, utilization and classification of milk at any of his pool plants(s) for two periods within a month, either period not to be less than seven days, in the same manner as for a month, if he provides to the market administrator in writing not later than 24 hours prior to the end of an accounting period notification of his intention to use two accounting periods.

CLASSIFICATION

§ 923.40 Skim milk and butterfat to be classified.

All skim milk and butterfat which is required to be reported pursuant to §§ 923.30 and 923.31 shall be classified each month by the market administrator, pursuant to the provisions of §§ 923.41 through 923.46.

§ 923.41 Classes of utilization.

Subject to the condition set forth in §§ 923.42, 923.43 and 923.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of milk, skim milk, buttermilk, milk drinks (plain or flavored), cream (except frozen cream) and any mixture in fluid form of skim milk and cream (except sterilized products in hermetically sealed containers, ice cream mix, and eggnog); (2) not accounted for as Class II milk;

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those designated as Class I milk pursuant to paragraph (a) of this section; (2) contained in homogenized and chocolate milk disposed of for animal feed; (3) contained in (skim milk only) products disposed of for animal feed, other than those in (2) of this paragraph; (4) dumped (skim milk only) during the months of April, May, June or July: *Provided*, That the handler shall give the market administrator such advance notice of intention to dump as the market administrator may require; (5) contained in inventory of products designated as Class I milk pursuant to paragraph (a) of this section on hand at the end of the month; and (6) in shrinkage assigned to Class II pursuant to § 923.42.

§ 923.42 Shrinkage.

The market administrator shall determine the assignment of shrinkage to Class II milk as follows:

(a) Determine the total shrinkage of butterfat and skim milk in the pool plant(s) of the handler;

(b) Multiply the pounds of skim milk and butterfat in producer milk (except milk diverted pursuant to § 923.11(c)), and other source milk by 0.02;

(c) Multiply the pounds of butterfat and skim milk, respectively, determined pursuant to paragraph (a) or (b) of this section, whichever is less, by the percentage of butterfat and skim milk, respectively, classified pursuant to § 923.41(a) (1) and (2), and (b) (1), (2), (3) and (4) (excluding that in milk diverted pursuant to § 923.11(c) and shrinkage determined pursuant to paragraph (a) of this section) which is in Class II milk. The resulting amounts of skim milk and butterfat shall be classified as Class II milk; and

(d) Assign the shrinkage of skim milk and butterfat classified as Class II milk pro rata to producer milk and other source milk.

§ 923.43 Responsibility of handlers and reclassification of milk.

(a) All skim milk and butterfat shall be Class I milk unless the handlers who first received such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise; and

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 923.44 Transfers.

Skim milk or butterfat shall be classified:

(a) As Class I milk if transferred from a pool plant or by a cooperative association in its capacity as a handler pursuant to § 923.10(d) in the form of products designated as Class I milk in § 923.41(a)(1) to a pool plant of another handler unless utilization as Class II milk is claimed by both handlers in the reports submitted by them to the market administrator pursuant to § 923.30: *Provided*, That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of milk pursuant to § 923.46(a) (1) through (7) and (b), and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk: *And provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to the producer milk of both handlers;

(b) As Class I milk if transferred from a pool plant in the form of products as designated in § 923.41(a) to a producer-handler;

(c) As Class I milk if transferred from a pool plant or diverted by a handler from his pool plant in bulk form as milk or skim milk to a nonpool plant unless:

(1) Such nonpool plant is located not more than 200 miles from the City Hall in Bluefield, West Virginia, or from the city limits of Kingsport, Tennessee, such mileage to be the shortest highway distance as determined by the market administrator;

(2) The handler claims classification in Class II in his report;

(3) The buyer maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available if requested by the market administrator for the purpose of verification; and

(4) Not less than an equivalent amount of skim milk and butterfat was actually used as Class II milk in such buyer's plant: *Provided*, That the same Class II utilization of butterfat and skim milk, respectively, shall not be claimed for receipts from other pool plant(s) under this or any other Federal order; and

(d) As Class I milk if transferred from a pool plant in bulk form as cream to a nonpool plant unless:

(1) Such cream is transferred without Grade A certification of any health authority;

(2) The handler claims Class II in his report submitted to the market administrator pursuant to § 923.30 on or before the 6th day after the end of the month within which such transaction occurred;

(3) The buyer maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available, if requested by the market administrator for the purpose of verification; and

(4) Not less than an equivalent amount of skim milk and butterfat was actually used as Class II milk in such buyer's plant: *Provided*, That the same Class II utilization of butterfat and skim milk, respectively, shall not be claimed for receipts from other pool plant(s) under this or any other Federal order.

§ 923.45 Computation of the skim milk and butterfat in each class.

For each month, the market administrator shall correct for mathematical and for other obvious errors, the reports of receipts and utilization of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handler: *Provided*, That if any of the water contained in the milk from which a product is made has been removed before the product is received, utilized or disposed of by a handler, the pounds of skim milk to be accounted for as received, utilized or disposed of shall be the weight of the nonfat milk solids contained in the product, plus all of the water originally associated with such solids.

§ 923.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 923.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner;

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 923.42(d);

(2) Subtract from the remaining pounds of skim milk in Class II milk the pounds of skim milk in other source milk pursuant to § 923.13(b); *Provided*, That if the receipts of skim milk in such other source milk are greater than the remaining pounds of skim milk in Class II milk, the amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(3) Subtract from the remaining pounds of skim milk in Class II milk the pounds of skim milk in other source milk pursuant to § 923.13(a) received from nonpool plants, not subject to the classification and pricing provisions of another Federal order: *Provided*, That if the receipts of skim milk in such other source milk are greater than the remaining pounds of skim milk in Class II milk, the amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(4) Subtract from the remaining pounds of skim milk in Class II milk an amount equal to such remainder, or the product obtained by multiplying the pounds of skim milk in producer milk by 0.05, whichever is less, whenever total producer receipts for the market are less than 110 percent of net Class I utilization for the market;

(5) Subtract from the remaining pounds of skim milk in Class II milk the pounds of skim milk in other source milk subject to the classification and pricing provisions of another Federal order; *Provided*, That if the receipts of skim milk in such other source milk are greater than the remaining pounds of skim milk in Class II milk, the amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(6) Add to Class II milk the pounds of skim milk subtracted pursuant to subparagraph (4) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in Class II milk, in excess of the pounds of skim milk contained in inventory of products designated as Class I milk pursuant to § 923.41(a)(1) on hand at the end of the month, the pounds of skim milk in inventory of such products on hand at the beginning of the month: *Provided*, That if the pounds of skim milk in such inventory are greater than the remaining pounds of skim milk in Class II milk utilization the difference shall be subtracted from the pounds of skim milk in Class I milk;

(8) Subtract from the remaining pounds of skim milk in each class the skim milk received from the pool plants of other handlers or from a cooperative association in its capacity as a handler pursuant to § 923.10(d) in the form of products designated as Class I milk in § 923.41(a)(1), according to its classification as determined pursuant to § 923.44(a);

(9) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(10) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "overage".

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of the Class I and Class II milk allocated to producer milk.

MINIMUM PRICES

§ 923.50 Basic formula price.

The highest of the prices computed pursuant to paragraph (a) or (b) of this section and § 923.51(b), rounded to the nearest whole cent, shall be the basic formula price.

(a) To the average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department on or before the 5th day after the end of the month:

Present Operator and Location

Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Sparta, Mich.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

add an amount computed by multiplying the Chicago butter price for the month by 0.6.

(b) The price per hundredweight computed as follows: Multiply the Chicago butter price by 4.8 and add to such sum 3¾ cents for each full ½ cent that the average of carlot prices per pound of nonfat dry milk, spray and roller process, for human consumption, f.o.b. Chicago area manufacturing plants, as reported by the Department for the period from the 26th day of the immediately preceding month through the 25th day of the current month, is above 5 cents.

§ 923.51 Class prices.

Subject to the provisions of §§ 923.52 and 923.53, the class prices per hundredweight for the month shall be as follows:

(a) *Class I milk price.* The Class I milk price shall be the basic formula price for the preceding month, plus $1.66 during the months of March through July; and $2.10 during all other months.

(b) *Class II milk price.* For the months of March through August, the Class II milk price shall be the price computed pursuant to subparagraph (1) of this paragraph, and for all other months the higher of the prices computed pursuant to subparagraphs (1) and (2) of this paragraph:

(1) The average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department on or before the 6th day after the end of the month.

Company and Location

Borden Co., Lewisburg, Tenn.
Borden Co., Chester, S.C.
Carnation Co., Galax, Va.
Carnation Co., Murfreesboro, Tenn.
Carnation Co., Statesville, N.C.
Franklin Milk Co., Jonesboro, Tenn.
Kraft Foods Co., Independence, Va.
Kraft Foods Co., Greeneville, Tenn.
Pet Milk Co., Greeneville, Tenn.
Pet Milk Co., Abingdon, Va.

(2) Add the amounts obtained pursuant to subdivisions (i) and (ii) of this subparagraph, and subtract 75 cents therefrom.

(i) Multiply the Chicago butter price by 4.8;

(ii) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month, by the Department.

§ 923.52 Butterfat differential to handlers.

For milk containing more or less than 4.0 percent butterfat, the class prices for the month calculated pursuant to § 923.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate determined as follows;

(a) *Class I price.* Multiply the Chicago butter price for the previous month by 0.12, and round to the nearest one-tenth cent.

(b) *Class II price.* Multiply the Chicago butter price for the previous month by 0.11, and round to the nearest one-tenth cent.

§ 923.53 Location differentials to handlers.

For that milk which is received from producers at a pool plant located 50 miles or more from the nearest of the following listed places, by shortest hard sur-

faced highway distance as determined by the market administrator and is assigned to Class I milk the price specified in § 923.51(a) shall be reduced at the rate of 10 cents per hundredweight for a distance of not less than 50 miles but less than 60 miles, plus 1.5 cents per hundredweight additional for each 10 miles, or fraction thereof, beyond 60 miles, according to the location of the pool plant where such milk is received from producers;

County Courthouse, Princeton, W. Va.
City Hall, Bluefield, W. Va.
City Hall, Welch, W.Va.
City Limits, Kingsport, Tenn.
City Hall, Harlan, Ky.

Provided, That for the purpose of calculating such location differentials, products so designated as Class I milk which are transferred between pool plants shall first be allotted to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 923.46(a) (1) through (7) and the comparable steps in § 923.46(b) for such plant, and after deductions from such remainder an amount equal to 0.05 times the skim milk and butterfat contained in the producer milk received at the transferee-plant, such assignment to transferor plants to be made in sequence accordance to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 923.54 Use of equivalent prices.

If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 923.60 Producer-handlers.

Sections 923.42 through 923.46, 923.50 through 923.53, 923.62, 923.70 through 923.73, 923.80 through 923.83, and 923.90 through 923.99 shall not apply to a producer-handler.

§ 923.61 Plants subject to other Federal orders.

A plant specified in paragraph (a) or (b) of this section shall be exempt from regulation under this order except that the operator of such plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 923.30), and allow verification of such reports by the market administrator.

(a) Any plant qualified pursuant to § 923.9(a) which would be fully regulated under the provisions of another order issued pursuant to the Act unless the Secretary determines that a greater volume of Class I milk is disposed of from such plant on routes in the Appalachian marketing area than in the marketing area regulated pursuant to such other order.

(b) Any plant qualified pursuant to § 923.9 (b) or (c) which would be fully regulated under the provisions of another order issued pursuant to the Act unless such plant was a pool plant pursuant to § 923.9 (b) or (c) for each month during the preceding August through March period.

§ 923.62 Payments on other source milk.

(a) Each handler operating a pool plant who received other source milk which is allocated to Class I pursuant to § 923.46 (a)(2) and (b), shall make payment on the quantity so allocated at the difference between the Class I price and the Class II price adjusted for butterfat content and location of his pool plant qualified pursuant to § 923.9(a);

(b) Each handler operating a pool plant who received other source milk which is allocated to Class I pursuant to § 923.46 (a)(3) and (b), shall make payment on the quantity so allocated at the difference between the Class I price, and the Class II price applicable at the nearest nonpool plant(s) from which an equivalent amount of such other source milk is received; and

(c) Each handler operating a nonpool plant which is not subject to the classification and pricing provisions of another order issued pursuant to the Act, shall, on or before the 12th day after the end of the month, make payment to the market administrator for deposit into the producer-settlement fund, on the quantity of skim milk and butterfat disposed of as Class I milk pursuant to § 923.41(a) from such nonpool plant on routes in the marketing area during the month, which is in excess of his receipts of skim milk and butterfat, respectively, classified and priced as Class I milk under this or any other Federal order, at the difference between the Class I price and the Class II price applicable at the location of such plant.

DETERMINATION OF UNIFORM PRICE

§ 923.70 Computation of the value of milk for each handler.

The net obligation of each handler for milk received at his pool plant and of any cooperative association with respect to milk for which it is a handler pursuant to § 923.10 (c) or (d) each month shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of such milk in each class by the applicable class price and total the resulting amounts;

(b) Add any plus amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 923.46 (a)(10) and (b) by the applicable class price;

(c) Add the amount of any payment due from such handler pursuant to § 923.62 (a) or (b);

(d) Add any plus amount computed by multiplying the difference between the appropriate Class II price for the preceding month and the appropriate Class I price for the current month by the hundredweight of producer milk classified in Class II during the preceding month less allowable shrinkage allocated pursuant to § 923.46(a)(1) in such month, or the hundredweight of milk subtracted from Class I milk pursuant to § 923.46 (a)(7) and (b) for the current month, whichever is less;

(e) Add the amount computed by multiplying the difference between the appropriate Class II price for the preceding month and the appropriate Class I price for the current month by the hundredweight of milk allocated to Class I pursuant to § 923.46 (a)(7) and (b) for the current month which is in excess of (1) the hundredweight of milk for which an adjustment was made pursuant to paragraph (d) of this section and (2) the hundredweight of milk assigned to Class II pursuant to § 923.46 (a)(5) and (b) for the previous month and which was classified and priced as Class I under another Federal order.

§ 923.71 Computation of the uniform price.

For each of the months of August through March, the market administrator shall compute the uniform price per hundredweight of producer milk of 4.0 percent butterfat content, f.o.b. basing points, as follows:

(a) Combine into one total the values computed pursuant to § 923.70 for the milk of all handlers who submit reports prescribed in § 923.30 and who are not in default of payments pursuant to § 923.90 or § 923.94;

(b) Add the total of the location differential deductions to be made pursuant to § 923.92;

(c) Subtract, if the average butterfat content of the producer milk included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 923.91, and multiply the result by the total hundredweight of such milk;

(d) Add an amount equal to one-half of the unobligated balance on hand in the producer-settlement fund;

(e) Divide the resulting amount by the total hundredweight of producer milk included under paragraph (a) of this section; and

(f) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payments by handlers.

§ 923.72 Computation of the uniform prices for base milk and for excess milk.

For each of the months of April through July, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, f.o.b. basing points, as follows:

(a) Compute the aggregate value of excess milk for all handlers who submit reports pursuant to § 923.30, and who are not in default of payments pursuant to §923.90 or § 923.94 as follows: (1) Multiply the hundredweight quantity of such milk which does not exceed the total quantity of producer milk assigned to Class II milk in the pool plants of such handlers by the price for Class II milk of 4.0 percent butterfat content, (2) multiply the remaining hundredweight quantity of excess milk by the price for Class I milk of 4.0 percent butterfat content, (3) add together the resulting amounts, and (4) add any amount indicated pursuant to the proviso of paragraph (d) of this section;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat content, f.o.b. basing points;

(c) Subtract the total value of excess milk determined by multiplying the uniform price obtained in paragraph (b) of this section times the hundredweight of excess milk from the total value of producer milk for the month as determined by the procedure set forth in § 923.71 (a) through (d);

(d) Divide the amount calculated pursuant to paragraph (c) of this section by the total hundredweight of base milk included in these computations: *Provided*, That if such resulting value is greater than an amount computed by multiplying the pounds of such base milk by the Class I price, such value in excess thereof shall be added to the value computed pursuant to paragraph (a) of this section to the extent that the excess price shall not exceed the base price as calculated herein. Any additional value remaining shall be prorated to the respective volume of base and excess milk; and

(e) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (d) of this section for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payments by handlers. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content, f.o.b. basing points.

§ 923.73 Notification of handlers.

On or before the 10th day after the end of each month, the market administrator shall mail to each handler, who submitted the report(s) prescribed in § 923.30, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) For the months of April through July the amounts and value of his base and excess milk respectively, and the totals thereof;

(c) The uniform price(s) computed pursuant to §§ 923.71 and 923.72 and the butterfat differential computed pursuant to § 923.91; and

(d) The amounts to be paid by such handler pursuant to §§ 923.62, 923.94, 923.97, and 923.98 and the amount due such handler pursuant to § 923.95.

BASE RATING

§ 923.80 Determination of daily base.

The daily base of each producer shall be calculated by the market administrator as follows: Divide the total pounds of milk received from such producer at all pool plants during the months beginning with September of the previous year through February of the current year by the number of days from the first day milk is received from such producer during said months to the last day of February, inclusive, but not less than 120 days.

§ 923.81 Computation of base.

The base of each producer to be applied during the months of April through July shall be a quantity of milk calculated by the market administrator in the following manner: Multiply the daily base of such producer by the number of days such producer's milk was received by such handler during the month: *Provided*, That if the producer's milk was not received on a daily basis, the daily base shall be multiplied by the number of days during the month for which the milk production of such producer was received by such handler.

§ 923.82 Base rules.

The following rules shall apply in connection with the establishment of bases:

(a) A base shall be assigned to each producer for whose account milk is received at a pool plant during the months beginning with September of the preceding year through February of the current year.

(b) Bases may be transferred by notifying the market administrator in writing before the last day of any month for which such bases is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer, the entire base may be transferred to a member of such producer's immediate family who carries on the dairy operations.

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

(3) The entire daily base of a producer may be removed from one handler to another handler regulated under this part.

(c) The daily base of any producer whose milk was received at a plant which becomes first qualified as a pool plant after September 1, of the previous year shall be computed under § 923.80 on the basis of such producer's deliveries to such plant during the months beginning with the September preceding the current year through February of the current year, if such records are made available to the market administrator.

§ 923.83 Announcement of established bases.

On or before April 1 of each year, the market administrator shall notify each producer and the handler receiving milk from such producer of the daily base established by such producer.

PAYMENTS

§ 923.90 Time and method of payment for producer milk.

(a) Except as provided in paragraph (b) and (c) of this section, each handler shall make payment to each producer for milk received during the month as follows: On or before the 15th day after the end of the month, an amount equal to not less than the applicable uniform price(s) adjusted by the butterfat and location differentials to producers, multiplied by the hundredweight of milk received from such producer during the month, subject to the following adjustments:

(1) Less marketing service deductions made pursuant to § 923.97, and

(2) Less proper deductions authorized in writing by such producer;

(b) In the case of a cooperative association which has so requested the handler in writing, such handler shall, on or before the second day prior to the date payments are due to individual producers pursuant to paragraph (a) of this section, pay the association for milk received during the month from the producer-members of such association an amount equal to not less than the total due such producer-members as determined pursuant to paragraph (a) of this section, less any deductions authorized in writing by such association: *Provided*, That the association has provided the handler with a written promise to reimburse the handler the amount of any actual loss incurred by such handler because of any improper claim on the part of the cooperative association;

(c) On or before the second day prior to the date payments are due individual producers, each handler shall pay a cooperative association for milk received at his pool plant from such association for which the association is the handler not less than the value of such milk computed at the applicable minimum class prices for the location of the pool plant of the buying handler; and

(d) In making the payments to producers pursuant to paragraph (a) or (b) of this section, each handler shall furnish each producer from whom he had received milk with a supporting statement in such form that it may be retained by the producer, which shall show for each month:

(1) The month and identity of the handler and of the producer;

(2) The daily and total pounds and the average butterfat content of milk received from such producer, including, for the months in which base and excess prices apply, the pounds of base and excess milk;

(3) The minimum rate or rates at which payment to the producer or cooperative association is required pursuant to this part;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount payment to the producer or cooperative association.

§ 923.91 Butterfat differential to producers.

The applicable uniform prices to be paid each producer pursuant to § 923.90 shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 4.0 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk allocated to Class I and Class II milk pursuant to § 923.46(b) by the respective butterfat differential for each class, dividing the sum of such values by the total pounds of such butterfat, and rounding the resultant figure to the nearest one-tenth of a cent.

§ 923.92 Location differential to producers.

In making payment to producers pursuant to § 923.90, the applicable uniform prices to be paid for producer milk received at a pool plant located 50 miles or more from the nearest of the following listed places by the shortest hard surfaced highway distance, as determined by the market administrator, shall be reduced according to the location of the pool plant where such milk was received at the following rate: County Courthouse, Princeton, West Virginia; City Hall, Bluefield, West Virginia; City Hall, Welch, West Virginia; City Limits of Kingsport, Tennessee; City Hall of Harlan, Kentucky:

Distance in miles	Rate per hundredweight (cents)
50 but less than 60	10
For each additional 10 miles (or fraction thereof) an additional	1.5

§ 923.93 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 923.62(c), 923.94, and 923.96 and out of which he shall make all payments pursuant to §§ 923.95 and 923.96: *Provided*, That any payments due to any handler shall be offset by any payments due from such handler.

§ 923.94 Payments to the producer-settlement fund.

On or before the 12th day after the end of each month, each handler shall pay to the market administrator any amount by which the value of his milk as computed pursuant to § 923.70 for such month, is greater than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differentials.

§ 923.95 Payments out of the producer-settlement fund.

On or before the 13th day after the end of each month, the market administrator shall pay to each handler any amount by which the value of his producer milk computed pursuant to § 923.70, for such month is less than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differentials.

§ 923.96 Adjustment of errors in payment.

Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund pursuant to § 923.94, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to § 923.95, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required by § 923.90, the handler shall pay such balance due such producer or cooperative association not later than the time of making payment to producers or cooperative associations next following such disclosure.

§ 923.97 Marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk (other than milk of his own production) pursuant to § 923.90, shall deduct 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight, as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association.

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments, to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers on or before the 15th day after the end of each month, and pay such deductions to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions computed for each producer.

§ 923.98 Expense of administration.

As his pro rata share of the expense of administration of this part each handler shall pay to the market administrator, on or before the 15th day after the end of the month, for such month, 5 cents per hundredweight or such lesser amount as the Secretary may prescribe as follows:

(a) Each handler in his capacity as operator of a pool plant with respect to (1) all receipts of producer milk and receipts of milk from a cooperative association in its capacity as a handler pursuant to § 923.10(d), and (2) receipts of other source milk which are classified as Class I milk and not subject to administrative assessment under another Federal order: *Provided*, That if such handler elects two accounting periods within the month, the applicable rate of assessment for such handler shall be the rate set forth above multiplied by two or such lesser rate as the Secretary may determine is demonstrated as appropriate in terms of the particular cost of administering the additional accounting period.

(b) Each handler operating a nonpool plant with respect to Class I milk disposed of during the month on routes in the marketing area from a nonpool plant except from a plant pursuant to § 923.61.

§ 923.99 Termination of obligations.

The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 923.100 Effective time.

The provisions of this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 923.101.

§ 923.101 Suspension or termination.

The Secretary may suspend or terminate this part or any provisions thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the Act. This part shall, in any event, terminate whenever the provisions of the Act authorizing it cease to be in effect.

§ 923.102 Continuing obligations.

If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 923.103 Liquidation.

Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 923.110 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 923.111 Separability of provisions.

If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D.C., this 2d day of December 1960.

F. R. BURKE,
Acting Deputy Administrator.

SCREWWORMS

Notice of Proposed Rule Making

Notice is hereby given in accordance with section 4 of the Administrative Procedure Act (5 U.S.C. 1003) that pursuant to sections 1 and 2 of the Act of February 2, 1903, as amended, and sections 4 through 7 of the Act of May 29, 1884, as amended (21 U.S.C. 111–113, 115, 117, 120, 121), it is proposed to amend the regulations relating to screwworms, appearing in Part 83, Title 9, Code of Federal Regulations, in the following respects:

1. New paragraphs (s) and (t) would be added to § 83.1 to read:

§ 83.1 Definitions.

* * * * *

(s) *State inspector.* An inspector regularly employed in livestock sanitary work of a State, and who is authorized by such State to perform the function involved.

(t) *Dogs.* Racing, hunting, and livestock working dogs.

§ 83.5 [Amendment]

2. Sections 83.5(a)(4) and 83.8(a) would be amended by inserting the words "or State" between the words "Federal" and "inspector" wherever they appear therein.

3. A new § 83.15 would be added to read:

§ 83.15 Interstate movements of dogs subject to certain provisions.

The provisions of the regulations in this part shall be applicable to dogs with the exception of the requirements pertaining to treatment with a permitted precautionary spray, and movements to and from public stockyards and specifically approved stockyards.

The purposes of these proposed amendments are (1) to permit certain inspections and other functions under the regulations to be performed by inspectors employed by States or political subdivisions thereof who are not now eligible to perform such functions, and (2) to make certain provisions of Part 83 applicable to racing, hunting, and livestock working dogs because screwworms recently have been found to exist in these classes of dogs, and it has been determined that the communicable disease screwworms myasis has been disseminated interstate by such dogs.

All persons who wish to submit written data, views, or arguments concerning the proposed amendments may do so by filing them with the Director, Animal Disease Eradication Division, Agricultural Research Service, United States Department of Agriculture, Washington 25, D.C., within 30 days after the date of the publication of this notice in the FEDERAL REGISTER.

Done at Washington, D.C., this 2d day of December 1960.

M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

O,Q-DIETHYL O-(2-ISOPROPYL-4-METHYL-6-PYRIMIDINYL) PHOSPHOROTHIOATE

Notice of Amendment of Petition for Establishment of Tolerances

Correction

In F.R. Doc. 11203, appearing at page 12374 of the issue for Friday, Dec. 2, 1960, the following corrections are made in the last clause of the first paragraph: The word "methly" should read "methyl", and the word "porimidinyl" should read "pyrimidinyl".

FEDERAL AVIATION AGENCY

[14 CFR Part 507]

[Reg. Docket No. 591]

AIRWORTHINESS DIRECTIVES

Fairchild F–27 Series Aircraft

Pursuant to the authority delegated to me by the Administrator (14 CFR Part 405), notice is hereby given that the Federal Aviation Agency has under consideration a proposal to amend Part 507 of the regulations of the Administrator to include an airworthiness directive requiring replacement of Walter Kidde Chemical Drier Housings used on Fairchild F–27 Series aircraft. Service experience has shown that the housings are subject to failure at a time limit lower than that originally established by the manufacturer. Such a failure can result in structural damage to the aircraft nacelle area.

Interested persons may participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room B–316, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before January 9, 1961, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed

in light of comments received. All comments submitted will be available, in the Docket Section, for examination by interested persons when the prescribed date for return of comments has expired. This proposal will not be given further distribution as a draft release.

This amendment is proposed under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423).

In consideration of the foregoing, it is proposed to amend § 507.10(a) of Part 507 (14 CFR Part 507), by adding the following airworthiness directive:

FAIRCHILD. Applies to Walter Kidde Company Chemical Drier Housings P/N 890395, used on Fairchild F-27 Series aircraft.

Compliance required as indicated.

It has been determined that Walter Kidde Chemical Drier Housing P/N 890395 is subject to cycling failure at a time limit lower than that originally established by the manufacturer. Accordingly, the following must be accomplished:

Chemical Drier Housings, which have been in service 2,000 hours or two years, must be removed from service and replaced with new housings within 30 days from the effective date of this directive. Thereafter, all housings must be removed from service at each 2,000 hours' time in service or two years whichever occurs first.

NOTE: Removed housings should be destroyed or mutilated so as to preclude the possibility of their being returned to service.

The housing must be visually inspected at each cartridge change during service life. If cracking, distortion or corrosion is evidenced, the housing must be removed for a detailed inspection. Cracks or distortion in either the housing tube or end caps, or corrosion in the threaded areas is cause for immediate replacement of the entire unit. Units having corrosion, in other than the threaded areas, which can be removed without reducing the wall thickness below 0.160 inch, may be repaired and returned to service.

(Fairchild Aircraft and Missiles Division Service Bulletin No. 36-6 covers this same subject.)

Issued in Washington, D.C., on December 2, 1960.

GEORGE C. PRILL,
Acting Director,
Bureau of Flight Standards.

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-NY-130]

FEDERAL AIRWAYS, CONTROL AREAS AND REPORTING POINTS

Revocation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Blue Federal airway No. 66 presently extends from Bridgeport, Conn., to Poughkeepsie, N.Y. The Federal Aviation Agency is considering revoking Blue 66 in its entirety. It is the policy of this Agency to revoke L/MF airways wherever adequate VOR airways are available, and it appears that the route from Bridgeport to Poughkeepsie is adequately served by VOR Federal airway No. 34. In addition, the Federal Aviation Agency IFR peakday airway traffic survey for the period July 1, 1959, through June 30, 1960, shows one aircraft movement on Blue 66. Therefore, it appears that the retention of this airway segment is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Blue 66, its associated control areas and reporting points. Adoption of this proposal would not necessarily result in discontinuance of the low frequency navigational aids associated with Blue 66. Any proposal to discontinue one or more of these aids would be processed in accordance with current Agency procedures.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 2, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11406; Filed, Dec. 7, 1960; 8:49 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-NY-132]

FEDERAL AIRWAYS, CONTROL AREAS AND REPORTING POINTS

Revocation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Red Federal airway No. 3 extends from the Philipsburg, Pa., radio range to the Harrisburg, Pa., radio range. The Federal Aviation Agency is considering revoking this airway. It is the policy of this Agency to revoke L/MF airways wherever adequate VOR airways are available, and it appears that the route from Philipsburg to Harrisburg is adequately served by VOR Federal airway No. 33. In addition, the Federal Aviation Agency IFR peak-day airway traffic survey for the period July 1, 1959, through June 30, 1960, shows no aircraft movements on this airway. Therefore, it appears that the retention of this airway is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Red 3 and its associated control areas. Adoption of this proposal would not necessarily result in discontinuance of the low frequency navigational aids associated with Red 3. Any proposals to discontinue one or more of these aids would be processed in accordance with current Agency procedures. Concurrently with this action, § 601.4203, relating to designated reporting points on Red 3 would be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 2, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11407; Filed, Dec. 7, 1960; 8:49 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-NY-117]

FEDERAL AIRWAYS, CONTROL AREAS AND REPORTING POINTS

Revocation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Red Federal airway No. 51 extends from Blackstone, Va., to Langley, Va. The Federal Aviation Agency is considering revoking Red 51 in its entirety. The Federal Aviation Agency IFR peakday airway traffic survey for the period July 1, 1959, through June 30, 1960, shows a maximum of three aircraft movements between any two reporting points on this airway. Therefore, it appears that the retention of this airway is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Red 51 and its associated control areas. Adoption of this proposal would not necessarily result in discontinuance of the low frequency navigational aids associated with Red 51. Any proposals to discontinue one or more of these aids would be processed in accordance with current Agency procedures. Concurrently with this action § 601.4251 relating to reporting points on Red 51 would be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 2, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11408; Filed, Dec. 7, 1960; 8:50 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-NY-113]

FEDERAL AIRWAYS, CONTROL AREAS AND REPORTING POINTS

Revocation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Red Federal airway No. 72 extends from the intersection of the southwest course of the Millville, N.J., radio range and the south course of the New Castle, Del., radio range (Hartley, Del., Intersection), to the intersection of the north course of the New Castle radio range and the west course of the Philadelphia, Pa., radio range (Dupont, Del., Intersection); and from the intersection of the east course of the Harrisburg, Pa., radio range and the southwest course of the Willow Grove, Pa., radio range (West Chester, Pa., Intersection), to the Paterson, N.J., radio beacon. The Federal Aviation Agency is considering revoking Red 72 in its entirety. It is the policy of this Agency to revoke L/MF airways wherever adequate VOR airways are available, and it appears that the route from Hartley to Paterson is adequately served by a combination of VOR Federal airways No. 16, No. 271, and No. 3. In addition, the Federal Aviation Agency IFR peak-day airway traffic survey for the period July 1, 1959, through June 30, 1960, shows a maximum of one aircraft movement between any two reporting points on Red 72. Therefore, it appears that the retention of this airway is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Red 72 and its associated control areas and reporting points. Adoption of this proposal would not necessarily result in discontinuance of the low frequency navigational aids associated with Red 72. Any proposal to discontinue one or more of these aids would be processed in accordance with current Agency procedures.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 2, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[14 CFR Part 601]

[Airspace Docket No. 60-AN-29]

CONTROL AREAS

Revocation of Control Area Extension

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 of the regulations of the Administrator, the substance of which is stated below.

The Galena, Alaska, control area extension (§ 601.1146) is designated as the airspace within 5 statute miles either side of the 086° and 278° True radials of the Galena AFB TACAN, extending to points 80 nautical miles east and west of the facility. The TACAN IFR approach procedures at the Galena AFB have been cancelled. Therefore, it appears that there would no longer be a requirement for the control area designated to protect aircraft executing these procedures. Accordingly, the Federal Aviation Agency is considering revoking this control area extension.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 440, Anchorage, Alaska. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 2, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11409; Filed, Dec. 7, 1960; 8:50 a.m.]

Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 2, 1960.

[14 CFR Part 601]

[Airspace Docket No. 60-NY-116]

CONTROL ZONES

Revocation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.1983 of the regulations of the Administrator, the substance of which is stated below.

The Blackstone, Va., control zone is designated within a 3-mile radius of the Blackstone AAF. The Federal Aviation Agency is considering revoking this control zone. It is the policy of the Agency to consider discontinuance of a control zone when its requirements for establishment can no longer be maintained. The prescribed instrument approach procedure for the Blackstone Airport has been cancelled, and there is no control tower for the control of VFR traffic. Therefore, it appears that the retention of this control zone is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke the Blackstone control zone.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 2, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

IDAHO

Notice of Proposed Withdrawal and Reservation of Lands

DECEMBER 1, 1960.

The Department of Agriculture has filed an application, Serial Number Idaho 011898 for the withdrawal of the lands described below, from all forms of appropriation under the general mining laws, except the mineral leasing laws, subject to valid existing rights. The applicant desires the land for campgrounds, recreation areas, and public service sites in the Lolo National Forest.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, P.O. Box 2237, Boise, Idaho.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

Jerry Johnson Bar Campground

T. 36 N., R. 12 E.,
Unsurveyed, but will be when surveyed:
Sec. 12; S½S½SE¼NW¼, N½NE¼SW¼, NW¼NW¼SE¼.
Totaling 40 acres.

Colgate Warm Springs Recreational Area

T. 36 N., R. 12 E.,
Unsurveyed, but will be when surveyed:
Sec. 15; W½SW¼NE¼NE¼, E½SW¼NW¼NE¼, SE¼NW¼NE¼, NE¼SW¼NE¼, E½NW¼SW¼NE¼, W½NW¼SE¼NE¼.
Totaling 40 acres.

Squaw Creek Campground

T. 36 N., R. 13 E.,
Unsurveyed, but will be when surveyed:
Sec. 5; SW¼SW¼NW¼NE¼, W½SW¼NE¼.
Totaling 22.5 acres.

Wendover Bar Campground

COLORADO

Notice of Proposed Withdrawal and Reservation of Lands

NOVEMBER 3, 1960.

The United States Forest Service of the Department of Agriculture has filed an application, Serial Number Colorado 046749, for the withdrawal of the lands described below from location and entry under the General Mining Laws, subject to existing valid claims.

The applicant desires the land for use as campgrounds, picnic grounds, rest area, recreation area, lookout, and administrative sites located in the Routt, San Juan and Uncompahgre National Forests.

For a period of thirty days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Colorado State Office, 339 New Custom House, P.O. Box 1018, Denver 1, Colorado.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, COLORADO

ROUTT NATIONAL FOREST

Lost Lake Recreation Area

T. 6 N., R. 82 W.,
Sec. 30: Lot 4;
Sec. 31: Lot 1.
T. 6 N., R. 83 W. (Unsurveyed), in approximate Sections 25 and 36.
Beginning at corner No. 1, the west ¼ corner of Section 31, T. 6 N., R. 82 W. From corner No. 1 by metes and bounds,
West, 20 chains, to corner No. 2;
North, 30 chains, to corner No. 3;
West, 20 chains, to corner No. 4;
North, 30 chains, to corner No. 5;
East, 40 chains, to corner No. 6;
South, 60 chains, to corner No. 1, the point of beginning.

The tract as described contains approximately 260 acres.

Lake Percy Recreation Area

T. 6 N., R. 83 W. (Unsurveyed), in approximate Section 24.
Beginning at corner No. 1, the west ¼ corner of Section 19, T. 6 N., R. 82 W. From corner No. 1, by metes and bounds,
West, 40 chains to corner No. 2;
North, 30 chains to corner No. 3;
East, 40 chains to corner No. 4;
South, 30 chains to corner No. 1, the point of beginning.

The tract as described contains approximately 160 acres.

Lake Dinosaur Recreation Area

T. 6 N., R. 83 W. (Unsurveyed) in approximate Section 10.
Beginning at corner No. 1, from which the southwest corner of Section 7, T. 6 N., R. 82 W. bears east, 180 chains. From corner No. 1 by metes and bounds,
West, 40 chains to corner No. 2;
North, 40 chains to corner No. 3;
East, 20 chains to corner No. 4;
North, 16 chains to corner No. 5;
East, 40 chains to corner No. 6;
South, 16 chains to corner No. 7;
West, 20 chains to corner No. 8;
South, 40 chains to corner No. 1, the point of beginning.

The tract as described contains approximately 224 acres.

Lake Martha Recreation Area

T. 7 N., R. 83 W. (Unsurveyed),
Beginning at corner No. 1, from which the southwest corner of Section 30, T. 7 N., R. 82 W. bears east 70 chains. From corner No. 1 by metes and bounds,
West, 80 chains to corner No. 2;
North, 100 chains to corner No. 3;
East, 80 chains to corner No. 4;
South, 100 chains to corner No. 1, the point of beginning. The tract does not include the 40.0 acre Summit Lake Recreation Area withdrawn on January 14, 1957 under Public Land Order 1381 (Colorado 013628).

The tract as described contains approximately 760 acres.

Saw Mill Creek Picnic Area (Addition)

T. 9 N., R. 89 W.,
Sec. 1, S½SW¼SW¼.

Total area 20 acres.

Lester Creek Reservoir Recreation Area

T. 10 N., R. 85 W.,

INTERSTATE COMMERCE COMMISSION

[Notice 420]

MOTOR CARRIER TRANSFER PROCEEDINGS

DECEMBER 5, 1960.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC 63379. By order of November 30, 1960, the Transfer Board approved the transfer to Alto Distributors, Incorporated, Malden, Missouri, of the "grandfather" operating rights claimed to have been performed by F. D. Trover, Malden, Missouri, under section 7 of the Transportation Act of 1958 (72 Stat. 574), for which a certificate is sought in Docket No. MC 118234 for the transportation of bananas from New Orleans, La., and the territory including ports on the Gulf of Mexico within continental United States, to points in Missouri, Illinois, Michigan, Nebraska, and Kansas. John Paul Jones, 189 Jefferson Avenue, Memphis 3, Tenn., for applicants.

No. MC–FC 63380. By order of November 30, 1960, the Transfer Board approved the transfer to Alto Distributors, Incorporated, Malden, Missouri, of the "grandfather" operating rights claimed to have been performed by Herbert M. Arrington, Malden, Missouri, under section 7 of the Transportation Act of 1958 (72 Stat. 574), for which a certificate is sought in Docket No. MC 118050 for transportation of bananas between points in Louisiana, Mississippi, Michigan, Arkansas, Missouri, Iowa, Illinois, Tennessee, Kentucky, Kansas, and Nebraska. John Paul Jones, 189 Jefferson Avenue, Memphis 3, Tenn., for applicants.

No. MC–FC 63381. By order of November 30, 1960, the Transfer Board approved the transfer to Alto Distributors, Incorporated, Malden, Missouri, of the operating rights authorized to Buford N. Owens, Malden, Mo., in Certificate No. MC 116210, issued November 9, 1960, authorizing the transportation, over irregular routes, of bananas from New Orleans, La., to points in Minnesota and Iowa. John Paul Jones, 189 Jefferson Avenue, Memphis 3, Tenn., for applicants.

No. MC–FC 63382. By order of November 30, 1960, the Transfer Board approved the transfer to Alto Distributors, Incorporated, Malden, Mo., of the "grandfather" operating rights claimed to have been performed by Alva R. Laws, Dba A. R. Laws, Malden, Mo., under Section 7 of the Transportation Act of 1958, (72 Stat. 574), for which a certificate is sought in Docket No. MC 118148 for the transportation of bananas from New Orleans, La., and other ports on the Gulf of Mexico between Tampa, Fla., and Brownsville, Tex., to points in Iowa, Illinois, Michigan, Indiana, Minnesota, Kansas, Nebraska, Missouri, Texas, and Kentucky. John Paul Jones, 189 Jefferson Avenue, Memphis 3, Tenn., for applicants.

No. MC–FC 63629. By order of November 30, 1960, the Transfer Board approved the transfer to John J. Hudson, doing business as John J. Hudson Co., 1, Service Road, Providence 5, R.I., of a portion of Certificate in No. MC 106544, issued June 17, 1947, to W. J. Halloran Trucking Co., a corporation, 303 Chapman St., Providence, R.I., authorizing the transportation of: Liquid bituminous materials used in road building, in bulk, from East Providence, R.I., to points in Rhode Island and Massachusetts, and those in Connecticut on and east of Connecticut Highway 8. From points in Franklin and Worcester Counties, Mass., to points in Massachusetts and New Hampshire. Between points in Connecticut, and between points in New Hampshire.

No. MC–FC 63634. By order of November 30, 1960, the Transfer Board approved the transfer to Advance Express Inc., 1006 S. Barclay St., Milwaukee 4, Wis., of Certificates in Nos. MC 1550, MC 1550 Sub 2, MC 1550 Sub 4, MC 1550 Sub 6, MC 1550 Sub 7, MC 1550 Sub 8, MC 1550 Sub 9, and MC 1550 Sub 11, issued December 16, 1940, August 15, 1942, July 24, 1942, December 9, 1946, February 20, 1947, May 24, 1949, January 9, 1951, and July 21, 1955, respectively, to Charles Hildenbrand and Elias Hildenbrand, a partnership, doing business as Advance Express Co., 1006 S. Barclay St., Milwaukee 4, Wis., authorizing the transportation of: General commodities, with the usual exceptions including household goods and commodities in bulk, from, to, or between specified points in Illinois, Indiana, Minnesota and Wisconsin.

No. MC–FC 63650. By order of November 30, 1960, the Transfer Board approved the transfer to Jordan Banana Distributing Co., A Corporation, McKeesport, Pa., of Certificate in No. MC 118380, issued August 30, 1960, to Anthony C. Jordan, doing business as Jordan's Bananas, McKeesport, Pa., authorizing the transportation of: Bananas, from New York, N.Y., to Somerset and Pittsburgh, Pa. John A. Vuono, 1515 Park Building, Pittsburgh 22, Pa., for applicants.

No. MC–FC 63656. By order of November 30, 1960, the Transfer Board approved the transfer to T. F. Clingman, Roger Thurmond, Humberto Garza, and Mary Lou Carothers Foster, a partnership, doing business as International Transportation Company, 114 East Greenwood Street, Del Rio, Texas, of Certificate in No. MC 104452, issued January 24, 1949, to Humberto Garza, Roger Thurmond, T. F. Clingman, and Radney Foster, a partnership, doing business as International Transportation Company, 114 East Greenwood Street, Del Rio, Texas, authorizing the transportation of: Passengers and their baggage, between Del Rio, Tex., and the boundary line of the United States and Mexico.

No. MC–FC 63665. By order of November 30, 1960, the Transfer Board approved the transfer to Behrens Trucking Corp., Malverne, N.Y., of Permit in No. MC 87720 Sub 2, issued July 7, 1958, to Maurice F. Behrens, Malverne, Long Island, N.Y., authorizing the transportation of: Burlap bagging and burlap cloth, from New York, N.Y., and Hoboken, Jersey City, and Port Newark, N.J., to Flemington, N.J., and, Burlap and cotton bags, and finished burlap cloth, from Flemington, N.J., to New York, N.Y. Maurice F. Behrens, 665 East Jericho Turnpike, Huntington Station, N.Y., for applicants.

No. MC–FC 63670. By order of November 30, 1960, the Transfer Board approved the transfer to J. H. Morgan, doing business as Mt. Pleasant Transfer Co., Blue Grass Avenue, Mt. Pleasant, Tenn., of Certificate in No. MC 71772, issued May 23, 1955, to J. A. Morgan and J. H. Morgan, a partnership, doing business as Mt. Pleasant Transfer Company, Blue Grass Avenue, Mt. Pleasant, Tenn., authorizing the transportation of: General commodities, with the usual exceptions including household goods and commodities in bulk, between Nashville, Tenn., and Mt. Pleasant, Tenn.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–3919]

EASTERN UTILITIES ASSOCIATES ET AL.

Notice of Proposed Issuance and Sale of Short-Term Notes to Banks

DECEMBER 1, 1960.

In the matter of Eastern Utilities Associates, Blackstone Valley Gas and Electric Company, Montaup Electric Company, File No. 70–3919.

Notice is hereby given that Eastern Utilities Associates ("EUA"), a registered holding company, and its public-utility subsidiary companies, Blackstone Valley Gas and Electric Company ("Blackstone") and Montaup Electric Company ("Montaup"), have filed a joint declaration, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7 and 12(d) of the Act and Rules 42(b)(2), 44, and 50(a)(2) promulgated thereunder as ap-

plicable to the proposed transactions, which are summarized as follows:

EUA, Blackstone, and Montaup have outstanding short-term promissory notes payable to banks that are expected to amount to $2,775,000, $2,700,000, and $2,500,000, respectively, at December 30, 1960. EUA's notes are secured by a pledge of certain first mortgage and collateral trust bonds of Blackstone while the notes of Blackstone and Montaup are unsecured.

EUA proposes to pay its outstanding short-term notes through the issuance and sale of promissory notes to The First National Bank of Boston ("First National"), in an aggregate amount of $2,775,000, such notes to be secured by a pledge of the above mentioned bonds of Blackstone. First National has granted participation in the EUA loans to Rhode Island Hospital Trust Company and Industrial National Bank of Providence to the extent of $740,000 to each bank. EUA contemplates that prior to December 30, 1961, all of its outstanding notes will be retired from the proceeds derived from the retirement of the Blackstone bonds in connection with the divestment of that company's gas properties.

Blackstone proposes to pay its short-term notes outstanding on December 30, 1960, and meet its cash requirements for construction purposes during 1961 through the issuance and sale of unsecured promissory notes to the banks and in the amounts indicated below:

Industrial National Bank of Providence	$2,000,000
Rhode Island Hospital Trust Company, Providence	2,000,000
Total	4,000,000

Montaup proposes to pay its short-term notes outstanding on December 30, 1960 through the issuance and sale of $2,500,000 of unsecured promissory notes to First National. First National has granted participation in the proposed notes to the banks and up to the amounts, indicated below:

The National Shawmut Bank of Boston	$625,000
State Street Bank and Trust Company, Boston	375,000
The First National City Bank of New York	500,000
The Hanover Bank, New York	250,000
Total	1,750,000

Each of the above proposed notes will be issued during the period from December 30, 1960, to December 29, 1961, will mature in less than one year from the date of issuance and will bear interest at the prime rate in effect on the date of issuance thereof, and will be prepayable in whole or in part without penalty.

The estimated fees and expenses to be paid in connection with the proposed transactions consist of legal fees and expenses of $535 to be paid by EUA, $215 by Blackstone, and $265 by Montaup.

It is represented that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than December 20, 1960 at 5:30 p.m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said joint declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date the joint declaration, as filed or as amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules 20(a) and 100 or take such other action as it may deem appropriate.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[File No. 811-444]

RESEARCH INVESTING CORP.

Notice of Application for Order Declaring That Company Has Ceased To Be An Investment Company

DECEMBER 1, 1960.

Notice is hereby given that Research Investing Corporation ("Applicant"), a registered closed-end investment company, has filed an application pursuant to section 8(f) of the Investment Company Act of 1940 for an order of the Commission declaring that it has ceased to be an investment company.

Applicant was organized under the laws of the State of Indiana on September 18, 1939, under the name of Securities Underwriter, Inc. Its name was changed to Research Investing Corporation on March 2, 1956. Applicant is registered under the Investment Company Act of 1940 as a management, closed-end, non-diversified investment company.

On May 12, 1959, a majority of the shareholders of the Applicant at a special meeting approved a Joint Agreement and Plan of Merger dated April 29, 1959, whereunder the Applicant would be merged into Research Investing Corporation, a New Jersey Corporation organized on February 11, 1959, as Research Investing Fund of America, Inc. and which adopted its present name April 29, 1959. The Joint Agreement and Plan of Merger was approved by unanimous vote of the shareholders of Research Investing Corporation on May 11, 1959.

The merger became effective under the laws of the States of Indiana and New Jersey on June 22, 1959, and Research Investing Corporation of New Jersey became the surviving corporation. The effect of the merger was to reincorporate the Applicant in the State of New Jersey as an open-end investment company.

Section 8(f) of the Act provides, in relevant part, that whenever the Commission upon application finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is hereby given that any interested person may, not later than December 20, 1960 at 5:30 p.m. submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, as provided by Rule O-5 of the rules and regulations promulgated under the act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[File No. 811-958]

ROWE PRICE NEW HORIZONS FUND, INC.

Notice of Application

DECEMBER 1, 1960.

Notice is hereby given that Rowe Price New Horizons Fund, Inc. ("Applicant"), has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order of the Commission exempting Applicant from the provisions of section 23(b) of the Act during the period ending not later than January 1, 1962, at the close of which it will become an open-end investment company.

Applicant was organized under the laws of Maryland on May 31, 1960, and registered under the Act on July 1, 1960. On September 6, 1960, the Fund filed a Registration Statement on Form S-4 under the Securities Act of 1933 (File No. 2-17009) relating to the public offering of 400,000 shares. Previously, 51,500 shares were purchased at $10 per share by twenty investors. Although presently a closed-end company, Article Fifth, section 5 of its charter, provides that when its total assets shall for the first time aggregate $10,000,000 or on January 1, 1962, whichever is earlier, it will become an open-end investment company and assume the obligation to accept outstanding shares presented for redemption at net asset value less a charge not in excess of 1 percent.

Under section 23(b) of the Act, it is unlawful for a registered closed-end company to sell any of its shares at a price below the current net asset value thereof determined as of a time within forty-eight hours, excluding Sundays and holidays, next preceding the time of such determination, unless the transaction falls within one of the exceptions specified in the section or occurs under such other circumstances as the Commission may permit by rules and regulations or orders for the protection of investors.

The Applicant proposes to sell shares of its capital stock to the public, without sales load, at an offering price equal to the net asset value per share next determined after the receipt of completed purchase applications. The net asset value of a share of the Applicant will be determined as of the close of business on each day the New York Stock Exchange is open, and each purchase application which is accepted will be executed at the closing price on the day the application is received. If the Stock Exchange is not open, the purchase will be executed at the closing price on the next day on which said Exchange is open. Accordingly, although the Applicant will not become an open-end company until a date not later than January 1, 1962, it proposes to commence immediately to price its shares in accordance with a practice in wide-spread use among no-load open-end companies making continuing offerings which Applicant believes are comparable to its proposed offering.

Applicant states that to the extent section 23(b) of the Act may be deemed to permit or require Applicant to price its shares on the basis of net asset value determined within the forty-eight hours next preceding the receipt of accepted purchase applications, the method now proposed by Applicant is more consistent with a policy of preventing dilution of net asset value as a result of continuing sales. Accordingly, Applicant believes such exemption is necessary and appropriate in the public interest and consistent with the protection of investors.

Notice is hereby given that any interested person may, not later than December 14, 1960 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, as provided by Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

IDENTIFICATION OF CARCASSES OF CERTAIN HUMANELY SLAUGHTERED LIVESTOCK

Supplemental List of Humane Slaughterers

Pursuant to section 4 of the Act of August 27, 1958 (7 U.S.C. 1904) and the statement of policy thereunder in 9 CFR 181.1 (25 F.R. 5863) the following table lists additional establishments operated under Federal inspection under the Meat Inspection Act (21 U.S.C. 71 et seq.) which have been officially reported as humanely slaughtering and handling the species of livestock respectively designated for such establishments in the table. This list supplements the list previously published under the act (25 F.R. 12257) for November and represents those establishments and species which were reported too late to be included in the earlier list or which have come into compliance with respect to species indicated since the completion of the reports on which the earlier list was based. The establishment number given with the name of the establishment is branded on each carcass of livestock inspected at that establishment. The table should not be understood to indicate that all species of livestock slaughtered at a listed establishment are slaughtered and handled by humane methods unless all species are listed for that establishment in the table. Nor should the table be understood to indicate that the affiliates of any listed establishment use only humane methods:

J. R. SCOTT,
Acting Director,
Meat Inspection Division, Agricultural Research Service.

[F.R. Doc. 60–11362; Filed, Dec. 12, 1960; 8:45 a.m.]

Commodity Credit Corporation

SALES OF CERTAIN COMMODITIES

December 1960 Monthly Sales List

Notice to buyers. Pursuant to the policy of Commodity Credit Corporation issued October 12, 1954 (19 F.R. 6669) and subject to the conditions stated therein, as well as herein, the commodities listed below are available for sale on the price basis set forth.

The CCC Monthly Sales List, which varies from month to month as additional commodities become available or commodities formerly available are dropped, is designed to aid in moving CCC's inventories into domestic or export use through regular commercial channels.

As announced November 7 (press release USDA 3255–60) oats are again eligible for export under the payment-in-kind, barter, and CCC Export Credit Sales programs.

If it becomes necessary during the month to amend this list in any material way—such as by the removal or addition of a commodity in which there is general interest or by a significant change in price or method of sale—an announcement of the change will be sent to all persons currently receiving the list by mail from Washington. To be put on this mailing list, address: Director, Price Division, Commodity Stabilization Service, U.S. Department of Agriculture, Washington 25, D.C.

All commodities currently offered for sale by CCC, plus tobacco from CCC loan stocks, are eligible for export sale under the CCC Export Credit Sales Program. The following commodities are currently eligible for barter: Nonfat dry milk, butter, cotton, tobacco, rice (milled), wheat, corn, barley, rye, oats, and grain sorghums. This list is subject to change from time to time.

Interest rates per annum under the CCC Export Credit Sales Program for December 1960 are 3½ percent for periods up to six months, 4 percent for periods from over six and up to 18 months, and 4½ percent for periods from over 18 months up to a maximum of 36 months.

The CCC will entertain offers from responsible buyers for the purchase of any commodity on the current list. Offers accepted by CCC will be subject to the terms and conditions prescribed by the Corporation. These terms include payment by cash or irrevocable letter of credit before delivery of the commodity, and the conditions require removal of the commodity from CCC storage within a reasonable period of time. Where conditions of sale for export differ from those for domestic sale, proof of exportation is also required, and the buyer is responsible for obtaining any required U.S. Government export permit or license. Purchases from CCC shall not constitute any assurance that any such permit or license will be granted by the issuing authority.

Applicable announcements containing all terms and conditions of sale will be furnished upon request. For easy reference a number of these announcements are identified by code number in the following list. Interested persons are invited to communicate with the Commodity Stabilization Service, USDA, Washington 25, D.C., with respect to all commodities or—for specified commodities—with the designated CSS Commodity Office.

Commodity Credit Corporation reserves the right to amend, from time to time, any of its announcements. Such amendments shall be applicable to and be made a part of the sale contracts thereafter entered into.

CCC reserves the right to reject any or all offers placed with it for the purchase of commodities pursuant to such announcements.

If CCC does not have adequate information as to the financial responsibility of a prospective buyer to meet all contract obligations that might arise by acceptance of an offer or if CCC deems such buyer's financial responsibility to be inadequate CCC reserves the right (i) to refuse to consider the offer, (ii) to accept the offer only after submission by the buyer of a certified or cashier's check, bond, letter of credit or other security acceptable to CCC assuring that the buyer will discharge the responsibility under the contract, or (iii) to accept the offer upon condition that the buyer promptly submit to CCC such of the aforementioned security as CCC may direct. If a prospective buyer is in doubt as to whether CCC is acquainted with his financial responsibility he should communicate with the CSS Office at which the offer is to be placed to determine whether a financial statement or advance financial arrangement will be necessary in his case.

Disposals and other handling of inventory items often result in small quantities at given locations or in qualities not up to specifications. These lots are offered by the appropriate CSS Office promptly upon appearance and therefore generally they do not appear in the Monthly Sales List.

On sales for which the buyer is required to submit proof to CCC of exportation the buyer shall be regularly engaged in the business of buying or selling commodities and for this purpose shall maintain a bona fide business office in the United States, its territories or possessions, and have a person, principal, or resident agent upon whom service of judicial process may be had.

Prospective buyers for export should note that generally, sales to United States Government agencies, with only minor exceptions, will constitute a domestic unrestricted use of the commodity.

Commodity Credit Corporation reserves the right, before making any sales, to define or limit export areas.

Notice to exporters. The Department of Commerce, Bureau of Foreign Commerce (BFC), pursuant to regulations under the Export Control Act of 1949, prohibits the exportation or re-exportation by anyone of any commodities (except bandages, gauze, and absorbent cotton with respect to Cuba only) under this program to Cuba, the Soviet Bloc, or Communist-controlled areas of the Far East including Communist China, North Korea, and the Communist-controlled areas of Vietnam, except under validated license issued by the U.S. Department of Commerce, Bureau of Foreign Commerce.

These regulations generally require that exporters, in or in connection with their contracts with foreign purchasers, where the contract involves $10,000 or more and exportation is to be made to a Group R country or Cuba, obtain from the foreign purchaser a written acknowledgment of his understanding of (1) U.S. Commerce Department prohibitions (Comprehensive Export Schedule, sections 371.4 and 371.8) against sales or resale for re-export of said commodities, or any part thereof, without express Commerce Department authorization, to the Soviet Bloc, Communist China, North Korea or the Communist-controlled area of Vietnam or to Cuba, and (2) the sanction of denial of future U.S. export privileges that may be imposed for violation of the Commerce Department regulations. Exporters who have a continuing and regular relationship with a foreign purchaser may obtain a blanket acknowledgment from such purchaser covering all transactions involving surplus agricultural commodities and manufactures thereof purchased from CCC or subsidized for export by the Secretary of Agriculture or CCC. Where commodities are to be exported by a party other than the original purchaser of the commodities from the CCC the original purchaser should inform the exporter in writing of the requirement for obtaining the signed acknowledgment from the foreign purchaser.

For all exportations, one of the destination control statements specified in BFC Regulation (Comprehensive Export Schedule, section 379.10(c)) is required to be placed on all copies of the shipper's export declaration, all copies of the bill of lading, and all copies of the commercial invoices. For additional information as to which destination control statement to use, the exporter should communicate with the Bureau of Foreign Commerce or one of the field offices of the Department of Commerce.

The above statement is with respect to the regulations of the Department of Commerce as of October 19, 1960. Exporters should consult the applicable regulations for more detailed information if desired and for any changes that may be made therein subsequent to such date.

Commodity	Sales price or method of sale
Dairy products	Sales are in carlots only in store at storage location of products. Submission of offers: For products in Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington, submit offers to the Portland CSS Commodity Office. For products in other States and the District of Columbia, submit offers to the Cincinnati CSS Commodity Office.
Butter	Domestic, unrestricted use; Announced prices, under LD–29 as amended: 66.5 cents per pound New York, Pa., N.J., New England, and other States bordering the Atlantic Ocean and Gulf of Mexico. 65.75 cents per pound Washington, Oregon, and California. All other States 65.5 cents per pound. Export: Competitive bid under LD–33, as amended, pursuant to invitations to bid issued by Cincinnati CSS Commodity Office (may be applied to arrangements for barter and approved credit sales).
Nonfat dry milk	Domestic, unrestricted use; Announced prices, under LD–29 as amended: Spray process, U.S. extra grade, 16.00 cents per pound. Roller process, U.S. extra grade, 13.00 cents per pound. Export: Competitive bid under LD–33, as amended, pursuant to invitations to bid to be issued by Cincinnati and Portland CSS Commodity Offices. Announced prices under LD–35: When sales are made under LD–33, as amended, above any nonfat dry milk offered but not sold under the invitation to bid will be offered for sale through the following Monday at prices announced in Washington each Tuesday. Sales under both announcements may be applied to arrangements for barter and approved credit sales.
Cotton, upland	Domestic or export, unrestricted use: Competitive bid and under the terms and conditions of Announcement CN–A (Revised June 3, 1960), as amended (sales by local sales agencies of 1960-crop Choice (A) cotton for unrestricted use), Announcement NO–C–14, as amended (sale of 1959 and prior crops cotton for unrestricted use), and Announcement NO–C–15, as amended, (sale of 1960-crop Choice (A) cotton for unrestricted use). Under CN–A (Revised) cotton to be sold at highest price offered but in no event at less than 110 percent of the applicable 1960 Choice (B) support price plus carrying charges. Under NO–C–14, as amended, cotton to be sold at highest price offered but in no event at less than the higher of (1) the market price as determined by CCC, or (2) 115 percent of the applicable Choice (B) support price plus carrying charges. Under NO–C–15, as amended, cotton to be sold at highest price offered but in no event at less than the higher of (1) the market price as determined by CCC, or (2) 110 percent of the applicable Choice (B) support price plus carrying charges.
Cotton, extra long staple	Domestic or export, unrestricted use: Competitive bid and under the terms and conditions of Announcements NO–C–6 (revised July 22, 1960), as amended, and NO–C–10, as amended, but not less than the higher of (1) 105 percent of the current support price plus reasonable carrying charges or (2) the domestic market price as determined by CCC.
Catalogs	Catalogs for upland cotton (except cotton offered under CN–A, (revised June 3, 1960), as amended) and extra long staple cotton showing quantities, qualities, and locations may be obtained for a nominal fee from the New Orleans CSS Commodity Office. Catalogs or lists of cotton offered under CN–A (revised June 3, 1960), as amended, may be obtained from local sales agencies.
Wheat, bulk	Domestic, unrestricted use; Commercial wheat-producing area: Market price basis in store but not less than the 1960 applicable loan rate plus (1) 19 cents per bushel if received by truck or (2) 16 cents per bushel if received by rail or barge. If delivery is outside the area of production, applicable freight will be added to the above. Examples of the foregoing minimum price per bushel (exrail or barge): Chicago, No. 1 RW ..... $2.24 Minneapolis, No. 1 DNS ..... 2.31 Kansas City, No. 1 HW ..... 2.24 Portland, No. 1 SW ..... 2.15 Noncommercial wheat-producing area: Same basis as in commercial area except 133 percent of applicable support rate. Export: (1) As wheat under Announcement GR–261 (revised Oct. 20, 1955), as amended, or as flour under Announcement GR–262 (revised July 16, 1956), as amended, for application under arrangements for barter which permits exportation of wheat as flour and approved credit sales only at prices determined daily (2) under Announcement GR–212 (revised Nov. 15, 1955), as amended, for specific offerings as announced and (3) under Announcement GR–345 (revised June 20, 1960), as amended, for redemption of certificates under payment-in-kind program. Available Evanston, Dallas, Kansas City, Minneapolis, and Portland CSS Commodity Offices.
Corn, bulk	Domestic, unrestricted use: Market price, basis in store,[1] but not less than the 1960 applicable loan rate plus (1) a markup of 11 cents per bushel for corn in storage at point of production or (2) a markup of 14 cents per bushel and the rail freight from point of production to the present point of storage for corn in storage at other than the point of production. Examples of the foregoing minimum price per bushel for No. 2 yellow corn, 13.3 percent moisture and 1.4 percent foreign material including average paid-in freight from Woodford County, Ill., to Chicago and Redwood County, Minnesota, to Minneapolis, respectively. Chicago ..... $1.36½ Minneapolis ..... 1.20¼ Nonstorable corn, unrestricted use (as available): At not less than market price as determined by CCC. At bin sites, through ASC County Offices. At other locations through the Commodity Offices indicated below. Export: Under Announcement GR–212 (revised Nov. 15, 1955), as amended, for application to arrangements for barter and approved credit and emergency sales and under Announcement GR–368 (revised Aug. 31, 1959) as amended, for feed grain payment-in-kind program. Available Evanston, Dallas, Kansas City, Minneapolis, and Portland CSS Commodity Offices.
Oats, bulk	Domestic, unrestricted use: Market price, basis in store,[1] but not less than the 1960 applicable loan rate, plus (1) a markup of 11 cents per bushel for oats in storage at point of production and (2) a markup of 13 cents per bushel and the rail freight from point of production to present point of storage for oats in storage at other than the point of production. Examples of the foregoing minimum price per bushel including average paid-in freight from Woodford County, Ill., to Chicago and Redwood County, Minn., to Minneapolis respectively. Chicago, No. 3 oats ..... $0.71¼ Minneapolis, No. 3 oats ..... .62¼

[1] In those counties in which grain is stored in CCC bin sites delivery will be made f.o.b. buyer's conveyance at bin sites without additional cost; sales will also be made in store approved warehouses in such county and adjacent counties at the same price, provided the buyer makes arrangements.

Commodity	Sales price or method of sale
Oats, bulk—Continued.	Export: Under Announcement GR-212 (revised Nov. 15, 1955), as amended, for application to arrangements for barter and approved credit and emergency sales and under Announcement GR-368 (revised Aug. 31, 1959), as amended, for feed grain payment-in-kind program. Available Minneapolis, Evanston, Kansas City, Portland, and Dallas CSS Commodity Offices.
Barley, bulk	Domestic, unrestricted use: Market price basis in store but not less than 1960 applicable loan rate plus (1) 13 cents per bushel if received by truck or (2) 11 cents per bushel if received by rail or barge. If delivery is outside the area of production, applicable freight will be added to the above. Example of the foregoing minimum price per bushel (exrail or barge): Minneapolis, No. 2 or better ..... $1.11 Export: Under Announcement GR-212 (revised Nov. 15, 1955), as amended, for application to arrangements for barter and approved credit and emergency sales, and under Announcement GR-368 (revised Aug. 31, 1959), as amended, for feed grain payment-in-kind program. Available Minneapolis, Evanston, Kansas City, Portland, and Dallas CSS Commodity Offices.
Rye, bulk	Domestic, unrestricted use: Market price basis in store but not less than the 1960 applicable loan rate plus (1) 15 cents per bushel if received by truck or (2) 12 cents per bushel if received by rail or barge. If delivery is outside the area of production, applicable freight will be added to the above. Example of the foregoing minimum price per bushel (exrail or barge): Minneapolis No. 2 or better (or No. 3 on TW only) ..... $1.24 Export: Under Announcement GR-212 (revised Nov. 15, 1955), as amended, for application to arrangements for barter and approved credit and emergency sales and under Announcement GR-368 (revised Aug. 31, 1959), as amended, for feed grain payment-in-kind program. Available Minneapolis, Evanston, Dallas, Portland, and Kansas City CSS Commodity Offices.
Grain sorghums, bulk	Domestic, unrestricted use: Market price basis in store but not less than the 1960 applicable loan rate plus (1) 27 cents per hundredweight if received by truck or (2) 21 cents per hundredweight if received by rail or barge. If delivery is outside the area of production, applicable freight will be added to the above. Example of the foregoing minimum price per hundredweight (exrail or barge): Kansas City, No. 2 or better ..... $2.08 Export: Under Announcement GR-212 (revised Nov. 15, 1955), as amended, for application to arrangements for barter and approved credit and emergency sales, and under Announcement GR-368 (revised Aug. 31, 1959), as amended, for feed grain payment-in-kind program. Available Evanston, Dallas, Kansas City, Minneapolis, and Portland CSS Commodity Offices.
Rice, milled (as available)	Domestic, unrestricted use: Market price but not less than the equivalent 1960 loan rate for rough rice, by varieties and grades, plus 5 percent, adjusted for milling, plus 24 cents per hundredweight, basis in store. Export: Under GR-379, as amended, for application to arrangements for barter and approved credit sales. Available Dallas CSS Commodity Office.
Rice, broken (as available)	Domestic or export, unrestricted use: Competitive bid but not less than $4.78 per hundredweight in bags ($4.63 bulk) basis U.S. No. 4 brewers rice f.o.b. mills and warehouses. Prices and quantities of milled rice including brokens available by varieties and grades may be obtained from Dallas and Portland CSS Commodity Offices.
Rice, rough (as available)	Domestic, unrestricted use: Market price but not less than the applicable 1960 loan rate plus 5 percent, plus 25 cents per hundredweight, basis in store. Export: As milled or brown under Announcement GR-369, as amended, Rice Export Program Payment-in-Kind, and under GR-379, as amended, for approved credit sales. Prices, quantities, and varieties of rough rice available from Dallas and Portland CSS Commodity Offices.
Soybeans, bulk (as available)	Domestic or export: Market price basis in store but not less than the 1960 applicable county loan rate for No. 2 grade, basis point of storage plus 5 percent, plus 9.95 cents per bushel, plus the value of billing, if any, as determined by the CSS Commodity Office. Market discounts for quality factors will be applied to the basic price to determine the actual sales price. Available Evanston, Kansas City, and Minneapolis CSS Commodity Offices.
Peanuts, shelled (as available), all types.	Domestic, unrestricted use: 1960 support price plus 5 percent, adjusted for milling, plus reasonable carrying charges under Peanut Announcement 3, but not less than the following or market prices: *No. 1's* — *Cents per lb.* Virginias ..... 19.76 S.E. Spanish ..... 20.11 S.W. Spanish ..... 20.39 S.E. Runners 19.73
Peanuts, shelled and unshelled (farmers stock) (as available).	Domestic for crushing or export: Competitive bid under CCC Peanut Announcement 1 (revised Feb. 16, 1959), as amended.
Tung oil	Export: Competitive bid on limited quantities under Announcement DL-OP-10, as amended, by Dallas CSS Commodity Office.
Gum turpentine (bulk in tanks)	Domestic, unrestricted use: Offer and acceptance basis in the stated quantities and in the designated storage tanks and subject to the prices, terms and conditions of Announcement TB-21-60 and supplements thereto which will be issued monthly. Available through ATFA, Valdosta, Georgia. Export: Competitive bid for turpentine, bulk in storage tanks, subject to Announcement TB-21-60 and supplements thereto. Available through Naval Stores Branch, Tobacco Division, CSS, U.S. Department of Agriculture.

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 407, 63 Stat. 1055; 7 U.S.C. 1427, sec. 208, 63 Stat. 901)

Issued: December 5, 1960.

CLARENCE D. PALMBY,
Acting Executive Vice President, Commodity Credit Corporation.

CIVIL AERONAUTICS BOARD

[Docket No. SA-359]

ACCIDENT OCCURRING IN MISSOULA, MONTANA

Notice of Hearing

In the matter of investigation of accident involving aircraft of United States Registry N 48762, which occurred on October 28, 1960, in Missoula, Montana.

Notice is hereby given that an Accident Investigation Hearing on the above-styled matter will be held commencing January 18, 1961, at 8:30 a.m., local time, in the Florence Hotel, Missoula, Montana.

Dated this 2d day of December 1960.

[SEAL] BILL F. BUEL,
Hearing Officer.

[F.R. Doc. 60-11417; Filed, Dec. 7, 1960; 8:51 a.m.]

FEDERAL AVIATION AGENCY

DIRECTOR, BUREAU OF AIR TRAFFIC MANAGEMENT

Delegation of Certain Airspace Authorities

1. *Purpose.* The purpose of this bulletin is to delegate certain authorities of the Administrator under Title III of the Federal Aviation Act relating to the making of rules, regulations, and orders providing for the use of airspace to the Director of the Bureau of Air Traffic Management.

2. *Background.* Section 303(d) of the Federal Aviation Act of 1958 authorizes the Administrator to delegate the performance of any function under the Act to any officer, employee, or administrative unit under his jurisdiction.

Section 307(a) of the Act authorizes the Administrator to assign by rule, regulation, or order the use of navigable airspace under such terms, conditions, and limitations as he may deem necessary to assure the safety of aircraft and the efficient utilization of such airspace.

Section 307(d) of the Act provides that the Administrator shall be subject to the provisions of the Administrative Procedure Act in the exercise of rule-making authority under section 307(a).

3. *Delegation.* Final authority to make, amend and issue rules, regulations and orders under section 307(a) of the Federal Aviation Act of 1958 is hereby delegated to the Director of the Bureau of Air Traffic Management.

4. *Redelegation.* The authority herein delegated, with the exception of that pertaining to restricted areas, may be exercised for the Director of the Bureau of Air Traffic Management, by his Deputy or by the Chief, Airspace Utilization Division.

5. *Effective date.* This Bulletin is effective immediately and supersedes Agency Bulletins 59-28 of May 15, 1959 and 60-15 of August 12, 1960, 24 F.R. 4530 and 25 F.R. 8005.

E. R. QUESADA,
Administrator.

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 3—THE PRESIDENT

Proclamation 3382

CIVIL WAR CENTENNIAL

By the President of the United States of America

A Proclamation

The years 1961 to 1965 will mark the one-hundredth anniversary of the American Civil War.

That war was America's most tragic experience. But like most truly great tragedies, it carries with it an enduring lesson and a profound inspiration. It was a demonstration of heroism and sacrifice by men and women of both sides who valued principle above life itself and whose devotion to duty is a part of our Nation's noblest tradition.

Both sections of our now magnificently reunited country sent into their armies men who became soldiers as good as any who ever fought under any flag. Military history records nothing finer than the courage and spirit displayed at such battles as Chickamauga, Antietam, Kenesaw Mountain, and Gettysburg. That America could produce men so valiant and so enduring is a matter for deep and abiding pride.

The same spirit on the part of the people at home supported and strengthened those soldiers through four years of great trial. That a Nation which contained hardly more than thirty million people, North and South together, could sustain six hundred thousand deaths without faltering is a lasting testimonial to something unconquerable in the American spirit. And that a transcending sense of unity and larger common purpose could, in the end, cause the men and women who had suffered so greatly to close ranks once the contest ended and to go on together to build a greater, freer, and happier America must be a source of inspiration as long as our country may last.

By a joint resolution approved on September 7, 1957 (71 Stat. 626), the Congress established the Civil War Centennial Commission to prepare plans and programs for the nationwide observances of the one-hundredth anniversary of the Civil War, and requested the President to issue proclamations inviting the people of the United States to participate in those observances.

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby invite all of the people of our country to take a direct and active part in the Centennial of the Civil War.

I request all units and agencies of government—Federal, State, and local—and their officials to encourage, foster, and participate in Centennial observances. And I especially urge our Nation's schools and colleges, its libraries and museums, its churches and religious bodies, its civic, service, and patriotic organizations, its learned and professional societies, its arts, sciences, and industries, and its informational media, to plan and carry out their own appropriate Centennial observances during the years 1961 to 1965; all to the end of enriching our knowledge and appreciation of this momentous chapter in our Nation's history and of making this memorable period truly a Centennial for all Americans.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this sixth day of December in the year of our Lord nineteen hundred and sixty, and of the Independence of the United States of America the one hundred and eighty-fifth.

[SEAL]

DWIGHT D. EISENHOWER

By the President,

CHRISTIAN A. HERTER,
Secretary of State.

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

Department of Justice

Effective upon publication in the FEDERAL REGISTER, paragraph (h)(3) of § 6.308 is revoked.

(R.S. 1753, sec. 2, 22 Stat. 403, as amended; 5 U.S.C. 631, 633)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
Executive Assistant to the Commissioners.

[F.R. Doc. 60–11477; Filed, Dec. 8, 1960; 8:53 a.m.]

Title 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 718—DETERMINATION OF ACREAGE AND PERFORMANCE

Determination and Adjustment of Excess Acreage

Basis and purpose. This amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1301 et seq.), the Sugar Act of 1948, as amended (7 U.S.C. 1100 et seq.), the Agricultural Adjustment Act of 1949 as amended (7 U.S.C. 1441 et seq.), and the Soil Bank Act (7 U.S.C. 1801 et seq.), to prescribe the provisions of § 718.13(a) (24 F.R. 4223, 25 F.R. 7237, and 25 F.R. 12166) and to make clear that the amendment pertaining to § 718.13(a) as published in 25 F.R. 7237, dated August 2, 1960, was not intended to rescind or nullify the provisions prescribed in § 718.13(a) (1), (2), (3), and (4) as published in 24 F.R. 4223, dated May 27, 1959.

Since this amendment is issued for the purpose of clarifying the provisions dealing with the conditions governing the determination and adjustment of excess acreage, it is hereby determined that compliance with the notice, public procedure, and effective date provisions of the Administrative Procedure Act (5 U.S.C. 1003) is impracticable and contrary to the public interest and that this amendment shall become effective upon publication in the FEDERAL REGISTER.

Section 718.13(a) (24 F.R. 4223, 25 F.R. 7237, and 25 F.R. 12166) is amended to read as follows:

§ 718.13 Determination and adjustment of excess acreage.

(a) (1) *General.* If the farm operator or other producer on the farm elects to dispose of excess acreage or otherwise adjust a previously determined acreage in accordance with the applicable regulations, the farm shall be revisited for the purpose of determining the adjusted acreage under the conditions outlined in this section. Unless the requirements for the measurement of an adjusted acreage are met by the farm operator or other producer, the acreage as determined prior to such adjustment shall be considered as the acreage of the commodity on the farm in determining whether the applicable farm allotment has been exceeded. When the producer must pay the cost of determining the adjusted acreage, the amount required shall be as determined by the county committee with the approval of the State committee.

(2) *Peanuts.* Farms will be revisited to determine the initially adjusted peanut acreage at the expense of the ASC county office when:

(i) The total acreage of peanuts on an allotment farm exceeds the peanut allotment; or

(ii) An acreage of peanuts has been measured on a farm for which no allotment is established and a statement of the operator or his representative that peanuts would not be dug was not obtained on the report of acreage.

Notwithstanding subparagraph (2) (i) and (ii) of this paragraph, a revisit to a farm is not required when the total peanut acreage is determined to be one (1.0) acre or less and no producer on the farm is interested in an acreage of peanuts planted on another farm. Revisits to a farm for the purpose of determining the dug acreage or a further adjustment of an excess acreage, other than provided for in this section, shall be made only upon request and payment of the cost by the farm operator.

(3) *Wheat.* If the total acreage of wheat determined for the farm exceeds the allotment, the farm shall be revisited for the purpose of determining the initially adjusted acreage at the expense of the ASC county office. In all other cases, the farm will be revisited for the purpose of determining the adjusted acreage of wheat only upon request and payment of the cost of determining the adjusted acreage. A revisit to the farm to determine the final wheat acreage is not required when:

(i) The total acreage of wheat on the farm was reported for use as wheat cover crop, or

(ii) The acreage of wheat exceeds the allotment but is not in excess of 15 acres and the producer does not elect to adjust the excess acreage.

(4) *Allotment crops other than peanuts and wheat.* If the measured acreage of any allotment crop other than peanuts or wheat is in excess of the farm acreage allotment and the producer elects to adjust the acreage by disposition of such excess, the farm shall be revisited for the purpose of determining the adjusted acreage upon timely receipt of a request from the producer and payment of the cost.

(5) *Other soil bank acreages.* If the producer elects to adjust the measured acreage of other soil bank base crops, the farm will be revisited to determine the adjusted acreage upon request and payment of the cost of measuring the adjusted acreage. In cases where a cover crop has been approved for a designated reserve area, the disposition of the cover crop shall be determined at the expense of the ASC county office.

(Sec. 374, 375, 52 Stat. 65, 66, sec. 401, 63 Stat. 1054, sec. 403, 61 Stat. 932, sec. 124, 70 Stat. 198; 7 U.S.C. 1374, 1375, 1421, 1153, 1812)

Done at Washington, D.C., this 6th day of December 1960.

CLARENCE D. PALMBY,
Acting Administrator,
Commodity Stabilization Service.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Milk Order No. 118]

PART 1018—MILK IN SOUTHEASTERN FLORIDA MARKETING AREA

Order Amending Order; Correction

The following corrections are made in F.R. Doc. 60–11136 filed November 29, 1960, and published on November 30, 1960:

1. In § 1018.45(a) (2), (3) and (4) in column 3, 25 F.R. 12226, change the Roman numeral "IV" as it appears following the words "in series beginning with Class" to Roman numeral "III".

2. In the sixth line of § 1018.43(b)(3) as it appears in column 2, 25 F.R. 12226, insert the word "and" immediately preceding the word "butterfat".

3. Insert immediately preceding the comma at the end of § 1018.43(b)(3) as it appears in column 2, 25 F.R. 12226, the words "from dairy farmers who the market administrator determines constitute the regular approved dairy-farmer supply for the nonpool plant".

4. Determinations (2) and (3) which appear at the bottom of column 2 and top of column 3, 25 F.R. 12227, are part of the determinations under § 1018.0(c) and should be inserted immediately following § 1018.0(c)(1), in column 3, 25 F.R. 12225.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Issued at Washington, D.C., this 5th day of December to be effective on and after the 1st day of December 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[F.R. Doc. 60–11440; Filed, Dec. 8, 1960; 8:48 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. No. ER–316]

PART 225—TARIFFS OF CERTAIN CERTIFICATED AIRLINES: TRADE AGREEMENTS

Extension of Rules

DECEMBER 5, 1960.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 5th day of December 1960.

Part 225 of the Board's Economic Regulations permits the local service carriers, the certificated carriers operating wholly within Hawaii, the certificated Alaskan carriers insofar as their intra-Alaska operations are concerned and carriers holding certificates for the performance of all-expense tours or cruises, to exchange air transportation for advertising goods and services. Part 225 was first adopted in 1955 and has since been extended from year to year.

Under § 225.2, as now written, the time for filing new trade agreements expires December 16, 1960. The Board, on its own initiative, has decided to continue the effectiveness of this regulation.

It appears to the Board that the policies of Part 225 have proved their value and that no detrimental effects on air transportation have arisen. The Board therefore believes that it is not necessary to reconsider these policies every year and that Part 225 should be extended for a longer period at this time. The Board therefore has decided to extend Part 225 for a two-year period.

The Board finds that the findings and conclusions which prompted and supported the issuance and continuation of this regulation in the past continue to be applicable and valid.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 225 of the Economic Regulations (14 CFR Part 225), effective December 18, 1960, as follows:

1. By changing the date specified in § 225.2 from "December 17, 1960" to "December 17, 1962."

2. By changing the date specified in subparagraph (a) of § 225.5 from "January 1, 1961" to "January 1, 1963."

3. By changing the date specified in § 225.13 from "January 1, 1960" to "December 18, 1960."

(Sec. 204(a), 72 Stat. 743; 49 U.S.C. 1324. Interpret or apply secs. 403, 404, and 416, 72 Stat. 758, 760, 771; 49 U.S.C. 1373, 1374, 1386)

By the Civil Aeronautics Board.

[SEAL] ROBERT C. LESTER,
Secretary.

[F.R. Doc. 60–11476; Filed, Dec. 8, 1960; 8:53 a.m.]

Chapter III—Federal Aviation Agency

SUBCHAPTER A—PROCEDURAL REGULATIONS

[Amdt. 1]

PART 414—FEES FOR COPYING, CERTIFICATION AND SEARCH OF RECORDS

Increase in Certain Fee

In order to more nearly reflect the cost to this Agency for certification or validation with a seal of facsimile copies of records supplied the public upon request, it is found necessary to charge $1.00 for such service rather than $0.50. Acting in accordance with section 3 of the Administrative Procedure Act, section 501 of the Independent Offices Appropriation Act of 1952 and Bureau of the Budget Circular No. A–25 and pursuant to authority delegated to me by the Administrator (24 F.R. 1221), § 414.3 of Part 414 (14 CFR Part 414) is amended effective December 26, 1960, as follows:

1. Change $0.50 to read $1.00.

Issued in Washington, D.C., on December 5, 1960.

ALAN L. DEAN,
Assistant Administrator for Management Services.

[F.R. Doc. 60–11425; Filed, Dec. 8, 1960; 8:46 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 59–WA–414]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Amendments

On April 30, 1960, there were published in the FEDERAL REGISTER (25 F.R. 3816) amendments to §§ 600.6091 and 601.6091 of the regulations of the Administrator. These amendments, to be effective February 9, 1961, modified VOR Federal airway No. 91 and its associated control areas between Poughkeepsie, N.Y., and Albany, N.Y., and revoked VOR Federal airway No. 91 west alternate and its associated control areas between Poughkeepsie and Albany.

These amendments were drafted in anticipation of the revocation of Victor 91 east alternate between Poughkeepsie and Albany in Airspace Docket No. 59–WA–331 (25 F.R. 3156). However, since the effective date of Docket No. 59–WA–331 is being postponed, action is taken herein to alter the amendments to §§ 600.6091 and 601.6091 in Docket No. 59–WA–414 so as to include reference to Victor 91 east alternate.

Since thirty days will elapse from the time of publication of this action to the effective date of the rule as initially adopted, this change is made in compliance with section 4 of the Administrative Procedure Act.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–WA–414 is hereby modified as follows:

1. The amendments to §§ 600.6091 and 601.6091 are deleted and the following are substituted therefor:

§ 600.6091 [Amendment]

a. In the text of § 600.6091 *VOR Federal airway No. 91 (New York, N.Y., to Montreal, Quebec)*, delete "Poughkeepsie, N.Y., VOR; Albany, N.Y., VOR, including an east alternate via the INT of the Poughkeepsie VOR 007° and the Albany VOR 140° radials and also a west alternate;" and substitute therefor "Poughkeepsie, N.Y., VOR; INT of the Poughkeepsie VOR 342° True and the Albany VORTAC 181° True radials; Albany, N.Y., VORTAC, including an east alternate via the INT of the Poughkeepsie VOR 007° True and the Albany VORTAC 140° True radials;".

b. Section 601.6091 is amended to read:

§ 601.6091 VOR Federal airway No. 91 control areas (New York, N.Y., to Montreal, Quebec).

All of VOR Federal airway No. 91 including E alternates.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 2, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–11427; Filed, Dec. 8, 1960; 8:46 a.m.]

[Airspace Docket No. 60–FW–59]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Segment of Federal Airway, Associated Control Areas and Reporting Points

On September 14, 1960, a notice of proposed rule making was published in the

FEDERAL REGISTER (25 F.R. 8827) stating that the Federal Aviation Agency proposed to revoke the segment of Amber Federal airway No. 4 from San Antonio, Tex., to Waco, Tex., its associated control areas and reporting points.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

1. In § 600.104 (14 CFR 600.104; 25 F.R. 378) the following changes are made:

(a) In the caption *"San Antonio, Tex., to Waco, Tex.,"* is deleted.

(b) In the text "From the San Antonio, Tex., RBN via the INT of a line bearing 004° from the San Antonio RBN and a line bearing 226° from the Austin, Tex., RBN; Austin, Tex., RBN; to the Waco, Tex., RR." is deleted.

2. In the caption of § 601.104 (14 CFR 601.104 *"San Antonio, Tex., to Waco, Tex.,"* is deleted.

3. In § 601.4104 (14 CFR 601.4104; 25 F.R. 378) the following changes are made:

(a) In the caption *"San Antonio, Tex., to Waco, Tex.,"* is deleted.

(b) In the text "San Antonio, Tex., RBN; Austin, Tex., RBN; Waco, Tex., RR;" is deleted.

These amendments shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 2, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11428; Filed, Dec. 8, 1960; 8:46 a.m.]

[Airspace Docket No. 60-AN-30]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Zone

On September 16, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8910) stating that the Federal Aviation Agency proposed to modify the Bethel, Alaska, control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 601.2447 (14 CFR 601.2447) is amended to read:

§ 601.2447 Bethel, Alaska, control zone.

Within a 5-mile radius of the Bethel Municipal Airport (latitude 60°46'55" N., longitude 161°49'55" W.); within 2 miles either side of the 007° True and the 214° True radials of the Bethel VOR extending from the 5-mile radius zone to 12 miles N and SW of the VOR; within 2 miles either side of the 296° True bearing from the Bethel RR extending from the 5-mile radius zone to the RR; and within 2 miles either side of the 023° True bearing from the Bethel RBN extending from the 5-mile radius zone to 12 miles NE of the RBN.

This amendment shall become effective 0001 e.s.t., February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 2, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11426; Filed, Dec. 8, 1960; 8:46 a.m.]

Title 15—COMMERCE AND FOREIGN TRADE

Chapter II—National Bureau of Standards, Department of Commerce

SUBCHAPTER A—TEST FEE SCHEDULES

PART 203—HEAT

Revision

In accordance with the provisions of section 4 (a) and (c) of the Administrative Procedure Act, it has been found that notice and hearing on these schedules of fees are unnecessary for the reason that such procedures, because of the nature of these rules, serve no useful purpose. This revision is effective from December 5, 1960.

1. Part 203 is revised to read as follows:

TEMPERATURE PHYSICS

Sec.

203.101 Laboratory thermometers.
203.102 Thermocouples, thermocouple materials, and pyrometer indicators.
203.103 Resistance thermometers.
203.104 Clinical thermometers.
203.105 Optical pyrometers and ribbon filament lamps.

AUTHORITY: §§ 203.101 to 203.105 issued under sec. 9, 31 Stat. 1450, as amended; 15 U.S.C. 277. Interprets or applies sec. 7, 70 Stat. 959; 15 U.S.C. 275a.

TEMPERATURE PHYSICS

§ 203.101 Laboratory thermometers.

Only thermometers identified uniquely by serial number will be accepted for test.

Item	Description	Fee
203.101a	Thermometers, testing at points from 0 to 100° C. inclusive, or from 32 to 212° F. inclusive, for each point tested	$8.00
203.101b	Thermometers, testing at points from 101 to 300° C. inclusive, or from 213 to 600° F. inclusive, for each point tested	15.00
203.101c	Thermometers, testing at points from 301 to 500° C. inclusive, or from 601 to 950° F. inclusive, for each point tested	25.00
203.101d	Thermometers, testing at points from −1 to −110° C. inclusive, or from 31 to −166° F. inclusive, for each point tested	27.00
203.101e	Thermometers, testing in liquid air, oxygen, or liquid nitrogen (−183 to −196° C.), for each point tested	44.00
203.101f	Calorimeter thermometers	56.00
203.101g	Beckmann thermometers, with 5° or 6° scale, testing at 1° intervals by comparison with precision standards	61.00
203.101h	When instruments submitted are found to be unsuitable for test or unreliable a charge will be made to cover the cost of the work done. Minimum fee $1.00.	
203.101i	Preliminary examination for foreign material in the mercury column and bulb and for a separated mercury column will be made as required. Separated mercury column will be reunited provided this can be accomplished readily. Maximum fee $2.50.	
203.101z	For special tests not covered by the above schedule, fees will be charged dependent upon the nature of the test.	

§ 203.102 Thermocouples, thermocouple materials and pyrometer indicators.

(a) Only the bare wires are required in order to perform the thermocouple calibrations in this schedule. It is preferable not to send insulating and protecting tubes, as the rate of breakage of these in shipment is high. If the thermocouple is furnished mounted (as in a protection-tube assembly) a charge of $5.00 will be made for dismantling the mounting, and the various parts will be returned to the sender without reassembling them.

(b) Thermocouple length requirements listed below are exclusive of lead wire. Lead wire need not be sent with thermocouples.

(c) All thermocouple calibration data furnished in certificates and reports will be on the basis of a reference junction temperature of 0° C., or 32° F.

(d) The calibration or test of an article will not be undertaken if, in our opinion, the article will not yield the specified accuracy, or if it possesses such unusual characteristics as to prevent the carrying out of the calibration or test at a reasonable cost.

Item	Description	Fee
203.102a	High temperature thermocouples and thermocouple materials. Minimum length 24 inches. Certification of corresponding values of temperature and emf of a thermocouple material against the platinum standards of the NBS or of temperature and emf of a thermocouple at any 4 to 15 points within the range 0° to 1450° C. (32° to 2650° F.)	$75.00
	The certified accuracy of calibration of platinum vs. platinum-rhodium thermocouples is 0.5 degree C. from 0° to 1100° C. and ranges from 0.5 degree at 1100° to 2 degrees at 1450° C. Results above 1100° are obtained by extrapolation.	
	The certified accuracy of calibration of base-metal thermocouples is 1 degree C. in the range 0 to 1100° C. (32 to 2000° F.). Base-metal thermocouples are not calibrated above 1100° C. (2000° F.).	
203.102b	High temperature thermocouples and thermocouple materials. Certification as per item 203.102a at less than 4 points, per point	$25.00
	Minimum charge per thermocouple, 2 points.	
203.102c	Platinum vs. platinum-10% rhodium thermocouples. The thermocouple shall be at least 36 inches long and made of wire not less than 0.014 inch in diameter. Certification of the emf of a thermocouple at any of the following temperatures, per point: 1063° C. (gold point), 960.5° C. (silver point), 630.5° C. (temperature of freezing antimony), 419.5° C. (temperature of freezing zinc).	75.00
	Accuracy of certification 2 microvolts (about 0.2 degree C.).	
203.102d	Platinum vs. platinum-10% rhodium thermocouples. The thermocouple shall be at least 36 inches long and made of wire not less than 0.014 inch in diameter. Primary calibration at all of the temperatures listed in item 203.102c with certified accuracy of 2 microvolts, plus certification of not more than 15 corresponding values of emf and temperature in the range 0° to 1450° C. The certified accuracy of calibration is 0.3 degree from 0° to 1100° C. and decreases from 0.3 degree at 1100° to 2 degrees at 1450° C. If the submitted thermocouple meets the International Temperature Scale requirements for standard thermocouples (see The International Temperature Scale of 1948 by H. F. Stimson, J. Research NBS, 42, 209, 1949), a quadratic equation fitted at 1063°, 960.8°, and 630.5° C. will also be furnished	255.00
203.102e	High temperature thermocouples and thermocouple materials. Certification of interpolated corresponding values of emf and temperature as per item 203.102a or 203.102d, per point	2.00
203.102f	Base-metal thermocouples. Minimum length of 36 inches. Certification of corresponding values of emf and temperature to an accuracy of 0.1° C. in the range 0° to −110° C., per point	33.00
	Minimum calibration per thermocouple, 2 points.	
203.102g	Base-metal thermocouples. Minimum length of 36 inches. Certification of corresponding values of emf and temperature to an accuracy of about 0.1° in the range 0° to 300° C. and to an accuracy of about 0.2° above 300° C., per point	48.00
	Minimum calibration per thermocouple, 2 points.	
203.102h	Base-metal thermocouples. Minimum length of 36 inches. Certification of corresponding values of emf and temperature to an accuracy of about 0.1° in the range −183 to −196° C., per point	23.00
	Minimum calibration per thermocouple, 2 points.	
203.102i	Pyrometer indicators. Calibration of single scale or meter of single dial of potentiometer (reference junction compensator counting as a dial)	8.00
203.102j	Pyrometer indicators. Calibration of each additional dial of a multi-dial instrument (reference junction compensator counting as a dial) or of each additional range of each dial or scale of a multi-range instrument	
	Calibration of a thermocouple and pyrometer indicator as a unit will be charged for as if the thermocouple and indicator were separately calibrated.	
203.102z	For special tests not covered by the above schedule, fees will be charged dependent upon the nature of the test.	

§ 203.103 Resistance thermometers.

Resistance thermometers will normally be tested only if they may reasonably be expected to meet the requirements for certification as a standard on the International Temperature Scale. In general, this requires a 4-lead resistor of very pure platinum hermetically sealed in a protecting tube.

Item	Description	Fee
203.103a	Standard platinum resistance thermometers—calibration at the ice, steam and sulfur points. Table will be furnished with entries at 1-degree intervals	$150.00
203.103b	Standard platinum resistance thermometers—calibration under 203.103a and at the oxygen point. Table will be furnished with entries at 1-degree intervals	200.00
203.103c	Calorimetric type platinum resistance thermometers—calibration at the ice and steam points and at approximately 50° C. Table will be furnished with entries at 1-degree intervals	150.00
203.103d	Capsule-type platinum resistance thermometers—comparison calibration over the range from 12° to 90° K. Results will be in the form of a table with entries at 0.1 degree intervals. Additional tables are not available unless requested at the time of test. See item 203.103f	400.00
203.103e	Determination of the average temperature coefficient of electrical resistance over the interval 0° to 100° C. Minimum length, 16 inches. Samples must have a resistance of at least 0.1 ohm per foot at the ice point	60.00
203.103f	Each additional table expressing the results of test under items 203.103a, b, or c	30.00
	Additional tables under item 203.103d are not available unless requested at the time of test.	
203.103g	Item 203.103g if requested at the same time as the test of the thermometer under items 203.103a, b, c, or d	25.00
203.103y	When instruments submitted are found to be unsuitable for test or unreliable, a charge will be made to cover the cost of the work done.	
203.103z	For special tests not covered by the above schedule, fees will be charged dependent upon the nature of the test.	

§ 203.104 Clinical thermometers.

Item	Description	Fee
203.104z	Test of clinical thermometers for compliance with the current edition of the Commercial Standard for Clinical Thermometers. Fees will be charged dependent upon the time required for making the test.	

§ 203.105 Optical pyrometers and ribbon filament lamps.

(a) Optical pyrometers and ribbon filament lamps submitted for calibration and test should be accompanied by an order requesting the test and specifying the Fee Schedule Item Number. If desired, the calibration points may be specified. A bill will be rendered at the completion of the work.

(b) The calibration or test of an article will not be undertaken if it possesses such unusual characteristics as to prevent the carrying out of the calibration or test at a reasonable cost. If, in the course of a calibration or test, it is found that the article is inferior to its general class, a report will be issued giving results obtained. In such cases, a fee covering the cost of the work performed will be charged.

Item	Description	Fee
203.105a	Optical pyrometers: Calibration of one range between 800° C. and 2400° C. or the first range, between 800° C. and 2400° C. of a calibration involving more than one range; 4 to 12 certified values	$185.00
203.105b	Optical pyrometers: Calibration of ranges in addition to item 203.105a up to 4200° C.; 4 to 12 certified values in each range, per range	120.00
203.105c	Optical pyrometers: Three or fewer certified values, 800° C. to 2400° C.	95.00
203.105d	Ribbon filament lamps: Certified values of brightness temperature (at wavelength of 0.65 microns) versus direct current at 5 to 16 points in the range, 800° to 2000° C.	165.00
203.105e	Ribbon filament lamps: Certified values of brightness temperature (at wavelength of 0.65 microns) versus direct current at 5 or fewer points in the range, 800° C. to 2300° C.	90.00
203.105f	Additional interpolated values as per item 203.105a and 203.105b, per point	2.25
203.105z	For special tests not covered by the above schedule, fees will be charged dependent upon the nature of the test.	

A. V. ASTIN,
Director.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7953 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

E. Kapchan & Associates, Optometrists et al.

Subpart—Advertising falsely or misleadingly: § 13.170 *Qualities or properties of product or service:* 13.170-22 Corrective, orthopedic, etc.; § 13.190 *Results.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Elliott Kapchan doing business as Dr. E. Kapchan & Associates, Optometrists, etc., Alameda, Calif., Docket 7953, October 12, 1960]

In the Matter of Elliott Kapchan, Individually and Trading and Doing Business as Dr. E. Kapchan and Dr. J. Jackson, Optometrists

Consent order requiring sellers of corneal contact lenses in Alameda, Calif., to cease representing falsely in advertising that their lenses could be worn successfully by all persons, and worn all day without discomfort; that the lenses would stay in place under all conditions; and that upon purchase thereof, eyeglasses could be discarded.

The order to cease and desist is as follows:

It is ordered, That respondent Elliott Kapchan, an individual trading and doing business as Dr. E. Kapchan & Associates, Optometrists, and as E. Kapchan, O. D. & Associates, or under any other name or names, his representatives, agents and employees, directly or through any corporate or other device, in connection with the sale of contact lenses do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents directly or by implication that:

(a) All persons in need of visual correction can successfully wear respondent's contact lenses;

(b) There is no discomfort in wearing respondent's contact lenses;

(c) All persons can wear respondent's contact lenses all day without discomfort; or that any person can wear respondent's contact lenses all days without discomfort except after that person has become fully adjusted thereto;

(d) Eyeglasses can always be discarded upon the purchase of respondent's contact lenses;

(e) That respondent's contact lenses will stay in place under all conditions.

2. Disseminating or causing to be disseminated any advertisement, by any means, for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said contact lenses, which advertisement contains any of the representations prohibited in Paragraph 1 hereof.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent Elliott Kapchan, an individual trading and doing business as Dr. E. Kapchan & Associates, Optometrists, and as E. Kapchan, O. D. & Associates, shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: October 12, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary*.

[F.R. Doc. 60-11433; Filed, Dec. 8, 1960; 8:47 a.m.]

[Docket 7989 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Maxine's, Inc., et al.

Subpart—Invoicing products falsely: § 13.1108 *Invoicing products falsely:* 13.1108-45 Fur Products Labeling Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1845 *Composition:* 13.1845-30 Fur Products Labeling Act; § 13.1852 *Formal regulatory and statutory requirements:* 13.1852-35 Fur Products Labeling Act. Subpart—Using misleading name — Goods: § 13.2280 *Composition:* 13.2280-30 Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, Maxine's, Inc., et al., Pittsburgh, Pa., Docket 7989, October 12, 1960.]

In the Matter of Maxine's, Inc., a Corporation, and Louis J. Azen and Alan Azen, Individually and as Officers of Said Corporation

Consent order requiring Pittsburgh furriers to cease violating the Fur Products Labeling Act by labeling which falsely identified the animals producing certain furs and failed to set forth the term "Dyed Broadtail Lamb" where required; by advertising which failed to disclose the names of animals producing the fur in certain products or the country of origin of imported furs; and by failing in other respects to comply with labeling and invoicing requirements.

The order to cease and desist is as follows:

It is ordered, That Maxine's, Inc., a corporation, and its officers, and Louis J. Azen and Alan Azen, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur", and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Falsely or deceptively labeling or otherwise falsely or deceptively identifying any such product as to the name or names of the animal or animals that produced the fur from which such product was manufactured.

2. Failing to affix labels to fur products showing in words and figures plainly legible, all the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act.

3. Failing to set forth the term "Dyed Broadtail Lamb" where an election is made to use that term instead of dyed Lamb.

4. Setting forth on labels affixed to fur products information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder:

(a) Mingled with non-required information.

(b) In handwriting.

5. Failing to set forth separately on labels affixed to fur products composed of two or more sections containing different animal furs the information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder with respect to the fur comprising each section.

6. Failing to set forth on labels the item number or mark assigned to a fur product.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish to purchasers of fur products an invoice showing all the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act.

C. Falsely or deceptively advertising fur products, through the use of any advertisement, representation, public announcement or notice which is intended to aid, promote or assist, directly or indirectly, in the sale or offering for sale of fur products, and which fails to disclose:

1. The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

2. The name of the country of origin of any imported furs contained in a fur product.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 12, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary*.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

SUBCHAPTER C—DRUGS

PART 130—NEW DRUGS

Changes in Drug-Labeling Requirement; Changes in New-Drug Applications

On July 22, 1960, the Commissioner of Food and Drugs, pursuant to section 701 (a) of the Federal Food, Drug, and Cosmetic Act and under the authority delegated to him by the Secretary of Health, Education, and Welfare (25 F.R. 5611) published in the FEDERAL REGISTER (25

F.R. 6985) notice of a proposal to amend the regulations for the enforcement of the drug and device sections and the new-drug section of the law for the purposes of requiring manufacturers to furnish adequate information for the professional use of prescription drugs and devices and to keep new drugs off the market until the adequacy of manufacturing methods, facilities, and controls have been confirmed by establishment inspection, when required.

In response to the Commissioner's invitation, numerous comments were received, and as a result of specific requests the time for the filing of comments on the proposed amendment of § 1.106 (b)(3), (c)(3), and (d)(3) was extended to December 22, 1960 (25 F.R. 9649). The data, comments, and suggestions relative to the remaining proposals have been evaluated, and as a result of this study, *It is ordered*, That the regulations be amended as set forth below:

1. Section 1.106 is amended in the following respects:

a. Paragraph (b) is amended by changing subparagraphs (1) and (2) to read as set forth below and by adding thereto new subparagraphs (4) and (5):

§ 1.106 Drugs and devices; directions for use.

* * * * *

(b) *Exemption for prescription drugs.* A drug subject to the requirements of section 503(b)(1) of the act shall be exempt from section 502(f)(1) if all the following conditions are met:

(1) The drug is:

(i)(*a*) In the possession of a person (or his agents or employees) regularly and lawfully engaged in the manufacture, transportation, storage, or wholesale distribution of prescription drugs; or

(*b*) In the possession of a retail, hospital, or clinic pharmacy, or a public health agency, regularly and lawfully engaged in dispensing prescription drugs; or

(*c*) In the possession of a practitioner licensed by law to administer or prescribe such drugs; and

(ii) It is to be dispensed in accordance with section 503(b).

(2) The label of the drug bears:

(i) The statement "Caution: Federal law prohibits dispensing without prescription"; and

(ii) The recommended or usual dosage; and

(iii) The route of administration, if it is not for oral use; and

(iv) The quantity or proportion of each active ingredient, as well as the information required by section 502 (d) and (e); and

(v) If it is for other than oral use, the names of all inactive ingredients; and if it is intended for administration by parenteral injection, the quantity or proportion of all inactive ingredients; and

(vi) An identifying lot or control number from which it is possible to determine the complete manufacturing history of the package of the drug;

Provided, however, That in the case of containers too small or otherwise unable to accommodate a label with sufficient space to bear all such information, but which are packaged within an outer container from which they are removed for dispensing or use, the information required by subdivisions (ii), (iii) and (v) of this subparagraph may be contained in other labeling on or within the package from which it is to be dispensed, and the information referred to in subdivision (i) of this subparagraph may be placed on such outer container only, and the information required by subdivision (vi) of this subparagraph may be on the crimp of the dispensing tube.

* * * * *

(4) Any labeling, as defined in section 201(m) of the act, whether or not it is on or within a package from which the drug is to be dispensed, distributed by or on behalf of the manufacturer, packer, or distributor of the drug, that furnishes or purports to furnish information for use or which prescribes, recommends, or suggests a dosage for the use of the drug contains:

(i) Adequate information for such use, including indications, effects, dosages, routes, methods, and frequency and duration of administration and any relevant hazards, contraindications, side effects, and precautions, under which practitioners licensed by law to administer the drug can use the drug safely and for the purposes for which it is intended, including all conditions for which it is advertised or represented; and if the article is subject to section 505, 506, or 507 of the act, the labeling providing such information is substantially the same as the labeling authorized by the effective new-drug application or required as a condition for its certification or exemption from certification; and

(ii) The same information concerning the ingredients of the drug as appears on the label and labeling on or within the package from which the drug is to be dispensed;

Provided, however, That the information required by subdivisions (i) and (ii) of this subparagraph is not required on the so-called reminder-piece labeling which calls attention to the name of the drug but does not include indications or dosage recommendations for use of the drug.

(5) All labeling, except labels and cartons, bearing information for use of the drug also bears the date of the issuance or the date of the latest revision of such labeling.

b. Paragraph (c) is amended by changing the introduction to the paragraph and subparagraphs (1) and (2) to read as set forth below and by adding thereto new subparagraphs (4), (5), and (6):

(c) *Exemption for veterinary drugs.* A drug intended for veterinary use which, because of toxicity or other potentiality for harmful effect, or the method of its use, is not safe for animal use except under the supervision of a licensed veterinarian, and hence for which "adequate directions for use" cannot be prepared, shall be exempt from section 502(f)(1) of the act if all the following conditions are met:

(1) The drug is:

(i) In the possession of a person (or his agents or employees) regularly and lawfully engaged in the manufacture, transportation, storage, or wholesale or retail distribution of veterinary drugs and is to be sold only to or on the prescription or other order of a licensed veterinarian for use in the course of his professional practice; or

(ii) In the possession of a licensed veterinarian for use in the course of his professional practice.

(2) The label of the drug bears:

(i) The statement "Caution: Federal law restricts this drug to sale by or on the order of a licensed veterinarian"; and

(ii) The recommended or usual dosage; and

(iii) The route of administration, if it is not for oral use; and

(iv) The quantity or proportion of each active ingredient as well as the information required by section 502(e) of the act; and

(v) If it is for other than oral use, the names of all inactive ingredients; and if it is intended for administration by parenteral injection, the quantity or proportion of all inactive ingredients; and

(vi) An identifying lot or control number from which it is possible to determine the complete manufacturing history of the package of the drug;

Provided, however, That in the case of containers too small or otherwise unable to accommodate a label with sufficient space to bear all such information, but which are packaged within an outer container from which they are removed for dispensing or use, the information required by subdivisions (ii), (iii), and (v) of this subparagraph may be contained in other labeling on or within the package from which it is to be so dispensed, and the information referred to in subdivision (i) of this subparagraph may be placed on such outer container only, and the information required by subdivision (vi) of this subparagraph may be on the crimp of the dispensing tube.

* * * * *

(4) Any labeling, as defined in section 201(m) of the act, whether or not it is on or within a package from which the drug is to be dispensed, distributed by or on behalf of the manufacturer, packer, or distributor of the drug, that furnishes or purports to furnish information for use or which prescribes, recommends, or suggests a dosage for the use of the drug contains:

(i) Adequate information for such use, including indications, effects, dosages, routes, methods, and frequency and duration of administration, and any relevant hazards, contraindications, side effects, and precautions, and including information relevant to compliance with the food additive provisions of the act, under which veterinarians licensed by law to administer the drug can use the drug safely and for the purposes for which it is intended, including all conditions for which it is advertised or represented; and if the article is subject to section 505 or 507 of the act, the label-

ing providing such information is substantially the same as the labeling authorized by the effective new-drug application or required as a condition for its certification or exemption from certification; and

(ii) The same information concerning the ingredients of the drug as appears on the label and labeling on or within the package from which the drug is to be dispensed;

Provided, however, That the information required by subdivisions (i) and (ii) of this subparagraph is not required on the so-called reminder-piece labeling which calls attention to the name of the drug but does not include indications or dosage recommendations for use of the drug.

(5) All labeling, except labels and cartons, bearing information for use of the drug also bears the date of the issuance or the date of the latest revision of such labeling.

(6) A prescription drug intended for both human and veterinary use shall comply with paragraph (b) of this section and subparagraphs (4) and (5) of this paragraph.

c. Paragraph (d) is amended by changing subparagraph (1) to read as set forth below and by adding thereto new subparagraphs (4) and (5):

(d) *Exemption for prescription devices.* • • •

(1) The device is:

(i) (a) In the possession of a person (or his agents or employees) regularly and lawfully engaged in the manufacture, transportation, storage, or wholesale or retail distribution of such device; or

(b) In the possession of a practitioner, such as physicians, dentists, and veterinarians, licensed by law to use or order the use of such device; and

(ii) Is to be sold only to or on the prescription or other order of such practitioner for use in the course of his professional practice.

• • • • •

(4) Any labeling, as defined in section 201(m) of the act, whether or not it is on or within a package from which the device is to be dispensed, distributed by or on behalf of the manufacturer, packer, or distributor of the device, that furnishes or purports to furnish information for use of the device contains adequate information for such use, including indications, effects, routes, methods, and frequency and duration of administration and any relevant hazards, contraindications, side effects, and precautions, under which practitioners licensed by law to employ the device can use the device safely and for the purposes for which it is intended, including all purposes for which it is advertised or represented. This information will not be required on so-called reminder-piece labeling which calls attention to the name of the device but does not include indications or other use information.

(5) All labeling, except labels and cartons, bearing information for use of the device also bears the date of the issuance or the date of the latest revision of such labeling.

d. Paragraph (e) is revoked.

2. In § 130.4 *Applications,* paragraph (c) is amended by changing items (6) (c) and (d) and item (9) in the new-drug application form to read as set forth below; by deleting item (6) (e) from the new-drug application form; and by adding to the section a new paragraph (e) reading as indicated:

§ 130.4 Applications.

• • • • •

(c) • • •

(6) • • •

(c) If the drug is limited in its labeling to use under the professional supervision of a practitioner licensed by law to administer it, its labeling should bear information for use under which such practitioners can use the drug for the purposes for which it is intended, including all the purposes for which it is to be advertised or represented.

(d) Typewritten or other draft labeling copy may be accepted for conditional consideration of an application with the understanding that final printed labeling identical in content to the draft copy will be submitted as soon as available and prior to the marketing of the drug.

• • • • •

(9) It is understood that the labeling and advertising for the drug will prescribe, recommend, or suggest its use only under the conditions stated in the labeling which is part of this application; and if the article is a prescription drug, it is understood that any labeling which furnishes or purports to furnish information for use or which prescribes, recommends, or suggests a dosage for use of the drug will also contain substantially the same information for its use, including indications, effects, dosages, routes, methods, and frequency and duration of administration, any relevant hazards, contraindications, side effects, and precautions, contained in the labeling which is part of this application. It is understood that all representations in this application regarding the components, composition, manufacturing methods, facilities, controls, and labeling apply to the drug produced until an effective supplement to the application provides for a change or the applicant is notified in writing by the Food and Drug Administration that a supplemental application is not required for the change, or the article is no longer a new drug. It is further understood that a new drug for which an application is conditionally effective may not be marketed until the stated conditions have been met, including when such is a condition, the submission of final printed labeling identical in content to the draft copy in the application, and including, when such is a condition, notification by the New Drug Branch that an inspection has verified the adequacy of the manufacturing methods, facilities, and controls described in the application.

• • • • •

(e) When an applicant has been notified as provided in § 130.6(c) that an inspection of the manufacturing methods, facilities, and controls is required, and in the judgment of the New Drug Branch an adequate inspection also requires observation of representative production or control operations on the drug, the application may be made conditionally effective until such an inspection has verified the adequacy of the manufacturing methods, facilities, and controls described in the application. The New Drug Branch will inform the applicant in writing when the verification has been completed and the new-drug application made effective. The New Drug Branch will notify the applicant as soon as it is determined that it is necessary for an inspection to include observation of representative production or control operations on the drug and will arrange for such inspection by a duly authorized inspector of the Food and Drug Administration promptly when it is notified by the applicant that he is prepared to conduct such operations. An application may be made conditionally effective as provided in this paragraph only when the following conditions are met:

(1) The New Drug Branch has determined that the application may be made effective when the adequacy of the manufacturing methods, facilities, and controls has been verified by inspection; and

(2) It is not possible to complete an inspection including observation of representative production or control operations on the drug, when that is required, within the time provided by the act for consideration of a new-drug application.

§ 130.5 [Amendment]

3. In § 130.5 *Reasons for refusing to file applications,* the first sentence of paragraph (a) (3) is amended to read as set forth below. As amended, this subparagraph reads as follows:

(3) The specimens of labeling proposed do not expressly prescribe, recommend, or suggest the use of such drug under such conditions. The New Drug Branch will notify the applicant promptly of such nonacceptance and the reason therefor and, in case of incompleteness as to matter required by any clause of section 505(b) of the act, shall specify such clause. Otherwise, the date on which an application is received will be considered to be the date on which such application is filed, and the New Drug Branch will notify the applicant of such date.

4. Section 130.6 is amended to read as follows:

§ 130.6 Comment on applications.

(a) After the New Drug Branch has studied the application, it will furnish oral or written comment to the applicant on any apparent deficiencies in the data submitted or on the need for any additional data or changes in the application to facilitate its consideration.

(b) The New Drug Branch will disclose to the applicant any information upon which such comment is based, except information as to data or sources of data that have been submitted as part of another person's new-drug application or otherwise submitted, with the specific request that it be considered confidential.

(c) When in the judgment of the New Drug Branch, the description of the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of such drug appears adequate on its face, but it is not feasible to reach a conclusion as to the safety of the drug solely from consideration of this description, the applicant will be notified that an inspection is required to verify their adequacy.

(d) The New Drug Branch may suggest withdrawal of an application when it finds that additional evidence is required to support a finding that the drug is safe or that the methods, facilities, and controls used in manufacturing, processing, and packing the drug are adequate.

4. Section 130.9 is amended to read as follows:

§ 130.9 Supplemental applications.

(a) After an application is effective, a supplemental application may propose changes. The supplemental application may omit statements made in the effective application concerning which no change is proposed. A supplemental application should be submitted for any change beyond the variations provided for in the application (including changes in the scale of production such as from pilot-plant to production batch), that may alter the conditions of use, the labeling, the safety, identity, strength, quality, or purity of the drug or the adequacy of manufacturing methods, facilities, or controls to preserve them. Labeling changes include deviations from the authorized brochure in any mailing or promotional piece used after the drug is placed on the market. When necessary for the safety of the drug, a supplemental application may be required to specify a period of time within which the proposed change will be made; and in such case the distribution of the drug after such time without such change constitutes distribution without an effective new-drug application. If a material change is made in the components, composition, manufacturing methods, facilities or controls, the labeling or advertising, from the representations in an effective application for a new drug, and the drug is marketed before a supplement is effective for such change, the application may be suspended under § 130.27 on the grounds that it contains an untrue statement of a material fact.

(b) The submission of a supplemental new-drug application is not required for changes made in the new drug, or in its labeling, or in the manufacturing facilities or controls under which it is produced, that are not significant from the standpoint of the safety of the new drug as established by the original new-drug application. The holder of an effective new-drug application should submit to the New Drug Branch, in writing, full details of any proposed change or changes, and he will be notified in writing whether, in the Food and Drug Administration's opinion, the submission of a supplemental application is required for such change or changes. This includes all mailing and promotional pieces that are to be used after the new drug has been placed on the market.

(c) A supplemental application is not required when the article is no longer a new drug, under the labeling submitted in the new-drug application, unless the proposed change itself causes it to become a new drug.

5. Section 130.12 is amended by adding thereto a new paragraph (e), reading as follows:

§ 130.12 Refusal to permit the application to become effective.

• • • • •

(e) When an applicant has been notified that an inspection of the manufacturing methods, facilities, and controls is required, as provided in § 130.6(c), the refusal or failure to furnish duly authorized inspectors of the Food and Drug Administration an adequate opportunity to inspect such manufacturing methods, facilities, controls, or any records pertaining to them will constitute grounds for refusal to permit the application to become effective under the provisions of paragraph (d) of this section.

6. Section 130.13 is amended to read as follows:

§ 130.13 Insufficient information in application.

The information contained in an application may be insufficient for the New Drug Branch to determine whether a drug is safe for use if it fails to include (among other things) a statement showing whether the drug is to be limited to prescription sale and exempt under section 502(f)(1) of the act, from the requirement that its labeling bear adequate directions for use. If the drug is to be exempt, the information may also be insufficient if:

(a) The specimen labeling proposed fails to bear adequate information for use, including indications, effects, dosages, routes, methods, and frequency and duration of administration, and any relevant hazards, contraindications, side effects, and precautions under which practitioners licensed by law to administer the drug can use the drug for the purposes for which it is intended, including all purposes for which it is to be advertised or represented.

(b) The application fails to show that the labeling and advertising of the drug will offer the drug for use only under those conditions for which it is offered in the labeling that is part of the application.

(c) The application fails to show that all labeling which furnishes or purports to furnish information for use of the drug will contain substantially the same information for use, including indications, effects, dosages, routes, methods, and frequency and duration of administration, and any relevant hazards, contraindications, side effects, and precautions which is contained in the labeling that is part of the application.

Effective dates. The amendments to § 1.106 (b) (2) and (b) (5) (amendment numbered 1a), (c) (2), and (c) (5) (amendment numbered 1b) and (d) (5) (amendment numbered 1c) shall become effective 90 days from the date of publication in the FEDERAL REGISTER. All other amendments shall become effective 30 days from the date of publication.

(Sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371)

Dated: December 2, 1960.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 60-11392; Filed, Dec. 8, 1960; 8:45 a.m.]

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Animal Feed or Animal Feed Supplements

Subpart D—Food Additives Permitted in Food for Human Consumption

AMPROLIUM IN MEDICATED FEED AND IN EDIBLE TISSUES OF POULTRY

I. The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by Merck and Company, Inc., Rahway, New Jersey, has concluded that the following amendments should issue in conformance with section 409 of the Federal Food, Drug, and Cosmetic Act, with respect to § 121.210 for the food additive amprolium (1-(4-amino-2-*n*-propyl-5-pyrimidinylmethyl)-2-picolinium chloride hydrochloride) in chicken feed, to provide for the addition of certain antibiotics. Therefore, pursuant to the provisions of the act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welware (25 F.R. 8625), § 121.210 of the Food Additives regulations (21 CFR 121.210; 25 F.R. 9224) is amended as set forth below:

1. Paragraph (a) is amended to read as follows:

§ 121.210 Amprolium (1-(4-amino-2-*n*-propyl-5-pyrimidinylmethyl)-2-picolinium chloride hydrochloride) in chicken feed.

• • • • •

(a) It is used or intended for use in the prevention of coccidiosis in chickens caused by Eimeria acervulina, Eimeria brunetti, Eimeria maxima, Eimeria mitis, Eimeria necatrix, Eimeria praecox, and Eimeria tenella, as follows:

(1) As the sole medication in the feed, or

(2) In combination with one or more of the following antibiotics added as an aid in stimulating growth and improving feed efficiency in growing chickens:

(i) Penicillin: Not less than 2.4 grams nor more than 50 grams of master standard equivalent per ton of finished feed;

(ii) Streptomycin: Not less than 30 grams nor more than 50 grams per ton of finished feed;

except that, in combination, the total amount of antibiotic for this purpose shall not exceed 50 grams per ton of the finished feed.

2. Paragraph (b) is amended by changing the word "additive" to "amprolium." As amended, this paragraph reads as follows:

(b) The quantity of the amprolium to be added is such that the finished feed

contains not less than 125 parts per million (0.0125 percent) nor more than 250 parts per million (0.0125 percent) of the additive.

3. Paragraph (c)(1) is amended to provide for label declaration on the container of the additive or any intermediate mixes of any antibiotic used. As amended, subparagraph (1) reads as follows:

(1) (i) The name of the additive, amprolium, (1-(4-amino-2-*n*-propyl-5-pyrimidinylmethyl)-2-picolinium chloride hydrochloride).

(ii) The name of any antibiotic added as provided by paragraph (a)(2) of this section.

4. Paragraph (d)(1) is amended to provide for label declaration on the finished feed of any antibiotic used. As amended, subparagraph (1) reads as follows:

(1) (i) The name of the additive, amprolium (1-(4-amino-2-*n*-propyl-5-pyrimidinylmethyl)-2-picolinium chloride hydrochloride).

(ii) The name of any antibiotic added as provided by paragraph (a)(2) of this section.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

II. Based upon an evaluation of the data before him and proceeding as provided in the statute (sec. 409(c)(4), 72 Stat. 1786; 21 U.S.C. 348(c)(4)), the Commissioner of Food and Drugs has further concluded that tolerance limitations are required to assure that use of the food additives streptomycin and penicillin will not cause the edible tissues of chickens consuming chicken feed treated with the additives in accordance with § 121.210(a)(2) to be unsafe. Therefore, the following tolerances are established, and Subpart D is amended by adding thereto the following new sections:

§ 121.1025 Streptomycin.

A tolerance of zero is established for residues of streptomycin in the eggs and edible tissues of chickens that have consumed the antibiotic in feed.

§ 121.1026 Penicillin.

A tolerance of zero is established for residues of penicillin and the salts of penicillin in the eggs and edible tissues of chickens that have consumed the antibiotics in feed.

(Sec. 409(c)(4), 72 Stat. 1786; 21 U.S.C. 348(c)(4))

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c) (1), (4); 52 Stat. 1049; as amended, 72 Stat. 1786; 21 U.S.C. 348(c) (1), (4))

Dated: December 2, 1960.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 60-11447; Filed, Dec. 8, 1960; 8:49 a.m.]

SUBCHAPTER C—DRUGS

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

Animal Feed Containing Antibiotic Drugs

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 357, 371), and delegated to the Commissioner of Food and Drugs by the Secretary (23 F.R. 9500; 25 F.R. 5611), the general regulations for the certification of antibiotic and antibiotic-containing drugs (21 CFR 146.26) are amended as follows:

In § 146.26 *Animal feed containing penicillin* * * *, paragraph (b) is amended by adding thereto the following new subparagraph (44):

(44) It is intended for use solely as an aid in preventing outbreaks of coccidiosis in chickens and as an aid in stimulating growth and improving feed efficiency in growing chickens and its labeling bears adequate directions and warnings for such use, including a warning against its use in laying hens and a warning that its use must be discontinued 4 days before treated chickens are slaughtered for human consumption. It contains, per ton of feed: amprolium (1'-(4-amino-2-*N*-propyl-5-pyrimidinyl-methyl)-2-picolinium chloride hydrochloride) in a quantity, by weight of feed, of not less than 0.0125 percent and not more than 0.025 percent; not less than 2.4 grams of penicillin or 30 grams of streptomycin and not more than 50 grams of one or more of such antibiotics. There shall be submitted to the Commissioner, in triplicate, adequate information of the kind described in § 146.7 to establish the safety and efficacy of the article and to guarantee its identity, strength, quality, and purity. The exemption shall expire at the beginning of any act changing the composition or labeling of such drug or the methods used in and the facilities and controls used for its manufacturing, processing, and packaging, or in its labeling, unless the person who obtained the exemption has submitted to the Commissioner, in triplicate, amended information describing such proposed changes, and such amendment has been accepted by the Commissioner.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it relaxes existing requirements and since it would be contrary to public interest to delay providing for the amendment incorporated in this order.

I further find that animal feed containing antibiotic drugs and conforming with the conditions prescribed in this order need not comply with the requirements of sections 502(l) and 507 of the Federal Food, Drug, and Cosmetic Act in order to insure their safety and efficacy.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371. Interprets or applies secs. 502, 507, 52 Stat. 1050, 59 Stat. 463, as amended; 21 U.S.C. 352, 357)

Dated: December 2, 1960.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 60-11448; Filed, Dec. 8, 1960; 8:49 a.m.]

Title 41—PUBLIC CONTRACTS

Chapter 3—Department of Health, Education, and Welfare

PART 3-75—DELEGATIONS OF AUTHORITY

Miscellaneous Amendments

Part 3-75 of the Delegations of Authority for Public Contracts in the Department of Health, Education, and Welfare (24 F.R. 9427) is hereby amended in the following respects:

1. In § 3-75.4 *Office of Vocational Rehabilitation*, paragraph (b)(1)(i) is amended and (iii) is added to read:

(i) Negotiate purchases or contracts under section 302(c) (1), (2), (3), (6), (7), (8), (9), (10), (12), (13), and (14) or to make advance payments under section 305.

* * * * *

(iii) Make the determinations and decisions specified in section 302(c)(11) for contracts in excess of $25,000.

2. In § 3-75.9 *Office of Administration, Division of General Services:*

a. Paragraph (a) is amended to add a new subparagraph at the end thereof, to read:

(5) Purchasing Agents.

b. Paragraph (b)(1)(i) is amended to add a new sentence at the end thereof, to read: "Purchasing Agents' authority is limited to signing of purchase orders not in excess of $5,000."

(GSA Delegation 363 (24 F.R. 2302) and 2-500.40 and 2-500.60, as amended, of the Statement of Organization and Delegation of Authority, Secretary, Department of Health, Education, and Welfare (22 F.R. 1049, 24 F.R. 8612))

Effective date: December 5, 1960.

[SEAL] RUFUS E. MILES, JR.,
Director of Administration.

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

SUBCHAPTER A—ALASKA

[Circular No. 2055]

PART 76—STATE GRANTS

Miscellaneous Amendments

In order to incorporate in the regulations the provisions of the act of September 14, 1960 (74 Stat. 1024), and the fact that the preference provisions of the act of September 27, 1944 (43 U.S.C. 282), as amended, have terminated, it is proposed to amend portions of 43 CFR Part 76 to read as set forth below.

This amendment relates to matters which are exempt from the rule making requirements of the Administrative Procedure Act (5 U.S.C. 1003), and although the Department of the Interior customarily observes the rule making requirements voluntarily, that procedure was not followed in this case since this change in the regulations is merely a reflection of the changes in the law. The provisions of the change in § 76.15 became effective on September 27, 1959, and the other changes in the regulations became effective on the effective date of the act, September 14, 1960.

Sections 76.11(a), 76.12(a) and (d), 76.13, and 76.15(a) are amended all to read as follows:

§ 76.11 Statutory authority.

(a) The act of July 7, 1958 (72 Stat. 339-343), referred to in §§ 76.11-76.14 as "the act," grants to the State of Alaska the right to select, within 25 years from January 3, 1959, not to exceed 102,550,000 acres from the public lands in Alaska which are vacant, unappropriated and unreserved at the time of selection. The act of September 14, 1960 (74 Stat. 1024), defines vacant unappropriated, unreserved public lands in Alaska to include the retained or reserved interest of the United States in lands which have been disposed of with a reservation to the United States of all minerals or any specified mineral or minerals.

§ 76.12 Lands subject to selection; patents; minerals.

(a) The act as amended August 18, 1959 (73 Stat. 395), provides that any lease, permit, license, or contract issued under the Mineral Leasing Act of 1920 (41 Stat. 437; 30 U.S.C. 181 et seq.), as amended, or under the Alaska Coal Leasing Act of 1914 (38 Stat. 741; 30 U.S.C. 432 et seq.), as amended, referred to in this section as "the mineral leasing acts," shall have the effect of withdrawing the lands subject thereto from selection by the State, unless the State files an application to select such lands within a period of five years after January 3, 1959.

* * * * *

(d)(1) Where the State selects all the lands in a mineral lease, permit, license, or contract, issued under the mineral leasing acts of 1914 and 1920, the patent issued under the act will convey to the State all mineral deposits in the selected lands. Any such patent shall vest in the State all right, title, and interest of the United States in and to any such lease, permit, license, or contract that remains outstanding on the effective date of the patent, including the right to all rentals, royalties, and other payments accruing after that date under such lease, permit, license, or contract, and including any authority that may have been retained by the United States to modify the terms and conditions of such lease, permit, license, or contract. Issuance of patent will not affect the continued validity of any such lease, permit, license, or contract or any rights arising thereunder.

(2) Where the State selects a portion of the lands subject to a mineral lease, permit, license, or contract issued under the mineral leasing acts of 1914 and 1920, the patent issued under the act shall reserve to the United States the mineral or minerals subject to that lease, permit, license, or contract, together with such further rights as may be necessary to the full and complete enjoyment of all rights, priviliges, and benefits under or with respect to that lease, permit, license, or contracts. Upon the termination of the lease, permit, license, or contract, title to minerals so reserved to the United States shall pass to the State.

* * * * *

(e) Section 76.9(a)(2) (iv), (v), and (vi) do not apply to the extent that an application embraces a reserved or retained interest. See § 76.11(a).

§ 76.15 State preference right of selection; waivers.

(a) The acts of July 28, 1956 (see § 76.7), and July 7, 1958 (see § 76.11), provide that upon the revocation of any order of withdrawal in Alaska, the order of revocation shall provide for a period of not less than 90 days before the date on which it otherwise becomes effective during which period the State of Alaska shall have a preferred right of selection under the acts of 1956 and 1958, except as against prior existing valid rights, equitable claims subject to allowance and confirmation, and other preferred rights of application confered by law.

FRED A. SEATON,
Secretary of the Interior.

DECEMBER 6, 1960.

[F.R. Doc. 60-11517; Filed, Dec. 8, 1960; 8:53 a.m.]

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2212]

[Juneau 010148]

ALASKA

Withdrawing Lands for Use of the Federal Aviation Agency in Maintenance of Air Navigation Facilities

By virtue of the authority vested in the Secretary of the Interior by section 4 of the act of May 24, 1928 (48 Stat. 729; 49 U.S.C. 214), it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the mining and mineral-leasing laws but not disposals of materials under the act of July 31, 1947 (61 Stat. 681; 30 U.S.C. 601-604) as amended, and reserved for use of the Federal Aviation Agency in the maintenance of air-navigation facilities:

JUNEAU AREA

Beginning at Corner No. 9, U.S. Survey 2390, thence
S. 1°33' E., 21.23 chains;
N. 80°48' E., 20.30 chains;
N. 15°07' W., 4.25 chains;
N. 75°18' E., 12.494 chains;
N. 21°05' E., 17.00 chains;
S. 82°45' W., 38.00 chains to point of beginning.

Containing approximately 63 acres.

Upon acceptance of plat of survey, the area will be described as U.S. Survey No. 3818.

GEORGE W. ABBOTT,
Assistant Secretary of the Interior.

DECEMBER 5, 1960.

[Public Land Order 2213]

[Fairbanks 012151]

ALASKA

Establishing the Kuskokwim National Wildlife Range

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, except the mining and the mineral leasing laws, and disposals of materials under the act of July 31, 1947 (61 Stat. 681; 30 U.S.C. 601-604) as amended, and reserved for use of the Department of the Interior as a refuge, breeding ground and management area for all forms of wildlife, to be known as the Kuskokwim National Wildlife Range: *Provided*, That the reservation made by this order shall not prohibit the hunting or trapping of game animals and game birds or the trapping of fur animals in accordance with the provisions of applicable law and as may be permitted by regulations of

the Secretary of the Interior prescribed and issued pursuant thereto:

AREA I

Beginning on the shore of Bering Sea at the line of mean high tide and at the south side of the entrance to Hooper Bay near latitude 61°31′ N., longitude 166°12′ W., from Greenwich; thence southeasterly with the line of mean high tide on the south side of the entrance to Hooper Bay and along the south side of said Bay, 16 miles to the mouth of Askinuk River (Kleoklevuk River) near latitude 61°26′ N., longitude 165°48′ W.; thence easterly up the left bank of said river 22 miles to its source at the Kashunuk River near latitude 61°24′ N., longitude 165°26′ W.; thence easterly up the left bank of Kashunuk River, 12 miles to its junction with a channal "A" flowing to the south, near latitude 61°28′ N., longitude 165°11′ W.; thence southerly down the right bank of the last aforesaid channel "A" 1½ miles to a point near latitude 61°21′ N., longitude 165°10′ W., about one-half mile south of the mouth of an unnamed stream coming into said channel on the left bank side; thence due east approximately 38.6 miles to the volcanic cone in the Ingakslugwat Hills near latitude 61°21′ N., longitude 164°00′ W.; thence due south approximately 10 miles to the north shore of a lake "B"; thence southerly around the easterly side of the last aforesaid lake "B" one mile to a point on the southeast side of said lake "B"; thence south 63° east four miles to a point near latitude 61°10½′ N., longitude 163°56′ W., on the northwest shore of Aropuk Lake opposite the center of an island; thence southerly with the western shore of the said lake and a chain of lakes 45 miles to a point of land near latitude 60°50½′ N., longitude 163°57′ W., on the north side of Baird Inlet; thence westerly along the north side of Baird Inlet 50 miles to a point of land near latitude 60°54′ N., longitude 165°02′ W., at the mouth of Baird Inlet and at the line of mean high tide on the shore of Bering Sea; thence northwesterly at the line of mean high tide of Bering Sea eight miles to the point of a headland near latitude 60°58′ N., longitude 165°12′ W., at the south side of Hazen Bay; thence north 38° W., eight miles across the mouth of Hazen Bay to the point of a headland at the west side of Hazen Bay; thence northwesterly with the line of mean high tide of Bering Sea 50 miles to the place of beginning, containing approximately 1,870 square miles of lands and waters, but excluding lands beneath navigable waters as defined in section 2 of the Submerged Lands Act of 1953 (67 Stat. 29; 43 U.S.C. 1301).

AREA II

Beginning on the shore of Bering Sea at the line of mean high tide and on the north side of the mouth of Kinia River, near latitude 60°11′ N., longitude 164°30′ W.; thence northwesterly with the line of mean high tide of Bering Sea 8½ miles to the headland at the mouth of a stream "C" separating Nelson Island from the mainland; thence northeasterly up the left bank of the last aforesaid stream "C" 46 miles to a point near latitude 60°39′ N., longitude 164°12′ W., at the south end of the southwest bay of Baird Inlet; thence easterly, northerly, easterly and southerly along the south shore of Baird Inlet 35 miles to the mouth of a small stream "D", near latitude 60°33½′ N., longitude 163°43′ W., at the south end of the east bay of Baird Inlet; thence southwesterly up the left bank of the last aforesaid small stream "D" four miles to the head thereof; thence south 10° E., 4½ miles to the head of a stream "E" draining to the south, near latitude 60°28′ N., longitude 163°46′ W.; thence southerly down the right bank of the last aforesaid stream "E" four miles to the mouth thereof in the north shore of Dall Lake; thence westerly, southerly, easterly and southerly around the west shore of Dall Lake 75 miles to the most southerly point of said lake near latitude 60°09½′ N., longitude 163°47′ W.; thence south 30° W., 1½ miles to the head of the Kuguklik River; thence southwesterly with the right bank of the aforesaid Kuguklik River 19 miles to the mouth thereof at the line of mean high tide of Bering Sea, near latitude 59°59′ N., longitude 164°07′ W.; thence northwesterly with the line of mean high tide 20 miles to the place of beginning, containing approximately 1,054 square miles of lands and waters, but excluding lands beneath navigable waters as defined in section 2 of the Submerged Lands Act of 1953 (67 Stat. 29; 43 U.S.C. 1301).

The descriptions above are based on Alaska Reconnaissance Topographic Maps designated Baird Inlet, Hooper Bay, Marshall and Nunivak Island, Editions of 1951.

This order shall not be construed to abrogate or impair any legal or aboriginal claim of right of the natives to use the lands, if any, and they may hunt, fish, and trap in accordance with applicable law, and carry on any other lawful activities.

FRED A. SEATON,
Secretary of the Interior.

DECEMBER 6, 1960.

[F.R. Doc. 60-11518; Filed, Dec. 8, 1960; 8:53 a.m.]

[Public Land Order 2214]

[Fairbanks 017050]

ALASKA

Establishing the Arctic National Wildlife Range

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. For the purpose of preserving unique wildlife, wilderness and recreational values, all of the hereinafter described area in northeastern Alaska, containing approximately 8,900,000 acres is hereby, subject to valid existing rights, and the provisions of any existing withdrawals, withdrawn from all forms of appropriation under the public land laws, including the mining but not the mineral leasing laws, nor disposals of materials under the Act of July 31, 1947 (61 Stat. 681; 30 U.S.C. 601–604), as amended, and reserved for use of the United States Fish and Wildlife Service as the Arctic National Wildlife Range;

Beginning at the intersection of the International Boundary line between Alaska and Yukon Territory, Canada, with the line of extreme low water of the Arctic Ocean in the vicinity of Monument 1 of said International Boundary line;
thence westerly along the said line of extreme low water, including all offshore bars, reefs, and islands to a point of land on the Arctic Seacoast known as Brownlow Point, at approximate longitude 145°51′ W., and latitude 70°10′ N.;
thence in a southwesterly direction approximately three (3) miles to the mean high water mark of the extreme west bank of the Canning River;
thence southerly up the said west bank of the Canning River along the mean high water mark approximately seventy (70) miles to the mouth of Marsh Fork of Canning River at approximately longitude 145°53′ W., and latitude 69°12′ N., and 10½ miles E. of Mt. Salisbury;
thence continuing in a southerly direction up the west bank of the Canning River approximately fourteen (14) miles to another fork of the river at approximate longitude 145°40′ W., and latitude 69°00′ N.;
thence easterly up the south bank of the stream approximately fifteen (15) miles to its source at the crest of an unnamed mountain whose elevation is approximately 7,900 feet and whose location is at approximate longitude 145°13′ W., and latitude 68°53′ N.;
thence southeasterly down the west and south banks of a stream which is tributary to the east fork of the Chandalar River approximately eighteen (18) miles to its junction with the Chandalar River at approximately longitude 144°47′ W., and latitude 68°42′ N.;
thence up the east bank of the said Chandalar River approximately three (3) miles to a point opposite the south bank of a tributary stream which flows from the southeast;
thence up the south bank of the said tributary stream approximately fifteen (15) miles to the crest of a mountain at the head of a branch of Old Woman Creek whose elevation is approximately 7,400 feet and whose location is approximate longitude 144°14′ W., and latitude 68°41′ N.;
thence in a generally southerly direction down the west and south banks of the said branch of Old Woman Creek approximately fifteen (15) miles to its junction with Old Woman Creek;
thence routheasterly down the south bank of Old Woman Creek approximately twelve and one-half (12½) miles to the point where said creek intersects a straight line projected from Brushman Mountain to Index Mountain;
thence approximately two and one-half (2½) miles south along said line to its intersection with a north fork of Monument Creek;
thence southerly down the west bank of said fork to its junction with Monument Creek;
thence down the west and south banks of Monument Creek approximately sixteen and one-half (16½) miles to a point on the east bank of Sheenjak River opposite the mouth of Monument Creek;
thence northeasterly up the east bank of the Sheenjak River approximately eight and one-half (8½) miles to its junction with a tributary which flows from the east, at approximate longitude 143°09′ W., and latitude 68°05′ N.;
thence up the east and south banks of the said tributary stream approximately ten (10) miles to a fork in the stream one-half (½) mile above a one and one-half (1½) mile lake, at approximate longitude 142°52′ W., and latitude 68°11′ N.;
thence up the south bank of the main south fork of the stream approximately eight (8) miles to the crest of the saddle where it arises at approximate longitude 142°35′ W., and latitude 68°14′ N.;
thence easterly from the said saddle following down the south bank of a stream which arises at approximately this point for approximately eleven (11) miles to its junction with the Coleen River at approximate longitude 142°10′ W., and latitude 68°15′ N.;
thence following down the west bank of the Coleen River along the mean high water mark for approximately eight (8) miles to its junction with the tributary stream which flows into the Coleen River from the east at approximate longitude 141°57′ W., and latitude 68°10′ N.;
thence up the east and south bank of the said tributary stream in a northeasterly direction to the saddle between its headwaters and those of Bilwaddy Creek at approximate longitude 141°32′ W., and latitude 68°14′ N.;
thence down the south bank of the said Bilwaddy Creek approximately eighteen (18) miles to the International Boundary line between Alaska and Yukon Territory, being a point located at approximate longitude 141°00′ W., and latitude 68°11′ N.;
thence north with the said International Boundary line approximately one hundred (100) miles to the point of beginning.

2. The Secretary of the Interior is authorized to permit the hunting and the taking of game animals, birds, and fish in the wildlife range, or parts thereof, as well as the trapping of fur animals. However, no person may hunt, trap, capture, kill, or willfully disturb any wild mammal, wild bird, or fish or take or destroy the eggs or nests of any such bird or fish within the wildlife range, except as may be prescribed by the Secretary. The provisions of State law shall govern all hunting and taking of wildlife which the Secretary of the Interior permits under the terms of this order.

FRED A. SEATON,
Secretary of the Interior.

DECEMBER 6, 1960.

[Public Land Order 2215]

[1941468]

ALASKA

Revoking Public Land Order No. 82 of January 22, 1943 (Northern Alaska)

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Public Land Order No. 82 of January 22, 1943, reserving the following-described lands under jurisdiction of the Secretary of the Interior for use in connection with the prosecution of the War is hereby revoked:

All that part of Alaska lying north of a line beginning at a point on the boundary between the United States and Canada, on the divide between the north and south forks of Firth River, approximate latitude 68°52′ N., longitude 141°00′ W., thence westerly, along this divide, and the periphery of the watershed northward to the Arctic Ocean, along the crest of portions of the Brooks Range and the De Long Mountains, to Cape Lisburne.

The area described contains approximately 48,000,000 acres.

2. The following-described lands lying within the exterior boundaries of the area described in paragraph 1 are withdrawn by Executive Order No. 3797–A of February 27, 1923, for Naval Petroleum Reserve No. 4, for classification, examination and preparation of plans for development and until otherwise ordered by the Congress or the President:

Commencing at the most northwestern extremity of the point of land shown on the maps of Alaska as Icy Cape, approximately latitude 70°21′, longitude 161°46′; thence extending in a true south course to the crest of the range of mountains forming the watershed between the Noatak River and its northern tributaries and the streams flowing into the Arctic Ocean; thence eastward along the crest of this range of mountains to a peak at the head of the northernmost of the two eastern forks of Midas Creek (Pl. 1, U.S.G.S., Bull. 536), at approximately latitude 67°50′, longitude 156°00′; thence in a true north course to a point at the highest high water on the western or left bank of the Colville River; thence following said highest highwater mark downstream along said Colville River and the western bank of the most western slough at its mouth to the highest highwater mark on the Arctic coast. From here, following the highest highwater mark westward to the point of beginning.

The coast line to be followed shall be that of the ocean side of the sandspits and islands forming the barrier reefs and extending across small lagoons from point to point, where such barrier reefs are not over three miles of shore, except in the case of Plover Islands, from Point Tangent to Point Barrow (Pl. 3, U.S.G.S., P.P. 109), longitude approximately 154°50′, where it shall be the highest highwater mark on the outer shore of the islands forming the groups and extending between the most adjacent points of these islands and the sandspits at either end. In cases where the barrier reef is over three miles off shore the boundary shall be the highest highwater mark of the coast of the mainland.

The area described contains approximately 23,000,000 acres. Jurisdiction over the lands in Naval Petroleum Reserve No. 4 is vested in the Department of the Navy by the Act of August 10, 1956 (70 Stat. 457–462; 10 U.S.C. 7421–7438). These lands, therefore, are not affected by the opening hereinafter provided in this order.

3. An area included within the area described in paragraph 1 of this order, and which may be described generally as "all lands lying east of Canning River, extending from its mouth on the Arctic Ocean at Flaxman Island in approximate longitude 146° W., to its source in the Brooks Range in approximate longitude 145°13′ W., latitude 68°53′ N.," and containing approximately 5 million acres, is included in an application for withdrawal, Fairbanks 017050, filed by the Bureau of Sport Fisheries and Wildlife for use as the Arctic Wildlife Range. As provided by the regulations in 43 CFR 295.11(a), the lands shall remain segregated from all forms of disposal under the public land laws, including the mining and mineral leasing laws, to the extent that the withdrawal applied for, if effected, would prevent such forms of disposal, until final action has been taken on the application for withdrawal.

4. Subject to any existing valid rights, the provisions of existing withdrawals, and the requirements of applicable law, the lands described in paragraph 1 hereof, exclusive of those described in paragraphs 2 and 3, are hereby opened to settlement and to filing of applications, selections, and locations as are allowable on unsurveyed lands in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Until 10:00 a.m. on March 8, 1961, the State of Alaska shall have a preferred right to select the lands or portions thereof, in accordance with and subject to the limitations in and requirements of the Act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46–3b), or section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 399), and subject further to the provision of section 6(b) of the said Act of July 7, 1958, prohibiting such selections within the limits described in section 10(b) of the Act without the approval of the President or his designated representative.

(2) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(3) All valid applications and selections under the nonmineral public land laws presented prior to 10:00 a.m. on January 11, 1961, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

(4) The lands will be open to settlement under the homestead and Alaska homesite laws at 10:00 a.m. on March 8, 1961.

5. The lands, except those described in paragraphs 2 and 3, were opened to location under the United States mining laws and to leasing under the Mineral Leasing Act of February 25, 1920 (41 Stat. 437; 30 U.S.C. 181), as amended and supplemented, by Public Land Order No. 1621 of April 18, 1958, as amended by Public Land Order No. 1965 of August 29, 1959, to which orders reference is made for the conditions under which applications and offers may be filed for oil and gas leases.

6. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

7. Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Fairbanks, Alaska.

FRED A. SEATON,
Secretary of the Interior.

DECEMBER 6, 1960.

[F.R. Doc. 60-11520; Filed, Dec. 8, 1960; 8:53 a.m.]

[Public Land Order 2216]

[Anchorage 023347]

ALASKA

Establishing the Izembek National Wildlife Range

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described areas of public land and water in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the mining but not the mineral leasing laws, nor the disposals of materials under the act of July 31, 1947 (61 Stat. 681; 30 U.S.C. 601–604), as amended, and reserved for use of the Department of the Interior, as a refuge, breeding ground, and management area for all forms of wildlife, to be known as the Izembek National Wildlife Range: *Provided*, That the reservation made by this order shall not prohibit the hunting or trapping of game animals and game birds or the trapping of fur animals in accordance with the provisions of applicable law, and as may be permitted by regulations of the Secretary of the Interior prescribed and issued pursuant thereto:

Beginning at corner No. 1, from which U.S.C. & G.S. station "COW", located on the edge of Cold Bay at latitude 55°12'10.71" N., and longitude 162°41'57.76" W., bears N. 85°53'50" E., a distance of 1.34 miles (7,066.5 feet), thence with two (2) courses of the westerly boundary of Air Navigation Site Withdrawal No. 176, S. 15°30' W. 1.61 miles (8,500.00 feet) to corner No. 2; thence due south 1.0 mile (5,280.00 feet) to corner No. 3, which is the southwest corner of Air Navigation Site Withdrawal No. 176; thence leaving said Air Navigation Site southwesterly along the crest of a spur ridge of Frosty Peak with three courses, approximately, S. 41°00' W.—2.05 miles (Elev. 1300') to a point; S. 68°30' W.—0.55 mile (Elev. 2000') to a point; S. 34°30' W.—1.35 miles (Elev. 4200') to corner No. 4, an angle point at forks of spur ridge leading to Frosty Peak; thence with two courses, approximately, S. 30°30' E.—1.20 miles (Elev. 4000') to a point; S. 19°45' W.—2.28 miles (Elev. 5600') to corner No. 5, the summit of Frosty Peak; thence leaving Frosty Peak along the crest of a spur ridge, with three courses approximately S. 33°30' W.—1.12 miles (Elev. 4000') to a point; S. 64°00' W.—2.04 miles (Elev. 1600') to a point; S. 76°30' W.—4.0 miles to corner No. 6, at the mouth of an unnamed stream at the intersection of the line of mean high tide on the east side of Morzhovoi Bay, approximately at latitude 55°03', longitude 162°59'; thence northerly, westerly, and southwesterly with the line of mean high tide of Morzhovoi Bay approximately 14 miles to corner No. 7, at the mouth of an unnamed stream at the intersection of the line of mean high tide on the west side of Morzhovoi Bay, approximately at latitude 55°02'40"—longitude 163°13'30"; thence westerly with the north bank of said stream and with the north shore of two (2) small unnamed lakes 2.10 miles, to a point on the west shore of the most westerly lake at approximate latitude 55°02'45"; thence due west—1.00 mile to corner No. 8, at the intersection of an unnamed stream with the line of mean high tide on the east side of Bechevin Bay at approximate latitude 55°02'45"—longitude 163°17'30"; thence northwesterly, northeasterly, and southwesterly with the line of mean high tide of Bechevin Bay, 8.86 miles to a point on the most westerly extremity of the Alaska Peninsula-Bering Sea shore at approximate latitude 55°05'50"—longitude 163°21'30"; thence northeasterly with the line of mean high tide of Bering Sea, 18.20 miles to the most northerly point of Cape Glazenap, approximate latitude 55°15'—longitude 163°00'; thence N. 52°30' E.—1.28 miles across the Cape Glazenap inlet to Izembek Bay, to a point at the line of mean high tide of Glen Island, one of the Kudiakof Islands; thence northeasterly with the line of mean high tide of Bering Sea, 4.90 miles to a point on the northerly shore of Glen Island at approximate latitude 55°10'—longitude 162°54'20"; thence N. 35°15' E.—2.52 miles, across an inlet to Izembek Bay, to a point on the line of mean high tide of Operl Island, one of the Kudiakof Islands; thence northeasterly with the line of mean high tide of Bering Sea, 8.10 miles to the most northerly point of Operl Island at approximate latitude 55°24'30"—longitude 162°42'; thence due east 3.22 miles, across an inlet to Izembek Bay, to a point on the southern shore of Neumann Island; thence northeasterly with the line of mean high tide of Bering Sea, 3.38 miles to the most northeasterly point of Neumann Island at approximate latitude 55°26'50"—longitude 162°34'50"; thence N. 71°00' E.—0.22 mile, across an inlet to Muffet Bay, to Moffet Point on the Alaska Pepinsula; thence northeasterly with the line of mean high tide of Bering Sea, 8.40 miles to corner No. 9, at approximate latitude 55°32'10"—longitude 162°26'; thence three courses with the boundaries of the watershed of Moffet Bay, southeasterly approximately 17.40 miles to the summit of the Aghileen Pinnecles, southerly approximately 19.60 miles to the summit of Mt. Dutton, westerly approximately 10.20 miles to corner No. 10, at the line of mean high tide on the east side of Cold Bay at approximate latitude 55°10'22"; thence northerly, northwesterly, and southwesterly with said line of mean high tide approximately 13.10 miles to corner No. 11, at the line of mean high tide on the northwest side of Cold Bay, approximate latitude 55°15'30"—longitude 162°40'30"; thence due west, 1.5 miles to corner No. 12, which is the northeast corner of Air Navigation Withdrawal No. 176; thence with two (2) courses of Air Navigation Site Withdrawal No. 176 boundary; due west 2.50 miles (13,216.8 feet) to corner No. 13; thence S. 24°57'30" E., 4.28 miles (22,530.0 feet) to corner No. 1, the point of beginning containing approximately 500 square miles of land and 149 square miles of water area, but excluding lands beneath navigable waters as defined in section 2 of the Submerged Lands Act of 1953 (67 Stat. 29; 43 U.S.C. 1301).

This order shall not be construed to abrogate or impair any legal or aboriginal claim of right of the natives to use the lands, if any, and they may hunt, fish, and trap in accordance with applicable law, and carry on any other lawful activities.

FRED A. SEATON,
Secretary of the Interior.

Title 45—PUBLIC WELFARE

Chapter VI—National Science Foundation

REVOCATION OF CHAPTER

Chapter VI of Title 45 of the Code of Federal Regulations is hereby revoked in its entirety, effective upon publication of this notice in the FEDERAL REGISTER.

Issued in Washington, D.C., on December 1, 1960.

ALAN T. WATERMAN,
Director.

[F.R. Doc. 60-11488; Filed, Dec. 8, 1960; 8:48 a.m.]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 60-1443]

PART 1—PRACTICE AND PROCEDURE

Pre-Grant Procedures; Safety and Specidl Services Applications and Proceedings

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 2d day of December 1960;

The Commission having under consideration Public Law 86-752, 86th Congress, 2d Session, enacted on September 13, 1960, and the necessity for promulgating rules to implement various amendments of section 309 of the Communications Act of 1934 contained in that law; and

It appearing that the new provisions of section 309 of the Act will become effective on December 12, 1960; and

It further appearing that section 309 (b) (2) (G) authorizes the Commission to prescribe by rules that the procedure specified in section 309 shall apply to such other applications for authorizations in the Safety and Special Radio Services as the Commission may designate; and

It further appearing that applications for Public Coast Stations, excluding those in Alaska which will not render service for hire, and Fixed Stations to operate in the 72–76 Mc band involve special public interest considerations and should be made subject to such procedural requirements; and

It further appearing that it is necessary that the rules implementing section 309 of the Act be effective on December 12, 1960, and that applicants involved and other interested persons should have adequate notice of the rules they will be required to follow; and

It further appearing that while amending § 1.546 of the Commission's rules to implement the provisions of new section 309 of the Act, additional amendments of § 1.546 are necessary to state accurately procedures presently reflected in section 0.291 of the Commission's Statement of Organization, Delegation of Authority and other information; and

It further appearing that the rules adopted herein are procedural in nature and hence compliance with the notice and effective date provisions of section 4 of the Administrative Procedure Act is unnecessary; and

It further appearing that adoption of the rule amendments ordered herein would serve the public interest, convenience and necessity; and

It further appearing that authority for the adoption of these rules is contained in section 4(i), 303 and 309 of the Communications Act of 1934, as amended;

It is ordered, That effective December 12, 1960, Subpart F of Part 1, of the Commission's rules and regulations is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended, 47 U.S.C. 154. Interpret or apply secs. 303, 309, 48 Stat. 1082, 1085, 47 U.S.C. 303, 309)

Released: December 6, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

1. Paragraph (b) of § 1.546 is amended in part to read:

§ 1.546 How applications are processed.

* * * * *

(b) * * *

(2) Requests are made for waiver of, or exception to, a rule for a period in excess of 90 days, but not including certain categories of requests for waivers in excess of 90 days pertaining to ships stations covered by section 0.291(b)(13) of the Commission's Statement of Organization, Delegations of Authority, and Other Information;

(3) Applicant requests construction permit for new public coast station at locations other than Alaska;

(4) The staff is not authorized to dismiss an application consistent with the provisions of this chapter and is unable to reach the positive public interest findings prescribed by § 1.548(a); or

(5) A petition has been filed to deny an application of the categories listed in § 1.547.

2. Sections 1.547 and 1.548 are redesignated as §§ 1.548 and 1.549, respectively, and amended to read as follows; §§ 1.549 and 1.550 are redesignated as §§ 1.550 and 1.551, respectively; and a new § 1.547 is added to read as follows:

§ 1.547 Petitions to deny applications of specified categories.

(a) Except as qualified in paragraph (b) of this section, the provisions of this section shall apply to all applications for authorizations, and substantial amendments thereof, for the categories of stations and services listed in this paragraph which are filed with the Commission on or after December 12, 1960, and to such applications which were filed prior to December 12, 1960, but are amended substantially on or after that date.

(1) Fixed point-to-point stations using frequencies above 890 Mc (exclusive of control, relay, and repeater stations used as integral parts of mobile radio systems).

(2) Industrial radiopositioning stations for which frequencies are assigned on an exclusive basis.

(3) Aeronautical enroute stations.

(4) Aeronautical advisory stations.

(5) Airdrome control stations.

(6) Aeronautical fixed stations.

(7) Public coast stations, excluding those located in Alaska which will not render service for hire.

(8) Fixed stations using frequencies in the 72–76 Mc band.

(b) The provisions of this section are not applicable to applications for the type of authorizations listed in this paragraph.

(1) A minor change in the facilities of an authorized station or a minor amendment of an application on file.

(2) Consent to an involuntary assignment or transfer under section 310(b) of the Communications Act or to a voluntary assignment or transfer thereunder which does not involve a substantial change in ownership or control.

(3) A license under section 319(c) of the Communications Act or, pending application for or grant of such license, any special or temporary authorization to permit interim operation to facilitate completion of authorized construction or to provide substantially the same service as would be authorized by such licensee.

(4) Extension of time to complete construction of authorized facilities.

(5) A special temporary authorization not to exceed 30 days where no application for regular operation is contemplated to be filed or pending the filing or after the filing of an application for such regular operation.

(6) An authorization under any of the proviso clauses of section 308(a) of the Communications Act.

(c) For the purposes of this section, a substantial amendment of an application on file and applications for a substantial change in the facilities of an authorized station shall be:

(1) Any addition or change in frequency (except deletion of a frequency);

(2) Any change in antenna azimuth;

(3) Any change in antenna beam width;

(4) Any change in antenna location greater than 5 seconds;

(5) Any change in antenna location of less than 5 seconds but also involving a requirement for special aeronautical study;

(6) Any change in emission;

(7) Any increase in antenna height;

(8) Any increase in authorized power in excess of a 2 to 1 ratio;

(9) Any increase in emission bandwidth.

(d) All amendments of an application on file and all changes requested in the facilities of an authorized station other than those amendments and modifications listed in paragraph (c) of this section shall be considered minor.

(e) The Commission will issue at regular intervals a "Public Notice" listing all applications subject to this section which have been accepted for filing. Such "Public Notice" will re-list any application which has been amended substantially since its previous listing. For the purposes of this section, "accepted for filing" means that an application has been received at the Commission. Such acceptance for filing shall not preclude the subsequent dismissal of an application, pursuant to the provisions of this chapter, as being defective.

(f) No application subject to the provisions of this section, as originally filed or substantially amended, will be granted by the Commission prior to the thirty-first day following the issuance of public notice of the acceptance for filing of such application or of any substantial amendment thereof: *Provided, however*, That the Commission, notwithstanding the requirements of this paragraph, may, if the grant of such application is otherwise authorized by law and if it finds that there are extraordinary circumstances requiring emergency operations in the public interest and that delay in institution of such emergency operations would seriously prejudice the public interest, grant a temporary authorization, accompanied by a statement of its reasons therefor, to permit such emergency operation for a period not exceeding 90 days, and upon making like findings may extend such temporary authorization for one additional period not to exceed 90 days.

(g) Any party in interest may file with the Commission a petition to deny any application, whether as filed originally or as subsequently amended, subject to the provisions of this section, at any time prior to the day the Commission grants such application or formally designates such application for hearing. A petitioner shall serve a copy of such petition on the applicant. A petition shall contain specific allegations of fact sufficient to show that the petitioner is a party in interest and that a grant of the application would be *prima facie* inconsistent with the public interest, convenience, and necessity. Such allegations of fact except for those of which official notice may be taken, shall be supported by affidavit of a person or persons with personal knowledge thereof.

(h) The applicant may file an opposition to any petition to deny and the petitioner may file a reply thereto (see § 1.13) in which allegations of fact or denials thereof, except for those of which official notice may be taken, shall be supported by affidavit of a person or persons with personal knowledge thereof. The applicant shall serve a copy of his opposition on the petitioner, and the petitioner shall serve a copy of his reply on the applicant.

§ 1.548 Grants without a hearing.

(a) The Commission will grant without a hearing an application for a station authorization if it is proper upon its face and if the Commission finds from an examination of such application and supporting data, any pleadings, filed, or other matters which it may officially notice, that:

(1) There are no substantial and material questions of fact;

(2) The applicant is legally, technically, financially, and otherwise qualified;

(3) A grant of the application would not involve modification, revocation, or non-renewal of any existing license or outstanding construction permit;

(4) A grant of the application would not preclude the grant of any mutually exclusive application; and

(5) A grant of the application would serve the public interest, convenience, and necessity.

(b) If a petition to deny an application has been filed pursuant to § 1.547 and the Commission grants such application pursuant to paragraph (a) of this section, the Commission will deny the petition and issue a concise statement of the reason for such denial and disposing of all substantial issues raised by the petition.

§ 1.549 Designation for hearing.

(a) If the Commission is unable to make the findings prescribed by § 1.548(a) with reference to an application filed prior to December 12, 1960, and not amended substantially on or after that date, the Commission, by letter, will notify the applicant and other known parties in interest of the grounds and reasons for its inability to make such findings and of all the objections made to such application. Following such notice, the applicant will be given an opportunity to reply. If the Commission after considering such reply is still unable to make the findings prescribed by § 1.548(a), it will formally designate the application for hearing on the grounds or reasons then obtaining and shall notify the applicant and all other known parties in interest of such action.

(b) If the Commission is unable to make the findings prescribed in § 1.548 (a) with reference to any application filed on or after December 12, 1960, or any application filed prior to December 12, 1960, but amended substantially on or after that date, it will formally designate the application for hearing on the grounds or reasons then obtaining and will notify forthwith the applicant and all other known parties in interest of such action.

(c) Orders designating applications for hearing will specify with particularity the matters and things in issue and will not include issues or requirements phrased generally.

(d) Parties in interest, if any, who are not notified by the Commission of its action in designating a particular application for hearing may acquire the status of a party to the proceeding by filing a petition for intervention showing the basis of their interest at any time not less than ten days prior to the date of hearing.

(e) Any hearing subsequently held upon such applications shall be a full hearing in which the applicant and all other parties in interest shall be permitted to participate. The burden of proceeding with the introduction of evidence and burden of proof shall be upon the applicant, except that with respect to any issue presented by a petition to deny or a petition to enlarge the issues, such burdens shall be as determined by the Commission.

[F.R. Doc. 60-11457; Filed, Dec. 8, 1960; 8:50 a.m.]

PART 1—PRACTICE AND PROCEDURE

Applications for Broadcast Facilities

Correction

The Appendix to the Commission's Order in the above-entitled proceeding, FCC 60-1381 (published in the FEDERAL REGISTER on November 24, 1960, 25 F.R. 11153) is corrected, as follows:

1. In § 1.358(a), "any amendments" is corrected to read "any amendment".

2. The introductory text of § 1.359(a) is corrected to read as follows:

(a) All applications for instruments of authorization in the broadcast service (and major amendments thereto, as indicated in §§ 1.354, 1.355, 1.356, 1.357 and 1.358) are subject to the provisions of this section, except applications for:

3. In § 1.359(a)(3), the last word "licensee" is corrected to read "license".

4. In § 1.359(d), the reference to "paragraph (d)" is corrected to read "paragraph (c) of this section."

Released: December 5, 1960.

[FCC 60-1434]

PART 1—PRACTICE AND PROCEDURE

Revocation and Cease and Desist Proceedings

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 30th day of November 1960;

The Commission having under consideration § 1.62 of its rules of practice and procedure; pertaining to cease and desist and revocation proceedings; and

It appearing that § 1.62 presently prescribes formal hearing procedures where respondent waives a hearing and where in fact there is no formal evidentiary hearing and no record; and

It further appearing that under these procedures the hearing examiner in most cases must issue an initial decision invoking the sanctions specified in the order to show cause (§ 1.62 (d) and (e)), and has no discretion to do otherwise; and

It further appearing that these formal hearing procedures are unnecessary and wasteful in terms of time and manpower, and they have in some instances been a source of confusion to respondents in such cases; and

It further appearing that neither the Administrative Procedure Act nor the Communications Act of 1934, as amended, require formal hearing procedures or separation of functions in such cases after waiver of hearing; and

It further appearing that the public interest, convenience and necessity will be served by provision of informal nonhearing procedures in such cases after waiver of hearing; and

It further appearing that the amendments herein adopted are issued pursuant to authority contained in sections 4(i), 303(r), and 312 of the Communications Act of 1934, as amended; and

It further appearing, that the amendments herein adopted pertain to matters of procedure, and hence that compliance with the notice, procedural, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary;

It is ordered, Effective December 12, 1960, that Part 1, the Commission's rules of practice and procedure, is amended as set forth below; and

It is further ordered, That these changes shall apply in all cases in which the order to show cause was issued after the above-stated effective date, but not in cases where the order to show cause was issued before that date.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interpret or apply secs. 303, 312, 48 Stat. 1082, 1066, 47 U.S.C. 303, 312)

Released: December 5, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

1. Section 1.26 is amended to read as follows:

§ 1.26 Appearances.

Rules relating to appearances are set forth in §§ 1.63, 1.77, 1.140 and 1.402.

§§ 1.61, 1.76 [Redesignation]

2. Section 1.61 is redesignated as § 1.76.

§ 1.62 [Deletion]

3. Section 1.62 is deleted in its entirety.

4. New §§ 1.77 and 1.78 (derived from § 1.62) are adopted as follows:

§ 1.77 Revocation and/or cease and desist proceedings; hearings.

(a) If it appears that a station license or construction permit should be revoked and/or that a cease and desist order should be issued, the Commission will issue an order directing the person to show cause why an order of revocation and/or a cease and desist order, as the facts may warrant, should not be issued.

(b) An order to show cause why an order of revocation and/or a cease and desist order should not be issued will contain a statement of the matters with respect to which the Commission is inquiring and will call upon the person to whom it is directed (the respondent) to appear before the Commission at a hearing, at a time and place stated in the order, but not less than thirty days after the receipt of such order, and give evidence upon the matters specified in the order to show cause. However, if safety of life or property is involved, the order to show cause may specify a hearing date less than thirty days from the receipt of such order.

(c) To avail himself of such opportunity for hearing, the respondent, personally or by his attorney, shall file with the Commission, within thirty days of the service of the order or such shorter period as may be specified therein, a written appearance stating that he will appear at the hearing and present evidence on the matters specified in the order. The Commission in its discretion may accept a late appearance. However, an appearance tendered after the specified time has expired will not be accepted unless accompanied by a petition stating with particularity the facts and reasons relied on to justify such late filing. Such petition for acceptance of late appearance will be granted only if the Commission determines that the facts and reasons stated therein constitute good cause for failure to file on time.

(d) Hearings on the matters specified in such orders to show cause shall accord with the practice and procedure prescribed in this subpart and Subpart B of this part, with the following exceptions: (1) In all such revocation and/or cease and desist hearings, the burden of proceeding with the introduction of evidence and the burden of proof shall be upon the Commission; and (2) the Commission may specify in a show cause order, when the circumstances of the proceeding require expedition, a time less than that prescribed in §§ 1.153 and 1.154 within which the initial decision in the proceeding shall become effective, exceptions to such initial decision must be filed, parties must file requests for oral argument, and parties must file notice of intention to participate in oral argument.

(e) Correction of or promise to correct the conditions or matters complained of in a show cause order shall not preclude the issuance of a cease and desist order. Corrections or promises to correct the conditions or matters complained of, and the past record of the licensee, may, however, be considered in determining whether a revocation and/or cease and desist order should be issued.

(f) Any order of revocation and/or cease and desist order issued after hearing pursuant to this section shall include a statement of findings and the grounds therefor, shall specify the effective date of the order, and shall be served on the person to whom such order is directed.

§ 1.78 Revocation and/or cease and desist proceedings; after waiver of hearing.

(a) After the issuance of an order to show cause, pursuant to § 1.77, calling upon a person to appear at a hearing before the Commission, the occurrence of any one of the following events or circumstances will constitute a waiver of such hearing and the proceeding thereafter will be conducted in accordance with the provisions of this section.

(1) The respondent fails to file a timely written appearance as prescribed in § 1.77(c) indicating that he will appear at a hearing and present evidence on the matters specified in the order.

(2) The respondent, having filed a timely written appearance as prescribed in § 1.77(c), fails in fact to appear in person or by his attorney at the time and place of the duly scheduled hearing.

(3) The respondent files with the Commission, within the time specified for a written appearance in § 1.77(c), a written statement expressly waiving his rights to a hearing.

(b) When a hearing is waived under the provisions of paragraph (a) (1) or (3) of this section, a written statement signed by the respondent denying or seeking to mitigate or justify the circumstances or conduct complained of in the order to show cause may be submitted within the time specified in § 1.77(c). The Commission in its discretion may accept a late statement. However, a statement tendered after the specified time has expired will not be accepted unless accompanied by a petition stating with particularity the facts and reasons relied on to justify such late filing. Such petitions for acceptance of a late statement will be granted only if the Commission determines that the facts and reasons stated therein constitute good cause for failure to file on time.

(c) Whenever a hearing is waived by the occurrence of any of the events or circumstances listed in paragraph (a) of this section, the Chief Hearing Examiner at the earliest practicable date shall issue an order reciting the events or circumstances constituting a waiver of hearing, terminating the hearing proceeding, and certifying the case to the Commission. Such order shall be served upon the respondent.

(d) After a hearing proceeding has been terminated pursuant to paragraph (c) of this section, the Commission will act upon the matters specified in the order to show cause in the regular course of business. The Commission will determine on the basis of all the information available to it from any source, including such further proceedings as may be warranted, if a revocation order and/or a cease and desist order should issue, and if so, will issue such order. Otherwise, the Commission will issue an order dismissing the proceeding. All orders specified in this paragraph will include a statement of the findings of the Commission and the grounds and reasons therefor, will specify the effective date thereof, and will be served upon the respondent.

(e) Corrections or promise to correct the conditions or matters complained of in a show cause order shall not preclude the issuance of a cease and desist order. Corrections or promises to correct the conditions or matters complained of, and the past record of the licensee, may, however, be considered in determining whether a revocation and/or cease and desist order should be issued.

5. Section 1.402(a) is amended to read as follows:

§ 1.402 Appearances.

(a) *Hearings.* Except as otherwise required by § 1.140 regarding application proceedings, by § 1.77 regarding proceedings instituted under section 312 of the Communications Act of 1934, as amended, or by Commission order in any proceeding, no written statement indicating intent to appear need be filed in advance of actual appearance at any hearing by any person or his attorney.

[F.R. Doc. 60-11458; Filed, Dec. 8, 1960; 8:51 a.m.]

[FCC 60-1433]

PART 1—PRACTICE AND PROCEDURE

PART 21—DOMESTIC PUBLIC RADIO SERVICES (OTHER THAN MARITIME MOBILE)

Applications

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 30th day of November 1960:

The Commission having under consideration Public Law 86-752, 86th Congress, 2d Session, which was enacted into law on September 13, 1960, and the necessity for promulgating rules to implement various amendments of the Communications Act of 1934 contained in that law;

It appearing that the amendments to section 309 (pertaining to pre-grant procedures) will become effective on December 12, 1960; and

It further appearing that the law permits the Commission to make the new provisions of section 309 of the Act applicable, under certain conditions, to applications filed before December 12, 1960; and

It further appearing that it is necessary that the rules implementing section 309 of the Act be effective on December 12, 1960, and that applicants and other interested persons should have adequate advance notice of the rules they will be required to follow as well as of the Commission's decision concerning what applications will be subject to those rules; and

It further appearing that the rules in question are procedural in nature and that following the notice and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and that the rules should be promulgated at this time and made effective on December 12, 1960; and

It further appearing that in view of the importance of these rules and the impracticability of affording an opportunity to comment on the rules before their adoption, all interested parties should be specifically advised that they may file timely petitions to reconsider the rules now being adopted or petitions requesting specific amendments in the rules; and

It further apearing, that authority for the adoption of these rules is contained in sections 4(i), 303(r), and 309 of the Communications Act of 1934, as amended;

It is ordered, That, effective December 12, 1960, Parts 1 and 21 of the Commission's rules and regulations are amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended, 47 U.S.C. 154. Interpret or apply secs. 303, 309, 48 Stat. 1082, 1085, 47 U.S.C. 303, 309)

Released: December 5, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

1. Section 1.106(b)(3) is amended to read as follows:

§ 1.106 Consolidations.

* * * * * *

(b) * * *

(3) In common carrier cases, any application that is mutually exclusive with another previously filed application will be considered with such prior filed application only if the later filed application is substantially complete and tendered for filing prior to the close of business on the day preceding the day the earlier filed application is designated for hearing.

2. Section 21.23(a) is amended to read as follows:

§ 21.23 Amendments of applications.

(a) Any application may be amended as a matter of right prior to the designation of such application for hearing

by filing the appropriate number of copies of the amendments. However, see § 21.33 for the effect of certain amendments.

3. Section 21.24(d) is amended to read as follows:

§ 21.24 Dismissal of applications.

• • • • •

(d) Any mutually exclusive application filed after the date prescribed in § 21.26(b) will be dismissed without prejudice and will be eligible for refiling only after a final decision is rendered by the Commission with respect to the prior application or applications or after such application or applications are dismissed or removed from the hearing docket.

4. Section 21.26 is amended to read as follows:

§ 21.26 Grants without a hearing.

(a) Where an application for radio facilities is proper on its face and, where it appears from an examination of the application, supporting data, and such other matters as the Commission may officially notice, that (1) the applicant is legally, technically, financially and otherwise qualified; (2) a grant of the application would not cause harmful interference to an existing station or stations for which a construction permit is outstanding within its service area; (3) a grant of the application would not preclude the grant of any pending applications; and (4) a grant of the application would serve the public interest, convenience or necessity, the Commission will grant the application without a hearing.

(b) In making its determinations pursuant to the provisions of paragraph (a) of this section, the Commission will not consider any other application, or any other application amended so as to constitute a major change therein (as defined in § 21.33), as being mutually exclusive with the application under consideration unless such other application was substantially complete and filed with the Commission by the close of business one business day preceding the day on which the Commission takes action with respect to the application under consideration. An application filed after the date specified herein will be disposed of in accordance with the provisions of § 21.24(d).

(c) Before Commission action on any application for an instrument of authorization, other than a license pursuant to a construction permit, any person may file informal objections to a grant thereof. Such objections shall be signed by the objector. The limitation on pleadings provided in § 1.13 of this chapter shall not be applicable to any objections filed pursuant to this section. Such informal objections will be considered by the Commission but will not be accorded the formal status of petitions as set forth in § 21.27.

(d) If a petition to deny the application has been filed in accordance with § 21.27, and the Commission makes the grant in accordance with paragraph (a) of this section, the Commission will deny the petition and issue a concise statement setting forth the reasons for denial and disposing of all substantial issues raised by the petition.

5. Section 21.27 is amended to read as follows:

§ 21.27 Processing of applications.

(a) All applications for instruments of authorization covered by this part and major application amendments (as indicated in § 21.33) are subject to the provisions of this section, except applications for:

(1) A minor change in the facilities of an authorized station, as indicated in § 21.33;

(2) Consent to an involuntary assignment or transfer under section 310(b) of the Communications Act or to an assignment or transfer thereunder which does not involve a substantial change in ownership or control;

(3) A license under section 319(c) of the Communications Act or, pending application for or grant of such license, any special or temporary authorization to permit interim operation to facilitate completion of authorized construction or to provide substantially the same service as would be authorized by such license;

(4) Extension of time to complete construction of authorized facilities;

(5) An authorization of facilities for remote pickups, studio links and similar facilities for use in the operation of a broadcast station;

(6) A special temporary authorization for nonbroadcast operation not to exceed thirty days where no application for regular operation is contemplated to be filed or pending the filing of an application for such regular operation; or

(7) An authorization under any of the proviso clauses of section 308(a) of the Communications Act.

(b) No application acceptable for filing and subject to the provisions of this section (whether as originally filed or as amended) will be acted upon by the Commission less than 30 days following issuance of public notice of the tender for filing of such application or amendment: *Provided, however,* That the Commission may, if the grant of such application is otherwise authorized by law and if it finds that there are extraordinary circumstances requiring emergency operations in the public interest and that delay in the institution of such emergency operations would seriously prejudice the public interest, grant a temporary authorization, accompanied by a statement of its reasons therefor, to permit such emergency operations for a period not exceeding 90 days, and upon making like findings may extend such temporary authorization for one additional period not to exceed 90 days.

(c) Any party in interest may file with the Commission a petition to deny any application (whether as originally filed or as amended) to which paragraph (a) of this section applies, at any time prior to the day of Commission grant thereof without hearing, or the day of formal designation thereof for hearing. The petitioner shall serve a copy of such petition on the applicant no later than the date of filing thereof with the Commission. The petition shall contain specific allegations of fact sufficient to show that the petitioner is a party in interest and that a grant of the application would be prima facie inconsistent with § 21.26 (a). Such allegations of fact shall, except for those of which official notice may be taken, be supported by affidavit of a person or persons with personal knowledge thereof. The applicant may file an opposition to any petition to deny, and the petitioner may file a reply to such opposition (see §1.13 of this chapter) and allegations of fact or denials thereof shall similarly be supported by affidavit.

(d) Applications subject to this section, which are pending before the Commission and which have not been acted upon before December 12, 1960, will not be acted on by the Commission until at least 30 days after that date. Any party in interest may file a petition to deny such an application pursuant to the provisions of this section. The provisions of section 309 of the Communications Act, as in effect prior to December 12, 1960, shall not be applicable to such applications.

(e) If the Commission finds, on the basis of the application, the pleadings filed, or other matters which it may officially notice, that there are no substantial and material questions of fact and that a grant of the application would be consistent with § 21.26(a), it shall make the grant, deny the petition, and issue a concise statement of the reasons for denying the petition, which statement shall dispose of all substantial issues raised by the petition. If a substantial and material question of fact is presented, or if the Commission, for any reason, is unable to find that grant of the application would be consistent with §21.26(a), the Commission shall proceed as provided in paragraph (f) of this § 21.27.

(f) If, in the case of any application to which § 21.26(a) applies, a substantial and material question of fact is presented, or the Commission, for any reason, is unable to make the finding specified in such section, it shall formally designate the application for hearing on the ground or reasons then obtaining and shall forthwith notify the applicant and all other known parties in interest of such action and the grounds and reasons therefor, specifying with particularity the matters and things in issue, but not including issues or requirements phrased generally. When the Commission has so designated an application for hearing, the parties in interest, if any, who are not notified by the Commission of such action, may acquire the status of a party to the proceeding thereon by filing a petition for intervention, showing the basis for their interest, at any time not less than 10 days prior to the date of hearing. Any hearing subsequently held upon such application shall be a full hearing in which the applicant and all other parties in interest shall be permitted to participate. The burden of proceeding with the introduction of evidence and the burden of proof shall be upon the applicant, except that, with respect to any issue presented by a petition to deny or a petition to enlarge the issues, such burdens shall be as determined by the Commission.

(g) Where a grant of the application would preclude the grant of an application or applications mutually exclusive with it, the Commission may, if public interest will be served thereby, make a conditional grant of one or more of such mutually exclusive applications and designate all of the mutually exclusive applications for hearing. Such conditional grant will be made upon the express condition that it is subject to being withdrawn if, at the hearing, it is shown that public interest will be better served by a grant of one of the other applications. Such conditional grants will be issued only where it appears:

(1) That some or all of the applications were not filed in good faith but were filed for the purpose of delaying or hindering the grant of another application; or

(2) That public interest requires the prompt establishment of radio service in a particular community or area; or

(3) The grant of one or more applications would be in the public interest and that a delay in making a grant to any applicant until after the conclusion of a hearing on all applications might jeopardize the rights of the United States under the provisions of an international agreement to the use of the frequency in question; or

(4) That a grant of one application would be in the public interest in that it appears from an examination of the remaining applications that they cannot be granted because they are in violation of provisions of the Communications Act, or of other statutes, or of the provisions of this chapter.

6. Section 21.32 paragraph (b) is redesignated as paragraph (c) and a new paragraph (b) is added to read as follows:

§ 21.32 License period.

• • • • •

(b) The Commission reserves the right to grant or renew station licenses in this service for a shorter period of time than that generally prescribed for such stations if, in its judgment, public interest, convenience or necessity would be served by such action.

(c) Upon the expiration or termination of any station license, any related construction permit, which bears a later expiration date, shall be automatically terminated concurrently with the related station license, unless it shall have been determined by the Commission that the public interest convenience or necessity would be served by continuing in effect said construction permit.

7. A new § 21.23 is added as follows:

§ 21.33 Status of amendments to applications.

(a) All applications governed by this part, except those enumerated in § 21.27 (a), and major amendments thereto (e.g., any amendment which will change or add a frequency; or improve the operating characteristics of an existing or proposed station; or enlarge the service contour or significantly change the location or points of communication of an existing or proposed station; or which will materially alter the nature of an existing or proposed service) are subject to the provisions of § 21.27.

(b) Amendments, other than major amendments as defined in paragraph (a) of this section, will be considered on a case-by-case basis and, if found to materially alter an existing or proposed station, will be listed in a public notice and thereafter be subject to the provisions of § 21.27.

[F.R. Doc. 60-11456; Filed, Dec. 8, 1960; 8:50 a.m.]

[Docket No. 13631; FCC 60-1430]

PART 1—PRACTICE AND PROCEDURE

PART 21—DOMESTIC PUBLIC RADIO SERVICES (OTHER THAN MARITIME MOBILE)

Annual Report of Licensee in Domestic Public Land Mobile Radio Service

1. On July 7, 1960 the Commission adopted a notice of proposed rule making in the above-entitled matter, which was published in the FEDERAL REGISTER on July 15, 1960 (25 F.R. 6704), in accordance with section 4(a) of the Administrative Procedure Act. This notice presented for comment, on or before August 19, 1960 (with allowance for reply comments within twenty days thereafter), a proposal by the Commission to rearrange and clarify the existing reporting requirements for Form L.

2. The only comment received was from the United States Independent Telephone Association, reporting for its Accounting and Engineering Committees, which favored the adoption of the changes in report Form L as proposed in the notice of proposed rule making.

3. However, after further review of the schedule, the Commission believes that certain additional minor changes to clarify Form L should be made at this time. These changes, none of which is substantive, are as follows:

(a) In Instruction 1 the reference to section 219(b) of the Communications Act is corrected to read 219;

(b) In section I, xx's have been inserted in column (e) for items 1, 3 and 4 and in column (f) for items 1 and 3 to indicate that no entries are to be reported where xx's have been inserted;

(c) Item 8 is revised by inserting the words "by licensee" and substituting the word "operated" for "used." As revised, this item reads as follows: "Indicate total number of mobile stations served by licensee which are operated by persons directly or indirectly controlling, controlled by, or under direct or indirect common control with, the licensee";

(d) In item 32 the word "(net)" is added to clarify the nature of the amount to be reported;

(e) In item 43, the parenthetical insert is revised to read as follows: "(explain in a note any differenece from amount reported for item 28, column (p), of Section IV)"; and

(f) Below line 52, the caption is changed to read "Remarks (Attach supplemental sheet, if necessary)."

It appearing, that the proposed rule making proceeding in this matter has indicated the desirability of amendment of the Commission's Report Form L exactly as set forth in the notice of proposed rule making and, in addition, as noted in the next appearing clause of this order; and

It further appearing, that the additional changes as outlined in paragraph 3 above will further improve and clarify Report Form L;

It is ordered, That under the authority contained in sections 4(i), 219(a), 303(j), 303(r), and 308(b) of the Communications Act of 1934, as amended, Annual Report Form L is hereby amended in exactly the form proposed in the notice of proposed rule making and, in addition, as indicated in paragraph 3 hereof, the amendments to become effective in the report form for the year 1960.

Adopted: November 30, 1960.

Released: December 6, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-11459; Filed, Dec. 8, 1960; 8:51 a.m.]

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 259]

DISPOSAL OF TIMBER AND MINERAL RESOURCES

Trespass; Penalty for Unauthorized Removal of Materials

Basis and purpose. Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the act of July 31, 1947 (61 Stat. 681) (30 U.S.C. 601–604) as amended, it is proposed to amend 43 CFR 259.71 as set forth below. The purpose of this amendment is to more clearly define a trespass of timber or mineral materials.

It is the policy of the Department of the Interior whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendment to the Bureau of Land Management, Washington 25, D.C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Section 259.71 is amended to read as follows:

§ 259.71 Trespass; penalty for unauthorized removal of materials.

The extraction, severance, injury, or removal of timber or mineral materials from public lands under the jurisdiction of the Department of the Interior, except when authorized by law and the regulations of the Department is an act of trespass. Trespassers will be liable in damages to the United States, and will be subject to prosecution for such unlawful acts.

GEORGE W. ABBOTT,
Assistant Secretary of the Interior.

DECEMBER 5, 1960.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 949]

[Docket No. AO–232–A8]

MILK IN SAN ANTONIO, TEXAS, MARKETING AREA

Correction

The following corrections are made in F.R. Doc. 60–10848 filed November 21, 1960 and published on November 22, 1960.

1. In § 949.11 delete the figure "1" as it appears immediately following the word "February" in the last line in column 3, 25 F.R. 11079 and delete the word "November" as it appears in the second line of column 1, 25 F.R. 11080 and substitute therefor the word "February".

2. In § 949.83 as it appears in column 1, 25 F.R. 11084 insert immediately preceding section reference "949.61" section reference "949.60,".

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Issued at Washington, D.C., this 5th day of December 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[7 CFR Part 1033]

[AO–322]

ONIONS GROWN IN SOUTH TEXAS

Notice of Recommended Decision and Opportunity To File Written Exceptions With Respect to Proposed Marketing Agreement and Order

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed marketing Agreement No. 143 and Order No. 133, regulating the handling of onions grown in designated counties of South Texas, to be effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), hereinafter called the "Act."

Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D.C., not later than the close of business on the 15th day after its publication in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The public hearing on the record of which the proposed marketing agreement and order (hereinafter referred to collectively as the "proposed order") were formulated was held at Edinburg, Texas, on June 13–14, 1960, pursuant to notice thereof which was published May 25, 1960, in the FEDERAL REGISTER (25 F.R. 4597). Such notice set forth a proposed marketing agreement and order which were sponsored by growers and handlers of onions in South Texas as represented by the South Texas Onion Committee, supported by the Valley Farm Bureau and the Texas Citrus and Vegetable Growers and Shippers Association.

Material issues. The material issues presented on the record of the hearing are as follows:

(1) The existence of the right to exercise Federal jurisdiction;

(2) The need for the proposed regulatory program to effectuate the declared purposes of the Act;

(3) The definition of the commodity and determination of the production area to be covered by the proposed order;

(4) The identity of the persons and transactions to be regulated; and

(5) The specific terms and provisions of the proposed order including:

(a) Definitions of terms used therein which are necessary and incidental to attain the declared objectives of the Act, and including those set forth in the notice of hearing, among which are those applicable to the following additional terms and provisions:

(b) The establishment, maintenance, composition, powers, duties, and operation of a committee which shall be the administrative agency for assisting the Secretary in the administration of the program;

(c) The authority to incur expenses and to levy assessments on shipments;

(d) The authority for the establishment of marketing research and development projects;

(e) The authority for limiting the handling of onions grown in the production area;

(f) The methods for establishing minimum standards of quality and maturity;

(g) The authority for establishing special regulations applicable to the handling of onions for specified purposes or to specified outlets including modifications of, or amendments to, grade, size, quality, and other regulations;

(h) The prohibition of the shipment of rollers as an unfair method of competition and an unfair trade practice;

(i) The necessity for inspection and certification of shipments;

(j) The procedure for establishing reporting requirements upon handlers;

(k) The requirements of compliance with all provisions of the proposed order and with regulations issued pursuant thereto; and

(l) Additional terms and conditions as set forth in §§ 1033.82 through 1033.95 of the notice of hearing published in the FEDERAL REGISTER (25 F.R. 4597) on May 25, 1960, which are common to marketing agreements and marketing orders.

(1) Onions rank as one of the more important commercial vegetable crops grown in Texas. The South Texas production area, as defined in the proposed order, is one of the more important onion producing areas in the United States and the only area reporting early spring crop onions in the nation. It includes such well known onion producing sections as the Lower Rio Grande Valley, Coastal Bend, Laredo, Winter Garden and Eagle Pass.

The U.S. early spring crop is confined to South Texas. Harvest in the Lower Valley generally starts early in March and movement from the production area continues in fairly good volume through most of May, but the heaviest shipping period is usually from mid-April to mid-May, depending on weather conditions.

The 1959 South Texas onion crop totaled 2,145,000 hundredweight, harvested from 33,000 acres, with an average yield of 65 hundredweight per acre. This area's average production for the 1949–1958 period was 2,296,000 hundredweight or about 10 percent of the total U.S. production. It was produced on about 30 percent of the U.S. onion acreage with an average yield in South Texas of 69 hundredweight per acre, which is considerably below the average yield for most other onion producing areas.

The great bulk of the onions produced in this production area is marketed outside of the production area and moves in interstate and foreign commerce. Exhibit No. 10, "Carlot Unloads of Certain Fruits and Vegetables in 100 U.S. and 5 Canadian Cities for Calendar Year 1959," shows unloads of Texas onions in 76 U.S. cities and in 4 of the 5 Canadian cities listed. The largest number of unloads in the order of volume were in New York, Chicago, Philadelphia, Boston, Detroit, Pittsburgh, and Baltimore.

There were 14,402 carlot unloads of onions in the 100 U.S. cities in 1959 of which Texas shipped 3,463, or 24 percent of the total. Also 1,218 carlots were unloaded in 5 Canadian cities of which Texas shipped 164, or 13 percent. Truck unloads in 35 U.S. cities and 5 Canadian cities totaled 25,699, of which Texas shipped 3,481 or 14 percent.

Local markets within the State of Texas also received substantial quantities of onions from South Texas. Unloads of Texas onions are officially reported for Amarillo, Dallas, El Paso, Fort Worth, Houston, Lubbock, and San Antonio, all of which are outside the production area. In addition, onions from shipping points outside of Texas are transported and sold in the current of interstate and foreign commerce in these Texas cities. For example, Exhibit No. 10 shows that in 1959, out of 702 truck unloads of onions in Dallas 319 originated in Texas and 383 were shipped into Texas from other States and from Mexico and Chile.

The chief competition to South Texas onions at the start of the season comes from old onions in storage which are grown in New York, Michigan, Minnesota, Idaho, and other northern production areas. Some onions are imported from Mexico and Chile in competition with South Texas onions. Shipments from Southern California and Arizona begin toward the latter part of the deal and Georgia also comes in with a small crop about this time.

South Texas onions compete directly at certain times of the marketing season with onions produced outside of Texas. Thus South Texas onions directly burden and affect the supply of onions in interstate and foreign commerce and in turn onions produced outside of Texas likewise directly burden and affect the supply of onions in all markets, including markets in Texas.

Producers and handlers of South Texas onions maintain close, constant communication through telephone, telegraph, teletype, market news reports, and other modern methods of communication, with receiving markets outside the production area such as Chicago, New York, Philadelphia, Toronto, Dallas, and similar important centers of distribution. Both shipping point sellers and terminal receivers exchange information as to supplies and prices. Prices at shipping point and at terminals outside the production area tend to move each day, and even during each hour of the marketing day within relatively narrow price ranges. Factors affecting supplies at shipping points are soon known and reflected in prices both at shipping points and receiving markets outside the production area. Also, shifts in supplies at terminal markets, either in quantity or quality on hand, or estimated as available or to become available, affect prices at terminal markets and, due to the rapid, constant communication between terminal markets and handlers within the production area, such changes and prices are soon reflected in the offerings and bids between these buyers and sellers, and the resultant sales prices are inevitably reflected in prices to growers in the production area.

On the basis of the foregoing, it is hereby found and determined that in the marketing of onions grown in the production area all sales of such onions which are in the stream of the commerce between the production area and any point outside thereof, and all transportation of such onions between points within the production area and points outside the production area are in the current of interstate or foreign commerce, or directly burden, obstruct, or affect such commerce. It is concluded, therefore, that the right to exercise Federal jurisdiction with respect to the proposed order for South Texas onions hereinafter set forth, is established.

(2) The need for the proposed regulatory program for South Texas onions is supported by substantial evidence in the record of hearing.

The bulk of the onions grown in this production area is of the hybrid Granex and Grano varieties, both yellow and white. Small quantities of Crystal Wax and Bermuda varieties are also grown in this area. The crop is generally marketed directly after harvest since these varieties do not store well, especially during hot weather.

Prices for South Texas onions have fluctuated rather widely from month to month and from year to year. During the ten-year 1949–58 period, as shown in Exhibit 7, the farm value of South Texas onions ranged from a low of 3.9 million dollars in 1949, to a high of 15.4 million dollars in 1952, and averaged about 7.8 million dollars. During this period the season average price to producers ranged from a low of $2.30 per hundredweight in 1953 to a high of $7.20 per hundredweight in 1952, and averaged $3.72 per hundredweight. These prices represent a range of 46 to 181 percent of parity equivalent, returning less than parity in six and more than parity in four of the ten years.

Prices for South Texas onions are affected by the size of the crop grown in the production area as well as by the quality and sizes of the onions marketed. On several occasions during recent years the onion market at the beginning of the season started out with relatively good prices. Some handlers then shipped everything in the field, including seed stems, splits, and other culls. By the time harvesting advanced, volume picked up, and good onions became available for shipment, the price had dropped to low levels, often below the cost of harvesting and packing. For example, in 1959, according to Exhibit 7 evidence, the average f.o.b. price per 50 pound sack of South Texas Crystal White Wax onions, 2 to 3 inches diameter, was $6.00 at the beginning of the season and dropped steadily during the season to a low of $2.00 per 50 pound sack. The average price of medium size Granex opened at a high of $5.00 per sack at the beginning of the season and dropped steadily to a low of $1.10 per sack. Large size Granex, 3 inches and larger, were reported at $6.00 at the start of the season and dropped to a low of $1.25 per 50-pound sack.

According to record evidence onions marketed early in each season often are of poor quality but they frequently return higher prices than those marketed later. Due to the shipment of poor quality onions at the beginning of the season and to the other price depressing practices listed below, prices of all South Texas onions often tend to decline as the season progresses to a point where growers receive little or nothing for their onions and often incur substantial losses.

A minor percentage, usually considerably less than half, of South Texas onion shipments are officially inspected and certified as to grade and size. Because of lack of uniformity or satisfactory grade, according to experienced handlers, South Texas onions do not now enjoy a good reputation in the trade. A "Texas One" is referred to as a fairly good pack, but it is not usually up to the quality of a U.S. No. 1. One shipper testified that when his onions are shipped in stock brand sacks simply labeled "Texas Onions" they are discounted. However, when the same quality onions are shipped in sacks labeled with an established brand name, they bring 25 cents more per 50-pound sack. He indicated there is a great need to restore the confidence of the trade by improving the reputation of South Texas onions.

The percentage of culls in a crop varies with weather conditions. A cull, in trade terminology, is an onion of inferior quality which is below the requirements of any grade. Some years a high percentage of seed stems characterizes the crop. A seed stem is an onion with a tough, fibrous stem in the center of the bulb. Seed stems are not acceptable to the user and have a tendency to decay more rapidly than sound onions. If the

stem is sufficiently large it is considered serious damage in grading and the onion is classed marketwise as a cull. Occasionally, difficulty is experienced with soured skins caused by a fungus disease which forms a slimy, gummy cover over the onion. Obviously, such onions are not suitable for shipment and they are usually picked out as culls. In addition to these forms of damage there are other types of serious defects which cause onions to be classed as culls.

Each packing house accumulates a pile of culls every few days of operation. The record indicates that many handlers in the production area make a practice of selling onions from their cull piles to certain people who come into the area for the purpose of purchasing culls. Most shippers do not notice the detrimental effects of such sales at first. They think such sales bring extra money for discards that would otherwise be an expense to dispose of. Others take the attitude that if everyone else is doing so, they might as well sell their culls also. These culls are sold for very little, $10 to $20 per truck load. They are taken to collection points where they are cleaned up, picked over, sorted, and sacked without any brand name. They may yield 200 to 300 sacks per truck load. Before long, substantial quantities of these below-grade onions are found in nearby markets. They not only displace No. 1 grade onions, but also they actually cause a decrease in the sale of preferred grades since retailers report each bag of culls displaces larger quantities of good onions. These culls and pick-outs sold to truckers by production area handlers actually ruin the market for good onions in nearby Texas cities.

There is also at times a similar problem with No. 2 onions. When market conditions are good, and there is a healthy supply and demand situation, No. 2 onions have a rightful place in the market. However, they can act much the same way as culls on a draggy market and, of course, due to their better quality than culls, they are transported farther and affect more markets than culls. No. 2 onions are sold at discounts from prices for No. 1 grade. Receivers of good quality, i.e., No. 1 onions in the market find it difficult to compete with dealers offering No. 2 grade or culls, and they must buy as cheaply as possible to compete successfully. Price adjustments are frequently requested on No. 1 stock so that the receivers can move the onions into markets depressed by lower prices of No. 2's or culls. Thus, lower grade onions in the market not only displace, but also depress market prices for better grade onions.

Marketing of lower grade and cull onions is not only detrimental to producers and the onion trade as a whole, but also low grades, and especially culls, are not as acceptable to the housewife as better grade onions. In turn, these consumer preferences are reflected in reduced sales and lower prices that carry back through distributive channels to shipping point. Because packing costs, transportation, wholesale handling, and retailer's mark-up are about the same for lower grades or culls as for No. 1 or better grades, retail prices for culls or lower grades often are only a small percentage less than prices for top grades. On the other hand, grower prices for the culls or low grades often are only a small fraction of the price he receives for No. 1 or better grades.

South Texas onions are marketed as "new crop" onions and are distinguished from northern grown storage onions. They have a shorter market life, usually limited to a few weeks at most after being graded and packed. Short market life accentuates marketing risks and, with large and oftentimes excessive supplies, adds to the urgency for moving them quickly into wholesale and retail channels.

The urgency for marketing a commodity with these features by moving it to market, especially when aggravated by overproduction and consequent excessive supplies available for market, has led to another marketing practice presented by proponents as one of the most serious marketing problems for South Texas onions, i.e., shipments of "rollers." A "roller" is a shipment of produce which has not been sold at the time of shipment. Shipments of rollers, or rolling shipments, is a common practice in the produce trade, and especially so in South Texas onions.

Proponents emphasized the importance of this marketing practice as disruptive of orderly marketing. They also urged authorization of regulatory features to prohibit rollers as unfair trade practices and unfair methods of competition in marketing South Texas onions. Proponents' interest in and engrossment with the practice of shipping rollers is obviously apparent in the hearing record.

The association of rollers with distress shipments, i.e., low quality, discounted sizes, poor keeping quality, deterioration, and similar features, is embedded in South Texas onion handlers' marketing and bargaining processes. The failure or inability to limit South Texas onion marketings to better grades, preferred sizes, and assured qualities is aggravated and accentuated in proponents' views of their bargaining processes.

The need for a marketing agreement and order program, such as the proposed order, to eliminate certain price depressing practices with respect to onions grown in the production area is clearly established in the record. The establishment of more orderly marketing conditions as may be brought about by proposed marketing order regulations will tend to improve prices to producers for onions grown in the production area. Also, the exercise of the authority in the proposed order with respect to the establishment and maintenance in effect of minimum standards of quality, in terms of grades and sizes, together with grading and inspection requirements, when prices are above the parity level, would tend to effectuate such orderly marketing of production area onions as will be in the public interest.

(3) Certain terms and provisions of the proposed order should be defined and explained for the purpose of designating specifically their applicability and limitations whenever they are used.

The term "onions" is defined to specify the commodity covered by the proposed order and with respect to which the terms and provisions of the proposed order are applicable. The agricultural commodity, botanically known as "Allium cepa," is commonly known to producers and handlers in the production area as "onions." Such term is defined to include all varieties of onions which are grown within the production area and marketed dry. This definition excludes green onions which are usually marketed in bunches. By "dry" is meant only the bulb of the plant which is normally marketed after it has matured and allowed to dry sufficiently, or is dried, and from which the top and roots are cut off. The term includes yellow, white, brown, and red onions of all varieties and hybrids grown within the production area.

"Production area" is defined to include all the territory in the Counties of Val Verde, Kinney, Uvalde, Medina, Wilson, Karnes, Goliad, Victoria, Calhoun, Maverick, Zavala, Frio, Atascosa, Dimmit, La Salle, McMullen, Live Oak, Bee, Refugio, Webb, Duval, Jim Wells, San Patricio, Nueces, Zapata, Jim Hogg, Brooks, Kleberg, Kenedy, Starr, De Witt, Aransas, Hidalgo, Willacy, and Cameron, in the State of Texas.

This is a contiguous area and comprises generally the most southerly counties in the State. It is roughly triangular in shape and is bounded on one side by the Gulf of Mexico, the Rio Grande River on another, and ranch country to the north. It comprises all of the sections in Texas which produce or could produce the early spring onion crop. The boundary lines of the production area do not cut through any commercial onion producing section.

Onions have been grown, are now being grown, or could be grown, under similar growing and climatic conditions, in each of these counties. Also, the types of onions grown in all parts of this area are similar and several growers and handlers operate in more than one county within this area. Minor variations in practices, methods of production, harvesting and marketing may occur between counties, nevertheless grade and quality standards for commercial sales are the same throughout the production area. Also, onions marketed from each county within this production area share in, and compete in, common markets during the same early spring marketing season.

Market News reports (Exhibit No. 7) show that onions are shipped daily from each of the major shipping sections in South Texas during most of the early spring marketing season and each section of the production area competes directly with the other sections.

It was testified that there are no onions grown in commercial quantities within a radius of approximately 200 miles of this area in the State of Texas, due mainly to climatic conditions which are not favorable for growing onions. Onions grown in other sections of the State, principally in the high plains around Hereford, and in the north-central part of the State, are grown under different

climatic conditions and are harvested later in the season than those produced in the South Texas area.

Customary recognition of South Texas as the producer of the early spring onion crop provides a proper basis for the production area. There is no reasonable basis for dividing the production area into two or more areas for purposes of separate marketing agreements and orders. All territory included within the boundaries of the production area constitutes the smallest regional production area that is practical and consistent with carrying out the policy of the Act. Accordingly, the production area should be defined as including all of the 35 counties as hereinafter set forth in the proposed order.

(4) The terms "handler" and "shipper" are synonymous and they should be defined to identify the persons who handle onions in the manner described and set forth in the definition of "handle". The persons who are subject to the regulations and upon whom rests the obligation of complying with regulations authorized by the proposed order are identified and established under the definition of handler. Any person who is engaged in the act or acts of handling onions grown in the production area or who causes such onions to be handled is a handler. Such persons are responsible for the grade, size, and quality of the onions delivered to transportation agencies, or which are transported or sold in the current of commerce so as to directly burden, obstruct, or affect such commerce. The responsibility for handling often involves more than one person. Persons who make sales of onions are handlers. Also, any person who transports South Texas onions in the current of commerce between the production area and any point outside thereof is a handler. Each party is subject to the definition of handler and is responsible for complying with regulations issued under the proposed order.

A common or contract carrier transporting onions which are owned by another person is performing a handling function. Such handling, however, should be exempted from the proposed order since such carriers are not responsible for the grade, size, quality or pack of the onions being transported. Neither are they the persons who cause the introduction of such onions into the stream of commerce. The only interest of common or contract carriers in such onions is to transport them for a service charge to destinations given by others. The person or persons delivering onions to a common or contract carrier should be responsible for compliance under the proposed order. As defined, therefore, the term "handler" or "shipper" means any person, except a common or contract carrier of onions owned by another person, who handles onions or causes onions to be handled.

The term "handle" is defined in the proposed order to establish the specific marketing functions which are primarily responsible for placing South Texas onions in the current of commerce between the production area and points outside thereof, and to provide a basis for determining which functions are subject to regulation under authority of the proposed order. "Handle" and "ship" are used synonymously and the definition should so indicate.

South Texas onions are commonly recognized as a distinct crop because of numerous considerations, including their recognition as "new crop" onions being marketed towards or at the end of the storage season for northern grown onions, the area from which they come, and the months in which they are the chief source of supplies.

The South Texas marketing season begins usually in March, and continues throughout April, May and early June. Generally, onion harvest starts in particular fields when 30 to 50 percent of the tops have fallen over. However, market prices, condition of the crop, and weather often influence the actual time of harvesting.

Prior to pulling, the soil is customarily loosened by running a knife or cutter blade a few inches below the bulbs. This cuts the roots in the same operation. As the onions are pulled they are thrown into windrows, four rows together. Next, the tops and the roots are cut off, or clipped. Clipping may be done immediately after pulling, or the onions may be left on the ground prior to clipping with the bulbs covered with the leaves of other onions for protection from the sun. In this case they may be clipped several hours or days later depending on weather conditions.

After clipping the bulbs are put into field bags, baskets, or crates which are usually left in the field for at least 24 hours to allow the onions to cure, i.e., the bulbs are allowed to dry. Curing also tends to make the bulbs a little tougher so that when they rub together, bruises do not occur so easily. Once onions are in the field bags, baskets, or crates, they may remain in the field for several days to a few weeks, depending on market conditions.

The Act provides that no orders shall be applicable to any producer in his capacity as a producer. Growing onions, that is, the planting and care of onions in the field through growth to commercially marketable bulbs that are turned over to a handler by sale, contract, or other means, is a producer function within the above exception.

South Texas onion producers sell their onions in various ways. Under customary arrangements, producers often turn whole fields over to shippers prior to harvest with the producer retaining title to the onions. The shipper supervises the harvesting, then grades, packs, and sells the onions, and pays the producer the net proceeds after deducting handling charges.

Most onions marketed from the production area are handled for the grower's account. The handler or shipper, in these customary dealings, charges for harvesting, if he performs that function as he usually does, for packing, and for selling; in brief, he charges for the complete job of marketing the grower's onions. The grower retains title to the onions until they are sold for him by his agent, the handler. Settlements are made with the growers on the net proceeds of sale, whether the sale was made at shipping point or at some subsequent point in the marketing process.

Some producers sell onions in the field to a handler prior to harvest for a fixed price. The producer then may harvest the onions at a time mutually agreeable to him and the handler or harvesting may be taken over by the handler. Other producers have their own packing sheds. They grow, harvest, grade, pack, sell, and ship their own onions.

Some producers also harvest and pack their own onions then turn them over to a broker to sell them for a fee. Others may haul the field-run onions to the packing shed and sell them to the handler on a weight basis. A few producers have sold onions in the field at the "end of the row" to truckers without running the onions over a mechanical grader. Some handlers advance money to producers, or finance the growing of the crop under various arrangements which sometimes result in shippers becoming partners in growing operations.

Other variations also occur in methods of sale by producers. However, regardless of the method of sale, most onions produced in South Texas are hauled field-run to a packing house in the production area and are subjected to grading, sizing and packing prior to their movement to market.

The packing house operator is responsible for preparing the onions for market. He determines the grade, size, quality, and container of the onions entering market channels. He packages the onions, thus making them a part of the visible marketable supply which is the subject of offer, acceptance, and sale in the current of the commerce in the commodity. He also ships the onions, thus transporting them in the current of commerce. Packing house operators, or others too, often sell onions that have been picked out or discarded in grading, sizing, and packaging operations for shipment to customary terminal markets. Sale of any onions, either grades and sizes customarily acceptable in established terminal markets or those of less or unacceptable grades and sizes, constitutes an act of handling. Each of these activities by itself is a handling operation and, as such, makes the person responsible for it, a handler, subject to the rules and regulations issued under the order. The sale, transportation, or delivery of field-run onions to a packing house located in the production area which is registered with the committee, according to record evidence, should be excepted from the definition of "handle." In this case the onions have not yet been prepared for market nor are they in their existing condition being transported to market. Most sellers and buyers do not consider them as yet suitable or appropriate for commercial transactions in the commodity, and as such, they have not yet entered the stream of commerce.

The committee should have authority to register each handler who, according to its determination, is responsible and willing to conduct his handling operations in accordance with requirements of the order. Such requirements would

include inspection and certification of the onions and compliance with grade, size, and pack regulations. Thus, the proposed order should contain a definition of "registered handler" so as to identify those persons to whom field-run onions may be sold or delivered without being considered a handling activity. All other sales, packaging, or transportation of South Texas onions, by a producer or by any other person, should be included in the definition of handle, except sales at retail by a person in his capacity as a retailer.

In summary, the packaging, sale, or transportation of South Texas onions which places them in the current of commerce between the production area and any point outside thereof is included in the definition of handle. Such handling may be performed or caused by one or more persons, such as packing house operators or their agents, producers in their capacity as handlers, truckers, brokers, or any other person engaged in marketing such onions. The failure of any one such person to comply with marketing regulations does not relieve subsequent handlers from responsibilities therefor. With the exception of the activities specifically excluded from the definition by the above findings, all packaging, sales and transportation of South Texas onions are found and determined to be in the current of the commerce between the production area and points outside thereof and are included in the definition of "handle" set forth in the proposed order.

(5) Certain terms and provisions of the proposed order should be defined and explained for the purpose of designating specifically their applicability and limitations whenever they are used.

(a) The definition of "Secretary" should include not only the Secretary of Agriculture of the United States, the official charged by law with the responsibility for such programs, but also, in order to recognize the fact that it is physically impossible for him to perform personally all of the functions and duties imposed upon him by law, any other officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to act in his stead.

The definition of "Act" provides the appropriate legal citation for the statute pursuant to which the proposed regulatory program is to be operative.

The definition of "person" follows the definition of that term as set forth in the Act, and will insure that it will have the same meaning as when used in the Act.

"Producer" should be defined to mean any person who is engaged in a proprietary capacity in the production of onions within the production area and who is producing such onions for market. The term is used in determining the eligibility of persons to vote for, and to serve as producer members or alternates on the committee.

Since a person is defined as an individual, partnership, corporation, association, or any other business unit, each such person establishes a legal entity. Each person, or legal entity, whether an individual, partnership, joint venture, or corporation, engaged in the production of onions for market, should be classified as a producer and he should be allowed to participate in the rights and privileges accorded a producer under the proposed order. The term producer should be limited to those who have an ownership interest in the onions which gives them title or authority to pass title to such onions.

South Texas growers or producers occasionally sell their onions prior to harvest to packing shed operators or others. While title may actually pass, agreements in most instances include additional requirements that the producer will care for the crop until it is harvested. In such cases even though title passes to the handler at the time of purchase, the buyer should not be classified or qualified as a producer since the buyer does not actually perform customary producer functions with regard to growing the crop.

Some onion crops in the production area are grown under a joint venture arrangement with money advanced for seed, labor, water, etc., by banks, handlers, or others for an interest in the crop. When the crop is sold the person who advanced the money is repaid in money. In such cases the grower should be considered the producer since he, rather than the financier, performs the producer functions.

Some producers in South Texas own or operate packing sheds. A producer who owns or operates a packing shed should not be precluded from qualifying as a producer under the provisions of the proposed order.

"Grading" is defined to mean the sorting of onions by hand or mechanical means, or both, so that the onions are separated into grades, sizes and packs. Such classifications are determined by the handler who directs in person, or through his agent, how and in what number of grades a particular lot of onions shall be separated. Grading may vary from an operation performed entirely by hand in which certain onions are picked out when they are being loaded in the field, to a production line operation whereby onions are carried by mechanical conveyor to be graded, sized, and packaged so that the onions which are to go to preferred price outlets are separated from those going to discounted price outlets or to be discarded as culls. Grading, or preparation for market, is an operation which applies to all onions grown in the production area even though the extent to which onions are separated into market classes may vary considerably among the different outlets.

Definitions of "grade" and "size" are incorporated in the proposed order to enable persons affected thereby to determine the basis for application of grade and size limitations to the product they handle. "Grade" and "size," the essential terms in which regulations are issued, should be defined as encompassing the meanings assigned these terms in the various official United States Standards for onions issued by the United States Department of Agriculture. Also, the definition includes modifications or amendments to such standards, and any variations from such standards in regulations under the proposed order. Regulations can then incorporate such terms (grade and size) with the constant meaning assigned them in the standards. Also, the use of these terms in regulations may be varied by prescribing, for example, a percentage of a grade such as "85 percent U.S. No. 1." Federal and Federal-State inspectors are qualified to certify the grade, size, and quality of onions grown in the production area under the terms of the aforesaid standards, or as such standards may be amended or modified.

At the present time four sets of standards are applicable to onions grown in Texas. The most widely used are the United States Standards for Bermuda-Granex Type Onions, and the United States Standards for Northern Grown Onions. The others are the United States Standards for Creole Onions, and the United States Standards for Onions for Processing. Any of these standards could be utilized, if needed.

The term "pack" is commonly used in the onion trade and refers to one or more of the factors relating to grade, size, quality, and type of container, or a combination of all of these factors. For example, "85% U.S. No. 1 quality, 3 inches minimum, 50-lb. sacks," is considered by the trade as a specific pack. South Texas onions are mostly packed in 50-pound mesh bags. However, some production area onions are shipped in other sizes and types of containers. In addition, they may be of different grades, such as U.S. No. 1, U.S. No. 2, or U.S. Combination; or of different sizes, such as large, medium, or small. It is essential that the committee should have authority to recommend, and the Secretary to approve, regulations in terms of packs, and to define and establish such packs in terms of size tolerances, grades allowed, weight of contents, etc. The definition of the term "pack" should, therefore, be as set forth in the proposed order.

The term "container" should be defined in the proposed order to mean a box, bag, crate, hamper, basket, package, or any other receptacle used in the packaging, transportation, sale, or other handling of onions. This definition is sufficiently broad to include each of the various shipping receptacles in which South Texas onions are sold, or move to market, and for which different regulations could be applicable.

The term "varieties" is included in the proposed order so that the committee may consider the differences in the characteristics of onions in connection with its recommendations for regulations. The principal varieties grown in the production area at the present time are the white and yellow Granex, the white and yellow Grano, and the white and yellow Bermuda. However, new varieties or hybrids are introduced from time to time and may become commercially important. The definition of varieties as set forth in the proposed order is appropriate for determining the different varieties, or types of onions, grown in the production area so that a basis for regulating some and not regulating others may be established.

The definition of "committee" is incorporated in the proposed order to identify the administrative agency which is responsible for assisting the Secretary in the administration of the program. Committee is defined to mean the South Texas Onion Committee. Such committee is authorized by the Act and the definition thereof minimizes the use of words in referring to this administrative agency in the proposed order.

"Fiscal period" should be defined to mean the period beginning and ending on the dates recommended by the committee and approved by the Secretary. This definition provides authority for the committee and the Secretary to set the beginning of the fiscal period relatively close to the beginning of the shipping season. Such flexibility is essential in the event changes in the beginning date of the shipping season should take place in the future.

"District" should be defined in the proposed order to provide a basis for the nomination and selection of committee members. It means each of the geographic sections, or divisions of the production area, as initially established or as later reestablished. The proposed division into districts is adequate and equitable and should provide a practical basis for the purpose intended.

The term "export" means shipment of onions to any destination which is not within the 48 contiguous States or the District of Columbia of the United States. Seperate treatment for export shipments may be necessary because the requirements of certain export markets may differ from those of the domestic market. Therefore different or special regulations, or even no regulations, may be justified with respect to such shipments.

(b) The South Texas Onion Committee consisting of 17 members (10 producers and 7 handlers) is the administrative agency sponsored by the industry to aid the Secretary in administering the proposed order and in carrying out the declared policy of the Act. A committee composed of 17 members, with a like number of alternates, will provide adequate industry representation and assure reasonable judgment and deliberation with respect to recommendations made to the Secretary, and in the discharge of other committee duties. More producers are on the proposed committee than handlers because marketing orders are intended primarily for the benefit of producers. However, restrictions under the proposed order will be at the handler level, so it is also appropriate and prudent for handlers to have representation on the committee.

The number of members from each district, as well as the total number of committee members, and members' distribution within districts, were given thorough consideration by proponents of the proposed order. It is concluded, therefore, all interests within the industry will be fairly and adequately represented. In determining the number of producer representatives on the committee from each of the five districts, consideration was given to onion acreage shown by the latest census figures in each county within a district. Thus, the number of producer representatives for each district is related to such district's portion of the total onion acreage in the production area. Similar methods were applied in apportioning handlers on the committee from each district. The industry position supports at least one handler from each district. This should be a practicable and equitable method of providing producer and handler representatives on the committee. They will be familiar with current market demands, available supplies, current prices, and price trends by grades, sizes, quality, packs, varieties, containers; also other relevant factors with respect to the marketing of onions.

The proposed order should provide that an alternate be selected for each member of the committee so that, in the event a member is sick or should otherwise be unable to attend a meeting, the district which he represents will have adequate representation on the committee. This provides a logical method for representation at all times. Also, alternates can relieve members by serving on subcommittees or performing other assigned tasks necessary for the administration of the program. Such alternates should have the same qualifications as members.

Each member and alternate selected to represent producers in a particular district should be an individual who is a producer, or an officer or employee of a corporate producer or other type of business unit engaged in producing onions in such district and he should also be a resident of the production area. Persons selected to serve as producer members and alternates should have no proprietary interest in, or be employees of, a handler organization. In the event a producer owns, or has an interest in, a packing shed handling onions for others, other than as a member of a marketing cooperative, he should not be qualified to be selected as a producer member or alternate. However, if a producer grades and sells only his own onions, he would not lose his status as a producer and may be selected to represent producers.

Each member or alternate selected to represent handlers in a particular district should be an individual who is a handler, or an officer or an employee of a corporate handler or other type of business unit, engaged in handling such district's onions, and he should be a resident in the production area.

The term of office for committee members and alternates under the proposed program should be for two years. Terms of office should begin on August 1 and should end as of July 31, of the second year, except for initial committee membership. Terms of individual members should be so determined that about one-half of the committee would be selected each year so as to provide continuity of experience on the committee. August 1 is an appropriate date for the beginning of a term of office because it is after the harvest and sale of one crop and before planting of the new crop commences. This term of office will allow time for the committee to organize and start operating prior to the beginning of each marketing season. Committee members and alternates should serve during the term of office for which they are selected and until their successors are selected and have qualified. Such a provision is necessary in order to provide continuity of operation.

Five districts, each of which includes a well known producing section, are established in the proposed order to provide a geographical basis for the selection of committee membership. Producers and handlers within the production area commonly recognize and accept the districts as set forth and customarily consider onion supplies and marketing problems in terms of these districts.

Redistricting authority is necessary in the proposed order to enable the committee and the Secretary to consider from time to time whether the basis for representation has changed or could be improved and how such improvement may be made. Future shifts or other changes in onion production in South Texas cannot be foreseen at the present time, since rather quick shifts may occur in the acreage of the various commodities produced from one year to another. Therefore, it is desirable to provide flexibility of operations so that if it would be in the best interests of the industry to readjust districts or reapportion membership, the committee may so recommend and the Secretary may approve such action.

The guides and limitations set forth in the proposed order which should be considered in making changes in districts or reapportionment of members are appropriate and desirable. Recommendations for such changes should be made well in advance of the intended effective date. Also, changes should not be made effective less than 30 days prior to the date on which terms of office begin. These safeguards are desirable so that producers and handlers may become well acquainted with any redistricting or reapportionment of members prior to the nominations.

The Secretary has the legal authority for the selection of the members and alternates of the committee, but the industry should have the responsibility for recommending proper and appropriate nominees to the Secretary so that he may select from such nominees or from other eligible persons. The nomination procedure outlined in the proposed order will provide a means of making available to the Secretary the names of prospective members and alternates desired by the industry to serve on the committee.

Since the membership of the committee will not have been selected by the time the proposed order becomes effective, the Secretary should have authority to call initial nomination meetings. Such meetings may be sponsored by the United States Department of Agriculture or by any other agency or group requested by the Department. The responsibility for calling subsequent nomination meetings should be with the committee as one of its administrative duties. The committee may work with other existing organizations in conducting such nomination meetings.

Meetings for nominating members of subsequent committees and their alter-

nates should be held or caused to be held by the committee not later than June 15 of each year. Inasmuch as the term of office begins August 1 of each year, nomination meetings should be held in sufficient time to assure that nominations for members and alternates will be supplied the Secretary not later than July 1, so he may select members and alternates prior to the beginning of each new term of office. Not less than one nominee should be designated for each position which is to be filled the following August 1.

Nominations should be supplied in such manner and form as the Secretary may prescribe. The industry, through the committee, should provide enough information about each nominee so the Secretary may be able to determine if such person is qualified for the particular position.

Only producers should participate in designating nominees for producer members and alternates and only handlers may participate in designating handler nominees. Such persons should be actively engaged in the production or handling of onions within the district in which they so participate. If a person is engaged in producing or handling onions in more than one district such person shall elect the district within which he wishes to participate in electing nominees for committee members and alternates. Each grower or handler will thereby have the same voice in the nomination of committee members.

Regardless of the number of districts in which a person produces or handles onions, as the case may be, each person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries and affiliates and representatives in nominating members and alternates for the committee. This provision is deemed necessary as an appropriate safeguard for the protection of all growers and handlers participating in their respective meetings irrespective of the size of an individual's operations. This limitation, however, is construed to mean that one vote may be cast for each position which is to be filled.

If a person is both a producer and a handler he may vote either as a producer or as a handler by selecting the group with which he wishes to participate. Such person may not vote both as a producer and a handler because to do so would enable him to participate in nominations to a greater degree than persons who are only producers or only handlers.

To provide an administrative agency at all times to administer the proposed order, the Secretary should be allowed to select committee members and alternates without regard to nominations if, for any reason, nominations are not submitted to him in conformance with the procedure prescribed therein. Such selection should be on the basis of the representation provided in the proposed order to insure that all producers and handlers in the production area are fairly and adequately represented on the committee.

Each person selected by the Secretary as a committee member or alternate should qualify by filing with the Secretary a written acceptance of his willingness and intention to serve in such capacity. This requirement is necessary so that the Secretary will have definite knowledge that the person appointed is willing to serve and that the position has been filled. Acceptance within 10 days is an appropriate and necessary requirement so that the full committee membership may be obtained without excessive delay.

It is also desirable and necessary that the Secretary be authorized to fill vacancies on the committee without regard to nominations if the names of nominees to fill such vacancies are not made available to him within 30 days after such vacancy occurs. This requirement is necessary to maintain continuity of the committee operations and to insure that all portions of the production area are adequately represented in the conduct of committee business.

To insure that all portions of the production area are adequately represented in the conduct of the committee's business and that the continuity of operation is not interrupted, the proposed order should provide for alternate members on the committee. Each alternate should be authorized to act in the place and stead of the member during the member's temporary absence, or in the case of the death, removal, resignation, or disqualification of a member. The alternate should serve as member until a new member is selected and has qualified. Also, the committee should be permitted to request the attendance of alternates at any or all meetings regardless of whether the members are present or not. This would be desirable at times especially when the committee is considering important matters and when it is necessary to have a greater expression of industry opinion.

The proposed order provides that eleven of the seventeen committee members are necessary to constitute a quorum. This number would assure ample representation from the districts. If a lesser number is permitted to carry on committee business it is possible that some districts would not be represented and this would not be fair or equitable to the producers and handlers affected. Proponents testified that nine concurring votes, or two-thirds of the votes cast, whichever is greater, should be required to pass any motion or to approve any committee action. This would represent more than a simple majority of those voting and would result in greater assurance that action taken by the committee will reflect industry support.

The committee should be authorized to vote by telephone, telegraph, or other means of communication as it may be necessary at times for the committee to act more promptly than a meeting in person would allow. The chairman, or other persons delegated to conduct telephone, telegraph, or other similar meetings, should exhaust reasonable efforts to get in touch with each member or his alternate. Records of such meetings should show efforts followed, extent and tenor of discussions with each member or alternate, and written confirmation of each vote cast. A unanimous vote of all members participating in such action should be required to properly protect the industry's interests.

At assembled meetings all votes should be cast in person. This would insure that a person voting on a motion or any committee action will have had an opportunity to participate in the committee's discussion and present the views of the growers and handlers he represents. If a member is unable to attend a meeting he should arrange for his alternate to attend and vote in his stead.

Committee members and alternates while on committee business will necessarily incur some expenses. Reasonable expenses, which may include travel and living expenses, should be reimbursed so as to avoid personal financial loss to members which might otherwise occur because of their service to the committee. Also, compensation of not to exceed $10.00 per day, or portion thereof, should be authorized in addition to the above, since committee members or alternates may incur additional expenses with respect to their own affairs when attending to committee affairs. These provisions should also extend to alternate members when performing official duties.

The committee should be given those specific powers which are set forth in section 8c(7)(c) of the Act because such powers are granted by the enabling statuatory authority and they are necessary for an administrative agency, such as the South Texas Onion Committee, to carry out its proper functions.

The committee's duties as set forth in the proposed order are necessary for the discharge of its responsibilities. The duties established for the committee are generally similar to those specified for administrative agencies under programs of this character. They are reasonable and necessary if the committee is to function in the manner prescribed under the Act and the proposed order. It should be recognized that the duties specified are not necessarily all inclusive and it is probable that there are other duties which the committee may need to perform which are incidental to, and not inconsistent with, these specified duties.

(c) The committee should be authorized to incur such expenses as the Secretary finds are reasonable and legitimate expenses incidental to the proper administration of the proposed order. Authorized expenses should include such items as salaries for the committee manager, clerical help, field personnel, office equipment, supplies, maintenance, travel, expenses and compensation for committee members and alternates. The authority to incur expenses should not be confined to a predetermined list, but committee funds may not be used for other industry programs such as advertising.

Expenses incurred by the committee in operating the proposed order must, under the Act, be borne by handlers. The fairest and most practical way of distributing the costs of the program among handlers is to require each handler who first handles onions to pay his pro rata share of such expenses on the

basis of the ratio of his total onion shipments to the total shipments by all first handlers during each fiscal period. The first handler is most generally the person who is the applicant for inspection on each shipment. In addition, such person is usually the one who starts the commodity on its way to market. For onions which are not inspected, the handler responsible for assessment should continue to be the handler who first handles the onions and should be so designated by the committee. The requirement that first handlers pay assessments will preclude multiple assessments on onions that are handled more than once.

The committee should be required to prepare a budget at the beginning of each fiscal period showing estimates of income and expenditures necessary for the administration of the order for such period. The budget should be presented to the Secretary with an analysis of its components and an explanation thereof in the form of a report. The committee should be authorized to recommend a rate of assessment to the Secretary which is designed to bring in during each fiscal period sufficient income to cover expenses incurred by the committee. No increase should be made in the total budget without prior recommendation of the committee and approval of the Secretary.

The rate of assessment should be established by the Secretary on the committee's recommendation, which should be based on estimated expenses and the volume of shipments during a fiscal period. Such rate should be applied on a fair and equitable unit basis, such as a 50-pound bag, hundredweight, carload or truckload.

Each handler, therefore, who ships onions as the first handler thereof, should pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of the program's expenses, so that the committee may have adequate funds to carry on its operations on a current basis.

Should developments indicate that assessments collected, or to be collected, during any fiscal period will not provide sufficient income to cover committee expenses, the committee should be authorized to recommend that the Secretary approve an amended budget and fix an increased rate of assessment. If such a revised budget is approved, together with an increased rate of assessment, such increased rate should be retroactive to the beginning of the fiscal period, so as to avoid inequities among handlers.

Proponents testified that the committee should have authority to continue assessments for the maintenance and functioning of the committee even though grade, size, or other regulations may not be in effect for a certain period.

If, at the close of a fiscal period the committee has a carry-over of funds in excess of expenses, and such funds are not retained in a reserve, handlers should be entitled to a proportionate refund. Such refund should be credited to each contributing handler against his operations for the following fiscal period, unless payment should be demanded, in which event the proportionate refund should be paid.

Good business practice requires provision for contingencies. The committee should be authorized, with approval of the Secretary, to set aside excess funds in a reserve or reserves to be used for specified purposes. Such reserves could be used to allow the committee to function at the beginning of a season prior to the time assessment income is available; to cover any deficits during a fiscal period in which assessment income is not sufficient to cover expenses; or to pay any expenses incurred during any period when any or all of the provisions of the order are suspended or inoperative. A reserve fund would be especially needed in the event the order is ever terminated. If and when the committee should be required to liquidate its affairs expenses will necessarily be involved. Funds may be set aside from year to year for reserves, provided they do not exceed approximately one year's expenses.

Any balance remaining after liquidation should be prorated, to the extent practical, to the persons from whom such funds were collected.

All funds received by the committee may be used only for administration of the proposed order. The committee should be required to maintain books and records clearly reflecting the true and up-to-date operations of its affairs, so that its administration may be subject to inspection at any time by the Secretary. This is merely a sound business practice. Also, persons who will have anything to do with committee funds should be adequately bonded by a bonding company with a permit to do business in the State of Texas.

Each member and each alternate, as well as employees, agents, and other persons working for or on behalf of the committee should be required to account for all receipts and disbursements, funds, property, or records for which they are responsible and the Secretary should have the authority, at any time, to ask for such accounting.

Whenever any person ceases to be a member or alternate of the committee he should be required to account for all receipts, disbursements, funds, property, books, records, and other committee assets for which he is responsible. Such person should also be required to execute assignments or such other instruments as may be appropriate to vest in his successor, or any agency or person designated by the Secretary, the right to all such property and all claims vested in such person.

If the committee should recommend that the operations of the marketing order should be suspended, or if no regulations should be in effect for a part or all of a marketing season, the committee should be authorized to recommend, as a practical measure, that one or more of its members, or any other person, should be designated by the Secretary to act as a trustee or trustees during such period. This would provide a practical method for taking care of the committee's business affairs during periods of inactivity and would permit resumption of operations with a minimum of delay.

(d) One of the important functions of the South Texas Onion Committee would be to provide for marketing research and development projects designed to assist, improve, or promote the marketing, distribution and consumption of onions. The Act, as amended, permits such projects and such authorization should be included in the proposed order.

Research into market development, transportation, methods of handling, containers, and studies on the relative merits of different stages at which onions should be marketed are other examples mentioned which the committee may deem worthy of investigation.

As the industry and the committee become more aware of the value of and need for marketing research and development, projects will undoubtedly be initiated, the need for which will not have been foreseen early in committee operations. Therefore, the committee should have the authority to recommend and the Secretary should have the authority to approve the establishment of such projects which would improve, and promote the marketing, distribution, and consumption of South Texas onions. After approval, the committee should be empowered to engage in or contract for such projects, to spend funds for that purpose, and to consult and cooperate with other agencies with regard to their establishment. All such projects should receive the prior approval of the Secretary.

(e) The declared policy of the act, inter alia, is to establish and maintain such orderly marketing conditions for onions, among other commodities, as will tend to establish parity prices therefor, and to establish and maintain such minimum standards of quality and maturity and such grading and inspection requirements as will be in the public interest. The regulation of onion shipments by grade, size or quality, or any combination thereof, as authorized in the proposed order, provides a means of carrying out such policy.

The procedures and methods outlined in the proposed order for the development of marketing policies provide a practical basis for the committee to obtain appropriate and adequate information relating to onion marketing problems. As a prerequisite to making recommendations with respect to limitations of shipments in accordance with the proposed order, the committee should be required to consider and develop a marketing policy for the handling of onions.

A marketing policy should set forth the over-all plan of the committee for orderly marketing of onions during the ensuing season, including, to the extent practical, the kinds of regulations that may be desirable. Such marketing policy should be made available through the various news media to producers and handlers in the production area as soon as possible at the beginning of each season in order to give them ample time to familiarize themselves with proposed regulations and to make any objections which they believe are necessary. It

should also be made available to the Secretary to aid him in considering the recommendations of the committee for regulations.

The factors set forth in the proposed order which the committee should consider in developing its marketing policy are necessary for a proper evaluation of the market outlook. The committee should have available all of the latest crop, supply, and price information for its area and competing areas. It should know, from information available and from the informed members themselves the condition and quality of the crop in its area as well as in competing areas. The committee members themselves will be informed concerning problems peculiar to the area, such as weather conditions, disease, quality and maturity of the crop, and will be able to consider these factors in determining the marketing policy.

If the marketing policy statement should need amending or modification during a season the committee should be authorized to do so and the Secretary should receive a report regarding the revised policy. The committee should give the same publicity to each revised policy report as is given to the initial report for the season in order to notify producers and handlers of the changes.

The South Texas Onion Committee should, as the local administrative agency under the proposed order, be authorized to recommend such grade, size, and quality regulations, as well as any other regulations and amendments thereto authorized by the proposed order, as will tend to effectuate the declared policy of the Act. It is the key to successful operation of the proposed marketing program that the committee should have such responsibility.

The Secretary should look to the committee, which reflects the thinking of the industry, for its views and recommendations for promoting more orderly marketing conditions in the interests of improving returns to producers. The committee would be responsible for determining the need for and the type of regulations for each season or period. The committee, on making recommendations to the Secretary, should utilize all information and experience at its command and should justify its recommendations with supporting facts, considerations, and conclusions.

The proposed order authorizes the Secretary, on the basis of committee recommendations or other available information, to issue various grade, size, quality and other appropriate regulations which are necessary for the improvement of marketing conditions for production area onions. The Secretary should not be precluded from using such information which he may have, and which may or may not be available to the committee for consideration, in issuing such regulations. Also, when he determines that any regulation no longer tends to effectuate the declared policy of the act, the proposed order obviously should provide authority to amend or terminate the regulation.

The grade, size, quality and pack of onions which are shipped to market at any particular time have a direct effect on returns to producers. It is a fact that poorer grades and less desirable sizes of onions marketed return lower producer prices than do better grades and sizes. Shipments of onions with seed stems, splits, and other culls not only depress the price received for good quality onions but usually return little or nothing to the producer. Shipments of poor quality onions also harm the reputation of production area onions, thus decreasing the demand therefor.

At the beginning of a season demand for small-to-medium size South Texas onions, or boilers, frequently returns prices prompting growers and handlers to sell them in relatively large volume. However, as the season progresses and there is an ample supply of medium-to-large onions, average price levels for onions decline and price differentials between small-to-medium and medium-to-large increase considerably, with prices for small sizes falling to levels that return only packing costs or less.

Another price depressing practice in the production area is that some producers are required to harvest onions by a certain deadline in order to plant cotton. Because of this planting deadline many onions are dumped on the market at a time when supplies are already excessive.

By having authority to regulate shipment of onions by grade, size, quality and pack during any period, the shipment of culls and poor quality onions, as well as undesirable sizes, can be restricted to the extent deemed desirable by the committee and in accord with the particular preference for sizes and packs during any period. This would result in higher returns for the better grades and preferred sizes and it would enhance the reputation of South Texas onions. In addition, the withholding of poor quality and undesirable sizes of onions would reduce the supply of onions available for market which in turn would increase the demand and price of the good quality and desirable sizes available.

Since the production area is made up of several producing sections, a variance may occur at times among some sections in the size and condition of the crop because of weather, soil, or other factors. Flexibility should be contained in the order so that differences in geography, varieties, marketable quality, seasonal differences, and cultural differences can be recognized and regulations may be issued in any or all portions of the production area, or that regulations which are justified may be varied for different portions of the production area in order to meet each section's particular problems as they arise.

Due to the fact that conditions such as price, supply and demand vary at times with different varieties of onions, authority should be flexible to permit different grade and size regulations by different varieties during any period.

Containers used in handling production area onions are now fairly uniform with most onions being shipped in new 50-pound capacity mesh bags. Onions shipped for repacking are usually packaged in used 50-pound capacity bags since such onions will be removed from these containers and packaged in new consumer size containers before they are sold at retail. While no particular container problems are apparent at present for South Texas onions, abuses may occur in the future. For example, the use of off-size or deceptive containers could adversely affect the reputation and returns of South Texas onions. Therefore, the proposed order should provide authority to regulate containers by fixing the size, capacity, weight, dimensions or pack. This authority should be used to correct or preclude any abuses which may develop, but it should not be used to discourage experimenting with new containers or to prevent the use of new or superior containers which may be developed.

The proposal for establishment of shipping holidays in paragraph (b) (5) of § 1033.52, as published in the notice of hearing, should be deleted from the proposed order. No testimony was offered at the hearing to support this provision.

The proposed order should provide for prompt notification of the committee by the Secretary whenever he takes action with respect to regulations and the committee should promptly notify the industry of any such actions. This requirement is appropriate and necessary for the proper and efficient administration of the program.

(f) The committee should be authorized to recommend and the Secretary to establish such minimum standards of quality and maturity and such grading and inspection requirements during any or all periods when onion prices reach the equivalent parity as will be in the public interest. Some onions are of such low quality and undesirable size that they do not give consumer satisfaction at any time and consumers do not receive proper value for their expenditures for such low quality onions even when prices are above parity so it would not be in the public interest either of producers or consumers to permit shipments of such poor quality onions irrespective of the price level. The proposed order, therefore, should contain authority for the establishment of such minimum standards of quality and maturity as will be in the public interest and such grading and inspection requirements as may be necessary to insure such minimum standards of quality and maturity are met.

The proposed order should provide for the amendment, modification, suspension or termination of regulations whenever such action is warranted upon recommendation of the committee or other available information. The need for this authority is obvious in that flexibility will oftentimes be required to adjust regulations to effectuate the declared policies of the Act. Likewise, it is obvious that if regulations no longer tend to effectuate the declared policy of the Act they should be terminated.

The proposed order is intended primarily to improve orderly marketing conditions with respect to commercial shipments, that is carlots or truck lots of onions going into the markets. However, some smaller shipments are made

which constitute a very minor percentage of the total movement and are much smaller in volume than what is normally considered a commercial shipment. It may be an accommodation sale which most handlers deal in from time to time, or they may give their product to friends. Such handling would be in a nuisance category insofar as requirements under the order would be concerned. Therefore, authority should be contained in the proposed order to relieve such shipments from regulations, assessments, or inspection when such is in the best interest of the program.

(g) The Secretary should be authorized upon the basis of the recommendations and information submitted by the committee to modify, suspend or terminate regulations with respect to the handling of onions for purposes other than for disposition in normal trade channels. Onions moving to or serving such outlets are usually handled in a different manner, or such outlets usually accept different grades, sizes, qualities, packs, and containers, or different prices are returned, or combinations of such considerations may apply. Such shipments usually do not have any appreciable effect on the marketing of the great bulk of onions handled in commercial markets. The proposed order should provide authority for the committee to give appropriate consideration to the handling of onions for such purposes so that every opportunity may be taken to improve orderly marketing conditions for onions thereby tending to increase total returns to onion growers in the production area.

Such outlets would be for relief or for charity, experimental purposes, export, or for other purposes which may become apparent in the future and which would be specified by the committee and approved by the Secretary. Most shipments intended for relief or for charity are usually by the way of donation or due to some special consideration between the shipper and the receiver. Occasionally shipments are made to orphan homes or to veterans' hospitals or some other facility and the committee should have authority to recommend waiving of the requirements in regard to these shipments in that they do not interfere with regular commercial movement. Shipments are sometimes made for experimental purposes. Many times shipments of onions are made in order to study improved varieties or improved shipping containers, or in order to develop new markets for onions and their by-products. Since these studies are intended to benefit the industry as a whole, no particular purpose would be served by the application of all the requirements of the proposed order to such shipments. Some export markets accept or prefer certain grades and particularly some sizes which normally are discounted for domestic markets. The proposed order should provide for appropriate modification, suspension or termination of regulations with respect to movement of onions to export outlets so that these demands can be met and the sale of the onions grown in the production area will continue to such markets.

Other outlets or special purposes may arise that are not known at this time. If such outlets are found not competitive with fresh market channels the committee may recommend and the Secretary may approve such movement under modified, suspended or terminated regulations.

The authority for modifying, suspending or terminating grade, size, quality, assessment, or inspection regulations should be accompanied by additional administrative authority for the committee to recommend, and the Secretary to prescribe, adequate safeguards to prevent shipments for such purposes from entering market channels contrary to provisions of such special regulations. Authority for the establishment of safeguards should include such limitations or appropriate qualifications on shipments which are necessary and incidental for proper and efficient administration of the proposed order.

(h) On the issue of prohibiting the shipment of "rollers" as an unfair method of competition and an unfair trade practice, proponents offered considerable evidence through a number of witnesses. They proposed to define a "roller" as follows: "A shipment not supported by evidence of sale at a firm price at time of shipment, not subject to adjustment other than due to failure to grade and delay in transit. A consigned shipment shall be termed a roller, and shall be denefid as a shipment to a consignee who upon receipt of the merchandise sells for the shipper's account, remitting the proceeds of the sale, less freight, handling, and selling charges."

A finding and determination with respect to this issue must be based on the testimony in the record of the hearing pertaining thereto and whether the asserted unfairness is "unfair" within practices and methods normally recognized and adhered to by the trade or industry engaged in producing, selling and buying the commodity, or "unfair" in the sense of being fraudulent or deceptive. Additionally, proponents have the burden of proof with respect to this issue (as well as other issues presented) and such burden must be sustained by reliable, probative, and substantial evidence.

(1) Proponents offered considerable evidence on the subject which, among other considerations, indicated the difficulties and complexities of distinguishing, through evidence normally available, between shipments which are, and shipments which are not "rollers."

(2) The need for administrative standards limiting application of rules to handlers' operations and, at the same time, applying standards sufficiently extensive and penetrating to obtain essential evidence for adequate proof that shipment of a lot of onions under a marketing order could be identified as a roller, or not a roller, was exposed by the promulgation hearing.

(3) South Texas onions are marketed under various arrangements with growers, local handlers, and others. Many of these marketing practices were presented and analyzed at the hearing, others were not. While some practices associated with rollers may be questionable in the growers' interest, or disruptive of orderly marketing processes, or even unsound economically, it does not follow that such practices are necessarily fraudulent, deceptive, or unfair. A handler shipping for the account of a grower may be operating in the grower's best and fairest interests by rolling a shipment on a rising or a prospectively rising market.

Consignment sales have been an established method of handling produce, including onions, although evidence attests to the diminishing role of consignment dealers in South Texas onions. The acceptability, success, and equity of consignment sales to growers, handlers, and receivers depends largely upon the mutual confidence among all concerned. Where mutual confidence prevails, consignment handling may well benefit growers or any other party to the marketing transactions.

Some terminal market receivers may also be South Texas onion producers so that shipment of their own onions to their own firm with no price commitment thereon is normal trade practice and cannot be characterized as fraudulent, deceptive, or unfair.

Testimony indicated that rolling cars of onions unsold generally start as market prices decline and demand slackens and the number of rollers increases with oncoming supplies. Thus, indications are that rollers result from major problems previously mentioned, i.e., the short market life of South Texas onions and the urgency to move them quickly to market, which is aggravated by overproduction and consequent excessive supplies available for market.

The effect of a high percentage of South Texas onion sales for the account of the growers, with such effect accentuated during some portions of a season by a high percentage of roller shipments, is questionable as a sound marketing practice, but its unfairness is not proven and the alternatives of shipping point sales offered by the proposed prohibition raises additional questions of fairness.

(4) Effective enforcement is essential to administration of each marketing order. Effective enforcement to attain proponents' proposed prohibition of rollers would necessitate comprehensive, specific standards of performance by each handler applicable to each shipment. Proponents' proof on standards for administrative rules essential to effective administration was not sufficiently reliable, probative, and substantial to find and conclude that their proposal would be adequately enforceable.

For the reasons stated it is concluded that this proposal cannot be included in the proposed order.

(i) Inspection of onions grown in the production area by the Federal or Federal-State Inspection Service is necessary for the purpose of determining officially whether shipments meet requirements effective under marketing regulations issued pursuant to the proposed order. The Federal or Federal-State Inspection Service has operated in Texas for a number of years and onion producers and handlers throughout the

production area are well acquainted with the service and with the inspection which it offers on shipments of onions. The service is available at onion packing sheds throughout the entire production area and reasonably prompt inspection can be given at all such points. Provision is made in the proposed order for inspection of onions grown in the production area by the Federal or Federal-State Inspection Service during any period in which the handling of onions is regulated under the program. Inspection and certification requirements should apply to all onions shipped under regulations issued under the proposed order except when relieved therefrom pursuant to rules and regulations applicable to minimum quantities or special purpose shipments.

Inspection and certification requirements are necessary so that the shipper as well as subsequent handlers, the committee, and other interested parties may determine if shipments comply with the regulations in effect and applicable to such shipments. Effective regulation of the handling of onions grown in the production area requires evidence that each shipment is in compliance with regulations under the order and the provision for inspection and certification affords the practical means of establishing the fact that the shipments do comply and can be so identified.

Responsibility for obtaining inspection should fall primarily on the handler who first handles regulated onions after they have been prepared for market since he is usually the person responsible for the grade, size, quality, pack and container in which the onions are being shipped or handled. However, each handler, regardless of whether the first or subsequent handler, should be required to bear responsibility for determining that each of his shipments is inspected and certified. Identification and certification is essential to proper administration of the order so that a determination may be made as to whether each shipment accords with regulations issued thereunder. The handler who first handles onions should be required to obtain such inspection. Subsequent handlers should not be permitted to handle onions unless a properly issued inspection certificate, valid under the terms of the order, applies to such onions. If a handler should receive onions which have not been inspected he should be responsible for having them inspected before selling or transporting them. This procedure avoids the potential shift of responsibility which would be expected to occur in the absence of making each handler responsible for inspection and certification of any uninspected onions handled by him. This requirement is also necessary so that the committee can obtain evidence in the form of inspection certificates to determine whether the requirements of regulations in effect are being met.

Whenever any shipments of onions subject to regulation have been inspected, but are later dumped from the containers in which they were inspected, or the lot on which the inspection certificate was issued is broken up, such onions can no longer be specifically identified with reference to the inspection certificate. If any such lot of onions should thereafter be repacked, the repacked onions have a new identity. Any subsequent handling of such onions should be in compliance with regulations in effect. Otherwise, effective regulation will not be obtained. Therefore, the order should provide that the committee may require the person who handles onions after they have been repacked, resorted, or regraded to have such onions reinspected and recertified prior to further handling so that the shipper thereof as well as subsequent handlers and the committee may determine that such shipments comply with regulations in effect and applicable to onions that have been repacked or regraded.

The committee may prescribe rules and regulations, subject to approval by the Secretary, whereby any or all onions inspected shall be identified by appropriate seals, stamps, or tags affixed to the containers by the handler. In areas where warehouse or lot inspections are used compliance problems under a marketing order program can be more difficult than in other areas where all lots are inspected at the time of loading. Also, in areas where truck movement is relatively important, compliance can be a problem. Both of these situations apply to the production area.

The marking requirement could be used if it was found that uninspected lots were being substituted for inspected warehouse lots, or if trucks were moving out of the production area with uninspected onions when check stations are not being operated. Therefore, it is concluded that the provision for identifying shipments or containers by marking or labeling under appropriate rules and regulations recommended by the committee and approved by the Secretary may be necessary and incidental to successful operation of the proposed order, and should be included therein.

The committee with the approval of the Secretary should be authorized to determine the length of time an inspection certificate is valid insofar as the requirements of the proposed order are concerned. Such requirement is appropriate and necessary especially with respect to floor lot or platform inspections which might be administratively desirable to accommodate handlers and truckers. It would not be practical and feasible for the committee to rely upon inspection certificates which are not reasonably current.

South Texas onions are marketed soon after harvest and they are perishable. If held for unreasonable lengths of time they would deteriorate to the point where they would not meet regulations in effect at the time of shipment and would no longer conform to the quality shown on the inspection certificate.

Copies of inspection certificates issued pursuant to the requirements of the proposed order should be supplied to the committee promptly so it can discharge its administrative responsibilities under the program.

The committee should be authorized to recommend, and the Secretary to issue regulations requiring that onions transported by motor vehicle shall be accompanied by a copy of the inspection certificate issued thereon or by other approved evidence of inspection. These requirements may include the surrender of such documents to such authority or agency as designated by the Secretary upon committee recommendation. The committee is authorized under the proposed order to administer its terms and provisions and this procedure enables the committee to enforce regulations in connection with the movement of onions passing through compliance check stations which may be set up along the production area boundary. Since a sizable percentage of onions produced in the production area move by truck such authority is necessary to effectuate the other provisions of the proposed order.

(j) The committee should have authority, with the approval of the Secretary, to require that handlers submit to it such reports and information as are needed to perform its functions. It is difficult to anticipate every type of report, or kind of information, which the committee may need in administering the program, but it should have the authority, subject to the approval of the Secretary, to request reports and information if needed, of the type set forth in the proposed order. The standards to be followed by the committee in requesting handlers to furnish reports should follow principles included in the rules incorporated in § 1033.80 of the proposed order and such reports should be those necessary for operation of the committee in carrying out its responsibilities under the order. Reports furnished to the committee should be submitted in such manner and at such times as the committee, with approval of the Secretary, may designate. Such reporting procedures should accord with the need and requirements of the committee which are essential to administration of the order because changing conditions may warrant changes in the forms and methods of reporting. The right to approve, and also to modify, change, or rescind, any requests by the committee for information in order to protect handlers from unreasonable requests for reports is retained by the Secretary.

Since it is possible that a question may arise with respect to compliance with the proposed order, each handler should maintain complete records of his handling and disposition of onions for a period of not less than two years subsequent to the termination of each crop year.

In order to determine handlers' compliance with the proposed order and regulations issued thereunder, the committee with approval of the Secretary should be authorized to prescribe, through rules and regulations, the type records and documents which shall be maintained by each handler with respect to each sale of onions. Such authorization should include authority for requiring proof or evidence of sale for each lot of onions sold, including the date of sale, the name of the buyer, the quantity, price, grade and size, the buyer's confirmation and record of payment, and other pertinent information which may be required by the committee. This information should be available for inspection by an authorized agent of the committee or the Secretary.

Any or all reports and records submitted for committee use by handlers shall remain under appropriate protective classification and be disclosed to none other than persons authorized by the Secretary. Such reports would become part of the committee's and the Secretary's records. Any reported information released to the industry should be on a composite basis, and no such release of information should disclose either the identity of the handlers or their operations.

(k) Except as provided in the proposed order, no handler should be permitted to handle onions, the handling of which is prohibited by the proposed order or pursuant to regulations issued under the proposed order. If the program is to be effective, no handler should be permitted to evade its provisions since such action on the part of one handler, although possibly of small impact on the industry measured by the proportion of onions handled by him, such action would, in any appreciable aggregate, tend to impair operation of the program and otherwise render it ineffective.

(l) The provisions of §§ 1033.82 through 1033.92, as published in the FEDERAL REGISTER of May 25, 1960 (25 F.R. 4597), and as hereinafter set forth, are common to marketing agreements and orders now operating. Also, the provisions of §§ 1033.93 through 1033.95, as hereinafter set forth, are included in other marketing agreements now operating. Each of these sections sets forth certain rights, obligations, privileges, or procedures which are necessary and appropriate for the effective operation of the proposed order. These provisions are incidental to, and not inconsistent with, sections 8c (6) and (7) of the Act, and are necessary to effectuate the other provisions of the proposed order and to effectuate the declared policy of the Act. The substance of such provisions, therefore, should be included in the proposed order.

General findings. Upon the basis of evidence introduced in the hearing and the record thereof, it is found that:

(1) The marketing order hereinafter set forth, and all of the terms and provisions thereof, will tend to effectuate the declared policy of the Act with respect to onions produced in the production area, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish as prices to the producers thereof parity prices and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the Act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such onions above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such onions as will be in the public interest;

(2) The marketing order authorizes regulation of the handling of onions grown in the production area in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a proposed marketing order upon which a hearing has been held;

(3) The marketing order is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the Act; and the issuance of several marketing orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the Act;

(4) The marketing order prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of onions grown in the production area; and

(5) All handling of onions as defined in the marketing order is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce.

Recommended marketing agreement and order. The following marketing agreement and order are recommended as to the detailed means by which the aforesaid conclusions may be carried out:

DEFINITIONS

§ 1033.1 Secretary.

"Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may be hereafter delegated, to act in his stead.

§ 1033.2 Act.

"Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

§ 1033.3 Person.

"Person" means an individual, partnership, corporation, association or any other business unit.

§ 1033.4 Production area.

"Production area" means the counties of Val Verde, Kinney, Uvalde, Medina, Wilson, Karnes, Goliad, Victoria, Calhoun, Maverick, Zavala, Frio, Atascosa, Dimmit, La Salle, McMullen, Live Oak, Bee, Refugio, Webb, Duval, Jim Wells, San Patricio, Nueces, Zapata, Jim Hogg, Brooks, Kleberg, Kenedy, Starr, De Witt, Aransas, Hidalgo, Willacy, and Cameron, in the State of Texas.

§ 1033.5 Onions.

"Onions" means all varieties of Allium cepa commonly known as onions grown within the production area and marketed dry.

§ 1033.6 Handler.

"Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of onions owned by another person) who handles onions or causes onions to be handled.

§ 1033.7 Handle.

"Handle" or "ship" means to package, sell, transport, or in any way to place onions in the current of the commerce between the production area and any point outside thereof. Such term shall not include the transportation, sale, or delivery of onions to a person in the production area who is a registered handler.

§ 1033.8 Registered handler.

"Registered handler" means any person with adequate facilities within the production area for preparing onions for commercial market, who customarily does so, and who is so recorded by the committee, or any person who has access to such facilities within the production area, and has recorded with the committee his ability and willingness to assume customary obligations of preparing onions for commercial market.

§ 1033.9 Producer.

"Producer" means any person engaged in a proprietary capacity in the production of onions for market.

§ 1033.10 Grading.

"Grading" is synonymous with "preparation for market" and means the sorting or separation of onions into grades, sizes, and packs for market purposes.

§ 1033.11 Grade and size.

"Grade" means any of the established grades of onions, and "size" means any of the established sizes of onions as defined and set forth in the United States Standards for Bermuda-Granex Type Onions (§§ 51.3195 to 51.3209 of this title) or any other United States Standards for onions, or amendments thereto, or modifications thereof, or variations based thereon, recommended by the committee and approved by the Secretary

§ 1033.12 Pack.

"Pack" means a quantity of onions in any type of container and which falls within specific weight limits, numerical limits, grade limits, size limits or any combination of these, recommended by the committee and approved by the Secretary.

§ 1033.13 Container.

"Container" means a box, bag, crate, hamper, basket, package, or any other receptacle used in the packaging, transportation, sale, shipment or other handling of onions.

§ 1033.14 Varieties.

"Varieties" means and includes all classifications, subdivisions, or types of

onions according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture or recommended by the committee and approved by the Secretary.

§ 1033.15 Committee.

"Committee" means the South Texas Onion Committee, established pursuant to § 1033.22.

§ 1033.16 Fiscal period.

"Fiscal period" means the annual period beginning and ending on such dates as may be approved by the Secretary pursuant to recommendations of the committee.

§ 1033.17 District.

"District" means each of the geographic divisions of the production area initially established pursuant to § 1033.24 or as reestablished pursuant to § 1033.25.

§ 1033.18 Export.

"Export" means to ship onions to any destination which is not within the 48 contiguous States, or the District of Columbia, of the United States.

COMMITTEE

§ 1033.22 Establishment and membership.

The South Texas Onion Committee, consisting of seventeen members, ten of whom shall be producers and seven of whom shall be handlers, is hereby established. For each member of the committee there shall be an alternate. Producer members and alternates shall not have a proprietary interest in or be employees of a handler organization.

§ 1033.23 Term of office.

(a) The term of office of committee members and their respective alternates shall be for two years and shall begin as of August 1 and end as of July 31. The terms shall be so determined that about one-half of the total committee membership shall terminate each year.

(b) Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during such term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 1033.24 Districts.

To determine a basis for selecting committee members, the following districts of the production area are hereby initially established:

District No. 1: (Coastal Bend) The Counties of Victoria, Calhoun, Goliad, Refugio, Bee, Live Oak, San Patricio, Aransas, Jim Wells, Nueces, Kleberg, Brooks, Kenedy, Duval, and McMullen in the State of Texas.

District No. 2: (Laredo) The Counties of Zapata, Webb, and Jim Hogg in the State of Texas.

District No. 3: (Lower Valley) The Counties of Cameron, Hidalgo, Starr, and Willacy in the State of Texas.

District No. 4: (Wilson-Karnes) The Counties of DeWitt, Wilson, Atascosa, and Karnes in the State of Texas.

District No. 5: (Winter Garden) The Counties of Val Verde, Frio, Kinney, Uvalde, Medina, Maverick, Zavala, Dimmit, and La Salle in the State of Texas.

§ 1033.25 Redistricting.

The committee may recommend, and pursuant thereto, the Secretary may approve, the reapportionment of members among districts, and the reestablishment of districts within the production area. In recommending any such changes, the committee shall give consideration to:

(a) Shifts in onion acreage within the districts and within the production area during recent years;

(b) The importance of new production in its relation to existing districts;

(c) The equitable relationship of committee membership and districts;

(d) Economies to result for producers in promoting efficient administration due to redistricting or reapportionment of members within districts; and

(e) Other relevant factors. No change in districting or in apportionment of members within districts may become effective less than 30 days prior to the date on which terms of office begin each year and no recommendations for such redistricting or reapportionment may be made less than six months prior to such date.

§ 1033.26 Selection.

The Secretary shall select members and respective alternates from districts established pursuant to § 1033.24 or § 1033.25. Initial selections shall be as follows:

District No. 1—3 producer members and alternates; 1 handler member and alternate.

District No. 2—2 producer members and alternates; 1 handler member and alternate.

District No. 3—3 producer members and alternates; 2 handler members and alternates.

District No. 4—1 handler member and alternate.

District No. 5—2 producer members and alternates; 2 handler members and alternates.

§ 1033.27 Nomination.

The Secretary may select the members of the committee and alternates from nominations which may be made in the following manner:

(a) A meeting or meetings of producers and handlers shall be held for each district to nominate members and alternates for the committee. For nominations to the initial committee, the meetings may be sponsored by the United States Department of Agriculture or by any agency or group requested to do so by such department. For nominations for succeeding members and alternates on the committee, the committee shall hold such meetings or cause them to be held prior to June 15 of each year, after the effective date of this subpart;

(b) At each such meeting at least one nominee shall be designated for each position as member and for each position as alternate member on the committee;

(c) Nominations for committee members and alternates shall be supplied to the Secretary in such manner and form as he may prescribe, not later than July 1 of each year;

(d) Only producers may participate in designating producer nominees, and only handlers may participate in naming handler nominees. In the event a person is engaged in producing or handling onions in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees;

(e) Regardless of the number of districts in which a person produces or handles onions, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for committee members and alternates. An eligible voter's privilege of casting only one vote as aforesaid shall be construed to permit a voter to cast one vote for each position to be filled in the respective district in which he elects to vote.

§ 1033.28 Failure to nominate.

If nominations are not made within the time and in the manner specified in § 1033.27, the Secretary may, without regard to nominations, select the committee members and alternates, which selection shall be on the basis of the representation provided for in §§ 1033.22 through 1033.26.

§ 1033.29 Acceptance.

Any person selected as a committee member or alternate shall qualify by filing a written acceptance within ten days after being notified of such selection.

§ 1033.30 Vacancies.

To fill committee vacancies, the Secretary may select such members or alternates from unselected nominees on the current nominee list from the district involved, or from nominations made in the manner specified in § 1033.27. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, which selection shall be made on the basis of the representation provided for in §§ 1033.24 to 1033.26.

§ 1033.31 Alternate members.

An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence or when designated to do so by the member for whom he is an alternate. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified. The committee may request the attendance of alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members.

§ 1033.32 Procedure.

(a) Eleven members of the committee shall be necessary to constitute a quorum. Nine concurring votes, or two-thirds of the votes cast, whichever is greater, shall be required to pass any motion or approve any committee action. At assembled meetings all votes shall be cast in person.

(b) The committee may meet by telephone, telegraph, or other means of communication and any vote at such a meeting shall be promptly confirmed in writing. On such occasions unanimous vote of committee members voting will be required to approve any action.

§ 1033.33 Expenses and compensation.

Committee members and alternates when acting on committee business shall be reimbursed for reasonable expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under this part. In addition they may receive compensation at a rate to be determined by the committee and approved by the Secretary, not to exceed $10 for each day, or portion thereof, spent in attending to committee business.

§ 1033.34 Powers.

The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms and provisions;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 1033.35 Duties.

It shall be, among other things, the duty of the committee:

(a) As soon as practicable after the beginning of each term of office, to meet and organize, to select a chairman and such other officers as may be necessary, to select subcommittees of committee members and alternates, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(b) To act as intermediary between the Secretary and any producer or handler;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person, and to protect the handling of committee funds through fidelity bonds for employees;

(e) To investigate from time to time and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to onions;

(f) To prepare a marketing policy;

(g) To recommend marketing regulations to the Secretary;

(h) To recommend rules and procedures for, and to make determinations in connection with, issuance of certificates of privilege;

(i) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee, and such minutes, books and records shall be subject to examination at any time by the Secretary or by his authorized agent or representative. Minutes of each committee meeting shall be reported promptly to the Secretary;

(j) At the beginning of each fiscal period, to prepare a budget of its expenses for such fiscal period, together with a report thereon;

(k) To cause the books of the committee to be audited by a competent accountant at least once each fiscal period, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part. A copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers, and a copy of each such report shall be furnished the Secretary;

(l) To consult, cooperate, and exchange information with other marketing agreement committees and other individuals or agencies in connection with all proper committee activities and objectives under this part.

EXPENSES AND ASSESSMENTS

§ 1033.40 Expenses.

The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses on the basis of a fiscal period. Each handler's share of such expenses shall be proportionate to the ratio between the total quantity of onions handled by him as the first handler thereof during a fiscal period and the quantity of onions handled by all handlers as first handlers thereof during such fiscal period.

§ 1033.41 Budget.

As soon as practicable after the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 1033.42 Assessments.

(a) The funds to cover the committee's expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who first handles onions, which are regulated under this part, shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of the committee's expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee's recommendations and other available information. Such rates may be applied to specified containers used in the production area.

(c) At any time during, or subsequent to, a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all onions which were regulated under this part and which were handled by the first handlers thereof during such fiscal period.

(d) The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

§ 1033.43 Accounting.

(a) Assessments collected in excess of expenses incurred shall be accounted for in accordance with one of the following:

(1) Excess funds not retained in a reserve, as provided in subparagraph (2) of this paragraph shall be refunded proportionately to the persons from whom they were collected.

(2) The committee, with the approval of the Secretary, may carry over excess funds into subsequent fiscal periods as reserves: *Provided*, That funds already in reserves do not equal approximately one fiscal period's expenses. Such reserve funds may be used (i) to defray expenses during any fiscal period prior to the time assessment income is sufficient to cover such expenses, (ii) to cover deficits incurred during any fiscal period when assessment income is less than expenses, (iii) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative, (iv) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate. To the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided for in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to the committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in the committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

(d) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in ef-

fect and if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

RESEARCH AND DEVELOPMENT

§ 1033.48 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of onions. The expenses of such projects shall be paid from funds collected pursuant to § 1033.42.

REGULATIONS

§ 1033.50 Marketing policy.

(a) At the beginning of each season, and as the Secretary may require, the committee shall prepare a marketing policy. Such policy shall indicate the data on onion supplies and demand on which the committee bases its judgments and recommendations. It shall indicate also the kind or types of regulations contemplated during the ensuing season, and, to the extent practical, shall include recommendations for specific regulations. Notice of such marketing policy shall be given to producers, handlers, and other interested parties by bulletins, newspapers, or other appropriate media, and copies thereof shall be submitted to the Secretary and shall be available generally.

(b) Marketing policy statements relating to recommendations for regulations shall give appropriate consideration to onion supplies for the season, with special consideration to:

(1) Estimates of total supplies, including grade, size, and quality thereof, in the production area;

(2) Estimates of supplies in the competing areas;

(3) Market prices by grades, sizes, containers, and packs;

(4) Estimates of supplies of competing commodities;

(5) Anticipated marketing problems;

(6) Level and trend of consumer income; and

(7) Other relevant factors.

§ 1033.51 Recommendations for regulations.

Upon complying with the requirements of § 1033.50 the committee may recommend regulations to the Secretary whenever it finds that such regulations as are provided for in this subpart will tend to effectuate the declared policy of the act.

§ 1033.52 Issuance of regulations.

(a) The Secretary shall limit the handling of onions by regulations specified in this section whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulations would tend to effectuate the declared policy of the act.

(b) Such regulations may:

(1) Limit in any or all portions of the production area the handling of particular grades, sizes, qualities or packs, or any combination thereof, of any or all varieties of onions during any period;

(2) Limit the handling of particular grades, sizes, qualities, or packs of onions differently for different varieties, for different containers, for different portions of the production area, or any combination of the foregoing, during any period;

(3) Limit the handling of onions by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity; or

(4) Fix the size, capacity, weight, dimensions, or pack of the container or containers which may be used in the packaging, transportation, sale, preparation for market, shipment, or other handling of onions.

(c) Regulations issued hereunder may be amended, modified, suspended, or terminated whenever it is determined:

(1) That such action is warranted upon recommendation of the committee or other available information;

(2) That such action is essential to provide relief from inspection, assessment, or regulations under paragraph (b) of this section for minimum quantities less than customary commercial transactions; or

(3) That regulations issued hereunder no longer tend to effectuate the declared policy of the act.

§ 1033.53 Handling for special purposes.

Regulations in effect pursuant to §§ 1033.42, 1033.52, or 1033.60 may be modified, suspended, or terminated to facilitate handling of onions for:

(a) Relief or charity;

(b) Experimental purposes;

(c) Export; and

(d) Other purposes which may be recommended by the committee and approved by the Secretary.

§ 1033.54 Safeguards.

The committee, with the approval of the Secretary, may establish through rules such requirements as may be necessary to establish that shipments made pursuant to § 1033.53 were handled and used for the purpose stated.

§ 1033.55 Notification of regulation.

The Secretary shall promptly notify the committee of regulations issued or of any modification, suspension, or termination thereof. The committee shall give reasonable notice thereof to handlers.

INSPECTION

§ 1033.60 Inspection and certification.

(a) Whenever the handling of onions is regulated pursuant to § 1033.52, or at other times when recommended by the committee and approved by the Secretary, no handlers shall handle onions unless they are inspected by an authorized representative of the Federal or Federal-State Inspection Service and are covered by a valid inspection certificate, except when relieved from such requirements pursuant to § 1033.52(c) or § 1033.54, or paragraph (b) of this section.

(b) Regrading, resorting, or repacking any lot of onions shall invalidate any prior inspection certificate insofar as the requirements of this section are concerned. No handler shall handle onions after they have been regraded, resorted, or repacked unless such onions are inspected by an authorized representative of the Federal or Federal-State Inspection Service. Such inspection requirements on regraded, resorted, or repacked onions may be modified, suspended, or terminated upon recommendation by the committee and approval of the Secretary.

(c) Upon recommendation of the committee and approval by the Secretary, any or all onions so inspected and certified shall be identified by appropriate seals, stamps, or tags to be affixed to the containers by the handler under the direction and supervision of a Federal or Federal-State Inspector or the Committee. Master containers may bear the identification instead of the individual containers within said master container.

(d) At any time this marketing order is inoperative, compulsory inspection is not required.

(e) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(f) When onions are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the Inspection Service.

(g) The committee may recommend and the Secretary may require that no handler shall transport or cause the transportation of onions by motor vehicle or by other means unless such shipment is accompanied by a copy of the inspection certificate issued thereon, or other document authorized by the committee to indicate that such inspection has been performed. Such certificate or document shall be surrendered to such authority as may be designated.

REPORTS

§ 1033.80 Reports.

Upon request of the committee, made with the approval of the Secretary, each handler shall furnish to the committee, in such manner or form and at such time as it may prescribe, such reports and other information as may be necessary for the committee to perform its duties under this part.

(a) Such reports may include, but are not necessarily limited to, the following: (1) The quantities of onions received by a handler; (2) the quantities disposed of by him segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such onions; and (4) identification of the inspection certificates relating to the onions which were handled pursuant to § 1033.52 or § 1033.53, or both.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers is authorized, subject to the prohibition of disclosure of individual handlers' identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records and documents on onions received and onions disposed of by him as may be necessary to verify reports he submits to the committee pursuant to this section.

COMPLIANCE

§ 1033.81 Compliance.

Except as provided in this subpart, no handler shall handle onions, the handling of which has been prohibited by the Secretary in accordance with provisions of this subpart, or the rules and regulations thereunder, and no handler shall handle onions except in conformity to the provisions of this subpart.

MISCELLANEOUS PROVISIONS

§ 1033.82 Right of the Secretary.

The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 1033.83 Effective time.

The provisions of this subpart, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ 1033.84 Termination.

(a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary shall terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers who, during a representative period, have been engaged in the production of onions for market: *Provided*, That such majority has, during such representative period, produced for market more than fifty percent of the volume of such onions produced for market.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 1033.85 Proceeding after termination.

(a) Upon the termination of the provisions of this subpart the then functioning members of the committee shall continue as joint trustees for the purpose of settling the affairs of the committee by liquidating all of the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such persons full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 1033.86 Effect of termination or amendments.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulation issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 1033.87 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 1033.88 Agents.

The Secretary may, by designation in writing, name any person, including any officer or employee of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 1033.89 Derogation.

Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 1033.90 Personal liability.

No member or alternate of the committee nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, agent, or employee, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 1033.91 Separability.

If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 1033.92 Amendments.

Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

§ 1033.93 Counterparts.

This agreement may be executed in multiple counterparts and when one counterpart is signed by the Secretary all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.[1]

§ 1033.94 Additional parties.

After the effective date hereof, any handler who has not previously executed this agreement may become a party hereto if a counterpart hereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.[1]

§ 1033.95 Order with marketing agreement.

Each signatory handler favors and approves the issuance of an order by the Secretary regulating the handling of onions in the same manner as is provided for in this agreement; and each signatory handler hereby requests the Secretary to issue, pursuant to the act such an order.[1]

Copies of this notice of hearing may be procured from the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D.C., or may be there inspected.

Dated: December 5, 1960.

ROY W. LENNARTSON,
Deputy Administrator,
Marketing Services.

[F.R. Doc. 60-11443; Filed, Dec. 8, 1960; 8:49 a.m.]

[1] Applicable only to the proposed marketing agreement.

FEDERAL AVIATION AGENCY

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-NY-112]

FEDERAL AIRWAYS AND CONTROL AREAS

Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to §§ 600.123, 600.157, 600.166, 600.239, 600.276, 601.157, 601.166, 601.239, and 601.276 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration the following proposed airspace actions:

1. Alteration of the segment of VOR Federal airway No. 123 which presently extends from Baltimore, Md., via the intersection of the Baltimore VORTAC 035° and the New Castle, Del., VORTAC 257° True radials; New Castle VORTAC; Woodstown, N.J., VOR; intersection of the Pottstown, Pa., VOR 104° and the Robbinsville, N.J., VOR 239° True radials; thence to the Robbinsville VOR. It is proposed to redesignate this segment of Victor 123 from the Baltimore VORTAC via the intersection of the Baltimore VORTAC 035° and the New Castle VORTAC 260° True radials; New Castle VORTAC; thence direct to the Robbinsville VOR.

2. Alteration of the segment of VOR Federal airway No. 157 which presently extends from Richmond, Va., to Washington, D.C. It is proposed to extend Victor 157 and associated control areas from the Washington VOR via the Baltimore VORTAC; intersection of the Baltimore VORTAC 035° and the New Castle VORTAC 260° True radials; New Castle VORTAC; Robbinsville VOR; intersection of the Robbinsville VOR 097° and the Idlewild, N.Y., VORTAC 212° True radials; thence to the Idlewild VORTAC.

3. Alteration of the segment of VOR Federal airway No. 166, which presently extends from the Westminster, Md., VOR to the Norris, Pa., Intersection (intersection of the Westminster VOR 060° and the Lancaster, Pa., VOR 198° True radials). It is proposed to realign and extend this segment of Victor 166 and its associated control areas from the Westminster VOR direct to the New Castle VORTAC.

4. Revocation of the segment of Victor 166 which presently extends from the New Castle VORTAC to the Colts Neck, N.J., VOR.

5. Alteration of the segment of VOR Federal airway No. 239 which presently extends from the Woodstown VOR to the intersection of the West Chester, Pa., VORTAC 120° True radial and the Philadelphia, Pa., International Airport ILS localizer 256° True course. It is proposed to redesignate this segment of Victor 239 and its associated control areas from the Woodstown VOR direct to the New Castle VOR where it would terminate.

6. Alteration of the terminating segment of VOR Federal airway No. 276 which presently extends from the Yardley, Pa., VOR to the intersection of the Yardley VOR 098° True radial and the Coyle, N.J., VOR direct radial to the Idlewild VORTAC. It is proposed to realign and extend this segment of Victor 276 and its associated control areas from the Yardley VOR via the Robbinsville VOR; to the intersection of the Robbinsville VOR 097° and the Coyle VOR 058° True radials, at which point it would terminate.

These proposed airway alterations would provide a revised route structure and would simplify route selection for flight planning purposes. In addition, these alterations would facilitate air traffic management of the high volume of air traffic operating between the Washington and New York terminals by providing better airway alignment and continuity.

The control areas associated with Victor 123 are so designated that they would automatically conform to the modified airway. Accordingly, no amendment relating to such control areas would be necessary.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 5, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11424; Filed, Dec. 8, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-KC-97]

CONTROL AREAS AND CONTROL ZONES

Alteration of Control Area Extension and Control Zone

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to §§ 601.1026 and 601.2051 of the regulations of the Administrator, the substance of which is stated below.

The Grand Island, Nebr., control area extension (§ 601.1026) is presently designated from the Grand Island, Nebr., radio range station extending within 5 miles either side of the north course of the Grand Island radio range, to a point 20 miles north of the radio range station and within 5 miles either side of the 180° True and 360° True radials of the Grand Island VOR extending from the VOR to points 25 miles north and south.

The Grand Island, Nebr., control zone is presently designated within a 5-mile radius of the Grand Island Airport and within 2 miles either side of the north course of Grand Island radio range extending 10 miles from the range station.

The Federal Aviation Agency is considering altering the control area extension and control zone as follows:

1. Revoke the portion of the control area extension north of Grand Island based on the north course of the radio range. This portion of the control area extension would no longer be required as the L/MF radio range instrument approach procedure is being cancelled.

2. Revoke the portion of the control area extension south of Grand Island based on the 180° True radial of the Grand Island VOR. This portion of the control area extension would no longer be required for the protection of aircraft as the VOR instrument missed approach procedure is being revised.

3. Alter the portion of the control area extension north of Grand Island based on the 360° True radial of the Grand Island VOR. It is proposed to redesignate it within 8 miles west and 5 miles east of the 360° True radial of the VOR, extending from the VOR to 17 miles north. The altered control area extension would provide protection for aircraft executing VOR instrument approach procedures to the Grand Island Airport.

4. Alter the control zone extension based on the north course of the radio range by redesignating it on the 360° True radial of the Grand Island VOR and extending it to 12 miles north of the VOR. This extension would provide protection for aircraft executing prescribed VOR instrument approach procedures at the Grand Island Airport.

If these actions are taken, the Grand Island, Nebr., control area extension would be redesignated within 8 miles west and 5 miles east of the 360° True radial of the Grand Island, Nebr., VOR control zone by redesignating it within a 5-mile radius of Tucson Municipal Airport (latitude 32°07'05" N., longitude 110°56'35" W.), bounded on the northeast by a line extending from latitude 32°11'16" N., longitude 110°57'58" W., to latitude 32°05'45" N., longitude 110° 51'40" W. It is also proposed to designate a control zone within a 5-mile radius of Davis-Monthan Air Force Base (latitude 32°10'00". N., longitude 110° 53'00" W.) and within a 1-mile radius of Downtown Tucson Airport (latitude 32°11'10" N., longitude 110°56'55" W.), bounded on the southwest by a line extending from latitude 32° 11' 16" N., longitude 110°57'58" W., to latitude 32°05'45" N., longitude 110°51'40" W.

Operations at Tucson Municipal Airport and Davis-Monthan AFB are governed by official United States Weather Bureau observations at Tucson Municipal Airport which often results in restricting VFR operations at Davis-Monthan AFB. The Department of Air Force Weather Service provides weather observations at Davis-Monthan AFB. Therefore, it would appear that the management of air traffic in the Tucson terminal area would be facilitated by the designation of a control zone at each airport. The Downtown Tucson Airport, a private airport with a small number of operations, is partially within the present Tucson control zone. Its traffic patterns are adjacent to the departure course and are underneath the northwest portion of the Davis-Monthan AFB traffic patterns. It is proposed to include the Downtown Tucson Airport within the Davis-Monthan AFB control zone to provide adequate protection for aircraft operating at Downtown Tucson Airport and those operations at the airbase during weather conditions of less than VFR minimums. Aircraft executing the prescribed instrument approach procedures at Tucson Municipal Airport or Davis-Monthan AFB would be afforded adequate protection by the 5-mile radius zones at these airports. Therefore, it is proposed to revoke the southeast extension to the Tucson control zone since it would no longer serve a useful purpose.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City 10, Mo. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 5, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11421; Filed, Dec. 8, 1960; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-LA-66]

CONTROL ZONES

Modification and Designation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 and § 601.2209 of the regulations of the Administrator, the substance of which is stated below.

The Tucson, Ariz., control zone is designated within a 5-mile radius of Tucson Municipal Airport, within a 5-mile radius of Davis-Monthan Air Force Base and within 2 miles either side of the 130° True radial of the Davis-Monthan AFB TACAN extending from the TACAN to a point 10 miles southeast. The Federal Aviation Agency has under consideration modification of the Tucson

extending from the VOR to 17 miles north. The Grand Island, Nebr., control zone would be redesignated within a 5-mile radius of the Grand Island Airport (latitude 40°58'04" N., longitude 98°18'51" W.), and within 2 miles either side of the 360° True radial of the Grand Island VOR, extending from the 5-mile radius zone to 12 miles north of the VOR.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City 10, Mo. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 2, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11422; Filed, Dec. 8, 1960; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-NY-108]

CONTROL ZONES

Alteration

Pursuant to the authority delegated to me by the Adminstrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2269 of the regulations of the Administrator, the substance of which is stated below.

The Fort Dix, N.J., control zone is presently designated within a 7-mile radius of the McGuire AFB and within 5 miles either side of the southwest course of the McGuire AFB radio range extending from the radio range to a point 10 miles southwest, excluding the portions which lie within the geographic limits of the Fort Dix Restricted Area (R-25) at all times and all altitudes. The portions of this control zone which lie within the Wrightstown, N.J. (McGuire AFB), Restricted Area/Military Climb Corridor (R-539) shall be used only after obtaining prior approval from the controlling agency.

The Federal Aviation Agency has under consideration the following alterations to this control zone:

1. Reduce the 7-mile radius zone to a 5-mile radius zone. This revised radius zone would provide adequate protection to aircraft arriving and departing the McGuire AFB.

2. Redesignate the extension based on the southwest course of the McGuire radio range. It is proposed to redesignate this extension within 2 miles either side of the southwest course extending from the proposed 5-mile radius zone to 12 miles southwest of the radio range. The proposed redesignation would reduce the width and increase the length of this control zone extension. The redesignated extension would provide protection to aircraft executing instrument approach procedures at the airbase utilizing the radio range.

3. Designate control zone extensions within 2 miles either side of the 051° and 213° True radials of the McGuire VOR (latitude 40°00'32" N., longitude 74°35'50" W.), extending from the 5-mile radius zone to 7 miles northeast

and 6 miles southwest of the VOR. These proposed extensions would provide protection to aircraft executing prescribed VOR instrument approach procedures at the airbase.

4. Designate a control zone extension within 2 miles either side of the 223° True radial of the McGuire TACAN (latitude 40°01'41" N., longitude 74°33'58" W.), extending from the 5-mile radius zone to 8 miles southwest of the TACAN. This extension would provide protection to aircraft executing prescribed TACAN approaches at the airbase.

If these actions are taken, the Fort Dix, N.J., control zone would be redesignated within a 5-mile radius of the McGuire AFB (latitude 40°00'55" N., longitude 74°35'25" W.), within 2 miles either side of the southwest course of the McGuire AFB radio range extending from the 5-mile radius zone to 12 miles southwest of the radio range, within 2 miles either side of the 051° and the 213° True radials of the McGuire VOR extending from the 5-mile radius zone to 7 miles northeast and 6 miles southwest of the VOR, and within 2 miles either side of the 223° True radial of the McGuire TACAN extending from the 5-mile radius zone to 8 miles southwest of the TACAN, excluding the portions which would coincide with the Fort Dix Restricted Area (R-25). The portions of this control zone which would coincide with the Wrightstown, N.J., (McGuire AFB) Restricted Area/Military Climb Corridor (R-539) would be used only after obtaining prior approval from the appropriate authority.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 5, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11423; Filed, Dec. 8, 1960; 8:46 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 1]

[Docket No. 13842; FCC 60-1427]

ANNUAL FINANCIAL REPORT FORM

Order Extending Time for Filing Comments and Reply Comments

In the Matter of amendment of F.C.C. Form 324, Annual Financial Report (Including Associated Data) for Networks and Licensees of Broadcast Stations, Docket No. 13842.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 30th day of November 1960;

The Commission has before it for consideration the request of the National Association of Broadcasters (NAB) filed November 23, 1960, for an extension of time from December 9, 1960, to February 1, 1961, in which to file comments in the above-entitled rule-making proceeding.

The NAB urges that the additional time is required to bring the matter to the attention of as many individual licensees as possible, thereby making possible assessment of the practical effects of the proposal on a wide variety of broadcasting stations.

We are persuaded that the requested extension of time will contribute to the filing of more thorough and helpful replies and would be, therefore, in the public interest.

Accordingly, it is ordered, That the request of the National Association of Broadcasters for an extension of time is granted, and that the time for filing comments in this proceeding is extended from December 9, 1960, to February 1, 1961. The time for filing reply comments is, herewith, also extended from December 23, 1960, to February 15, 1961.

Released: December 2, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-11460; Filed, Dec. 8, 1960; 8:51 a.m.]

[47 CFR Part 3]

[Docket No. 13858; FCC 60-1424]

TABLE OF ASSIGNMENTS

Television Broadcast Stations

In the matter of amendment of § 3.606 *Table of assignments,* Television Broadcast Stations (Syracuse, Rochester, Elmira, Binghamton, and Corning, New York and Williamsport, Pennsylvania), Docket No. 13858 (RM-22), (RM-16, 43, 122, 136, 137).

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission has for some time recognized the desirability of a third VHF television assignment for Syracuse, New York.[1] Channel 9 has been available for allocation within this general area since it was deleted from Elmira, New York, by Report and Order dated March 1, 1957 (15 R.R. 1515).

3. A petition for rule making concerning television channel assignments in the Syracuse area was filed April 18, 1958, by Daniel W. Casey, Sr., Robert J. Conan, T. Frank Dolan, Jr., and Richard N. Groves, a group of business and professional men from Syracuse (hereinafter referred to as the Syracuse Group). That petition requested that Channel 9 be allocated to Syracuse. The proposal also involves removing Channel 8 from Syracuse and assigning it to Rochester with removal of Channel 5 from Rochester and its assignment to Syracuse. It was requested that the licensees of the stations affected be issued appropriate show cause orders.

4. Until recently no useful purpose would have been served by such rule making because the Canadian Government was in the process of revising its domestic television standards and its consent to the change could not be obtained. Recent negotiations with that Government, however, give hope that Canadian approval may be forthcoming.[2] We, therefore, deem it in the public interest to initiate rule making on the proposal without further delay. Accordingly, the petition of April 18, 1958, filed by the Syracuse Group is granted and it is proposed to amend the Table of Assignments, Television Broadcast Stations (§ 3.606 of the rules) in the following respects:

City	Present allocations	Proposed allocations
Syracuse, N.Y.	3−, 8, *43+	3−, 5−, 9−, *43+
Rochester, N.Y.	5−, 10+, 15−, *21, 27+	8, 10+, 15−, *21, 27+

5. As to petitioner's suggestion that consolidated consideration be given this proposal along with the requests for Channel 13 for Rochester, we have, for the reasons stated in a notice of proposed rule making released this date and dealing with those proposals for Rochester, decided against such consolidation (FCC 60-1425).

6. Opposition to the petition was filed by Transcontinent Television Corporation, licensee of WROC-TV, Channel 5, Rochester, on May 26, 1958. Transcontinent argues that WROC-TV once before changed its facilities from Channel 6 to Channel 5 and it would be unfair that they be required to change again.

[1] The Syracuse 1950 urbanized population was 265,286. It is generally ranked about 50th in population of the metropolitan areas.

[2] Such approval may contain certain limitations.

The Syracuse Group replies that whatever equities may exist in such a situation do not belong to Transcontinent because it purchased the station from General Dynamics in 1956, two years after the change from Channel 6 to Channel 5. Transcontinent also contends that on January 22, 1958, WPTZ, Channel 5, Lake Placid, New York, applied for modification of its outstanding construction permit to move its transmitter to a new site (File No. BMPCT-4667). It alleges that the grant of Channel 5 to Syracuse would effectively preclude the requested change in facilities. The Syracuse Group replies that WPTZ operates with only 20 kilowatts effective radiated power and that it is not clear that their coverage cannot be increased in other ways without moving the transmitter. Transcontinent states that it will not consent to modification of its license and would demand a hearing. Finally, Transcontinent alleged certain losses in service area if it were required to change to Channel 8, and that it would be forced to incur minimum expenses of approximately $324,000 in making such a change. The Syracuse Group replied that such estimate did not consider a possible sale of its Channel 5 facilities to whoever becomes licensee of Channel 5 proposed for Syracuse. It also offers a point by point refutation of Transcontinent's allegations. The parties will have ample opportunity to discuss such matters in their comments herein and to have them considered in detail. Moreover, if the proposal is finally adopted, show cause orders would be issued at that time and the licensee on Channel 5 in Rochester, as well as the licensee of Channel 8 in Syracuse, would have the right to a section 316 hearing.

7. American Broadcasting Company (ABC) filed a petition for rule making on April 11, 1958 wherein it proposed that we delete Channel 8 from Syracuse and add Channels 9 and 11. The proposal would also substitute Channel 8 for 11 at Kingston, Ontario and add Channel 11 to Cornwall, Ontario. Since the filing of this petition Canada has assigned Channel 8 to Cornwall where it is presently operating. The ABC proposal conflicts with such assignment when it proposes Channel 8 for Kingston, only 100 miles from Cornwall. Pursuant to the Canada-United States Television Agreement we must obtain Canada's consent to all television allocations within 250 miles of the common border. The ABC proposal involves changes in Canadian domestic assignments to which that Government will not assent. Its petition is, therefore, denied.

8. In its opposition to the ABC and Syracuse Group proposals, Mohawk Valley Television, Inc., renewed its proposal earlier filed in Docket 11751 (Albany-Schenectady-Troy) wherein it requested that Channel 7 be added to Utica, New York, by adding Channel 9 to Syracuse and deleting Channel 8 and by substituting Channel 8 for Channel 7 in Carthage-Watertown, New York. Since the filing of that pleading, however, Channel 8 has been utilized in Cornwall, Ontario, about 90 miles from its proposed use at Carthage-Watertown. Canada not consenting to the changes involved, the Mohawk Valley petition is denied.

9. Several other petitions for rule making have been filed which would allocate Channel 9 to some area other than Syracuse. They are as follows:

(a) Petition filed January 21, 1958, by Veterans Broadcasting Company, Inc., permittee of WVET-TV, Rochester, which requests allocation of Channels 9 and 13 to Elmira. On February 18, 1960 the same petitioner requested a third VHF channel for Rochester, which we have construed as an abandonment of its request for Channel 13 at Elmira. (See notice of proposed rule making, FCC 60-1425, dealing with Rochester and released this date, wherein we dismissed that portion of the petition). In the Elmira Deintermixture case (Docket No. 11758, FCC 57-179, 15 RR 1515), we spelled out in detail our reasons for deleting Channel 9 from Elmira, prominent among them being its character as a UHF area. Our considerations were based upon our determination of the public interest and what is best for the entire area. In our judgment nothing brought to our attention warrants reopening the entire television situation in that area to consider restoring Channel 9 to Elmira. On the contrary, such action would simply add considerable and unnecessary delay to this already long delayed proceeding. Veterans petition is, therefore, denied.[3]

(b) A petition of the Joint Council on Educational Television (JCET) on September 2, 1959 would have us assign Channel 9 to Corning-Elmira and reserve it for noncommercial educational use. It alleges that the hilly terrain in the general area of Corning-Elmira makes VHF highly preferable to UHF for wide educational television coverage. Northeastern Pennsylvania Broadcasting, Inc., Scranton Broadcasters, Inc., and WBRE-TV, Inc., operators of UHF stations in nearby Scranton and Wilkes-Barre, Pennsylvania, filed a joint opposition to the petition noting that there are two unoccupied and unapplied-for lower frequency UHF channels in Elmira, both of which are open to applications for commercial or educational use. They point out that the technical qualities of educational service in the UHF band at Elmira would be comparable to local commercial service and that a UHF educational station would not encounter the difficulty of securing and maintaining an audience which factor has undoubtedly restricted educational television development in some VHF markets. It concludes that if there is a genuine interest in and support for educational television in Corning-Elmira, it can be satisfied without disturbing the existing pattern of allocations in that area. With this analysis we agree. ABC also filed a pleading in opposition to the request. JCET other than its allegation that a VHF allocation would be "highly preferable" makes no showing that such is the case. Moreover, the needs of Syracuse for additional commercial service could not be satisfied if Channel 9 were assigned to Corning-Elmira. For these reasons, the petition of the Joint Council on Educational Television is denied.

(c) A petition requesting allocation of Channel 9 to Willamsport, Pennsylvania, was filed July 8, 1958, by English and Spain, a partnership. Oppositions to the proposal were filed by ABC, First Broadcasting Corporation, and a joint opposition by Northeastern Pennsylvania Broadcasting, Inc., Scranton Broadcasters, Inc., WBRE-TV, Inc., WHP, Inc., and Lock Haven Broadcasting Corporation. In our Report and Order of February 26, 1957, concerning Television Allocations in Elmira, New York Area (Docket No. 11758, FCC 57-179, 15 R.R. 1515) we found that Elmira "is in the midst of a predominantly UHF area from the standpoint of operating stations and channel assignments" (para. 8). Reference therein was made to UHF Channel 36 in Williamsport, 60 miles from Elmira. We also noted that "the only VHF station which puts a Grade B or stronger signal into Elmira is Station WNBF-TV on Channel 12, Binghamton, New York, 45 miles from Elmira," with all the other VHF stations which serve "parts of the area" being located 75 to 119 miles from Elmira (para. 8). Elsewhere in our Report and Order we called attention to the high percentage of UHF receivers in the Elmira area (para. 9), to the general public acceptance of UHF in the Wilkes-Barre, Scranton, Elmira area (para. 10), and to the necessity of utilizing UHF channels in the "southern New York and North central Pennsylvania" area if the public is to have competitive television service in that region (para. 16).

(1) It is argued, and we believe persuasively so, that Williamsport is in that same UHF area and that like considerations apply. In the joint opposition it is noted that within 100 miles of Williamsport are 10 UHF stations on the air, 7 UHF stations which are authorized but not on the air, and 10 UHF channel allocations for which grants are not outstanding. Within 75 miles of Williamsport, it points out, there are 7 operating UHF stations, 6 authorized UHF stations and 5 UHF allocations. On the other hand, it shows that there is not a single operating or authorized VHF station or VHF channel allocation within 75 miles of Williamsport. The nearest VHF stations to Williamsport are at Binghamton, Altoona, and Lancaster which are 76, 90 and 99 miles respectively from Williamsport. There are no other VHF channels within 118 miles of Williamsport. It is contended, moreover, that 10 operating UHF stations provide a Grade B or stronger signal to large areas which would fall within the Grade B contour of a Channel 9 station at Williamsport, that Grade B contours of 4 operating UHF stations reach Williamsport, but

[3] Oppositions filed February 21, 1958 by Federal Broadcasting System, Inc., licensee of radio station WSAY, Rochester, and March 24, 1958 by Central New York Broadcasting Corporation, licensee of WSYR-TV, Syracuse and WSYE-TV, Elmira, substantially argue for the position we have adopted.

that no VHF Grade B contour comes any closer than 20 miles to Williamsport.[4] It also quotes from a Nielsen Market Coverage report to show that at least 90 percent of all television homes in Lycoming County, where Williamsport is located, are equipped with UHF receivers. The joint opposition cites many figures, which it is not necessary to repeat here, to show how the contours of a Channel 9 station at Williamsport would overlap the contours of existing UHF stations.

(2) We entertain no doubts as to the UHF character of the Williamsport area. And as we have pointed out on many occasions, establishment of a VHF station in a predominantly UHF area generally seriously affects, if not cripples, the ability of the UHF stations in the area to compete effectively and provide service (see e.g. Channel Assignment to Moses Lake, Washington, 14 R.R. 1531, 1532(b) (1956); Channel Assignment to St. Joseph, Tennessee, 15 R.R. 1646, 1648–49 (1957)). Allocation of a VHF channel to Williamsport would contravene rather than effectuate our policy of improving the opportunities for effective competition among a greater number of stations in order that resultant service to the public may be enhanced. (See also our determination that rule making was not warranted to assign a VHF channel to the predominantly UHF area of Clearfield, Pennsylvania (15 R.R. 1649 (1957)). Moreover, as the parties note, use of Channel 9 in Williamsport would foreclose its use to provide a needed service to the Syracuse area. Finally, although the parties disagree on the matter, there is at least some serious question whether a principal city signal, as required by § 3.685 of our rules, could be provided to Williamsport from available sites. For the reasons stated we conclude the public interest would not be served by such an assignment and that rule making thereon is not warranted. The petition of English and Spain is denied.

10. Two final petitions remain for consideration. These are a petition filed by Veterans Broadcasting Company on August 24, 1959, seeking Channel 7 for Binghamton, New York, and one filed June 26, 1959, by Binghamton Press Company, Inc. seeking Channel 4 or 9 or both for Binghamton. None of the proposals comply with the mileage separation requirements of our rules (§ 3.610). We are considering the problem of "short separations" on a broader basis in our rule making in Docket No. 13340. Action on individual cases is being deferred until we have had an opportunity to fully evaluate the entire matter. The Veterans proposal seeking Channel 7 for Binghamton and the Binghamton Press Company proposal insofar as it seeks Channel 4 for Binghamton will not be acted upon at this time and consideration thereof is hereby deferred. However, the portion of the Binghamton Press Company proposal which alternatively seeks Channel 9 for Binghamton is inconsistent with the proposal granted herein for rule making to utilize Channel 9 in Syracuse and is denied. We have no hesitancy in taking such action at this time. No reasonable alternatives to Channel 9 are available in the Syracuse area. As noted, at least two other frequencies would be available to Binghamton if we decide to permit such short separations and if that area meets whatever criteria, if any, might be finally adopted. With these alternatives available to Binghamton under those conditions, that area is not prejudiced and we conclude it would not be in the public interest to delay action in the Syracuse area until all such problems can be solved.

11. For the reasons stated: *It is ordered*, That the petition of April 18, 1958, filed by the Syracuse Group seeking rule making on the proposal noted in paragraph 4 herein is granted and the following petitions are denied:

(a) The portion of the Syracuse Group's petition of April 18, 1958, which requests show cause orders directed to the licensees of Channel 5 in Rochester and Channel 8 in Syracuse is denied in view of our determination that appropriate show cause orders can await conclusion of the rule making.

(b) American Broadcasting Company petition filed April 11, 1958.

(c) Mohawk Valley Television, Inc. petition filed May 12, 1958.

(d) Veterans Broadcasting Company, Inc., petition filed January 21, 1958, insofar as it requests Channel 9 for Elmira.

NOTE: We have this day in a companion proceeding dismissed the remaining portion of this petition which requested Channel 13 for Elmira.

(e) Joint Council on Educational Television petition filed September 2, 1959.

(f) English and Spain petition filed July 8, 1958.

(g) Binghamton Press Company, Inc., petition of June 26, 1959, insofar as it requests Channel 9 for Binghamton.

NOTE: Action on its request for Channel 4 for Binghamton is deferred.

12. Authority for the adoption of the amendments proposed herein is contained in sections 4, 303, and 307(b) of the Communications Act of 1934, as amended.

13. Pursuant to applicable procedures set out in § 1.213 of the Commission's rules, interested persons may file comments on or before January 6, 1961, and reply comments on or before January 17, 1961. All submissions by parties to this proceeding or by persons acting in behalf of such parties must be made in written comments, reply comments or other appropriate pleadings.

14. In accordance with the provisions of § 1.54 of the rules, an original and 14 copies of all written comments and statements shall be furnished to the Commission.

Adopted: November 30, 1960.

Released: December 5, 1960.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE, *Acting Secretary.*

[F.R. Doc. 60–11461; Filed, Dec. 8, 1960; 8:51 a.m.]

[4] While some of these details may have changed in the interim since the petition was filed, the UHF character of the Williamsport area has not changed.

[47 CFR Part 3]

[Docket No. 13859; FCC 60–1425]

TABLE OF ASSIGNMENTS

Television Broadcast Stations

In the matter of amendment of § 3.606, *Table of Assignments*, Television Broadcast Stations (Rochester, New York), Docket No. 13859, RM–71, RM–98, RM–164.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission has before it for consideration petitions for rule making looking toward amendment of the Table of Assignments, Television Broadcast Stations (§ 3.606 of the rules) to add Channel 13 to Rochester, New York, filed by the following:

a. Star Broadcasting Company, Inc. (Star), permittee of WCBF–TV, Channel 15, Rochester. Its petition of October 29, 1957 also requested that it be ordered to show cause why its authorization for Channel 15 in Rochester should not be modified to specify operation on Channel 13;

b. Joint Council on Educational Television—November 3, 1958—seeks Channel 13 for Rochester and its reservation for noncommercial educational use;

c. Genesee Valley Television Co., Inc.—March 3, 1959;

d. Veterans Broadcasting Co., Inc. (Veterans), licensee (on a share-time basis with WHEC–TV) of WVET–TV, Channel 10, Rochester. Its petition of February 18, 1960 specifically requests rule making to put a third VHF channel into Rochester. This same petitioner had, on January 21, 1958, petitioned for rule making to allocate Channels 9 and 13 to Elmira, New York. In this later petition it now states that Channel 13 for Rochester "would accomplish the desired purpose." Interpreting these two petitions together, it is reasonable to conclude that this petitioner has indicated its preference for Channel 13 at Rochester and has abandoned its earlier request for Channel 13 at Elmira. Moreover, Channel 13 is the only VHF channel which it appears feasible to add to Rochester in compliance with existing Rules. The portion of Veterans petition of January 21, 1958 which sought rule making to add Channel 13 to Elmira is, therefore, dismissed.

As to Channel 13 in Rochester, Veterans proposes a share-time arrangement with Rochester Area Educational Television Association whereby Veterans would use Channel 13 during the hours it does not operate on Channel 10 under its existing share-time arrangement.

3. American Broadcasting-Paramount Theatres, Inc. (ABC) on March 15, 1960, filed a statement supporting a third VHF channel for Rochester but indicating that it must be a fully competitive facility. It therefore opposes Veterans share-time proposal.

4. ABC on May 23, 1958, filed a pleading entitled "Petition to Allocate Channel 13 to Rochester, New York, and to Consolidate with Syracuse, New York, Proposals." It proposed that, because both Rochester and Syracuse are important markets, certain proposals for these two cities should be submitted to Canada as a "package". It recognized, however, that Channel 13 can be added to Rochester regardless of the action taken on the Syracuse proposals and vice versa.

5. No domestic changes are required in order to permit the use of Channel 13 at Rochester. Nor are any short spacings involved. We are this date also issuing a notice of proposed rule making directed to the Syracuse area. The proposals for Rochester and Syracuse, however, are not interdependent and we believe they can be handled more expeditiously in separate proceedings. ABC's request for consolidation is denied.

6. Star filed a statement with reference to Veterans' 1960 petition, pointing out the apparent abandonment of the earlier request for Channel 13 at Elmira.

7. Federal Broadcasting System, Inc., licensee of radio Station WSAY, Rochester, supports Star's request for rule making but opposes its request for show cause in its opposition of November 20, 1957. Veterans, simultaneously with its petition for rule making to assign Channels 9 and 13 to Elmira, filed an opposition to the portion of Star's petition requesting a show cause.

8. The only opposition to the rule making proposal itself was filed November 19, 1957, by Van Curler Broadcasting Corp., permittee of WTRI, Albany, which pointed out that Star had earlier requested the same relief in Docket No. 11751 and that the Commission's Report and Order therein deferred action on Star's proposal (Report and Order of September 9, 1957, FCC 57–961). At that time Star also had pending a petition for reconsideration of that Report and Order and Van Curler was apparently concerned lest the proposed assignment of Channel 13 to Albany be in some way affected. Obviously, mere deferment of action on the proposal at that date is no reason for its denial now. We specifically stated in our Report and Order of September 9, 1957 in Docket No. 11751: "* * * it is our view that the site specified by Van Curler for Channel 13 in Albany will not have any substantial bearing on the possibility of the use of this channel in Rochester."

9. Rochester, a city with a 1950 population of 332,448, a metropolitan area of 487,632, and rated as the 35th metropolitan area in the United States, has only two operating television stations—WROC–TV, Channel 5, and WVET–TV, Channel 10 (on a share-time basis with WHEC–TV). The Commission, for some time, has recognized the desirability of a third VHF television outlet for Rochester. Recent negotiations with representatives of the Canadian government give some hope that Canadian approval of the allocation proposed herein might be obtained, with certain limitations. In any event, negotiations have reached a point where it is desirable to secure comments on the proposed allocation.

10. In view of the foregoing, it is proposed to amend § 3.606 of the Commission's rules in the following respect:

City	Present allocations	Proposed allocations
Rochester, N.Y.	5–, 10+, 15–, *21, 27+	5–, 10+, 13–, 15–, *21, 27+

11. On November 28, 1960 (Docket No. 13551) the Commission denied an application for extension of time within which to complete construction filed by Star Broadcasting Company, Inc. and pertaining to Channel 15. Its request herein that it be ordered to show cause why its authorization for Channel 15 should not be modified to specify operation on Channel 13, therefore, is moot. The petitions enumerated herein which request rule making looking toward the addition of Channel 13 to Rochester, New York, are granted.

12. Authority for the adoption of the amendment proposed herein is contained in sections 4(i), 303 and 307(b) of the Communications Act of 1934, as amended.

13. Pursuant to applicable procedures set out in § 1.213 of the Commission's rules, interested persons may file comments on or before January 6, 1961, and reply comments on or before January 17, 1961. All submissions by parties to this proceeding or by persons acting in behalf of such parties must be made in written comments, reply comments or other appropriate pleadings.

14. In accordance with the provisions of § 1.54 of the rules, an original and 14 copies of all written comments and statements shall be furnished to the Commission.

Adopted: November 30, 1960.

Released: December 5, 1960.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE, *Acting Secretary.*

[47 CFR Part 3]

[Docket No. 13860; FCC 60–1426]

TABLE OF ASSIGNMENTS

Television Broadcast Stations

In the matter of amendment of § 3.606, *Table of Assignments*, Television Broadcast Stations (Superior, Nebraska), Docket No. 13860 (RM–199).

1. The Commission has before it for consideration a petition filed September 26, 1960, by Bi-States Company (Bi-States), licensee of Stations KHOL–TV, Kearney, Nebraska, and KHPL–TV (a satellite of KHOL–TV), Hayes Center, Nebraska, which seeks to amend § 3.606, *Table of Assignments*, Television Broadcast Stations, in the following respect:

City	Channel No.	
	Present	Proposed
Superior, Nebr.	----------	4+

2. In support of the proposal, petitioner points out that § 3.606 of the rules does not provide any VHF frequencies to the segment of southeastern Nebraska and northern Kansas in which Superior is located; that the nearest VHF allocation is approximately 40 miles from Superior; and that assignment of Channel 4+ to Superior meets the minimum spacing requirements for co-channel and adjacent channel operations. Further, in the event this amendment is adopted, Bi-States proposes to file an application for Channel 4+ at Superior, looking toward a satellite operation which would duplicate the present programs of KHOL–TV.

3. The Commission is of the view that rule making should be instituted on this proposal in order that all interested parties may submit their views and relevant data.

4. Authority for the adoption of the amendment proposed herein is contained in sections 4 (i) and (j), 303, and 307(b) of the Communications Act of 1934, as amended.

5. Pursuant to applicable procedures set out in § 1.213 of the Commission's rules, interested persons may file comments on or before January 6, 1961, and reply comments on or before January 17, 1961. In reaching its decision herein, the Commission will not be limited to consideration of comments of record, but will take into account all relevant information obtained in any manner from informed sources.

6. In accordance with the provisions of § 1.54 of the rules, an original and 14 copies of all written comments and statements shall be furnished to the Commission.

Adopted: November 30, 1960.

Released: December 5, 1960.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE, *Acting Secretary.*

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

NECTARINES GROWN IN CALIFORNIA

Order Directing That a Referendum Be Conducted; Designation of Referendum Agents To Conduct Such Referendum; and Determination of Representative Period

Pursuant to the applicable provisions of Marketing Agreement No. 124 and Order No. 37 (7 CFR Part 937), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), it is hereby directed that a referendum be conducted within the 2-month period of December 1960 and January 1961, among the growers who, during the current marketing season beginning on March 1, 1960 (which period is hereby determined to be a representative period for the purposes of such referendum), were engaged, in the State of California, in the production of nectarines for market to determine whether such growers favor the termination of the said marketing agreement and order. Oscar H. Chapin, W. B. Blackburn, and David B. Fitz, of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated as agents of the Secretary of Agriculture to perform, jointly or severally, the following functions in connection with the referendum:

(a) Conduct said referendum in the manner herein prescribed:

(1) By determining the time of commencement and termination of the period of the referendum, and by giving opportunity to each of the aforesaid growers to cast his ballot, in the manner herein authorized, relative to the aforesaid termination of the marketing agreement and order, on a copy of the appropriate ballot form. A cooperative association of such growers bona fide engaged in marketing fresh nectarines grown in California, or in rendering services for or advancing the interests of the growers of such nectarines, may vote for the growers who are members of, stockholders in, or under contract with, such cooperative association (such vote to be cast on a copy of the appropriate ballot form); and the vote of such cooperative association shall be considered as the vote of such growers.

(2) By giving public notice, as prescribed in (a)(3) hereof, (i) of the time during which the referendum will be conducted, (ii) that any ballot may be cast by mail, and (iii) that all ballots so cast must be addressed to the Western Marketing Field Office, Fruit and Vegetable Division, Room 302, 701 K Street, Sacramento 14, California, and the time prior to which such ballots must be received at such office.

(3) By giving public notice (i) by utilizing available agencies of public information (without advertising expense), including both press and radio facilities in the State of California; (ii) by mailing a notice thereof (including a copy of the appropriate ballot form) to each such cooperative association and to each grower whose name and address are known; and (iii) by such other means as said referendum agents may deem advisable.

(4) By conducting meetings of growers and arranging for balloting at the meeting places, if said referendum agents determine that voting shall be at meetings. At each such meeting, balloting shall continue until all of the growers who are present, and who desire to do so, have had an opportunity to vote. Any grower may cast his ballot at any such meeting in lieu of voting by mail.

(5) By giving ballots to growers at the meeting, and receiving any ballots when they are cast.

(6) By securing the name and address of each person casting a ballot, and inquiring into the eligibility of such person to vote in the referendum.

(7) By giving public notice of the time and place of each meeting authorized hereunder by posting a notice thereof, at least two days in advance of each such meeting, at each such meeting place, and in two or more public places within the applicable area; and, so far as may be practicable, by giving additional notice in the manner prescribed in paragraph (a)(3) hereof.

(8) By appointing any persons deemed necessary or desirable, to assist the said referendum agents in performing their duties hereunder. Each such person so appointed shall serve without compensation and may be authorized, by the said referendum agents to perform any or all of the functions set forth in paragraphs (a) (5), (6), (7), and (8) hereof (which, in the absence of such appointment of subagents, shall be performed by said referendum agents) in accordance with the requirements herein set forth; and shall forward to the Western Marketing Field Office, Fruit and Vegetable Division, Room 302, 701 K Street, Sacramento 14, California, immediately after the close of the referendum, the following:

(i) A register containing the name and address of each grower to whom a ballot form was given;

(ii) A register containing the name and address of each grower from whom an executed ballot was received;

(iii) All of the ballots received by the respective referendum agent in connection with the referendum, together with a certificate to the effect that the ballots forwarded are all of the ballots cast and which were received by the respective agent during the referendum period;

(iv) A statement showing when and where each notice of referendum posted by said agent was posted and, if the notice was mailed to growers, the mailing list showing the names and addresses to which the notice was mailed and the time of such mailing; and

(v) A detailed statement reciting the method used in giving publicity to such referendum.

(b) Upon receipt by the said Western Marketing Field Office of all ballots cast in accordance with the provisions hereof, Oscar H. Chapin, W. B. Blackburn, or David B. Fitz, shall: (i) Canvass the ballots and prepare and submit to the Secretary a detailed report covering the results of the referendum, the manner in which the referendum was conducted, the extent and kind of public notice given, and all other information pertinent to the full analysis of the referendum and its results; and (ii) forward such report, together with the ballots and other information and data, to the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C.

(c) Each referendum agent and appointees pursuant hereto shall not refuse to accept a ballot submitted or cast; but should they, or any of them, deem that a ballot should be challenged for any reason, or if such ballot is challenged by any other person, said agent or appointee shall endorse above his signature, on the back of said ballot, a statement that such ballot was challenged, by whom challenged, and the reasons therefor; and the number of such challenged ballots shall be stated when they are forwarded as provided herein.

(d) All ballots shall be treated as confidential.

The Director of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, is hereby authorized to prescribe additional instructions, not inconsistent with the provisions hereof, to govern the procedure to be followed by the said referendum agents and appointees in conducting said referendum.

Copies of the text of the aforesaid marketing agreement and order, and of this order, may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D.C., at the offices of the Field Representatives, Fruit and Vegetable Division, Agricultural Marketing Service, Room 302, 701 K Street, Sacramento 14, California, or at the office of the Nectarine Administrative Committee, 1515 Ninth Street, Sacramento 10, California.

Ballots to be cast in the referendum, and other necessary forms and instructions, may be obtained at said offices of the Field Representatives, or from any referendum agent or any appointee hereunder.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 5, 1960.

CLARENCE L. MILLER,
Assistant Secretary.

Federal Maritime Board

[Docket No. 925]

GULF/FRENCH ATLANTIC HAMBURG RANGE FREIGHT CONFERENCE

Unapproved Agreements; Notice of Investigation and of Hearing

On November 21, 1960, the Federal Maritime Board entered the following order:

It appearing from information before the Board that agreements fixing uniform rates for the movement of Cotton Seed Hull Shavings Pulp and Cotton Linters from U.S. Gulf ports to various Continental European ports may have been made during the period from 1955 to the present time by the Gulf/French Atlantic Hamburg Range Freight Conference (Agreement No. 140–1, as amended) or its members, namely:

Aktiebolaget Svenska Amerika Linien (Swedish American Line)
Armement Deppe, S.A.
Bloomfield Steamship Company
Compagnie Generale Transatlantique (French Line)
Hamburg Amerika Linie
Lykes Bros. Steamship Co., Inc. (Southern States Line)
Norddeutscher Lloyd
N.V. Nederlandsch-Amerikaansche Stoomvaart-Maatschappij "Holland-Amerika Lijn" (Ozean/Stinnes Lines)—Joint Service of—
Ozean Linie G.m.b.H.
Hugo Stinnes O.H.
Polskie Linie Oceaniczne (Polish Ocean Lines) (Admitted July 10, 1958—withdrew July 1, 1960)
Ropner Line (withdrew June 6, 1956)
Sir R. Ropner & Company, Ltd.
The Pool Shipping Company, Ltd.
The Ropner Shipping Co., Ltd.
States Marine Line, Inc., Global Bulk Transport Corporation, formerly joint service of—
States Marine Corp.
States Marine Corp. of Delaware
Waterman Steamship Corporation
(Wilhelmsen Line) Joint Service of—
Wilhelmsens Dampskibsaktieselskab
A/S Den Norske Africa—og Australielinie
A/S Tonsberg
A/S Tankfart I
A/S Tankfart IV
A/S Tankfart V
A/S Tankfart VI

It further appearing that the member lines of the Gulf/French Atlantic Hamburg Range Conference by agreement, understanding or cooperative working arrangement, did not file such rates with the Federal Maritime Board, as apparently required by the terms of approved Agreement No. 140–1, as amended, and

It further appearing that the member lines of the Gulf/French Atlantic Hamburg Range Conference by agreement, understanding or cooperative working arrangement, did not charge the precise rates on such items set forth in the tariffs on file with the Federal Maritime Board, as apparently required by the terms of approved Agreement No. 140–1, as amended, and

It further appearing that the foregoing practices may be new agreements, or modifications of approved Agreement No. 140–1, as amended and may have been carried out without approval by the Board in violation of approved Agreement No. 140–1, as amended, and section 15 of the Shipping Act, 1916, as amended (46 U.S.C. 814),

Now therefore, it is ordered, That an investigation is hereby instituted to determine whether the persons named above have violated the provisions of approved Agreement No. 140–1, as amended, and have carried out before approval under said section 15 any agreement requiring such approval in violation of said section 15; and

It is further ordered, That all persons named above are made respondents in this proceeding which is to be set for hearing before an examiner from the Hearing Examiner's Office at a time and place to be announced, and

It is further ordered, That a copy of this order be served on each of the respondents and published in the FEDERAL REGISTER.

Dated: December 5, 1960.

By order of the Federal Maritime Board.

THOMAS LISI,
Secretary.

[F.R. Doc. 60–11450; Filed, Dec. 8, 1960; 8:49 a.m.]

[Docket No. 924]

GULF/UNITED KINGDOM CONFERENCE

Unapproved Agreement; Notice of Investigation and of Hearing

On November 21, 1960, the Federal Martime Board entered the following order:

It appearing from information before the Board that agreement fixing uniform rates for the movement of cotton linters and lumber from U.S. Gulf ports to United Kingdom ports may have been made during the period from 1955 to the present time, by the Gulf/United Kingdom Conference (Agreement No. 161, as amended) and its members, namely:

Bloomfield Steamship Co.
Cunard Steam-Ship Company Limited
Harrison Line
Holland American Line
Lykes Bros. Steamship Co., Inc.
States Marine Line, Inc., Global Bulk Transport Corporation, formerly joint service of—
States Marine Corp.
States Marine Corp. of Delaware
Waterman Steamship Corporation, and

It further appearing that the member lines of the Gulf/United Kingdom Conference by agreement, understanding, or cooperative working arrangement, did not file such rates with the Federal Maritime Board, as apparently required by the terms of approved Agreement No. 161, as amended, and

It further appearing that the member lines of the Gulf/United Kingdom Conference by agreement, understanding, or cooperative working arrangement, did not charge the precise rates on such items set forth in the tariffs on file with the Federal Maritime Board, as apparently required by the terms of approved Agreement No. 161, as amended, and

It further appearing that the foregoing practices may be new agreements, or modifications of approved Agreement No. 161, as amended, and may have been carried out without approval by the Board in violation of approved Agreement No. 161, as amended, and section 15 of the Shipping Act, 1916, as amended,

Now therefore, it is ordered, That an investigation is hereby instituted to determine whether the persons named above have violated the provisions of approved Agreement No. 161, as amended, and have carried out before approval under said section 15, any agreement, or modification of any agreement, requiring such approval, in violation of said section 15; and

It is further ordered, That all persons named above are made respondents in this proceeding which is to be set for hearing before an examiner from the Hearing Examiner's Office at a time and place to be announced;

It is further ordered, That a copy of this order be served on each of the respondents and published in the FEDERAL REGISTER.

Pursuant to the above order, notice is hereby given that the hearing herein ordered will be held before an examiner of the Board's Office of Hearing Examiners' at a date and place to be de-

termined and announced by the Chief Examiner. The hearing will be conducted in accordance with the Board's rules of practice and procedure, and an initial decision will be issued by the examiner.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies), having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Board promptly and file petitions for leave to intervene in accordance with Rule 5(n) (46 CFR 201.74) of said rules.

Dated: December 5, 1960.

By order of the Federal Maritime Board.

THOMAS LISI,
Secretary.

[Docket No. 923]

ISBRANDTSEN COMPANY, INC.

Bulk Rice Tariff No. 1; Notice of Supplemental Order

On December 5, 1960, the Federal Maritime Board entered the following order supplementing its previous order in this proceeding, dated November 21, 1960, notice of which appeared in the FEDERAL REGISTER of November 29, 1960 (25 F.R. 12212):

It appearing that on November 21, 1960, the Board ordered instituted an investigation of the lawfulness of a tariff filed by Isbrandtsen Company, Inc., setting forth the rates, charges, rules and regulations and practices applicable to the movement of rice, not polished or coated, in bulk, from Oakland, California, to San Juan, Puerto Rico;

It further appearing that Isbrandtsen Company, Inc. was not named as a respondent in said Board order of November 21, 1960;

Now therefore, it is ordered, That Isbrandtsen Company, Inc. be made a respondent in Docket No. 923.

It is further ordered, That this order be published in the FEDERAL REGISTER.

Dated: December 6, 1960.

By order of the Federal Maritime Board.

THOMAS LISI,
Secretary.

[Docket No. 901]

PACIFIC-ATLANTIC GUAM TRADE

General Increases in Rates; Notice of Supplemental Orders

The Federal Maritime Board, on November 21, 1960, entered the following Eleventh, Twelfth and Thirteenth Supplemental Orders to the original order in this proceeding, dated March 21, 1960, which appeared in the FEDERAL REGISTER of April 1, 1960 (25 F.R. 2780):

Eleventh supplemental order. It appearing that by Sixth Supplemental Order, the Board ordered suspended in full to and including January 26, 1961, American President Lines, Ltd., Pacific/Guam Freight Tariff No. 6, F.M.B.-F. No. 11; and

It further appearing that pursuant to Sixth Supplemental Order, the Board ordered that the investigation and hearing instituted should carry over the running of the suspension date; and

It further appearing that said Order provides that "neither the tariffs hereby suspended nor any sought to be altered thereby may be changed until this investigation and suspension proceeding have been disposed of, or until the period of suspension has expired, unless otherwise authorized by the Board"; and

It further appearing that on November 16, 1960, American President Lines, Ltd., filed Application No. 6 seeking authority to publish, post and file, on not less than one day's notice, a consecutively numbered revised page to F.M.B.-F. No. 9 for the purpose of correcting a typographical error in Item 1800 therein by amending the application of rates from one applying on a W/M (Weight and Measurement) Basis to one applying on a Weight Basis; and

It further appearing that the Board having found good cause therefor has on November 21, 1960, granted special permission to publish such change on not less than one day's notice under Special Permission No. 3888;

Now therefore, it is ordered, That the Sixth Supplemental Order herein be modified to the extent necessary to permit the publication and filing of the changes covered by such Special Permission No. 3888; and

It is further ordered, That any rates, charges, rules, regulations and practices set forth in the schedules filed pursuant to such special permission shall be subject to the investigation and hearing herein to the same extent as the rates, charges, rules, regulations and practices under schedules cancelled thereby, and that the special permission granted hereby shall be without prejudice to the Board's determination as to the lawfulness of the rates established pursuant hereto; and

It is further ordered, That copies of this order shall be filed with said tariff schedules in the Office of Regulations of the Federal Maritime Board; and

It is further ordered, That a copy of this order shall be forthwith served upon all respondents and protestants herein; and that this order be published in the FEDERAL REGISTER.

Twelfth supplemental order. It appearing that by Sixth Supplemental Order, the Board ordered suspended in full to and including January 26, 1961, Pacific Far East Line, Inc., Pacific/Guam Freight Tariff No. 3, F.M.B.-F. No. 3; and

It further appearing that said order provides that "neither the tariffs hereby suspended nor any sought to be altered thereby may be changed until this investigation and suspension proceeding have been disposed of, or until the period of suspension has expired, unless otherwise authorized by the Board"; and

It further appearing that on November 8, 1960, Pacific Far East Line, Inc., filed application seeking authority to publish, post and file on not less than thirty days' notice, consecutively numbered revised pages to F.M.B.-F. No. 2 naming reduced rates on "Talking Machines and Accessories" and "Petroleum and Petroleum Products"; and

It further appearing that the Board having found good cause therefor has on November 21, 1960, granted special permission to publish such changes on not less than 30 days' notice under Special Permission No. 3886;

Now therefore, it is ordered, That the Sixth Supplemental Order herein be modified to the extent necessary to permit the publication and filing of the changes covered by such Special Permission No. 3886; and

It is further ordered, That any rates, charges, rules, regulations and practices set forth in the schedules filed pursuant to such special permission shall be subject to the investigation and hearing herein to the same extent as the rates, charges, rules, regulations and practices under schedules cancelled thereby and that the special permission granted hereby shall be without prejudice to the Board's determination as to the lawfulness of the rates established pursuant hereto; and

It is further ordered, That copies of the order shall be filed with said tariff schedules in the Office of Regulations of the Federal Maritime Board; and

It is further ordered, That a copy of this order shall be forthwith served upon all respondents and protestants herein; and that this order be published in the FEDERAL REGISTER.

Thirteenth supplemental order. It appearing that by Sixth Supplemental Order, the Board ordered suspended in full to and including January 26, 1961, American President Lines, Ltd., Pacific/Guam Freight Tariff No. 6., F.M.B.-F. No. 11; and

It further appearing that said order provides that "neither the tariffs hereby suspended nor any sought to be altered thereby may be changed until this investigation and suspension proceeding has been disposed of, or until the period of suspension has expired, unless otherwise authorized by the Board"; and

It further appearing that on November 16, 1960, American President Lines, Ltd., filed application seeking authority to publish, post and file on not less than thirty days' notice, consecutively numbered revised pages to F.M.B.-F. No. 9 naming reduced rates on "Talking Machines and Accessories" and "Petroleum and Petroleum Products"; and

It further appearing that the Board having found good cause therefor has on November 21, 1960, granted special permission to publish such changes on not less than 30 days' notice under Special Permission No. 3891;

Now therefore, it is ordered, That the Sixth Supplemental Order herein be modified to the extent necessary to permit the publication and filing of the changes covered by such Special Permission No. 3891; and

It is further ordered, That any rates, charges, rules, regulations and practices set forth in the schedules filed pursuant to such special permission shall be subject to the investigation and hearing herein to the same extent as the rates, charges, rules, regulations and practices under schedules cancelled thereby and that the special permission granted hereby shall be without prejudice to the Board's determination as to the lawfulness of the rates established pursuant hereto; and

It is further ordered, That copies of the order shall be filed with said tariff schedules in the Office of Regulations of the Federal Maritime Board; and

It is further ordered, That a copy of this order shall be forthwith served upon all respondents and protestants herein; and that this order be published in the FEDERAL REGISTER.

Dated: December 5, 1960.

By order of the Federal Maritime Board.

THOMAS LISI,
Secretary.

[F.R. Doc. 60-11453; Filed, Dec. 8, 1960; 8:50 a.m.]

ISBRANDTSEN STEAMSHIP CO., INC.

Notice of Agreement Filed for Approval

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 46 U.S.C. 814):

Agreement No. 8555 is an arrangement for the sale of the outstanding stock of Isbrandtsen Steamship Company, Inc., by Isbrandtsen Company, Inc., to American Export Lines, Inc., and an arrangement for the sale of the ships of Isbrandtsen Company, Inc., to Isbrandtsen Steamship Company, Inc. The latter arrangement provides that in consideration of the sale of 14 vessels by Isbrandtsen Company, Inc., to Isbrandtsen Steamship Company, Inc., the seller agrees with the buyer that from and after the closing in connection with the last vessel sold and purchased under the "Ship Contract", that seller will not, without prior written consent of the buyer and American Export, directly or indirectly own, manage, operate or join in, or control or participate in the ownership, management, operation or control of any steamship business which, in any manner, directly or indirectly, competes with the buyer in the operation of the common carrier steamship business presently operated by the seller, i.e., the Eastbound 'Round-the-World Service, and services between North Atlantic and Great Lakes ports of the United States and Continental European and United Kingdom ports; provided, however, that the seller and its present stockholders shall retain all rights to use the name "Isbrandtsen" other than in the operation of common carrier steamship services.

Interested parties may inspect this agreement and obtain copies thereof at the Office of Regulations, Federal Maritime Board, Washington, D.C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to this agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: December 7, 1960.

By order of the Federal Maritime Board.

THOMAS LISI,
Secretary.

Maritime Administration

[Trade Route No. 33]

GREAT LAKES/CARIBBEAN

Notice of Tentative Conclusions and Determinations Regarding Essentiality and United States Flag Service Requirements

Notice is hereby given that on November 29, 1960, the Maritime Administrator, acting pursuant to section 211 of the Merchant Marine Act, 1936, as amended, found and determined the essentiality and United States flag service requirements of United States foreign Trade Route No. 33 and in accordance with the Maritime Administrator's action of July 27, 1956 ordered that the following tentative conclusions and determinations reached by the Maritime Administrator with respect to said trade route be published in the FEDERAL REGISTER:

1. Trade Route No. 33, as described below, is reaffirmed as an essential foreign Trade Route of the United States:

Trade Route No. 33—Great Lakes/Caribbean

Between United States ports on the Great Lakes and St. Lawrence River, intermediate Canadian Great Lakes ports and other Canadian ports along the general track of the route, and foreign ports in the Gulf of Mexico, Caribbean Sea and the Guianas (Mexico to southern border of French Guiana, all islands of the Caribbean and West Indies and other nearby islands including Barbados, Trinidad and Tobago).

2. Requirements for United States flag operation on Trade Route No. 33 during the open season of navigation on the Great Lakes are one to two sailings per month serving primarily ports on the North Coast of South America. These sailing requirements may be met in conjunction with other essential services.

Any person, firm or corporation having any interest in the foregoing who desires to offer comments and views or request a hearing thereon, should submit same in writing in triplicate to the Chief, Office of Government Aid, Maritime Administration, Department of Commerce, Washington 25, D.C. by close of business on December 28, 1960. In the event a hearing is requested, a statement must be included giving the reasons therefor. Any hearing thereby afforded will be before an Examiner on an informal basis only. The Maritime Administrator will consider these comments and views and take such action with respect thereto as in his discretion he deems warranted.

Dated: December 6, 1960.

By order of the Maritime Administrator.

THOMAS LISI,
Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

CERTIFICATES AUTHORIZING EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM RATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 524 (24 F.R. 9274) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.24, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Alabama Textile Products Corp., Troy, Ala.; effective 12-1-60 to 11-30-61 (men's dress shirts).

The Andala Co., Andalusia, Ala.; effective 12-1-60 to 11-30-61 (men's work shirts and pants).

Blue Bell, Inc., 450 East Barnes Street, Bushnell, Ill.; effective 12-9-60 to 12-8-61 (men's cotton twill pants).

Blue Bell, Inc., Luray, Va.; effective 12-1-60 to 11-30-61 (men's and boys' dungarees).

Blue Buckle Overall Co., 1415 Kemper Street, Lynchburg, Va.; effective 12-7-60 to 12-6-61 (men's boys', women's, girls' and children's work and sport clothing).

Byrds Manufacturing Corp., Byrdstown, Tenn.; effective 11-29-60 to 11-28-61 (ladies' sportswear, men's and boys' dress shirts).

to 11-27-61 (overalls and jackets).

Cameron Dress Co., 147 North Cameron Street, Harrisburg, Pa.; effective 11-28-60 to 11-27-61 (ladies' dresses).

Cowden Manufacturing Co., 112 Hamilton Avenue, Lancaster, Ky.; effective 11-28-60 to 11-27-61 (overalls and jackets).

Danville Manufacturing Inc., 328 Ferry Street, Danville, Pa.; effective 12-1-60 to 11-30-61 (women's sleepwear).

Dushore Lingerie Co., Inc., Cherry Street, Dushore, Pa.; effective 11-25-60 to 11-24-61 (women's sleepwear).

Florence Manufacturing Co., Inc., 1104 Chase Avenue, Florence, S.C.; effective 11-29-60 to 11-28-61 (ladies' dresses).

The Jay Garment Co., Portland, Ind.; effective 12-1-60 to 11-30-61 (men's cotton work clothing).

Jo Ann Dress Manufacturing, Lovell Park, Ebensburg, Pa.; effective 11-25-60 to 11-24-61 (women's dresses).

Jonny Jax, Inc., Somerset County, Holsopple, Pa.; effective 11-23-60 to 11-22-61 (children's jackets and snowsuits, men's jackets).

McAdoo Manufacturing Co., Inc., South Hancock Street, McAdoo, Pa.; effective 12-6-60 to 12-5-61 (men's and infants' polo shirts).

Manhattan Shirt Co., Tripp Street, Americus, Ga.; effective 11-27-60 to 11-26-61 (men's dress shirts).

Manhattan Shirt Co., Poplar Hill Avenue and Calvert Street, 416 East Main Street, Salisbury, Md.; effective 12-1-60 to 11-30-61 (men's and ladies' dress shirts).

Manhattan Shirt Co., U.S. By-Pass No. 29 and No. 70, Lexington, N.C.; effective 12-1-60 to 11-30-61 (men's and ladies' sport shirts).

Manhattan Shirt Co., 717 Capouse Avenue, Scranton, Pa.; effective 12-1-60 to 11-30-61 (men's sport shirts).

Manhattan Shirt Co., Leeds Ave., Charleston Heights, S.C.; effective 12-1-60 to 11-30-61 (men's dress and sport shirts).

Primo Pants Co., Versailles, Mo.; effective 12-1-60 to 11-30-61 (men's pants).

Renovo Shirt Co., Inc., Mena, Ark.; effective 12-1-60 to 11-30-61 (men's and ladies' shirts).

Shane Manufacturing Co., 1500 West Franklin Street, Evansville, Ind.; effective 12-9-60 to 12-8-61 (pants, shirts, and jackets).

States Nitewear Manufacturing Co., Inc., Healy and Bates Streets, New Bedford, Mass.; effective 12-1-60 to 11-30-61 (ladies' woven cotton nightgowns and pajamas).

Sun Garment Co., 2401 Hyde Parkway, St. Joseph, Mo.; effective 12-1-60 to 11-30-61 (shirts).

Sunnyvale of Pennsylvania, Inc., 3 South Webster Avenue, Scranton, Pa.; effective 11-23-60 to 11-22-61 (women's dresses).

Troy Textiles, Inc., Troy, Ala.; effective 11-24-60 to 11-23-61 (men's sport shirts).

The following learner certificate was issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Sorbeau Juvenile Manufacturing Co., 821 Central Avenue, Dubuque, Iowa; effective 12-1-60 to 11-30-61; 10 learners (infants' layette garments).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Sustan Garments, Inc., Winnsboro, La.; effective 11-23-60 to 5-22-61; 25 learners (men's and boys' cotton trousers).

Sweet-Orr & Co., Inc., Dawsonville, Ga.; effective 11-24-60 to 5-23-61; 50 learners (boys' uniform shirts).

Glove Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.60 to 522.66, as amended).

The Boss Manufacturing Co., 319 West Main Cross Street, Findlay, Ohio; effective 12-6-60 to 12-5-61; 10 learners for normal labor turnover purposes (work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.40 to 522.44, as amended).

Francis-Louise Full Fashion Mills, Inc., West Connelly Street, Valdese, N.C.; effective 11-28-60 to 11-27-61; 5 percent of the total number of factory production workers for normal labor turnover purposes (full-fashioned and seamless).

Selma Hosiery Co., Dillon, S.C.; effective 12-2-60 to 6-1-61; 50 learners for plant expansion purposes (seamless).

Shoe Industry Learner Regulations.

Lazar of Santa Fe, 228 Don Caspar, Santa Fe, N. Mex.; effective 12-1-60 to 11-30-61; 10 learners for normal labor turnover purposes (moccasins—hand-laced and beaded).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.11, as amended).

The following learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed, are as indicated.

Ariadne, Inc., Km. 2.8 Road No. 20, Guaynabo, P.R.; effective 10-20-60 to 4-19-61; 20 learners for plant expansion purposes in the occupations of: (1) sewing machine operators for a learning period of 480 hours at the rates of 60 cents an hour for the first 240 hours and 70 cents an hour for the remaining 240 hours; (2) hand cutting of applique on embroidery panels for a learning period of 240 hours at the rates of 60 cents an hour for the first 160 hours and 70 cents an hour for the remaining 80 hours. (Applique embroideries on women's and children's underwear and women's blouses and neckwear.)

Beatrice Needle Craft, Inc., 60 Comercio Street, Mayaguez, P.R.; effective 10-24-60 to 10-23-61; 10 learners for normal labor turnover purposes in the occupation of sewing machine operators for a learning period of 480 hours at the rates of 70 cents an hour for the first 320 hours and 78 cents an hour for the remaining 160 hours (brassieres).

Caribe General Electric, Inc., Palmer, P.R.; effective 10-31-60 to 10-30-61; 53 learners for normal labor turnover purposes in the occupations of: (1) molders, power press operators, calibrators and welders, each for a learning period of 480 hours at the rates of 80 cents an hour for the first 240 hours and 90 cents an hour for the remaining 240 hours; (2) assemblers, plastic finishers, platers, stampers and metal finishers, each for a learning period of 240 hours at the rate of 80 cents an hour (electrical products).

Central Products Co., Mayaguez, P.R.; effective 10-17-60 to 2-28-61; 46 learners for plant expansion purposes in the occupations of press operators, pull-in operators, quality control (gage readers), and final inspection, each for a learning period of 480 hours at the rates of 75 cents an hour for the first 240 hours and 88 cents an hour for the remaining 240 hours (measuring tape).

Santiago R. Palmer, San German, P.R.; effective 10-31-60 to 4-30-61; 8 learners for plant expansion purposes in the occupation of sewing machine operators for a learning period of 480 hours at the rates of 60 cents an hour for the first 240 hours and 70 cents an hour for the remaining 240 hours (lingerie).

Santiago R. Palmer, San German, P.R.; effective 10-31-60 to 10-30-61; 12 learners for normal labor turnover purposes in the occupation of sewing machine operators for a learning period of 480 hours at the rates of 60 cents an hour for the first 240 hours and 70 cents an hour for the remaining 240 hours (lingerie).

Sea Isle Manufacturing Corp., Fajardo, P.R.; effective 10-12-60 to 4-11-61; 20 learners for plant expansion purposes in the occupation of sewing machine operators for a learning period of 480 hours at the rates of 60 cents an hour for the first 240 hours and 70 cents an hour for the remaining 240 hours (panties).

Sprague Caribe Co., Pampanos Ward, Road No. 2, Km. 22.1, Ponce, P.R.; effective 10-17-60 to 4-16-61; 39 learners for plant expansion purposes in the occupations of molder, loader, plastic finisher, solderers, testers, impregnators, rolling machine operators, pin and preform machine operators, each for a learning period of 480 hours at the rates of 72 cents an hour for the first 240 hours and 81 cents an hour for the remaining 240 hours (paper molded tubular capacitors).

Sprague Caribe Co., Pampanos Ward, Road No. 2 Km. 22.1, Ponce, P.R.; effective 10-17-60 to 10-16-61; 11 learners for normal labor turnover purposes in the occupations of molder, loader, plastic finisher, solderers, testers, impregnators, rolling machine operators, pin and preform machine operators, each for a learning period of 480 hours at the rates of 72 cents an hour for the first 240 hours and 81 cents an hour for the remaining 240 hours (paper molded tubular capacitors).

Superior Knitting Corp., Aguas Buenas, P.R.; effective 10-17-60 to 4-10-61; 14 learners for normal labor turnover purposes in the occupation of machine knitting (hand fashioning and full-fashioned knitting machine operators) for a learning period of 480 hours at the rates of 75 cents an hour for the first 240 hours and 88 cents an hour for the remaining 240 hours (replacement certificate) (sweaters).

Superior Knitting Corp., Aguas Buenas, P.R.; effective 10-17-60 to 3-8-61; 10 learners for plant expansion purposes in the occupation of machine knitting (hand fashioning and full-fashioned knitting machine operators) for a learning period of 480 hours at the rates of 75 cents an hour for the first 240 hours and 88 cents an hour for the remaining 240 hours (replacement certificate) (sweaters).

Surtex Glove Corp., Coamo, P.R.; effective 10-23-60 to 1-31-61; 24 learners for plant expansion purposes in the occupation of sewing machine operators for a learning period of 480 hours at the rates of 57 cents an hour for the first 240 hours and 66 cents an hour for the remaining 240 hours (replacement certificate) (machine sewing of gloves).

Tobacco Products Manufacturing Corp. of Puerto Rico, Caguas, P.R.; effective 10-24-60 to 4-23-61; 25 learners for plant expansion purposes in the occupation of sorters for a learning period of 240 hours at the rate of 60 cents an hour (process tobacco).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C. this 1st day of December 1960.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

BUREAU OF THE BUDGET

[Circular No. A-52]

PROCEDURES FOR REPORTS ON FEDERAL PROPERTY IN HAWAII

NOVEMBER 14, 1960.

To the heads of executive departments and establishments:

1. *Purpose.* Section 5(e) of the Act of March 18, 1959, providing for the admission of the State of Hawaii into the Union, Public Law 86-3 (73 Stat. 4, 5), requires that, within five years from August 21, 1959, the date Hawaii was admitted into the Union, each Federal Agency having control over any land or property retained by the United States pursuant to sections 5(c) and 5(d) of the Statehood Act shall report to the President the facts regarding its continued need for such land or property. It further provides that, if the President determines that the land or property is no longer needed by the United States, it shall be conveyed to the State of Hawaii.

This Circular prescribes procedures to assure that the reports to be submitted by Federal agencies pursuant to section 5 of the Hawaii Statehood Act shall be prepared and required actions shall be effected in accordance with uniform policies and procedures, as set forth below, and coordinated within the executive branch.

2. *Authority.* These procedures are prescribed under sections 1(q) and 1(r) of Executive Order No. 10530, as amended, and in accordance with section 40 of the Hawaii Omnibus Act, Public Law 86-624 (74 Stat. 411, 422). See Attachment A[1] for pertinent excerpts from law and Executive orders.

3. *Definitions.* Pending further determination of the scope of section 5(e) of the Hawaii Statehood Act, the phrase "land or property" shall be defined, for purposes of all parts of this Circular except paragraphs 7, 13, and 14, to be limited to:

a. All lands or other properties, including personal properties, to which the Territory of Hawaii and its subdivisions held title and which, as of August 21, 1959, were set aside for the use of the United States by one of the methods set forth in section 5(c) of the Statehood Act, i.e., by Act of Congress, Executive order, or proclamation of the President or the Governor of Hawaii;

b. All lands or other properties, including personal properties, acquired by cession from the Republic of Hawaii under the joint resolution of annexation approved July 7, 1898, which, as of August 21, 1959, were similarly set aside;

c. All lands or other properties, including personal properties, acquired in exchange for ceded lands or other ceded properties which, as of August 21, 1959, were similarly set aside;

d. All interests, such as easements, and other vested or contingent interests of the United States, in lands, title to which was transferred or granted to the State of Hawaii or its political subdivisions under sections 5(a) and 5(b) of the Statehood Act, if such interests were similarly set aside as of August 21, 1959; and

e. All permits, licenses, or permissions from the Territory of Hawaii or any department thereof under which, immediately prior to August 21, 1959, the United States controlled any property conveyed to the State of Hawaii by section 5(b) of the Statehood Act.

4. *Referrals to Department of Justice.* Where doubt exists as to applicability of the definitions as set forth in paragraph 3 to individual properties which are considered by an agency to be no longer needed, the question shall be referred by the agency to the Assistant Attorney General, Lands Division, Department of Justice, for advice.

5. *Policy guidelines.* In evaluating the need to retain land or property, as defined in paragraph 3 of this Circular, each agency shall be guided by the general policy that the Federal Government will retain only such land or property in Hawaii as is required for the effective performance of its program responsibilities and assigned mission. Land or property generally shall not be retained when:

a. It is not being used by the controlling agency and there are no firm plans for future use;

b. The costs of operation and maintenance are substantially higher than for other suitable properties of equal or less value which are, or can be made, available to the Federal Government without direct cost;

c. It is being leased to private individuals or enterprises and there are no firm plans for future Federal use; or

d. It is being used by the Government to produce goods or services which are available from private enterprise, except when it is demonstrated clearly in each instance that it is not in the public interest to obtain such requirements from private enterprise.

Bureau of the Budget Circular No. A-2 will not be applicable in Hawaii to land or property, as defined in paragraph 3, until August 21, 1964.

6. *Property review and reporting requirements.* Each agency having any land or property, as defined in paragraph 3 of this Circular, under its control in Hawaii on August 21, 1959, shall submit the following reports in quadruplicate to the Bureau of the Budget. Should an agency not have any such land or property under its control, a negative report shall be submitted.

a. *Designation of responsible officer.* A report shall be submitted by December 15, 1960, designating the officer to be responsible for reviewing and reporting on such land or property.

b. *Report on land or property defined in paragraph 3 of this Circular.* A report in the form shown in Attachment B[2] shall be submitted by June 30, 1961, except by the Department of Defense which will report by December 31, 1961, covering specified data relating to, and reviewing the need for, land or property defined in paragraph 3 of this Circular.

(1) The report shall contain a separate statement on each tract of land or property subject to review. A tract of land or property shall consist, as nearly as possible, of all the land or property at a single installation which is subject to review. Where necessary and feasible, a tract should be subdivided to indicate the portions being put to substantially different uses or to indicate that there are differing continuing needs for portions of a tract. Copies of the set-aside actions should be submitted as exhibits where a tract or part of a tract is considered to be no longer needed by the agency.

(2) The controlling agency's report shall identify and cover any land or property subject to review which is being used by another Federal agency by permit or other means. The using agency's views regarding the continued need for such land or property shall be included in the controlling agency's report.

(3) The report shall include any land or property defined in paragraph 3 which, pursuant to the Federal Property and Administrative Services Act of 1949, has already been reported to the General Services Administration as excess or determined to be surplus but which has not yet been disposed of.

(4) In the event any land or property covered by the review has been disposed of since August 21, 1959, by transfer to another Federal agency or otherwise, except to the State of Hawaii under the provisions of section 5(e) of the Statehood Act, the agency having had control on August 21, 1959, shall include such tracts in its report, together with

[1] Attachment A filed as part of original document.

[2] Attachment B filed as part of original document.

a statement of the manner in which the land or property was disposed of.

(5) In the event that a tract of land or part of a tract of land, which is considered by an agency to be no longer needed, is interspersed with, or surrounds parcels of land which are not covered by this review because of the manner in which they were acquired, the controlling agency shall include in its report the facts regarding such parcels and a statement of its continuing need for such parcels. Easements necessary to provide access to a tract of land or part of a tract of land which is no longer needed shall also be described.

7. *Data on other land.* In order to provide an adequate basis for a determination as to the need for land or interests in land reviewed and reported on under paragraph 6b, each agency shall submit to the Bureau of the Budget a report with respect to each tract of real property and interest in real property under its control in Hawaii which is not reported on under paragraph 6b. Such report shall be submitted at the same time as the report to be made under paragraph 6b. The report shall consist of a map of each tract and interest, a statement indicating acreage and use or uses, and a statement of whether such use or uses, or any other requirement for the property, are expected to continue after August 21, 1964. A tract should consist, as nearly as possible, of all the land at a single installation which is not reported on under paragraph 6b. This information shall be furnished with respect to all real property, and all interests therein, regardless of the method of acquisition. The Bureau of the Budget may, in specific instances, require additional information.

8. *Priority reviews.* If the Governor of Hawaii submits a request to the Bureau of the Budget that a determination be made with respect to a particular tract of land or property, as defined in paragraph 3, such land or property shall be reviewed on a priority basis and a separate report submitted to the Director of the Bureau of the Budget at the earliest practicable date. The Governor of Hawaii will be advised by the Bureau of the Budget concerning the facts disclosed by such review prior to any final determination.

9. *Screening of property.* If a tract or part of a tract of land or property reviewed under paragraph 6b is no longer needed by the agency, a description of such tract or part thereof shall be furnished to the General Services Administration together with a request that necessary steps be taken to determine whether other Federal agencies have any need for such tract or part thereof. The General Services Administration will undertake the necessary screening and furnish the controlling agency with a statement regarding the needs of other agencies for such tract or part thereof. Such GSA statement shall be included in the controlling agency's report to the Director of the Bureau of the Budget. The furnishing of the aforesaid description to the GSA shall not constitute a report of excess under the Federal Property and Administrative Services Act of 1949 or have the effect of transferring control of the property described to GSA.

10. *Alternate sites.* The State of Hawaii may offer to make land available to the Federal Government for the purpose of relocating Federal installations, in order to make available for disposition to the State under this Circular the land on which the installations are now located. In the event that such offers are made regarding any tract of land or part of a tract of land covered by the review required in paragraph 6b, full details regarding such offers shall be included in the pertinent report to the Director of the Bureau of the Budget. Estimates of the appraised value or cost of the properties involved shall also be included.

11. *Subsequent reviews.* In the event that a future need is cited as the reason for retaining a tract or part of a tract of land or property reviewed under paragraph 6b, or in the event that a tract or part of a tract previously reviewed is subsequently found not to be needed, such tract or part of a tract again shall be reviewed by the controlling agency as provided in paragraph 6b at a time appropriate, but in no event later than December 31, 1963. Reports on the results of such subsequent review shall also be made to the Director of the Bureau of the Budget. If any land or property is subsequently set aside for United States use pursuant to section 5(d) of the Statehood Act, it shall be reviewed and reported on by the controlling agency not later than December 31, 1963.

12. *Conveyances to State of Hawaii.* Pursuant to the authority vested in the President by section 5(e) of the Hawaii Statehood Act and delegated to the Director of the Bureau of the Budget by section 1(q) of Executive Order No. 10530, as amended, the Director will determine whether the land or property reported on under paragraphs 6b and 11 is no longer needed by the United States. The controlling agency will be notified of the Director's determination and such conveyances to the State of Hawaii as may be required of land or property found not to be needed by the United States will be effected.

13. *Property records.* Pending further determination of the scope of section 5(e) of the Statehood Act, each agency controlling land or property in the State of Hawaii should immediately review its real property records and take such steps as may be necessary to assure that complete and accurate information is available to determine:

a. What real property in Hawaii was controlled by the agency on August 21, 1959, and the precise method by which control over such property was acquired.

b. What real property in Hawaii has been acquired subsequent to August 21, 1959, in exchange for property controlled by the agency on August 21, 1959.

c. Any dispositions of real property covered by paragraphs 11a and 11b above, subsequent to August 21, 1959.

The information should clearly indicate whether the property was ceded, whether it was property title to which was in the Territory or its subdivisions, or whether it was property acquired by the United States by lease, purchase, exchange, condemnation or other means.

14. *Suspension of disposal actions.* Until further notice, lands and other property as defined in this paragraph shall not be disposed of by the controlling agency, by transfer to another Federal agency or otherwise, except pursuant to instructions of the Director of the Bureau of the Budget. The term "lands and other property" as used in this paragraph, shall consist only of lands and interests therein in Hawaii (excluding, however, leases to the United States by other than the Territory or State of Hawaii) owned, held or used by the United States on August 21, 1959, or exchanged thereafter for other property by the United States.

15. *Communication with State of Hawaii.* Communications from Federal agencies to the State of Hawaii regarding matters within the scope of this Circular should be addressed to the Governor of Hawaii. All correspondence should include the original letter and one copy.

Inquiries to the Bureau of the Budget about this Circular should be addressed to Harold Seidman, Assistant Chief, Office of Management and Organization (code 113, ext. 413).

MAURICE H. STANS,
Director.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 60-1435]

STATEMENT OF ORGANIZATION, DELEGATIONS OF AUTHORITY, AND OTHER INFORMATION

Miscellaneous Amendments

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 30th day of November 1960;

The Commission having under consideration its Statement of Organization, Delegations of Authority, and Other Information; and

It appearing that the Commission has this day revised its rules of practice and procedure to provide informal nonhearing procedures in cease and desist and revocation proceedings in cases where respondent waives his right to a hearing; and

It further appearing that the Chief Hearing Examiner may most appropriately rule on the question of waiver and that provision for such action is made in § 1.78(c) of the revised rules; and

It further appearing that the amendments adopted herein pertain to Commission organization, and hence that compliance with the public notice, procedural, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary; and

It further appearing that the amendments adopted herein are issued pursuant to authority contained in sections 4(i), 5(d)(1), 303(r), and 312 of the Communications Act of 1934, as amended;

It is ordered, Effective December 12, 1960, that the Commission's Statement of Organization, Delegations of Authority, and Other Information is amended as set forth below.

Released: December 5, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

1. In section 0.224, paragraph (a)(4) is added and paragraph (b)(8) is amended, to read as follows:

SEC. 0.224 *Authority delegated.*

(a) • • •

(4) Termination of hearing proceedings in accordance with § 1.78(c) of the Commission's rules.

(b) • • •

(8) Petitions for acceptance of late written appearances pursuant to § 1.77 (c), and petitions for acceptance of late written statements pursuant to § 1.78(b) of the Commission's rules.

2. Section 0.231(e) is amended to read as follows:

SEC. 0.231 *Authority delegated.*

• • • • • •

(e) Those which are to be acted upon by the Chief Hearing Examiner under section 0.224.

[F.R. Doc. 60-11464; Filed, Dec. 8, 1960; 8:51 a.m.]

[FCC 60-1442]

STATEMENT OF ORGANIZATION, DELEGATIONS OF AUTHORITY, AND OTHER INFORMATION

Delegation

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 2d day of December 1960;

The Commission having under consideration the necessity for amending section 0.291 of its Statement of Organization, Delegations of Authority, and Other Information in order to implement Public Law 86-752, 86th Congress, 2d Session, which was enacted into law on September 13, 1960;

It appearing, that authority should be delegated to the Chief of the Safety and Special Radio Services Bureau consistent with the provisions of section 309(f) of the Communications Act of 1934, to grant or deny requests for temporary authorizations, but only prior to the time a petition to deny the application involved has been filed or the application has been designated for hearing; and

It further appearing, that the amendment ordered herein relates to internal Commission organization and procedure, and, therefore, that the provisions of section 4 of the Administrative Procedures Act are inapplicable; and

It further appearing, that the authority for the adoption of the amendment ordered herein is contained in sections 4(i), 5(d), and 303 of the Communications Act of 1934, as amended;

It is ordered, That effective December 12, 1960, the Commission's Statement of Organization, Delegations of Authority, and Other Information is amended as set forth below.

Released: December 6, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

A new paragraph (c) is added to section 0.291 to read:

SEC. 0.291 *Matters delegated.*

• • • • • •

(c) Consistent with the provisions of section 309(f) of the Communications Act of 1934, as amended, to grant or deny requests for temporary authorizations and to issue orders stating the reasons therefor, but only prior to the time a petition to deny the application involved has been filed or the application has been designated for hearing.

[F.R. Doc. 60-11465; Filed, Dec. 8, 1960; 8:51 a.m.]

[FCC 60-1432]

STATEMENT OF ORGANIZATION, DELEGATIONS OF AUTHORITY, AND OTHER INFORMATION

Delegation

At a session of the Federal Communications Commission held at its office in Washington, D.C., on the 30th day of November 1960:

The Commission having under consideration the necessity for amending its Statement of Organization, Delegations of Authority, and Other Information in order to implement Public Law 86-752, 86th Congress, 2d Session, which was enacted into law on September 13, 1960;

It appearing that authority should be delegated to the Chief of the Common Carrier Bureau to determine whether an application for modification constitutes a major change in facilities, and whether an amendment constitutes a major amendment; and

It further appearing that the amendment ordered herein relates to internal Commission organization and procedure, and therefore that the provisions of section 4 of the Administrative Procedure Act are inapplicable; and

It further appearing that the amendment adopted herein is issued pursuant to the authority contained in sections 4(i), 5(d), 303(r) and 309(g) of the Communications Act of 1934, as amended;

It is ordered, That, effective December 12, 1960, the Commission's Statement of Organization, Delegations of Authority, and Other Information is amended as set forth below.

Released: December 5, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

A new paragraph (h) is added to section 0.251, as follows:

SEC. 0.251 *Matters delegated.*

The Chief of the Common Carrier Bureau is delegated authority to act upon the following applications, requests, and other matters which are not in hearing status, involving the use of radio, insofar as they apply to common carrier services (except marine and aeronautical), where the estimated construction cost is less than $2,000,000.

• • • • • •

(h) To determine whether an application for modification constitutes a major change in facilities, and whether an amendment to an application constitutes a major amendment; and, if so, to so designate such change or amendment.

[Docket Nos. 13861-13862; FCC 60-1428]

ALERT

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Gordon Evans, d/b as Alert, 1145 Bishop Street, Honolulu, Hawaii, for construction permit to establish a one-way signaling common carrier station in the Domestic Public Land Mobile Radio Service in Honolulu, Hawaii (KUA218), Docket No. 13861, File No. 2796-C2-P-60; for construction permit to establish a new two-way common carrier station in the Domestic Public Land Mobile Radio Service in Honolulu, Hawaii (KUA219), Docket No. 13862, File No. 2797-C2-P-60.

1. The Commission has before it for consideration, (a) a protest filed on November 2, 1960, pursuant to section 309 (c) of the Communications Act of 1934, as amended, by Radio Call Service, Ltd. (hereinafter called Protestant), licensee of station KUA217, a one-way signaling station licensed in the Domestic Public Land Mobile Radio Service at Honolulu, Hawaii, and of station KUA215, a two-way station in the same service at Honolulu, Hawaii, protesting the Commission's action of September 28, 1960, public notice of which was issued on October 3, 1960 (Report No. 547, Mimeo No. 94513), granting without hearing the above entitled applications of Gordon Evans, d/b as Alert (hereinafter called Applicant) for construction permits to provide a new one-way and a new two-way communication service in the Domestic Public Land Mobile Radio Service both in the Honolulu, Hawaii area; (b) an opposition to the said protest timely filed by Applicant on November 14, 1960 and, in the alternative, a motion to require Protestant to file renewal applications and designate such renewals for comparative consolidated hearing with the captioned applications; and (c) a reply to the opposition timely filed on November 21, 1960.

Protestant's protest. 2. In support of its protest, Protestant asserts that it is a party in interest within the meaning of section 309(c) of the Communications Act, since Protestant is the licensee of one-way station KUA217 and two-way station KUA215, both at Honolulu, Hawaii. Protestant states that Applicant's proposed one-way and two-way facilities will, with one exception, serve the principal areas now served by Protestant. The exception mentioned is the Kailua area which Protestant asserts it now serves but cannot be served by Applicant's facilities. Thus, Protestant states Applicant's proposed stations will be in direct competition for revenues and customers in Honolulu and vicinity; that Protestant's one-way and two-way stations have ample excess capacity to meet the existing and future demands; that Protestant's facilities are still not operating at a profit; and that Applicant's proposed stations will cause serious and irreparable damage to Protestant and may prevent Protestant from achieving profitable operation to the ultimate detriment of the public it serves. Protestant further asserts that it is now operating at approximately 28 percent capacity on its one-way station and approximately 40 percent capacity on its two-way station; that it has made substantial improvements in its facilities to afford better public service; that in spite of a concentrated sales effort by newspaper advertising, telephone directory and personal customer and prospect contacts, both its stations are still operating at less than one-half their full capacity; that the growth potential is seriously limited by private radio systems, the telephone company and the newness of the service; that Protestant's principal activity is the common carrier radio business rather than an adjunct to a telephone answering business as it alleged is the case of Applicant; that there is no need either for a second one-way or two-way service in Honolulu; and that the addition of second like services would dilute the market to the extent that neither Protestant or Applicant would be able to conduct a profitable operation and service to the public would deteriorate. Protestant further alleges that Applicant is not financially qualified; the lease under which Applicant would secure radio equipment is defective; and that Applicant's proposed transmitter site is not available

Opposition to the protest. 3. Applicant asserts that the need for a second service is clear in view of size and importance of Honolulu and the fact that, while both Protestant's and Applicant's radio services will be similar, they will serve different and distinct public needs in that Applicant will serve members of the public who primarily desire the radio service as an adjunct to a wire-line answering service while Protestant would fulfil the public need of those members of the public who desire primarily a radio service; that attached to Applicant's opposition to the protest are certain documents which are represented to satisfy the other matters alleged by Protestant, i.e., the defects in Alert's conditional sales contract, the financial qualification of Applicant and the availability of Alert's site; that there are, therefore, no issues to resolve at an evidentiary hearing; that in view of the different type of public service to be provided by Applicant, the grants should not be stayed pending the resolution of the protest; and that if the Commission allows the protest, Applicant moves, under the doctrine of our decision in Herbert P. Michels, 17 RR 557 and 17 RR 560, that Protestant be required to submit renewal applications for its stations; and that the said applications be consolidated with the captioned applications in a comparative hearing in order that, if the Commission should find, after hearing, that there is need for only one service, a determination could then be made which of the two mutually exclusive applicants can best serve the public interest.

4. The reply to the opposition filed on November 21, 1960, has also been considered in the disposition hereof.

Disposition of the protest. 5. Upon the allegations of adverse economic impact, we find and conclude that Protestant is a party in interest. Protestant has also submitted facts in its protest which would tend to show, if established at a hearing, that a grant of the captioned applications would not be in the public interest, convenience and necessity. Accordingly, it appears desirable to resolve such matters at an evidentiary hearing and, at such hearing, we believe a full record should be established on Protestant's allegations that Applicant is not financially qualified; that the equipment lease is defective and that the transmitter site is unavailable.

6. Applicant's request that its grants not be stayed pending disposition of the protest must be denied since, clearly, the captioned authorizations are not necessary to the maintenance or conduct of an existing service and no facts on the record now before us permits a finding that the public interest requires that the captioned grants remain in effect. Applicant does not deny that its proposed radio services are the same as now afforded by Protestant nor does Applicant deny the Protestant's statement that Protestant now has excess capacity on its one-way signaling facility and two-way communication facility by which radio service can be provided to any member of the public in the areas proposed to be covered by Applicant. Applicant's claim of the superiority of its related wire-line service and the public need flowing therefrom, as a basis for not staying these grants, are matters to be resolved at the hearing hereinafter ordered.

7. Applicant's motion to require Protestant to file renewal applications and consider such applications in a comparative consolidated proceeding should not be granted. There are basic differences between a common carrier licensee and a broadcast licensee. The Michels case, supra, cited by Applicant, relates to a broadcast licensee. A common carrier is different from the broadcaster on a variety of bases: the common carrier may not curtail or discontinue service without first complying with all the incidents of regulation achieved through the regulation of its tariffs and the issuance of any necessary certificate of public interest, convenience or necessity required as a condition precedent to a reduction in service or abandonment of facilities; the common carrier has a duty to call the Commission's attention, when appropriate, to the possibilities of adverse impact from competition, because of its obligation to provide service to the public unimpaired; and, if the rates and charges or services of the common carrier are found wanting, Federal or State regulatory Commissions generaly have the right, upon a proper record, to compel necessary changes.

8. For these reasons, and in the absence of any affirmative showing by Applicant of Protestant's disqualification, or improper operation, or such other facts as would warrant the Commission, upon complaint, to initiate an investigation of the propriety of continuing a carrier in a licensed status, we believe that a common carrier (Protestant in this case) is entitled to a measure of protection with respect to continuity of operation under an outstanding authorization from the Commission.

9. *Accordingly, it is ordered*, That the protest is allowed and the matter is designated for hearing in a consolidated proceeding upon the following issues, substantially as proposed by the Protestant:

A. To determine the nature and extent of one-way and two-way services proposed by Applicant, including the rates, charges, practices, classifications, regulations, personnel and facilities pertaining thereto.

B. To determine the nature and extent of one-way and two-way services provided by Protestant, including the rates, charges, practices, classifications, regulations, personnel and facilities pertaining thereto.

C. To determine the need for the proposed one-way and two-way services of Applicant and the nature and extent of any benefit to the public which would accrue because of Applicant's proposed services.

D. To determine whether any disadvantage to the public would accrue because of Applicant's proposed one-way and two-way services.

E. To determine whether Applicant would have a right to use the radio equipment in the rendition of common carrier service for hire.

F. To determine whether the conditional sales contract, pursuant to which Applicant proposed to obtain radio equipment for his stations is consistent with the Commission's policies with respect to the repossession of equipment upon default.

G. To determine whether Applicant is financially qualified to construct and operate the proposed stations.

H. To determine whether the proposed transmitter site is available to Applicant for the proposed stations.

I. To determine whether, in the light of the determinations made upon the foregoing issues, the Commission should sustain the protest and set aside the grants of the applications herein.

10. *It is further ordered*, That the effective date of the Commission's action of September 28, 1960, granting the above-captioned applications, is postponed pending a final decision by the Commission with respect to the evidentiary hearing herein provided; and

11. *It is further ordered*, That the hearing herein, upon the issues specified above, shall be held at the Commission's offices in Washington, D.C., on a date, and before an Examiner, to be announced in a subsequent order; and

12. *It is further ordered*, That the burden of proof on issues A, C, and G, which are adopted by the Commission, is placed upon the applicant, and the burden of proof on issues B, D, E, F, H, and I, which are not specifically adopted by the Commission, is placed on the Protestant; and

13. *It is further ordered*, That the Protestant and the Chief, Common Carrier Bureau are made parties to the proceedings herein; and

14. *It is further ordered*, That the parties desiring to participate herein, shall file their appearance on or before the time specified in § 1.140 of our rules; and

15. *It is further ordered*, That Applicant's motion to require Protestant to file renewal applications and designate such applications for comparative hearing with the captioned applications is denied for the reasons stated herein.

Adopted: November 30, 1960.

Released: December 6, 1960.

[Docket No. 13827; FCC 60M-2056]

KWK RADIO, INC.

Memorandum Opinion and Order Scheduling Prehearing Conference

In the matter of revocation of License of KWK Radio, Inc. for standard Broadcast Station KWK, St. Louis, Missouri, Docket No. 13827.

The Hearing Examiner has under consideration the petition to reschedule hearing filed in the above-entitled proceeding on November 18, 1960, by the Commission's Broadcast Bureau; the supplement thereto filed on November 23, 1960; the oppositions to the petition and to the supplement filed on November 23, 1960, and November 28, 1960, respectively, by KWK Radio, Inc.; and the oral argument on the said petition held on December 1, 1960, pursuant to request therefor by KWK Radio, Inc. Continuance of the hearing from December 14, 1960 to January 16, 1961, is requested. KWK Radio, Inc. simultaneously with its opposition to the petition filed a "Request for a Bill of Particulars" which is presently pending before the Commission.

In support of the requested continuance the Broadcast Bureau urges that under the provisions of § 1.140(a) of the Commission's rules[1] it has been customary for the Commission to afford in all proceedings a period of at least 60 days for preparation for hearing whereas in the instant proceeding a lesser period was afforded; that because of conflicting commitments of Bureau counsel the period afforded for preparation is not sufficient; and further that the Commission has scheduled oral argument for December 15, 1960, in the proceeding In re Charles J. Lanphier, et al. (Docket Nos. 12788, 12792, 12797) in which Bureau counsel must appear making it impossible to meet both commitments. In the oral argument Bureau counsel further urged that orderly procedure herein requires disposition of the said request for a bill of particulars prior to commencement of the hearing.

By its oppositions KWK Radio, Inc. urges that it has been almost four months since commencement of the investigation herein and Bureau counsel should have had adequate time since issuance of the order to show cause to prepare for hearing. Relative to the conflict in scheduled date it is urged that continuance would more properly be sought in the other proceeding in view of the nature of the instant proceeding or that other Bureau counsel could be assigned. It is asserted that fairness and equity require the Commission to proceed herein without the delay requested as such delay will compound the adverse publicity and injury which KWK already has suffered and will deny KWK its basic right to a prompt hearing. In the oral argument respondent also relies upon that portion of the Administrative Procedure Act (5 U.S.C. Sec. 1004(a)) which provides that "In fixing the times and places for hearings, due regard shall be had for the convenience and necessity of the parties or their representatives." It is pointed out that the report of the Committee on The Judiciary 79th Congress Report No. 752, stated that "The * * * sentence requiring the convenience and necessity of the parties to be consulted in fixing the times and places for hearings, includes an agency party as well as a private party; but the agency's convenience is not to outweigh that of the private parties and, while the due and required execution of agency functions may be said to be paramount, that consideration would be controlling only where a lack of time has been unavoidable or a particular place of hearing is indispensable and does not deprive the private parties of their full opportunity for a hearing."

The request of the Bureau is for a reasonable continuance and good cause for a grant thereof is shown. The presently existing conflict in proceedings to which Bureau counsel is assigned makes it impossible for both commitments to be met. Continuance in the instant proceeding which is in its initial stages would be less disruptive of Commission

[1] Section 1.140(a): When an application has been designated for hearing, the Secretary of the Commission will mail an order to the applicant setting forth the reasons for the Commission's action and the issues upon which the application will be heard. In addition, the notice of hearing will be published in the FEDERAL REGISTER. The Commission will, when possible, give at least 60 days advance notice on comparative hearings.

processes than would a continuance in the aforestated proceeding with which conflict has arisen which is in its final stages and pending before the full Commission. Assignment of other Bureau counsel herein would require preparation anew for the proceeding and would tend toward additional delay rather than serving to expedite the proceeding. Nor has respondent shown in what manner the limited continuance requested could deprive it of its full opportunity for a hearing.

Without regard to the other matters urged, however, it is apparent that Commission consideration and disposition of Respondent's "Request For a Bill of Particulars" are necessary to orderly conduct of the proceeding. Respondent states therein that only by grant of the relief requested will it "be afforded that measure of due process to which it is entitled" as "It has no information as to the time, place or contest incidents upon which the Commission relied. It is impossible to prepare to defend against unknown charges."

Commission rules provide a period of ten days for filing of a response to this pleading. This date would expire on December 5, 1960. The pleadings must thereafter be afforded processing time, time for Commission consideration, and time for preparation of a memorandum disposing of the pleadings. It is thus apparent that the presently scheduled hearing date would not permit of disposition of this pleading.[3] Respondent is in the position of urging before the Hearing Examiner commencement of the proceeding which it is urging before the Commission it cannot prepare itself to defend. Thus commencement of the proceeding on the presently scheduled hearing date could lead only to confusion and disruption of the proceeding to the detriment of all parties. Nor can the date upon which disposition of this pleading may reasonably be expected presently be determined. Such disposition being necessary to orderly procedures herein, the proceeding should be continued to a date to be specified subsequent to such action. Therefore, the petition of the Bureau will be granted to the extent that a continuance is sought and otherwise denied and the proceeding will be continued to a date to be subsequently specified.

Accordingly, it is ordered, This 2d day of December 1960 that the petition of the Commission's Broadcast Bureau is granted to the extent that a continuance is sought and is otherwise denied and the proceeding herein is, on the Hearing Examiner's own motion, continued to a date to be subsequently specified.

It is further ordered, That a prehearing conference pursuant to the provisions of § 1.111 of the Commission's rules shall be held herein commencing on December 8, 1960, at 9:00 a.m. in the offices of the Commission at Washington, D.C.

Released: December 5, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-11470; Filed, Dec. 8, 1960; 8:52 a.m.]

[3] Respondent indicated during the course of oral argument that this request rested under the jurisdiction of the Hearing Examiner. Jurisdiction, however, is in the Commission as it involves making available to respondent non-public files and Commission working papers.

[Docket No. 13222 etc.; FCC 60M-2050]

MICHIGAN BROADCASTING CO. (WBCK) ET AL.

Order Scheduling Hearing

In re applications of Michigan Broadcasting Company (WBCK), Battle Creek, Michigan, et al. (Group 2), Docket No. 13222, File No. BP-11439; Docket Nos. 13223, 13224, 13226, 13228, 13230-13233, 13237, 13239, 13241, 13242, 13246, 13249, 13654; for construction permits.

The Hearing Examiner having under consideration the Joint Motion for Extension of Exchange and Further Conference Dates, filed by thirteen of the applicants in Group 2 of the above-styled proceeding on November 17, 1960, and the further prehearing conference held on this date; and

It appearing, that in view of the agreements arrived at during the conference and hereinafter set forth in the ordering clauses, the joint motion has been rendered moot;

It is ordered, This 1st day of December 1960, that at the prehearing conference now scheduled for December 22, 1960, consideration will be given to the exchange date for engineering exhibits and the hearing relative to that phase of the case.

It is further ordered, That the following schedule will apply as to all non-engineering phases of the case, except evidence with respect to possible waiver of § 3.28(c) of the rules:

(1) Exhibits pertaining to such non-engineering phases of the case shall be exchanged on January 5, 1961;

(2) Notification as to witnesses desired for cross-examination in connection with the exchanged exhibits shall be made on January 16, 1961;

(3) A further prehearing conference shall be held on January 18, 1961;

(4) Hearing as to the non-engineering phases of the proceeding shall commence on February 6, 1961, at 10 a.m.

It is further ordered, That the exhibits to be exchanged as above set forth shall be subscribed and sworn to by the sponsoring witnesses and the pages of such exhibits shall be numbered consecutively.

It is further ordered, That the joint motion for extension of exchange and further conference dates be and the same is hereby dismissed as moot.

Released: December 2, 1960.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-1294]

AMERICAN RESEARCH AND DEVELOPMENT CORP.

Notice of Filing of Application

DECEMBER 2, 1960.

Notice is hereby given that American Research and Development Corporation ("Applicant"), a Massachusetts corporation and registered closed-end, non-diversified management investment company, has filed an application under section 17(b) of the Investment Company Act of 1940 ("Act"), for an order of the Commission exempting from the provisions of section 17(a) of the Act proposed loans of not to exceed an aggregate of $50,000 at any one time outstanding, to Intercontinental Electronics Corporation ("Intercontinental").

Intercontinental, a Delaware corporation, was organized in 1956, and is engaged in the business of the development and sale of various electronic, aircraft detection and navigation equipment. Applicant states that it owns approximately 17 percent of the outstanding voting securities of Intercontinental, and that it believes the making of the proposed loan would be prohibited by section 17(a) of the Act, unless exempted therefrom by an order of the Commission.

By an order dated May 17, 1960, pursuant to section 17(b) of the Act, the Securities and Exchange Commission exempted from the provisions of section 17(a)(3) of the Act a loan of $50,000 from the Applicant to Intercontinental. Payment of this loan is due December 2, 1960. If the proposed loans were to be made, they would be accomplished either by the Applicant surrendering the promissory notes given for the old loan for new promissory notes or by the Applicant receiving payment for the old promissory notes and making additional loans not exceeding an aggregate of $50,000 at any one time outstanding. In either event the proposed loans would be evidenced by promissory notes in the principal sum of any loans so made with a maturity date not later than twelve months from the date of the first of the proposed loans and providing for interest on the principal sum at the rate of six percent per annum. Applicant requests the right to make loans of lesser amounts and for shorter periods of time if deemed advisable and with the right to later make other loans with the aggregate principal amount of all loans outstanding to be limited to $50,000 at any one time, or to extend the term of any of the loans up to twelve months from the date of the first of the proposed loans in its sole discretion.

Section 17(a) of the Act, among other things, prohibits the borrowing of money from a registered investment company by an affiliated person thereof unless the Commission by order upon application pursuant to section 17(b) of the Act grants an exemption from section 17(a) of the Act, upon a finding that the terms of the proposed transaction are reasonable and fair and do not involve overreaching on the part of any person concerned; and that the proposed transaction is consistent with the policy of the registered investment company concerned, and consistent with the general purposes of the Act.

In support of its application, Applicant states that the making of the proposed loans would make additional working capital available to Intercontinental, would promote the commercial development of Intercontinental's business enterprises, and would thereby increase the possibility of ultimate profit or gain to Applicant. It is stated that the proposed transaction is consistent with Applicant's investment policy and that the application is filed in the normal course of business of Applicant.

Notice is further given that any interested person may, not later than December 16, 1960, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, as provided by Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

[F.R. Doc. 60-11439; Filed, Dec. 8, 1960; 8:48 a.m.]

HOUSING AND HOME FINANCE AGENCY

Public Housing Administration

ASSISTANT COMMISSIONER FOR DEVELOPMENT

Delegations of Final Authority

Section II, Delegations of Final Authority, is amended as follows:

Paragraph C8 is added as follows:

To exercise all powers and authorities vested in the Commissioner in all matters relating to the initiation, planning, and construction of such housing including the acquisition of sites.

Assistant Commissioner for Development.

Approved: November 30, 1960.

[SEAL] BRUCE SAVAGE,

[1] Periodic increase per contract.
[2] The stated effective date is the first day after expiration of the required 30 days' notice.
[3] The pressure is 14.65 psia.
[4] The pressure is 15.025 psia.
[5] Redetermined increase per contract.
[6] The stated effective is the effective date requested by respondent.
[7] Insofar as it pertains to tax reimbursement only.
[8] Includes 0.65 cent per Mcf for compression deducted by buyer.
[9] Rate subject to Btu adjustment above 1000 Btu (by 0.5 cent per Mcf).
[10] Redetermined increase, by arbitration, per contract.
[11] Periodic increase plus applicable tax reimbursement.
[12] Includes 0.25 cent per Mcf for dehydration charged by seller. Subject to Btu adjustment.
[13] Rate of 21.75 cents at 16.4 psia corrected for compressibility.
[14] Revenue-sharing increase based on buyer's rate to Northern Natural Gas Company, less 1.25 cents.
[15] Suspended for one day (question involved is contract interpretation).
[16] Suspended for one day (includes questionable reimbursement for Louisiana severance tax. Only such tax portion of Crow's increased rate is made effective subject to refund).
[17] Suspended for one day (based on buyer's resale rate to Northern Natural Gas Company which is now in effect subject to refund in Docket No. RI60-102).

The increased rates and charges so proposed may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated suplements be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in carrying out the provisions of the Natural Gas Act that Supplement No. 5 to Cotton Valley Operators Committee (Operator), et al's (Operators Committee) FPC Gas Rate Schedule No. 1; Supplements No. 4 to Crow Drilling and Producing Company's (Crow) FPC Gas Rate Schedules Nos. 1 and 2, respectively, and Supplement No. 3 to Peerless Oil & Gas Company's (Peerless) FPC Gas Rate Schedule No. 5, be allowed to take effect subject to refund upon the timely filing of their agreements and undertakings, as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, each of the above-designated supplements is hereby suspended and the use thereof deferred until the date indicated in the above "Rate Suspended Until" column, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Supplement No. 5 to Operators Committee's FPC Gas Rate Schedule No. 1 (proposing a redetermined rate increase the contract interpretation for which is questionable and should be determined after hearing); Supplements No. 4 to Crow's FPC Gas Rate Schedules Nos. 1 and 2, respectively, and Supplement No. 3 to Peerless' FPC Gas Rate Schedule No. 5, shall be effective (with only the Louisiana severance tax reimbursement portion of Crow's increased rates shall be effective subject to refund) as of December 4, 1960, December 22, 1960, and December 10, 1960, respectively: *Provided, however,* That within 20 days from the date of the issuance of this order, Operators Committee, Crow and Peerless shall file under Docket Nos. RI61-254, RI61-256 and RI61-261, respectively, with the Secretary of the Commission their agreements and undertakings to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder. The agreements and undertakings shall be signed by Respondent, or if Respondent is a corporation, signed by a responsible officer thereof accompanied by proper authorization from the Board of Directors and by a certificate showing service of copies upon all purchasers under the rate schedule involved. Unless Respondents (Operators Committee, Crow and Peerless) are advised to the contrary within 15 days after the filing of such agreements and undertakings, their agreements and undertakings shall be deemed to have been accepted.

(E) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before January 14, 1961.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[Docket No. CP61-127]

EL PASO NATURAL GAS CO.

Notice of Application and Date of Hearing

DECEMBER 2, 1960.

Take notice that on October 27, 1960, El Paso Natural Gas Company, P.O. Box 1492, El Paso, Texas (Applicant), filed in Docket No. CP61-127 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1961, and operation of small scale routine budget-type facilities to enable Applicant to sell and deliver natural gas to existing jurisdictional customers on a short-term project basis for resale for use in drilling oil or gas wells, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The proposed facilities consist of:

(1) Main line or field system tap facilities, together with the standard appurtenances necessary for the operation of same, to be installed at not to exceed 25 separate locations, at an estimated cost of $350.00 per tap, or a total maximum of not to exceed $8,750 for 25 taps; and

(2) Portable measuring and regulating facilities, together with the standard appurtenances necessary for the operation of same, to be installed at not to exceed a total of 25 main line or field system tap locations, at an estimated cost of $1,200 per station, or a total maximum of not to exceed $30,000 for 25 stations.

Applicant proposes to render resale drilling gas service for not to exceed 25 drilling projects which would require from 200 Mcf per day to 3,000 Mcf per day per well for a period ranging from 30 to 90 days which is stated to be the normal duration of drilling operations per well.

No increase in main line capacity is proposed by Applicant, and all sales and deliveries would be made under rates on file with the Commission.

The purpose of this budget-type application is to avoid the time required for the filing, processing and authorization of separate specific projects as each might come up, and to eliminate the need for abandonment applications at the end of each such proposed sale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 11, 1961, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 27, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11430; Filed, Dec. 8, 1960; 8:46 a.m.]

[Docket No. CP61-137]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application and Date of Hearing

DECEMBER 2, 1960.

Take notice that on November 2, 1960, Transcontinental Gas Pipe Line Corporation, 3100 Travis Street, Houston 6, Texas, (Applicant), filed in Docket No. CP61-137 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery to South Jersey Gas Company (South Jersey) of 1,000 Mcf of natural gas per day under Applicant's presently effective FPC Rate Schedule LTF-3 from date of authorization to February 15, 1961, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

By order of the Commission issued November 17, 1959, in Docket Nos. G-16603, et al., Applicant was authorized to sell and deliver 7,400 Mcf of natural gas per day to Palmerton Gas Company (Palmerton), under Applicant's FPC Rate Schedule CD-3, of which Palmerton had contracted to resell 7,000 Mcf per day on a firm basis to New Jersey Zinc Company of Pennsylvania (New Jersey Zinc) for use in the latter's plants in the Borough of Palmerton.

Because of a strike now in progress, New Jersey Zinc is unable to take the entire volume which it has contracted to purchase from Palmerton. To relieve New Jersey Zinc, Palmerton has requested South Jersey and South Jersey has agreed to take, until February 15, 1961, 1,000 Mcf of natural gas under Applicant's FPC Rate Schedule LTF-3 (which has the same demand and commodity charges as its FPC Rate Schedule CD-3) from Applicant which would otherwise be delivered to Palmerton for resale to New Jersey Zinc.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 17, 1961, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 6, 1961. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11431; Filed, Dec. 8, 1960; 8:46 a.m.]

LAND WITHDRAWN IN PROJECT NO. 324

Partial Vacation of Withdrawal and Order Denying Application In Part

DECEMBER 1, 1960.

Docket No. DA-59-Arkansas—Bureau of Land Management, United States Department of the Interior.

The Bureau of Land Management, United States Department of the Interior, has requested that the Commission review the necessity for the exist-

ing power withdrawal pertaining to the following described land:

FIFTH PRINCIPAL MERIDIAN, KANSAS

T. 21 N., R. 26 W.,
Sec. 7, Fractional W½.

The above-described land lies on both sides of Cedar Creek, a short distance above the confluence of Cedar Creek with the White River, and was reserved, among other lands, pursuant to the filing on December 31, 1925, of an application for a license for proposed Project No. 324. The license for the project was terminated by the Commission on July 16, 1935.

The land in the fractional E½W½ of said sec. 7 is affected to some extent by the miximum flow line (931 feet elevation) of the Table Rock dam and reservoir now under construction for flood control and power purposes on the White River by the Corps of Engineers.

In view of the imminent complete development of this portion of the river, it appears that the land in the fractional W½W½ of sec. 7 is no longer required for the purposes of power development.

The Commission finds:

(1) Inasmuch as the land in the fractional E½W½ of sec. 7, T. 21 N., R. 26 W., Fifth Principal Meridian, Arkansas, is valuable for power purposes, the power withdrawal with respect thereto should not be revoked.

(2) Under the circumstances a determination that the value of the land described in finding (1) herein will not be injured or destroyed for purposes of power development by location, entry, or selection under the public land laws is not justified.

(3) The existing power withdrawal pertaining to the land in the fractional W½W½ of sec. 7, T. 21 N., R. 26 W., Fifth Principal meridian, Arkansas, pursuant to the filing of the application for a license for proposed Project No. 324 serves no useful purpose and vacation of the withdrawal is in the public interest.

The Commission orders:

(A) The existing power withdrawal pertaining to the land described in finding (3) herein under section 24 of the Federal Water Power Act pursuant to the filing of the application for a license for proposed Project No. 324 is vacated.

(B) The application insofar as it pertains to the land described in finding (1) herein is denied.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

DECEMBER 6, 1960.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 36756: *Iron or steel wire to Memphis, Tenn.* Filed by O. W. South, Jr., Agent (No. A4048), for interested rail carriers. Rates on iron or steel wire, in carloads, as described in the application, from Gulfport, Miss., Mobile, Ala., Pensacola and Panama City, Fla. (Import), to Memphis, Tenn.

Grounds for relief: Market competition and port relationship.

Tariff: Supplement 68 to Southern Freight Association tariff I.C.C. S-87.

FSA No. 36757: *Substituted service—TP&W and PRR for Spector Freight Systems, Inc.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent (No. 168), for interested carriers. Rates on property loaded in trailers and transported on railroad flat cars, between Peoria, Ill., on the one hand, and Kearny, N.J., and Philadelphia, Pa., on the other, on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 5 to Eastern Central Motor Carriers Association, Inc., tariff MF-I.C.C. A-185.

FSA No. 36758: *Substituted service—PRR for Middle Atlantic Transportation Co., Inc.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent (No. 169), for interested carriers. Rates on property loaded in trailers and transported on railroad flat cars, between Kearny, N.J., on the one hand, and Cincinnati, Cleveland, Columbus, Dayton and Toledo, Ohio, and Detroit, Mich., on the other, on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 5 to Eastern Central Motor Carriers Association, Inc., tariff MF-I.C.C. A-185.

FSA No. 36759: *Substituted service—PRR, Et Al., for Middle Atlantic Transportation Co., Inc.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent (No. 170), for interested carriers. Rates on property loaded in trailers and transported on railroad flat cars, between East Cambridge, Holyoke and Worcester, Mass., on the one hand, and Cincinnati, Cleveland, Columbus, and Toledo, Ohio and Detroit, Mich., on the other, on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 5 to Eastern Central Motor Carriers Association, Inc., tariff MF-I.C.C. A-185.

FSA No. 36760: *Substituted service—PRR, Et Al., for Middle Atlantic Transportation Co., Inc.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent (No. 171), for interested carriers. Rates on property loaded in trailers and transported on railroad flat cars, between Cincinnati, Cleveland, Toledo, Ohio and Detroit, Mich., on the one hand, and Boston and Worcester, Mass., and Hartford and New Haven, Conn., on the other, also between Columbus, Ohio on the one hand, and Boston and Worcester, Mass., on the other.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 5 to Eastern Central Motor Carriers Association, Inc., tariff MF-I.C.C. A-185.

FSA No. 36761: *Substituted service—C&O and LV for Middle Atlantic Transportation Co., Inc., Et Al.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent (No. 172), for interested carriers. Rates on property loaded in trailers and transported on railroad flat cars, between Jersey City, N.J., on the one hand, and Detroit and Saginaw, Mich., on the other, on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 5 to Eastern Central Motor Carriers Association, Inc., tariff MF-I.C.C. A-185.

FSA No. 36762: *Substituted service—Maine Central RR for Maine Freightways.* Filed by Maine Motor Rate Bureau, Agent (No. 1), for interested carriers. Rates on property loaded in trailers and transported on railroad flat cars, between Portland, Maine and Bangor, Maine, on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motor-truck competition.

FSA No. 36763: *Anhydrous ammonia to Florida points.* Filed by Southwestern Freight Bureau, Agent (No. B-7939), for interested carriers. Rates on anhydrous ammonia, in tank-car loads, from Lake Charles, La., and Houston, Texas, to Agricola, Armour, Bonnie, Brewster, East Tampa, Nichols, Pierce, Ridgewood, Royster and Tampa, Fla.

Grounds for relief: Barge competition.

Tariff: Supplement 117 to Southwestern Freight Bureau, tariff I.C.C. 4290.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

[Notice 421]

MOTOR CARRIER TRANSFER PROCEEDINGS

DECEMBER 6, 1960.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by

petitioners must be specified in their petitions with particularity.

No. MC-FC 63660. By order of December 2, 1960, the Transfer Board approved the transfer to Dunn's Van Lines, Inc., Odessa, Tex., of Certificate in No. MC 104850, issued May 15, 1958, to Ralph S. Dunn, doing business as Dunn's Van Line, Odessa, Tex., authorizing the transportation of: Household goods, between points in Texas, Louisiana, New Mexico, and Oklahoma; and household goods, and immigrant movables, between points in Logan County, Okla.; on the one hand, and, on the other points in Kansas. Roy A. Downey, P.O. Box 4134, Odessa, Tex., attorney for applicants.

No. MC-FC 63674. By order of November 30, 1960, the Transfer Board approved the transfer to Andrews Van Lines, Inc., 7th and Park, Norfolk, Nebr., of Certificates in Nos. MC 26825 and MC 26825 Sub 3, issued March 2, 1955, and March 15, 1957, respectively, to Albert Roy Andrews, doing business as Andrews Van Lines, 7th and Park, Norfolk, Nebr., authorizing the transportation of: Household goods, between points in Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, New Jersey, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and Wyoming, between Philadelphia, Pa., on the one hand, and, on the other, points in New York, New Jersey, Delaware, Maryland, Virginia, and the District of Columbia, between points in Montana, on the one hand, and, on the other, points in Montana, Idaho, North Dakota, Oregon, South Dakota, Utah, Wyoming, and Washington.

No. MC-FC 63681. By order of November 30, 1960, the Transfer Board approved the transfer to John P. Severson and Junior R. Finer,, a partnership, doing business as Severson and Finer Trucking, Leland, Iowa, of Certificate in No. MC 25138, issued June 12, 1941, to Omer Maakestad, Leland, Iowa, authorizing the transportation of: Livestock, from Leland, Iowa, to Austin, Minn., and Tankage, from Austin, Minn., to Leland, Iowa.

No. MC-FC 63716. By order of November 30, 1960, the Transfer Board approved the transfer to John C. Bowman, doing business as J. C. Bowman Trucking Co., Natchez, Miss., of Certificate No. MC 50242 Sub 1, issued November 30, 1956, to L. J. Denny and J. R. Denny, doing business as L. J. Denny and Son Trucking Company, Vidalia, La., authorizing the transportation of: Structural steel, tanks, heavy machinery, and oilfield equipment, materials, and supplies, in truck loads, between points in Louisiana and Mississippi; trees, between points in Mississippi, on the one hand, and, on the other, New Orleans, La., and points in Louisiana within ten miles of New Orleans; and boats, between points in Louisiana and Mississippi. Harold D. Miller, Jr., 700 Petroleum Building, Jackson, Miss., attorney for applicants.

No. MC-FC 63712. By order of November 30, 1960, the Transfer Board approved the transfer to River Trails Transit Lines Inc., 340 Central Ave., Dubuque, Iowa, of Certificates in Nos. MC 58522 Sub 1, and MC 58522 Sub 6, issued December 12, 1955, and June 8, 1956, respectively, to Joseph F. Wenzel, doing business as River Trails Transit Lines, 340 Central Ave., Dubuque, Iowa, authorizing the transportation of: Passengers and their baggage, and express, newspapers, and mail in the same vehicle with passengers, between various named points in Illinois, Iowa, and Wisconsin.

No. MC-FC 63729. By order of November 30, 1960, the Transfer Board approved the transfer to Wymore Transfer Co., a Corporation, Oregon City, Oreg., of Certificate in No. MC 475, issued August 9, 1950, to Eugene Wymore, doing business as Wymore Transfer Co., Oregon City, Oreg., authorizing the transportation of: Paper, paper products, paper mill supplies, machinery, and equipment, between Oregon City, Oreg., and Camas, Wash., and household goods, between West Linn and Oregon City, Oreg., on the one hand, and, on the other, points in Washington. Earle V. White, 2130 Southwest Fifth Avenue, Portland 1, Oreg., attorney for applicants.

No. MC-FC 63739. By order of November 30, 1960, the Transfer Board approved the transfer to Domenic Cristinzio, Inc., Philadelphia, Pa., of a portion of Certificate No. MC 94435, issued November 21, 1960, to James Adams, doing business as Adams Moving & Hauling Co., Philadelphia, Pa., authorizing the transportation of: Household goods, between Philadelphia, Pa., and points within 25 miles thereof, on the one hand, and, on the other, points in the New York, N.Y., Commercial Zone, as defined by the Commission, and points in New Jersey, Delaware, Maryland, and the District of Columbia. Morris J. Winokur, 1920 Two Penn Center Plaza, Philadelphia, Pa., attorney for applicants.

No. MC-FC 63742. By order of November 30, 1960, the Transfer Board approved the transfer to Bi-State Transfer, Inc., St. Louis, Mo., of Certificate in No. MC 3165, issued November 21, 1941, to John Hamm Transfer Company, a Corporation, St. Louis, Mo., authorizing the transportation of: General Commodities, with the usual exceptions including household goods and commodities in bulk, between points in the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone. Austin C. Knetzger, 722 Chestnut Street, St. Louis, Mo., attorney for applicants.

No. MC-FC 63752. By order of December 2, 1960, the Transfer Board approved the transfer to Mahr Freight Lines, Inc., South Windson, Conn., of the remaining portion of Certificate No. MC 2108, issued June 3, 1941, to Bay State Motor Express Company, a Corporation, Boston, Mass., authorizing the transportation of: General commodities, excluding household goods, commodities in bulk, and other specified commodities, over regular routes, between Cambridge and Holyoke, Mass., between Cambridge and Worcester, Mass., between Cambridge and Haverhill, Mass., between Cambridge and Lawrence, Mass., between Boston, Mass., and Stamford, Conn., between Providence, R.I., and New Haven, Conn., between Boston, Mass., and Franklin, N.H., and between Boston, Mass., and Dover, N.H.; latex, washing compound and paper, from Boston, Mass., to Amsterdam, N.Y.; and groceries, drugs, rugs, and batteries, from Boston, Mass., to Albany, N.Y. Reubin Kaminsky, 410 Asylum Street, Hartford, Conn., attorney for transferee. Arthur T. Wasserman, 1 Court Street, Boston, Mass., attorney for transferor.

No. MC-FC 63774. By order of November 30, 1960, the Transfer Board approved the transfer to Barney L. Burke, doing business as Barney Burke Transfer Company, 100 Winthrope Avenue, Millen, Ga., of Certificate No. MC 115874, issued June 25, 1957, to Capus Burke, 403 East Cotton Avenue, Millen, Ga., authorizing the transportation, over irregular routes, of lumber, between points in a described portion of Georgia, on the one hand, and, on the other, points in Florida and South Carolina.

No. MC-FC 63781. By order of November 30, 1960, the Transfer Board approved the transfer to Arnold E. White, doing business as A. E. White Company, East Rockaway, N.Y., of Certificate No. MC 101816 issued March 2, 1955, to Phoenix Transportation Co., Inc., Brooklyn, N.Y., authorizing the transportation of household goods as defined by the Commission, over irregular routes, between New York, N.Y., on the one hand, and, on the other, points in New Jersey, Pennsylvania, and New York. Arthur J. Piken, 160-16 Jamaica Avenue, Jamaica 32, N.Y., attorney for applicants.

No. MC-FC 63783. FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7958 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Orsi, Inc., et al.

Subpart—Misbranding or mislabeling: § 13.1185 *Composition:* § 13.1185–90 *Wool Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* § 13.1852–80 *Wool Products Labeling Act.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U.S.C. 45, 68) [Cease and desist order, Orsi, Inc., et al., New York, N.Y., Docket 7958, October 18, 1960]

In the Matter of Orsi, Inc., a Corporation, and Domenico Orsi and Richard F. C. Bemporad, Individually and as Officers of Said Corporation

Consent order requiring a New York City distributor to cease violating the Wool Products Labeling Act by labeling as "100 percent Re-used wool", fabrics which contained substantially less than 100 percent woolen fibers, and by failing to label certain fabrics as required under the Act.

The order to cease and desist is as follows:

It is ordered, That respondents Orsi, Inc., a corporation, and its officers, and Domenico Orsi and Richard F. C. Bemporad, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act, of wool fabrics or other wool products, as "wool products" are defined in and subject to the Wool Products Labeling Act, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to affix labels to such products showing each element of information required to be disclosed by section 4 (a)(2) of the Wool Products Labeling Act of 1939.

It is further ordered, That respondents Orsi, Inc. a corporation, and its officers, and Domenico Orsi and Richard F. C. Bemporad, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of their products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from misrepresenting the constituent fibers of which their products are composed or the percentage or amount thereof in sales invoices, shipping memorandum or any other manner.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 18, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F.R. Doc. 60–11500; Filed, Dec. 9, 1960; 8:47 a.m.]

[Docket 7983 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

S. Schneiderman & Sons et al.

Subpart—Advertising falsely or misleadingly: § 13.155 *Prices:* § 13.155–40 *Exaggerated as regular and cutomary.* Subpart—Furnishing means and instrumentalities of misrepresentation or deception: § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception.* Subpart—Invoicing products falsely: § 13.1108 *Invoicing products falsely:* § 13.1108–45 *Fur Products Labeling Act.* Subpart—Misrepresenting oneself and goods—PRICES: § 13.1805 *Exaggerated as regular and customary.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, Joseph Schneiderman et al. trading as S. Schneiderman & Sons, New York, N.Y., Docket 7983, October 13, 1960]

In the Matter of Joseph Schneiderman, Harry Schneiderman, and Louis Schneiderman Individually and as Copartners Trading as S. Schneiderman & Sons

Consent order requiring manufacturing furriers in New York City to cease violating the Fur Products Labeling Act by listing fictitious prices on consignment invoices of fur products, intended to promote the sale of the products, and by failing to maintain adequate records as a basis for such pricing.

The order to cease and desist is as follows:

It is ordered, That Joseph Schneiderman, Harry Schneiderman and Louis Schneiderman, individually and as copartners trading as S. Schneiderman & Sons, or under any other name, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the sale, advertising, offering for sale, transportation or distribution, in commerce, of fur products; or in connection with the sale, manufacture for sale, advertising, offering for sale, transportation or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Falsely or deceptively invoicing fur products by representing, directly or by implication, on invoices that the former, regular or usual price of any fur product is any amount which is in excess of the price at which respondents have formerly, usually or customarily sold such products in the recent regular course of business;

B. Falsely or deceptively advertising fur products through the use of any advertisement, representations, public announcement or notice which is intended to aid, promote or assist, directly or indirectly, in the sale, or offering for sale of fur products, and which represents, directly or by implication that the former, regular or usual price of any fur product is any amount which is in excess of the price at which respondents have formerly, usually or customarily sold such product in the recent regular course of business;

C. Misrepresenting in any manner the savings available to purchasers of respondents' fur products;

D. Making pricing claims or representations respecting prices or values of fur products unless respondents maintain full and adequate records disclosing the facts upon which such claims and representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 13, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F.R. Doc. 60–11501; Filed, Dec. 9, 1960; 8:48 a.m.]

Title 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

SUBCHAPTER E—DETERMINATION OF SUGAR COMMERCIALLY RECOVERABLE

[Sugar Determination 833.7]

PART 833—MAINLAND CANE SUGAR AREA

1960 Crop

Pursuant to the provisions of section 302(a) of the Sugar Act of 1948, as amended (hereinafter referred to as "act"), the following determination is hereby issued:

§ 833.7 Sugar commercially recoverable from sugarcane in the mainland cane sugar area.

(a) *Definitions.* For the purpose of this section, the terms:

(1) "Trash" means green or dried leaves, sugarcane tops, dirt and all other extraneous material.

(2) "Gross weight" means the total weight (short tons) of sugarcane, including trash, as delivered by a producer for processing for sugar production.

(3) "Net weight" means:

(i) In Florida, 96.0 percent of gross weight, and

(ii) In Louisiana, the weight obtained by deducting the weight of trash from the gross weight of sugarcane as delivered by a producer.

(b) *Recoverable sugar.* For the 1960 crop of sugarcane, the amount of sugar, in hundredweight, raw value, commercially recoverable from sugarcane grown on a farm in the Mainland Cane Sugar Area and marketed (or processed by the producer) for the extraction of sugar or liquid sugar, from an acreage not in excess of the proportionate share for the farm, shall be obtained by multiplying the net weight of the sugarcane in tons by the rate of recoverability specified for the average percentage of sucrose in the normal juice of such sugarcane as follows:

(1) *For Farms in Louisiana:* Percentage of sucrose in normal juice: [1]	*Rate of recoverable sugar (hundredweight) per ton of sugarcane*
8.0	0.946
9.0	1.117
10.0	1.289
11.0	1.463
12.0	1.638
13.0	1.814
14.0	1.992
15.0	2.171
16.0	2.347
17.0	2.526
18.0	2.705

[1] Rates for the intervening tenths of 1 percent shall be calculated by interpolation.

(2) *For Farms in Florida:* Percentage of sucrose in normal juice: [1]	*Rate of recoverable sugar (hundredweight) per ton of sugarcane*
8.0	0.946
9.0	1.145
10.0	1.331
11.0	1.508
12.0	1.684
13.0	1.859
14.0	2.034
15.0	2.207
16.0	2.383
17.0	2.558
18.0	2.734

[1] Rates for the intervening tenths of 1 percent shall be calculated by interpolation.

STATEMENT OF BASES AND CONSIDERATIONS

Determinations of amounts of sugar commercially recoverable from sugar beets and sugarcane are required under section 302(a) of the act to establish the amounts of sugar upon which payments are to be made pursuant to the act.

The rates of sugar commercially recoverable at the various normal juice sucrose levels, as specified in this determination, were calculated from data reported to the Department by the processors of sugarcane for sugar in each of the States of Florida and Louisiana. The calculation made use of data representing averages in each State for the crop years 1955, 1956, 1957, 1958, and 1959 of each of the factors of normal juice extraction (the quantity of normal juice extraction per ton of sugarcane), boiling house efficiency (the ratio of the amount of sugar produced to the amount that could theoretically be produced), the polarization of the sugar produced, and net sugarcane as a percent of gross sugarcane. The calculation also used the purity or retention factor which correlates purity of normal juice with sugar recovery based on the well-established Winter-Carp formula. That formula is expressed mathematically as follows: Purity or Retention Factor = (1.4 − 40/*P* in which *P* is purity of normal juice. For the purposes of this determination, the computed purity at each of the various normal juice sucrose levels for the crop years 1955, 1956, 1957, 1958 and 1959 was used.

In calculating sugar, commercially recoverable, the data are used in the following manner: The product of normal juice extraction and boiling house efficiency is divided by the product of the polarization of sugar produced and net sugarcane as a percent of gross sugarcane. The result so obtained is multiplied by 2,000 to obtain a factor which when multiplied by normal juice sucrose and the purity or retention factor for that normal juice sucrose gives pounds of sugar per ton of net sugarcane. By use of the applicable raw value conversion factor, in accordance with section 101(h) of the Sugar Act, pounds of sugar per ton of net sugarcane are converted into sugar, commercially recoverable raw value. Expressed mathematically the formula reads:

$$\text{CRS., RV.} = \frac{\text{N.J.E.} \times \text{B.H.E.} \times 2{,}000 \times \text{N.J.S.} \times \text{P.R.} \times \text{R.V.C.F.}}{(\text{Pol. of sugar}) \times (\text{net sugarcane, \% gross sugarcane})}$$

Except for appropriate changes in each of the two moving five-year averages, the aforestated calculation is the same as that used for the 1959 crop. The use of data for the most recent five crops results in increases in rates of recoverable sugar of about one percent as an average for both Louisiana and Florida.

Accordingly, I hereby find and conclude that the aforestated determination will effectuate the applicable provisions of the act.

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153. Interprets or applies secs. 302, 303, 304; 61 Stat. 930, as amended, 931; 7 U.S.C. 1132, 1133, 1134)

Issued this 7th day of December 1960.

CLARENCE L. MILLER,
Acting Secretary.

[F.R. Doc. 60-11541; Filed, Dec. 9, 1960; 8:52 a.m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 196]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 914.496 Navel Orange Regulation 196.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting, the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 8, 1960.

(b) *Order.* (1) The respective quantities of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., December 11, 1960, and ending at 12:01 a.m., P.s.t., December 18, 1960, are hereby fixed as follows:

(i) District 1: 700,000 cartons;

(ii) District 2: 214,818 cartons;

(iii) District 3: 80,000 cartons;

(iv) District 4: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," "District 4," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 9, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lemon Reg. 876]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 953.983 Lemon Regulation 876.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 23 F.R. 9053), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U.S.C. 1001 et seq.) because the time intervening between the date when information upon which this section is based becomes available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 6, 1960.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., December 11, 1960, and ending at 12:01 a.m., P.s.t., December 18, 1960, are hereby fixed as follows:

(i) District 1: 32,550 cartons;

(ii) District 2: 130,200 cartons;

(iii) District 3: 23,250 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 8, 1960.

FLOYD F. HEDLUND,

[F.R. Doc. 60-11577; Filed, Dec. 9, 1960; 9:20 a.m.]

PART 1031—ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

Processing Into Fresh Juice

Pursuant to the provisions of the marketing agreement and Order No. 131 (7 CFR Part 1031; 25 F.R. 9093) regulating the handling of oranges and grapefruit grown in the lower Rio Grande Valley in Texas, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), it is hereby found and determined, on the basis of the recommendations of the Texas Valley Citrus Committee, established under the aforesaid marketing agreement and order, and other available information, that the following amendment of the rules and regulations (Sec. 1031.120; 25 F.R. 9757; 10422) is in accordance with the provisions of the marketing agreement and order and will tend to effectuate the declared policy of the act; and the said rules and regulations are hereby amended as follows:

Section 1031.120 *Fruit exempt from regulations* (25 F.R. 9757; 10422) is amended by revising the provisions of paragraph (b) thereof to read as follows:

(b) *Processing into fresh juice.* Any handler may handle oranges and grapefruit for processing into fresh juice exempt from the provision of §§ 1031.34 and 1031.40: *Provided*, That, prior to such handling the handler notifies the committee of the proposed handling and furnishes the committee (1) with a statement, executed by the intended processor, that the fruit will be used only for processing into fresh juice, and (2) with an agreement by such processor to furnish the committee with a report as to the quantity of each shipment of fruit received and the carrier (including the truck license number or railroad car number, as the case may be) of each such shipment.

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which the provisions hereof are based became available and the time when such provisions must become effective in order to effectuate the declared policy of the act is insufficient; and such provisions re-

lieve restrictions on the handling of oranges and grapefruit.

The provisions of this amendment shall become effective at 12:01 a.m., c.s.t., December 12, 1960.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 7, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Orange Reg. 6]

PART 1031—ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

Limitation of Shipments

§ 1031.312 Orange Regulation 6.

(a) *Findings.* (1) Pursuant to the marketing agreement, and Order No. 131 (7 CFR Part 1031; 25 F.R. 9093), regulating the handling of oranges and grapefruit grown in the lower Rio Grande Valley in Texas, effective September 22, 1960, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation of the Texas Valley Citrus Committee established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Texas Valley Citrus Committee on December 5, 1960, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; and terms relating to grade and diameter, when used herein, shall have the same meaning as is given to the respective term in the United States Standards for Oranges (Texas and States other than Florida, California, and Arizona) (§§ 51.680–51.712 of this title).

(2) During the period beginning at 12:01 a.m., c.s.t., December 12, 1960, and ending at 12:01 a.m., c.s.t., January 9, 1961, no handler shall handle:

(i) Any oranges of any variety, grown in the production area, unless such oranges grade at least U.S. No. 2;

(ii) Any Navel or Early and Midseason oranges, grown as aforesaid, which are of a size smaller than 2$^{7}/_{16}$ inches in diameter, except that not more than ten (10) percent, by count, of such oranges in any lot of containers and not more than fifteen (15) percent, by count, of such oranges in any individual container in such lot may be of a size smaller than 2$^{7}/_{16}$ inches in diameter;

(iii) Any Valencia and similar late type oranges, grown as aforesaid, which are of a size smaller than 3$^{3}/_{16}$ inches in diameter, except that not more than ten (10) percent, by count, of such oranges in any lot of containers, and not more than fifteen (15) percent, by count, of such oranges in any individual container in such lot, may be of a size smaller than 3$^{3}/_{16}$ inches in diameter; or

(iv) Any oranges of any variety, grown as aforesaid, which are place packed in containers, unless such oranges meet the requirements of standard pack or, if not so packed, such oranges meet all applicable requirements of standard sizing and fill; *Provided,* That the minimum and maximum diameters of the individual oranges in any container shall conform to the following applicable range of diameter measurements except that not to exceed ten (10) percent, by count, of the oranges in any such container may measure less than the minimum or more than the maximum applicable diameter limits specified for the particular size: *Provided, further,* That the provisions of this subdivision (iv) shall not apply to the oranges in any gift package of fruit.

Pack sizes in 1⅗ bushel box:	Diameter limits in inches	
	Minimum	*Maximum*
100	3$^{5}/_{16}$	3$^{13}/_{16}$
125	3$^{3}/_{16}$	3$^{9}/_{16}$
163	2$^{15}/_{16}$	3$^{5}/_{16}$
200	2$^{11}/_{16}$	3$^{1}/_{16}$
252	2$^{7}/_{16}$	2$^{13}/_{16}$

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 7, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Grapefruit Reg. 6]

PART 1031—ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

Limitation of Shipments

§ 1031.313 Grapefruit Regulation 6.

(a) *Findings.* (1) Pursuant to the marketing agreement, and Order No. 131 (7 CFR Part 1031; 25 F.R. 9093), regulating the handling of oranges and grapefruit grown in the lower Rio Grande Valley in Texas, effective September 22, 1960, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation of the Texas Valley Citrus Committee established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all grapefruit, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Texas Valley Citrus Committee on December 5, 1960, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; and terms relating to grade and diameter when used herein, shall have the same meaning as is given to the respective term in the United States Standards for Grapefruit (Texas and States other than Florida, California, and Arizona) (§§ 51.620–51.658 of this title).

(2) During the period beginning at 12:01 a.m., c.s.t., December 12, 1960, and ending at 12:01 a.m., c.s.t., January 9, 1961, no handler shall handle:

(i) Any container of grapefruit of any variety, grown in the production area, unless such grapefruit grade U.S. Fancy, U.S. No. 1 Bright, U.S. No. 1, or U.S. No. 2;

(ii) Any seedless grapefruit, grown as aforesaid, which are of a size smaller than 3$^{9}/_{16}$ inches in diameter, except that not more than ten (10) percent, by count, of such seedless grapefruit in any lot of containers, and not more than fifteen (15) percent, by count, of such seedless grapefruit in any individual container in such lot, may be of a size smaller than 3$^{9}/_{16}$ inches in diameter: *Provided,* That none of such seedless grapefruit that is smaller than 3$^{9}/_{16}$ inches in diameter may be smaller than 3$^{6}/_{16}$ inches in diameter;

(iii) Any seeded grapefruit, grown as aforesaid, which are of a size smaller than 3$^{13}/_{16}$ inches in diameter, except that not more than ten (10) percent, by count, of such seeded grapefruit in any lot of containers, and not more than fifteen (15) percent, by count, of such seeded grapefruit in any individual container in such lot, may be a size smaller than 3$^{13}/_{16}$ inches in diameter; or

(iv) Any grapefruit of any variety, grown as aforesaid, which are place packed in boxes or cartons, unless such grapefruit meet the requirements of standard pack or, if not so packed, such grapefruit are fairly uniform in size and the containers are well filled: *Provided,* That the provisions of this subdivision (iv) shall not apply to the grapefruit in any gift package of fruit.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 7, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

SUBCHAPTER E—REGULATIONS UNDER NATURAL GAS ACT

[Docket No. R–198; Order No. 230]

PART 154—RATE SCHEDULES AND TARIFFS

Making Producer Rates Effective at End of Suspension Period

DECEMBER 5, 1960.

The Commission has before it for consideration the amendment of § 154.102, Part 154, Rate Schedules and Tariffs, of Subchapter E, regulations under the Natural Gas Act, Chapter I of Title 18, Code of Federal Regulations.

The section amended hereby was prescribed by Order No. 215 issued October 9, 1959 (24 F.R. 8373; 22 FPC 668), and was designed to establish a procedure whereby suspended filings of proposed changes in rates may be made effective at the expiration of the suspension period as provided in section 4(e) of the Natural Gas Act which reads, in pertinent part, as follows:

> If the proceeding on the lawfulness of the proposed changes has not been concluded and an order made at the expiration of the suspension period, on motion of the natural gas company making the filing, the proposed change of rate, charge, classification, or service shall go into effect.

The purpose of the amendment herein adopted is to make it clear that the rate or charge which thus "shall go into effect" upon the filing of a motion is the only legally effective rate which the producer may charge until or unless otherwise ordered by the Commission. The regulation, as amended, directs that that rate shall be charged.

The Commission finds:

(1) Since the amendment herein prescribed (a) is an interpretation of the Natural Gas Act; (b) a clarification of the regulation which is amended; and (c) could be provided for by Commission order without notice in the case of each individual motion to make proposed changes effective at the expiration of the suspension period, prior notice under the provisions of section 4(a) of the Administrative Procedure Act is not required.

(2) The amendments herein adopted are necessary and appropriate to carry out the provisions of the Natural Gas Act.

The Commission, acting pursuant to the authority contained in the Natural Gas Act, particularly sections 4 and 16 thereof (52 Stat. 822, 830; 15 U.S.C. 717c, 717o), orders:

(A) Paragraphs (a) and (b) of § 154.102, Part 154 of Subchapter E, Chapter I of Title 18 of the Code of Federal Regulations are amended to read as follows:

(a) If a rate suspension proceeding initiated under section 4(e) of the Natural Gas Act has not been concluded and an order made at the expiration of the suspension period, the proposed change of rate, charge, classification, or service shall go into effect upon motion of the independent producer proposing the change as the legally effective rate and shall be charged, effective as of a date not earlier than the date of receipt of such motion by the Commission or the expiration of the suspension period, whichever is later. The Secretary, upon receipt of such a motion, shall, if the motion is legally adequate for the purpose, notify the movant that the proposed change shall be effective as provided in this section: *Provided,* That the Secretary shall refer to the Commission any motion requesting that a change in rate, charge, clasification, or service be made effective, if in his judgment the motion should receive the specific attention of the Commission;

(b) Unless otherwise ordered by the Commission, increased rates or charges shall be charged and collected pursuant to paragraph (a) of this section and there shall be filed by the independent producer a surety bond, or other undertaking, to be approved by the Secretary, to comply with the provisions of paragraph (c) of this section.

(B) In paragraph (c) of § 154.102 delete the words "allowed to become effective" near the end of the paragraph and insert in lieu thereof "which become effective pursuant to the motion".

(C) In paragraph (d) of § 154.102, insert the words "the bond or undertaking" in lieu of "his bond or agreement and undertaking."

(D) Paragraph (e) of § 154.102 is amended to read as follows:

(e) The bond or undertaking required by paragraph (b) of this section may be filed concurrently with the motion to make the increased rates effective. If with his motion the producer has not filed a satisfactory bond or undertaking such bond or undertaking must be filed within 30 days after the issuance of the Secretary's notice provided for in paragraph (a) of this section. Unless notified to the contrary by the Secretary of the Commission within 30 days from the date of filing, such bond or undertaking shall be deemed to be satisfactory and to have been accepted for filing.

(E) These amendments shall be effective on the issuance of this order.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60–11499; Filed Dec. 9, 1960; 8:47 a.m.]

Title 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

[T.D. 6513]

SUBCHAPTER A—INCOME TAX

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Life Insurance Companies

On August 18, 1960, notice of proposed rule making regarding amendment of the Income Tax Regulations under sections 801, 802, 804, 805, and 806 of the Internal Revenue Code of 1954, as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112), relating to life insurance companies, was published in the FEDERAL REGISTER (25 F.R. 7983). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the regulations as so published, subject to the changes set forth below, are hereby adopted. Section 1.806–3 of such regulations supersedes § 19.1–1 of Treasury Decision 6415 (26 CFR Part 19), approved September 10, 1959 (24 F.R. 7373).

PARAGRAPH 1. Paragraphs (c) and (d) of § 1.801–3 are revised.

PAR. 2. Paragraphs (a), (d), (e), and (f) of § 1.801–4 are revised.

PAR. 3. Paragraphs (b) and (c) of § 1.801–5 are revised.

PAR. 4. Paragraphs (b), (e), and (f) of § 1.804–2 are revised.

PAR. 5. Paragraph (a) of § 1.804–3 is revised.

PAR. 6. Paragraph (b) (1) (i), (ii), and (iii), (2), and (4) of § 1.804–4 is revised.

PAR. 7. Paragraph (a) (4) (iii) of § 1.805–5 is revised.

PAR. 8. Paragraph (a) of § 1.805–7 is revised.

PAR. 9. Paragraph (a) and paragraph (b) (1), (2), and (3) of § 1.805–8 are revised.

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

Approved: December 2, 1960.

FRED C. SCRIBNER, Jr.,
Acting Secretary of the Treasury.

In order to conform the Income Tax Regulations (26 CFR Part 1) under sections 801, 802, 804, 805, and 806 of the Internal Revenue Code of 1954 to the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112), such regulations are amended as follows:

PARAGRAPH 1. Section 1.801 is amended to read as follows:

DEFINITION; TAX IMPOSED

§ 1.801 Statutory provisions; life insurance companies; definition of life insurance company.

SEC. 801. *Definition of life insurance company*—(a) *Life insurance company defined.* For purposes of this subtitle, the term "life insurance company" means an insurance company which is engaged in the business of issuing life insurance and annuity contracts (either separately or combined with health and accident insurance), or noncancellable contracts of health and accident insurance, if—

(1) Its life insurance reserves (as defined in subsection (b)), plus

(2) Unearned premiums, and unpaid losses (whether or not ascertained), on noncancellable life, health, or accident policies not included in life insurance reserves,

comprise more than 50 percent of its total reserves (as defined in subsection (c)).

(b) *Life insurance reserves defined*—(1) *In general.* For purposes of this part, the term "life insurance reserves" means amounts—

(A) Which are computed or estimated on the basis of recognized mortality or morbidity tables and assumed rates of interest, and

(B) Which are set aside to mature or liquidate, either by payment or reinsurance, future unaccrued claims arising from life insurance, annuity, and noncancellable health and accident insurance contracts (including life insurance or annuity contracts combined with noncancellable health and accident insurance) involving, at the time with respect to which the reserve is computed, life, health, or accident contingencies.

(2) *Reserves must be required by law.* Except—

(A) In the case of policies covering life, health, and accident insurance combined in one policy issued on the weekly premium payment plan, continuing for life and not subject to cancellation,

(B) In the case of policies issued by an organization which meets the requirements of section 501(c)(9) other than the requirement of subparagraph (B) thereof, and

(C) As provided in paragraph (3), in addition to the requirements set forth in paragraph (1), life insurance reserves must be required by law.

(3) *Assessment companies.* In the case of an assessment life insurance company or association, the term "life insurance reserves" includes—

(A) Sums actually deposited by such company or association with State or Territorial officers pursuant to law as guaranty or reserve funds, and

(B) Any funds maintained, under the charter or articles of incorporation or association (or bylaws approved by a State insurance commissioner) of such company or association, exclusively for the payment of claims arising under certificates of membership or policies issued on the assessment plan and not subject to any other use.

For purposes of this part, the rate of interest assumed in calculating the reserves described in subparagraphs (A) and (B) shall be 3 percent.

(4) *Deficiency reserves excluded.* The term "life insurance reserves" does not include deficiency reserves. For purposes of this subsection and subsection (c), the deficiency reserve for any contract is that portion of the reserve for such contract equal to the amount (if any) by which—

(A) The present value of the future net premiums required for such contract, exceeds

(B) The present value of the future actual premiums and consideration charged for such contract.

(5) *Amount of reserves.* For purposes of this subsection, subsection (a), and subsection (c), the amount of any reserve (or portion thereof) for any taxable year shall be the mean of such reserve (or portion thereof) at the beginning and end of the taxable year.

(c) *Total reserves defined.* For purposes of subsection (a), the term "total reserves" means—

(1) Life insurance reserves,

(2) Unearned premiums, and unpaid losses (whether or not ascertained), not included in life insurance reserves, and

(3) All other insurance reserves required by law.

The term "total reserves" does not include deficiency reserves (within the meaning of subsection (b)(4)).

(d) *Adjustments in reserves for policy loans.* For purposes only of determining under subsection (a) whether or not an insurance company is a life insurance company, the life insurance reserves, and the total reserves, shall each be reduced by an amount equal to the mean of the aggregates, at the beginning and end of the taxable year, of the policy loans outstanding with respect to contracts for which life insurance reserves are maintained.

(e) *Guaranteed renewable contracts.* For purposes of this part, guaranteed renewable life, health, and accident insurance shall be treated in the same manner as noncancellable life, health, and accident insurance.

(f) *Burial and funeral benefit insurance companies.* A burial or funeral benefit insurance company engaged directly in the manufacture of funeral supplies or the performance of funeral services shall not be taxable under this part but shall be taxable under section 821 or section 831.

(g) *Variable annuities*—(1) *In general.* For purposes of this part, an annuity contract includes a contract which provides for the payment of a variable annuity computed on the basis of recognized mortality tables and the investment experience of the company issuing the contract.

(2) *Adjusted reserves rate; assumed rate.* For purposes of this part—

(A) The adjusted reserves rate for any taxable year with respect to annuity contracts described in paragraph (1), and

(B) The rate of interest assumed by the taxpayer for any taxable year in calculating the reserve on any such contract,

shall be a rate equal to the current earnings rate determined under paragraph (3).

(3) *Current earnings rate.* For purposes of this part, the current earnings rate for any taxable year with respect to annuity contracts described in paragraph (1) is the current earnings rate determined under section 805(b)(2) with respect to such contracts, reduced by the percentage obtained by dividing—

(A) The amount of the actuarial margin charge on all annuity contracts described in paragraph (1) issued by the taxpayer, by

(B) The mean of the reserves for such contracts.

(4) *Increases and decreases in reserves.* For purposes of subsections (a) and (b) of section 810, the sum of the items described in section 810(c) taken into account as of the close of the taxable year shall, under regulations prescribed by the Secretary or his delegate, be adjusted—

(A) By subtracting therefrom an amount equal to the sum of the amounts added from time to time (for the taxable year) to the reserves for annuity contracts described in paragraph (1) by reason of appreciation in value of assets (whether or not the assets have been disposed of), and

(B) By adding thereto an amount equal to the sum of the amounts subtracted from time to time (for the taxable year) from such reserves by reason of depreciation in value of assets (whether or not the assets have been disposed of).

(5) *Companies issuing variable annuities and other contracts.* In the case of a life insurance company which issues both annuity contracts described in paragraph (1) and other contracts, under regulations prescribed by the Secretary or his delegate—

(A) The policy and other contract liability requirements shall be considered to be the sum of—

(i) The policy and other contract liability requirements computed by reference to the items which relate to annuity contracts described in paragraph (1), and

(ii) The policy and other contract liability requirements computed by excluding the items taken into account under clause (i); and

(B) Such additional separate computations, with respect to such annuity contracts and such other contracts, shall be made as may be necessary to carry out the purposes of this subsection and this part.

(6) *Termination.* Paragraphs (1), (2), (3), (4), and (5) shall not apply with respect to any taxable year beginning after December 31, 1962.

[Sec. 801 as amended by sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 36); sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 112)]

PAR. 2. There are inserted immediately after § 1.801–1 the following new sections:

§ 1.801–2 Taxable years affected.

Section 1.801–1 is applicable only to taxable years beginning after December 31, 1953, and before January 1, 1955, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, before amendments. Sections 1.801–3 through 1.801–7 are applicable only to taxable years beginning after December 31, 1957, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112).

§ 1.801–3 Definitions.

For purposes of part I, subchapter L, chapter 1 of the Code, this section defines the following terms, which are to be used in determining if a taxpayer is a life insurance company (as defined in section 801(a) and paragraph (b) of this section):

(a) *Insurance company.* (1) The term "insurance company" means a company whose primary and predominant business activity during the taxable year is the issuing of insurance or annuity contracts or the reinsuring of risks underwritten by insurance companies. Thus, though its name, charter powers, and subjection to State insurance laws are significant in determining the business which a company is authorized and intends to carry on, it is the character of the business actually done in the taxable year which determines whether a company is taxable as an insurance company under the Internal Revenue Code.

(2) Insurance companies include both stock and mutual companies, as well as mutual benefit insurance companies. A voluntary unincorporated association of employees (including an association fulfilling the requirements of section 801(b)(2)(B)) formed for the purpose of relieving sick and aged members and the dependents of deceased members is an insurance company, whether the fund for such purpose is created wholly by membership dues or partly by contributions from the employer. A corporation which merely sets aside a fund for the insurance of its employees is not an insurance company, and the income from such fund shall be included in the return of the corporation.

(b) *Life insurance company.* (1) The term "life insurance company", as used in subtitle A of the Code, is defined in section 801(a). For the purpose of determining whether a company is a "life insurance company" within the meaning of that term as used in section 801(a), it must first be determined whether the company is taxable as an insurance company (as defined in paragraph (a) of this section). An insurance company shall be taxed as a life insurance company if it is engaged in the business of issuing life insurance and annuity contracts (either separately or combined with health and accident insurance), or noncancellable contracts of health and accident insurance, and its life insurance reserves (as defined in section 801(b) and § 1.801–4), plus unearned premiums, and unpaid losses (whether or not ascertained), on noncancellable life, health, or accident policies not included in life insurance reserves, comprise more than 50 percent of its total reserves (as defined in section 801(c) and § 1.801–5). For purposes of determining whether it satisfies the percentage requirements of the preceding sentence, a company shall first make any adjustments to life insurance reserves and total reserves required by section 806(a) (relating to adjustments for certain changes in reserves and assets) and then as required by section 801(d) (relating to adjustments in reserves for policy loans). For examples of the adjustments required under section 806(a), see paragraph (b)(4) of § 1.806–3. For an example of the adjustments required under section 801(d), see paragraph (c) of § 1.801–6. Furthermore, if an insurance company which computes its life insurance reserves on a preliminary term basis elects to revalue such reserves on a net level premium basis under section 818(c), such revalued basis shall be disregarded for purposes of section 801.

(2) An insurance company writing only noncancellable life, health, or accident policies and having no "life insurance reserves" may qualify as a life insurance company if its unearned premiums, and unpaid losses (whether or not ascertained), on such policies comprise more than 50 percent of its total reserves.

(3) Section 801(f) provides that a burial or funeral benefit insurance company engaged directly in the manufacture of funeral supplies or the performance of funeral services shall not be taxable under section 802 but shall be taxable under section 821 or section 831 as an insurance company other than life.

(c) *Noncancellable life, health, or accident insurance policy.* The term "noncancellable life, health, or accident insurance policy" means a health and accident contract, or a health and accident contract combined with a life insurance or annuity contract, which the insurance company is under an obligation to renew or continue at a specified premium and with respect to which a reserve in addition to the unearned premiums (as defined in paragraph (e) of this section) must be carried to cover that obligation. Such a health and accident contract shall be considered noncancellable even though it states a termination date at a stipulated age, if, with respect to the health and accident contract, such age termination date is 60 or over. Such a contract, however, shall not be considered to be noncancellable after the age termination date stipulated in the contract has passed. However, if the age termination date stipulated in the contract occurs during the period covered by a premium received by the life insurance company prior to such date, and the company cannot cancel or modify the contract during such period, the age termination date shall be deemed to occur at the expiration of the period for which the premium has been received.

(d) *Guaranteed renewable life, health, and accident insurance policy.* The term "guaranteed renewable life, health, and accident insurance policy" means a health and accident contract, or a health and accident contract combined with a life insurance or annuity contract, which is not cancellable by the company but under which the company reserves the right to adjust premium rates by classes in accordance with its experience under the type of policy involved, and with respect to which a reserve in addition to the unearned premiums (as defined in paragraph (e) of this section) must be carried to cover that obligation. Section 801(e) provides that such policies shall be treated in the same manner as noncancellable life, health, and accident insurance policies. For example, the age termination date requirements applicable to noncancellable health and accident insurance policies shall also apply to guaranteed renewable life, health, and accident insurance policies. See paragraph (c) of this section.

(e) *Unearned premiums.* The term "unearned premiums" means those amounts which shall cover the cost of carrying the insurance risk for the period for which the premiums have been paid in advance. Such term includes all unearned premiums, whether or not required by law.

(f) *Life insurance reserves.* For the definition of the term "life insurance reserves", see section 801(b) and § 1.801–4.

(g) *Unpaid losses (whether or not ascertained).* The term "unpaid losses (whether or not ascertained)" means a reasonable estimate of the amount of the losses (based upon the facts in each case and the company's experience with similar cases)—

(1) Reported and ascertained by the end of the taxable year but where the amount of the loss has not been paid by the end of the taxable year,

(2) Reported by the end of the taxable year but where the amount thereof has not been either ascertained or paid by the end of the taxable year, or

(3) Which have occurred by the end of the taxable year but which have not been reported or paid by the end of the taxable year.

(h) *Total reserves.* For the definition of the term "total reserves", see section 801(c) and § 1.801–5.

(i) *Amount of reserves.* For purposes of subsections (a), (b), and (c) of section 801 and this section, section 801(b)(5) provides that the amount of any reserve (or portion thereof) for any taxable year shall be the mean of such reserve (or

portion thereof) at the beginning and end of the taxable year.

§ 1.801–4 Life insurance reserves.

(a) *Life insurance reserves defined.* For purposes of part I, subchapter L, chapter 1 of the Code, the term "life insurance reserves" (as defined in section 801(b)) means those amounts—

(1) Which are computed or estimated on the basis of recognized mortality or morbidity tables and assumed rates of interest;

(2) Which are set aside to mature or liquidate, either by payment or reinsurance, future unaccrued claims arising from life insurance, annuity, and noncancellable health and accident insurance contracts (including life insurance or annuity contracts combined with noncancellable health and accident insurance) involving, at the time with respect to which the reserve is computed, life, health, or accident contingencies; and

(3) Which, except as otherwise provided by section 801(b)(2) and paragraphs (b) and (c) of this section, are required by law. For the meaning of the term "reserves required by law", see paragraph (b) of § 1.801–5.

For purposes of determining life insurance reserves, only those amounts shall be taken into account which must be reserved either by express statutory provisions or by rules and regulations of the insurance department of a State, Territory, or the District of Columbia when promulgated in the exercise of a power conferred by statute. Moreover, such amounts must actually be held by the company during the taxable year for which the reserve is claimed. However, reserves held by the company with respect to the net value of risks reinsured in other solvent companies (whether or not authorized) shall be deducted from the company's life insurance reserves. For example, if an ordinary life policy with a reserve of $100 is reinsured in another solvent company on a yearly renewable term basis, and the reserve on such yearly renewable term policy is $10, the reinsured company shall include $90 ($100 minus $10) in determining its life insurance reserves. Generally, life insurance reserves, as in the case of level premium life insurance, are held to supplement the future premium receipts when the latter, alone, are insufficient to cover the increased risk in the later years. For examples of reserves which qualify as life insurance reserves, see paragraph (d) of this section. For examples of reserves which do not qualify as life insurance reserves, see paragraph (e) of this section.

(b) *Certain reserves which need not be required by law.* Section 801(b)(2) sets forth certain reserves which, though not required by law, may still qualify as life insurance reserves, provided, however, that they first satisfy the requirements of section 801(b)(1) (A) and (B) and paragraph (a) (1) and (2) of this section. Thus, reserves need not be required by law—

(1) In the case of policies covering life, health, and accident insurance combined in one policy issued on the weekly premium payment plan, continuing for life and not subject to cancellation, and

(2) In the case of policies issued by an organization which meets the requirements of section 501(c)(9) other than the requirement of subparagraph (B) thereof.

(c) *Assessment companies.* Section 801(b)(3) provides that in the case of an assessment life insurance company or association, the term "life insurance reserves" includes—

(1) Sums actually deposited by such company or association with officers of a State or Territory pursuant to law as guaranty or reserve funds, and

(2) Any funds maintained, under the charter or articles of incorporation or association of such company or association (or bylaws approved by the State insurance commissioner) of such company or association, exclusively for the payment of claims arising under certificates of membership or policies issued upon the assessment plan and not subject to any other use.

For purposes of part I, subchapter L, chapter 1 of the Code, the reserves described in this paragraph shall be included as life insurance reserves even though such reserves do not meet the requirements of section 801(b) and paragraph (a) of this section. However, for such reserves to be included as life insurance reserves, they must be deposited or maintained to liquidate future unaccrued claims arising from life insurance, annuity, or noncancellable health and accident insurance contracts (including life insurance or annuity contracts combined with noncancellable health and accident insurance) involving, at the time with respect to which the reserve is deposited or maintained, life, health, or accident contingencies. The rate of interest assumed in calculating the reserves described in this paragraph shall be 3 percent, regardless of the rate of interest (if any) specified in the contract in respect of such reserves.

(d) *Reserves which qualify as life insurance reserves.* The following reserves, provided they meet the requirements of section 801(b) and paragraph (a) of this section, are illustrative of reserves which shall be included as life insurance reserves:

(1) Reserves held under life insurance contracts.

(2) Reserves held under annuity contracts (including reserves held under variable annuity contracts as described in section 801(g)(1)).

(3) Reserves held under noncancellable health and accident insurance contracts (as defined in paragraph (c) of § 1.801–3) and reserves held under guaranteed renewable health and accident insurance contracts (as defined in paragraph (d) of § 1.801–3).

(4) Reserves held either separately or combined under contracts described in subparagraphs (1), (2), or (3) of this paragraph.

(5) Reserves held under deposit administration contracts. Generally, the reserves held by a life insurance company on both the active and retired lives under deposit administration contracts will meet the requirements of section 801(b) and paragraph (a) of this section.

However, reserves held by the company with respect to the net value of risks reinsured in other solvent companies (whether or not authorized) shall be deducted from the company's life insurance reserves. See paragraph (a) of this section.

(e) *Reserves and liabilities which do not qualify as life insurance reserves.* The following are illustrative of reserves and liabilities which do not meet the requirements of section 801(b) and paragraph (a) of this section and, accordingly, shall not be included as life insurance reserves:

(1) Liability for supplementary contracts not involving at the time with respect to which the liability is computed, life, health, or accident contingencies.

(2) In the case of cancellable health and accident policies and similar cancellable contracts, the unearned premiums and unpaid losses (whether or not ascertained).

(3) The unearned premiums, and unpaid losses (whether or not ascertained), on noncancellable life, health, or accident policies (and guaranteed renewable life, health, and accident policies) not included in life insurance reserves. (However, such amounts shall be taken into account under section 801(a)(2) for purposes of determining whether an insurance company is a life insurance company.)

(4) The deficiency reserve (as defined in section 801(b)(4)) for each individual contract, that is, that portion of the reserve for such contract equal to the amount (if any) by which—

(i) The present value of the future net premiums required for such contract, exceeds

(ii) The present value of the future actual premiums and consideration charged for such contract.

(5) Reserves required to be maintained to provide for the ordinary operating expenses of a business which must be currently paid by every company from its income if its business is to continue, such as taxes, salaries, and unpaid brokerage.

(6) Liability for premiums received in advance.

(7) Liability for premium deposit funds.

(8) Liability for annual and deferred dividends declared or apportioned.

(9) Liability for dividends left on deposit at interest.

(10) Liability for accrued but unsettled policy claims whether known or unreported.

(11) A mandatory securities valuation reserve.

(f) *Adjustments to life insurance reserves.* In the event it is determined on the basis of the facts of a particular case that premiums deferred and uncollected and premiums due and unpaid are not properly accruable for the taxable year under section 809 and, accordingly, are not properly includible under assets (as defined in section 805(b)(4)) for the taxable year, appropriate reduction shall be made in the life insurance reserves. This reduction shall be made when the insurance company has calculated life insurance reserves on the assumption that the premiums on all policies are paid annually or that all premiums due on or prior to the date of the annual statement have been paid.

§ 1.801–5 Total reserves.

(a) *Total reserves defined.* For purposes of section 801(a) and § 1.801–3, the term "total reserves" is defined in section 801(c) as the sum of—

(1) Life insurance reserves (as defined in section 801(b) and § 1.801–4),

(2) Unearned premiums (as defined in paragraph (e) of § 1.801–3), and unpaid losses (whether or not ascertained) (as defined in paragraph (g) of § 1.801–3), not included in life insurance reserves, and

(3) All other insurance reserves required by law.

The term "total reserves" does not, however, include deficiency reserves (within the meaning of section 801(b)(4) and paragraph (e)(4) of § 1.801–4), even though such deficiency reserves are required by State law. In determining total reserves, a company is permitted to make use of the highest aggregate reserve required by any State or Territory or the District of Columbia in which it transacts business, but the reserve must have been actually held during the taxable year for which the reserve is claimed. For example, during the taxable year 1958 a life insurance company sells life insurance and annuity contracts in States A and B. State A requires reserves of 10 against the life and 5 against the annuity business. State B requires reserves of 9 against the life and 7 against the annuity business. Assuming the company actually holds these reserves during the taxable year 1958, its highest aggregate reserve for such taxable year is the 16 required by State B. Thus, the company is not permitted to compute its highest aggregate reserve by taking State A's requirement of 10 against its life insurance business and adding it to State B's requirement of 7 against its annuity business.

(b) *Reserves required by law defined.* For purposes of part I, subchapter L, chapter 1 of the Code, the term "reserves required by law" means reserves which are required either by express statutory provisions or by rules and regulations of the insurance department of a State, Territory, or the District of Columbia when promulgated in the exercise of a power conferred by statute, and which are reported in the annual statement of the company and accepted by state regulatory authorities as held for the fulfillment of the claims of policyholders or beneficiaries.

(c) *Information to be filed.* In any case where reserves are claimed, sufficient information must be filed with the return to enable the district director to determine the validity of the claim. See section 6012 and paragraph (c) of § 1.6012–2. If the basis (for Federal income tax purposes) for determining the amount of any of the life insurance reserves as of the close of the taxable year differs from the basis for such determination as of the beginning of the taxable year then the following information must be filed with respect to all such changes in basis:

(1) The nature of the life insurance reserve (i.e., life, annuity, etc.);

(2) The mortality or morbidity table, assumed rate of interest, method used in computing or estimating such reserve on the old basis, and the amount of such reserve at the beginning and close of the taxable year computed on the old basis;

(3) The mortality or morbidity table, assumed rate of interest, method used in computing or estimating such reserve on the new basis, and the amount of such reserve at the close of the taxable year computed on the new basis;

(4) The deviation, if any, from recognized mortality or morbidity tables, or recognized methods of computation;

(5) The reasons for the change in basis of such reserve; and

(6) Whether such change in the reserve has been approved or accepted by the regulatory authorities of the State of domicile, and if so, a copy of the letter, certificate, or other evidence of such approval or acceptance.

(d) *Illustration of principles.* The provisions of section 801 relating to the percentage requirements for qualification as a life insurance company may be illustrated by the following example:

Example. The books of Y, an insurance company, selling life insurance, noncancellable health and accident insurance, and cancellable accident and health insurance, reflect (after adjustment under sections 806(a) and 801(d)) the following facts for the taxable year 1958:

	Jan. 1	Dec. 31	Mean of year
1. Life insurance reserves	$3,000	$5,000	$4,000
2. Unearned premiums, and unpaid losses (whether or not ascertained), on noncancellable accident and health insurance not included in life insurance reserves	400	600	500
3. Unearned premiums, and unpaid losses (whether or not ascertained), on cancellable accident and health insurance	1,800	2,200	2,000
4. All other insurance reserves required by law	900	1,100	1,000
5. Total reserves			7,500

The rules provided by section 801 require that the sum of the mean of the year figures in items 1 and 2 comprise more than 50 percent of the mean of the year figure in item 5 for an insurance company to qualify as a life insurance company. Thus, Y would qualify as a life insurance company for the taxable year 1958 as the sum of the mean of the year figures in items 1 and 2 ($4,500) comprise 60 percent of the mean of the year figure in item 5 ($7,500).

§ 1.801–6 Adjustments in reserves for policy loans.

(a) *In General.* Section 801(d) provides that for purposes only of determining whether or not an insurance company is a life insurance company (as defined in section 801(a) and paragraph (b) of § 1.801–3), the life insurance reserves (as defined in section 801(b) and § 1.801–4), and the total reserves (as defined in section 801(c) and paragraph (a) of § 1.801–5), shall each be reduced by an amount equal to the mean of the aggregates, at the beginning and end of the taxable year, of the policy loans outstanding with respect to contracts for which life insurance reserves are maintained. Such reduction shall be made after any adjustments required under section 806(a) and § 1.806–3 have been made.

(b) *Policy loans defined.* The term "policy loans" includes loans made by the insurance company, by whatever name called, for which the reserve on a contract is the collateral.

(c) *Illustration of principles.* The provisions of section 801(d) and this section may be illustrated by the following example:

Example. The books of T, an insurance company, selling only life insurance and cancellable accident and health insurance, reflect (after adjustment under section 806(a)) the following facts for the taxable year 1958:

	Jan. 1	Dec. 31	Mean of year
1. Life insurance reserves	$1,000	$2,000	$1,500
2. Policy loans	80	360	450
3. Life insurance reserves less policy loans			1,050
4. Unearned premiums; and unpaid losses (whether or not ascertained), on cancellable accident and health insurance	900	1,600	1,250
5. Total reserves adjusted for policy loans (item 3 plus item 4)			2,300

As the rules provided by section 801 (a) and (d) require that the figure in item 3 ($1,050) be more than 50 percent of the mean of the year figure in item 5 ($2,300) for an insurance company to qualify as a life insurance company, T would not qualify as a life insurance company for the taxable year 1958.

§ 1.801–7 Variable annuities. [Reserved]

PAR. 3. Section 1.802(b) is amended to read as follows:

§ 1.802 Statutory provisions; life insurance companies; tax imposed; life insurance company taxable income defined.

SEC. 802. *Tax imposed*—(a) *Tax imposed*—(1) *In general.* A tax is hereby imposed for each taxable year beginning after December 31, 1957, on the life insurance company taxable income of every life insurance company. Such tax shall consist of—

(A) A normal tax on such income computed at the rate provided by section 11(b), and

(B) A surtax, on so much of such income as exceeds $25,000, computed at the rate provided by section 11(c).

(2) *Tax in case of capital gains.* If for any taxable year beginning after December 31, 1958, the net long-term capital gain of any life insurance company exceeds the net short-term capital loss, there is hereby imposed a tax equal to 25 percent of such excess.

(3) *Special rule for 1959 and 1960.* If any amount is subtracted from the policyholders surplus account under section 815(c)(3) for a taxable year beginning in 1959 or 1960 on account of a distribution in 1959 or 1960 (not including any distribution treated under section 815(d)(2)(B) as made in 1959 or 1960), the tax imposed for such taxable year on the life insurance company taxable income shall be the amount determined under paragraph (1) reduced by the following

percentage of the amount by which the tax imposed by paragraph (1) is (without regard to this paragraph) increased, on account of the amount so subtracted, by reason of section 802(b)(3)—

(A) In the case of a taxable year beginning in 1960, 66⅔ percent; and

(B) In the case of a taxable year beginning in 1960, 33⅓ percent.

The preceding sentence shall not apply with respect to any payment treated as a distribution under section 815(d)(3).

(b) *Life insurance company taxable income defined.* For purposes of this part, the term "life insurance company taxable income" means the sum of—

(1) The taxable investment income (as defined in section 804) or, if smaller, the gain from operations (as defined in section 809),

(2) If the gain from operations exceeds the taxable investment income, an amount equal to 50 percent of such excess, plus

(3) The amount subtracted from the policyholders surplus account for the taxable year, as determined under section 815.

[Sec. 802 as amended by sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 38); sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 115)]

PAR. 4. There are inserted immediately after § 1.802(b)–1 the following new sections:

§ 1.802–2 Taxable years affected.

Section 1.802(b)–1 is applicable only to taxable years beginning after December 31, 1953, and before January 1, 1955, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, before amendments. Sections 1.802–3 through 1.802–5 are applicable only to taxable years beginning after December 31, 1957, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112).

§ 1.802–3 Tax imposed on life insurance companies.

(a) *In general.* For taxable years beginning after December 31, 1957, section 802(a)(1) imposes a tax on the life insurance company taxable income (as defined in section 802(b) and paragraph (a) of § 1.802–4) of every life insurance company (including a foreign life insurance company carrying on a life insurance business within the United States if with respect to its United States business it would qualify as a life insurance company under section 801(a)). The tax imposed by section 802(a)(1) is payable upon the basis of returns rendered by the life insurance companies liable thereto. See subchapter A, chapter 61 (section 6001 and following) of the Code.

(b) *Tax imposed.* The tax imposed by section 802(a)(1) consists of a normal tax and a surtax, computed at the regular corporate normal tax and surtax rates provided by section 11 (b) and (c), respectively. The normal tax and the surtax are both computed upon the life insurance company taxable income (as defined in section 802(b)) of the life insurance company for the taxable year.

(c) *Normal tax.* The normal tax is computed by applying to the life insurance company taxable income the regular corporate normal tax rate (as in effect for the taxable year) provided by section 11(b).

(d) *Surtax.* The surtax is computed by applying to the life insurance company taxable income, in excess of $25,000, the regular corporate surtax rate (as in effect for the taxable year) provided by section 11(c). However, in certain circumstances the $25,000 exemption from surtax may be disallowed in whole or in part. See sections 269 and 1551, and the regulations thereunder.

(e) *Special rule for 1959 and 1960.* See section 802(a)(3) and paragraph (a) of § 1.802–5 for a transitional rule applicable in certain cases in determining tax liability for the taxable years 1959 and 1960 by reason of the operation of section 802(b)(3).

(f) *Tax imposed in case of certain capital gains.* For taxable years beginning after December 31, 1958, if the net long-term capital gain (as defined in section 1222(7)) of any life insurance company exceeds its net short-term capital loss (as defined in section 1222(6)), section 802(a)(2) imposes a separate tax equal to 25 percent of such excess. This separate 25 percent tax rate applies whether or not there is life insurance company taxable income, taxable investment income, or a gain or loss from operations for the taxable year. For taxable years beginning after December 31, 1958, only the excess (if any) of net short-term capital gain (as defined in section 1222(5)) over net long-term capital loss (as defined in section 1222(8)) shall be taken into account in computing taxable investment income and gain or loss from operations. See sections 804(b) and 809(b). Except as modified by section 817 (rules relating to certain gains and losses), the general rules of the Code relating to gains and losses (such as the rules for determining the amount, characterization, and treatment thereof) shall apply with respect to life insurance companies.

(g) *Foreign life insurance companies.* Foreign life insurance companies not carrying on an insurance business within the United States are not taxable under section 802, but are taxable as other foreign corporations. See section 881.

(h) *Assessment and collection of tax imposed.* All provisions of the Internal Revenue Code and of the regulations in this part not inconsistent with the specific provisions of sections 801 to 820, inclusive, are applicable to the assessment and collection of the tax imposed by section 802(a), and life insurance companies are subject to the same penalties as are provided in the case of returns and payment of income tax by other corporations. The return shall be on Form 1120L.

(i) *Illustration of principles.* The provisions of section 802(a), other than paragraph (3) thereof, and this section may be illustrated by the following example:

Example. For the taxable year 1959, T, a life insurance company, has life insurance company taxable income of $300,000 (including $25,000 of net short-term capital gain) and $80,000 of net long-term capital gain. The tax of T under section 802(a) for 1959 is $170,500 ($90,000 normal tax, $60,500 surtax, and $20,000 capital gains tax) computed as follows:

COMPUTATION OF NORMAL TAX

Life insurance company taxable income	$300,000
Normal tax (30% of $300,000)	90,000

COMPUTATION OF SURTAX

Life insurance company taxable income	$300,000
Less: Exemption from surtax	25,000
Excess of life insurance company taxable income subject to surtax	275,000
Surtax (22% of $275,000)	60,500

COMPUTATION OF CAPITAL GAINS TAX

Excess of net long-term capital gain over net short-term capital loss	$80,000
Capital gains tax (25% of $80,000)	20,000

§ 1.802–4 Life insurance company taxable income.

(a) *Life insurance company taxable income defined.* Section 802(b) defines the term "life insurance company taxable income", for purposes of part I, subchapter L, chapter 1 of the Code, as the sum of—

(1) The taxable investment income (as defined in section 804), or, if smaller, the gain from operations (as defined in section 809),

(2) If the gain from operations exceeds the taxable investment income, an amount equal to 50 percent of such excess, plus

(3) The amount subtracted from the policyholders surplus account for the taxable year, as determined under section 815.

If for any taxable year there is a loss from operations (as defined in section 809(b)(2)), the amount taken into account under paragraphs (1) and (2) of section 802(b) and subparagraphs (1) and (2) of this paragraph shall be zero. However, even in such a case, there may still be an amount includible in life insurance company taxable income (and hence an amount subject to tax) by reason of an amount includible under section 802(b)(3) and subparagraph (3) of this paragraph.

(b) *Illustration of principles.* The provisions of section 802(b) and this section may be illustrated by the following examples:

Example (1). For the taxable year 1959, Y, a life insurance company, has taxable investment income of $250,000, and a gain from operations of $175,000. Y made no subtractions from the policyholders surplus account during such taxable year. For the taxable year 1959, Y has life insurance company taxable income of $175,000.

Example (2). The facts are the same as in example (1) except that for the taxable year 1959, Y has a gain from operations of $400,000. For the taxable year 1959, Y has life insurance company taxable income of $325,000, computed by adding taxable investment income ($250,000) and 50 percent ($75,000) of the amount ($150,000) by which the gain from operations ($400,000) exceeds the taxable investment income ($250,000).

Example (3). For the taxable year 1959, W, a life insurance company, has taxable investment income of zero (0) and a gain from operations of $90,000. W made no subtractions from the policyholders surplus account during such taxable year. For the taxable year 1959, W has life insurance company taxable income of $45,000, computed by adding taxable investment income (0) and 50 percent ($45,000) of the amount ($90,000) by which the gain from operations ($90,000) exceeds the taxable investment income (0).

Example (4). For the taxable year 1961, Z, a life insurance company, has taxable investment income of $100,000, a policyholders surplus account of $50,000 as of the beginning of such taxable year, a loss from operations (as defined in section 809(b)(2)) of $25,000, and subtractions from the policyholders surplus account in the amount of $20,000. For the taxable year 1961, Z has life insurance company taxable income of $20,000, as only the amount ($20,000) subtracted from the policyholders surplus account is taken into account.

§ 1.802–5 Special rule for 1959 and 1960.

(a) *Transitional rule.* Section 802(a)(3) provides a transitional rule for the determination of the tax liability of a life insurance company for the taxable years 1959 and 1960 by reason of the operation of section 802(b)(3). Except as limited by section 802(a)(3) and paragraph (b) of this section, any increase in a life insurance company's tax that is attributable to the operation of section 802(b)(3) is taken into account only to the extent of one-third and two-thirds for the taxable years 1959 and 1960, respectively. To the extent there is an increase in a life insurance company's tax that is attributable to the operation of section 802(b)(3) which is not taken into account for the taxable years 1959 and 1960 because of the transitional rule provided by section 802(a)(3) and this paragraph, such amounts shall be included in "other accounts" under section 815(a)(3). For taxable years commencing after December 31, 1960, the full amount of any increase in tax due to the operation of section 802(b)(3) shall be imposed without any further transitional reduction.

(b) *Limitations.* The transitional rule provided by section 802(a)(3) is limited solely to an increase in tax under section 802(b)(3) that is occasioned by the operation of section 815(c)(3) (relating to subtractions from the policyholders surplus account by reason of distributions to shareholders). This rule is further limited to actual distributions that are made by life insurance companies in 1959 or 1960 and does not extend to other distributions that are treated under section 815(d)(2)(B) as made by life insurance companies in 1959 or 1960. Furthermore, section 802(a)(3) shall not apply to any increase in tax under section 802(b)(3) that is attributable to other subtractions from the policyholders surplus account by reason of the operation of the special rules contained in section 815(d). However, the transitional rule provided by section 802(a)(3) does apply in the case of a distribution to which section 815(e)(1)(B)(ii) applies.

(c) *Illustration of principles.* The provisions of section 802(a)(3) and this section may be illustrated by the following example:

Example. For the taxable year 1960, X, a life insurance company, had taxable investment income of $9,000, gain from operations of $27,000, and subtractions from the policyholders surplus account of $22,000. Based upon these figures, X had life insurance company taxable income of $40,000 for 1960, of which $18,000 was includible under section 802(b)(1) and (2) and $22,000 under section 802(b)(3). Applying the tax imposed by section 802(a)(1) (at rates as in effect for 1960), without regard to the transitional rule of section 802(a)(3), X would have a tax liability of $15,300 ($40,000 multiplied by 52 percent, less $5,500). However, applying the transitional rule of section 802(a)(3), the actual tax liability of X, for 1960, would be $12,000, computed as follows:

(1)	Total tax liability (without regard to sec. 802(a)(3))	$15,300
(2)	Life insurance company taxable income	$40,000
(3)	Amount subtracted from policyholders surplus account	22,000
(4)	Item (2) less item (3)	18,000
(5)	Tax on amount includible under sec. 802(b)(1) and (2) (30% of $18,000)	5,400
(6)	Tax attributable to sec. 802(b)(3) (item (1) less item (5))	9,900
(7)	Less: 33⅓ percent of tax attributable to sec. 802(b)(3) (⅓ of $9,900)	3,300
(8)	Tax liability for 1960 after application of sec. 802(a)(3) (item (1) less item (7))	12,000

PAR. 5. Section 1.803 is amended to read as follows:

§ 1.803 Statutory provisions; life insurance companies; income and deductions.

SEC. 803. *Income and deductions*—(a) *Application of section.* The definitions and rules contained in this section shall apply only in the case of life insurance companies.

(b) *Gross investment income.* For purposes of this part, the term "gross investment income" means the sum of the following:

(1) The gross amount of income received or accrued from—

(A) Interest, dividends, rents, and royalties,

(B) The entering into of any lease, mortgage, or other instrument or agreement from which the life insurance company derives interest, rents, or royalties, and

(C) The alteration or termination of any instrument or agreement described in subparagraph (B).

(2) The gross income from any trade or business (other than an insurance business) carried on by the life insurance company, or by a partnership of which the life insurance company is a partner. In computing gross income under this paragraph, there shall be excluded any item described in paragraph (1).

In computing gross investment income under this subsection, there shall be excluded any gain from the sale or exchange of a capital asset, and any gain considered as gain from the sale or exchange of a capital asset.

(c) *Net investment income defined.* The term "net investment income" means the gross investment income less the following deductions:

(1) *Tax-free interest.* The amount of interest received or accrued during the taxable year which under section 103 is excluded from gross income.

(2) *Investment expenses.* (A) Investment expenses paid or accrued during the taxable year.

(B) If any general expenses are in part assigned to or included in the investment expenses, the total deduction under this paragraph shall not exceed—

(i) One-fourth of 1 percent of the mean of the book value of the invested assets held at the beginning and end of the taxable year, plus

(ii) One-fourth of the amount by which the net investment income (computed without any deduction for investment expenses allowed by this paragraph, or for tax-free interest allowed by paragraph (1)) exceeds 3¾ percent of the book value of the mean of the invested assets held at the beginning and end of the taxable year.

(3) *Real estate expenses.* Taxes (as provided in section 164), and other expenses, paid or accrued during the taxable year exclusively on or with respect to the real estate owned by the company. No deduction shall be allowed under this paragraph for any amount paid out for new buildings, or for permanent improvements or betterments made to increase the value of any property.

(4) *Depreciation.* The depreciation deduction allowed by section 167.

(5) *Depletion.* The deduction allowed by section 611 (relating to depletion).

(6) *Trade or business deductions.* The deductions allowed by this subtitle (without regard to this part) which are attributable to any trade or business (other than an insurance business) carried on by the life insurance company, or by a partnership of which the life insurance company is a partner; except that for purposes of this paragraph—

(A) There shall be excluded losses from—

(i) Sales or exchanges of capital assets,

(ii) Sales or exchanges of property used in the trade or business (as defined in section 1231(b)), and

(iii) The compulsory or involuntary conversion (as a result of destruction, in whole or in part, theft or seizure, or an exercise of the power of requisition or condemnation or the threat or imminence thereof) of property used in the trade or business (as so defined).

(B) Any item, to the extent attributable to the carrying on of the insurance business, shall not be taken into account.

(C) The deduction for net operating losses provided in section 172, and the special deductions for corporations provided in part VIII of subchapter B, shall not be allowed.

(d) *Rental value of real estate.* The deduction under subsection (c) (3) and (4) on account of any real estate owned and occupied in whole or in part by a life insurance company shall be limited to an amount which bears the same ratio to such deduction (computed without regard to this subsection) as the rental value of the space not so occupied bears to the rental value of the entire property.

(e) *Amortization of premium and accrual of discount.* The gross investment income, the deduction for wholly-exempt interest allowed by subsection (c)(1), and the deduction allowed by section 242 (relating to partially tax-exempt interest) shall each be decreased to reflect the appropriate amortization of premium and increased to reflect the appropriate accrual of discount attributable to the taxable year on bonds, notes, debentures, or other evidences of indebtedness held by a life insurance company. Such amortization and accrual shall be determined—

(1) In accordance with the method regularly employed by such company, if such method is reasonable, and

(2) In all other cases in accordance with regulations prescribed by the Secretary or his delegate.

[Sec. 803 as amended by Sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 39)]

PAR. 6. There are inserted immediately after § 1.803–6 the following new sections:

§ 1.803–7 Taxable years affected.

Sections 1.803–1 through 1.803–6 are applicable only to taxable years beginning after December 31, 1953, and before January 1, 1955, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, before amendments.

INVESTMENT INCOME

§ 1.804 Statutory provisions; life insurance companies; taxable investment income.

SEC. 804. *Taxable investment income*—(a) *In general*—(1) *Exclusion of policyholders' share of investment yield.* The policyholders' share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received) of any life insurance company shall not be included in taxable investment income. For purposes of the preceding sentence, the policyholders' share of any item shall be that percentage obtained by dividing the policy and other contract liability requirements by the investment yield; except that if the policy and other contract liability requirements exceed the investment yield, then the policyholders' share of any item shall be 100 percent.

(2) *Taxable investment income defined.* For purposes of this part, the taxable investment income for any taxable year shall be an amount (not less than zero) equal to the sum of the life insurance company's share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received), reduced by—

(A) The sum of—

(i) The life insurance company's share of interest which under section 103 is excluded from gross income,

(ii) The deduction for partially tax-exempt interest provided by section 242 (as modified by paragraph (3)) computed with respect to the life insurance company's share of such interest, and

(iii) The deductions for dividends received provided by sections 243, 244, and 245 (as modified by paragraph (5)) computed with respect to the life insurance company's share of the dividends received; and

(B) The small business deduction provided by paragraph (4).

For purposes of the preceding sentence, the life insurance company's share of any item shall be that percentage which, when added to the percentage obtained under the second sentence of paragraph (1), equals 100 percent.

(3) *Partially tax-exempt interest.* For purposes of this part, the deduction allowed by section 242 shall be an amount which bears the same ratio to the amount determined under such section without regard to this paragraph as (A) the normal tax rate for the taxable year prescribed by section 11, bears to (B) the sum of the normal tax rate and the surtax rate for the taxable year prescribed by section 11.

(4) *Small business deduction.* For purposes of this part, the small business deduction is an amount equal to 10 percent of the investment yield for the taxable year. The deduction under this paragraph shall not exceed $25,000.

(5) *Application of section 246(b).* In applying section 246(b) (relating to limitation on aggregate amount of deductions for dividends received) for purposes of this subsection, the limit on the aggregate amount of the deductions allowed by sections 243 (a), 244, and 245 shall be 85 percent of the taxable investment income computed without regard to the deductions allowed by such sections.

(6) *Exception.* If it is established in any case that the application of the definition of taxable investment income contained in paragraph (2) results in the imposition of tax on—

(A) Any interest which under section 103 is excluded from gross income,

(B) Any amount of interest which under section 242 (as modified by paragraph (3)) is allowable as a deduction, or

(C) Any amount of dividends received which under sections 243, 244, and 245 (as modified by paragraph (5)) is allowable as a deduction.

Adjustment shall be made to the extent necessary to prevent such imposition.

(b) *Gross investment income.* For purposes of this part, the term "gross investment income" means the sum of the following:

(1) *Interest, etc.* The gross amount of income from—

(A) Interest, dividends, rents, and royalties,

(B) The entering into of any lease, mortgage, or other instrument or agreement from which the life insurance company derives interest, rents, or royalties, and

(C) The alteration or termination of any instrument or agreement described in subparagraph (B).

(2) *Short-term capital gain.* In the case of a taxable year beginning after December 31, 1958, the amount (if any) by which the net short-term capital gain exceeds the net long-term capital loss.

(3) *Trade or business income.* The gross income from any trade or business (other than an insurance business) carried on by the life insurance company, or by a partnership of which the life insurance company is a partner. In computing gross income under this paragraph, there shall be excluded any item described in paragraph (1).

Except as provided in paragraph (2), in computing gross investment income under this subsection, there shall be excluded any gain from the sale or exchange of a capital asset, and any gain considered as gain from the sale or exchange of a capital asset.

(c) *Investment yield defined.* For purposes of this part, the term "investment yield" means the gross investment income less the following deductions—

(1) *Investment expenses.* Investment expenses for the taxable year. If any general expenses are in part assigned to or included in the investment expenses, the total deduction under this paragraph shall not exceed the sum of—

(A) One-fourth of one percent of the mean of the assets (as defined in section 805(b)(4)) held at the beginning and end of the taxable year,

(B) The amount of the mortgage service fees for the taxable year, plus

(C) Whichever of the following is the greater:

(i) One-fourth of the amount by which the investment yield (computed without any deduction for investment expenses allowed by this paragraph) exceeds 3¾ percent of the mean of the assets (as defined in section 805(b)(4)) held at the beginning and end of the taxable year, reduced by the amount described in subparagraph (B), or

(ii) One-fourth of one percent of the mean of the value of mortgages held at the beginning and end of the taxable year for which there are no mortgage service fees for the taxable year.

(2) *Real estate expenses.* The amount of taxes (as provided in section 164), and other expenses, for the taxable year exclusively on or with respect to the real estate owned by the company. No deduction shall be allowed under this paragraph for any amount paid out for new buildings, or for permanent improvements or betterments made to increase the value of any property.

(3) *Depreciation.* The deduction allowed by section 167. The deduction under this paragraph and paragraph (2) on account of any real estate owned and occupied for insurance purposes in whole or in part by a life insurance company shall be limited to an amount which bears the same ratio to such deduction (computed without regard to this sentence) as the rental value of the space not so occupied bears to the rental value of the entire property.

(4) *Depletion.* The deduction allowed by section 611 (relating to depletion).

(5) *Trade or business deductions.* The deductions allowed by this subtitle (without regard to this part) which are attributable to any trade or business (other than an insurance business) carried on by the life insurance company, or by a partnership of which the life insurance company is a partner; except that in computing the deduction under this paragraph—

(A) There shall be excluded losses—

(i) From (or considered as from) sales or exchanges of capital assets,

(ii) From sales or exchanges of property used in the trade or business (as defined in section 1231(b)), and

(iii) From the compulsory or involuntary conversion (as a result of destruction, in whole or in part, theft or seizure, or an exercise of the power of requisition or condemnation or the threat or imminence thereof) of property used in the trade or business (as so defined).

(B) Any item, to the extent attributable to the carrying on of the insurance business, shall not be taken into account.

(C) The deduction for net operating losses provided in section 172, and the special deductions for corporations provided in part VIII of subchapter B, shall not be allowed.

[Sec. 804 as added by sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 41); amended by sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 115)]

§ 1.804–1 Taxable years affected.

Sections 1.804–2 through 1.804–4 are applicable only to taxable years beginning after December 31, 1957, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112).

§ 1.804–2 Taxable investment income.

(a) *In general.* Section 804 provides the rules for determining the taxable investment income of a life insurance company, which amount is necessary to determine life insurance company taxable income. In order to determine taxable investment income, a life insurance company must first determine its gross investment income (as defined in section 804(b) and § 1.804–3). After making such determination, the next step is to determine its investment yield (as defined in section 804(c) and § 1.804–4). After determining its investment yield, a company shall then determine the policyholders' share of each and every item of its investment yield (as computed under section 804(a)(1) and paragraph (b) of this section), as this share is excluded from taxable investment income (as defined in section 804(a)(2) and paragraph (d) of this section). Thus, only the life insurance company's share of the items comprising investment yield (less certain reductions) shall be taken into account in computing taxable investment income.

(b) *Exclusion of policyholders' share of investment yield.* Section 804(a)(1) provides that the policyholders' share

of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received) of any life insurance company shall not be included in taxable investment income. For this purpose, the percentage used in determining the policyholders' share of each of these items comprising the investment yield shall be determined by dividing the policy and other contract liability requirements (as defined in section 805(a) and paragraph (b) of § 1.805–4) by the investment yield. The percentage thus obtained is then applied to each and every item of investment yield shall be that the policyholders' share of each and every item of investment yield may be excluded from taxable investment income. However, if in any case the policy and other contract liability requirements exceed the investment yield, then the policyholders' share of any item shall be 100 percent.

(c) *Computation of life insurance company's share of investment yield.* Section 804(a)(2) provides that the percentage used in determining the life insurance company's share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received) shall be the percentage obtained by subtracting the percentage obtained under paragraph (b) of this section from 100 percent. Only the life insurance company's share of the items comprising investment yield (less certain reductions specified in section 804(a)(2) and paragraph (d)(1) of this section) shall be taken into account in computing taxable investment income. For example, if the policyholders' percentage (as determined under section 804(a)(1) and paragraph (b) of this section) is 80 percent, then the life insurance company's share is 20 percent (100 percent minus 80 percent). In such a case, if the amount of a particular item is $1,000, then the life insurance company's share of such item included in determining taxable investment income is $200 ($1,000 multiplied by 20 percent) and the policyholders' share of such item (which is excluded from taxable investment income) is $800 ($1,000 multiplied by 80 percent).

(d) *Taxable investment income of a life insurance company*—(1) *Definition.* Section 804(a)(2) defines the term "taxable investment income" for any taxable year, for purposes of part I, subchapter L, chapter 1 of the Code, as an amount (not less than zero) equal to the sum of the life insurance company's share (as determined under paragraph (c) of this section) of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received), reduced by the sum of—

(i) The life insurance company's share of interest which under section 103 is excluded from gross income,

(ii) The deduction for partially tax-exempt interest provided by section 242 (as modified by section 804(a)(3) and subparagraph (2)(i) of this paragraph) computed with respect to the life insurance company's share of such interest,

(iii) The deductions for dividends received provided by sections 243, 244, and 245 (as modified by section 804(a)(5) and subparagraph (2)(ii) of this paragraph) computed with respect to the life insurance company's share of the dividends received, and

(iv) The small business deduction provided by section 804(a)(4). For purposes of part I, such small business deduction shall be an amount equal to 10 percent of the investment yield for the taxable year (but not to exceed $25,000).

(2) *Modifications*—(i) *Partially tax-exempt interest.* For purposes of part I, the deduction allowed by section 242 (relating to partially tax-exempt interest) shall be determined by applying to the life insurance company's share of such interest the ratio which the normal tax rate (as prescribed by section 11) for the taxable year bears to the sum of the normal tax rate and the surtax rate (as prescribed by section 11) for the taxable year. For example, if for the taxable year 1959 the life insurance company's share of partially tax-exempt interest is $104, the deduction provided by section 804(a)(2)(A)(ii) (as modified by this subdivision) is $60 (thirty fifty-seconds of such partially tax-exempt interest).

(ii) *Application of section 246(b).* The sum of the deductions allowed by sections 243(a) (relating to dividends received by corporations), 244 (relating to dividends received on certain preferred stock), and 245 (relating to dividends received from certain foreign corporations) shall be limited to 85 percent of the taxable investment income (as defined in subparagraph (1) of this paragraph) of the company. The taxable investment income of the company for this purpose shall be computed without regard to the deductions provided in sections 243(a), 244, and 245.

(e) *Illustration of principles.* The provisions of section 804(a)(1) through (5) and paragraphs (a) through (d) of this section may be illustrated by the following example:

Example. For the taxable year 1958, R, a life insurance company, had investment yield of $1,000,000, including $200,000 of dividends received from domestic corporations subject to taxation under chapter 1 of the Code, $16,800 of wholly tax-exempt interest, and $83,200 of partially tax-exempt interest. For such taxable year, the policyholders' share of each and every item of investment yield was 75 percent and the company's share of each and every item of investment yield was 25 percent. Based upon these figures, R had taxable investment income of $166,300 for the taxable year 1958, computed as follows:

	Col. 1 Total	Col. 2 (75%× Col. 1) Policyholders' share	Col. 3 (25%× Col. 1) Company's share
Interest wholly tax-exempt	$16,800	$12,600	$4,200
Interest partially tax-exempt	83,200	62,400	20,800
Dividends received	200,000	150,000	50,000
Other items of investment yield	700,000	525,000	175,000
Investment yield	1,000,000	750,000	250,000
Less:			
Company's share of interest wholly tax-exempt			$4,200
30/52 of company's share of interest partially tax-exempt (30/52×$20,800)			12,000
85% of company's share of dividends received (but not to exceed 85% of taxable investment income computed without regard to this deduction) (85%×$50,000)			42,500
Small business deduction (10% of investment yield, not to exceed $25,000)			25,000
Taxable investment income			166,300

(f) *Exception.* (1) In accordance with section 804(a)(6), if it is established in any case to the satisfaction of the Commissioner, or by a determination of The Tax Court of the United States, or of any other court of competent jurisdiction, which has become final, that the application of the definition of taxable investment income contained in section 804(a)(2) results in the imposition of tax on—

(i) Any interest which under section 103 is excluded from gross income,

(ii) Any amount of interest which under section 242 (as modified by section 804(a)(3)) is allowable as a deduction, or

(iii) Any amount of dividends received which under sections 243, 244, and 245 (as modified by section 804(a)(5)) is allowable as a deduction,

adjustment shall be made to the extent necessary to prevent such imposition.

(2) For the date upon which a decision by the Tax Court becomes final, see section 7481. For the date upon which a judgment of any other court becomes final, see paragraph (c) of § 1.1313(a)–1.

§ 1.804–3 Gross investment income of a life insurance company.

(a) *Gross investment income defined.* For purposes of part I, subchapter L, chapter 1 of the Code, section 804(b) defines the term "gross investment income" of a life insurance company as the sum of the following:

(1) The gross amount of income from—

(i) Interest (including tax-exempt interest and partially tax-exempt inter-

est), as described in § 1.61–7. Interest shall be adjusted for amortization of premium and accrual of discount in accordance with the rules prescribed in section 818(b) and the regulations thereunder.

(ii) Dividends, as described in § 1.61–9.

(iii) Rents and royalties, as described in § 1.61–8.

(iv) The entering into of any lease, mortgage, or other instrument or agreement from which the life insurance company may derive interest, rents, or royalties.

(v) The alteration or termination of any instrument or agreement described in subdivision (iv) of this subparagraph.

For example, gross investment income includes amounts received as commitment fees, as a bonus for the entering into of a lease, or as a penalty for the early payment of a mortgage.

(2) In the case of a taxable year beginning after December 31, 1958, the amount (if any) by which the net short-term capital gain (as defined in section 1222(5)) exceeds the net long-term capital loss (as defined in section 1222(8)), and

(3) The gross income from any trade or business (other than an insurance business) carried on by the life insurance company, or by a partnership of which the life insurance company is a partner.

(b) *No double inclusion of income.* In computing the gross income from any trade or business (other than an insurance business) carried on by the life insurance company, or by a partnership of which the life insurance company is a partner, any item described in section 804(b)(1) and paragraph (a)(1) of this section shall not be considered as gross income arising from the conduct of such trade or business or partnership, but shall be taken into account under section 804(b)(1) and paragraph (a)(1) of this section.

(c) *Exclusion of net long-term capital gains.* Any net long-term capital gains from the sale or exchange of a capital asset (or any gain considered to be from the sale or exchange of a capital asset under applicable law) shall be excluded from the gross investment income of a life insurance company. However, section 804(b)(2) and paragraph (a)(2) of this section provide that the amount (if any) by which the net short-term capital gain exceeds the net long-term capital loss shall be included in the gross investment income of a life insurance company.

§ 1.804–4 Investment yield of a life insurance company.

(a) *Investment yield defined.* Section 804(c) defines the term "investment yield" of a life insurance company for purposes of part I, subchapter L, chapter 1 of the Code. Investment yield means gross investment income (as defined in section 804(b) and paragraph (a) of § 1.804–3), less the deductions provided in section 804(c) and paragraph (b) of this section for investment expenses, real estate expenses, depreciation, depletion, and trade or business (other than an insurance business) expenses. However, such expenses are deductible only to the extent that they relate to investment income and the deduction of such expenses is not disallowed by any other provision of subtitle A of the Code. For example, investment expenses are not allowable unless they are ordinary and necessary expenses within the meaning of section 162, and under section 265, no deduction is allowable for interest on indebtedness incurred or continued to purchase or carry obligations the interest on which is wholly exempt from taxation under chapter 1 of the Code. A deduction shall not be permitted with respect to the same item more than once.

(b) *Deductions from gross investment income—(1) Investment expenses.* (i) Section 804(c)(1) provides for the deduction of investment expenses by a life insurance company in determining investment yield. "Investment expenses" are those expenses of the taxable year which are fairly chargeable against gross investment income. For example, investment expenses include salaries and expenses paid exclusively for work in looking after investments, and amounts expended for printing, stationery, postage, and stenographic work incident to the collection of interest. An itemized schedule of such expenses shall be attached to the return.

(ii) Any assignment of general expenses to the investment department of a life insurance company for which a deduction is claimed under section 804(c)(1) subjects the entire deduction for investment expenses to the limitation provided in that section and subdivision (iii) of this subparagraph. As used in section 804(c)(1), the term "general expenses" means any expense paid or incurred for the benefit of more than one department of the company rather than for the benefit of a particular department thereof. For example, if real estate taxes, depreciation, or other expenses attributable to office space owned by the company and utilized by it in connection with its investment function are assigned to investment expenses, such items shall be deductible as general expenses assigned to or included in investment expenses and as such shall be subject to the limitation of section 804(c)(1) and subdivision (iii) of this subparagraph. Similarly, if an expense, such as a salary, is attributable to more than one department, including the investment department, such expense may be properly allocated among these departments. If such expenses are allocated, the amount properly allocable to the investment department shall be deductible as general expenses assigned to or included in investment expenses and as such shall be subject to the limitation of section 804(c)(1) and subdivision (iii) of this subparagraph. If general expenses are in part assigned to or included in investment expenses, the maximum allowance (as determined under section 804(c)(1)) shall not be granted unless it is shown to the satisfaction of the district director that such allowance is justified by a reasonable assignment of actual expenses. The accounting procedure employed is not conclusive as to whether any assignment has in fact been made. Investment expenses do not include Federal income and excess profits taxes, if any. In cases where the investment expenses allowable as deductions under section 804(c)(1) exceed the limitation contained therein, see section 809(d)(9).

(iii) If any general expenses are in part assigned to or included in investment expenses, the total deduction under section 804(c)(1) shall not exceed the sum of—

(*a*) One-fourth of one percent of the mean of the assets (as defined in section 805(b)(4) and paragraph (a)(4) of § 1.805–5) held at the beginning and end of the taxable year,

(*b*) The amount of the mortgage service fees for the taxable year, plus

(c) Whichever of the following is the greater:

(*1*) One-fourth of the amount by which the investment yield (computed without any deduction for investment expenses allowed by section 804(c)(1)) exceeds 3¾ percent of the mean of the assets (as defined in section 805(b)(4)) held at the beginning and end of the taxable year, reduced by the amount of the mortgage service fees for the taxable year, or

(*2*) One-fourth of one percent of the mean of the value of mortgages held at the beginning and end of the taxable year for which there are no mortgage service fees for the taxable year. For purposes of the preceding sentence, the term "mortgages held" refers to mortgages, and other similar liens, on real property which are held by the company as security for "mortgage loans".

For purposes of section 804(c)(1)(B) and (C)(*1*) and (*b*) and (c)(*1*) of this subdivision, the term "mortgage service fees" includes mortgage origination fees. Such mortgage origination fees shall be amortized in accordance with the rules prescribed in section 818(b) and the regulations thereunder.

(iv) The operation of the limitation contained in section 804(c)(1) and subdivision (iii) of this subparagraph may be illustrated by the following example:

Example. The books of S, a life insurance company, reflect the following items for the taxable year 1958:

Investment expenses (including general expenses assigned to or included in investment expenses)	$125,000
Mean of the assets held at the beginning and end of the taxable year	20,000,000
Mortgage service fees	25,000
Investment yield computed without regard to investment expenses	1,200,000
Mean of the value of mortgages held at the beginning and end of the taxable year for which there are no mortgage service fees	6,000,000

In order to determine the limitation on investment expenses, S would make up the following schedule:

1. Mean of the assets held at the beginning and end of the taxable year	$20,000,000
2. One-fourth of 1 percent of item 1 (¼ of 1% of $20,000,000)	50,000
3. Mortgage service fees	$25,000
4. The greater of (a) or (b):	
(a)(i) Investment yield computed without regard to investment expenses	$1,200,000
(ii) Three and three-fourths percent of item 1 (3¾% × $20,000,000)	750,000
(iii) Excess of (i) over (ii) ($1,200,000 minus $750,000)	450,000
(iv) One-fourth of (iii) (¼ × $450,000)	112,500
(v) Less: Mortgage service fees (item 3)	25,000
(vi) Excess of (iv) over (v) ($112,500 minus $25,000)	$87,500
(b) One-fourth of 1 percent of the mean of the value of mortgages held at the beginning and end of the taxable year for which there are no mortgage service fees (¼ of 1% × $6,000,000)	15,000
5. The greater of item 4 (a) or (b)	$87,500
6. Limitation on investment expenses (items 2, 3, and 4(a))	162,500

As the investment expenses (including general expenses assigned to or included in investment expenses) of S for the taxable year 1958 ($125,000) do not exceed the limitation on such expenses ($162,500), S would be entitled to deduct the entire $125,000 under section 804(c)(1).

(2) *Real estate expenses and taxes.* The deduction for expenses and taxes under section 804(c)(2) includes taxes (as defined in section 164) and other expenses for the taxable year exclusively on or with respect to real estate owned by the company. For example, no deduction shall be allowed under section 804(c)(2) for amounts allowed as a deduction under section 164(e) (relating to taxes of shareholders paid by a corporation). No deduction shall be allowed under section 804(c)(2) for any amount paid out for new buildings, or for permanent improvements or betterments made to increase the value of any property. An itemized schedule of such taxes and expenses shall be attached to the return. See subparagraph (4) of this paragraph for limitation of such deduction.

(3) *Depreciation.* The deduction allowed for depreciation is, except as provided in section 804(c)(3) and subparagraph (4) of this paragraph, identical to that allowed other corporations by section 167. Such amount allowed as a deduction from gross investment income in determining investment yield is limited to depreciation sustained on the property used, and to the extent used, for the purpose of producing the income specified in section 804(b). An election with respect to any of the methods of depreciation provided in section 167 shall not be affected in any way by the enactment of the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112). However, in appropriate cases, the method of depreciation may be changed with the consent of the Commissioner. See section 167(e) and § 1.167(e)–1. See subparagraph (4) of this paragraph for limitation of such deduction. See section 809(d)(12) and the regulations thereunder for the treatment of depreciable property used in the operation of a life insurance business.

(4) *Limitation on deductions allowable under section 804 (c)(2) and (c)(3).* Section 804(c)(3) provides that the amount allowable as a deduction for taxes, expenses, and depreciation on or with respect to any real estate owned and occupied for insurance purposes in whole or in part by a life insurance company shall be limited to an amount which bears the same ratio to such deduction (computed without regard to this limitation) as the rental value of the space not so occupied bears to the rental value of the entire property. For example, T, a life insurance company, owns a twenty-story downtown home office building. The rental value of each floor of the building is identical. T rents nine floors to various tenants, one floor is utilized by it in operating its investment department, and the remaining ten floors are occupied by it in carrying on its insurance business. Since floor space equivalent to eleven-twentieths, or 55 percent, of the rental value of the entire property is owned and occupied for insurance purposes by the company, the deductions allowable under section 804(c)(2) and (3) for taxes, depreciation, and other real estate expenses shall be limited to nine-twentieths, or 45 percent, of the taxes, depreciation, and other real estate expenses on account of the entire property. However, the portion of such allowable deductions attributable to the operation of the investment department (one-twentieth, or 5 percent) may be deductible as general expenses assigned to or included in investment expenses and as such shall be subject to the limitations of section 804(c)(1). Where a deduction is claimed as provided in this section, the parts of the property occupied and the parts not occupied by the company in carrying on its insurance business, together with the respective rental values thereof, must be shown in a schedule accompanying the return.

(5) *Depletion.* The deduction for depletion (and depreciation) provided in section 804(c)(4) is identical to that allowed other corporations by section 611. The amount allowed by section 611 in the case of a life insurance company is limited to depletion (and depreciation) sustained on the property used, and to the extent used, for the purpose of producing the income specified in section 804(b). See section 611 and § 1.611–5 for special rules relating to the depreciation of improvements in the case of mines, oil and gas wells, other natural deposits, and timber.

(6) *Trade or business deductions.* (i) Under section 804(c)(5), the deductions allowed by subtitle A of the Code (without regard to this part) which are attributable to any trade or business (other than an insurance business) carried on by the life insurance company, or by a partnership of which the life insurance company is a partner are, subject to the limitations in subdivisions (ii), (iii), and (iv) of this subparagraph, allowable as deductions from the gross investment income of a life insurance company in determining its investment yield. Such deductions are allowable, however, only to the extent that they are attributable to the production of income which is included in the life insurance company's gross investment income by reason of section 804(b)(3). However, since any interest, dividends, rents, and royalties received by any trade or business (other than an insurance business) carried on by the life insurance company, or by a partnership of which the life insurance company is a partner, is included in the life insurance company's gross investment income by reason of section 804(b)(1) and paragraph (b) of § 1.804–3, any expenses fairly chargeable against the production of such income may be deductible under section 804(c)(1), (2), (3), or (4). The allowable deductions may exceed the gross income from such business.

(ii) In computing the deductions under section 804(c)(5), there shall be excluded losses—

(*a*) From (or considered as from) sales or exchanges of capital assets,

(*b*) From sales or exchanges of property used in the trade or business (as defined in section 1231(b)), and

(c) From the compulsory or involuntary conversion (as a result of destruction, in whole or in part, theft or seizure, or an exercise of the power of requisition or condemnation or the threat or imminence thereof) of property used in the trade or business (as so defined).

(iii) Any item, to the extent attributable to the carrying on of the insurance business, shall not be taken into account. For example, if a life insurance company operates a radio station primarily to advertise its own insurance services, a portion of the expenses of the radio station shall not be allowed as a deduction. The portion disallowed shall be an amount which bears the same ratio to the total expenses of the station as the value of advertising furnished to the insurance company bears to the total value of services rendered by the station.

(iv) The deduction for net operating losses provided in section 172, and the special deductions for corporations provided in part VIII, subchapter B, chapter 1 of the Code, shall not be allowed.

PAR. 7. Section 1.805 is amended to read as follows:

§ 1.805 Statutory provisions; life insurance companies; policy and other contract liability requirements.

SEC. 805. *Policy and other contract liability requirements*—(a) *In general.* For purposes of this part, the term "policy and other contract liability requirements" means, for any taxable year, the sum of—

(1) The adjusted life insurance reserves, multiplied by the adjusted reserves rate,

(2) The mean of the pension plan reserves at the beginning and end of the taxable year, multiplied by the current earnings rate, and

(3) The interest paid.

(b) *Adjusted reserves rate and earnings rates*—(1) *Adjusted reserves rate.* For purposes of this part, the adjusted reserves rate for any taxable year is the average earnings rate or, if lower, the current earnings rate.

(2) *Current earnings rate.* For purposes of this part, the current earnings rate for any taxable year is the amount determined by dividing—

(A) The taxpayer's investment yield for such taxable year, by

(B) The mean of the taxpayer's assets at the beginning and end of the taxable year.

(3) *Average earnings rate*—(A) *In general.* For purposes of this part, the average earnings rate for any taxable year is the average of the current earnings rates for such taxable year and for each of the 4 taxable years immediately preceding such taxable year (excluding any of such 4 taxable years for which the taxpayer was not an insurance company).

(B) *Special rules.* For purposes of subparagraph (A)—

(i) The current earnings rate for any taxable year beginning before January 1, 1958, shall be determined as if this part (as in effect for 1958) and section 381(c)(22) applied to such taxable year, and

(ii) The current earnings rate for any taxable year of any company which, for such year, is an insurance company (but not a life insurance company) shall be determined as if this part applied to such company for such year.

(4) *Assets.* For purposes of this part, the term "assets" means all assets of the company (including nonadmitted assets), other than real and personal property (excluding money) used by it in carrying on an insurance trade or business. For purposes of this paragraph, the amount attributable to—

(A) Real property and stock shall be the fair market value thereof, and

(B) Any other asset shall be the adjusted basis (determined without regard to fair market value on December 31, 1958) of such asset for purposes of determining gain on sale or other disposition.

(c) *Adjusted life insurance reserves*—(1) *Adjusted life insurance reserves defined.* For purposes of this part, the term "adjusted life insurance reserves" means—

(A) The mean of the life insurance reserves (as defined in section 801(b)), other than pension plan reserves, at the beginning and end of the taxable year, multiplied by

(B) That percentage which equals 100 percent—

(i) Increased by that percentage which is 10 times the average rate of interest assumed by the taxpayer in calculating such reserves, and

(ii) Reduced by that percentage which is 10 times the adjusted reserves rate.

(2) *Average interest rate assumed.* For purposes of this part, the average rate of interest assumed in calculating reserves shall be computed—

(A) By multiplying each assumed rate of interest by the means of the amounts of such reserves computed at that rate at the beginning and end of the taxable year, and

(B) By dividing (i) the sum of the products ascertained under subparagraph (A), by (ii) the mean of the total of such reserves at the beginning and end of the taxable year.

(d) *Pension plan reserves*—(1) *Pension plan reserves defined.* For purposes of this part, the term "pension plan reserves" means that portion of the life insurance reserves which is allocable to contracts—

(A) Purchased under contracts entered into with trusts which (as of the time the contracts were entered into) were deemed to be (i) trusts described in section 401(a) and exempt from tax under section 501(a), or (ii) trusts exempt from tax under section 165 of the Internal Revenue Code of 1939 or the corresponding provisions of prior revenue laws;

(B) Purchased under contracts entered into under plans which (as of the time the contracts were entered into) were deemed to be plans meeting the requirements of section 401(a) (3), (4), (5), and (6), or the requirements of section 165(a) (3), (4), (5), and (6) of the Internal Revenue Code of 1939;

(C) Provided for employees of the life insurance company under a plan which, for the taxable year, meets the requirements of section 401(a) (3), (4), (5), and (6); or

(D) Purchased to provide retirement annuities for its employees by an organization which (as of the time the contracts were purchased) was an organization described in section 501(c)(3) which was exempt from tax under section 501(a) or was an organization exempt from tax under section 101(6) of the Internal Revenue Code of 1939 or the corresponding provisions of prior revenue laws.

(2) *Special transitional rule.* For purposes of this part, the amount taken into account as pension plan reserves shall be—

(A) In the case of a taxable year beginning after December 31, 1957, and before January 1, 1959, zero;

(B) In the case of a taxable year beginning after December 31, 1958, and before January 1, 1960, 33⅓ percent of the amount thereof (determined without regard to this paragraph);

(C) In the case of a taxable year beginning after December 31, 1959, and before January 1, 1961, 66⅔ percent of the amount thereof (determined without regard to this paragraph); and

(D) In the case of a taxable year beginning after December 31, 1960, 100 percent of the amount thereof.

(e) *Interest paid.* For purposes of this part, the interest paid for any taxable year is the sum of—

(1) *Interest on indebtedness.* All interest for the taxable year on indebtedness, except on indebtedness incurred or continued to purchase or carry obligations the interest on which is wholly exempt from taxation under this chapter.

(2) *Amounts in the nature of interest.* All amounts in the nature of interest, whether or not guaranteed, for the taxable year on insurance or annuity contracts (including contracts supplementary thereto) which do not involve, at the time of accrual, life, health, or accident contingencies.

(3) *Discount on prepaid premiums.* All amounts accrued for the taxable year for discounts in the nature of interest, whether or not guaranteed, on premiums or other consideration paid in advance on insurance or annuity contracts.

(4) *Interest on certain special contingency reserves.* Interest for the taxable year on special contingency reserves established pursuant to section 8(d) of the Federal Employees' Group Life Insurance Act of 1954 (5 U.S.C., 2097(d)).

[Sec. 805 as amended by sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 43); sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 118)]

PAR. 8. There are inserted immediately after § 1.805–2 the following new sections:

§ 1.805–3 Taxable years affected.

Sections 1.805–1 and 1.805–2 are applicable only to taxable years beginning after December 31, 1953, and before January 1, 1955, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, before amendments. Sections 1.805–4 through 1.805–8, except as otherwise provided therein, are applicable only to taxable years beginning after December 31, 1957, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112).

§ 1.805–4 Policy and other contract liability requirements.

(a) *Introduction.* Section 805 relates to the determination of the policy and other contract liability requirements of a life insurance company. This determination furnishes the numerator of a fraction to be used in determining the policyholders' share of each and every item of the investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received). The denominator of this fraction is the investment yield (as determined under section 804(c) and § 1.804–4). The percentage obtained from this fraction is used in determining the policyholders' share of each and every item of the investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received), which shall not be included in taxable investment income (as determined under section 804(a)(2) and paragraph (d) of § 1.804–2).

(b) *Policy and other contract liability requirements defined.* Section 805(a) defines the term "policy and other contract liability requirements" of a life insurance company, for any taxable year, for purposes of part I, subchapter L, chapter 1 of the Code, as the sum of—

(1) The adjusted life insurance reserves (as defined in section 805(c)(1)), multiplied by the adjusted reserves rate (as defined in section 805(b)(1)),

(2) The mean of the pension plan reserves (as defined in section 805(d)(1)) at the beginning and end of the taxable year, multiplied by the current earnings rate (as defined in section 805(b)(2)), and

(3) The interest paid (as defined in section 805(e)).

§ 1.805–5 Adjusted reserves rate and earnings rates.

(a) *In general.* For purposes of part I, subchapter L, chapter 1 of the Code, section 805(b) defines the terms "adjusted reserves rate", "current earnings rate", "average earnings rate", and "assets". These terms, with such meaning ascribed to them, are to be used in computing the policy and other contract liability requirements (as determined under section 805(a)). For the meaning of the term "current earnings rate" in the case of variable annuity contracts, see section 801(g)(3). The terms "adjusted reserves rate", "current earnings rate", "average earnings rate", and "assets" are defined as follows:

(1) *Adjusted reserves rate.* For any taxable year, the term "adjusted reserves rate" means the average earnings rate (as defined in section 805(b)(3) and subparagraph (3) of this paragraph), or, if lower, the current earnings rate (as defined in section 805(b)(2) and subparagraph (2) of this paragraph).

(2) *Current earnings rate.* For any taxable year, the term "current earnings rate" means the amount determined by dividing—

(i) The taxpayer's investment yield (as determined under section 804(c)) for such taxable year, by

(ii) The mean of the taxpayer's assets (as defined in section 805(b)(4) and subparagraph (4) of this paragraph) at the beginning and end of such taxable year.

(3) *Average earnings rate*—(i) *Definition.* For any taxable year, the term "average earnings rate" means the average of the current earnings rate for such taxable year and the current earnings rate for each of the 4 taxable years immediately preceding such taxable year (excluding any of such 4 taxable years for which the taxpayer was not an insurance company).

(ii) *Special rules.* For purposes of computing the 5-year average earnings rate under section 805(b)(3)(A) and subdivision (i) of this subparagraph, the following special rules are to be applied—

(a) The current earnings rate for any taxable year beginning before January 1, 1958, shall be determined as if part I (as in effect for 1958) and section 381(c)(22) applied to such taxable year;

(b) The current earnings rate for any taxable year of any company which, for such year, is an insurance company (but not a life insurance company as defined in section 801(a)) shall be determined as if part I applied to such company for such year; and

(c) A fractional part of a year which is a taxable year under sections 441(b) and 7701(a)(23) shall be a preceding taxable year for the purpose of determining the first, second, third, or fourth preceding taxable year. For the determination of the current earnings rate for such short taxable year, see section 818(d) and the regulations thereunder.

(4) *Assets*—(i) *Definition.* Section 805(b)(4) defines the term "assets" as meaning all assets of the life insurance company (including nonadmitted assets), other than real and personal property (excluding money) used by the life insurance company in carrying on an insurance trade or business. For purposes of the preceding sentence, the term "money" includes cash, currency, bank deposits (including time deposits) whether or not interest bearing, share accounts in savings and loan associations, checks (whether or not certified), drafts, money orders, and any other item of similar nature. The following items are the only ones to be excluded from the term "assets" as being considered "used by the life insurance company in carrying on an insurance trade or business":

(a) The home office and branch office buildings (including land) owned and occupied by the life insurance company;

(b) Furniture and equipment owned by the life insurance company and used in the home office and branch office buildings occupied by the life insurance company;

(c) Supplies, stationery, and printed matter used in the operations conducted in the home office and branch office buildings occupied by the life insurance company where for tax purposes such items are inventoried; and

(d) Automobiles and other depreciable personal property used in connection with the operations conducted in the home office and branch office buildings occupied by the life insurance company.

However, if any item, or portion thereof, of property falls within one of the above-listed groups and also is an "investment asset" (an asset from which gross investment income, as defined in section 804(b), is derived), such item, or portion thereof, shall not be excluded from the term "assets". Any item, or portion thereof, excluded from the definition of the term "assets" shall not be taken into account in computing the denominator used in determining the current earnings rate under section 805(b)(2) and subparagraph (2) of this paragraph. Conversely, any item or portion thereof, included in the term "assets" shall be taken into account in computing the denominator used in determining the current earnings rate.

(ii) *Illustration of principles.* The provisions of subdivision (i) of this subparagraph may be illustrated by the following examples:

Example (1). Included in the statement of assets of P, a life insurance company, are the following items: Bonds; stocks; mortgages; home office and branch office buildings owned and wholly occupied by the company; furniture and equipment owned by the company and used in the home office and branch office buildings occupied by the company; agents' debit balances; premiums deferred and uncollected and premiums due and unpaid; bank deposits (including time deposits); and share accounts in savings and loan associations. For purposes of section 805(b)(4) and this subparagraph, the home office and branch office buildings owned and wholly occupied by the company, and the furniture and equipment owned by the company and used by it in connection with the operations conducted in the home office and branch office buildings occupied by the company, shall be excluded from the term "assets" since such items are the only ones considered as being used by P in carrying on an insurance trade or business. Accordingly, since bonds, stocks, mortgages, agents' debit balances, premiums deferred and uncollected and premiums due and unpaid, bank deposits (including time deposits), and share accounts in savings and loan associations are not considered as being used by P in carrying on an insurance trade or business, they are included within the term "assets" and, therefore, shall be taken into account by P in determining its current earnings rate.

Example (2). M, a life insurance company, owns an eleven-story downtown home office building, the ground floor of which it rents to various tenants and the remaining ten floors of which are occupied by it in carrying on its insurance business and operating its investment department. Under the provisions of section 805(b)(4) and this subparagraph, the ten floors occupied by M in carrying on its insurance business and operating its investment department shall be excluded from the term "assets". However, the ground floor rented to various tenants is an "investment asset" and as such shall be included within the term "assets" and, therefore, shall be taken into account by M in determining its current earnings rate.

(iii) *Valuation of assets.* For purposes of section 805(b)(4)—

(a) The amount attributable to real property and to stock shall be the fair market value thereof, and

(b) The amount attributable to any other asset shall be the adjusted basis (determined without regard to fair market value on December 31, 1958) of such asset for purposes of determining gain on sale or other disposition.

In applying the provisions of section 805(b)(4) and this subdivision, the fair market value or the adjusted basis (as the case may be) shall not be reduced by the amount of any incumbrance, lien, mortgage, etc.

(iv) *Special rules.* (a) All items included within the term "assets" shall be valued at the beginning and end of the taxable year. If, during the taxable year, there is a change in life insurance reserves (either increases or decreases) attributable to the transfer between the taxpayer and another person of liabilities under contracts taken into account in computing such reserves, the mean of the assets shall be appropriately adjusted, on a daily basis, to reflect the amounts involved in such transfer. See section 806(a) and paragraph (b)(3) and (4) of § 1.806–3.

(b) In the case of real property, under appropriate circumstances the fair market value may be determined on the basis of a reasonable approximation of fair market value as shown to the satisfaction of the district director, rather than on the basis of an annual reappraisal.

(c) In determining the fair market value of stocks, any reasonable valuation method may be used. Such methods include the valuation methods described in § 20.2031–2 of this chapter (Estate Tax Regulations).

(b) *Illustration of principles.* The provisions of section 805(b) and paragraph (a) of this section may be illustrated by the following examples. For purposes of these examples, it is assumed that all computations have been carried out to a sufficient number of decimal places to insure substantial accuracy and to eliminate any significant error in the resulting tax liability.

Example (1). For the taxable year 1958, T, a life insurance company (as defined in section 801(a)) organized in 1951, had the following current earnings rate history:

Taxable year:	Current earnings rate
1951	3.1
1952	3.3
1953	3.2
1954	3.3
1955	3.5
1956	3.8
1957	3.6
1958	3.8

For the taxable year 1958, T would have an average earnings rate of 3.6 percent, computed by taking into account only the current earnings rates for the taxable year 1958 and each of the 4 taxable years immediately preceding such taxable year. The adjusted reserves rate for such taxable year would be 3.6 percent since the average earnings rate of 3.6 percent is lower than the 1958 current earnings rate of 3.8 percent.

Example (2). The facts are the same as in example (1) except that the taxable year in issue is 1959, and the current earnings rate for such taxable year was 2.8 percent. For the taxable year 1959, T would have an

average earnings rate of 3.5 percent, computed by taking into account only the current earnings rates for the taxable year 1959 and each of the 4 taxable years immediately preceding such taxable year. The adjusted reserves rate for such taxable year would be 2.8 percent since the current earnings rate of 2.8 percent for 1959 is lower than the average earnings rate of 3.5 percent.

Example (3). For the taxable year 1959, P, a life insurance company (as defined in section 801(a)) organized in 1957, had the following current earnings rate history:

Taxable year:	Current earnings rate
1957	3.1
1958	3.3
1959	3.8

For the taxable year 1959, P would have an average earnings rate of 3.4 percent. Since P has been in existence for only 3 years, the average earnings rate is computed on the basis of the current earnings rate for the taxable year 1959 and the 2 taxable years immediately preceding such taxable year. The adjusted reserves rate for such taxable year would be 3.4 percent.

Example (4). Y was organized as an insurance company (other than life) in 1954. In 1957, Y qualified as a life insurance company (as defined in section 801(a)) and has remained a life insurance company since that date. Since its formation, Y has had the following current earnings rate history:

Taxable year:	Current earnings rate
1954	3.1
1955	3.3
1956	3.5
1957	3.4
1958	3.6
1959	3.7

For the taxable year 1959, Y would have an average earnings rate of 3.5 percent, computed by taking into account the current earnings rate for the year 1959 and the 4 taxable years immediately preceding such taxable year. The taxable years 1956 and 1955 are included in this computation since Y was an insurance company (though not a life insurance company) during such taxable years. The adjusted reserves rate for such taxable year would be 3.5 percent.

Example (5). The facts are the same as in example (4) except that prior to becoming a life insurance company in 1957, Y was an ordinary corporation. For the taxable year 1959, Y would have an average earnings rate of 3.57 percent, computed by taking into account only the current earnings rates for those taxable years during which Y was a life insurance company (1957, 1958, 1959). The adjusted reserves rate for such taxable year would be 3.57 percent.

§ 1.805–6 Adjusted life insurance reserves.

(a) *Adjusted life insurance reserves defined.* For purposes of part I, subchapter L, chapter 1 of the Code, section 805(c)(1) defines the term "adjusted life insurance reserves" as—

(1) The mean of the life insurance reserves (as defined in section 801(b)), other than pension plan reserves (as defined in section 805(d)), at the beginning and end of the taxable year, multiplied by

(2) That percentage which equals 100 percent—

(i) Increased by that percentage which is 10 times the average rate of interest assumed by the taxpayer (as determined under section 805(c)(2) and paragraph (b) of this section) in calculating such reserves, and

(ii) Reduced by that percentage which is 10 times the adjusted reserves rate (as defined in section 805(b)(1) and paragraph (a)(1) of § 1.805–5).

(b) *Average rate of interest assumed defined.* For purposes of part I, section 805(c)(2) defines the term "average rate of interest assumed" by the company in calculating reserves, as the rate determined by—

(1) Multiplying each assumed rate of interest by the means of the amounts of such reserves computed at that rate at the beginning and end of the taxable year, and

(2) Dividing the sum of the products ascertained under subparagraph (1) of this paragraph by the mean of the total of such reserves at the beginning and end of the taxable year.

(c) *Special rule.* For purposes of section 805(c) and this section, the amount of life insurance reserves taken into account shall be adjusted first as required by section 818(c) (relating to an election with respect to life insurance reserves computed on a preliminary term basis), and then as required by section 806(a) (relating to adjustments for certain changes in reserves and assets). However, no adjustment shall be made under section 806(b) (relating to change in basis in computing reserves) for the year in which the change occurs, since such adjustment is not taken into account until the beginning of the next taxable year.

(d) *Illustration of principles.* The provisions of section 805(c) and this section may be illustrated by the following examples:

Example (1). The books of R, a life insurance company, reflect the following:

Mean of the life insurance reserves (other than pension plan reserves)	$800,000
Company's current earnings rate	4%
Company's average earnings rate (for the current and 4 prior years)	3.5%
Company's average assumed rate (as defined in section 805(c)(2))	2.5%

In order to determine the amount of its adjusted life insurance reserves, R would first determine its adjusted reserves rate. This rate would be 3.5 percent since R's average earnings rate (3.5 percent) is lower than its current earnings rate (4 percent). R would then make up the following schedule:

1. Mean of the life insurance reserves (other than pension plan reserves)		$800,000
2. Item 1 multiplied by:		
(a) That percentage which equals	100%	
(b) Increased by 10 times the average rate of interest assumed (10×2.5%)	25%	
(c) Total	125%	
(d) Less: 10 times the adjusted reserves rate (10×3.5%)	35%	
(e) Item 2(c) minus item 2(d) (125% minus 35%)		90%
3. Adjusted life insurance reserves ($800,000 multiplied by 90%)		720,000

Example (2). The books of S, a life insurance company, reflect the following items:

Col. 1 Reserves at beginning of year	Col. 2 Reserves at end of year	Col. 3 Means of reserves	Col. 4 Assumed rate of interest	Col. 5 (Col. 3 × Col. 4) Product
			Percent	
$850,000	$1,150,000	$1,000,000	2	20,000
750,000	1,250,000	1,000,000	2.5	25,000
300,000	500,000	400,000	2.25	9,000
Total		2,400,000		54,000

For purposes of section 805(c), the average rate of interest assumed for the taxable year would be 2.25 percent (54,000÷2,400,000).

§ 1.805–7 Pension plan reserves.

(a) *In general.* One of the elements to be taken into account in computing the amount of the policy and other contract liability requirements (as defined in section 805(a) and paragraph (b) of § 1.805–4) of a life insurance company is the investment income attributable to pension plan reserves (as defined in section 805(d)(1) and paragraph (b) of this section). The amount of this element to be included in the policy and other contract liability requirements shall be determined by multiplying the mean of such pension plan reserves at the beginning and end of the taxable year by the current earnings rate (as defined in section 805(b)(2)) of the company. However, the amount of such reserves taken into account must be adjusted first as required by section 818(c) (relating to an election with respect to life insurance reserves computed on a preliminary term basis) and then as required by section 806(a) (relating to adjustments for certain changes in reserves and assets) before applying the current earnings rate thereto. Reserves held by a life insurance company under deposit administration contracts shall be included in pension plan reserves if they qualify as life insurance reserves (as defined in section 801(b) and paragraph (a) of § 1.801–4) and otherwise meet the definition of pension plan reserves.

(b) *Pension plan reserves defined.* For purposes of part I, subchapter L, chapter 1 of the Code, section 805(d)(1) defines the term "pension plan reserves" as that portion of the life insurance reserves (as defined in section 801(b)) which is allocable to contracts—

(1) Purchased under contracts entered into with trusts which (as of the time the contracts were entered into) were deemed to be trusts described in section 401(a) and exempt from tax under section 501(a) of the Internal Revenue Code of 1954, or trusts exempt from tax under section 165 of the Internal Revenue Code of 1939 (prior to, or after, the 1942 amendments) or the corresponding provisions of prior revenue laws;

(2) Purchased under contracts entered into under plans which (as of the time the contracts were entered into) were deemed to be plans meeting the requirements of section 401(a) (3), (4), (5), and (6) of the Internal Revenue Code of 1954, or the requirements of section 165(a) (3), (4), (5), and (6) of the Internal Revenue Code of 1939;

(3) Provided for employees of the life insurance company under a plan which, for the taxable year, meets the requirements of section 401(a) (3), (4), (5), and (6). For this purpose, the term "employees" includes full-time life insurance salesmen treated as employees under section 7701(a)(20); or

(4) Purchased to provide retirement annuities for the employees of an organization which (as of the time the contracts were purchased) was an organization described in section 501(c)(3) which was exempt from tax under section 501(a) or was an organization exempt from tax under section 101(6) of the Internal Revenue Code of 1939 or the corresponding provisions of prior revenue laws. The definition of pension plan reserves described in section 805(d)(1)(D) and this subparagraph includes only life insurance reserves held under contracts purchased by those organizations described in section 501(c)(3) and exempt from tax under section 501(a), and does not include life insurance reserves held under contracts purchased by organizations described under any other provision of section 501(c). Accordingly, the reserves held under contracts purchased by such other exempt organizations, or by entities not subject to Federal income tax (such as a State, municipality, etc.), shall not be treated as pension plan reserves unless they qualify as such under section 805(d)(1)(A), (B), or (C).

(c) *Special transitional rule.* For purposes of part I, section 805(d)(2) provides a special transitional rule for the treatment of pension plan reserves. Such rule provides that—

(1) For a taxable year beginning after December 31, 1957, and before January 1, 1959, the pension plan reserves shall be included with life insurance reserves in determining the policy and other contract liability requirements under section 805(a)(1);

(2) For a taxable year beginning after December 31, 1958, and before January 1, 1960, two-thirds of the pension plan reserves shall be taken into account under section 805(a)(1) as life insurance reserves and one-third shall be taken into account under section 805(a)(2) as pension plan reserves;

(3) For a taxable year beginning after December 31, 1959, and before January 1, 1961, one-third of the pension plan reserves shall be taken into account under section 805(a)(1) as life insurance reserves and two-thirds shall be taken into account under section 805(a)(2) as pension plan reserves; and

(4) For a taxable year beginning after December 31, 1960, the entire amount of the pension plan reserves shall be taken into account under section 805(a)(2) as pension plan reserves.

(d) *Illustration of principles.* The provisions of section 805(d)(2) and paragraph (c) of this section may be illustrated by the following example:

Example. For each of the taxable years 1958, 1959, 1960, and 1961, the mean of the life insurance reserves of Y, a life insurance company, is $100,000, including $30,000 allocable to contracts described in section 805(d)(1). In determining its policy and other contract liability requirements for the taxable year 1958, Y shall treat the entire $100,000 as life insurance reserves and no part of such amount shall be treated as pension plan reserves. For the taxable year 1959, Y shall treat $90,000 as life insurance reserves and $10,000 (⅓ of $30,000) as pension plan reserves in determining its policy and other contract liability requirements for such taxable year. For the taxable year 1960, Y shall treat $80,000 as life insurance reserves and $20,000 (⅔ of $30,000) as pension plan reserves in determining its policy and other contract liability requirements for such taxable year. For the taxable year 1961, Y shall treat $70,000 as life insurance reserves and $30,000 as pension plan reserves in determining its policy and other contract liability requirements for such taxable year.

§ 1.805–8 Interest paid.

(a) *In general.* Section 805(e) provides four categories of interest items the sum of which constitutes the "interest paid" for any taxable year. Interest paid is one of the elements of the policy and other contract liability requirements of a life insurance company. The amount of the policy and other contract liability requirements is used in determining the policyholders' share of each and every item of investment yield which is not included in taxable investment income. See section 804(a) and § 1.804–2. Interest paid includes interest on indebtedness, discounts on prepaid premiums, and interest on insurance or annuity contracts for which no provision is made in the life insurance reserves. Interest paid does not include dividends to policyholders (as defined in section 811(a) and paragraph (a) of § 1.811–2) or amounts derived from mortality savings or expense savings. In computing the interest paid for any taxable year the same item may not be included more than once.

(b) *Interest paid defined.* For purposes of part I, subchapter L, chapter 1 of the Code, the term "interest paid" as used in section 805(e) means the sum of—

(1) All interest for the taxable year on indebtedness, except on indebtedness incurred or continued to purchase or carry obligations the interest on which is wholly exempt from tax under chapter 1 of the Code. Indebtedness does not include reserves such as life insurance reserves (as defined in section 801(b) and § 1.801–4) nor does it include deferred dividends. Interest on indebtedness includes interest on deferred policy and contract benefit funds as well as interest on a mortgage. See section 163 and the regulations thereunder.

(2) All amounts in the nature of interest, whether or not guaranteed, for the taxable year on insurance or annuity contracts (including contracts supplementary thereto) which do not involve, at the time of accrual, life, health, or accident contingencies. Amounts in the nature of interest do not include amounts derived from or representing mortality gains, expense savings, underwriting profits, or other items not in the nature of interest. Amounts in the nature of interest include so-called excess-interest dividends as well as guaranteed interest accrued within the taxable year on such contracts. A contract to pay insurance benefits in installments over a specified period, for example, a contract to pay the insurance benefit in 10 annual installments, is considered as a supplementary contract not involving life contingencies. It is immaterial whether the optional mode of settlement specified in the insurance or annuity contract arises from an option exercised by the insured during his or her lifetime or from an option exercised by either the insured or a beneficiary after the policy matured. Thus, no distinction is made based on the person choosing the method of payment, and the full amount of the interest accrued, and not merely the guaranteed interest, is considered as interest paid. Amounts in the nature of interest include interest on dividends left on deposit with the company and interest on premiums paid in advance.

(3) All amounts accrued for the taxable year for discounts in the nature of interest, whether or not guaranteed, on premiums or other consideration paid in advance on insurance or annuity contracts. Such accrual shall be determined in accordance with the rules prescribed in section 818(b) and the regulations thereunder. For example, if at the beginning of the taxable year 1958 a life insurance company granted a discount in the nature of interest of $40 as the result of the prepayment of life insurance premiums for 5 years, the company may, under the straight line method, accrue $8 in 1958 and each of the four succeeding taxable years ($40÷5=$8) and include this $8 as interest paid for each such taxable year.

(4) Interest for the taxable year on special contingency reserves established pursuant to section 8(d) of the Federal Employees' Group Life Insurance Act of 1954 (5 U.S.C. 2097(d)).

PAR. 9. Section 1.806 is amended to read as follows:

§ 1.806 Statutory provisions; life insurance companies; certain changes in reserves and assets.

SEC. 806. *Certain changes in reserves and assets*—(a) *Adjustments to means for certain transfers of liabilities.* For purposes of this part, if, during the taxable year, there is a change in life insurance reserves attributable to the transfer between the taxpayer and another person of liabilities under contracts taken into account in computing such reserves, then, under regulations prescribed by the Secretary or his delegate, the means of such reserves, and the mean of the assets, shall be appropriately adjusted, on a daily basis, to reflect the amounts involved in such transfer. This subsection shall not apply to reinsurance ceded to the taxpayer or to another person.

(b) *Change of basis in computing reserves.* If the basis for determining the amount of any item referred to in section 810(c) as of the close of the taxable year differs from the basis for such determination as of the beginning of the taxable year, then for purposes of this subpart the amount of such item—

(1) As of the close of the taxable year shall be computed on the old basis, and

(2) As of the beginning of the next taxable year shall be computed on the new basis.

[Sec. 806 as amended by sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 120)]

PAR. 10. There are inserted immediately after § 1.806–1 the following new sections:

§ 1.806–2 Taxable years affected.

Section 1.806–1 is applicable only to taxable years beginning after December 31, 1953, and before January 1, 1955, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, before amendments. Sections 1.806–3 and 1.806–4 are applicable only to taxable years beginning after December 31, 1957, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112).

§ 1.806–3 Certain changes in reserves and assets.

(a) *In general.* For purposes of part I, subchapter L, chapter 1 of the Code, section 806(a) provides that if there is a change in life insurance reserves (as defined in section 801(b)), during the taxable year, which is attributable to the transfer between the taxpayer and another person of liabilities under contracts taken into account in computing such life insurance reserves, then the means of such reserves, and the mean of the assets, shall be appropriately adjusted to reflect the amounts involved in such transfer. For example, the adjustments required under section 806(a) are applicable to transfers in which one life insurance company purchases or acquires a part or all of the business of another life insurance company under an arrangement whereby the purchaser or transferee becomes solely liable on the contracts transferred. This provision shall apply in the case of assumption reinsurance but not in the case of indemnity reinsurance or reinsurance ceded. Thus, no adjustments shall be required under section 806(a) when, in the ordinary course of business, an indemnity reinsurance contract is entered into with another company (on a yearly renewable term basis, on a coinsurance basis, or otherwise) whereby there is a sharing of risks under one or more individual contracts. It will be necessary for each life insurance company participating in a transfer described in section 806(a) to make the adjustments required by such section. Such adjustments shall be made without regard to whether or not the transferor of the liabilities was the original insurer.

(b) *Manner in which adjustments shall be made*—(1) *Daily basis.* The means of the life insurance reserves, and the mean of the assets, shall be appropriately adjusted, on a daily basis, to reflect the amounts involved in a transfer described in section 806(a) and paragraph (a) of this section. The transferor and the transferee shall be treated as having held such life insurance reserves and assets for a fraction of the year in which the transfer occurs.

(2) *Determination of period held.* In determining the fraction which represents the fractional year that such reserves and assets were held, the numerator shall be the number of days during the taxable year which such reserves and assets were actually held, and the denominator shall be the number of days in the calendar year of the transfer. In computing the period held for purposes of the numerator, the day on which such reserves and assets are transferred is included by the transferor and excluded by the transferee.

(3) *Adjustments to the means of life insurance reserves and assets not transferred.* All life insurance reserves and assets transferred during the taxable year, within the meaning of section 806(a), shall be excluded from the beginning and end of the taxable year balances of the transferor and transferee, respectively. The amount of assets to be excluded from the beginning of the taxable year balance of the transferor shall be an amount equal to the value of such reserves at the beginning of the taxable year. The amount of assets to be excluded from the end of the taxable year balance of the transferee shall be an amount equal to the value of such reserves at the end of the taxable year. The means of the life insurance reserves and assets not so transferred shall be determined in the ordinary manner, that is, the arithmetic means. There shall be added to these means an amount to appropriately adjust them, on a daily basis, for the life insurance reserves and assets that were transferred during the taxable year. This adjustment shall be determined by multiplying (i) the mean of the transferred life insurance reserves (or assets, as the case may be) at the beginning of the taxable year (or, if acquired later, at the beginning of the period held as defined in subparagraph (2) of this paragraph) and the end of the period held as defined in subparagraph (2) of this paragraph (or at the end of the taxable year, if held at such time) by (ii) the fraction determined under subparagraph (2) of this paragraph.

(4) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example (1). On March 14, 1958, the M Company, a life insurance company, transferred to the N Company, a life insurance company, pursuant to an assumption reinsurance agreement, all of its life insurance reserves, and related assets, on one block of policies. The reserves (and assets) for this block were held by the M Company on January 1, 1958, and totaled $60,000; on March 14, the reserves (and assets) totaled $64,000. The M Company had life insurance reserves of $1,000,000 at the beginning of 1958 (including those subsequently transferred) and $1,040,000 at the end of 1958. The M Company had assets of $1,300,000 at the beginning of 1958 (including those subsequently transferred) and $1,380,000 at the end of 1958. The mean of M's life insurance reserves for the taxable year 1958 is computed as follows:

Reserves at 1–1–58		$1,000,000
Exclude reserves (at beginning of year) on contracts transferred to N	60,000	
Recomputed amount at 1–1–58		$940,000
Reserves at 12–31–58		1,040,000
Sum		1,980,000
Mean		990,000
Adjustment for reserves transferred on 3–14–58:		
Reserves at 1–1–58 on contracts transferred to N	$60,000	
Reserves at 3–14–58 on such contracts	64,000	
Sum	124,000	
Mean	62,000	
Fraction taken into account	73/365	
Adjustment (73/365 × $62,000)		$12,400
Mean of M's life insurance reserves after section 806(a) adjustment		1,002,400

Example (2). Assuming the facts to be the same as in example (1), the mean of M's assets for the taxable year 1958 is computed as follows:

Assets at 1–1–58		$1,300,000
Exclude assets (at beginning of year) on contracts transferred to N	60,000	
Recomputed amount at 1–1–58		$1,240,000
Assets at 12–31–58		1,380,000
Sum		2,620,000
Mean		1,310,000
Adjustments for assets transferred on 3–14–58:		
Assets at 1–1–58 on contracts transferred to N	$60,000	
Assets at 3–14–58 on such contracts	64,000	
Sum	124,000	
Mean	62,000	
Fraction taken into account	73/365	
Adjustment (73/365 × $62,000)		12,400
Mean of M's assets after section 806(a) adjustment		1,322,400

Example (3). Assume the facts are the same as in example (1). At the end of 1958, N Company had life insurance reserves (and assets) of $80,000 on the contracts transferred on March 14, 1958. The N Company had life insurance reserves of $6,000,000 at the beginning of 1958 and $6,400,000 at the end of 1958 (including those transferred). The N Company had assets of $6,800,000 at the beginning of 1958 and $7,300,000 at the end of 1958 (including those on the contracts transferred). The mean of N's life insurance reserves for the taxable year 1958 is computed as follows:

Reserves at 1–1–58		$6,000,000
Reserves at 12–31–58		$6,400,000
Exclude reserves (at end of year) on contracts transferred from M	80,000	
Recomputed amount at 12–31–58		6,320,000
Sum		12,320,000
Mean		6,160,000
Adjustment for reserves transferred on 3–14–58:		
Reserves at 3–14–58 on contracts transferred from M	$64,000	
Reserves at 12–31–58 on such contracts	80,000	
Sum	144,000	
Mean	72,000	
Fraction taken into account	292/365	
Adjustment (292/365 × $72,000)		$57,600
Mean of N's life insurance reserves after section 806(a) adjustment		6,217,600

Example (4). Assuming the facts to be the same as in example (3), the mean of N's assets for the taxable year 1958 is computed as follows:

Assets at 1–1–58		$6,800,000
Assets at 12–31–58	$7,300,000	
Exclude assets (at end of year) on contracts transferred from M	80,000	
Recomputed amount at 12–31–58		7,220,000
Sum		14,020,000
Mean		7,010,000
Adjustments for assets transferred on 3–14–58:		
Assets at 3–14–58 on contracts transferred from M	$64,000	
Assets at 12–31–58 on such contracts	80,000	
Sum	144,000	
Mean	72,000	
Fraction taken into account	292/365	
Adjustment (292/365 × $72,000)		$57,600
Mean of N's assets after section 806(a) adjustment		7,067,600

Example (5). The facts are the same as in example (1), except that on October 19, 1958, company N transfers to company P, a life insurance company, all of the life insurance reserves, and related assets, on the block of policies it had received from company M on March 14, 1958. The reserves (and assets) for this block totaled $76,000 on October 19, 1958. The means of company M's life insurance reserves and assets, as computed in examples (1) and (2), respectively, would be unchanged by the transfer of October 19, 1958. Since company N did not own this block of policies at either the beginning or end of the taxable year, it would not have to recompute its beginning or end of the taxable year reserves or assets. Company N will, however, have to adjust (or increase) the mean of its life insurance reserves and assets on account of the policies it received from company M. This adjustment will be $42,000, which is determined by multiplying the means of the life insurance reserves (or assets) on these policies as of March 15, 1958, and October 19, 1958, $70,000 ($64,000+$76,000=$140,000÷2) by the fraction 219/365 (the numerator of 219 is determined by excluding the day of the transfer to N, March 14, 1958, and including the day of the transfer from N to P, October 19, 1958). Company P will have to recompute its end of the year life insurance reserves and assets (in the same manner as illustrated in examples (3) and (4)). Assuming the end of the year reserves (and assets) on this block of policies is $80,000, company P will have an adjustment under section 806(a) of $15,600, which is determined by multiplying the means of the reserves on these policies as of October 20, 1958, and December 31, 1958, $78,000 ($76,000+$80,000=$156,000÷2) by the fraction 73/365.

§ 1.806–4 Change of basis in computing reserves.

(a) *In general.* For purposes of subpart B, part I, subchapter L, chapter 1 of the Code, section 806(b) provides that if the basis for determining the amount of any item referred to in section 810(c) (relating to items taken into account) as of the close of the taxable year differs from the basis for such determination as of the beginning of the taxable year, then in determining taxable investment income the amount of the item as of the close of the taxable year shall be the amount computed on the old basis, and the amount of the item as of the beginning of the next taxable year shall be the amount computed on the new basis. For purposes of the preceding sentence, an election under section 818(c) shall not be treated as a change in basis for determining the amount of an item referred to in section 810(c). A change of basis in computing any of the items referred to in section 810(c) is not a change of accounting method requiring the consent of the Secretary or his delegate under section 446(e).

(b) *Illustration of change of basis in computing reserves.* The application of section 806(b) and paragraph (a) of this section may be illustrated by the following examples:

Example (1). Assume that the life insurance reserves of Y, a life insurance company, at the beginning of the taxable year 1959 are $100 and that during such taxable year a portion of the reserves is strengthened (by reason of a change in mortality or interest assumptions, or otherwise), so that at the end of the taxable year 1959 the reserves (computed on the new basis) are $130 but computed on the old basis would be $120. Assume further that at the close of the next taxable year, 1960, the reserves (computed on the new basis) are $142. Under the provisions of section 806(b) and paragraph (a) of this section, the mean of such reserves for the taxable year of the reserve strengthening, namely 1959, is $110 (the mean of $100, the balance at the beginning of the taxable year 1959, and $120, the balance at the end of the taxable year 1959 computed on the old basis). The mean of such reserves for the next taxable year, 1960, is $136 (the mean of $130, the balance at the beginning of the taxable year 1960 computed on the new basis, and $142, the balance at the end of the taxable year 1960 computed on the new basis).

Example (2). The life insurance reserves of S, a life insurance company, computed with respect to contracts for which such reserves are determined on a recognized preliminary term basis amount to $50 on January 1, 1959, and $80 on December 31, 1959. For the taxable year 1959, S elects to revalue such reserves on a net level premium basis under section 818(c). Such reserves computed under section 818(c) amount to $60 on January 1, 1959, and $96 on December 31, 1959. Under the provisions of paragraph (a) of this section, the mean of such reserves for the taxable year 1959 is $78 (the mean of $60, the balance at the beginning of the taxable year 1959 computed under section 818(c), and $96, the balance at the end of the taxable year 1959 computed under section 818(c)).

(68A Stat. 917; 26 U.S.C. 7805)

[F.R. Doc. 60–11399; Filed, Dec. 9, 1960; 8:45 a.m.]

SUBCHAPTER D—MISCELLANEOUS EXCISE TAXES

[T.D. 6514]

PART 48—MANUFACTURERS AND RETAILERS EXCISE TAXES

Sale of Jewelry and Related Items, Furs, Toilet Preparations, and Luggage, Handbags, etc.

On July 22, 1960, notice of proposed rule making with respect to the Manufacturers and Retailers Excise Tax Regulations (26 CFR Part 48) under subchapters A, B, C, and D of chapter 31 of the Internal Revenue Code of 1954, as amended, relating to retailers excise taxes on jewelry and related items, furs, toilet preparations, and luggage, handbags, etc., was published in the FEDERAL REGISTER (25 F.R. 6974). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the regulations as so published are hereby adopted, subject to the changes set forth below. The regulations adopted by this Treasury decision do not include regulations under section 4021, relating to the retailers excise tax on toilet preparations, as set forth in § 48.4021–1 of the aforesaid notice of proposed rule making. Section 48.4021–1 will remain outstanding as a notice of proposed rule making and will be given further consideration before final action is taken thereon.

The regulations hereby prescribed are applicable to sales of the articles referred to therein made on or after January 1, 1959, except as otherwise provided.

PARAGRAPH 1. Section 48.4001–4 is amended by revising paragraph (a).

PAR. 2. Section 48.4003–1 is amended by revising paragraph (b)(2).

PAR. 3. Section 48.4021–1 is amended.

[SEAL] CHARLES I. FOX,
Acting Commissioner of Internal Revenue.

Approved: December 6, 1960.

FRED C. SCRIBNER, JR.,
Acting Secretary of the Treasury.

Subpart B—Jewelry and Related Items

Sec.	
48.4001	Statutory provisions; imposition of tax.
48.4001–1	Imposition of tax.
48.4001–2	Jewelry.
48.4001–3	Certain real or synthetic stones.
48.4001–4	Articles made of, or ornamented, mounted or fitted with, precious metals or imitations thereof.
48.4001–5	Watches and clocks.

Sec.
48.4001–6 Gold, gold-plated, silver, or sterling flatware, or hollow ware, and silver-plated hollow ware.
48.4001–7 Opera glasses, lorgnettes, marine glasses, etc.
48.4001–8 Repairs.
48.4002 Statutory provisions; definition of sale includes auctions.
48.4002–1 Definition of sale includes auctions.
48.4003 Statutory provisions; exemptions.
48.4003–1 Exemptions; certain articles.
48.4003–2 Exemptions; certain auction sales.
48.4003–3 Exemptions; certain clocks.
48.4003–4 Other tax-free sales.

Subpart C—Furs

48.4011 Statutory provisions; imposition of tax.
48.4011–1 Imposition of tax.
48.4011–2 Repairing, remodeling, and restyling.
48.4012 Statutory provisions; definitions.
48.4012–1 Manufacture from customer's material.
48.4012–2 Definition of sale includes auctions.
48.4013 Statutory provisions; exemption of certain auction sales.
48.4013–1 Exemption of certain auction sales.
48.4013–2 Other tax-free sales.

Subpart D—Toilet Preparations

48.4021 Statutory provisions; imposition of tax.
48.4021–1 [Reserved]
48.4022 Statutory provisions; exemptions.
48.4022–1 Exemptions.
48.4022–2 Other tax-free sales.

Subpart E—Luggage, Handbags, Etc.

48.4031 Statutory provisions; imposition of tax.
48.4031–1 Imposition of tax.

AUTHORITY: §§ 48.4001 to 48.4003–4, incl., 48.4011 to 48.4013–2, incl., 48.4021 to 48.4022–2, incl., 48.4031, and 48.4031–1, issued under sec. 7805, I.R.C. 1954; 68A Stat. 917; 26 U.S.C. 7805.

Subpart B—Jewelry and Related Items

§ 48.4001 Statutory provisions; imposition of tax.

SEC. 4001. *Imposition of tax.* There is hereby imposed upon the following articles sold at retail a tax equivalent to 10 percent of the price for which so sold:

All articles commonly or commercially known as jewelry, whether real or imitation.

The following stones, by whatever name called, whether real or synthetic:

Amber.
Beryl of the following types: Aquamarine, emerald, golden beryl, heliodor, morganite.
Chrysoberyl of the following types: Alexandrite, cat's eye, chrysolite.
Corundum of the following types: Ruby, sapphire.
Diamond.
Feldspar of the following type: Moonstone.
Garnet.
Jadeite (jade).
Jet.
Lapis lazuli.
Nephrite (jade).
Opal.
Pearls (natural and cultured).
Peridot.
Quarts of the following types: Amethyst, bloodstone, citrine, moss agate, onyx, sardonyx, tiger-eye.
Spinel.
Topas.
Tourmaline.
Turquoise.
Zircon.

Articles made of, or ornamented, mounted or fitted with precious metals or imitations thereof.

Watches.
Clocks.
Cases and movements for watches and clocks.
Gold, gold-plated, silver, or sterling flatwear or hollow ware and silver-plated hollow ware.
Opera glasses.
Lorgnettes.
Marine glasses.
Field glasses.
Binoculars.

[Sec. 4001 as amended and in effect Jan. 1, 1959, and as amended by sec. 1, Act of Sept. 21, 1959 (Pub. Law 86–344, 73 Stat. 617)]

§ 48.4001–1 Imposition of tax.

(a) *In general.* Section 4001 imposes a tax upon the following articles sold at retail:

(1) Articles commonly or commercially known as jewelry, whether real or imitation;

(2) Certain real or synthetic stones listed in § 48.4001–3(a);

(3) Articles made of, or ornamented, mounted or fitted with, precious metals or imitations thereof; and

(4) Watches and clocks and cases and movements therefor; gold, gold-plated, silver, or sterling flatware or hollow ware; silver-plated hollow ware; opera glasses; lorgnettes; marine glasses; field glasses; and binoculars.

(b) *Cross references.* For provisions relating to the specific articles taxable under section 4001, see the following regulations in this subpart:

(1) Section 48.4001–2 for jewelry;

(2) Section 48.4001–3 for certain real or synthetic stones;

(3) Section 48.4001–4 for articles made of, or ornamented, mounted or fitted with, precious metals or imitations thereof;

(4) Section 48.4001–5 for watches and clocks, etc.;

(5) Section 48.4001–6 for gold, gold-plated, silver, or sterling flatware or hollow ware, and silver-plated hollow ware; and

(6) Section 48.4001–7 for opera glasses, lorgnettes, marine glasses, field glasses, and binoculars.

(c) *Rate of tax.* The tax is imposed at the rate of 10 percent of the price for which the taxable article is sold at retail. For definition of the term "price", see section 4051 and the regulations thereunder contained in Subpart G.

(d) *Liability for tax.* The tax is payable by the person who sells at retail any article subject to tax under section 4001. For tax applicable to leases, see section 4052 and the regulations thereunder contained in Subpart G.

(e) *Sales by United States.* For provisions relating to sales at retail made by the United States, its agencies or instrumentalities, see section 4054 and the regulations thereunder contained in Subpart G.

§ 48.4001–2 Jewelry.

(a) *Generally.* Jewelry in general includes articles designed to be worn on the person or on apparel for the purpose of adornment and which in accordance with custom or ordinary usage are worn so as to be displayed, such as rings, chains, brooches, bracelets, cuff buttons, necklaces, earrings, beads, charms, pendants, etc. The tax is imposed on the sale of any of such articles at retail, regardless of the substance of which made and without reference to their utilitarian value or purpose, unless for a purpose specifically exempted by law. It is immaterial whether the articles taxable under this paragraph are real or imitation jewelry. Thus, articles constituting costume jewelry are subject to tax regardless of the material of which they are made.

(b) *Articles made of, or ornamented with, certain stones.* Jewelry also includes articles to be carried in the hand, or hung on the arm, or carried or worn on the person, whether in pocket or bag or under the outer garments, such as cigarette cases, pocket mechanical lighters for cigarettes, cigars, and pipes, eyeglass cases, pencils, powder boxes, garter buckles, canes, purses or handbags, if made of, or ornamented, mounted or fitted with, any of the stones enumerated in section 4001 whether such stones are real or synthetic. Such articles are likewise subject to tax without regard to their utilitarian value or purpose. Mother-of-pearl is not a real or synthetic pearl; therefore, articles not otherwise subject to the tax are not made taxable by reason of their ornamentation with mother-of-pearl. See also § 48.4001–4 as to the taxability of the sale at retail of articles made of, or ornamented, mounted or fitted with, precious metals or imitations thereof, and section 4031, and the regulations thereunder contained in Subpart E, relating to the taxability of the sale at retail of purses, handbags, pocketbooks, etc.

(c) *Credit or refund of manufacturers excise tax.* See section 6416 (d) and the regulations thereunder contained in Subpart O for credit or refund of the manufacturers excise tax paid under section 4201 on mechanical pencils, fountain and ball point pens, and mechanical lighters for cigarettes, cigars, and pipes, in the case where because of further manufacture the tax imposed by section 4001 applies to the sale of such articles at retail.

§ 48.4001–3 Certain real or synthetic stones.

(a) *Real stones*—(1) *In general.* The tax imposed by section 4001 applies to sales at retail of the following stones, by whatever name called:

Amber.
Beryl of the following types: Aquamarine, emerald, golden beryl, heliodor, morganite.
Chrysoberyl of the following types: Alexandrite, cat's eye, chrysolite.
Coral.
Corundum of the following types: Ruby, sapphire.
Diamond.
Feldspar of the following type: Moonstone.
Garnet.
Jadeite (jade).
Jet.
Lapis lazuli.
Nephrite (jade).
Opal.
Pearls (natural and cultured).
Peridot.
Quarts of the following types: Amethyst, bloodstone, citrine, moss agate, onyx, sardonyx, tiger-eye.
Spinel.
Topas.
Tourmaline.
Turquoise.
Zircon.

In the case of articles not otherwise taxable under chapter 31 which are ornamented, mounted or fitted with, any of the stones enumerated in section 4001, the tax shall apply to that portion of the retail selling price attributable to such stones.

(2) *Coral.* The tax on sales at retail of coral does not apply to sales after October 31, 1959.

(b) *Synthetic stones.* The tax imposed by section 4001 also applies to the sale at retail of any synthetic stone which has a molecular composition similar to a natural stone listed in paragraph (a) of this section.

(c) *Condition of stones.* The tax applies to sales at retail of the stones referred to in paragraphs (a) and (b) of this section whether they are in rough or natural state, whether cut or uncut, whether drilled, mounted or matched, whether or not strung, and if strung whether with or without clasps.

(d) *Stones used exclusively for industrial, scientific, or educational purposes, or as part of mechanical devices.* (1) For purposes of section 4001, the stones enumerated in such section do not include stones which are sold to be used exclusively as—

(i) A tool or material for industrial, scientific, research, or educational purposes (including mineral hardness testing, polishing, cutting, and grinding); or

(ii) A part of the mechanism of a mechanical device (for example, a bearing in a watch).

(2) The person making the sale at retail for a purpose indicated in subparagraph (1) of this paragraph shall keep adequate records in the nature of invoices or other documents identifying the stones, the person to whom sold, the date of sale, and the purpose for which the stones are to be used.

§ 48.4001–4 Articles made of, or ornamented, mounted or fitted with, precious metals or imitations thereof.

(a) *In general.* The tax imposed by section 4001 applies to the sale at retail of articles (as distinguished from those articles commonly or commercially known as jewelry as described in § 48.4001–2) which are made of, or ornamented, mounted or fitted with, precious metals or imitations thereof. Examples of articles which become subject to the tax when made of, or ornamented, mounted or fitted with, precious metals or imitations thereof are as follows: photograph frames, book ends, ash trays, vanity cases, mesh bags, cigarette cases and lighters, glassware, china, pottery, umbrellas, and walking sticks. Buttons, belts, belt buckles, and shoe buckles, made of, or ornamented, mounted or fitted with, imitations of precious metals are in the nature of dress or shoe findings and are not subject to the tax. For exemption from tax of sales at retail of certain pens, pencils, and smokers' pipes, see section 4003 and paragraph (a) of § 48.4003–1.

(b) *Definitions.* For purposes of section 4001—

(1) The term "precious metals" includes platinum, gold, silver, and other metals of similar or greater value.

(2) The term "imitations thereof" includes (i) alloys of precious metals, and (ii) platings of precious metals and platings of alloys of precious metals, provided such platings are one one-hundred-thousandth of an inch or more in thickness. Substances such as metal alloys which resemble but do not contain precious metals (for example, "nickel silver" (sometimes known as "German silver") or polished brass) are not included in the term.

(c) *Credit or refund of manufacturers excise tax.* See section 6416(d) and the regulations thereunder contained in Subpart O for credit or refund of the manufacturers excise tax paid under section 4201 on mechanical pencils, fountain and ball point pens, and mechanical lighters for cigarettes, cigars, and pipes, in the case where because of further manufacture the tax imposed by section 4001 applies to the sale of such articles at retail.

§ 48.4001–5 Watches and clocks.

(a) *In general.* Section 4001 imposes a tax on the sale at retail of watches and clocks and cases and movements therefor. The tax applies to such articles sold at retail regardless of whether they are new, secondhand, or antique, or whether they are in working condition. The term "watches and clocks" includes all time-measuring devices which when in operation indicate the time of day, whether activated by weights, springs, or electrical energy. Any instrument the sole function of which is to indicate elapsed time and which is incapable of being used to tell the time of day at all times, such as a stop watch, is not considered to be a watch or clock within the meaning of section 4001.

(b) *Combined with nontaxable articles*—(1) *Generally.* Except as provided in subparagraph (2) of this paragraph, if a watch or clock and one or more articles not subject to the tax imposed by section 4001 (for example, a barometer, lamp, or an advertising device) are combined in a single unit, the tax shall apply to that portion of the retail sales price charged for the combination which is attributable to such watch or clock. For the method of computing the tax in such cases, see section 4051 and the regulations thereunder contained in Subpart G.

(2) *Exemptions.* See section 4003(a) and paragraph (a) of § 48.4003–1 for exemption for watches designed especially for use by the blind. See also section 4003 (c) and (d) and § 48.4003–3 for the exemption provided for certain clocks, watches, and cases and movements therefor, which are taxed under chapter 32 (relating to manufacturers excise taxes), or which are part of a control or regulatory device not taxable under chapter 32.

§ 48.4001–6 Gold, gold-plated, silver, or sterling flatware or hollow ware, and silver-plated hollow ware.

(a) *In general.* Section 4001 imposes a tax on the sale at retail of any article which is commonly or commercially known and sold as gold, gold-plated, silver, or sterling flatware or hollow ware, or as silver-plated hollow ware. However, a gold, gold-plated, silver, silver-plated, or sterling article which is neither commonly nor commercially known or sold in the trade as flatware or hollow ware, may be subject to the tax as an article made of, or ornamented, mounted or fitted with, precious metals or imitations thereof (see § 48.4001–4).

(b) *Silver-plated flatware.* No tax attaches to the sale at retail of any article commonly or commercially known or sold in the trade as "silver-plated flatware".

§ 48.4001–7 Opera glasses, lorgnettes, marine glasses, etc.

(a) *In general.* Section 4001 imposes a tax on the sale at retail of opera glasses, lorgnettes, marine glasses, field glasses, and binoculars.

(b) *Definitions.* The terms "opera glasses", "lorgnettes", "marine glasses", "field glasses", and "binoculars" generally include all instruments known as such. However, the terms do not include:

(1) Optical instruments which by reason of their size or weight are ordinarily mounted upon tripods or other bases; or

(2) Telescopes and sextants.

§ 48.4001–8 Repairs.

(a) *Taxable operations.* If an item is repaired and in connection therewith the person making the repair furnishes an article which would be taxable under section 4001 if sold separately at retail, the tax applies to the charge made for the article so furnished. In such case, the total charge made for the repair shall be deemed to be the price charged for the taxable article used in the repair, unless the portion of the total charge attributable to labor and to the use of any nontaxable materials is billed as a separate item. The following are examples of articles which are taxable under section 4001 when furnished in connection with the repair of other articles: (1) Articles made of, or ornamented, mounted or fitted with, precious metals or imitations thereof, such as a ring mounting or setting, a bracelet link or safety chain, a complete shank of a ring (extending from one side of the head of the ring to the other side), a spring ring or swivel, catch, earring back or screw; and (2) a stone enumerated in section 4001.

(b) *Nontaxable operations.* If an article referred to in section 4001 is repaired and the repair operation consists of labor only, the repair operation is not subject to the tax. Also, the tax does not apply to repair operations (1) in which the person making the repair furnishes only materials such as unfabricated metal, wire, solder, etc., or (2) where he furnishes only a portion of an article made of, or ornamented, mounted or fitted with, a precious metal or imitation thereof, such as a section of a shank of a ring.

(c) *Watches and clocks.* The tax imposed by section 4001 with respect to watches and clocks is limited to watches and clocks as such and cases and movements therefor. Accordingly, the tax imposed by section 4001 attaches to the repair of a watch or clock only if a case or movement is furnished in connection with the repair.

§ 48.4002 Statutory provisions; definition of sale includes auctions.

SEC. 4002. *Definition of sale includes auctions.* For the purposes of section 4001, the term "articles sold at retail" includes an article sold at retail by an auctioneer or other agent in the course of his business on behalf of (1) a person who is not engaged in the business of selling like articles, or (2) the legal representative of the estate of a decedent who was not engaged in the business of selling like articles. In the case of articles so sold, the auctioneer or other agent shall be considered the "person who sells at retail."

[Sec. 4002 as originally enacted and in effect Jan. 1, 1959]

§ 48.4002–1 Definition of sale includes auctions.

(a) *In general.* Section 4002 provides that for purposes of section 4001, the term "articles sold at retail" includes articles sold at retail by an auctioneer or other agent in the course of his business on behalf of (1) a person who is not engaged in the business of selling like articles, or his legal representative, or (2) the legal representative of the estate of a decedent who was not engaged in the business of selling like articles. Section 4002 also provides that in the case of articles so sold, the auctioneer or other agent shall be considered the "person who sells at retail". Thus, such auctioneer or agent shall be liable for payment of the tax imposed by section 4001 and the filing of returns.

(b) *Sales not at auction.* The provisions of section 4002 and paragraph (a) of this section are not limited to auction sales but are applicable to all sales at retail of articles enumerated in section 4001 by an auctioneer or other agent in the course of his business.

(c) *Exemption.* See section 4003(b) and § 48.4003–2 for the limited exemption which applies to certain auction sales.

§ 48.4003 Statutory provisions; exemptions.

SEC. 4003. *Exemptions*—(a) *Specific articles.* The tax imposed by section 4001 shall not apply to any article used for religious purposes, to surgical instruments, to watches designed especially for use by the blind, to frames or mountings for spectacles or eyeglasses, to a fountain pen, mechanical pencil, or smokers' pipe if the only parts of the pen, the pencil, or the pipe which consist of precious metals are essential parts not used for ornamental purposes, or to buttons, insignia, cap devices, chin straps, and other devices prescribed for use in connection with the uniforms of the armed forces of the United States.

(b) *Certain auction sales.* (1) In the case of an auction sale held at the home of a person whose articles are being sold, any taxable article (as defined in paragraph (2)) of such person sold by the auctioneer shall be exempt from the tax imposed by section 4001 except to the extent that the price for which such article is sold, when added to the sum of the sale prices of all other taxable articles of such person previously sold at the same auction, exceeds $100.

(2) For the purposes of this subsection—

(A) The term "taxable article" means an article which, by reason of section 4002 and without regard to the exemption provided in paragraph (1), is taxable under section 4001 when sold at auction; and

(B) In the case of articles of a decedent sold on behalf of the legal representative of his estate, an auction sale held at the home of such decedent shall be considered as "held at the home of a person whose articles are being sold".

(c) *Clocks subject to manufacturers tax.* The tax imposed by section 4001 shall not apply to a clock or watch, or to a case or movement for a clock or watch, if a tax in respect of such clock, watch, case, or movement was imposed under chapter 32 by reason of its sale (1) as a part or accessory, or (2) on or in connection with or with the sale of any article.

(d) *Certain parts of control or regulatory devices.* The tax imposed by section 4001 shall not apply to a clock or watch, or to a case or movement for a clock or watch, if such clock, watch, case, or movement is (1) a part of a control or regulatory device which is an article (or part thereof) not taxable under chapter 32, or (2) sold as a repair or replacement part for such a device.

[Sec. 4003 as amended and in effect Jan. 1, 1959]

§ 48.4003–1 Exemptions: certain articles.

(a) *In general.* Section 4003 specifically provides that the tax imposed by section 4001 shall not apply to: Any article used for religious purposes; surgical instruments; watches designed especially for use by the blind; frames or mountings for spectacles or eye-glasses; fountain pens, mechanical pencils, or smokers' pipes, if the only parts thereof which consist of precious metals are essential parts not used for ornamental purposes; and buttons, insignia, cap devices, chin straps, and other devices prescribed for use in connection with the uniforms of the armed forces of the United States. See section 7701(a)(15) and the regulations thereunder contained in part 301, for meaning of the term "Armed Forces of the United States".

(b) *Articles used for religious purposes.* (1) The tax imposed by section 4001 does not apply to articles of such nature as to be intended for use only for religious purposes (for example, a crucifix, rosary, chalice, etc.). Such articles may be sold tax free without a statement from the purchaser as to the purpose for which the article is to be used.

(2) The tax imposed by section 4001 also does not apply to articles of such nature as to be usable for nonreligious purposes as well as for religious purposes if such articles are purchased by a church or other religious organization and if—

(i) The articles (such as pins, medals, or buttons, which have the Cross and Crown symbol) are to be used by a religious organization as an award in connection with a religious program, or

(ii) The articles (such as crosses, candlesticks, vases, etc.) are used in connection with religious services by a religious organization.

With respect to these articles, the retailer must have in his possession a statement from a representative of the religious organization certifying that the articles were purchased solely for religious purposes in order to establish the right to exemption from the tax on the sale.

(c) *Fountain pens, mechanical pencils, smokers' pipes*—(1) *Essential parts defined.* For purposes of the exemption from tax provided by section 4003 applicable to fountain pens, mechanical pencils, and smokers' pipes, the term "essential parts" shall include:

(i) *Fountain pen.* In the case of a fountain pen—the pen point, lever, clip, and the plain narrow band or bands placed on the cap for the purpose of preventing the cap from splitting or expanding.

(ii) *Mechanical pencil.* In the case of a mechanical pencil—the tapered point holding the lead for writing, the clip, and the plain narrow band or bands placed on the barrel or cap, or both, for the purpose of preventing such part or parts from splitting or expanding.

(iii) *Smoker's pipe.* In the case of a smoker's pipe—the plain narrow band or bands placed on the shank of the pipe to prevent the shank from splitting.

All other parts of such pens, pencils, or pipes consisting of precious metals or imitations thereof shall be deemed to be ornamentations unless it is established that a particular part is an essential part not used for ornamental purposes. Furthermore, the tax imposed by section 4001 shall attach if the aforementioned essential band or bands on a fountain pen, mechanical pencil, or smoker's pipe consist of precious metals or imitations thereof and have a combined width of more than ⅜ of an inch.

(2) *Credit or refund of manufacturers excise tax.* See section 6416(d) and the regulations thereunder contained in Subpart O of this part for credit or refund of the manufacturers excise tax paid under section 4201 on mechanical pencils, fountain and ball point pens, and mechanical lighters for cigarettes, cigars, and pipes, in the case where because of further manufacture the tax imposed by section 4001 applies to the sale of such articles at retail.

§ 48.4003–2 Exemptions; certain auction sales.

A limited exemption in the amount of $100 of the sale price is provided by section 4003(b) in the case of an auction sale held at the home of the owner of an article or articles taxable under section 4001. Thus, for example, if a pearl necklace was first sold by an auctioneer at the owner's home for $40 and a diamond pin was next sold at the same sale for $150, the sale of the necklace would be tax free and the remaining $60 of the $100 exemption would be applied against the sale price of the pin, $90 of such sale price being subject to tax. Sales of articles not taxable under section 4001 shall not be considered in applying the $100 exemption. Only one exemption shall be allowed regardless of the period of time during which the auction sale takes place. This exemption also applies to an auction sale of articles of a decedent held at the home of such decedent. See section 4013 and § 48.4013–1 for $100 exemption in the case of furs sold at certain auction sales.

§ 48.4003–3 Exemptions; certain clocks.

(a) *Clocks subject to manufacturers excise tax.* Section 4003(c) provides that a clock or watch (or a case or movement for a clock or watch) shall be exempt from the tax imposed by section 4001 if a tax was imposed in respect of such clock, watch, case, or movement under chapter 32 (relating to manufacturers excise taxes) by reason of its sale as a part or accessory (for example, an automobile clock) or by reason of its sale on or in connection with or with the sale of any article (for example, a stove). The exemption is limited to clocks, watches, and cases and movements in respect of which tax under chapter 32 was imposed. Thus, for example, the exemption does not apply where a clock or watch (or a case or movement therefor) in respect of which tax was not imposed under chapter 32 is (1) sold at retail in conjunction with the sale of another article which is subject to a manufacturers excise tax imposed by chapter 32, or (2) sold separately at retail to replace a clock, watch, case, or movement in an article subject to a manufacturers excise tax imposed by chapter 32.

(b) *Clocks in control or regulatory devices*—(1) *In general.* Section 4003(d) provides that sales at retail of a clock or watch (or a case or movement for a clock or watch) shall be exempt from the tax imposed by section 4001 if such clock, watch, case, or movement is—

(i) A part of a control or regulatory device (for example, a thermostat) which is an article, or part thereof, not taxable under chapter 32 (relating to manufacturers excise taxes), or

(ii) Sold as a repair or replacement part for such a device.

(2) *Control or regulatory device defined.* For purposes of this paragraph, the term "control or regulatory device" does not include clocks which in themselves have control or regulatory features, such as electric clocks that can be used to turn on radios, coffeemakers, etc., or defrost refrigerators. To qualify for the exemption, the control or regulatory device must be the major item of the combination and the clock a subsidiary item.

§ 48.4003–4 Other tax-free sales.

For provisions relating to other tax-free sales of articles referred to in section 4001, see—

(a) Section 4055, relating to the exemption of sales for the exclusive use of any State or political subdivision thereof, or the District of Columbia,

(b) Section 4056, relating to the exemption of sales for export, and

(c) Section 4057, relating to the exemption of sales to nonprofit educational organizations,

and the regulations thereunder contained in Subpart G.

Subpart C—Furs

§ 48.4011 Statutory provisions; imposition of tax.

SEC. 4011. *Imposition of tax.* There is hereby imposed upon the following articles sold at retail a tax equivalent to 10 percent of the price for which so sold: Articles made of fur on the hide or pelt, and articles of which such fur is the component material of chief value, but only if such value is more than three times the value of the next most valuable component material.

[Sec. 4011 as originally enacted and in effect Jan. 1, 1959]

§ 48.4011–1 Imposition of tax.

(a) *In general.* (1) Section 4011 imposes a tax upon the following articles sold at retail:

(i) Articles made of fur on the hide or pelt; and

(ii) Articles of which fur on the hide or pelt is the component material of chief value, but only if such value is more than three times the value of the next most valuable component material.

(2) The tax imposed by section 4011 is not limited to wearing apparel, but applies to sales of an article suitable for any use, such as a rug, robe, toy, novelty, etc.

(3) The tax does not apply to the sale of raw fur.

(4) For tax applicable in respect of fur articles manufactured from a customer's materials, see section 4012(a) and § 48.4012–1.

(5) For provisions relating to sales by an auctioneer or other agent, see section 4012(b) and § 48.4012–2.

(b) *Fur on hide or pelt.* For purposes of section 4011 and the regulations in this subpart, the term "fur on the hide or pelt" means animal hides or pelts with hair wholly or partially intact. However, the term does not include hides or pelts with hair which does not have the appearance of fur and is not used as fur. For example, certain sheep have hair so fine that its natural tendency is to become matted or felted, and, therefore, in its natural condition it neither resembles fur nor is used as fur. But if such hides or pelts are processed so that the hair loses its matted or felted appearance and takes on the appearance of fur, they will be deemed to be "fur on the hide or pelt".

(c) *Articles made of fur.* The term "articles made of fur on the hide or pelt", as used in section 4011 and this section, includes all articles made of such fur as distinguished from fur-trimmed or fur-lined articles. For example, fur coats, capes, stoles, hats, etc., shall be subject to the tax referred to in paragraph (a)(1)(i) of this section without regard to the relative values of the component parts. Fur-trimmed or fur-lined articles shall be subject to the tax referred to in paragraph (a)(1)(ii) of this section if the value of the fur is more than three times the value of the next most valuable component material.

(d) *Articles of which fur is a component material*—(1) *Valuation.* In determining, for the purposes of paragraph (a)(1)(ii) of this section, whether the sale of an article of which fur is a component material is subject to tax, the value of such fur at the time of assemblage of the article must be compared to the value of each other single component at such time. In comparing the value of the fur to the other components, all costs (including labor) of making or preparing a complete component shall be considered. However, the cost of assembling the components into the finished article shall not be considered.

(2) *Records.* Where fur is a component material of an article and exemption with respect to the sale of such article is claimed on the ground that the value of the fur as compared with that of the most valuable of the other component materials is not such as to render the sale taxable under paragraph (a)(1)(ii) of this section, the retailer must maintain adequate records or have in his possession proper documentary evidence to establish that fact to the satisfaction of the Commissioner. An example of documentary evidence which will be acceptable is a written statement from the manufacturer or producer of the article stating that the value of the fur at the time of assemblage of the article was not more than three times the value at such time of the next most valuable component material. In the absence of such records or documentary evidence, the tax must be paid with respect to the sale of such article at retail.

(e) *Rate of tax.* The tax is imposed at the rate of 10 percent of the price for which the taxable article is sold at retail. For definition of the term "price", see section 4051 and the regulations thereunder contained in Subpart G.

(f) *Liability for tax.* The tax is payable by the person who sells at retail any article subject to tax under section 4011. For tax applicable to leases, see section 4052 and the regulations thereunder contained in Subpart G.

(g) *Sales by United States.* For provisions relating to sales at retail made by the United States, its agencies or instrumentalities, see section 4054 and the regulations thereunder contained in Subpart G of this part.

§ 48.4011–2 Repairing, remodeling, and restyling.

(a) *Fur furnished by furrier.* If a furrier uses fur on the hide or pelt which he furnishes to repair, remodel, or restyle a fur article owned by a customer, the tax imposed by section 4011 shall apply if a garment or an article such as a collar, cuff, sleeve, lapel, button, border, etc., is produced from the fur furnished by the furrier. The tax shall not apply if, for example, the fur furnished by the furrier is used merely to replace a worn section of a sleeve or cuff. If a taxable garment or article is produced, the tax shall attach to that portion of the price charged for the entire repairing, remodeling, or restyling operation which is attributable to the garment or article so produced, and the person repairing, remodeling, or restyling shall be deemed to be the person selling such garment or article at retail for the purposes of the tax imposed by section 4011. For purposes of this paragraph, the term "furrier" includes a person in the business of repairing, remodeling, or restyling fur articles.

(b) *Fur furnished by customer.* The tax shall not apply in the case where the fur furnished by the customer is used merely to replace a section of a garment or other article, such as a worn section of a sleeve or cuff. For tax applicable in respect of repairing, remodeling, or restyling of fur articles where an article is produced from fur furnished by the customer, see § 48.4012–1.

§ 48.4012 Statutory provisions; definitions.

SEC. 4012. *Definitions*—(a) *Manufacture from customers material.* Where a person, who is engaged in the business of dressing or dyeing fur skins or of manufacturing, selling, or repairing fur articles, produces an article of the kind described in section 4011 from fur on the hide or pelt furnished, directly or indirectly, by a customer and the article is for the use of, and not for resale by, such customer, the transaction shall be deemed to be a sale at retail and the person producing the article shall be deemed to be the person selling such article at retail for the purposes of such section. The tax on such a transaction shall be computed and paid by such person upon the fair retail market value, as determined by the Secretary or his delegate, of the finished article.

(b) *Sale includes auctions.* For the purposes of section 4011, the term "articles sold at retail" includes an article sold at retail by an auctioneer or other agent in the course of his business on behalf of—

(1) A person who is not engaged in the business of selling like articles, or

(2) The legal representative of the estate of a decedent who was not engaged in the business of selling like articles. In the case of articles so sold, the auctioneer or other agent shall be considered the "person who sells at retail."

[Sec. 4012 as originally enacted and in effect Jan. 1, 1959]

§ 48.4012–1 Manufacture from customer's fur.

The tax imposed by section 4011 applies where a person, who is engaged in the business of dressing or dyeing fur skins or of manufacturing, selling, or repairing fur articles, produces a garment, or article such as a muff, collar, cuff, sleeve, lapel, button, border, or other article of the kind described in section 4011 and paragraph (a)(1) of § 48.4011–1, from unused fur on the hide or pelt furnished directly or indirectly by a customer and the article is for the use of, and not for resale by, such customer. The transaction shall be deemed to be a sale at retail and the person producing the article shall be deemed to be the person selling such article for purposes of section 4011. The tax applicable to such transaction shall be computed upon the fair retail market value of the finished article as determined by the district director of internal revenue for the district in which the principal place of business of the taxpayer is located, and shall be determined without regard to the fact that the fur was furnished by the customer. In general, the fair retail market value may be considered as the retail sale price for which the same or a similar finished article is sold by retailers generally in the ordinary course of the retail trade.

§ 48.4012–2 Definition of sale includes auctions.

(a) *In general.* Section 4012(b) provides that for purposes of section 4011, the term "articles sold at retail" includes an article sold at retail by an auctioneer or other agent in the course of his business on behalf of (1) a person who is not engaged in the business of selling like articles or his legal representative, or (2) the legal representative of the estate of a decedent who was not engaged in the business of selling like articles. Section 4012(b) also provides that in the case of articles so sold, the auctioneer or other agent shall be considered the "person who sells at retail". Thus, such auctioneer or agent shall be liable for payment of the tax imposed by section 4011 and the filing of returns.

(b) *Sales not at auction.* The provisions of section 4012(b) and paragraph (a) of this section are not limited to auction sales but are applicable to all sales at retail of articles enumerated in section 4011 by an auctioneer or other agent in the course of his business.

(c) *Exemption.* See section 4013 and § 48.4013–1 for the limited exemption which applies to certain auction sales.

§ 48.4013 Statutory provisions; exemption of certain auction sales.

SEC. 4013. *Exemption of certain auction sales.* (a) In the case of an auction sale held at the home of a person whose articles are being sold, any taxable article (as defined in subsection (b)) of such person sold by the auctioneer shall be exempt from the tax imposed by section 4011 except to the extent that the price for which such article is sold, when added to the sum of the sale prices of all other taxable articles of such person previously sold at the same auction, exceeds $100.

(b) For the purposes of this section—

(1) The term "taxable article" means an article which, by reason of section 4012(b) and without regard to the exemption provided in subsection (a), is taxable under section 4011 when sold at auction; and

(2) In the case of articles of a decedent sold on behalf of the legal representative of his estate, an auction sale held at the home of such decedent shall be considered as "held at the home of a person whose articles are being sold".

[Sec. 4013 as originally enacted and in effect Jan. 1, 1959]

§ 48.4013–1 Exemption of certain auction sales.

Section 4013 provides a limited exemption in the amount of $100 of the sale price in the case of an auction sale held at the home of the owner of an article or articles taxable under section 4011. Thus, for example, if a fur neck piece was first sold by an auctioneer at the owner's home for $80 and a fur coat was next sold at the same sale for $200, the sale of the fur neck piece would be tax free and the remaining $20 of the $100 exemption would be applied against the sale price of the fur coat, $180 of such sale price being subject to tax. Sales of articles not taxable under section 4011 shall not be considered in applying the $100 exemption. Only one exemption shall be allowed regardless of the period of time during which the auction sale takes place. This exemption also applies to an auction sale of articles of a decedent held at the home of such decedent. See section 4003(b) and § 48.4003–2 for $100 exemption in the case of certain auction sales of jewelry and other articles taxable under section 4001.

§ 48.4013–2 Other tax-free sales.

For provisions relating to other tax-free sales of articles referred to in section 4011, see—

(a) Section 4055, relating to the exemption of sales for the exclusive use of any State or political subdivision thereof, or the District of Columbia,

(b) Section 4056, relating to the exemption of sales for export, and

(c) Section 4057, relating to the exemption of sales to nonprofit educational organizations,

and the regulations thereunder contained in Subpart G.

Subpart D—Toilet Preparations

§ 48.4021 Statutory provisions; imposition of tax.

SEC. 4021. *Imposition of tax.* There is hereby imposed upon the following articles sold at retail a tax equivalent to 10 percent of the price for which so sold—

Perfume.	Hair oils.
Essences.	Pomades.
Extracts.	Hair dressings.
Toilet waters.	Hair restoratives.
Cosmetics.	Hair dyes.
Petroleum jellies.	Toilet powders.

Any other similar substance, article, or preparation, by whatsoever name known or distinguished; any of the above which are used or applied or intended to be used or applied for toilet purposes.

[Sec. 4021 as originally enacted and in effect Jan. 1, 1959, and as amended by sec. 1, Act of April 8, 1960 (Pub. Law 86–413, 74 Stat. 31)]

§ 48.4021–1 [Reserved]

§ 48.4022 Statutory provisions; exemptions.

SEC. 4022. *Exemptions*—(a) *Items for babies.* The tax imposed by section 4021 shall not apply to lotion, oil, powder, or other article intended to be used or applied only in the care of babies.

(b) *Barber shops and beauty parlors.* For the purposes of section 4021, the sale of any article described in such section to any person operating a barber shop, beauty parlor, or similar establishment for use in the operation thereof, or for resale, shall not be considered as a sale at retail. The resale of such article at retail by such person shall be subject to the provisions of section 4021.

(c) *Miniature samples.* For the purposes of section 4021, the sale of miniature samples of any article described in such section for demonstration use only to a house-to-house salesman by the manufacturer or distributor, shall not be considered as a sale at retail. The resale of such sample at retail by such house-to-house salesman shall be subject to the provisions of section 4021.

[Sec. 4022 as originally enacted and in effect Jan. 1, 1959]

§ 48.4022–1 Exemptions.

(a) *Items for babies.* Section 4022 provides that the tax imposed by section 4021 does not apply to the sale of lotions, oils, powders, or other articles intended to be used or applied only in the care of babies. The determination of whether toilet articles are intended to be used or applied only in the care of babies will be made only by reference to the advertising with respect to, and the labeling contained on, the article. If an article is advertised and labeled as being for use in the care of babies and is not advertised or labeled as usable by persons other than babies, the sale of the article is exempt from tax even though the particular purchaser buys it for adult use. On the other hand, the sale of an article which is represented by advertising or labeling as fit for adult use, in addition to use in the care of babies, shall not be exempt from tax even though sold to a purchaser who intends to use the article only in the care of babies.

(b) *Barber shops and beauty parlors.* (1) The sale of any article taxable under section 4021 to a person operating a barber shop, beauty parlor, or similar establishment, whether for use in the operation thereof or for resale purposes, shall not be considered as a sale at retail and the tax imposed by section 4021 shall not be applicable to such sale.

(2) In any case where the operator of a barber shop, beauty parlor, or similar establishment sells at retail an article taxable under section 4021, he is liable for the tax imposed by such section.

(c) *Miniature samples.* The sale by the manufacturer or distributor of miniature samples of any article taxable under section 4021 to a house-to-house salesman for demonstration use only shall not be considered as a sale at retail and the tax imposed by section 4021 shall not be applicable to such sale. In any case where the house-to-house salesman sells at retail any of the miniature samples purchased from the manufacturer or distributor for demonstration use, he is liable for the tax imposed by section 4021.

§ 48.4022–2 Other tax-free sales.

For provisions relating to other tax-free sales of articles referred to in section 4021, see—

(a) Section 4055, relating to the exemption of sales for the exclusive use of any State or political subdivision thereof, or the District of Columbia,

(b) Section 4056, relating to the exemption of sales for export, and

(c) Section 4057, relating to the exemption of sales to nonprofit educational organizations,

and the regulations thereunder contained in Subpart G.

Subpart E—Luggage, Handbags, Etc.

§ 48.4031 Statutory provisions; imposition of tax.

SEC. 4031. *Imposition of tax.* There is hereby imposed upon the following articles, by whatever name called, sold at retail (including in each case fittings or accessories therefor sold on or in connection with the sale thereof) a tax equivalent to 10 percent of the price for which so sold—

Bathing suit bags.
Beach bags or kits.
Billfolds.
Briefcases.
Brief bags.
Camping bags.
Card and pass cases.
Collar cases.
Cosmetic bags and kits.
Dressing cases.
Duffebags.
Furlough bags.
Garment bags designed for use by travelers.
Hatboxes designed for use by travelers.
Haversacks.
Key cases or containers.
Knapsacks.
Knitting or shopping bags (suitable for use as purses or handbags).
Makeup boxes.
Manicure set cases.
Memorandum pad cases (suitable for use as card or pass cases, billfolds, purses, or wallets).
Musette bags.
Overnight bags.
Pocketbooks.
Purses and handbags.
Ring binders, capable of closure on all sides.
Salesmen's sample or display cases, bags, or trunks.
Satchels.
Shoe and slipper bags.
Suitcases.
Tie cases.
Toilet kits and cases.
Traveling bags.
Trunks.
Valises.
Vanity bags or cases.
Wallets.
Wardrobe cases.

[Sec. 4031 as amended and in effect Jan. 1, 1959]

§ 48.4031–1 Imposition of tax.

(a) *In general.* Section 4031 imposes a tax on:

(1) The following articles, by whatever name called, sold at retail—

Bathing suit bags.
Beach bags or kits.
Billfolds.
Briefcases.
Brief bags.
Camping bags.
Card and pass cases.
Collar cases.
Cosmetic bags and kits.
Dressing cases.
Duffebags.
Furlough bags.
Garment bags designed for use by travelers.
Hatboxes designed for use by travelers.
Haversacks.
Key cases or containers.
Knapsacks.
Knitting or shopping bags (suitable for use as purses or handbags).
Makeup boxes.
Manicure set cases.
Memorandum pad cases (suitable for use as card or pass cases, billfolds, purses, or wallets).
Musette bags.
Overnight bags.
Pocketbooks.
Purses and handbags.
Ring binders, capable of closure on all sides.
Salesmen's sample or display cases, bags, or trunks.
Satchels.
Shoe and slipper bags.
Suitcases.
Tie cases.
Toilet kits and cases.
Traveling bags.
Trunks.
Vanity bags or cases.
Valises.
Wallets.
Wardrobe cases.

(2) Fittings or accessories for any article enumerated in subparagraph (1) of this paragraph sold on or in connection with the sale at retail of such article.

(b) *Meaning of terms*—(1) *In general.* For purposes of the tax imposed by section 4031, the articles listed in such section include all receptacles commonly or commercially known and sold as such regardless of design, size, or materials from which made or the purpose for which they are to be used. If there is doubt as to whether an article is taxable, the manner in which the article is advertised or otherwise held out for sale shall be considered. The articles listed in section 4031 include any such articles regardless of the name attached to, or associated with, the articles for merchandising or other reasons. For example, an article marketed as a "money holder" is taxable if in fact it is a "billfold" or "wallet".

(2) *Briefcases.* The term "briefcases" includes, for purposes of the tax imposed by section 4031, articles commonly or commercially known and sold as such regardless of materials from which made or the purpose for which they are to be used. The term also includes so-called "portfolios", "envelopes", etc., capable of being closed on all four sides which are designed and constructed for carrying or conveying unfolded legal-size or letter-size papers, documents, etc. The term does not include "portfolios", "envelopes", etc., designed and constructed primarily for storage purposes.

(3) *Knitting or shopping bags.* A knitting or shopping bag shall be considered suitable for use as a purse or handbag, for purposes of the tax imposed by section 4031, if it is capable of being carried in the hand, or hung on the arm or across the shoulder, and if—

(i) The bag has a secure closure, or

(ii) The bag has a built-in purse, side pocket, or compartment closed by a zipper, snap fastener, or other secure closure,

provided the bag, or the built-in purse, side pocket, or compartment, is capable, when open, of holding the normal contents of a purse or handbag.

(c) *Children's luggage and toy luggage.* The tax applies to the sale at retail of articles listed in section 4031 which are designed and constructed for use as such by a child (for example, a child's purse, handbag, or suitcase). However, the tax does not attach to the sale at retail of articles which simulate articles of the type referred to in section 4031 but which are toys, that is, articles designed, constructed, and advertised or otherwise held out for sale for the amusement of a child or for use in a child's play. For example, the tax shall not apply to the sale at retail of a trunk designed, constructed, and held out for sale solely to hold clothing for a doll.

(d) *Rate of tax.* The tax is imposed at the rate of 10 percent of the price for which the taxable article is sold at retail. For definition of the term "price", see section 4051 and the regulations thereunder contained in Subpart G.

(e) *Liability for tax.* The tax is payable by the person who sells at retail any article subject to tax under section 4031. For tax applicable to leases, see section 4052 and the regulations thereunder contained in Subpart G.

(f) *Sales by United States.* For provisions relating to sales at retail made by the United States, its agencies or instrumentalities, see section 4054 and the regulations thereunder contained in Subpart G.

(g) *Tax-free sales.* For provisions relating to tax-free sales of articles referred to in section 4031, see—

(1) Section 4055, relating to the exemption of sales for the exclusive use of

any State or political subdivision thereof, or the District of Columbia,

(2) Section 4066, relating to the exemption of sales for export, and

(3) Section 4067, relating to the exemption of sales to nonprofit educational organizations,

and the regulations thereunder contained in Subpart G of this part.

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 60-LA-52]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, POSITIVE CONTROL AREAS

Revocation of Federal Airway, Associated Control Areas and Reporting Points

On September 29, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9294) stating that the Federal Aviation Agency proposed to revoke Red Federal airway No. 15, in its entirety, its associated control areas and reporting points.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, Parts 600 and 601 (14 CFR 600, 601) are amended as follows:

1. Section 600.215 *Red Federal airway No. 15 (Prescott, Ariz., to Phoenix, Ariz.)* is revoked.

2. Section 601.215 *Red Federal airway No. 15 control areas (Prescott, Ariz., to Phoenix, Ariz.)* is revoked.

3. Section 601.4215 *Red Federal airway No. 15 (Prescott, Ariz., to Phoenix, Ariz.)* is revoked.

These amendments shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 5, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11486; Filed, Dec. 9, 1960; 8:46 a.m.]

[Airspace Docket No. 60-NY-49]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation and Modification of Segments of Federal Airway, Associated Control Areas and Reporting Points

On July 8, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 6438) stating that the Federal Aviation Agency proposed to revoke two segments of Red Federal airway No. 20 and to modify its eastern terminus. In addition, two designated reporting points associated with this airway are being revoked.

Although not mentioned in the Notice, the segment of Red 20 between Lansing, Mich., and Windsor, Ontario, Canada is being redesignated to eliminate the Selfridge AFB, Mich., radio range station from the description of the airway, as the Department of the Air Force plans to decommission this facility. The Federal Aviation Agency has determined, by flight check, that the Flint, Mich., ILS outer compass locator can be used in describing this segment of Red 20 in lieu of the Selfridge radio range.

The modification of the eastern terminus of Red 20, as mentioned in the notice is being accomplished in Airspace Docket No. 60-NY-24 (25 F.R. 10798) which is effective January 12, 1961.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated herein and in the notice, the following actions are taken:

1. Section 600.220 (14 CFR 600.220) is amended to read:

§ 600.220 Red Federal airway No. 20 (Lansing, Mich., to Cleveland, Ohio; Pittsburgh, Pa., to Martinsburg, W. Va.; and Washington, D.C., to Meekins Neck, Md.).

That airspace over the United States from the Lansing, Mich., RR via the Flint, Mich., ILS outer compass locator; INT of the 106° True bearing from the Flint ILS outer compass locator and the NW course of the Windsor, Ont., Canada, RR; Windsor RR; to the Cleveland, Ohio, RR. From the Pittsburgh, Pa., RR to the INT of the SE course of the Pittsburgh RR and the NW course of the Washington, D.C., RR. From the Washington RR to the INT of the SE course of the Washington RR and the NE course of the Tappahannock, Va., RR, excluding the portion below 6,000 feet MSL which would coincide with the Patuxent Restricted Area (R-71).

2. Section 601.220 (14 CFR 601.220) is amended to read:

§ 601.220 Red Federal airway No. 20 control areas (Lansing, Mich., to Cleveland, Ohio; Pittsburgh, Pa., to Martinsburg, W. Va.; and Washington, D.C., to Meekins Neck, Md.).

All of Red Federal airway No. 20.

3. Section 601.4220 (14 CFR 601.4220) is amended to read:

§ 601.4220 Red Federal airway No. 20 (Lansing, Mich., to Cleveland, Ohio; Pittsburgh, Pa., to Martinsburg, W. Va.; and Washington, D.C., to Meekins Neck, Md.).

The INT of the SE course of the Pittsburgh, Pa., RR and the NE course of the Morgantown, W. Va., RR.

These amendments shall become effective 0001 e.s.t. February 9, 1961.

Issued in Washington, D.C., on December 5, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11487; Filed, Dec. 9, 1960; 8:46 a.m.]

[Airspace Docket No. 60-KC-68]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Federal Airway, Associated Control Areas and Reporting Points

On September 15, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8887) stating that the Federal Aviation Agency proposed to revoke Red Federal airway No. 100 in its entirety, its associated control areas and reporting points.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, Parts 600 and 601 (14 CFR 600, 601) are amended as follows:

1. Section 600.300 *Red Federal airway No. 100 (South Bend, Ind., to Battle Creek, Mich.)* is revoked.

2. Section 601.300 *Red Federal airway No. 100 control areas (South Bend, Ind., to Battle Creek, Mich.)* is revoked.

3. Section 601.4300 *Red Federal airway No. 100 (South Bend, Ind., to Battle Creek, Mich.)* is revoked.

These amendments shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 5, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11489; Filed, Dec. 9, 1960; 8:46 a.m.]

[Airspace Docket No. 60-KC-64]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Zone

On October 1, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9416) stating that the Federal Aviation Agency proposed to modify the Garden City, Kans., control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 601.2050 (14 CFR 601.2050) is amended to read:

§ 601.2050 Garden City, Kans., control zone.

Within a 5-mile radius of the New Garden City Airport (latitude 37°56'08" N., longitude 100°43'46" W.), within 2 miles either side of the 144° True bearing from the RR extending from the 5-mile radius zone to the RR and within 2 miles either side of the 004° and 171° True radials of the VOR extending from the 5-mile radius zone to 12 miles N and S of the VOR.

This amendment shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 5, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11484; Filed, Dec. 9, 1960; 8:45 a.m.]

[Airspace Docket No. 60-FW-76]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Zone

On October 13, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9815) stating that the Federal Aviation Agency proposed to modify the Tallahassee, Fla., control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 601.2167 (14 CFR 601.2167) is amended to read:

§ 601.2167 Tallahassee, Fla., control zone.

Within a 5-mile radius of the Tallahassee Municipal Airport (Latitude 30°23'33" N., Longitude 84°21'06" W.), and within 2 miles either side of the NW course of the Tallahassee RR extending from the 5-mile radius zone to 12 miles NW of the RR.

This amendment shall be effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 5, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11485; Filed, Dec. 9, 1960; 8:45 a.m.]

[Airspace Docket No. 60-FW-64]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Zone

On September 21, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9062) stating that the Federal Aviation Agency proposed to modify the Brunswick, Ga., (McKinnon Airport) control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 601.2230 (14 CFR 601.2230) is amended to read:

§ 601.2230 Brunswick, Ga., (McKinnon Airport) control zone.

Within a 5-mile radius of McKinnon Airport, Brunswick, Ga. (latitude 31°09'05" N., longitude 81°23'20" W.), within 2 miles either side of the 226° True bearing from the Brunswick RBN extending from the 5-mile radius zone to 12 miles SW of the RBN, and within 2 miles either side of the 023° True radial of the Brunswick VOR extending from the 5-mile radius zone to the VOR.

This amendment shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 5, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[Airspace Docket No. 60-WA-234]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Zone

On October 8, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9687) stating that the Federal Aviation Agency proposed to modify the Beaumont, Tex., control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following action is taken: In the text of § 601.2332 (25 F.R. 5377) "LOM, and within 2 miles either side of the Beaumont ILS localizer SE course extending from the 5-mile radius zone to a point 10 miles SE of the airport." is deleted and "LOM." is substituted therefor.

This amendment shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 6, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[Airspace Docket No. 60-FW-63]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Modification of Control Zone

On October 1, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9417) stating that the Federal Aviation Agency pro-

posed to modify the Brunswick, Ga., control zone (NAAS Glynco).

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 601.2357 (14 CFR 601.2357) is amended to read:

§ 601.2357 Brunswick, Ga., (NAAS Glynco) control zone.

Within a 5-mile radius of NAAS Glynco (latitude 31°15'31" N., longitude 81°28'01" W.), within 2 miles either side of the 055° True radial of the Glynco TACAN extending from the 5-mile radius zone to 7 miles NE of the TACAN, within 2 miles either side of the 250° True radial of the Glynco TACAN extending from the 5-mile radius zone to 9 miles SW of the TACAN and excluding that portion which coincides with the McKinnon Airport control zone, Brunswick, Georgia.

This amendment shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 5, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11482; Filed, Dec. 9, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-232]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Modification of Coded Jet Route

On October 1, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9419) stating that the Federal Aviation Agency (FAA) proposed to modify the segment of VOR/VORTAC jet route No. 15 between Roswell, N. Mex., and Albuquerque, N. Mex.

As stated in the notice, the FAA proposed to realign J-15-V from the Roswell VOR to the Albuquerque VORTAC via the intersection of the Roswell VOR 319° True and the Albuquerque VORTAC 128° True radials.

The Department of the Air Force offered no objections to the proposed modification. However, the Department of the Navy submitted the following comment, which is quoted in its entirety:

Except for those segments which will not have radar advisory service, the Navy has no objections to the proposed realignment of VOR/VORTAC Jet Route No. 15 from Roswell, New Mexico to Albuquerque, New Mexico. The establishment of any segment of a jet route, for turbo-jet civil air carriers, in which radar advisory service cannot be provided restricts military operations by creating additional areas of positive controlled airways which are objected to by the Navy.

This route is not approved for use by civil aircarrier turbojet aircraft. This realignment is to permit the application of non-radar lateral separation between aircraft operating on this segment of J-15-V and aircraft operating in the White Sands, N. Mex., Restricted Area (R-522). Therefore, the FAA is modifying J-15-V herein as proposed.

No other adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated herein and in the Notice, the following action is taken:

In the text of § 602.515 (14 CFR 602.515) "Albuquerque, N. Mex., VOR;" is deleted and "INT of the Roswell VOR 319° True and the Albuquerque, N. Mex., VORTAC 128° True radials; Albuquerque VORTAC;" is substituted therefor.

This amendment shall become effective 0001 e.s.t. January 12, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 5, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11480; Filed, Dec. 9, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-219]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Modification of Coded Jet Route

On September 29, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9295) stating that the Federal Aviation Agency proposed to extend VOR/VORTAC jet route No. 38 from Duluth, Minn., to the United States/Canadian border via the direct radial between the Duluth VOR and the Kenora, Ontario, VOR, and revoke the segment of J-38-V between Philipsburg, Pa., and New York, N.Y.

No adverse comments were received regarding the proposed amendment. The Department of the Air Force, in advising that they did not object to the airspace action proposed, did state that they would object if radar surveillance was not available for the proposed extension. Radar coverage does exist for this route segment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 602.538 (25 F.R. 2886) is amended to read:

§ 602.538 VOR/VORTAC jet route No. 38 (United States/Canadian Border to Peck, Mich.).

From the INT of the United States-Canadian Border and the direct radial between the Duluth, Minn., VOR and the Kenora, Ont., VOR via the Duluth VOR; Green Bay, Wis., VORTAC; to the Peck, Mich., VOR.

This amendment shall become effective 0001 e.s.t. January 12, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 5, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11481; Filed, Dec. 9, 1960; 8:45 a.m.]

[Airspace Docket No. 60-NY-40]

PART 608—RESTRICTED AREAS

Modification of Restricted Area

On September 20, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9024) stating that the Federal Aviation Agency proposed to modify the De Blois, Maine, Restricted Area (R-397) (Lewiston Chart).

No adverse comments were received regarding the proposed amendment.

Subsequent to publication of the notice, the Department of the Air Force advised that the controlling agency should be the 4038th Strategic Wing, Dow AFB, Maine, in lieu of the 4060th Air Refueling Wing, Dow AFB, Maine. Such action is taken herein to reflect this change.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 8005) and for the reasons stated herein and in the notice, in § 608.27 *Maine*, the De Blois, Maine, Restricted Area (R-397) (Lewiston Chart) (23 F.R. 8581) is amended to read:

De Blois, Maine, Restricted Area (R-397) (Lewistown Chart).

Description by geographical coordinates.

North boundary: latitude 44°50'00" N.; south boundary: latitude 44°40'00" N.; east boundary: longitude 67°42'00" W.; west boundary longitude 67°56'00" W.

Designated altitudes. Surface to 39,000 feet MSL.

Time of designation. 1000 hours to 2400 hours local standard time, Monday through Friday.

Controlling agency. 4038th Strategic Wing, Dow AFB, Maine.

This amendment shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 5, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11490; Filed, Dec. 9, 1960; 8:46 a.m.]

[Airspace Docket No. 59-KC-79]

PART 608—RESTRICTED AREAS

Modification

The purpose of this amendment to § 608.31 of the regulations of the Administrator is to modify the Upper Red Lake, Minn., Restricted Area (R-186) (Lake of the Woods Chart).

The presently designated altitudes of R-186 are from the surface to 50,000 feet MSL and its time of designation is unlimited. The activities conducted within this restricted area are strafing and bombing. A review of these activities by the Federal Aviation Agency (FAA) and the Department of the Navy indicates that the designated altitudes can be reduced to surface to 10,000 feet MSL and the time of designation reduced to sunrise to sunset from May 16 through October 14, and sunrise Saturday to sunset Sunday, October 15 through May 15. In addition, the size of the area can be reduced from 667 square miles to approximately 180 square miles.

The FAA is planning an additional detailed study of R-186 in the near future with a view toward further modification of the area. Pending the results of that study, action is being taken herein to reduce the size of R-186 as described above.

Since this amendment reduces a burden on the public, notice and public procedure hereon are unnecessary, and it may be made effective as indicated.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 8005), the following action is taken:

In § 608.31 *Minnesota*, the Upper Red Lake, Minn., Restricted Area (R-186) (Lake of the Woods Chart) (23 F.R. 8583) is amended to read:

Upper Red Lake, Minn., Restricted Area (R-186) (Lake of the Woods Chart)

Description by geographical coordinates. North boundary, latitude 48°23'00" N; east boundary, longitude 94°40'00" W.; south boundary, latitude 48°13'00" N; west boundary, longitude 95°00'00" W.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Sunrise to sunset, May 16 through October 14, and sunrise Saturday to sunset Sunday, October 15 through May 15, annually.

Controlling agency. Naval Air Station (Minneapolis-St. Paul International Airport), Minneapolis, Minn.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 5, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11491; Filed, Dec. 9, 1960; 8:46 a.m.]

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 2054]

SUBCHAPTER K—MILITARY AND NAVAL SERVICE

PART 181—VETERANS', SOLDIERS' AND SAILORS' RIGHTS

SUBCHAPTER T—SALE, LEASE, OR USE, AND ACQUISITIONS

PART 257—SALE OR LEASE OF SMALL TRACTS

In order to eliminate from the regulations the provisions of section 4 of the act of September 27, 1944 (58 Stat. 748; 43 U.S.C. 282), as amended, which expired September 26, 1959, the regulations are revised as set forth below.

This amendment relates to matters which are exempt from the rule making requirements of the Administrative Procedure Act (5 U.S.C. 1003), and although the Department of the Interior customarily observes the rule making requirements voluntarily, that procedure was not followed in this case since this change in the regulations is merely a reflection of the fact that the provisions of section 4 of the law terminated on September 26, 1959.

§ 181.7 [Revocation]

§ 181.8 [Redesignation]

In order to eliminate from the regulations provisions which were authorized or required by said section, the following revisions are necessary: (1) § 181.7 is revoked in its entirety, § 181.8 is renumbered as § 181.7, and (2) § 257.5, paragraph (b) of § 257.7, § 257.8, paragraphs (c) and (e) of § 257.14, and paragraph (c) of § 257.18 are revised to read as follows:

§ 257.5 Preference rights of applicants.

Where public land is classified pursuant to an application on Form 4-776, which application was filed prior to the receipt by the land office of notice that the area was under consideration for small tract classification, the applicant is entitled to a preference right of lease or purchase, as the case may be, if (a) the land is thereafter classified for the type of site applied for; (b) the applicant agrees to conform his application to the area, classification, and dimensions of the tract as specified in the classification order; and (c) where the land is classified for direct sale, the applicant tenders the fair market value of the land when required.

* * * * *

§ 257.7 Drawing procedure.

(b) The classification or other order may require the filing of "Special Drawing Cards," Form 4-775b, in lieu of Application Form 4-776. Any person who has the necessary qualifications may obtain an official drawing entry card upon request to the land office manager. The request should designate the classification order by number. It should be accompanied by a stamped, self-addressed return envelope. Each successful entrant in a drawing will be furnished in duplicate Form 4-776, bearing the description of the tract allocated to him. The forms must be completely filled out, signed and returned, accompanied by the proper rental and fees within the time allowed by the authorized officer of the Bureau of Land Management. Where an entrant for any reason fails to comply with the requirements within the time allowed, the tract will become available to the alternate next in line in the drawing.

§ 257.8 Filing fee.

Every application on Form 4-776 must be accompanied by a filing fee of $10. No fee is required for the filing of a "Special Drawing Entry Card," Form 4-775b, but the fee is required of entrants who are successful in the drawing. No fee is required in connection with a bid in a sale at public auction. A fee of $10 is required with each application to purchase, based upon an outstanding lease and with each application for renewal or assignment of an outstanding lease. All filing fees will be retained by the Government.

§ 257.14 Public auctions.

* * * * *

(c) A bid sent by mail must be received at the place and within the time specified in the classification order. Each such bid must clearly state (1) the name and address of the bidder and (2) the specific tract, as described in the classification order, for which the bid is made. The envelope must be noted as required by the classification order.

* * * * *

(e) The person who submits the highest bid for each tract at the close of bidding, but not less than the minimum price, will be declared high bidder. If the high bidder meets the general requirements of a small tract applicant, he will be declared purchaser. Any person who is declared high bidder will automatically be disqualified from consideration for other tracts for which he may have submitted bids.

§ 257.18 Application following lease terminations and unsuccessful public auctions.

* * * * *

(c) The order will specify which one of the following methods will be used for disposing of the land: (1) Sale at public auction to the highest bidder in accordance with § 257.14; (2) a special drawing procedure indicated in paragraph (d) of this section.

(52 Stat. 609, as amended; interprets or applies R.S. 2478 and 58 Stat. 748, as amended; 43 U.S.C. 682a–e; 43 U.S.C. 282–284; 43 U.S.C. 1201)

The provisions eliminated from the regulations by this amendment became ineffective September 27, 1959, except with respect to unexpired preferences granted by orders issued prior to that date, and became completely ineffective when rights and privileges under such orders were exhausted.

FRED A. SEATON,
Secretary of the Interior.

DECEMBER 5, 1960.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 4—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST SERVICES

Channels 5 and 6 Are Not Available for TV Translator Use in Alaska and Hawaii

On July 27, 1960, the Commission adopted a Report and Order in Docket No. 12116 amending Part 4 of the rules to provide for the licensing of television broadcast translator stations on VHF television channels. Section 4.702 failed to note that the frequency bands 76–82 Mc and 82–88 Mc (television channels 5 and 6) are allocated for nonbroadcast use in Alaska and Hawaii and, consequently, are not available for use by VHF translators in those states.[1]

The amendment adopted herein is corrective only and therefore may be accomplished and made effective without compliance with the public notice, procedural, and effective date requirements of section 4 of the Administrative Procedure Act.

Authority for the amendment herein is contained in sections 4(i) and 303(c), (d) and (f) of the Communications Act of 1934, as amended, and section 0.341(a) of the Commission's Statement of Organization, Delegations of Authority, and Other Information.

Accordingly, it is ordered, That, effective December 15, 1960, § 4.702(b) of the Commission's rules and regulations is amended; the paragraph reading as follows:

§ 4.702 Frequency assignment.

* * * * *

(b) Any one of the 12 standard VFH channels (2–13 inclusive) may be assigned to a VHF translator on condition that no interference is caused to the direct reception of any television broadcast station operating on the same or an adjacent channel: *Provided, however*, That channels 5 and 6 are allocated for nonbroadcast use in Alaska and Hawaii and will not be assigned to VHF translators in those states.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082 as amended; 47 U.S.C. 303)

Adopted: December 6, 1960.

Released: December 6, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60–11525; Filed, Dec. 9, 1960; 8:50 a.m.]

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 8]

LIABILITY FOR DUTIES; ENTRY FOR IMPORTED MERCHANDISE

Notice of Proposed Amendment of the Customs Regulations Relating to Free Entry of Shipments Valued at Not in Excess of One Dollar

Notice is hereby given that, under the authority of section 321(b), Tariff Act of 1930, as amended, the Treasury Department is considering an amendment to § 8.3 of the Customs Regulations relating to free entry of shipments valued at not in excess of $1.

Under section 321(a)(2)(C), Tariff Act of 1930, as amended, and § 8.3 of the Customs Regulations, articles may be admitted free of duty, without the preparation of an entry, if among other requirements the value of such articles imported by one person on one day does not exceed $1.

The admission of articles free of duty and without the preparation of an entry under section 321(a)(2)(C) of the tariff act in the case of articles of a class or kind prescribed for in quotas is inconsistent with the purpose of such quotas.

Accordingly, to insure that quota merchandise will not enter the country under section 321(a)(2)(C) and pursuant to section 321(b) of the tariff act, it is proposed to amend § 8.3 of the Customs Regulations by adding paragraph (d)(7) which will read as follows:

(7) The exemption referred to in section 321(a)(2)(C) is not to be allowed in the case of any merchandise of a class or kind provided for in any absolute or tariff-rate quota, whether the quota is open or closed. In the case of merchandise of a class or kind provided for in a tariff-rate quota, the merchandise is subject to the rate of duty in effect on the date of entry.

Prior to the final adoption of the amendment to the regulations herein proposed, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing to the Commissioner of Customs, Washington 25, D.C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] LAWTON M. KING,
Acting Commissioner of Customs.

Approved: December 5, 1960.

A. GILMORE FLUES,
Acting Secretary of the Treasury.

Internal Revenue Service

[26 CFR (Part 1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Life Insurance Companies

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

In order to provide regulations under sections 809, 810, 811, 812, and 815 of the Internal Revenue Code of 1954, as added by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 121), the Income Tax Regulations (26 CFR Part 1) are amended as follows:

There are inserted immediately after § 1.807–1 the following new sections:

§ 1.807–2 Taxable years affected.

Section 1.807–1 is applicable only to taxable years beginning after December 31, 1953, and before January 1, 1955, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, before amendments.

GAIN AND LOSS FROM OPERATIONS

§ 1.809 Statutory provisions; life insurance companies; in general.

SEC. 809. *In general*—(a) *Exclusion of share of investment yield set aside for policyholders*—(1) *Amount.* The share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received) of any life insurance company set aside for policyholders shall not be included in gain or loss from operations. For purposes of the preceding sentence, the share of any item set aside for policyholders shall be that percentage obtained by dividing the required interest by the investment yield; except that if the required interest exceeds the investment yield, then the share of any item set aside for policyholders shall be 100 percent.

(2) *Required interest.* For purposes of this part, the required interest for any taxable year is the sum of the products obtained by multiplying—

(A) Each rate of interest required, or assumed by the taxpayer, in calculating the reserves described in section 810(c), by

(B) The means of the amount of such reserves computed at that rate at the beginning and end of the taxable year.

(b) *Gain and loss from operations*—(1) *Gain from operations defined.* For purposes of this part, the term "gain from operations" means the amount by which the sum of the following exceeds the deductions provided by subsection (d):

(A) The life insurance company's share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received); and

(B) The sum of the items referred to in subsection (c).

(2) *Loss from operations defined.* For purposes of this part, the term "loss from operations" means the amount by which the sum of the deductions provided by subsection (d) exceeds the sum of—

(A) The life insurance company's share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received); and

(B) The sum of the items referred to in subsection (c).

(3) *Life insurance company's share.* For purposes of this subpart, the life insurance company's share of any item shall be that percentage which, when added to the percentage obtained under the second sentence of subsection (a)(1), equals 100 percent.

(4) *Exception.* If it is established in any case that the application of the definition of gain from operations contained in paragraph (1) results in the imposition of tax on—

(A) Any interest which under section 103 is excluded from gross income,

(B) Any amount of interest which under section 242 (as modified by section 804(a)(3)) is allowable as a deduction, or

(C) Any amount of dividends received which under sections 243, 244, and 245 (as modified by subsection (d)(8)(B)) is allowable as a deduction,

adjustment shall be made to the extent necessary to prevent such imposition.

(c) *Gross amount.* For purposes of subsections (b)(1) and (2), the following items shall be taken into account:

(1) *Premiums.* The gross amount of premiums and other consideration (including advance premiums, deposits, fees, assessments, and consideration in respect of assuming liabilities under contracts not issued by the taxpayer) on insurance and annuity contracts (including contracts supplementary thereto) less return premiums, and premiums and other consideration arising out of reinsurance ceded. Except in the case of amounts of premiums or other consideration returned to another

life insurance company in respect of reinsurance ceded, amounts returned where the amount is not fixed in the contract but depends on the experience of the company or the discretion of the management shall not be included in return premiums.

(2) *Decreases in certain reserves.* Each net decrease in reserves which is required by section 810 or 811(b)(2) to be taken into account for purposes of this paragraph.

(3) *Other amounts.* All amounts, not included in computing investment yield and not includible under paragraph (1) or (2), which under this subtitle are includible in gross income.

Except as included in computing investment yield, there shall be excluded any gain from the sale or exchange of a capital asset, and any gain considered as gain from the sale or exchange of a capital asset.

(d) *Deductions.* For purposes of subsections (b) (1) and (2), there shall be allowed the following deductions:

(1) *Death benefits, etc.* All claims and benefits accrued, and all losses incurred (whether or not ascertained), during the taxable year on insurance and annuity contracts (including contracts supplementary thereto).

(2) *Increases in certain reserves.* The net increase in reserves which is required by section 810 to be taken into account for purposes of this paragraph.

(3) *Dividends to policyholders.* The deduction for dividends to policyholders (determined under section 811(b)).

(4) *Operations loss deduction.* The operations loss deduction (determined under section 812).

(5) *Certain nonparticipating contracts.* An amount equal to 10 percent of the increase for the taxable year in the reserves for nonparticipating contracts or (if greater) an amount equal to 3 percent of the premiums for the taxable year (excluding that portion of the premiums which is allocable to annuity features) attributable to nonparticipating contracts (other than group contracts) which are issued or renewed for periods of 5 years or more. For purposes of this paragraph, the term "reserves for nonparticipating contracts" means such part of the life insurance reserves (excluding that portion of the reserves which is allocable to annuity features) as relates to nonparticipating contracts (other than group contracts). For purposes of this paragraph and paragraph (6), the term "premiums" means the net amount of the premiums and other consideration taken into account under subsection (c)(1).

(6) *Group life, accident, and health insurance.* An amount equal to 2 percent of the premiums for the taxable year attributable to group life insurance contracts and group accident and health insurance contracts. The deduction under this paragraph for the taxable year and all preceding taxable years shall not exceed an amount equal to 50 percent of the premiums for the taxable year attributable to such contracts.

(7) *Assumption by another person of liabilities under insurance, etc., contracts.* The consideration (other than consideration arising out of reinsurance ceded) in respect of the assumption by another person of liabilities under insurance and annuity contracts (including contracts supplementary thereto).

(8) *Tax-exempt interest, dividends, etc.*—(A) *Life insurance company's share.* Each of the following items:

(i) The life insurance company's share of interest which under section 103 is excluded from gross income,

(ii) The deduction for partially tax-exempt interest provided by section 242 (as modified by section 804(a)(3)) computed with respect to the life insurance company's share of such interest, and

(iii) The deductions for dividends received provided by sections 243, 244, and 245 (as modified by subparagraph (B)) computed with respect to the life insurance company's share of the dividends received.

(B) *Application of section 246(b).* In applying section 246(b) (relating to limitation on aggregate amount of deductions for dividends received) for purposes of subparagraph (A)(iii), the limit on the aggregate amount of the deductions allowed by sections 243(a), 244, and 245 shall be 85 percent of the gain from operations computed without regard to—

(i) The deductions provided by paragraphs (3), (5), and (6) of this subsection,

(ii) The operations loss deduction provided by section 812, and

(iii) The deductions allowed by sections 243(a), 244, and 245,

but such limit shall not apply for any taxable year for which there is a loss from operations.

(9) *Investment expenses, etc.* Investment expenses to the extent not allowed as a deduction under section 804(c)(1) in computing investment yield, and the amount (if any) by which the sum of the deductions allowable under section 804(c) exceeds the gross investment income.

(10) *Small business deduction.* A small business deduction in an amount equal to the amount determined under section 804(a)(4).

(11) *Certain mutualization distributions.* The amount of distributions to shareholders made in 1958 and 1959 in acquisition of stock pursuant to a plan of mutualization adopted before January 1, 1958.

(12) *Other deductions.* Subject to the modifications provided by subsection (e), all other deductions allowed under this subtitle for purposes of computing taxable income to the extent not allowed as deductions in computing investment yield.

Except as provided in paragraph (3), no amount shall be allowed as a deduction under this subsection in respect of dividends to policyholders.

(e) *Modifications.* The modifications referred to in subsection (d)(12) are as follows:

(1) *Interest.* In applying section 163 (relating to deduction for interest), no deduction shall be allowed for interest in respect of items described in section 810(c).

(2) *Bad debts.* Section 166(c) (relating to reserve for bad debts) shall not apply.

(3) *Charitable, etc., contributions and gifts.* In applying section 170—

(A) The limit on the total deductions under such section provided by the first sentence of section 170(b)(2) shall be 5 percent of the gain from operations computed without regard to—

(i) The deduction provided by section 170,

(ii) The deductions provided by paragraphs (3), (5), (6), and (8) of subsection (d), and

(iii) Any operations loss carryback to the taxable year under section 812; and

(B) Under regulations prescribed by the Secretary or his delegate, a rule similar to the rule contained in section 170(b)(3) shall be applied.

(4) *Amortizable bond premium.* Section 171 shall not apply.

(5) *Net operating loss deduction.* The deduction for net operating losses provided in section 172 shall not be allowed.

(6) *Partially tax-exempt interest.* The deduction for partially tax-exempt interest provided by section 242 shall not be allowed.

(7) *Dividends received.* The deductions for dividends received provided by sections 243, 244, and 245 shall not be allowed.

(f) *Limitation on certain deductions*—(1) *In general.* The amount of the deductions under paragraphs (3), (5), and (6) of subsection (d) shall not exceed $250,000 plus the amount (if any) by which—

(A) The gain from operations for the taxable year, computed without regard to such deductions, exceeds

(B) The taxable investment income for the taxable year.

(2) *Application of limitation.* The limitation provided by paragraph (1) shall apply first to the amount of the deduction under subsection (d)(6), then to the amount of the deduction under subsection (d)(5), and finally to the amount of the deduction under subsection (d)(3).

(g) *Limitations on deduction for certain mutualization distributions*—(1) *Deduction not to reduce taxable investment income.* The amount of the deduction under subsection (d)(11) shall not exceed the amount (if any) by which—

(A) The gain from operations for the taxable year, computed without regard to such deduction (but after the application of subsection (f)), exceeds

(B) The taxable investment income for the taxable year.

(2) *Deduction not to reduce tax below 1957 law.* The deduction under subsection (d)(11) for the taxable year shall be allowed only to the extent that such deduction (after the application of all other deductions provided by subsection (d)) does not reduce the amount of the tax imposed by section 802(a)(1) for such taxable year below the amount of tax which would have been imposed by section 802(a) as in effect for 1957, if this part, as in effect for 1957, applied for such taxable year

(3) *Application of section 815.* That portion of any distribution with respect to which a deduction is allowed under subsection (d)(11) shall not be treated as a distribution to shareholders for purposes of section 815; except that in the case of any distribution made in 1959, such portion shall be treated as a distribution with respect to which a reduction is required under section 815(e)(2)(B).

[Sec. 809 as added by sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 121)]

§ 1.809–1 Taxable years affected.

Sections 1.809–2 through 1.809–8 are applicable only to taxable years beginning after December 31, 1957, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112).

§ 1.809–2 Exclusion of share of investment yield set aside for policyholders.

(a) *In general.* Section 809 provides the rules for determining the gain or loss from operations of a life insurance company, which amount is necessary to determine life insurance company taxable income. In order to determine gain or loss from operations, a life insurance company must first determine the share of each and every item of its investment yield (as defined in section 804(c) and paragraph (a) of § 1.804–4) set aside for policyholders (as computed under section 809(a)(1) and paragraph (b) of this section), as this share is excluded from gain or loss from operations (as defined in section 809(b)(1) and (2) and paragraphs (a) and (b) of § 1.809–3, respectively). The life insurance company shall then add its share of each and every item of its investment yield to the sum of the items comprising gross amount (as described in section 809(c) and paragraph (a) of § 1.809–4). From this sum there shall then be subtracted the deductions provided in section 809(d) and paragraph (a) of § 1.809–5. The amount thus obtained is the gain or loss from operations for the taxable year.

(b) *Computation of share of investment yield set aside for policyholders.* Section 809(a)(1) provides that the share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received) of any life insurance company set aside for policyholders shall not be included in gain or loss from operations. For this purpose, the percentage used in determining the share of each of these items comprising the investment yield set aside for policyholders shall be determined by dividing the required interest (as defined in section 809(a)(2) and paragraph (d) of this section) by the investment yield (as defined in section 804(c) and paragraph (a) of § 1.804–4). The percentage thus obtained is then applied to each and every item of the investment yield so that the share of each and every item of investment yield set aside for policyholders shall be excluded from gain or loss from operations. However, if in any case the required interest exceeds the investment yield, then the share of any item set aside for policyholders shall be 100 percent.

(c) *Computation of life insurance company's share of investment yield.* For purposes of subpart C, part I, subchapter L, chapter 1 of the Code, section 809(b)(3) provides that the percentage used in determining the life insurance company's share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received) shall be obtained by subtracting the percentage obtained under paragraph (b) of this section from 100 percent. For example, if the policyholders' percentage (as determined under section 809(a)(1) and paragraph (b) of this section) is 72.38 percent, then the life insurance company's share is 27.62 percent (100 percent minus 72.38 percent). In such a case, if the amount of a particular item is $200, then the life insurance company's share of such item included in determining gain or loss from operations is $55.24 ($200 multiplied by 27.62 percent) and the share of such item set aside for policyholders (which is excluded from gain or loss from operations) is $144.76 ($200 multiplied by 72.38 percent). For purposes of determining gain or loss from operations, the life insurance company's share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received) shall be added to the sum of the items comprising gross amount (as described in section 809(c) and paragraph (a) of § 1.809–4).

(d) *Required interest defined.* (1) For purposes of part I, section 809(a)(2) defines the term "required interest" for any taxable year as the sum of the products obtained by multiplying (i) each rate of interest required, or assumed by the taxpayer, in calculating the reserves described in section 810(c), by (ii) the means of the amount of such reserves computed at that rate at the beginning and end of the taxable year. In the case of the reserves described in section 810(c)(1), such rate of interest shall be the same as that used by the taxpayer for purposes of paragraph (b) of § 1.801–5 (relating to the definition of reserves required by law) with respect to such reserves. In the case of the reserves described in section 810(c)(2) through (5), such rate of interest shall be the same as that actually paid, credited, or accrued by the taxpayer with respect to such reserves. Thus, the required interest for any taxable year includes the elements of interest paid (as defined in section 805(e)) with respect to the reserves described in section 810(c).

(2) For purposes of computing required interest under section 809(a)(2) and subparagraph (1) of this paragraph, the amount of life insurance reserves taken into account shall be adjusted first as required by section 818(c) (relating to an election with respect to life insurance reserves computed on a preliminary term basis) and then as required by section 806(a) (relating to adjustments for certain changes in reserves and assets) before applying the rate of interest required, or assumed by the taxpayer, thereto. However, in the case of the adjustments required by section 810(d) as a result of a change in the basis of computing reserves, the adjustments to any of the reserves described in section 810(c) shall be taken into account in accordance with the rules prescribed in section 810(d) and § 1.810–3.

§ 1.809–3 Gain and loss from operations defined.

(a) *Gain from operations.* For purposes of part I, subchapter L, chapter 1 of the Code, section 809(b)(1) defines the term "gain from operations" as the excess of the sum of (1) the life insurance company's share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received), and (2) the items of gross amount taken into account under section 809(c) and paragraph (a) of § 1.809–4, over the sum of the deductions provided by section 809(d) and § 1.809–5.

(b) *Loss from operations.* For purposes of part I, section 809(b)(2) defines the term "loss from operations" as the excess of the sum of the deductions provided by section 809(d) and § 1.809–5 over the sum of (1) the life insurance company's share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received), and (2) the items of gross amount taken into account under section 809(c) and paragraph (a) of § 1.809–4.

(c) *Illustration of principles.* The provisions of section 809(b)(1) through (3) and paragraphs (a) and (b) of this section may be illustrated by the following example:

Example. For the taxable year 1958, T, a life insurance company, had investment yield of $900,000, including $150,000 of dividends received from domestic corporations subject to taxation under chapter 1 of the Code, $10,000 of wholly tax-exempt interest, and $78,000 of partially tax-exempt interest. T also had items of gross amount under section 809(c) in the amount of $12,000,000 and deductions under section 809(d) of $6,963,500 (exclusive of any deductions for wholly tax-exempt interest, partially tax-exempt interest, and dividends received). For such taxable year, the share of each and every item of investment yield set aside for policyholders was 80 percent and the company's share of each and every item of investment yield was 20 percent. Based upon these figures, T had a gain from operations of $5,180,000 for the taxable year 1958, computed as follows:

	Col. 1	Col. 2 (80% x Col. 1) exclusion of policyholder's share	Col. 3 (20% x Col. 1) company's share
Interest wholly tax-exempt	$10,000	$8,000	$2,000
Interest partially tax-exempt	78,000	62,400	15,600
Dividends received	150,000	120,000	30,000
Other items of investment yield	662,000	529,600	132,400
Investment yield	900,000	720,000	180,000

Gross amount (sum of items under sec. 809(c))		$12,000,000
Total		12,180,000
Less:		
Deductions under sec. 809(d)(8):		
Company's share of interest wholly tax-exempt	$2,000	
35/52 of company's share of interest partially tax-exempt 35/52 × $15,600)	9,000	
85% of company's share of dividends received (but not to exceed 85% of gain from operations as computed under sec. 809(d)(8)(B)) (85% × $30,000)	25,500	
All other deductions under sec. 809(d)	6,963,500	
		7,000,000
Gain from operations		5,180,000

(d) *Exception.* (1) In accordance with section 809(b)(4), if it is established in any case to the satisfaction of the Commissioner, or by a determination of The Tax Court of the United States, or of any other court of competent jurisdiction, which has become final, that the application of the definition of gain from operations contained in section 809(b)(1) results in the imposition of tax on—

(i) Any interest which under section 103 is excluded from gross income,

(ii) Any amount of interest which under section 242 (as modified by section 804(a)(3)) is allowable as a deduction, or

(iii) Any amount of dividends received which under sections 243, 244, and 245 (as modified by section 809(d)(8)(B)) is allowable as a deduction,

adjustment shall be made to the extent necessary to prevent such imposition.

(2) For the date upon which a decision by the Tax Court becomes final, see section 7481. For the date upon which a judgment of any other court becomes final, see paragraph (c) of § 1.1313(a)-1.

§ 1.809-4 Gross amount.

(a) *Items taken into account.* For purposes of determining gain or loss from operations under section 809(b) (1) and (2), respectively, section 809(c) specifies three categories of items which shall be taken into account. Such items are in addition to the life insurance company's share of the investment yield (as determined under section 809(a)(1) and paragraph (c) of § 1.809-2). The three categories of items taken into account are:

(1) *Premiums.* (i) The gross amount of all premiums and other consideration on insurance and annuity contracts (including contracts supplementary thereto); less return premiums, and premiums and other consideration arising out of reinsurance ceded. The term "gross amount of all premiums" means the premiums and other consideration provided in the insurance or annuity contract. Thus, the amount to be taken into account shall be the total of the premiums and other consideration without any deduction for commissions, return premiums, reinsurance, dividends to policyholders, dividends left on deposit with the company, interest applied in reduction of premiums, or any other item of similar nature. Such term includes advance premiums, premiums deferred and uncollected and premiums due and unpaid, deposits, fees, assessments, and consideration in respect of assuming liabilities under contracts not issued by the taxpayer (such as a payment or transfer of property in an assumption reinsurance transaction as defined in paragraph (a)(7)(ii) of § 1.809-5). Amounts representing premiums charged itself by the company with respect to liability for insurance and annuity benefits for employees and agents shall not be included under section 809(c)(1).

(ii) The term "return premiums" means amounts returned which are fixed by contract and do not depend on the experience of the company or the discretion of the management. Thus, such term includes amounts rebated or refunded due to policy cancellations or erroneously computed premiums. Furthermore, amounts of premiums or other consideration returned to another life insurance company in respect of reinsurance ceded shall be included in return premiums. For the treatment of amounts which do not meet the requirements of return premiums, see section 811 (relating to dividends to policyholders).

(iii) For purposes of section 809(c)(1) and this subparagraph, the term "reinsurance ceded" means an arrangement whereby the taxpayer (the reinsured) remains solely liable to the policyholder, whether all or only a portion of the risk has been transferred to the reinsurer. Such term includes indemnity reinsurance transactions but does not include assumption reinsurance transactions. See paragraph (a)(7)(ii) of § 1.809-5 for the definition of assumption reinsurance.

(2) *Decreases in certain reserves.* Each net decrease in reserves which is required by section 810 (a) and (d)(1) or 811(b)(2) to be taken into account for the taxable year as a net decrease for purposes of section 809(c)(2).

(3) *Other amounts.* All amounts, not included in computing investment yield and not otherwise taken into account under section 809(c) (1) or (2), shall be taken into account under section 809(c)(3) to the extent that such amounts are includible in gross income under subtitle A of the Code. See section 61 (relating to gross income defined) and the regulations thereunder.

(b) *Exclusion of net long-term capital gains.* Any net long-term capital gains (as defined in section 1222(7)) from the sale or exchange of a capital asset (or any gain considered to be from the sale or exchange of a capital asset under applicable law) shall be excluded from the determination of gain or loss from operations of a life insurance company. However, section 809(c) provides that any excess of net short-term capital gain (as defined in section 1222(5)) over a net long-term capital loss (as defined in section 1222(8)) included in computing investment yield (as defined in section 804(c)) shall be taken into account in determining gain or loss from operations under section 809.

§ 1.809-5 Deductions.

(a) *Deductions allowed.* Section 809(d) provides the folowing deductions for purposes of determining gain or loss from operations under section 809(b) (1) and (2), respectively:

(1) *Death benefits, etc.* All claims and benefits accrued (less reinsurance recoverable), and all losses incurred (whether or not ascertained), during the taxable year on insurance and annuity contracts (including contracts supplementary thereto). The term "all claims and benefits accrued" includes, for example, matured endowments and amounts allowed on surrender. The term "losses incurred (whether or not ascertained)" means a reasonable estimate of the amount of the losses (based upon the facts in each case and the company's experience with similar cases) incurred but not reported by the end of the taxable year as well as losses reported but where the amount thereof cannot be ascertained by the end of the taxable year.

(2) *Increases in certain reserves.* The net increase in reserves which is required by section 810(b) and (d)(1) to be taken into account for the taxable year as a net increase for purposes of section 809(d)(2).

(3) *Dividends to policyholders.* The deduction for dividends to policyholders as determined under section 811(b) and § 1.811-2. Except as provided in section 809(d)(3) and this subparagraph, no amount shall be allowed as a deduction in respect of dividends to policyholders under section 809(d). See section 809(f) and § 1.809-7 for limitation of such deduction.

(4) *Operations loss deduction.* The operations loss deduction as determined under section 812.

(5) *Certain nonparticipating contracts.* (i) An amount equal to the greater of:

(a) 10 percent of the increase for the taxable year in certain life insurance reserves for nonparticipating contracts (other than group contracts); or

(b) 3 percent of the premiums for the taxable year attributable to nonparticipating contracts (other than group contracts) which are issued or renewed for periods of 5 years or more.

(ii) For purposes of section 809(d)(5) and this subparagraph, the term "nonparticipating contracts" means those contracts having a guaranteed premium rate throughout the premium-paying period but no rights to dividends or similar distributions. If at any time during the taxable year for which the deduction allowed under section 809(d)(5) and this subparagraph is claimed such contracts have rights to dividends or similar distributions, such contracts shall no longer be deemed nonparticipating contracts and, therefore, no deduction shall be allowed. For example, if a class of contracts with a guaranteed premium rate and having no rights to dividends is in force for nine years and on March 10, 1958, it is announced that such contracts shall be accorded dividend rights as of August 1, 1958, no deduction shall be allowed under section 809(d)(5) and this subparagraph for the taxable year 1958 or any succeeding taxable year, whether or not dividends are actually paid on such contracts. However, if the announcement of March 10, 1958, states that such contracts shall be accorded dividend rights as of January 1, 1959, a deduction under section 809(d)(5) and this subparagraph shall be allowed for the taxable year 1958 but not for any succeeding taxable year.

(iii) For purposes of section 809(d)(5) and this subparagraph, the term "reserves for nonparticipating contracts" means such part of the life insurance reserves (as defined in section 801(b) and § 1.801-4), other than that portion of such reserves which is allocable to annuity features, as relates to nonparticipating contracts (as defined in subdivision (ii) of this subparagraph). The amount of life insurance reserves taken into account shall be adjusted first as required by section 818(c) (relating to an election with respect to life insurance reserves computed on a preliminary term basis) and then as required by section 806(a) (relating to adjustments for certain changes in reserves and assets). In the case of the adjustments required by section 810(d) (relating to adjustment for change in computing reserves), the increase in life insurance reserves attributable to reserve strengthening shall be taken into account in accordance with the rules prescribed in section 810(d) and § 1.810-3.

(iv) For purposes of section 809(d)(5) and this subparagraph, the term "premiums" means the net amount of the premiums and other consideration attributable to nonparticipating contracts (as defined in subdivision (ii) of this subparagraph) which are taken into account under section 809(c)(1). For this purpose, premiums include only such amounts attributable to such contracts which are issued or renewed for periods of 5 years or more, but does not include that portion of the premiums which is allocable to annuity features. No portion of a premium shall be deemed allocable to annuity features solely because a contract, such as an endowment contract, provides that at maturity the insured shall have an option to take an annuity. The determination of whether a contract meets the 5-year requirement shall be made as of the date the contract is issued, or as of the date it is renewed, whichever is applicable. Thus, a 20-year nonparticipating endowment policy shall qualify for the deduction under section 809(d)(5), even though the insured subsequently dies at the end of the second year, since the policy is issued for a period of 5 years or more. However, a 1-year renewable term contract shall not qualify, since as of the date it is issued (or of any renewal date) it is not issued (or renewed) for a period of 5 years or more. In like manner, a policy originally issued for a 3-year period and subsequently renewed for an additional 3-year period shall not qualify. However, if this policy is renewed for a period of 5 years or more, the policy shall qualify for the deduction under section 809(d)(5) from the date it is renewed.

(v) The provisions of section 809(d)(5) and this subparagraph may be illustrated by the following example:

Example. Assume the following facts with respect to X, a life insurance company, for the taxable year 1958:

Life insurance reserves on nonparticipating contracts without annuity features (other than group contracts) at 1-1-58	$150,000
Life insurance reserves on nonparticipating contracts without annuity features (other than group contracts) at 12-31-58	225,000
Annuity reserves on nonparticipating contracts (other than group contracts) at 1-1-58	48,000
Annuity reserves on nonparticipating contracts (other than group contracts) at 12-31-58	57,000
Premiums on nonparticipating contracts without annuity features (other than group contracts) issued or renewed for 5 years or more	85,000
Premiums on nonparticipating contracts allocable to annuity features (other than group contracts) issued or renewed for 5 years or more	14,000
Return premiums on nonparticipating contracts without annuity features (other than group contracts)	5,000

In order to determine the deduction under section 809(d)(5) (without regard to the limitation of section 809(f)), X would make up the following schedule:

(1) Life insurance reserves on nonparticipating contracts without annuity features (other than group contracts) at 12-31-58	$225,000
(2) Life insurance reserves on nonparticipating contracts without annuity features (other than group contracts) at 1-1-58	$150,000
(3) Excess of item (1) over item (2) ($225,000 minus $150,000)	75,000
(4) 10 percent of item (3) (10% × $75,000)	$7,500
(5) Net premiums on nonparticipating contracts without annuity features issued or renewed for 5 years or more (other than group contracts) (gross premiums on such contracts ($85,000) minus return premiums ($5,000) on such contracts)	80,000
(6) 3 percent of item (5) (3% × $80,000)	2,400
(7) The greater of item (4) or item (6)	7,500
(8) Tentative deduction under sec. 809(d)(5) (computed without regard to the limitation of sec. 809(f))	7,500

(vi) See section 809(f) and § 1.809-7 for limitation of the deduction provided by this subparagraph.

(6) *Group life, accident, and health insurance.* (i) An amount equal to two percent of the premiums for the taxable year attributable to group life insurance contracts, group accident and health insurance contracts, or group accident and health insurance contracts with a life feature. For purposes of section 809(d)(6) and this subparagraph, the term "premiums" means the net amount of the premiums and other consideration attributable to such contracts taken into account under section 809(c)(1). The deduction allowed by section 809(d)(6) and this subparagraph for the taxable year and all preceding taxable years shall not exceed 50 percent of the net amount of the premiums attributable to such contracts for the taxable year. For example, assume that premiums attributable to group life insurance and group accident and health insurance contracts are $103,000 for the taxable year. Assume further that there are $3,000 of return premiums attributable to such contracts for the taxable year. Under the provisions of section 809(d)(6) and this subparagraph, a deduction (determined without regard to section 809(f)) of $2,000 (2 percent of $100,000 ($103,000 minus $3,000)) is allowed. Assuming that the company continues to receive net premiums of $100,000 attributable to such contracts for 15 years, the cumulative amount of these deductions is $30,000 ($2,000 for 15 years). If, in the sixteenth year, net premiums attributable to such contracts amount to $60,000, no deduction shall be allowed under section 809(d)(6) and this subparagraph since the cumulative amount of these deductions ($30,000) equals 50 percent of the current year's premiums ($60,000) from such contracts.

(ii) In computing the deduction under section 809(d)(6), the determination as to when the 50 percent limitation on such deduction has been reached shall be based upon the amount allowed as a deduction for the taxable year and all preceding taxable years after the application of the limitation provided in section 809(f) and § 1.809-7. Thus, if in the example set forth in subdivision (i) of this subparagraph the application of the limitation provided in section 809(f) and § 1.809-7 limited the deduction allowed in the fifteenth year to $500, then for purposes of determining the 50 percent limitation on such deduction, the cumulative amount of these deductions equals $28,500 ($2,000 for 14 years plus $500 for 1 year). Accordingly, in the sixteenth year, a deduction of $1,200 (2 percent of $60,000) shall be allowed since the cumulative amount of the deductions for the taxable year and all preceding taxable years ($29,700 or $1,200 plus $28,500) is less than 50 percent ($30,000) of the net premiums ($60,000) attributable to such contracts for the taxable year.

(iii) For purposes of determining whether the 50 percent limitation applies to any taxable year, the deduction provided by section 809(d)(6) for all preceding taxable years shall be taken into account, irrespective of whether or not the life insurance company claimed a deduction for these amounts for such preceding taxable years.

(iv) See section 809(f) and § 1.809-7 for limitation of the deduction provided by this subparagraph.

(7) *Assumption by another person of liabilities under insurance, etc., contracts.* (i) The consideration (other than consideration arising out of reinsurance ceded as defined in paragraph (a)(1)(iii) of § 1.809-4) in respect of the assumption by another person of liabilities under insurance and annuity contracts (including contracts supplementary thereto) of the taxpayer.

(ii) For purposes of section 809(d)(7) and this subparagraph, the term "assumption reinsurance" means an arrangement whereby another person (the reinsurer) becomes solely liable to the policyholders on the contracts transferred by the taxpayer. Such term does not include indemnity reinsurance or reinsurance ceded (as defined in paragraph (a)(1)(iii) of § 1.809-4).

(iii) The provisions of section 809(d)(7) and this subparagraph may be illustrated by the following example:

Example. During the taxable year 1958, T, a life insurance company, transferred a block of insurance policies and made a payment of $50,000 to R, a life insurance company, under an arrangement whereby R became solely liable to the policyholders on the policies transferred by T. Under the provisions of section 809(d)(7) and this subparagraph, T is allowed a deduction of $50,000 for the taxable year 1958. For the treatment by R of this $50,000 payment, see section 809(c)(1) and paragraph (a)(1)(i) of § 1.809-4. See section 806 (a) and § 1.806-3 for the adjustments in reserves and assets to be made by T and R as a result of this transaction.

(8) *Tax-exempt interest, dividends, etc.* (i) Each of the following items:

(a) The life insurance company's share of interest which under section 103 is excluded from gross income;

(b) The deduction for partially tax-exempt interest provided by section 242 (as modified by section 804(a)(3) and paragraph (d)(2)(i) of § 1.804–2) computed with respect to the life insurance company's share of such interest; and

(c) The deductions for dividends received provided by sections 243, 244, and 245 (as modified by section 809(d)(8)(B) and subdivision (ii) of this subparagraph) computed with respect to the life insurance company's share of the dividends received.

(ii) The modification contained in section 809(d)(8)(B) provides the method for applying section 246(b) (relating to limitation on aggregate amount of deductions for dividends received) for purposes of section 809(d)(8)(A)(iii) and subdivision (i)(c) of this subparagraph. Under this method, the sum of the deductions allowed by sections 243(a) (relating to dividends received by corporations), 244 (relating to dividends received on certain preferred stock), and 245 (relating to dividends received from certain foreign corporations) shall be limited to 85 percent of the gain from operations computed without regard to:

(a) The deductions provided by section 809(d)(3), (5), and (6);

(b) The operations loss deduction provided by section 812; and

(c) The deductions allowed by sections 243(a), 244, and 245.

If a life insurance company has a loss from operations (as determined under section 812) for the taxable year, the limitation provided in section 809(d)(8)(B) and this subdivision shall not be applicable for such taxable year. In that event, the deductions provided by sections 243(a), 244, and 245 shall be allowable for all tax purposes to the life insurance company for such taxable year without regard to such limitation. If the life insurance company does not have a loss from operations for the taxable year, however, the limitation shall be applicable for all tax purposes for such taxable year. In determining whether a life insurance company has a loss from operations for the taxable year under section 812, the deductions allowed by sections 243(a), 244, and 245 shall be computed without regard to the limitation provided in section 809(d)(8)(B) and this subdivision. For an example of the operation of this rule, see paragraph (b) of §1.812-3.

(9) *Investment expenses, etc.* (i) The amount of investment expenses to the extent not allowed as a deduction under section 804(c)(1) in computing investment yield. For example, if a deduction in the amount of $100,000 is claimed for investment expenses, which amount includes general expenses assigned to or included in investment expenses, and due to the operation of the limitation provided by section 804(c)(1) only $85,000 is allowed, then the excess ($15,000) shall be allowed as a deduction under section 809(d)(9) and this subparagraph.

(ii) The amount (if any) by which the sum of the deductions allowable under section 804(c) exceeds the gross investment income. For example, if gross investment income under section 804(b) equals $400,000, and the sum of the deductions allowable under section 804(c) equals $425,000, then the excess ($25,000) shall be allowed as a deduction under section 809(d)(9) and this subparagraph.

(iii) In determining the amount of the deductions allowed under subdivisions (i) and (ii) of this subparagraph, a life insurance company shall first take such deductions to the full extent allowable under section 804(c)(1), and any amount which is allowed as a deduction under section 804(c) shall not again be allowed as a deduction under section 809(d)(9).

(10) *Small business deduction.* The small business deduction as determined under section 804(a)(4).

(11) *Certain mutualization distributions.* The amount of distributions to shareholders actually made by the life insurance company in 1958 and 1959 in acquisition of stock pursuant to a plan of mutualization adopted by the company before January 1, 1958. If such deduction is claimed, there must be attached to the return of the company claiming such deduction a certified copy of the plan of mutualization and proof that such plan was adopted prior to January 1, 1958. See section 809(g) and § 1.809–8 for limitation of such deduction.

(12) *Other deductions.* Except as modified by section 809(e) and § 1.809–6, all other deductions allowed under subtitle A of the Code for purposes of computing taxable income to the extent not allowed as deductions in computing investment yield. However, a life insurance company shall not be allowed a deduction under section 162 or 404 for amounts representing premiums charged itself by the company with respect to liability for insurance and annuity benefits for employees and agents.

(b) *Denial of double deduction.* Nothing in section 809(d) shall permit the same item to be deducted more than once in determining gain or loss from operations. For example, if an item is claimed as a deduction for the taxable year by reason of its being a loss incurred within such taxable year (whether or not ascertained) under section 809(d)(1), such item, or any portion thereof, shall not also be claimed as a deduction for such taxable year under section 809(d)(2).

§ 1.809–6 Modifications.

Under section 809(e), the deductions allowed under section 809(d)(12) and paragraph (a)(12) of § 1.809–5 (relating to other deductions) are subject to the following modifications—

(a) *Interest.* No deduction shall be allowed under section 163 for interest in respect of items described in section 810(c) since such interest is taken into account in the determination of required interest under section 809.

(b) *Bad debts.* No deduction shall be allowed for an addition to reserves for bad debts under section 166(c). However, a deduction for specific bad debts shall be allowed to the extent that such deduction is allowed under section 166 and the regulations thereunder. In the case of a loss incurred on the sale of mortgaged or pledged property, see § 1.166–6.

(c) *Charitable, etc., contributions and gifts.* (1) The deduction by a life insurance company in any taxable year for a charitable contribution (as defined in section 170(c)) shall be limited to 5 percent of the gain from operations (as determined under section 809(b)(1)), computed without regard to any deductions for:

(i) Charitable contributions under section 170;

(ii) Dividends to policyholders under section 811(b);

(iii) Certain nonparticipating contracts under section 809(d)(5);

(iv) Group life insurance contracts and group accident and health insurance contracts under section 809(d)(6);

(v) Tax-exempt interest, dividends, etc., under section 809(d)(8); and

(vi) Any operations loss carryback to the taxable year under section 812.

(2) In applying the second sentence of section 170(b)(2) (relating to charitable contributions carryovers) as required by section 809(e)(3)(B), any excess of the charitable contributions made by a life insurance company in a taxable year over the amount deductible in such year under the limitation contained in subparagraph (1) of this paragraph, shall be reduced to the extent that such excess:

(i) Reduces life insurance company taxable income (computed without regard to section 802(b)(3)) for the purpose of determining the offsets referred to in section 812(b)(2); and

(ii) Increases an operations loss carryover under section 812 for a succeeding taxable year.

(3) The application of the rules provided in section 809(e)(3) and this paragraph may be illustrated by the following example:

Example. Assume that life insurance company P is organized on January 1, 1958, and has a loss from operations for that year in the amount of $100,000 which is an operations loss carryover to 1959. In 1959, company P has a gain from operations and tax base (computed without regard to section 802(b)(3)) of $100,000 before the allowance of a deduction for a $5,000 charitable contribution made in 1959 and before the application of the operations loss carryover from 1958. Under section 170(b)(2), the operations loss carryover from 1958 is first applied to eliminate the $100,000 gain from operations and tax base in 1959 and the $5,000 charitable contribution carryover would (except for the limitation contained in this paragraph) become a charitable contribution carryover to 1960. However, for the purpose of computing the offsets referred to in section 812(b)(2), the $5,000 charitable contribution is applied to reduce the gain from operations and tax base for 1959 to $95,000 before the application of the operations carryover from 1958. Since only $95,000 of the $100,000 loss from operations in 1958 is an offset for 1959, the remaining $5,000 becomes an operations loss carryover to 1960. Accordingly, under the limitation contained in this paragraph, the charitable contributions carryover provided under the second sentence of section 170(b)(2) is eliminated.

(d) *Amortizable bond premium.* No deduction shall be allowed under section 171 for the amortization of bond premiums since a special deduction for such premiums is specifically taken into account under section 818(b).

(e) *Net operating loss deduction.* No deduction shall be allowed under section 172 since section 812 allows an "operations loss deduction".

(f) *Partially tax-exempt interest.* No deduction shall be allowed under section 242 for partially tax-exempt interest since section 809(d)(8) allows a deduction for such interest.

(g) *Dividends received.* No deduction shall be allowed under sections 243, 244, and 245 for dividends received since section 809(d)(8) allows a deduction for such dividends.

§ 1.809–7 Limitation on certain deductions.

(a) *In general.* Section 809(f)(1) limits the deductions under section 809(d)(3), (5), and (6), relating to deductions for dividends to policyholders, certain nonparticipating contracts, and group life, accident, and health insurance contracts, respectively. This limitation provides that the amount of such deductions shall not exceed the sum of (1) the amount (if any) by which the gain from operations for the taxable year (determined without regard to such deductions) exceeds the taxpayer's taxable investment income for such year, plus (2) $250,000.

(b) *Application of limitation.* Section 809(f)(2) provides a priority system for applying the limitation contained in section 809(f)(1) and paragraph (a) of this section. Under this priority system, the limitation shall be applied in the following order:

(1) First to the amount of the deduction under section 809(d)(6) (relating to group life, accident, and health insurance);

(2) Then to the amount of the deduction under section 809(d)(5) (relating to certain nonparticipating contracts); and

(3) Finally to the amount of the deduction under section 809(d)(3) (relating to dividends to policyholders).

(c) *Illustration of principles.* The operation of the limitation and priority system provided by section 809(f) and this section may be illustrated by the following example:

Example. Assume the following facts with respect to M, a life insurance company, for the taxable year 1958:

Gain from operations computed without regard to the deductions under sec. 809(d)(3), (5), and (6)	$100,000,000
Taxable investment income	83,000,000
Tentative deduction for group life, accident, and health insurance under sec. 809(d)(6)	4,000,000
Tentative deduction for certain nonparticipating contracts under sec. 809(d)(5)	6,000,000
Tentative deduction for dividends to policyholders under sec. 809(d)(3)	10,000,000

In order to determine the limitation on the deductions under section 809(d)(3), (5), and (6), M would make up the following schedule:

(1) Statutory amount provided under sec. 809(f)(1)	$250,000
(2) Gain from operations computed without regard to the deductions under sec. 809(d)(3), (5), and (6)	$100,000,000
(3) Taxable investment income	83,000,000
(4) Excess of item (2) over item (3)	17,000,000
(5) Limitation on deductions under sec. 809(d)(3), (5), and (6) (item (1) plus item (4))	17,250,000

Since the total tentative deductions under section 809(d)(3), (5), and (6) ($20,000,000) exceeds the limitation on such deductions ($17,250,000), M would make up the following schedule to determine the application of the priority system:

(6) Maximum possible deduction under sec. 809(d)(3), (5), and (6) (item (5))	$17,250,000
(7) Deduction for group life, accident, and health insurance under sec. 809(d)(6) (not in excess of item (6))	4,000,000
(8) Maximum possible deduction under sec. 809(d)(5) (item (6) less item (7))	13,250,000
(9) Deduction for certain nonparticipating contracts under sec. 809(d)(5) (not in excess of item (8))	6,000,000
(10) Maximum possible deduction under sec. 809(d)(3) (item (8) less item (9))	7,250,000
(11) Deduction for dividends to policyholders under sec. 809(d)(3) (not in excess of item (10))	7,250,000

Thus, as a result of the application of the limitation and priority system for the taxable year 1958, M shall be allowed a deduction of $4,000,000 under section 809(d)(6), $6,000,000 under section 809(d)(5), and only $7,250,000 of the $10,000,000 tentative deduction under section 809(d)(3).

§ 1.809–8 Limitation on deductions for certain mutualization distributions.

(a) *Deduction not to reduce taxable investment income.* Section 809(g)(1) limits the deduction under section 809(d)(11) for certain mutualization distributions. This limitation provides that such deduction shall not exceed the amount (if any) by which the gain from operations for the taxable year, computed without regard to such deduction (but after the application of the limitation contained in section 809(f) and § 1.809–7), exceeds the taxpayer's taxable investment income for such year.

(b) *Deduction not to reduce tax below that imposed by 1957 law.* Section 809(g)(2) further limits the deduction under section 809(d)(11). Under section 809(g)(2), such deduction shall be allowed only to the extent that it (after the application of all other deductions) does not reduce the tax imposed by section 802(a)(1) for the taxable year below the amount of tax which would have been imposed for such taxable year if the law in effect for 1957 applied for such taxable year. If such deduction is claimed for 1958 (or 1959), the company shall attach to its return a schedule showing what its tax for 1958 (or 1959) would have been had such tax been computed under the law in effect for 1957.

(c) *Application of section 815.* Section 809(g)(3) provides that any portion of a distribution which is allowed as a deduction under section 809(d)(11) shall not be treated as a distribution to shareholders for purposes of section 815; except that in the case of any distributions made in 1959, such portion shall be treated as a distribution with respect to which a reduction is required under section 815(e)(2)(B) (relating to adjustment in allocation ratio for certain distributions after December 31, 1958).

§ 1.810 Statutory provisons; life insurance companies; rules for certain reserves.

SEC. 810. *Rules for certain reserves*—(a) *Adjustment for decrease.* If the sum of the items described in subsection (c) as of the beginning of the taxable year exceeds the sum of such items as of the close of the taxable year (reduced by the amount of investment yield not included in gain or loss from operations for the taxable year by reason of section 809(a)(1)), the excess shall be taken into account as a net decrease referred to in section 809(c)(2).

(b) *Adjustment for increase.* If the sum of the items described in subsection (c) as of the close of the taxable year (reduced by the amount of investment yield not included in gain or loss from operations for the taxable year by reason of section 809(a)(1)) exceeds the sum of such items as of the beginning of the taxable year, the excess shall be taken into account as a net increase referred to in section 809(d)(2).

(c) *Items taken into account.* The items referred to in subsections (a) and (b) are as follows:

(1) The life insurance reserves (as defined in section 801(b)).

(2) The unearned premiums and unpaid losses included in total reserves under section 801(c)(2).

(3) The amounts (discounted at the rates of interest assumed by the company) necessary to satisfy the obligations under insurance or annuity contracts (including contracts supplementary thereto), but only if such obligations do not involve (at the time with respect to which the computation is made under this paragraph) life, health, or accident contingencies.

(4) Dividend accumulations, and other amounts, held at interest in connection with insurance or annuity contracts (including contracts supplementary thereto).

(5) Premiums received in advance, and liabilities for premium deposit funds.

In applying this subsection, the same item shall be counted only once.

(d) *Adjustment for change in computing reserves*—(1) *In general.* If the basis for determining any item referred to in subsection (c) as of the close of any taxable year differs from the basis for such determination as of the close of the preceding taxable year, then so much of the difference between—

(A) The amount of the item at the close of the taxable year, computed on the new basis, and

(B) The amount of the item at the close of the taxable year, computed on the old basis,

as is attributable to contracts issued before the taxable year shall be taken into account for purposes of this subpart as follows:

(i) If the amount determined under subparagraph (A) exceeds the amount determined under subparagraph (B), 1/10 of such excess shall be taken into account, for each of the succeeding 10 taxable years, as a net increase to which section 809(d)(2) applies; or

(ii) If the amount determined under subparagraph (B) exceeds the amount determined under subparagraph (A), 1/10 of such excess shall be taken into account for each of the 10 succeeding taxable years, as a net decrease to which section 809(c)(2) applies.

(2) *Termination as life insurance company.* Except as provided in section 381(c)(22) (relating to carryovers in certain corporate readjustments), if for any taxable year the taxpayer is not a life insurance company, the balance of any adjustments under this paragraph shall be taken into account for the preceding taxable year.

(3) *Effect of preliminary term election.* An election under section 818(c) shall not be treated as a change in the basis for determining an item referred to in subsection (c) to which this subsection applies. If an election under section 818(c) applies for the taxable year, the amounts of the items referred to in subparagraphs (A) and (B) of paragraph (1) shall be determined without regard to such election. If such an election would apply in respect of such item for the taxable year but for the new basis, the amount of the item referred to in subparagraph (B) shall be determined on the basis which would have been applicable under section 818(c) if the election applied in respect of the item for the taxable year.

(e) *Certain decreases in reserves of voluntary employees' beneficiary associations*—(1) *Decreases due to voluntary lapses of policies issued before January 1, 1958.* For purposes of subsections (a) and (b), in the case of a life insurance company which meets the requirements of section 501(c)(9) other than the requirement of subparagraph (B) thereof, there shall be taken into account only 11½ percent of any decrease in the life insurance reserve on any policy issued before January 1, 1958, which is attributable solely to the voluntary lapse of such policy on or after January 1, 1958. In applying the preceding sentence, the decrease in the reserve for any policy shall be determined by reference to the amount of such reserve as of the beginning of the taxable year, reduced by any amount allowable as a deduction under section 809(d)(1) in respect of such policy by reason of such lapse. This paragraph shall apply for any taxable year only if the taxpayer has made an election under paragraph (3) which is effective for such taxable year.

(2) *Disallowance of carryovers from pre-1958 losses from operations.* In the case of a life insurance company to which paragraph (1) applies for the taxable year, section 812(b)(1) shall not apply with respect to any loss from operations for any taxable year beginning before January 1, 1958.

(3) *Election.* Paragraph (1) shall apply to any taxpayer for any taxable year only if the taxpayer elects, not later than the time prescribed by law (including extensions thereof) for filing the return for such taxable year, to have such paragraph apply. Such election shall be made in such manner as the Secretary or his delegate shall prescribe by regulations. Such election shall be effective for the taxable year for which made and for all succeeding taxable years, and shall not be revoked except with the consent of the Secretary or his delegate.

[Sec. 810 as added by sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 125)]

§ 1.810–1 Taxable years affected.

Sections 1.810–2 through 1.810–4 are applicable only to taxable years beginning after December 31, 1957, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112).

§ 1.810–2 Rules for certain reserves.

(a) *Adjustment for decrease or increase in certain reserve items*—(1) *Adjustment for decrease.* Section 810(a) provides that if the sum of the items described in section 810(c) and paragraph (b) of this section at the beginning of the taxable year exceeds the sum of such items at the end of the taxable year (reduced by the amount of investment yield not included in gain or loss from operations for the taxable year by reason of section 809(a)(1)), the amount of such excess shall be taken into account as a net decrease referred to in section 809(c)(2) and paragraph (a)(2) of § 1.809–4 in determining gain or loss from operations.

(2) *Adjustment for increase.* Section 810(b) provides that if the sum of the items described in section 810(c) and paragraph (b) of this section at the end of the taxable year (reduced by the amount of investment yield not included in gain or loss from operations for the taxable year by reason of section 809(a)(1)) exceeds the sum of such items at the beginning of the taxable year, the amount of such excess shall be taken into account as a net increase referred to in section 809(d)(2) and paragraph (a)(2) of § 1.809–5 in determining gain or loss from operations.

(b) *Items taken into account.* The items described in section 810(c) and referred to in section 810 (a) and (b) and paragraph (a) of this section are:

(1) The life insurance reserves (as defined in section 801(b) and § 1.801–4);

(2) The unearned premiums and unpaid losses included in total reserves under section 801(c)(2) and § 1.801–5;

(3) The amounts (discounted at the rates of interest assumed by the company) necessary to satisfy the obligations under insurance or annuity contracts (including contracts supplementary thereto), but only if such obligations do not involve (at the time with respect to which the computation is made under this subparagraph) life, health, or accident contingencies;

(4) Dividend accumulations, and other amounts, held at interest in connection with insurance or annuity contracts (including contracts supplementary thereto); and

(5) Premiums received in advance, and liabilities for premium deposit funds.

For purposes of this paragraph, the same item shall be counted only once and deficiency reserves (as defined in section 801(b)(4) and paragraph (e)(4) of § 1.801–4) shall not be taken into account.

(c) *Special rules.* For purposes of section 810 (a) and (b) and paragraph (a) of this section, in determining whether there is a net increase or decrease in the sum of the items described in section 810(c) and paragraph (b) of this section for the taxable year, the following rules shall apply:

(1) *Computation of net increase or decrease in reserves.* The sum of the items described in section 810(c) and paragraph (b) of this section at the beginning of the taxable year shall be the aggregate of the sums of each of such items at the beginning of the taxable year. The sum of the items described in section 810(c) and paragraph (b) of this section at the end of the taxable year shall be the aggregate of the sums of each of such items at the end of the taxable year. However, in order to determine whether there is a net increase or decrease in such items for the taxable year, the aggregate of the sums of the items at the end of the taxable year must first be reduced by the amount of investment yield not included in gain or loss from operations for the taxable year by reason of section 809(a)(1).

(2) *Effect of change in basis in computing reserves.* Any increase or decrease in the sum of the items described in section 810(c) and paragraph (b) of this section for the taxable year which is attributable to a change in the basis used in computing such items during the taxable year shall not be taken into account under section 810 (a) and (b) and paragraph (a) of this section but shall be taken into account in the manner prescribed in section 810(d) and paragraph (a) of § 1.810–3.

(3) *Effect of section 818(c) election.* If a company which computes its life insurance reserves on a preliminary term basis elects to revalue such reserves on a net level premium basis under section 818(c), the sum of such reserves at the beginning and end of all taxable years (including the first taxable year) for which the election applies shall be the sum of such reserves computed on such net level premium basis.

(4) *Cross references.* See section 810(e) and § 1.810–4 for special rules for determining the net increase or decrease in the sum of the items described in section 810(c) and paragraph (b) of this section in the case of certain voluntary employees' beneficiary associations. For similar special rules in the case of life insurance companies issuing variable annuity contracts, see section 801(g)(4) and the regulations thereunder.

(d) *Illustration of principles.* The provisions of section 810 (a) and (b) and this section may be illustrated by the following examples:

Example (1). Assume the following facts with respect to R, a life insurance company:

Sum of items described in sec. 810(c) (1) through (5) at beginning of taxable year	$940
Sum of items described in sec. 810(c) (1) through (5) at end of taxable year	1,606
Required interest (as defined in sec. 809(a)(2))	70
Investment yield (as defined in sec. 804(c))	100
Amount of investment yield not included in gain or loss from operations for the taxable year by reason of sec. 809(a)(1)	70

In order to determine the adjustment for decrease or increase in the sum of the items described in section 810(c) for the taxable year, R must first reduce the sum of such items at the end of the taxable year ($1,060) by the amount of investment yield ($70) not included in gain or loss from operations for the taxable year by reason of section 809(a)(1). Since the adjusted sum of such items at the end of the taxable year, $990 ($1,060 minus $70), exceeds the sum of such items at the beginning of the taxable year, $940, the excess of $50 ($990 minus $940) shall be taken into account as a net increase under section 809(d)(2) and paragraph (a)(2) of § 1.809–5 in determining gain or loss from operations.

Example (2). Assume the facts are the same as in example (1), except that the sum of the items described in section 810(c) at the beginning of the taxable year is $1000. Since the sum of the items described in section 810(c) at the beginning of taxable year, $1000, exceeds the sum of such items at the end of the taxable year after adjustment for the amount of investment yield not included in gain or loss from operations for the taxable year by reason of section 809(a)(1), $990 ($1060 minus $70), the excess of $10 ($1000 minus $990) shall be taken into account as a net decrease under section 809(c)(2) and paragraph (a)(2) of § 1.809–4 in determining gain or loss from operations.

Example (3). Assume the following facts with respect to S, a life insurance company:

Sum of items described in sec. 810(c) (1) through (5) at beginning of taxable year	$1,970
Sum of items described in sec. 810(c) (1) through (5) at end of taxable year	2,040
Required interest (as defined in sec. 809(a)(2))	60
Investment yield (as defined in sec. 804(c))	40
Amount of investment yield not included in gain or loss from operations by reason of sec. 809(a)(1)	40

Under the provisions of section 809(a)(1), since the required interest ($60) exceeds the investment yield ($40), the share of each and every item of investment yield set aside for policyholders and not included in gain or loss from operations for the taxable year shall be 100 percent. Thus, applying the provisions of section 810 (a) and (b), the sum of the items described in section 810(c) at the end of the taxable year ($2,040) must first be reduced by the entire amount of the investment yield ($40) in order to determine the net increase or decrease in the sum of such items for the taxable year. Since the adjusted sum of such items at the end of the taxable year, $2,000 ($2,040 minus $40), is greater than the sum of such items at the beginning of the taxable year, $1,970, the excess of $30 ($2,000 minus $1,970) shall be taken into account as a net increase under section 809(d)(2) and paragraph (a)(2) of § 1.809–5 in determining gain or loss from operations. No additional deduction is allowed under section 809(d) for the amount ($20) by which the required interest exceeds the investment yield for the taxable year.

Example (4). Assume the facts are the same as in example (1), except that as a result of a change in the basis used in computing an item described in section 810(c) during the taxable year, the sum of such items at the end of the taxable year is $1,200. Under the provisions of paragraph (c)(2) of this section, any increase or decrease in the sum of the section 810(c) items for the taxable year which is attributable to a change in the basis used in computing such items during the taxable year shall not be taken into account under section 810 (a) and (b). Thus, for purposes of section 810 (a) and (b), the sum of the items described in section 810(c) at the end of the taxable year shall be $1,060 (the amount computed without regard to the change in basis) and S shall treat the $50 computed in the manner described in example (1) as a net increase under section 809(d)(2) and paragraph (a)(2) of § 1.809–5 in determining its gain or loss from operations for the taxable year. The amount of the increase in the section 810(c) items which is attributable to the change in basis during the taxable year, $140 ($1,200 minus $1,060), shall be taken into account in the manner prescribed in section 810(d) and paragraph (a) of § 1.810–3.

Example (5). The life insurance reserves of M, a life insurance company, computed with respect to contracts for which such reserves are determined on a recognized preliminary term basis amount to $100 on January 1, 1960, and $110 on December 31, 1960. For the taxable year 1960, M elects to revalue such reserves on a net level premium basis under section 818(c). Such reserves computed under section 818(c) amount to $115 on January 1, 1960, and $127 on December 31, 1960. Under the provisions of paragraph (c)(3) of this section, a company which makes the section 818(c) election must use the net level premium basis in computing the sum of its life insurance reserves at the beginning and end of all taxable years for which the election applies. Thus, for purposes of section 810 (a) and (b), in determining whether there is a net increase or decrease in the sum of the section 810(c) items for the taxable year 1960, M shall include $115 as its reserves with respect to such contracts under section 810(c)(1) at the beginning of the taxable year and $127 as its reserves with respect to such contracts under section 810(c)(1) at the end of the taxable year.

§ 1.810–3 Adjustment for change in computing reserves.

(a) *Reserve strengthening or weakening.* Section 810(d)(1) provides that if the basis for determining any item referred to in section 810(c) and paragraph (b) of § 1.810–2 at the end of any taxable year differs from the basis for such determination at the end of the preceding taxable year, then so much of the difference between—

(1) The amount of the item at the end of the taxable year, computed on the new basis, and

(2) The amount of the item at the end of the taxable year, computed on the old basis,

as is attributable to contracts issued before the taxable year shall be taken into account as follows:

(i) If the amount of the item at the end of the taxable year computed on the new basis exceeds the amount of the item at the end of the taxable year computed on the old basis, 1/10 of such excess shall be taken into account, for each of the succeeding 10 taxable years, as a net increase to which section 809(d)(2) and paragraph (a)(2) of § 1.809–5 applies; or

(ii) If the amount of the item at the end of the taxable year computed on the old basis exceeds the amount of the item at the end of the taxable year computed on the new basis, 1/10 of such excess shall be taken into account, for each of the 10 succeeding taxable years, as a net decrease to which section 809(c)(2) and paragraph (a)(2) of § 1.809–4 applies.

(b) *Illustration of principles.* The provisions of section 810(d)(1) and paragraph (a) of this section may be illustrated by the following examples:

Example (1). Assume that the amount of an item described in section 810(c) of L, a life insurance company, at the beginning of the taxable year 1959 is $100. Assume that at the end of the taxable year 1959, as a result of a change in the basis used in computing such item during the taxable year, the amount of the item (computed on the new basis) is $200 but computed on the old basis would have been $150. Since the amount of the item at the end of the taxable year computed on the new basis, $200, exceeds the amount of the item at the end of the taxable year computed on the old basis, $150, by $50, 1/10 of the amount of such excess, or $5, shall be taken into account as a net increase referred to in section 809(d)(2) and paragraph (a)(2) of § 1.809–5 in determining gain or loss from operations for each of the 10 taxable years immediately following the taxable year 1959. Any increase (or decrease) in the sum of the section 810(c) items computed on the old basis at the end of the taxable year 1959 ($150) after adjustment for investment yield not included in gain or loss from operations for the taxable year by reason of section 809(a)(1), over the sum of such items computed on the old basis at the beginning of the taxable year 1959 ($100), shall be taken into account in the manner prescribed in section 810 (a) or (b) and § 1.810–2 for purposes of determining L's gain or loss from operations for 1959.

Example (2). Assume the facts are the same as in example (1), and that the sum of the items described in section 810(c) (computed on the new basis) is $200 on January 1, 1960, and $260 on December 31, 1960. Under the provisions of section 810(d)(1), as a result of the reserve strengthening attributable to the change in basis which occurred in 1959, L would include $5 (computed in the manner described in example (1)) as a net increase under section 809(d)(2) and paragraph (a)(2) of § 1.809–5 in determining its gain or loss from operations for 1960. In addition to this amount, any increase (or decrease) in the sum of the items described in section 810(c) at the end of the taxable year 1960 ($260) after adjustment for investment yield not included in gain or loss from operations for the taxable year by reason of section 809(a)(1), over the sum of such items at the beginning of the taxable year 1960 ($200), shall be taken into account in the manner prescribed in section 810 (a) or (b) and § 1.810–2 for purposes of determining L's gain or loss from operations for 1960.

(c) *Termination as life insurance company.* Section 810(d)(2) provides, subject to the provisions of section 381(c)(22) and the regulations thereunder (relating to carryovers in certain corporate readjustments), that if for any taxable year a company which previously was a life insurance company no longer meets the requirements of section 801(a) and paragraph (b) of § 1.801–3 (relating to the definition of a life insurance company), the balance of any adjustments remaining to be made under section 810(d)(1) and paragraph (a) of this section shall be taken into account for the preceding taxable year.

(d) *Illustration of principles.* The provisions of section 810(d)(2) and paragraph (c) of this section may be illustrated by the following example:

Example. Assume the facts are the same as in example (1) of paragraph (b) of this section, except that for the taxable year 1962, L no longer meets the requirements of section 801(a) (relating to the definition of a life insurance company) and that the provisions of section 381(c)(22) are not applicable. Under the provisions of section 810(d)(2), the entire balance of the adjustment remaining to be made with respect to the change in basis which occurred in 1959, 9/10 of $50, or $40, shall be taken into account for the taxable year 1961, the last year L was a life insurance company. Thus, for the taxable year 1961, the total amount to be taken

into account by L as a net increase referred to in section 809(d)(2) and paragraph (a)(2) of § 1.809–5 in determining its gain or loss from operations shall be $45. Of this amount, $5 (1/10 of $50) represents the amount determined under the provisions of section 810(d)(1), and $40 represents the amount determined under the provisions of section 810(d)(2).

(e) *Effect of preliminary term election.* (1) Section 810(d)(3) provides that if a company which computes its life insurance reserves on a preliminary term basis elects to revalue such reserves on a net level premium basis under section 818(c), such election shall not be treated as a change in basis within the meaning of section 810(d)(1) and paragraph (a) of this section. Thus, any increase or decrease in reserves attributable to such election shall not be taken into account under section 810(d)(1) and paragraph (a) of this section but shall be taken into account in the manner prescribed in section 810 (a) and (b) and paragraph (a) of § 1.810–2. See paragraph (c)(3) of § 1.810–2.

(2) Section 810(d)(3) further provides that where an election under section 818(c) would apply to an item referred to in section 810(c) but for the fact that the basis used in computing such item has actually been changed, any increase or decrease in such item attributable to such actual change in basis shall be subject to the adjustment required under section 810(d)(1) and paragraph (a) of this section. In such a case, however, for purposes of section 810(d)(1)(B) and paragraph (a)(2) of this section, the amount of such item at the end of the taxable year computed on the old basis shall be the amount of such item at the end of the taxable year computed as if the election under section 818(c) applied in respect of such item for the taxable year.

(f) *Illustration of principles.* The provisions of section 810(d)(3) and paragraph (e) of this section may be illustrated by the following examples:

Example (1). Assume that S, a life insurance company which computes its life insurance reserves on a 3-percent assumed rate and the Commissioner's reserve valuation method (one of the recognized preliminary term reserve methods), elects to revalue such reserves on a net level premium method under section 818(c) and that the significant facts are as follows:

	Jan. 1, 1958	Dec. 31, 1958
Book reserves at 3-percent assumed rate, Commissioner's reserve valuation method	100	118
Reserves at 3-percent assumed rate, after restatement under section 818(c)	110	131

Under the provisions of section 810(d)(3), an election under section 818(c) is not treated as a change in basis for purposes of section 810(d)(1). Accordingly, the increase of $21 ($131 minus $110) attributable to such election shall not be subject to the adjustment provided by section 810(d)(1) but shall be taken into account in the manner prescribed in section 810(b). For purposes of determining the amount to be taken into account under section 810(b), the reserves with respect to the contracts subject to the section 818(c) election shall be $110 at the beginning of the taxable year 1958 and $131 at the end of the taxable year 1958. However, as a result of making the election under section 818(c), the difference ($10) between the reserves computed on the preliminary term basis on January 1, 1958 ($100) and the reserves restated on the net level premium basis on January 1, 1958 ($110) shall not be taken into account under section 809(d) for the year 1958, or for any subsequent taxable year.

Example (2). Assume the facts are the same as in example (1), except that during the taxable year 1959, S actually changed from the preliminary term basis to a net level premium basis which was identical with the net level premium basis used under the section 818(c) election and that the significant facts are as follows:

	Jan. 1, 1959	Dec. 31, 1959
Book reserves at 3-percent assumed rate, Commissioner's reserve valuation method	118	127
Reserves at 3-percent assumed rate, after restatement under section 818(c)	131	142
Strengthened reserves at 3-percent assumed rate and net level premium method		142

Under the provisions of section 810(d)(3), if a company which has made an election under section 818(c) which has not been revoked actually changes the basis used by it in computing the reserves subject to such election, any increase or decrease in reserves attributable to such change in basis shall be taken into account in the manner prescribed in section 810(d)(1). Since S actually changed to the same basis which it used in computing its reserves under section 818(c), the reserves at the end of the taxable year computed on the new basis ($142) are the same as the reserves at the end of the taxable year computed on the old basis ($142), i.e., the basis which would have applied under section 818(c) if the election applied for 1959. Accordingly, no adjustment under section 810(d)(1) is required.

Example (3). Assume the facts are the same as in example (1), except that during the taxable year 1960, S actually changed the basis used by it in computing its reserves on a certain block of contracts subject to the election under section 818(c) and that the significant facts with respect to this block of contracts are as follows:

	Jan. 1, 1960	Dec. 31, 1960
Book reserves at 3-percent assumed rate, Commissioner's reserve valuation method	50	63
Reserves at 3-percent assumed rate, after restatement under section 818(c)	60	75
Strengthened reserves at 2-percent assumed rate and net level premium method		95

Under the provisions of section 810(d)(3), the amount of the reserves subject to the section 818(c) election at the end of the taxable year computed on the old basis shall be the amount of such reserves at the end of the taxable year determined under section 818(c) ($75). Since the reserves at the end of the taxable year computed on the new basis, $95, exceeds the reserves at the end of the taxable year computed on the old basis, $75, by $20, 1/10 of the excess of $20, or $2, shall be taken into account as a net increase referred to in section 809(d)(2) and paragraph (a)(2) of § 1.809–5 in determining gain or loss from operations for each of the 10 taxable years immediately following the taxable year 1960. For purposes of determining whether there is a net increase or decrease in the sum of the items described in section 810(c) for the taxable year 1960 under section 810 (a) or (b), the sum of the reserves with respect to such block of contracts shall be $60 at the beginning of the taxable year and $75 at the end of the taxable year (the amount of such reserves computed under section 818(c) at the beginning and end of the taxable year). The difference ($10) between the reserves computed on the preliminary term basis on January 1, 1960 ($50) and the reserves restated on the net level premium basis on January 1, 1960 ($60) shall not be taken into account under section 809(d) for the year 1960, or for any subsequent taxable year.

§ 1.810–4 Certain decreases in reserves of voluntary employees' beneficiary associations.

(a) *Decreases due to voluntary lapses of policies issued before January 1, 1958.* (1) Section 810(e) provides that if for any taxable year a life insurance company which meets the requirements of section 501(c)(9), other than the requirement of subparagraph (B) thereof, makes an election in the manner provided in section 810(e)(3) and paragraph (b) of this section, only 11½ percent of any decrease in life insurance reserves (as defined in section 801(b) and § 1.801–4) attributable to the voluntary lapse on or after January 1, 1958, of any policy issued prior to that date shall be taken into account under section 810 (a) or (b) and paragraph (a) of § 1.810–2 in determining the net increase or decrease in the sum of the items described in section 810(c) during the taxable year. In applying the preceding sentence, the decrease in the reserve for any policy shall be determined by reference to the amount of such reserve at the beginning of the taxable year, reduced by any amount allowable as a deduction under section 809(d)(1) and paragraph (a)(1) of § 1.809–5 in respect of such policy by reason of such lapse. The election under section 810(e) shall be adhered to in computing the company's gain or loss from operation for the taxable year for which the election is made and for all subsequent taxable years, unless consent to revoke such election is obtained from the Commissioner.

(2) The application of the election provided under section 810(e) and subparagraph (1) of this paragraph may be illustrated by the following example:

Example. For the taxable year 1960, M, a life insurance company which meets the requirements of section 501(c)(9), other than the requirement of subparagraph (B) thereof, makes the election under section 810(e). Assume the following facts with respect to a policy issued in 1955 which voluntarily lapsed during the taxable year:

(1) Life insurance reserve on January 1, 1960	$600
(2) Amount allowable as a deduction under sec. 809(d)(1)	200
(3) Decrease in life insurance reserves for sec. 810(e) purposes (item (1) minus item (2))	400
(4) Amount taken into account under sec. 810 (a) and (b) by reason of sec. 810(e) election (11½% × $400)	46

Under the provisions of section 810(e) and subparagraph (1) of this paragraph, M would include $46 as its life insurance reserve with respect to such policy under section 810(c)(1) at the beginning of the taxable year 1960 for purposes of determining the net increase or decrease in the sum of the items described in section 810(c) for the taxable year under section 810 (a) or (b).

(b) *Time and manner of making election.* The election provided by section 810(e)(3) shall be made in a statement attached to the life insurance company's income tax return for the first taxable year for which the company desires the election to apply. The return and statement must be filed not later than the date prescribed by law (including extensions thereof) for filing the return for such taxable year. The statement shall indicate that the company meets the requirements of section 501(c)(9), other than the requirement of subparagraph (B) thereof, and has made the election provided under section 810(e) and paragraph (a) of this section. The statement shall set forth the following information with respect to each policy described in paragraph (a) of this section which has voluntarily lapsed during such year:

(1) Type of policy.
(2) Date issued.
(3) Date lapsed.
(4) Reason for lapse.
(5) Policy reserve as of beginning of taxable year.
(6) Deduction allowable under section 809(d)(1) and paragraph (a)(1) of § 1.809–5 during taxable year by reason of lapse.
(7) Decrease in policy reserve for section 810(e) purposes (excess of (5) over (6)).

In addition, the statement shall set forth the total of the amounts referred to in subparagraph (7) of this paragraph with respect to all policies described in paragraph (a) of this section which have voluntarily lapsed during the taxable year.

(c) *Scope of election.* An election made under section 810(e)(3) and paragraph (a) of this section shall be effective for the taxable year for which made and for all succeeding taxable years, unless consent to revoke the election is obtained from the Commissioner. However, for taxable years beginning prior to the issuance of the final regulations under subpart C, part I, subchapter L, chapter 1 of the Code, a taxpayer may revoke such election without obtaining consent from the Commissioner by filing, within 90 days after the date of publication of such final regulations in the FEDERAL REGISTER, a statement that the company desires to revoke the election under section 810(e)(3). An amended return reflecting such revocation must accompany the statement for all taxable years for which returns have been filed with respect to such election.

(d) *Disallowance of carryovers from pre-1958 losses from operations.* For any taxable year for which the election provided under section 810(e)(3) and paragraph (b) of this section is effective, the provisions of section 812(b)(1) and § 1.812–4 shall not apply with respect to any loss from operations for any taxable year beginning before January 1, 1958.

§ 1.811 Statutory provisions; life insurance companies; dividends to policyholders.

SEC. 811. *Dividends to policyholders*—(a) *Dividends to policyholders defined.* For purposes of this part, the term "dividends to policyholders" means dividends and similar distributions to policyholders in their capacity as such. Such term does not include interest paid (as defined in section 805(e)).

(b) *Amount of deduction*—(1) *In general.* Except as limited by section 809(f), the deduction for dividends to policyholders for any taxable year shall be an amount equal to the dividends to policyholders paid during the taxable year—

(A) Increased by the excess of (i) the amounts held at the end of the taxable year as reserves for dividends to policyholders (as defined in subsection (a)) payable during the year following the taxable year, over (ii) such amounts held at the end of the preceding taxable year, or

(B) Decreased by the excess of (i) such amounts held at the end of the preceding taxable year, over (ii) such amounts held at the end of the taxable year.

For purposes of subparagraphs (A) and (B), there shall be included as amounts held at the end of any taxable year amounts set aside, before the 16th day of the third month of the year following such taxable year (or, in the case of a mutual savings bank subject to the tax imposed by section 594, before the 16th day of the fourth month of the year following such taxable year), for payment during the year following such taxable year.

(2) *Certain amounts to be treated as net decreases.* If the amount determined under paragraph (1)(B) exceeds the dividends to policyholders paid during the taxable year, the amount of such excess shall be a net decrease referred to in section 809(c)(2).

[Sec. 811 as added by sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 44); amended by sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 126)]

§ 1.811–1 Taxable years affected.

Section 1.811–2, except as otherwise provided therein, is applicable only to taxable years beginning after December 31, 1957, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112).

§ 1.811–2 Dividends to policyholders.

(a) *Dividends to policyholders defined.* Section 811(a) defines the term "dividends to policyholders", for purposes of part I, subchapter L, chapter 1 of the Code, to mean dividends and similar distributions to policyholders in their capacity as such. The term includes amounts returned to policyholders where the amount is not fixed in the contract but depends on the experience of the company or the discretion of the management. In general, any payment not fixed in the contract which is made with respect to a participating contract (that is, a contract which during the taxable year contains a right to participate in the divisible surplus of the company) shall be treated as a dividend to policyholders. Similarly, any amount refunded or allowed as a rate credit with respect to either a participating or a nonparticipating contract shall be treated as a dividend to policyholders if such amount depends on the experience of the company. However, the term does not include interest paid (as defined in section 805(e) and paragraph (b) of § 1.805–8) or return premiums (as defined in section 809(c) and paragraph (a)(1)(ii) of § 1.809–4). Thus, so-called excess-interest dividends and amounts returned by one life insurance company to another in respect of reinsurance ceded shall not be treated as dividends to policyholders even though such amounts are not fixed in the contract but depend upon the experience of the company or the discretion of the management.

(b) *Amount of deduction*—(1) *In general.* Section 811(b)(1) provides, subject to the limitation of section 809(f), that the deduction for dividends to policyholders for any taxable year shall be an amount equal to the dividends to policyholders paid during the taxable year—

(i) Increased by the excess of the amounts held as reserves for dividends to policyholders at the end of the taxable year for payment during the year following the taxable year, over the amounts held as reserves for dividends to policyholders at the end of the preceding taxable year for payment during the taxable year, or

(ii) Decreased by the excess of the amounts held as reserves for dividends to policyholders at the end of the preceding taxable year for payment during the taxable year, over the amounts held as reserves for dividends to policyholders at the end of the taxable year for payment during the year following the taxable year.

For the rule as to when dividends are considered paid, see section 561 and the regulations thereunder. For the determination of the amounts held as reserves for dividends to policyholders, see paragraph (c) of this section. For special provisions relating to the treatment of dividends to policyholders paid with respect to policies reinsured under modified coinsurance contracts, see section 820(c)(5) and the regulations thereunder.

(2) *Certain amounts to be treated as net decreases.* Section 811(b)(2) provides that if the amount determined under subparagraph (1)(ii) of this paragraph exceeds the dividends to policyholders paid during the taxable year, the amount of such excess shall be a net decrease referred to in section 809(c)(2).

(c) *Reserves for dividends to policyholders defined*—(1) *In general.* The term "reserves for dividends to policyholders", as used in section 811(b)(1)(A) and (B) and paragraph (b)(1) of this section, means only those amounts—

(i) Actually held, or set aside as provided in subparagraph (2) of this paragraph and thus treated as actually held, by the company at the end of the taxable year, and

(ii) With respect to which, at the end of the taxable year or, if set aside, within the period prescribed in subparagraph (2) of this paragraph, the company is under an obligation, fixed and not contingent, to pay such amounts as divi-

dends to policyholders (as defined in section 811(a) and paragraph (a) of this section) during the year following the taxable year.

(2) *Amounts set aside.* (i) In the case of a life insurance company (as defined in section 801(a) and paragraph (b) of § 1.801–3), all amounts set aside before the 16th day of the 3d month of the year following the taxable year for payment as dividends to policyholders (as defined in section 811(a) and paragraph (a) of this section) during the year following such taxable year shall be treated as amounts actually held at the end of the taxable year.

(ii) In the case of a mutual savings bank subject to the tax imposed by section 594, all amounts set aside before the 16th day of the 4th month of the year following the taxable year for payment as dividends to policyholders (as defined in section 811(a) and paragraph (a) of this section) during the year following such taxable year shall be treated as amounts actually held at the end of the taxable year.

(3) *1958 reserve for dividends to policyholders.* For purposes of section 811 (b) and paragraph (b) of this section, the amounts held at the end of 1957 as reserves for dividends to policyholders payable during 1958 shall be determined as if part I, subchapter L, chapter 1 of the Code (as in effect for 1958) applied for 1957. Any adjustment in the reserves for dividends to policyholders at the beginning of 1957 required as a result of an understatement or overstatement of such reserves by the company shall be made to the balance of such reserves as of the beginning of 1957. For example, if at the beginning of 1957 the reserves for dividends to policyholders are stated to be $100 and it is subsequently determined that such reserves should have been $90, the reserves at the beginning of 1957 shall be reduced by $10. Under no circumstances shall an adjustment required with regard to the beginning 1957 reserves be made to the reserves at the end of 1957.

(4) *Information to be filed.* Every company claiming a deduction for dividends to policyholders shall keep such permanent records as are necessary to establish that the dividends with respect to which such deduction is claimed were actually paid during the taxable year. Such company shall file with its return a copy of the dividend resolution and a concise statement of the pertinent facts relating to the payment of the dividend and to the amounts held or set aside as reserves for dividends to policyholders during the taxable year.

(d) *Illustration of principles.* The provisions of section 811(b) and this section may be illustrated by the following examples:

Example (1). On December 31, 1959, M, a life insurance company, held $200 as reserves for dividends to policyholders due and payable in 1960. On March 10, 1960, M set aside an additional $50 as reserves for dividends to policyholders due and payable in 1960. During the taxable year 1960, M paid $240 as dividends to its policyholders and at the end of the taxable year 1960, held $175 as reserves for dividends to policyholders due and payable in 1961. No additional amount was set aside before March 16, 1961, as reserves for dividends to policyholders due and payable in 1961. For the taxable year 1960, subject to the limitation of section 809(f), M's deduction for dividends to policyholders is $165, computed as follows:

(1) Dividends paid to policyholders during the taxable year 1960	$240
(2) Decreased by the excess of item (a) over item (b):	
(a) Reserves for dividends to policyholders as of 12–31–59 (including amounts set aside as provided in paragraph (c)(2) of this section)	$250
(b) Reserves for dividends to policyholders as of 12–31–60	175
	75
(3) Deduction for dividends to policyholders under sec. 811(b) (computed without regard to the limitation of sec. 809(f))	165

Example (2). On December 31, 1960, S, a life insurance company, held $100 as reserves for dividends to policyholders due and payable in 1961. During the taxable year 1961, S paid $125 as dividends to its policyholders and at the end of the taxable year 1961, held $110 as reserves for dividends to policyholders due and payable in 1962. No additional amount was set aside for dividends to policyholders as provided in paragraph (c)(2).

(1) Dividends paid to policyholders during the taxable year 1961	$125
(2) Increased by the excess of item (a) over item (b):	
(a) Reserves for dividends to policyholders as of 12–31–61	$110
(b) Reserves for dividends to policyholders as of 12–31–60	100
	10
(3) Deduction for dividends to policyholders under sec. 811(b) (computed without regard to the limitation of sec. 809(f)	135

Example (3). Assume the facts are the same as in example (2), except that on December 31, 1960, the amount held as reserves for dividends to policyholders due and payable in 1961 is $250. For the taxable year 1961, S's deduction for dividends to policyholders is zero, computed as follows:

(1) Dividends paid to policyholders during the taxable year 1961	$125
(2) Decreased by the excess of item (a) over item (b):	
(a) Reserves for dividends to policyholders as of 12–31–60	$250
(b) Reserves for dividends to policyholders as of 12–31–61	110
	140
(3) Deduction for dividends to policyholders under sec. 811(b) (computed without regard to the limitation of sec. 809(f))	0

Under the provisions of section 811(b)(2) and paragraph (b)(2) of this section, since the decrease in the reserves for dividends to policyholders during the taxable year, $140 ($250 minus $110), exceeds the dividends to policyholders paid during the taxable year 1961, $125, S shall include $15 (the amount of such excess) as a net decrease under section 809(c)(2) and paragraph (a)(2) of § 1.809–4 in determining its gain or loss from operations for 1961.

§ 1.812 Statutory provisions; life insurance companies; operations loss deduction.

SEC. 812. *Operations loss deduction.*—(a) *Deduction allowed.* There shall be allowed as a deduction for the taxable year an amount equal to the aggregate of—

(1) The operations loss carryovers to such year, plus

(2) The operations loss carrybacks to such year.

For purposes of this part, the term "operations loss deduction" means the deduction allowed by this subsection.

(b) *Operations loss carrybacks and carryovers.*—(1) *Years to which loss may be carried.*—(A) *In general.* The loss from operations for any taxable year (hereinafter in this section referred to as the "loss year") beginning after December 31, 1954, shall be—

(i) An operations loss carryback to each of the 3 taxable years preceding the loss year,

(ii) An operations loss carryover to each of the 5 taxable years following the loss year, and

(iii) Subject to subsection (e), if the life insurance company is a new company for the loss year, an operations loss carryover to each of the 3 taxable years following the 5 taxable years described in clause (ii).

(B) *Special transitional rules for carrybacks.* A loss from operations for any taxable year beginning before January 1, 1958, shall not be an operations loss carryback to any taxable year beginning before January 1, 1955. A loss from operations for any taxable year beginning after December 31, 1957, shall not be an operations loss carryback to any taxable year beginning before January 1, 1958.

(C) *Application for years prior to 1958.* For purposes of this section, this part (as in effect for 1958) and section 381(c)(22) shall be treated as applying to all taxable years beginning after December 31, 1954, and before January 1, 1958.

(2) *Amount of carrybacks and carryovers.* The entire amount of the loss from operations for any loss year shall be carried to the earliest of the taxable years to which (by reason of paragraph (1)) such loss may be carried. The portion of such loss which shall be carried to each of the other taxable years shall be the excess (if any) of the amount of such loss over the sum of the offsets (as defined in subsection (d)) for each of the prior taxable years to which such loss may be carried.

(c) *Computation of loss from operations.* In computing the loss from operations for purposes of this section—

(1) The operations loss deduction shall not be allowed.

(2) The deductions allowed by sections 243 (relating to dividends received by corporations), 244 (relating to dividends received on certain preferred stock of public utilities), and 245 (relating to dividends received from certain foreign corporations) shall be computed without regard to section 246(b) as modified by section 809(d)(8)(B).

(d) *Offset defined.*—(1) *In general.* For purposes of subsection (b)(2), the term "offset" means, with respect to any taxable year, an amount equal to that increase in the operations loss deduction for the taxable year which reduces the life insurance company taxable income (computed without regard to section 802(b)(3)) for such year to zero.

(2) *Operations loss deduction.* For purposes of paragraph (1), the operations loss deduction for any taxable year shall be computed without regard to the loss from operations for the loss year or for any taxable year thereafter.

(e) *Rules relating to new companies.*—(1) *New company defined.* For purposes of this part, a life insurance company is a new company for any taxable year only if such taxable year begins not more than 5 years after the first day on which it (or any predecessor, if section 381(c)(22) applies or would have applied if in effect) was authorized to do business as an insurance company.

(2) *Limitations on 8-year carryover.*—(A) *In general.* For purposes of subsection (b)(1)(A)(iii), a life insurance company shall not be treated as a new company for any loss year if at any time during such year it was a nonqualified corporation. If, at any time during any taxable year after the loss year, the life insurance company is a nonqualified corporation, subsection (b)(1)(A)(iii) shall cease to apply with respect to such loss for such taxable year and all subsequent taxable years.

(B) *Nonqualified corporation defined.* For purposes of subparagraph (A), the term "nonqualified corporation" means any corporation connected through stock ownership with any other corporation, if either of such corporations possesses at least 50 percent of the voting power of all classes of stock of the other such corporation. For purposes of subparagraph (A), a corporation shall be treated as becoming a nonqualified corporation at any time at which it becomes a party to a reorganization (other than a reorganization which is not described in any subparagraph of section 368(a)(1) other than subparagraphs (E) and (F) thereof.

(f) *Application of subtitle A and subtitle F.* Except as provided in section 809(e), subtitle A and subtitle F shall apply in respect of operations loss carrybacks, operations loss carryovers, and the operations loss deduction under this part in the same manner and to the same extent as such subtitles apply in respect of net operating loss carrybacks, net operating loss carryovers, and the net operating loss deduction.

[Sec. 812 as added by sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 45); amended by sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 127)]

§ 1.812–1 Taxable years affected.

Sections 1.812–2 through 1.812–8, except as otherwise provided therein, are applicable only to taxable years beginning after December 31, 1957, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112).

§ 1.812–2 Operations loss deduction.

(a) *Allowance of deduction.* Section 812 provides that a life insurance company shall be allowed a deduction in computing gain or loss from operations for any taxable year beginning after December 31, 1957, in an amount equal to the aggregate of the operations loss carryovers and operations loss carrybacks to such taxable year. This deduction is referred to as the operations loss deduction. The loss from operations (computed under section 809), is the basis for the computation of the operations loss carryovers and operations loss carrybacks and ultimately for the operations loss deduction itself. Section 809(e)(5) provides that the net operating loss deduction provided in section 172 shall not be allowed a life insurance company since the operations loss deduction provided in section 812 and this paragraph shall be allowed in lieu thereof.

(b) *Steps in computation of operations loss deduction.* The three steps to be taken in the ascertainment of the operations loss deduction for any taxable year beginning after December 31, 1957, are as follows:

(1) Compute the loss from operations for any preceding or succeeding taxable year from which a loss from operations may be carried over or carried back to such taxable year.

(2) Compute the operations loss carryovers to such taxable year from such preceding taxable years and the operations loss carrybacks to such taxable year from such succeeding taxable years.

(3) Add such operations loss carryovers and carrybacks in order to determine the operations loss deduction for such taxable year.

(c) *Statement with tax return.* Every life insurance company claiming an operations loss deduction for any taxable year shall file with its return for such year a concise statement setting forth the amount of the operations loss deduction claimed and all material and pertinent facts relative thereto, including a detailed schedule showing the computation of the operations loss deduction.

(d) *Ascertainment of deduction dependent upon operations loss carryback.* If a life insurance company is entitled in computing its operations loss deduction to a carryback which it is not able to ascertain at the time its return is due, it shall compute the operations loss deduction on its return without regard to such operations loss carryback. When the life insurance company ascertains the operations loss carryback, it may within the applicable period of limitations file a claim for credit or refund of the overpayment, if any, resulting from the failure to compute the operations loss deduction for the taxable year with the inclusion of such carryback; or it may file an application under the provisions of section 6411 for a tentative carryback adjustment.

(e) *Law applicable to computations.* The following rules shall apply to all taxable years beginning after December 31, 1957—

(1) In determining the amount of any operations loss carryback or carryover to any taxable year, the necessary computations involving any other taxable year shall be made under the law applicable to such other taxable year.

(2) The loss from operations for any taxable year shall be determined under the law applicable to that year without regard to the year to which it is to be carried and in which, in effect, it is to be deducted as part of the operations loss deduction.

(3) The amount of the operations loss deduction which shall be allowed for any taxable year shall be determined under the law applicable for that year.

(f) *Special rules.* For purposes of taxable years beginning after December 31, 1954, and before January 1, 1958—

(1) The amount of any:

(i) Loss from operations;

(ii) Operations loss carryback; and

(iii) Operations loss carryover.

shall be computed as of part I, subchapter L, chapter 1 of the Code (as in effect for 1958) and section 381(c)(22) applied to such taxable years.

(2) A loss from operations (determined in accordance with the provisions of section 812(b)(1)(C) and this paragraph) for such taxable years shall in no way affect the tax liability of any life insurance company for such taxable years. However, such loss may, to the extent allowed as an operations loss carryover under section 812, affect the tax liability of a life insurance company for a taxable year beginning after December 31, 1957. For example, for the taxable year 1956, X, a life insurance company, has a loss from operations (determined in accordance with the provisions of section 812(b)(1)(C) and this paragraph). Such loss shall in no way affect X's tax liability for the taxable years 1956 (the year of the loss), 1955 (a year to which such loss shall be carried back), or 1957 (a year to which such loss shall be carried forward). However, to the extent allowed under section 812, any amount of the loss for 1956 remaining after such carryback and carryforward shall be taken into account in determining X's tax liability for taxable years beginning after December 31, 1957.

§ 1.812–3 Computation of loss from operations.

(a) *Modification of deductions.* A loss from operations is sustained by a life insurance company in any taxable year, if and to the extent that, for such year, there is an excess of the sum of the deductions provided by section 809(d) over the sum of (1) the life insurance company's share of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received) as determined under section 809(b)(3), and (2) the sum of the items of gross amount taken into account under section 809(c). In determining the loss from operations for purposes of section 812—

(i) No deduction shall be allowed under section 812 for the operations loss deduction.

(ii) The 85 percent limitation on dividends received provided by section 246 (b) as modified by section 809(d)(8)(B) shall not apply to the deductions otherwise allowed under—

(a) Section 243(a) in respect to dividends received by corporations,

(b) Section 244 in respect of dividends received on certain preferred stock of public utilities, and

(c) Section 245 in respect of dividends received from certain foreign corporations.

(b) *Illustration of principles.* The application of paragraph (a) of this section may be illustrated by the following example:

Example. For the taxable year 1960, X, a life insurance company, has items taken into account under section 809(c) amounting to $150,000, its share of the investment yield amounts to $250,000, and total deductions allowed by section 809(d) of $375,000, exclusive of any operations loss deduction and exclusive of any deduction for dividends received. In 1960, X received as its share of dividends entitled to the benefits of section 243(a) the amount of $100,000. These dividends are included in X's share of the investment yield. X has no other deductions to which section 812(c) applies. On the basis of these facts, X has a loss from operations

for the taxable year 1960 of $60,000, computed as follows:

Deductions for 1960	$375,000
Plus: Deduction for dividends received computed without regard to the limitation provided by sec. 246(b), as modified by sec. 809(d)(8)(B) ($5% of $100,000)	85,000
Total deductions as modified by sec. 812(c)	460,000
Less: Sum of sec. 809(c) items and X's share of investment yield (including $100,000 of dividends)	400,000
Loss from operations for 1960	(60,000)

§ 1.812–4 Operations loss carrybacks and operations loss carryovers.

(a) *In general*—(1) *Years to which loss may be carried.* In order to compute the operations loss deduction of a life insurance company the company must first determine the part of any losses from operations for any preceding or succeeding taxable years which are carryovers or carrybacks to the taxable year in issue. Except as otherwise provided by this paragraph, a loss from operations for taxable years beginning after December 31, 1954, shall be carried back to each of the 3 taxable years preceding the loss year and shall be carried forward to each of the 5 taxable years succeeding the loss year. Except as limited by section 812(e)(2) and paragraph (b) of § 1.812–6, if the life insurance company is a new company (as defined in section 812(e)(1)) for the loss year, the loss from operations shall be carried back to each of the 3 taxable years preceding the loss year and shall be carried forward to each of the 8 taxable years succeeding the loss year. In determining the span of years for which a loss from operations may be carried, taxable years in which a company does not qualify as a life insurance company (as defined in section 801(a)), or is not treated as a new company, shall be taken into account.

(2) *Special transitional rules.* (i) A loss from operations for any taxable year beginning before January 1, 1958, shall not be carried back to any taxable year beginning before January 1, 1955. Furthermore, a loss from operations for any taxable year beginning after December 31, 1957, shall not be carried back to any taxable year beginning before January 1, 1958.

(ii) If for any taxable year a life insurance company has made an election under section 810(e) (relating to certain decreases in reserves for voluntary employees' beneficiary associations) which is effective for such taxable year, the provisions of section 812(b)(1) and subparagraph (1) of this paragraph shall not apply with respect to any loss from operations for any taxable year beginning before January 1, 1958.

(3) *Illustration of principles.* The provisions of section 812(b)(1) and of this paragraph may be illustrated by the following examples:

Example (1). P, a life insurance company, organized in 1940, has a loss from operations of $1,000 in 1958. This loss cannot be carried back, but shall be carried forward to each of the 5 taxable years following 1958.

Example (2). Q, a life insurance company, organized in 1940, has a loss from operations of $1,200 in 1960. This loss shall be carried back to the taxable year 1958 and then shall be carried forward to each of the 5 taxable years following 1959.

Example (3). R, a life insurance company, organized in 1940, has a loss from operations of $1,300 for the taxable year 1956. This loss shall first be carried back to the taxable year 1955 and then shall be carried forward to each of the 5 taxable years following 1956. The loss for 1956, carryback to 1955, and carryover to 1957 shall each be computed as if part I, subchapter L, chapter 1 of the Code (as in effect for 1958) applied to such taxable years.

Example (4). S, a life insurance company, organized in 1958 and meeting the provisions of section 812(e) (rules relating to new companies), has a loss from operations of $1,400 for the taxable year 1958. This loss cannot be carried back, but shall be carried forward to each of the 8 taxable years following 1958, provided, however, S is not a nonqualified corporation at any time during the loss year (1958) or any taxable year thereafter.

Example (5). T, a life insurance company, organized in 1954 and meeting the provisions of section 812(e) (rules relating to new companies), has a loss from operations of $1,500 for the taxable year 1956. This loss shall first be carried back to the taxable year 1955 and then carried forward to each of the 8 taxable years following 1956, provided, however, T is not a nonqualified corporation at any time during the loss year (1956) or any taxable year thereafter. The loss for 1956, carryback to 1955, and carryover to 1957 shall each be computed as if part I of subchapter L (as in effect for 1958) applied to such taxable years.

(4) *Periods of less than 12 months.* A fractional part of a year which is a taxable year under sections 441(b) and 7701(a)(23) is a preceding or a succeeding taxable year for the purpose of determining under section 812 the first, second, etc., preceding or succeeding taxable year. For the determination of the loss from operations for periods of less than 12 months, see section 818(d) and the regulations thereunder.

(5) *Amount of loss to be carried.* The amount which is carried back or carried over to any taxable year is the loss from operations to the extent it was not absorbed in the computation of gain from operations for other taxable years, preceding such taxable year, to which it may be carried back or carried over. For the purpose of determining the gain from operations for any such preceding taxable year, the various operations loss carryovers and carrybacks to such taxable year are considered to be applied in reduction of the gain from operations in the order of the taxable years from which such losses are carried over or carried back, beginning with the loss for the earliest taxable year.

(6) *Corporate acquisitions.* For the computation of the operations loss carryovers in the case of certain acquisitions of the assets of a life insurance company by another life insurance company, see section 381(c)(22) and the regulations thereunder.

(b) *Portion of loss from operations which is a carryback or a carryover to the taxable year in issue*—(1) *Manner of computation.* (i) A loss from operations shall first be carried back to the earliest taxable year permissible under section 812(b) and paragraph (a) of this section for which such loss is allowable as a carryback or a carryover. The entire amount of the loss from operations shall be carried back to such earliest year.

(ii) Section 812(b)(2) provides that the portion of the loss from operations which shall be carried to each of the taxable years subsequent to the earliest taxable year shall be the excess (if any) of the amount of the loss from operations over the sum of the offsets (as defined in section 812(d) and paragraph (a) of § 1.812–5) for all prior taxable years to which the loss from operations may be carried.

(2) *Illustration of principles.* The application of this paragraph may be illustrated by the following example:

Example. T, a life insurance company (which is not a new company as defined in section 812(e)(1)), has a loss from operations for 1960. The entire amount of the loss from operations for 1960 shall first be carried back to 1958. The amount of the carryback to 1959 is the excess (if any) of the 1960 loss over the offset for 1958. The amount of the carryover to 1961 is the excess (if any) of the 1960 loss over the sum of the offsets for 1958 and 1959. The amount of the 1960 loss remaining (if any) to be carried over to 1962, 1963, or 1964 shall be computed in a like manner.

§ 1.812–5 Offset.

(a) *Offset defined.* Section 812(d) defines the term "offset" for purposes of section 812(b)(2) and paragraph (b)(1)(ii) of § 1.812–4. For any taxable year the offset is only that portion of the increase in the operations loss deduction for the taxable year which is necessary to reduce the life insurance company taxable income (computed without regard to section 802(b)(3)) for such year to zero. For purposes of the preceding sentence, the offset shall be determined with the modifications prescribed in paragraph (b) of this section. Such modifications shall be made independently of, and without reference to, the modifications required by paragraph (a) of § 1.812–3 for purposes of computing the loss from operations itself.

(b) *Modifications*—(1) *Operations loss deduction*—(i) *In general.* Section 812(d)(2) provides that for purposes of section 812(d)(1) (relating to the definition of offset), the operations loss deduction for any taxable year shall be computed by taking into account only such losses from operations otherwise allowable as carryovers or as carrybacks to such taxable year as were sustained in taxable years preceding the taxable year in which the life insurance company sustained the loss from operations from which the offset is to be deducted. Thus, for such purposes the loss from operations for the loss year or for any taxable year thereafter shall not be taken into account.

(ii) *Illustration of principles.* The provisions of this subparagraph may be illustrated by the following example:

Example. In computing the operations loss deduction for 1960, T, a life insurance company, has a carryover from 1958 of $9,000, a carryover from 1959 of $6,000, a carryback from 1961 of $18,000, and a carryback from 1962 of $10,000, or an aggregate of $43,000 in carryovers and carrybacks. Thus, the operations loss deduction for 1960, for purposes of determining the tax liability for 1960, is $43,000. However, in computing the offset for 1960 which is subtracted from the loss from operations for 1961 for the purpose of determining the portion of such loss which may be carried over to subsequent taxable years, the operations loss deduction for 1960 is $15,000, that is, the aggregate of the $9,000 carryover from 1958 and the $6,000 carryover from 1959. In computing the operations loss deduction for such purpose, the $18,000 carryback from 1961 and the $10,000 carryback from 1962 are disregarded. In computing the offset for 1960, however, which is subtracted from the loss from operations for 1962 for the purpose of determining the portion of such 1962 loss which may be carried over for subsequent taxable years, the operations loss deduction for 1960 is $33,000, that is, the aggregate of the $9,000 carryover from 1958, the $6,000 carryover from 1959, and the $18,000 carryback from 1961. In computing the operations loss deduction for such purpose, the $10,000 carryback from 1962 is disregarded.

(2) *Recomputation of deductions limited by section 809(f)*—(i) *In general.* If in any taxable year a life insurance company has deductions under section 809(d)(3), (5), and (6), as limited by section 809(f), and sustains a loss from operations in a succeeding taxable year which may be carried back as an operations loss deduction, such limitation and deductions shall be recomputed. This recomputation is required since the carryback must be taken into account for purposes of determining such limitation and deductions.

(ii) *Illustration of principles.* The provisions of this subparagraph may be illustrated by the following example:

Example. The books of P, a life insurance company, reveal the following facts:

Taxable year	Taxable investment income	Gain from operations	Loss from operations
1959	$11,000,000	$10,000,000	
1960			($9,800,000)

The gain from operations thus shown is computed without regard to any operations loss deduction or deductions under section 809(d)(3), (5), and (6), as limited by section 809(f). Assume that for the taxable year 1959, P has (without regard to the limitation of section 809(f) or the operations loss deduction for 1959) a deduction under section 809(d)(3) of $2,500,000 for dividends to policyholders and no deductions under section 809(d)(5) or (6).

(a) *Determination of section 809(f) limitation and deduction for dividends to policyholders without regard to the operations loss deduction for 1959.* In order to determine gain or loss from operations for 1959, P must determine the deduction for dividends to policyholders for such year. Under the provisions of section 809(f), the amount of such deduction shall not exceed the sum of (*1*) the amount (if any) by which the gain from operations for such year (determined without regard to such deduction) exceeds P's taxable investment income for such year, plus (2) $250,000. Since the gain from operations as thus determined ($10,000,000) exceeds the taxable investment income

($9,000,000) by $1,000,000, the limitation on such deduction is $1,250,000 ($1,000,000 plus $250,000). Accordingly, only $1,250,000 of the $2,500,000 deduction for dividends to policyholders shall be allowed. The gain from operations for such year is $8,750,000 ($10,000,000 minus $1,250,000).

(b) *Recomputation of section 809(f) limitation and deduction for dividends to policyholders after application of the operations loss deduction for 1959.* Since P has sustained a loss from operations for 1960 which shall be carried back to 1959 as an operations loss deduction, it must recompute the section 809(f) limitation and deduction for dividends to policyholders. Taking into account the $9,800,000 operations loss deduction for 1959 reduces gain from operations for such year to $200,000 ($10,000,000 minus $9,800,000). Since the gain from operations as thus determined ($200,000) is less than the taxable investment income ($9,000,000), the limitation on the deduction for dividends to policyholders is $250,000. Thus, only $250,000 of the $2,500,000 deduction for dividends to policyholders shall be allowed. The gain from operations for such year as thus determined is $9,750,000 ($10,000,000 minus $250,000) since for purposes of this determination the operations loss deduction for tion 812(c)(1)). Accordingly, the offset for 1959 is $9,750,000 (the increase in the operations loss deduction for 1959, computed without regard to the carryback for 1960, which reduces life insurance company taxable income for 1959 to zero); thus, the portion of the 1960 loss from operations which shall be carried forward to 1961 is $50,000 (the excess of the 1960 loss ($9,800,000) over the offset for 1959 ($9,750,000)).

(3) *Minimum limitation.* The life insurance company taxable income, as modified under this paragraph, shall in no case be considered less than zero.

§ 1.812–6 Rules relating to new companies.

(a) *New company defined.* Section 812(e)(1) provides that for purposes of part I, subchapter L, chapter 1 of the Code, a life insurance company is a "new company" for any taxable year only if such taxable year begins not more than 5 years after the first day on which it (or any predecessor, if section 381(c)(22) applies or would have applied if in effect) was authorized to do business as an insurance company.

(b) *Limitations on 8-year carryover.* (1) Section 812(e)(2)(A) provides that for purposes of section 812(b)(1)(A)(iii) (relating to an 8-year carryover of losses for new companies), a life insurance company shall not be treated as a new company for any loss year if at any time during such loss year it was a nonqualified corporation (as defined in subparagraph (2) of this paragraph). Furthermore, if at any time during any taxable year after the loss year the life insurance company is a non-qualified corporation, section 812(b)(1)(A)(iii) shall cease to apply to (i) such loss for the taxable year of the nonqualification, and (ii) all subsequent taxable years.

(2) Section 812(e)(2)(B) defines the term "nonqualified corporation" for purposes of section 812(e)(2)(A) as any corporation connected through stock ownership with any other corporation where either of such corporations possesses at least 50 percent of the total combined voting power of all classes of stock entitled to vote of the other corporation. For such purpose, a corporation shall be treated as becoming a nonqualified corporation at any time it becomes a party to a reorganization other than a reorganization described in section 368(a)(1)(E) or (F).

(c) *Illustration of principles.* The provisions of section 812(e) and this section may be illustrated by the following examples:

Example (1). R, a life insurance company, organized on January 1, 1958, and qualifying as a new company, had a loss from operations for the taxable year 1958. Regardless of what events take place in future taxable years, R is a new company for any taxable year beginning not more than 5 years after January 1, 1958. The loss for 1958 may be carried forward to each of the 8 taxable years following 1958, provided, however, R is not a nonqualified corporation at any time during the loss year (1958) or any taxable year thereafter.

Example (2). The facts are the same as in example (1), except that from March 10, 1958 through August 1, 1958, R was a nonqualified corporation. R is still a new company for the taxable year 1958 but shall not be treated as such since it was a nonqualified corporation at some time during such taxable year. Accordingly, the loss for 1958 shall be carried forward to each of the 5 taxable years following 1958, but shall not be carried forward to any of the 3 taxable years following such 5 taxable years.

Example (3). S, a life insurance company organized in 1958, and qualifying as a new company, had a loss from operations for the taxable year 1958. In 1960, S was a nonqualified corporation. Since S was a nonqualified corporation during a taxable year (1960) after the loss year (1958), the loss for 1958 shall be carried forward to each of the 5 taxable years following 1958, but shall not be carried forward to any of the 3 taxable years following such 5 taxable years. In determining the 5 taxable years to which the loss for 1958 may be carried, the taxable year during which S was a nonqualified corporation (1960) shall be taken into account.

Example (4). The facts are the same as in example (3), except that in 1961 S was no longer a nonqualified corporation. With respect to the loss for 1958, the results are the same as in example (3).

Example (5). The facts are the same as in example (4), except that in 1962 S had a loss from operations. With respect to the loss for 1958, the results are the same as in example (4). With respect to the loss for 1962, such loss may be carried forward to each of the 8 taxable years following 1962, provided, however, S is not a nonqualified corporation at any time during the loss year (1962) or any taxable year thereafter.

Example (6). T, a life insurance company, organized on January 1, 1958, and qualifying as a new company, had a loss from operations for the taxable years 1959 and 1964. With respect to the loss for 1959, such loss may be carried forward to each of the 8 taxable years following 1959, provided, however, T is not a nonqualified corporation at any time during the loss year (1959) or any taxable year thereafter. With respect to the loss for 1964, such loss may be carried forward to each of the 5 taxable years following 1964, but not to any of the 3 taxable years following such 5 taxable years since the loss

for 1964 was sustained in a taxable year beginning more than 5 taxable years after the first day (January 1, 1958) on which T was authorized to do business as an insurance company.

Example (7). U, a life insurance company, organized in 1958, and qualifying as a new company, had a loss from operations for the taxable year 1958. In 1965, U was a nonqualified corporation. The loss for 1958 shall be carried forward to each of the 6 taxable years following 1958 (1959, 1960, 1961, 1962, 1963, and 1964), but shall not be carried forward to any of the 2 taxable years following such 6 taxable years (1965 and 1966).

§ 1.812–7 Application of subtitle A and subtitle F.

Section 812(f) provides that except as modified by section 809(e) (relating to modifications of deduction items otherwise allowable under subtitle A of the Code) subtitles A and F of the Code shall apply to operations loss carrybacks and carryovers, and to the operations loss deduction, in the same manner and to the same extent that such subtitles apply in respect of net operation loss carrybacks, net operating loss carryovers, and the net operating loss deduction of corporations generally. For the computation of the operations loss carrybacks and carryovers, and of the operations loss deduction in the case of certain acquisitions of the assets of a life insurance company by another life insurance company, see section 381(c)(22) and the regulations thereunder.

§ 1.812–8 Illustration of operations loss carrybacks and carryovers.

The application of § 1.812-4 may be illustrated by the following example:

(a) *Facts.* The books of M, a life insurance company, organized in 1940, reveal the following facts:

Taxable year	Taxable investment income	Gain from operations	Loss from operations
1958	$11,000	$15,000	
1959	23,000	30,000	
1960			($75,000)
1961	25,000	20,000	
1962			(150,000)
1963	22,000	30,000	
1964	40,000	35,000	
1965	62,000	75,000	
1966	25,000	17,000	
1967	39,000	53,000	

The gain from operations thus shown is computed without regard to any operations loss deduction. The assumption is also made that none of the other modifications prescribed in paragraph (b) of § 1.812-5 apply. There are no losses from operations for 1955, 1956, 1957, 1968, 1969, 1970.

(b) *Loss sustained in 1960.* The portions of the $75,000 loss from operations for 1960 which shall be used as carrybacks to 1958 and 1959 and as carryovers to 1961, 1962, 1963, 1964, and 1965 are computed as follows:

(1) *Carryback to 1958.* The carryback to this year is $75,000, that is, the amount of the loss from operations.

(2) *Carryback to 1959.* The carryback to this year is $60,000 (the excess of the loss for 1960 over the offset for 1958), computed as follows:

Loss from operations	$75,000
Less:	
Offset for 1958 (the $15,000 gain from operations for such year computed without the deduction of the carryback from 1960)	15,000
Carryback	60,000

(3) *Carryover to 1961.* The carryover to this year is $30,000 (the excess, if any, of the loss for 1960 over the sum of the offsets for 1958 and 1959), computed as follows:

Loss from operations	$75,000
Less:	
Offset for 1958 (the $15,000 gain from operations for such year computed without the deduction of the carryback from 1960)	$15,000
Offset for 1959 (the $30,000 gain from operations for such year computed without the deduction of the carryback from 1960 or the carryback from 1962)	30,000
Sum of offsets	45,000
Carryover	30,000

(4) *Carryover to 1962.* The carryover to this year is $10,000 (the excess, if any, of the loss for 1960 over the sum of the offsets for 1958, 1959, and 1961), computed as follows:

Loss from operations	$75,000
Less:	
Offset for 1958 (the $15,000 gain from operations for such year computed without the deduction of the carryback from 1960)	$15,000
Offset for 1959 (the $30,000 gain from operations for such year computed without the deduction of the carryback from 1960 or the carryback from 1962)	30,000
Offset for 1961 (the $20,000 gain from operations for such year computed without the deduction of the carryover from 1960 or the carryback from 1962)	20,000
Sum of offsets	65,000
Carryover	10,000

(5) *Carryover to 1963.* The carryover to this year is $10,000 (the excess, if any, of the loss for 1960 over the sum of the offsets for 1958, 1959, 1961, and 1962), completed as follows:

Loss from operations	$75,000
Less:	
Offset for 1958 (the $15,000 gain from operations for such year computed without the deduction of the carryback from 1960)	$15,000
Offset for 1959 (the $30,000 gain from operations for such year computed without the deduction of the carryback from 1960 or the carryback from 1962)	30,000
Offset for 1961 (the $20,000 gain from operations for such year computed without the deduction of the carryover from 1960 or the carryback from 1962)	20,000
Offset for 1962 (a year in which a loss from operations was sustained)	0
Sum of offsets	$65,000
Carryover	10,000

(6) *Carryover to 1964.* The carryover to this year is $0 (the excess, if any, of the loss from 1960 over the sum of the offsets for 1958, 1959, 1961, 1962, and 1963), computed as follows:

Loss from operations	$75,000
Less:	
Offset for 1958 (the $15,000 gain from operations for such year computed without the deduction of the carryback from 1960)	$15,000
Offset for 1959 (the $30,000 gain from operations for such year computed without the deduction of the carryback from 1960 or the carryback from 1962)	30,000
Offset for 1961 (the $20,000 gain from operations for such year computed without the deduction of the carryover from 1960 or the carryback from 1962)	20,000
Offset for 1962 (a year in which a loss from operations was sustained)	0
Offset for 1963 (the $30,000 gain from operations for such year computed without the deduction of the carryover from 1960 or the carryover from 1962)	30,000
Sum of offsets	95,000
Carryover	0

(7) *Carryover to 1965.* The carryover to this year is $0 (the excess, if any, of the loss from 1960 over the sum of the offsets for 1958, 1959, 1961, 1962, 1963, and 1964), computed as follows:

Loss from operations	$75,000
Less:	
Offset for 1958 (the $15,000 gain from operations for such year computed without the deduction of the carryback from 1960)	$15,000
Offset for 1959 (the $30,000 gain from operations for such year computed without the deduction for the carryback from 1960 or the carryback from 1962)	30,000
Offset for 1961 (the $20,000 gain from operations for such year computed without the deduction for the carryover from 1960 or the carryback from 1962)	20,000
Offset for 1962 (a year in which a loss from operations was sustained)	0
Offset for 1963 (the $30,000 gain from operations for such year computed without the deduction of the carryover from 1960 or the carryover from 1962)	30,000
Offset for 1964 (the $35,000 gain from operations for such year reduced by the carryover to such year of $0 from 1960, the carryover from 1962 to 1964 not being taken into account)	$35,000
Sum of offsets	$55,000
Carryover	95,000

(7) *Carryover to 1966.* The carryover to this year is $20,000 (the excess, if any, of the loss from 1962 over the sum of the offsets for 1959, 1960, 1961, 1963, 1964, and 1965), computed as follows:

Loss from operations	$150,000
Less:	
Offset for 1959 (the $30,000 gain from operations for such year reduced by the carryback to such year of $60,000 from 1960, the carryback from 1962 to 1959 not being taken into account)	$0
Offset for 1960 (a year in which a loss from operations was sustained)	0
Offset for 1961 (the $20,000 gain from operations for such year reduced by the carryover to such year of $30,000 from 1960, the carryback from 1962 to 1961 not being taken into account)	0
Offset for 1963 (the $30,000 gain from operations for such year reduced by the carryover to such year of $10,000 from 1960, the carryover from 1962 to 1963 not being taken into account)	20,000
Offset for 1964 (the $35,000 gain from operations for such year reduced by the carryover to such year of $0 from 1960, the carryover from 1962 to 1964 not being taken into account)	35,000
Offset for 1965 (the $75,000 gain from operations for such year reduced by the carryover to such year of $0 from 1960, the carryover from 1962 to 1965 not being taken into account)	75,000
Sum of offsets	130,000
Carryover	20,000

(8) *Carryover to 1967.* The carryover to this year is $3,000 (the excess, if any, of the loss from 1962 over the sum of the offsets for 1959, 1960, 1961, 1963, 1964, 1965, and 1966), computed as follows:

Loss from operations	$150,000
Less:	
Offset for 1959 (the $30,000 gain from operations for such year reduced by the carryback to such year of $60,000 from 1960, the carryback from 1962 to 1959 not being taken into account)	$0
Offset for 1960 (a year in which a loss from operations was sustained)	0
Offset for 1961 (the $20,000 gain from operations for such year reduced by the carryover to such year of $30,000 from 1960, the carryback from 1962 to 1961 not being taken into account)	0
Offset for 1963 (the $30,000 gain from operations for such year reduced by the carryover to such year of $10,000 from 1960, the carryover from 1962 to 1963 not being taken into account)	20,000
Offset for 1964 (the $35,000 gain from operations for such year reduced by the carryover to such year of $0 from 1960, the carryover from 1962 to 1964 not being taken into account)	35,000
Offset for 1965 (the $75,000 gain from operations for such year reduced by the carryover to such year of $0 from 1960, the carryover from 1962 to 1965 not being taken into account)	75,000
Offset for 1966 (the $17,000 gain from operations for such year reduced by the carryover to such year of $0 from 1960, the carryover from 1962 to 1966 not being taken into account)	17,000
Sum of offsets	$147,000
Carryover	3,000

Offset for 1963 (the $30,000 gain from operations for such year computed without the deduction for the carryover from 1960 or the carryover from 1962)	$30,000
Offset for 1964 (the $35,000 gain from operations for such year computed without the deduction of the carryover from 1960 or the carryover from 1962)	35,000
Sum of offsets	$130,000
Carryover	0

(c) *Loss sustained in 1962.* The portions of the $150,000 loss from operations for 1962 which shall be used as carrybacks to 1959, 1960, and 1961 and as carryovers to 1963, 1964, 1965, 1966, and 1967 are computed as follows:

(1) *Carryback to 1959.* The carryback to this year is $150,000, that is, the amount of the loss from operations.

(2) *Carryback to 1960.* The carryback to this year is $150,000 (the excess, if any, of the loss from 1962 over the offset for 1959), computed as follows:

Loss from operations	$150,000
Less:	
Offset for 1959 (the $30,000 gain from operations for such year reduced by the carryback to such year of $60,000 from 1960, the carryback from 1962 to 1959 not being taken into account)	0
Carryback	150,000

(3) *Carryback to 1961.* The carryback to this year is $150,000 (the excess if any, of the loss from 1962 over the sum of the offsets for 1959 and 1960), computed as follows:

Loss from operations	$150,000
Less:	
Offset for 1959 (the $30,000 gain from operations for such year reduced by the carryback to such year of $60,000 from 1960, the carryback from 1962 to 1959 not being taken into account)	$0
Offset for 1960 (a year in which a loss from operations was sustained)	0
Sum of offsets	0
Carryback	150,000

(4) *Carryover to 1963.* The carryover to this year is $150,000 (the excess, if any, of the loss from 1962 over the sum of the offsets for 1959, 1960, and 1961), computed as follows:

Loss from operations	$150,000
Less:	
Offset for 1959 (the $30,000 gain from operations for such year reduced by the carryback to such year of $60,000 from 1960, the carryback from 1962 to 1959 not being taken into account)	$0
Offset for 1960 (a year in which a loss from operations was sustained)	0
Offset for 1961 the ($20,000 gain from operations for such year reduced by the carryover to such year of $30,000 from 1960, the carryback from 1962 to 1961 not being taken into account)	0
Sum of offsets	0
Carryback	150,000

(5) *Carryover to 1964.* The carryover to this year is $130,000 (the excess, if any, of the loss from 1962 over the sum of the offsets for 1959, 1960, 1961, and 1963), computed as follows:

Loss from operations	$150,000
Less:	
Offset for 1959 (the $30,000 gain from operations for such year reduced by the carryback to such year of $60,000 from 1960, the carryback from 1962 to 1959 not being taken into account)	$0
Offset for 1960 (a year in which a loss from operations was sustained)	0
Offset for 1961 (the $20,000 gain from operations for such year reduced by the carryover to such year of $30,000 from 1960, the carryback from 1962 to 1961 not being taken into account)	0
Offset for 1963 (the $30,000 gain from operations for such year reduced by the carryover to such year of $10,000 from 1960, the carryover from 1962 to 1963 not being taken into account)	20,000
Sum of offsets	20,000
Carryover	130,000

(6) *Carryover to 1965.* The carryover to this year is $95,000 (the excess, if any, of the loss from 1962 over the sum of the offsets for 1959, 1960, 1961, 1963, and 1964), computed as follows:

Loss from operations	$150,000
Less:	
Offset for 1959 (the $30,000 gain from operations for such year reduced by the carryback to such year of $60,000 from 1960, the carryback from 1962 to 1959 not being taken into account	$0
Offset for 1960 (a year in which a loss from operations was sustained)	0
Offset for 1961 (the $20,000 gain from operations for such year reduced by the carryover to such year of $30,000 from 1960, the carryback from 1962 to 1961 not being taken into account)	0
Offset for 1963 (the $30,000 gain from operations for such year reduced by the carryover to such year of $10,000 from 1960, the carryover from 1962 to 1963 not being taken into account)	20,000
Offset for 1964 (the $35,000 gain from operations for such year reduced by the carryover to such year of $0 from 1960, the carryover from 1962 to 1964 not being taken into account)	$35,000
Sum of offsets	$55,000
Carryover	95,000

(7) *Carryover to 1966.* The carryover to this year is $20,000 (the excess, if any, of the loss from 1962 over the sum of the offsets for 1959, 1960, 1961, 1963, 1964, and 1965), computed as follows:

Loss from operations	$150,000
Less:	
Offset for 1959 (the $30,000 gain from operations for such year reduced by the carryback to such year of $60,000 from 1960, the carryback from 1962 to 1959 not being taken into account)	$0
Offset for 1960 (a year in which a loss from operations was sustained)	0
Offset for 1961 (the $20,000 gain from operations for such year reduced by the carryover to such year of $30,000 from 1960, the carryback from 1962 to 1961 not being taken into account)	0
Offset for 1963 (the $30,000 gain from operations for such year reduced by the carryover to such year of $10,000 from 1960, the carryover from 1962 to 1963 not being taken into account)	20,000
Offset for 1964 (the $35,000 gain from operations for such year reduced by the carryover to such year of $0 from 1960, the carryover from 1962 to 1964 not being taken into account)	35,000
Offset for 1965 (the $75,000 gain from operations for such year reduced by the carryover to such year of $0 from 1960, the carryover from 1962 to 1965 not being taken into account)	75,000
Sum of offsets	130,000
Carryover	20,000

(8) *Carryover to 1967.* The carryover to this year is $3,000 (the excess, if any, of the loss from 1962 over the sum of the offsets for 1959, 1960, 1961, 1963, 1964, 1965, and 1966), computed as follows:

Loss from operations	$150,000
Less:	
Offset for 1959 (the $30,000 gain from operations for such year reduced by the carryback to such year of $60,000 from 1960, the carryback from 1962 to 1959 not being taken into account)	$0

Offset for 1960 (a year in which a loss from operations was sustained)	$0
Offset for 1961 (the $20,000 gain from operations for such year reduced by the carryover to such year of $30,000 from 1960, the carryback from 1962 to 1961 not being taken into account)	
Offset for 1962 (the $30,000 gain from operations for such year reduced by the carryover to such year of $10,000 from 1960, the carryover from 1962 to 1963 not being taken into account)	20,000
Offset for 1964 (the $35,000 gain from operations for such year reduced by the carryover to such year of $0 from 1960, the carryover from 1962 to 1964 not being taken into account)	35,000
Offset for 1965 (the $75,000 gain from operations for such year reduced by the carryover to such year of $0 from 1960, the carryover from 1962 to 1965 not being taken into account)	75,000
Offset for 1966 (the $17,000 gain from operations for such year computed without the deduction of the carryover from 1962)	17,000
Sum of offsets	$147,000
Carryover	3,000

(d) ***Determination of operations loss deduction for each year.*** **The carryovers and carrybacks computed under paragraphs (b) and (c) of this section are used as a basis for the computation of the operations loss deduction in the following manner:**

Taxable year	Carryover		Carryback		Operations loss deductions
	From 1960	From 1962	From 1960	From 1962	
1958			$75,000		$75,000
1959			60,000	$150,000	210,000
1961	$30,000			150,000	180,000
1963	10,000	$150,000			160,000
1964		130,000			130,000
1965		95,000			95,000
1966		20,000			20,000
1967		3,000			3,000

§ 1.813 Statutory provisions; life insurance companies; adjustment for certain reserves.

SEC. 813. *Adjustment for certain reserves.* In the case of a life insurance company writing contracts other than life insurance, annuity, and noncancellable health and accident insurance contracts (including life insurance or annuity contracts combined with noncancellable health and accident insurance), the term "adjustment for certain reserves" means, for purposes of this subpart, an amount equal to 3¼ percent of the unearned premiums and unpaid losses on such other contracts which are not included in life insurance reserves (as defined in section 801(b)). For purposes of this section, such unearned premiums shall not be considered to be less than 25 percent of the net premiums written during the taxable year on such other contracts.

[Sec. 813 as added by sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 46)]

DISTRIBUTIONS TO SHAREHOLDERS

§ 1.815 Statutory provisions; life insurance companies; distributions to shareholders.

SEC. 815. *Distributions to shareholders*—(a) *General rule.* For purposes of this section and section 802(b)(3), any distribution to shareholders after December 31, 1958, shall be treated as made—

(1) First out of the shareholders surplus account, to the extent thereof,

(2) Then out of the policyholders surplus account, to the extent thereof, and

(3) Finally out of other accounts.

For purposes of this section, the term "distribution" includes any distribution in redemption of stock or in partial or complete liquidation of the corporation, but does not include any distribution made by the corporation in its stock or in rights to acquire its stock, and does not (except for purposes of paragraph (3) and subsection (e)(2)(B)) include any distribution in redemption of stock issued before 1958 which at all times on and after the date of issuance and on and before the date of redemption is limited as to dividends and is callable, at the option of the issuer, at a price not in excess of 105 percent of the sum of the issue price and the amount of any contribution to surplus made by the original purchaser at the time of his purchase.

(b) *Shareholders surplus account*—(1) *In general.* Each stock life insurance company shall, for purposes of this part, establish and maintain a shareholders surplus account. The amount in such account on January 1, 1958, shall be zero.

(2) *Additions to account.* The amount added to the shareholders surplus account for any taxable year beginning after December 31, 1957, shall be the amount by which—

(A) The sum of—

(i) The life insurance company taxable income (computed without regard to section 802(b)(3)),

(ii) In the case of a taxable year beginning after December 31, 1958, the amount (if any) by which the net long-term capital gain exceeds the net short-term capital loss,

(iii) The deduction for partially tax-exempt interest provided by section 242 (as modified by section 804(a)(3)), the deductions for dividends received provided by sections 243, 244, and 245 (as modified by section 809(d)(8)(B)), and the amount of interest excluded from gross income under section 103, and

(iv) The small business deduction provided by section 809(d)(10), exceeds

(B) The taxes imposed for the taxable year by section 802(a), determined without regard to section 802(b)(3).

(3) *Subtractions from account*—(A) *In general.* There shall be subtracted from the shareholders surplus account for any taxable year the amount which is treated under this section as distributed out of such account.

(B) *Distributions in 1958.* There shall be subtracted from the shareholders surplus account (to the extent thereof) for any taxable year beginning in 1958 the amount of distributions to shareholders made during 1958.

(c) *Policyholders surplus account*—(1) *In general.* Each stock life insurance company shall, for purposes of this part, establish and maintain a policyholders surplus account. The amount in such account on January 1, 1959, shall be zero.

(2) *Additions to account.* The amount added to the policyholders surplus account for any taxable year beginning after December 31, 1958, shall be the sum of—

(A) An amount equal to 50 percent of the amount by which the gain from operations exceeds the taxable investment income,

(B) The deduction for certain nonparticipating contracts provided by section 809(d)(5) (as limited by section 809(f)), and

(C) The deduction for group life and group accident and health insurance contracts provided by section 809(d)(6) (as limited by section 809(f)).

(3) *Subtractions from account.* There shall be subtracted from the policyholders surplus account for any taxable year an amount equal to the sum of—

(A) The amount which (without regard to subparagraph (B)) is treated under this section as distributed out of the policyholders surplus account, and

(B) The amount (determined without regard to section 802(a)(3)) by which the tax imposed for the taxable year by section 802(a)(1) is increased by reason of section 802(b)(3).

(d) *Special rules*—(1) *Election to transfer amounts from policyholders surplus account to shareholders surplus account*—(A) *In general.* A taxpayer may elect for any taxable year for which it is a life insurance company to subtract from its policyholders surplus account any amount in such account as of the close of such taxable year. The amount so subtracted, less the amount of the tax imposed with respect to such amount by reason of section 802(b)(3), shall be added to the shareholders surplus account as of the beginning of the succeeding taxable year.

(B) *Manner and effect of election.* The election provided by subparagraph (A) shall be made (in such manner and in such form as the Secretary or his delegate may by regulations prescribe) after the close of the taxable year and not later than the time prescribed by law for filing the return (including extensions thereof) for the taxable year. Such an election, once made, may not be revoked.

(2) *Termination as life insurance company*—(A) *Effect of termination.* Except as provided in section 381(c)(22) (relating to carryovers in certain corporate readjustments), if—

(i) For any taxable year the taxpayer is not an insurance company, or

(ii) For any two successive taxable years the taxpayer is not a life insurance company,

then the amount taken into account under section 802(b)(3) for the last preceding taxable year for which it was a life insurance company shall be increased (after the application of subparagraph (B)) by the amount remaining in its policyholders surplus account at the close of such last preceding taxable year.

(B) *Effect of certain distributions.* If for any taxable year the taxpayer is an insurance company but not a life insurance company, then any distribution to shareholders during such taxable year shall be treated as made on the last day of the last preceding taxable year for which the taxpayer was a life insurance company.

(3) *Treatment of certain indebtedness.* If—

(A) The taxpayer makes any payment in discharge of its indebtedness, and

(B) Such indebtedness is attributable to a distribution by the taxpayer to its shareholders after February 9, 1959,

then the amount of such payment shall, for purposes of this section and section 802(b)(3), be treated as a distribution in cash to shareholders, but only to the extent that the distribution referred to in subparagraph (B) was treated as made out of accounts other than the shareholders and policyholders surplus accounts.

(4) *Limitation on amount in policyholders surplus account.* There shall be treated as a subtraction from the policyholders surplus account for a taxable year for which the taxpayer is a life insurance company the amount by which the policyholders surplus account (computed at the end of the taxable year without regard to this paragraph) exceeds whichever of the following is the greatest—

(A) 15 percent of life insurance reserves at the end of the taxable year,

(B) 25 percent of the amount by which the life insurance reserves at the end of the taxable year exceed the life insurance reserves at the end of 1958, or

(C) 50 percent of the net amount of the premiums and other consideration taken into account for the taxable year under section 809(c)(1).

The amount so treated as subtracted, less the amount of the tax imposed with respect to such amount by reason of section 802(b)(3), shall be added to the shareholders surplus account as of the beginning of the succeeding taxable year.

(e) *Special rule for certain mutualizations*—(1) *In general.* For purposes of this section and section 802(b)(3), any distribution to shareholders after December 31, 1958, in acquisition of stock pursuant to a plan of mutualization shall be treated—

(A) First, as made out of paid-in capital and paid-in surplus, to the extent thereof,

(B) Thereafter, as made in two allocable parts—

(i) One part of which is made out of the other accounts referred to in subsection (a)(3), and

(ii) The remainder of which is a distribution to which subsection (a) applies.

(2) *Special rules*—(A) *Allocation ratio.* The part referred to in paragraph (1)(B)(i) is the amount which bears the same ratio to the amount to which paragraph (1)(B) applies as—

(i) The excess (determined as of December 31, 1958, and adjusted to the beginning of the year of the distribution as provided in subparagraph (B)) of the assets over the total liabilities, bears to

(ii) The sum (determined as of the beginning of the year of the distribution) of the excess described in clause (i), the amount in the shareholders surplus account, plus the amount in the policyholders surplus account.

(B) *Adjustment for certain distributions.* The excess described in subparagraph (A)(i) shall be reduced by the aggregate of the prior distributions which have been treated under subsection (a)(3) as made out of accounts other than the shareholders surplus account and the policyholders surplus account.

[Sec. 815 as added by sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 129)]

§ 1.815–1 Taxable years affected.

Sections 1.815–2 through 1.815–6 are applicable only to taxable years beginning after December 31, 1957, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 112).

§ 1.815–2 Distributions to shareholders.

(a) *In general.* Section 815 provides that every stock life insurance company subject to the tax imposed by section 802 shall establish and maintain two special surplus accounts for Federal income tax purposes. These special accounts are the shareholders surplus account (as defined in section 815(b) and § 1.815–3) and the policyholders surplus account (as defined in section 815(c) and § 1.815–4). To the extent that a distribution to shareholders (as defined in paragraph (c) of this section) is treated as being made out of the shareholders surplus account, no tax is imposed on the company with respect to such distribution. However, to the extent that a distribution to shareholders is treated as being made out of the policyholders surplus account, the amount subtracted from the policyholders surplus account by reason of such distribution shall be taken into account in determining life insurance company taxable income under section 802(b).

(b) *Priority system for distributions to shareholders.* (1) For purposes of section 815 (other than subsection (e) thereof relating to certain mutualizations) and section 802(b)(3) (relating to the determination of life insurance company taxable income), any distribution made to shareholders after December 31, 1958, shall be treated in the following manner:

(i) Distributions shall be treated as first being made out of the shareholders surplus account (as defined in section 815(b) and § 1.815–3);

(ii) Once the shareholders surplus account has been reduced to zero, distributions shall then be treated as being made out of the policyholders surplus account (as defined in section 815(c) and § 1.815–4) until that account has been reduced to zero; and

(iii) Finally, any distributions in excess of the amounts in the shareholders surplus account and the policyholders surplus account shall be treated as being made out of other accounts (as defined in § 1.815–5).

(2) For purposes of subparagraph (1) of this paragraph, in order to determine whether a distribution (or any portion thereof) shall be treated as being made out of the shareholders surplus account, policyholders surplus account, or other accounts, the amount in such accounts at the end of any taxable year shall be the cumulative balance in such accounts at the end of the taxable year, computed without diminution by reason of a distribution (or any portion thereof) during the taxable year which is treated as being made out of such accounts. For example, on January 1, 1960, S, a stock life insurance company, had $1,000 in its shareholders surplus account and $3,000 in its policyholders surplus account. On November 1, 1960, S distributed $4,000 to its shareholders. Under the provisions of section 815(b)(2) and paragraph (b) of § 1.815–3, S added $5,000 to its shareholders surplus account for the taxable year 1960. Since the distributions to shareholders during the taxable year 1960, $4,000, does not exceed the cumulative balance in the shareholders surplus account at the end of the taxable year, computed without diminution by reason of distributions treated as made out of such account during the taxable year, $6,000 ($1,000 plus $5,000), the entire distribution is treated as being made out of the shareholders surplus account.

(3) Except in the case of a distribution in cash and as otherwise provided herein, the amount to be charged to the special surplus accounts referred to in subparagraph (1) of this paragraph with respect to any distributions to shareholders (as defined in section 815(a) and paragraph (c) of this section) shall be the fair market value of the property distributed, determined as of the date of distribution. However, for the amount of the adjustment to earnings and profits reflecting such distributions, see section 312 and the regulations thereunder. For a special rule relating to the determination of the amount to be charged to such special surplus accounts in the case of a distribution by a foreign life insurance company carrying on a life insurance business within the United States, see section 819(c)(1) and the regulations thereunder.

(c) *Distributions to shareholders defined.* (1) Except as provided in subparagraph (2) of this paragraph, the term "distribution," as used in section 815(a) and paragraph (b) of this section, means any distribution of property made by a life insurance company to its shareholders. For purposes of the preceding sentence, the term "property" means any property (including money, securities, and indebtedness to the company) other than stock, or rights to acquire stock, in the company making the distribution. Thus, for example, the term includes a distribution which is considered a dividend under section 316, but is not limited to the extent that such distribution must be made out of the accumulated or current earnings and profits of the company making the distribution. Similarly, there is a distribution within the meaning of this paragraph in any case in which a corporation acquires the stock of a shareholder in exchange for property in a redemption treated as a distribution in exchange for stock under section 302(a) or treated as a distribution of property under section 302(d). For special rules relating to distributions to shareholders in acquisition of stock pursuant to a plan of mutualization, see section 815(e) and paragraph (e) of § 1.815–6.

(2) The term "distribution", as used in section 815(a) and paragraph (b) of this section, does not (except for purposes of section 815(a)(3) and (e)(2)(B)) include any distribution in redemption of stock issued prior to January 1, 1958, where such stock was at all times on and after the date of its issuance and on and before the date of its redemption limited as to the amount of dividends payable and was callable, at the option of the issuer, at a price not in excess of 105 percent of the sum of its issue price plus the amount of contribution to surplus (if any) made by the original purchaser at the time of his purchase.

§ 1.815–3 Shareholders surplus account.

(a) *In general.* Every stock life insurance company subject to the tax imposed by section 802 shall establish and maintain a shareholders surplus account. This account shall be established as of January 1, 1958, and the beginning or opening balance of the shareholders surplus account on that date shall be zero.

(b) *Additions to shareholders surplus account.* (1) The amount added to the shareholders surplus account for any taxable year beginning after December

31, 1957, shall be the amount by which the sum of—

(i) The life insurance company taxable income (computed without regard to section 802(b)(3)),

(ii) In the case of a taxable year beginning after December 31, 1958, the amount (if any) by which the net long-term capital gain exceeds the net short-term capital loss,

(iii) The deduction for partially tax-exempt interest provided by section 242 (as modified by section 804(a)(3)), the deductions for dividends received provided by sections 243, 244, and 245 (as modified by section 809(d)(8)(B)), and the amount of interest excluded from gross income under section 103, and

(iv) The small business deduction provided by section 809(d)(10),

exceeds the taxes imposed for the taxable year by section 802(a), computed without regard to section 802(b)(3).

(2) For amounts which are to be added to the shareholders surplus account at the beginning of the succeeding taxable year, see section 815(d)(1) and (4) and paragraphs (a) and (d) of § 1.815–6.

(c) *Subtractions from shareholders surplus account*—(1) *In general.* There shall be subtracted from the cumulative balance in the shareholders surplus account at the end of any taxable year, computed without diminution by reason of distributions made during the taxable year, the amount which is treated as being distributed out of such account under section 815(a) and paragraph (b) of § 1.815–2.

(2) *Special rule; distributions in 1958.* There shall be subtracted from the shareholders surplus account (to the extent thereof) for any taxable year beginning in 1958 the amount of the distributions to shareholders made by the company during 1958. For example, assume S, a stock life insurance company, had additions to its shareholders surplus account (as determined under section 815(b)(2) and paragraph (b) of this section) for the taxable year 1958 of $10,000, and actually distributed as dividends to its shareholders $8,000 during the year 1958. The balance in S's shareholders surplus account as of January 1, 1959, shall be $2,000. If S had distributed $12,000 as dividends in 1958, the balance in its shareholders surplus account as of January 1, 1959, would be zero and the other accounts referred to in section 815(a)(3) and paragraph (b)(1)(iii) of § 1.815–2 would be reduced by $2,000.

(d) *Illustration of principles.* The application of section 815(b) and this section may be illustrated by the following example:

Example. The books of S, a stock life insurance company, reflect the following items for the taxable year 1960:

Balance in shareholders surplus account as of 1–1–60	$5,000
Life insurance company taxable income computed without regard to sec. 802(b)(3)	4,000
Excess of net long-term capital gain over net short-term capital loss	1,700
Tax-exempt interest included in gross investment income under sec. 804(b)	100
Small business deduction (determined under sec. 809(d)(10))	200
Tax liability under sec. 802(a) (1) and (2) computed without regard to sec. 802(b)(3)	$1,625
Amount distributed to shareholders	9,000

For purposes of determining the amount to be subtracted from its shareholders surplus account for the taxable year, S would first make up the following schedule in order to determine the cumulative balance in the shareholders surplus account at the end of the taxable year, computed without diminution by reason of distributions made during the taxable year:

(1) Balance in shareholders surplus account as of 1–1–60		$5,000
(2) Additions to account:		
(a) Life insurance company taxable income computed without regard to sec. 802(b)(3)	$4,000	
(b) Excess of net long-term capital gain over net short-term capital loss	1,700	
(c) Tax-exempt interest included in gross investment income under sec. 804(b)	100	
(d) Small business deduction (determined under sec. 809(d)(10))	200	
Total	6,000	
Less: Tax liability under sec. 802(a) (1) and (2) computed without regard to sec. 802(b)(3)	1,625	
		4,375
(3) Cumulative balance in shareholders surplus account as of 12–31–60 (item (1) plus item (2))		9,375

Since the amount distributed to shareholders during the taxable year, $9,000, does not exceed the cumulative balance in the shareholders surplus account at the end of the taxable year, computed without diminution by reason of distributions made during the taxable year, $9,375, under the provisions of section 815(a), the entire distribution shall be treated as being made out of the shareholders surplus account. Thus, $9,000 shall be subtracted from the shareholders surplus account (leaving a balance of $375 in such account at the end of the taxable year) and S shall incur no additional tax liability by reason of the distribution to its shareholders during the taxable year 1960.

§ 1.815–4 Policyholders surplus account.

(a) *In general.* Every stock life insurance company subject to the tax imposed by section 802 shall establish and maintain a policyholders surplus account. This account shall be established as of January 1, 1959, and the beginning or opening balance of the policyholders surplus account on that date shall be zero.

(b) *Additions to policyholders surplus account.* The amount added to the policyholders surplus account for any taxable year beginning after December 31, 1958, shall be the sum of—

(1) An amount equal to 50 percent of the amount by which the gain from operations for the taxable year exceeds the taxable investment income,

(2) The deduction for certain nonparticipating contracts provided by section 809(d)(5) (as limited by section 809(f)), and

(3) The deduction for group life and group accident and health insurance contracts provided by section 809(d)(6) (as limited by section 809(f)).

(c) *Subtractions from policyholders surplus account*—(1) *In general.* There shall be subtracted from the cumulative balance in the policyholders surplus account at the end of any taxable year, computed without diminution by reason of distributions made during the taxable year, an amount equal to the sum of—

(i) The amount which (without regard to subdivision (ii) of this subparagraph) is treated under section 815(a) as distributed out of the policyholders surplus account for the taxable year, plus

(ii) The amount (determined without regard to section 802(a)(3)) by which the tax imposed for the taxable year by section 802(a)(1) is increased by reason of section 802(b)(3).

In addition, there shall be subtracted from the policyholders surplus account for the taxable year those amounts which, at the close of the taxable year, are subtracted or treated as subtracted from the policyholders surplus account under section 815(d)(1) and (4) and paragraphs (a) and (d) of § 1.815–6. For purposes of this paragraph, the subtractions from the policyholders surplus account shall be treated as made in the following order:

(a) First the amount determined under section 815(c)(3) by reason of distributions to shareholders during the taxable year which are treated as being made out of the policyholders surplus account;

(b) Next the amount elected to be subtracted from the policyholders surplus account for the taxable year under section 815(d)(1);

(c) Then the amount which is treated as a subtraction from the policyholders surplus account for the taxable year by reason of the limitation provided in section 815(d)(4); and

(d) Finally the amount taken into account upon termination as a life insurance company as provided in section 815(d)(2).

(2) *Method of computing amount subtracted from policyholders surplus account*—(i) *Where life insurance company taxable income, computed without regard to section 802(b)(3), exceeds $25,000.* If the life insurance company taxable income for any taxable year computed under section 802(b), computed without regard to section 802(b)(3), exceeds $25,000, the amount subtracted from the policyholders surplus account shall be determined by multiplying the amount treated as distributed out of such account by a ratio, the numerator of which is 100 percent and the denominator of which is 100 percent minus the sum of the normal tax rate and the surtax rate for the taxable year.

(ii) *Where life insurance company taxable income does not exceed $25,000.* If the life insurance company taxable income for any taxable year, computed under section 802(b), does not exceed $25,000, the amount subtracted from the policyholders surplus account shall be determined by multiplying the amount treated as distributed out of such account by a ratio, the numerator of which is 100 percent and the denominator of which is 100 percent minus the normal tax rate for the taxable year.

(iii) *Where life insurance company taxable income, computed without regard to section 802(b)(3) does not exceed $25,000, but computed with regard to section 802(b)(3) does exceed $25,000.* If the life insurance company taxable income for any taxable year, computed without regard to section 802(b)(3) does not exceed $25,000, but computed with regard to section 802(b)(3) does exceed $25,000, the amount subtracted from the policyholders surplus account shall be determined in the following manner:

(a) First, determine the amount by which $25,000 exceeds the amount determined under section 802(b)(1) and (2);

(b) Then, multiply the amount determined under (a) by a ratio, the numerator of which is 100 percent minus the normal tax rate and the denominator of which is 100 percent;

(c) Next, determine the amount by which the amount treated as distributed out of the policyholders surplus account exceeds the amount determined under (b) and multiply such excess by a ratio, the numerator of which is 100 percent and the denominator of which is 100 percent minus the sum of the normal tax rate and the surtax rate; and

(d) Finally, add the amounts determined under (a) and (c).

(3) *Illustration of principles.* The application of section 815(c)(3) and subparagraph (2) of this paragraph may be illustrated by the following examples:

Example (1). The life insurance company taxable income of S, a stock life insurance company, computed without regard to section 802(b)(3), exceeds $25,000 for the taxable year 1959. Assume that of the amount distributed by S to its shareholders during the taxable year, $9,600 (as determined under section 815(a) and without regard to section 815(c)(3)(B)) is treated as distributed out of the policyholders surplus account. Since the sum of the normal tax rate (30%) and the surtax rate (22%) in effect for 1959 is 52 percent, S shall subtract $20,000 from its policyholders surplus account for the taxable year 1959, computed as follows:

$$\$9{,}600 \times \frac{100}{(100-52)} = \$9{,}600 \times \frac{100}{48} = \$20{,}000$$

Of this amount, $9,600 is due to the application of section 815(c)(3)(A) and $10,400 to the application of section 815(c)(3)(B).

Example (2). Assume that for the taxable year 1960, S, a stock life insurance company, has taxable investment income of $1,000 and a gain from operations of $2,000. Assume further that of the amount distributed by S to its shareholders during the taxable year, $3,500 (as determined under section 815(a) and without regard to section 815(c)(3)(B)) is treated as distributed out of the policyholders surplus account. Since S's life insurance company taxable income does not exceed $25,000 for the taxable year and the normal tax rate in effect for 1960 is 30 percent, S shall subtract $5,000 from its policyholders surplus account for the taxable year 1960, computed as follows:

$$\$3{,}500 \times \frac{100}{(100-30)} = \$3{,}500 \times \frac{100}{70} = \$5{,}000$$

Of this amount, $3,500 is due to the application of section 815(c)(3)(A), and $1,500 to the application of section 815(c)(3)(B).

Example (3). For the taxable year 1960, the life insurance company taxable income of S, a stock life insurance company, computed without regard to section 802(b)(3), is $10,000. Assume that of the amount distributed by S to its shareholders during the taxable year, $12,000 (as determined under section 815(a) and without regard to section 815(c)(3)(B)) is treated as distributed out of the policyholders surplus account. Since the life insurance company taxable income of S, computed with regard to section 802(b)(3), exceeds $25,000, in order to determine the amount to be subtracted from its policyholders surplus account, S would make up the following schedule:

(1) $25,000 minus life insurance company taxable income, computed without regard to sec. 802(b)(3) ($25,000 minus $10,000)	$15,000
(2) Item (1) multiplied by 100 percent minus the normal tax rate as in effect for 1960, over 100 percent $\left(\$15{,}000 \times \frac{(100-30)}{100}\right)$	10,500
(3) Amount by which the amount treated as distributed out of policyholders surplus account ($12,000) exceeds item (2) ($10,500), multiplied by 100 percent over 100 percent minus the sum of the normal tax rate and the surtax rate as in effect for 1960 $\left(\$1{,}500 \times \frac{100}{(100-52)}\right)$	3,125
(4) Item (1) plus item (3) ($15,000 plus $3,125)	18,125

For the taxable year 1960, S shall subtract $18,125 from its policyholders surplus account. Of this amount, $10,500 represents the distribution from the policyholders surplus account which is taxed at a 30 percent tax rate and $1,500 the distribution from the policyholders surplus account which is taxed at a 52 percent tax rate. Thus, of the amount subtracted from the policyholders surplus account for the taxable year 1960, $12,000 is due to the application of section 815(c)(3)(A), and $6,125 to the application of section 815(c)(3)(B).

(d) *Illustration of principles.* The application of section 815(c) and this section may be illustrated by the following example:

Example. The books of S, a stock life insurance company, reflect the following items for the taxable year 1960:

Taxable investment income	$25,000
Gain from operations	30,000
Tax base (sec. 802(b)(1) and (2))	27,500
Deduction for certain nonparticipating policies provided by sec. 809(d)(5) (as limited by sec. 809(f))	600
Deduction for group policies provided by sec. 809(d)(6) (as limited by sec. 809(f))	400
Amount distributed to shareholders	60,000
Cumulative balance in shareholders surplus account as of 12–31–60	36,000
Balance in policyholders surplus account as of 1–1–60	48,000

For purposes of determining the amount to be subtracted from its policyholders surplus account for the taxable year, S would first make up the following schedule in order to determine the cumulative balance in the policyholders surplus account at the end of the taxable year, computed without diminution by reason of distributions made during the taxable year:

(1) Balance in policyholders surplus account as of 1–1–60		$48,000
(2) Additions to account:		
(a) 50 percent of the amount by which the gain from operations ($30,000) exceeds the taxable investment income ($25,000) ($\frac{1}{2} \times \$5{,}000$)	$2,500	
(b) The deduction for certain nonparticipating contracts provided by sec. 809(d)(5) (as limited by sec. 809(f))	600	
(c) The deduction for group contracts provided by sec. 809(d)(6) (as limited by sec. 809(f))	400	
		3,500
(3) Cumulative balance in policyholders account as of 12–31–60 item (1) plus item (2))		51,500

Under the provisions of section 815(a), since the amount distributed to shareholders during the taxable year, $60,000, exceeds the cumulative balance in the shareholders surplus at the end of the taxable year, computed without diminution by reason of distributions during the taxable year, $36,000, the shareholders surplus account shall first be reduced to zero. The remaining $24,000 ($60,000 minus $36,000) of the distribution shall then be treated as made out of the policyholders surplus account. Thus, since the tax base under section 802(b)(1) and (2) is in excess of $25,000, the total amount to be subtracted from the policyholders surplus account at the end of the taxable year would be $50,000 $\left(\$24{,}000 \times \frac{100}{100-52}\right)$. Of this amount $26,000 ($50,000 minus $24,000) represents the tax on the portion of the distribution to shareholders which is treated as being out of the policyholders surplus account.

(e) *Special rule for 1959 and 1960.* For a special transitional rule applicable to any increase in tax liability under section 802(b)(3) for the taxable years 1959 and 1960 which is due solely to the operation of section 815(c)(3) and this section, see section 802(a)(3) and § 1.802–5.

§ 1.815–5 Other accounts defined.

The term "other accounts", as used in section 815(a)(3) and paragraph (b) of § 1.815–2, means all amounts which are not specifically included in the shareholders surplus account under section 815(b) and paragraph (b) of § 1.815–3, or in the policyholders surplus account under section 815(c) and paragraph (b) of § 1.815–4. Thus, for example, other accounts include amounts representing the increase in tax due to the operation of section 802(b)(3) which is not taken into account for the taxable years 1959 and 1960 because of the special transitional rule provided in section 802(a)(3) and § 1.802–5, earnings and profits accumulated prior to January 1, 1958, paid-in surplus, capital, etc. To the extent that a distribution (or any portion thereof) is treated as being made out of other accounts, no tax is imposed on the company with respect to such distribution.

§ 1.815–6 Special rules.

(a) *Election to transfer amounts from policyholders surplus account to shareholders surplus account*—(1) *In general.* Section 815(d)(1) permits a life insurance company to elect, after the close of any taxable year for which it is a life insurance company, to subtract any amount (or any portion thereof) in its policyholders surplus account as of the close of the taxable year. The effect of such election is to subject the company to tax on the amounts elected to be subtracted for the taxable year for which the election applies. The amount so subtracted, less the amount of tax imposed with respect to such amount by reason of section 802(b)(3), shall be added to the shareholders surplus account as of the beginning of the taxable year following the taxable year for which the election applies and no further tax shall be imposed upon the company if the amount elected to be transferred to the shareholders surplus account is subsequently distributed to shareholders.

(2) *Manner and effect of election.* (i) The election provided by section 815(d)(1) and this section shall be made in a statement attached to the life insurance company's income tax return for any taxable year for which the company desires the election to apply. The statement shall include the name and address of the taxpayer, shall be signed by the taxpayer (or his duly authorized representative), and shall be filed not later than the date prescribed by law (including extensions thereof) for filing the return for such taxable year. In addition, the statement shall indicate that the company has made the election provided under section 815(d)(1) for the taxable year and the amount elected to be subtracted from the policyholders surplus account.

(ii) An election made under section 815(d)(1)(B) and subdivision (i) of this subparagraph shall be effective only with respect to the taxable year for which the election is made. Thus, the company must make a new election for each taxable year for which it desires the election to apply. Once such an election has been made for any taxable year it may not be revoked.

(3) The application of subparagraph (1) of this paragraph may be illustrated by the following example:

Example. For the taxable year 1960, the life insurance company taxable income of S, a stock life insurance company, computed without regard to section 802(b)(3), exceeds $25,000. Assume that S elects to subtract $20,000 from its policyholders surplus account under section 815(d)(1) for the taxable year. Since S is subject to a 52 percent tax rate, the tax on the amount elected to be subtracted from the policyholders surplus account (as of the close of the taxable year 1960) is $10,400 ($20,000 × 52 percent). Thus, the amount to be added to the shareholders surplus account as of January 1, 1961, is $9,600 (the amount subtracted from the policyholders surplus account by virtue of the section 815(d)(1) election, less the tax imposed upon such amount by reason of section 802(b)(3), or $20,000 minus $10,400).

(b) *Termination as life insurance company*—(1) *Effect of termination.* Except as provided in section 381(c)(22) (relating to carryovers in certian corporate readjustments), section 815(d)(2)(A) provides that if for any taxable year the taxpayer is not an insurance company (as defined in paragraph (a) of § 1.801–3), or if for any two successive taxable years the taxpayer is not a life insurance company (as defined in section 801(a) and paragraph (b) of § 1.801–3), the amount taken into account under section 802(b)(3) for the last preceding year for which the company was a life insurance company shall be increased (after the application of section 815(d)(2)(B)) by the entire balance in the policyholders surplus account at the close of such last preceding taxable year.

(2) *Effect of certain distributions.* If for any taxable year the taxpayer is an insurance company (as defined in paragraph (a) of § 1.801–3) but is not a life insurance company (as defined in section 801(a) and paragraph (b) of § 1.801–3), section 815(d)(2)(B) provides that any distribution to shareholders during such taxable year shall be treated as having been made on the last day of the last preceding taxable year for which the company was a life insurance company.

(3) *Examples.* The application of section 815(d)(2) and this paragraph may be illustrated by the following examples:

Example (1). At the end of the taxable year 1959, the balance in the policyholders surplus account of S, a life insurance company within the meaning of section 801(a) and paragraph (b) of § 1.801–3, is $12,000. If S fails to qualify as an insurance company (as defined in paragraph (a) of § 1.801–3) for the taxable year 1960, and section 381(c)(22) does not apply, under the provisions of section 815(d)(2)(A), the entire balance of $12,000 in the policyholders surplus account at the end of 1959, the last year S was a life insurance company, shall be taken into account under section 802(b)(3) for purposes of determining S's tax liability for the taxable year 1959.

Example (2). Assume the facts are the same as in example (1), except that for the taxable years 1960 and 1961, S qualifies as an insurance company (as defined in paragraph (a) of § 1.801–3) but does not qualify as a life insurance company within the meaning of section 801(a) and paragraph (b) of § 1.801–3. Assume further that as a result of a distribution by S to its shareholders in 1960, $4,800 (as determined under section 815(a) and without regard to section 815(c)(3)(B)) is treated as distributed out of the policyholders surplus account. Under the provisions of section 815(d)(2)(B), if section 381(c)(22) does not apply, any distribution to shareholders during the taxable years 1960 and 1961 shall be treated as having been made on December 31, 1959 (the last day of the last preceding taxable year for which S was a life insurance company). Thus, assuming S is subject to a 52 percent tax rate on additions to life insurance company taxable income, $10,000 ($4,800 plus $5,200, the tax on the portion of the distribution treated as made out of the policyholders surplus account) shall be treated as being subtracted from the policyholders surplus account at the end of 1959 and shall be taken into account under section 802(b)(3) for purposes of determining S's tax liability for the taxable year 1959. Under the provisions of section 815(d)(2)(A), the entire balance of $2,000 ($12,000 minus $10,000) in the policyholders surplus account at the end of 1959 (after the application of section 815(d)(2)(B)), shall also be taken into account under section 802(b)(3) for purposes of determining S's tax liability for the taxable year 1959.

(c) *Treatment of certain indebtedness.* Section 815(d)(3) provides that if a taxpayer makes any payment in discharge of its indebtedness which is attributable to a distribution of such indebtedness by the taxpayer to its shareholders after February 9, 1959, the amount of such payment shall be treated as a distribution in cash to the shareholders both for purposes of section 802(b)(3) and section 815. However, this paragraph shall only apply to the extent that the distribution of such indebtedness to shareholders was treated as being out of accounts other than the shareholders and policyholders surplus accounts at the time of distribution.

(d) *Limitation on amount in policyholders surplus account*—(1) *In general.* Section 815(d)(4) provides a limitation on the amount that any life insurance company may accumulate in its policyholders surplus account. If the policyholders surplus account at the end of any taxable year (computed without regard to this paragraph) exceeds whichever of the following is the greatest—

(i) 15 percent of life insurance reserves (as defined in section 801(b) and paragraph (a) of § 1.801–4) at the end of the taxable year,

(ii) 25 percent of the amount by which the life insurance reserves at the end of the taxable year exceed the life insurance reserves at the end of 1958, or

(iii) 50 percent of the net amount of the premiums and other consideration taken into account for the taxable year under section 809(c)(1),

then such excess shall be treated as a subtraction from the policyholders surplus account as of the end of such taxable year. The amount so treated as subtracted, less the amount of tax imposed with respect to such amount by reason of section 802(b)(3), shall be added to the shareholders surplus account at the beginning of the succeeding taxable year.

(2) *Example.* The application of the limitation contained in subparagraph (1) of this paragraph may be illustrated by the following example:

Example. The books of S, a stock life insurance company, reflect the following items for the taxable year 1960:

Balance in policyholders surplus account, computed without regard to sec. 815(d)(4), as of 12–31–60	$175
Life insurance reserves (as defined in sec. 801(b)) as of 12–31–60	4,500
Life insurance reserves (as defined in sec. 801(b)) as of 12–31–58	3,900
Premiums and other consideration taken into account for the taxable year under sec 809(c)(1)	310

In order to determine the limitations on the amount that it may accumulate in its policyholders surplus account at the end of the taxable year under section 815(d)(4), S would make up the following schedule:

(1) 15 percent of life insurance reserves at the end of the taxable year (15% × $4,500)	$675
(2) 25 percent of amount by which life insurance reserves at the end of the taxable year ($4,500) exceed life insurance reserves as of 12–31–58 ($3,900) (25% × $600)	$150
(3) 50 percent of premiums and other consideration taken into account under sec. 809(c)(1) for the taxable year (50% × $310)	155
(4) Limitation on policyholders surplus account (the greatest of items (1), (2), or (3))	675

Since the balance in the policyholders surplus account at the end of the taxable year 1960, $175, does not exceed the limitation provided by section 815(d)(4), $675, S is not required to make any further adjustment to its policyholders surplus account at the end of the taxable year.

(e) *Special rule for certain mutualizations*—(1) *In general.* Section 815(e) provides a rule for determining priorities which shall operate in place of section 815(a) and paragraph (b) of § 1.815–2 where a life insurance company makes any distribution to its shareholders after December 31, 1958, in acquisition of stock pursuant to a plan of mutualization. Section 815(e)(1) provides that such a distribution shall first be treated as being made out of paid-in capital and paid-in surplus, and, to the extent thereof, no tax shall be imposed on the company with respect to such distribution. Thereafter, distributions made pursuant to such plan of mutualization shall be treated as made in two allocable parts. One part shall be treated as being made out of other accounts (as defined in § 1.815–5) and the company shall incur no tax with respect to such portion of the distribution. The other part shall be treated as a distribution to which section 815(a) and paragraph (b) of § 1.815–2 applies. Thus, such portion of the distribution shall be treated as first being made out of the shareholders surplus account (as defined in section 815(b) and § 1.815–3), to the extent thereof, and then out of the policyholders surplus account (as defined in section 815(c) and § 1.815–4), to the extent thereof. See paragraph (a) of § 1.815–2. For purposes of this paragraph, a distribution shall be considered as being made pursuant to a plan of mutualization only if the requirements of applicable State law for the adoption of such plan (as, for example, approval by the requisite majority of the board of directors, shareholders, and policyholders) have been fulfilled.

(2) *Allocation ratio.* Section 815(e)(2)(A) provides an allocation ratio which when applied to the amount distributed under a plan of mutualization in excess of the balance in the paid-in capital and paid-in surplus accounts determines the portion of such excess to be treated as distributed out of the shareholders surplus account, policyholders surplus account, or other accounts. The numerator of this ratio is the excess of the assets of the company (as defined in section 805(b)(4) and paragraph (a)(4) of § 1.805–5) over the total liabilities (including reserves), both determined as of December 31, 1958, and adjusted in the manner provided in subparagraph (3) of this paragraph. The denominator of this ratio is the amount included in the numerator plus the amounts in the shareholders surplus account and policyholders surplus account, all determined as of the beginning of the year of the distribution.

(3) *Adjustment for certain distributions.* Section 815(e)(2)(B) provides that if between 1958 and the year of distribution the taxpayer has been treated as having made a distribution (under a plan of mutualization or otherwise) which is treated as a return of paid-in capital and paid-in surplus or as out of other accounts (as defined in § 1.815–5), the aggregate amount of any such prior distributions must be subtracted from the numerator and denominator in all cases where the allocation ratio provided by subparagraph (2) of this paragraph applies.

(f) *Recomputation required as a result of a subsequent loss from operations under section 812*—(1) *In general.* Any amounts added to or subtracted from the special surplus accounts referred to in section 815(a) and paragraph (b) of § 1.815–2 for any taxable year shall be adjusted to the extent necessary to properly reflect a subsequent loss from operations which under section 812 is carried back to the taxable year for which such additions or subtractions were made.

(2) *Example.* The application of subparagraph (1) of this paragraph may be illustrated by the following example:

Example. Assume that for the taxable years 1959 through 1961, the books of S, a stock life insurance company subject to a 30 percent tax rate for all taxable years involved, reflect the following items:

	1959	1960	1961
Taxable investment income	$40.00	$40.00	$40.00
Gain from operations	60.00	60.00	60.00
Tax base (sec. 802(b) (1) and (2))	50.00	50.00	50.00
Tax (sec. 802(b) (1) and (2) base)	15.00	15.00	15.00
Shareholders surplus account—			
At beginning of year	0	35.00	37.00
Added at beginning of year by reason of election under sec. 815(d)(1)	0	7.00	0
Added for year (with regard to election under sec. 815(d)(1))	35.00	35.00	35.00
Subtracted (distributions)	0	40.00	40.00
Policyholders surplus account—			
At beginning of year	0	0	10.00
Added for year	10.00	10.00	10.00
Subtracted (distributions)	0	0	0
Subtracted (by reason of election under sec. 815(d)(1))	10.00	0	0
Tax base (sec. 802(b)(3))	10.00	0	0
Tax (sec. 802(b)(3) base)	3.00	0	0

Assume further that S has a loss from operations for the taxable year 1962 of $25. Under provisions of section 812, the $25 loss from operations would be carried back to the taxable year 1959 and would reduce the 1959 tax base under section 802(b)(1) and (2) to $35 ($60 minus $25). After adjustments reflecting the 1962 loss from operations, the results for the taxable years 1959 through the beginning of 1962 would be as follows:

	1959	1960	1961	1962
Taxable investment income	$40.00	$40.00	$40.00	------
Gain from operations	35.00	60.00	60.00	------
Tax base (sec. 802(b) (1) and (2))	35.00	50.00	50.00	------
Tax (sec. 802(b) (1) and (2) base)	10.50	15.00	15.00	------
Shareholders surplus account—				
At beginning of year	0	24.50	19.50	$14.50
Added for year (without regard to election under sec. 815(d)(1))	24.50	25.00	25.00	------
Added by reason of election under sec. 815(d)(1)	0	0	0	------
Subtracted (distributions)	0	30.00	30.00	------
Policyholders surplus account—				
At beginning of year	0	0	10.00	20.00
Added for year	0	10.00	10.00	------
Subtracted (distributions)	0	0	0	------
Subtracted (by reason of election under sec. 815(d)(1))	0	0	0	------
Tax base (sec. 802(b)(3))	0	0	0	------
Tax (sec. 802(b)(3) base)	0	0	0	------

As a result of the loss from operations for 1962, the election under section 815(d)(1) for the taxable year 1959 has become inapplicable in its entirety since the balance in the policyholders surplus account at the end of 1959, as recomputed, is zero. Thus, S would be entitled to a total refund of $7.50 for the taxable year 1959. Of this amount, $4.50 is due to the recomputation of the section 802(b)(1) and (2) tax base and $3 to the amount of tax paid by reason of the election under section 815(d)(1).

§ 1.816 Statutory provisions; life insurance companies; foreign life insurance companies.

SEC. 816. *Foreign life insurance companies*—(a) *Carrying on United States insurance business.* A foreign life insurance company carrying on a life insurance business within the United States, if with respect to its United States business it would qualify as a life insurance company under section 801, shall be taxable in the same manner as a domestic life insurance company; except that the determinations necessary for purposes of this subtitle shall be made on the basis of the income, disbursements, assets, and liabilities reported in the annual statement for the taxable year of the United States business of such company on the form approved for life insurance companies by the National Association of Insurance Commissioners.

[Sec. 816 as added by sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 46)]

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Acquisitions Made To Evade or Avoid Income Tax

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final

adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing to the Commissioner within the 30-day period. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

The following regulations are hereby prescribed under sections 269 (relating to acquisitions made to evade or avoid income tax) and 482 (relating to allocation of income and deductions among taxpayers) of the Internal Revenue Code of 1954:

Sec.
1.269 Statutory provisions; acquisitions made to evade or avoid income tax.
1.269–1 Meaning and use of terms.
1.269–2 Purpose and scope of section 269.
1.269–3 Instances in which section 269(a) disallows a deduction, credit, or other allowance.
1.269–4 Power of district director to allocate deduction, credit, or allowance in part.
1.269–5 Presumption in case of disproportionate purchase price.
1.269–6 Relationship of section 269 to section 382.
1.482 Statutory provisions; allocation of income and deductions among taxpayers.
1.482–1 Determination of the taxable income of a controlled taxpayer.

§ 1.269 Statutory provisions; acquisitions made to evade or avoid income tax.

SEC. 269. *Acquisitions made to evade or avoid income tax*—(a) *In general.* If—

(1) Any person or persons acquire, or acquired on or after October 8, 1940, directly or indirectly, control of a corporation, or

(2) Any corporation acquires, or acquired on or after October 8, 1940, directly or indirectly, property of another corporation, not controlled, directly or indirectly, immediately before such acquisition, by such acquiring corporation or its stockholders, the basis of which property, in the hands of the acquiring corporation, is determined by reference to the basis in the hands of the transferor corporation,

and the principal purpose for which such acquisition was made is evasion or avoidance of Federal income tax by securing the benefit of a deduction, credit, or other allowance which such person or corporation would not otherwise enjoy, then such deduction, credit, or other allowance shall not be allowed. For purposes of paragraphs (1) and (2), control means the ownership of stock possessing at least 50 percent of the total combined voting power of all classes of stock entitled to vote or at least 50 percent of the total value of shares of all classes of stock of the corporation.

(b) *Power of Secretary or his delegate to allow deduction, etc., in part.* In any case to which subsection (a) applies the Secretary or his delegate is authorized—

(1) To allow as a deduction, credit, or allowance any part of any amount disallowed by such subsection, if he determines that such allowance will not result in the evasion or avoidance of Federal income tax for which the acquisition was made; or

(2) To distribute, apportion, or allocate gross income, and distribute, apportion, or allocate the deductions, credits, or allowances the benefit of which was sought to be secured, between or among the corporations, or properties, or parts thereof, involved, and to allow such deductions, credits, or allowances so distributed, apportioned, or allocated, but to give effect to such allowance only to such extent as he determines will not result in the evasion or avoidance of Federal income tax for which the acquisition was made; or

(3) To exercise his powers in part under paragraph (1) and in part under paragraph (2).

(c) *Presumption in case of disproportionate purchase price.* The fact that the consideration paid upon an acquisition by any person or corporation described in subsection (a) is substantially disproportionate to the aggregate—

(1) Of the adjusted basis of the property of the corporation (to the extent attributable to the interest acquired specified in paragraph (1) of subsection (a)), or of the property acquired specified in paragraph (2) of subsection (a); and

(2) Of the tax benefits (to the extent not reflected in the adjusted basis of the property) not available to such person or corporation otherwise than as a result of such acquisition,

shall be prima facie evidence of the principal purpose of evasion or avoidance of Federal income tax. This subsection shall apply only with respect to acquisitions after March 1, 1954.

§ 1.269–1 Meaning and use of terms.

As used in section 269 and §§ 1.269–2 through 1.269–6—

(a) *Allowance.* The term "allowance" refers to anything in the internal revenue laws which has the effect of diminishing tax liability. The term includes, among other things, a deduction, a credit, an adjustment, an exemption, or an exclusion.

(b) *Evasion or avoidance.* The phrase "evasion or avoidance" is not limited to cases involving criminal penalties, or civil penalties for fraud.

(c) *Control.* The term "control" means the ownership of stock possessing at least 50 percent of the total combined voting power of all classes of stock entitled to vote, or at least 50 percent of the total value of shares of all classes of stock of the corporation. For control to be "acquired on or after October 8, 1940", it is not necessary that all of such stock be acquired on or after October 8, 1940. Thus, if A, on October 7, 1940, and at all times thereafter, owns 40 percent of the stock of X Corporation and acquires on October 8, 1940, an additional 10 percent of such stock, an acquisition within the meaning of such phrase is made by A on October 8, 1940. Similarly, if B, on October 7, 1940, owns certain assets and transfers on October 8, 1940, such assets to a newly organized Y Corporation in exchange for all the stock of Y Corporation, an acquisition within the meaning of such phrase is made by B on October 8, 1940. If, under the facts stated in the preceding sentence, B is a corporation, all of whose stock is owned by Z Corporation, then an acquisition within the meaning of such phrase is also made by Z Corporation on October 8, 1940, as well as by the shareholders of Z Corporation taken as a group on such date, and by any of such shareholders if such shareholders as a group own 50 percent of the stock of Z on such date.

(d) *Person.* The term "person" includes an individual, a trust, an estate, a partnership, an association, a company, or a corporation.

§ 1.269–2 Purpose and scope of section 269.

(a) *General.* Section 269 is designed to prevent in the instances specified therein the use of the sections of the Internal Revenue Code providing deductions, credits, or allowances in evading or avoiding Federal income tax. See § 1.269–3.

(b) *Disallowance of deduction, credit, or other allowance.* Under the Code, an amount otherwise constituting a deduction, credit, or other allowance becomes unavailable as such under certain circumstances. Characteristic of such circumstances are those in which the effect of the deduction, credit, or other allowance would be to distort the liability of the particular taxpayer when the essential nature of the transaction or situation is examined in the light of the basic purpose or plan which the deduction, credit, or other allowance was designed by the Congress to effectuate. The distortion may be evidenced, for example, by the fact that the transaction was not undertaken for reasons germane to the conduct of the business of the taxpayer, by the unreal nature of the transaction such as its sham character, or by the unreal or unreasonable relation which the deduction, credit, or other allowance bears to the transaction. The principle of law making an amount unavailable as a deduction, credit, or other allowance in cases in which the effect of making an amount so available would be to distort the liability of the taxpayer, has been judicially recognized and applied in several cases. Included in these cases are Gregory v. Helvering (1935) (293 U.S. 465; Ct. D. 911, C.B. XIV–1, 193); Griffiths v. Helvering (1939) (308 U.S. 355; Ct. D. 1431, C.B. 1940–1, 136); Higgins v. Smith (1940) (308 U.S. 473; Ct. D. 1434, C.B. 1940–1, 127); and J. D. & A. B. Spreckles Co. v. Commissioner (1940) (41 B.T.A. 370). In order to give effect to such principle, but not in limitation thereof, several provisions of the Code, for example, section 267 and section 270, specify with some particularity instances in which disallowance of the deduction, credit, or other allowance is required. Section 269 is also included in such provisions of the Code. The principle of law and the particular sections of the Code are not mutually exclusive and in appropriate circumstances they may operate together or they may operate separately. See, for example, § 1.269–6.

§ 1.269–3 Instances in which section 269(a) disallows a deduction, credit, or other allowance.

(a) *Instances of disallowance.* Section 269 specifies two instances in which a deduction, credit, or other allowance is to be disallowed. These instances, described in paragraphs (1) and (2) of section 269(a), are those in which—

(1) Any person or persons acquire, or acquired on or after October 8, 1940, directly or indirectly, control of a corporation, or

(2) Any corporation acquires, or acquired on or after October 8, 1940, directly or indirectly, property of another corporation (not controlled, directly or indirectly, immediately before such acquisition by such acquiring corporation or its stockholders), the basis of which property in the hands of the acquiring corporation is determined by reference to the basis in the hands of the transferor corporation.

In either instance the principal purpose for which the acquisition was made must have been the evasion or avoidance of Federal income tax by securing the benefit of a deduction, credit, or other allowance which such person or corporation would not otherwise enjoy. The principal purpose actuating the acquisition must have been to secure the benefit which such person or persons or corporation would not otherwise enjoy. If this requirement is satisfied, it is immaterial by what method or by what conjunction of events the benefit was sought. Thus, an acquiring person or corporation may secure the benefit of a deduction, credit, or other allowance within the meaning of section 269 even though it is the acquired corporation that is entitled to such deduction, credit, or other allowance in the determination of its tax. If the purpose to evade or avoid Federal income tax exceeds in importance any other purpose, it is the principal purpose. This does not mean that only those acquisitions fall within the provisions of section 269 which would not have been made if the evasion or avoidance purpose was not present. The determination of the purpose for which an acquisition was made requires a scrutiny of the entire circumstances in which the transaction or course of conduct occurred, in connection with the tax result claimed to arise therefrom. For the presumption of a principal purpose of tax evasion or avoidance, see section 269(c) and § 1.269–5.

(b) *Acquisition of control; transactions indicative of purpose to evade or avoid tax.* If the requisite acquisition of control within the meaning of paragraph (1) of section 269(a) exists, the transactions set forth in the following subparagraphs are among the transactions which ordinarily are indicative that the principal purpose for which such acquisition of control was made is evasion or avoidance of Federal income tax:

(1) A corporation or other business enterprise (or the interest controlling such corporation or enterprise) with large profits acquires control of a corporation with current, past, or prospective credits, deductions, net operating losses, or other allowances and the acquisition is followed by such transfers or other action as is necessary to bring the deduction, credit, or other allowance into conjunction with the income (see further § 1.269–6). This subparagraph may be illustrated by the following example:

Example. Individual A acquires all of the stock of L Corporation which has been engaged in the business of operating retail drug stores. At the time of the acquisition, L Corporation has net operating loss carryovers aggregating $50,000 and its net worth is $100,000. After the acquisition, L Corporation continues to engage in the business of operating retail drug stores but the profits attributable to such business after the acquisition are not sufficient to absorb any substantial portion of the net operating loss carryovers. Shortly after the acquisition, individual A causes to be transferred to L Corporation the assets of a hardware business previously controlled by A which business produces profits sufficient to absorb a substantial portion of L Corporation's net operating loss carryovers. The transfer of the profitable business, which has the effect of using net operating loss carryovers to offset gains of a business unrelated to that which produced the losses, indicates that the principal purpose for which the acquisition of control was made is evasion or avoidance of Federal income tax.

(2) A person organizes two or more corporations instead of a single corporation in order to secure the benefit of multiple surtax exemptions (see section 11(c) or multiple minimum accumulated earnings credits (see section 535(c)(2) and (3)).

(3) A corporation with high earning assets transfers them to a newly organized subsidiary retaining assets likely to produce losses or to be disposed of at a loss for the purpose of securing refunds through a utilization of the net operating loss carryback.

(c) *Acquisition of property; transactions indicative of purpose to evade or avoid tax.* If the requisite acquisition of property within the meaning of paragraph (2) of section 269(a) exists, the transactions set forth in the following subparagraphs are among the transactions which ordinarily are indicative that the principal purpose for which such acquisition of property was made is evasion or avoidance of Federal income tax:

(1) A corporation acquires property having in its hands a carryover basis which is materially greater than its fair market value at the time of such acquisition in order to utilize the property to create tax-reducing losses.

(2) A subsidiary corporation, which has sustained large net operating losses in the operation of business X and which has filed separate returns for the taxable years in which the losses were sustained, acquires high earning assets, comprising business Y, from its parent corporation. The acquisition occurs at a time when the parent would not succeed to the net operating loss carryovers of the subsidiary if the subsidiary were liquidated, and the profits of business Y are sufficient to offset a substantial portion of the net operating loss carryovers attributable to business X (see further example (3) of § 1.269–6).

§ 1.269–4 Power of district director to allocate deduction, credit, or allowance in part.

The district director is authorized by section 269(b) to allow a part of the amount disallowed by section 269(a), but he may allow such part only if and to the extent that he determines that the amount allowed will not result in the evasion or avoidance of Federal income tax for which the acquisition was made. The district director is also authorized to use other methods to give effect to part of the amount disallowed under section 269(a), but only to such extent as he determines will not result in the evasion or avoidance of Federal income tax for which the acquisition was made. Whenever appropriate to give proper effect to the deduction, credit, or other allowance, or such part of it which may be allowed, this authority includes the distribution, apportionment, or allocation of both the gross income and the deductions, credits, or other allowances the benefit of which was sought, between or among the corporations, or properties, or parts thereof, involved, and includes the disallowance of any such deduction, credit, or other allowance to any of the taxpayers involved.

§ 1.269–5 Presumption in case of disproportionate purchase price.

Section 269(c) provides that the fact that the consideration paid upon an acquisition by any person or corporation described in section 269(a) is substantially less than the aggregate—

(a) Of the adjusted basis of the property of the corporation (to the extent attributable to the interest acquired specified in paragraph (1) of section 269(a)), or of the property acquired specified in paragraph (2) of section 269(a); and

(b) Of the tax benefits (to the extent not reflected in the adjusted basis of the property) not available to such person or corporation otherwise than as a result of such acquisition,

shall be prima facie evidence of the principal purpose of evasion or avoidance of Federal income tax. Under principles applicable to income tax litigation generally, the Commissioner's determination that an acquisition was made for the principal purpose of evasion or avoidance of Federal income tax is presumptively correct, and the burden of proving such determination wrong by a preponderance of the evidence, together with the corresponding burden of first going forward with the evidence, is on the taxpayer. The effect of section 269(c), if applicable, is to give further weight to the presumption of correctness already arising from the Commissioner's determination, by expressly providing an additional presumption of the existence of a principal purpose of evasion or avoidance of Federal income tax. Section 269(c) shall apply only with respect to acquisitions occurring after March 1, 1954.

§ 1.269–6 Relationship of section 269 to section 382.

Section 269 and §§ 1.269–1 through 1.269–5 may be applied to disallow a net

operating loss carryover even though such carryover is not disallowed (in whole or in part) under section 382 and the regulations thereunder. This section may be illustrated by the following examples:

Example (1). L Corporation has been computing its taxable income on a calendar year basis and has been sustaining heavy net operating losses for a number of years. Assume that A purchases all of the stock of L Corporation on December 31, 1955, with the intention of changing its business to a profitable new business in order to utilize its net operating loss carryovers. Assume further that A makes no attempt to revitalize the business of L Corporation during the calendar year 1956 and that during January 1957 the business is changed to an entirely new and profitable business. If the net operating loss carryovers are not eliminated under the provisions of section 382, the carryovers will be disallowed under the provisions of section 269(a).

Example (2). L Corporation has been sustaining heavy net operating losses for a number of years and the outlook for its business in the future is very poor. P Corporation, a profitable corporation, wishes to utilize the net operating loss carryovers of L Corporation. Assume that on December 31, 1955, P Corporation purchases 60 percent of the stock of L Corporation for the purpose of liquidating L Corporation in order to utilize the net operating loss carryovers of L Corporation against the profits of P Corporation's business. During 1956, no attempt is made to revitalize the business of L Corporation. Assume further that on January 2, 1957, P Corporation purchases the rest of the stock of L Corporation and that on January 3, 1957, a plan of liquidation is adopted by L Corporation and the corporation is liquidated soon thereafter. If P Corporation would be entitled to the net operating loss carryovers of L Corporation under the provisions of section 381, and if section 382 does not operate to eliminate the carryovers, the carryovers will be disallowed under the provisions of section 269(a).

Example (3). L Corporation has been sustaining net operating losses for a number of years. P Corporation, a profitable corporation, on December 31, 1955, acquires all the stock of L Corporation for the purpose of continuing and improving the operation of L Corporation's business. Under the provisions of sections 334(b)(2) and 381(a)(1), P Corporation would not succeed to L Corporation's net operating loss carryovers if L Corporation were liquidated pursuant to a plan of liquidation adopted within two years after the date of the acquisition. During 1956, P Corporation transfers a profitable business to L Corporation for the purpose of using the profits of such business to absorb the net operating loss carryovers of L Corporation. The transfer is such as to cause the basis of the transferred assets in the hands of L Corporation to be determined by reference to their basis in the hands of P Corporation. If L Corporation's net operating loss carryovers are not eliminated under the provisions of section 382, the carryovers will be disallowed under the provisions of section 269(a).

§ 1.482 Statutory provisions; allocation of income and deductions among taxpayers.

SEC. 482. *Allocation of income and deductions among taxpayers.* In any case of two or more organizations, trades, or businesses (whether or not incorporated, whether or not organized in the United States, and whether or not affiliated) owned or controlled directly or indirectly by the same interests, the Secretary or his delegate may distribute, apportion, or allocate gross income, deductions, credits, or allowances between or among such organizations, trades, or businesses, if he determines that such distribution, apportionment, or allocation is necessary in order to prevent evasion of taxes or clearly to reflect the income of any of such organizations, trades, or businesses.

§ 1.482–1 Determination of the taxable income of a controlled taxpayer.

(a) *Definitions.* When used in this section—

(1) The term "organization" includes any organization of any kind, whether it be a sole proprietorship, a partnership, a trust, an estate, an association, or a corporation (as each is defined or understood in the Internal Revenue Code or the regulations thereunder), irrespective of the place where organized, where operated, or where its trade or business is conducted, and regardless of whether domestic or foreign, whether exempt, whether affiliated, or whether a party to a consolidated return.

(2) The term "trade" or "business" includes any trade or business activity of any kind, regardless of whether or where organized, whether owned individually or otherwise, and regardless of the place where carried on.

(3) The term "controlled" includes any kind of control, direct or indirect, whether legally enforceable, and however exercisable or exercised. It is the reality of the control which is decisive, not its form or the mode of its exercise. A presumption of control arises if income or deductions have been arbitrarily shifted.

(4) The term "controlled taxpayer" means any one of two or more organizations, trades, or businesses owned or controlled directly or indirectly by the same interests.

(5) The terms "group" and "group of controlled taxpayers" mean the organizations, trades, or businesses owned or controlled by the same interests.

(6) The term "true taxable income" means, in the case of a controlled taxpayer, the taxable income (or, as the case may be, any item or element affecting taxable income) which would have resulted to the controlled taxpayer, had it in the conduct of its affairs (or, as the case may be, in the particular contract, transaction, arrangement, or other act) dealt with the other member or members of the group at arm's length. It does not mean the income, the deductions, the credits, the allowances, or the item or element of income, deductions, credits, or allowances, resulting to the controlled taxpayer by reason of the particular contract, transaction, or arrangement, the controlled taxpayer, or the interests controlling it, chose to make (even though such contract, transaction, or arrangement be legally binding upon the parties thereto).

(b) *Scope and purpose.* (1) The purpose of section 482 is to place a controlled taxpayer on a tax parity with an uncontrolled taxpayer, by determining, according to the standard of an uncontrolled taxpayer, the true taxable income from the property and business of a controlled taxpayer. The interests controlling a group of controlled taxpayers are assumed to have complete power to cause each controlled taxpayer so to conduct its affairs that its transactions and accounting records truly reflect the taxable income from the property and business of each of the controlled taxpayers. If, however, this has not been done, and the taxable incomes are thereby understated, the district director shall intervene, and, by making such distributions, apportionments, or allocations as he may deem necessary of gross income, deductions, credits, or allowances, or of any item or element affecting taxable income, between or among the controlled taxpayers constituting the group, shall determine the true taxable income of each controlled taxpayer. The standard to be applied in every case is that of an uncontrolled taxpayer dealing at arm's length with another uncontrolled taxpayer.

(2) Section 482 and this section apply to the case of any controlled taxpayer, whether such taxpayer makes a separate or a consolidated return. If a controlled taxpayer makes a separate return, the determination is of its true separate taxable income. If a controlled taxpayer is a party to a consolidated return, the true consolidated taxable income of the affiliated group and the true separate taxable income of the controlled taxpayer are determined consistently with the principles of a consolidated return.

(3) Section 482 grants no right to a controlled taxpayer to apply its provisions at will, nor does it grant any right to compel the district director to apply such provisions. It is not intended (except in the case of the computation of consolidated taxable income under a consolidated return) to effect in any case such a distribution, apportionment, or allocation of gross income, deductions, credits, or allowances, or any item of gross income, deductions, credits, or allowances, as would produce a result equivalent to a computation of consolidated taxable income under subchapter A, chapter 6 of the Code.

(c) *Application.* Transactions between one controlled taxpayer and another will be subjected to special scrutiny to ascertain whether the common control is being used to reduce, avoid, or escape taxes. In determining the true taxable income of a controlled taxpayer, the district director is not restricted to the case of improper accounting, to the case of a fraudulent, colorable, or sham transaction, or to the case of a device designed to reduce or avoid tax by shifting or distorting income, deductions, credits, or allowances. The authority to determine true taxable income extends to any case in which either by inadvertence or design the taxable income, in whole or in part, of a controlled taxpayer, is other than it would have been had the taxpayer in the conduct of his affairs been an uncontrolled taxpayer dealing at arm's length with another uncontrolled taxpayer.

[26 CFR (1954) Part 25]

ESTATE AND GIFT TAXES

Notice of Proposed Rule Making

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such case, a public hearing will be held and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

In order to conform the Gift Tax Regulations (26 CFR Part 25) to sections 23(f), 30(d), 43(b), 68, and 102(b) of the Technical Amendments Act of 1958 (72 Stat. 1623, 1631, 1641, 1659, 1674) and to section 4(d) of Public Law 86–779 (74 Stat. 1000), and in order to make a correction of a typographical error in paragraph (f)(4) of § 25.2523(e)–1 such regulations are amended as follows:

PARAGRAPH 1. Paragraph (a) of § 2501 is amended to read as follows:

§ 25.01 Introduction.

(a) *In general.* (1) The regulations in this part are designated "Gift Tax Regulations." These regulations pertain to (i) the gift tax imposed by chapter 12 of subtitle B of the Internal Revenue Code on the transfer of property by gift by individuals in the calendar year 1955 and subsequent calendar years, and (ii) certain related administrative provisions of subtitle F of the Code. It should be noted that the application of some of the provisions of these regulations may be affected by the provisions of an applicable gift tax convention with a foreign country. Unless otherwise indicated, references in these regulations to the "Internal Revenue Code" or the "Code" are references to the Internal Revenue Code of 1954, as amended, and references to a section or other provision of law are references to a section or other provision of the Internal Revenue Code of 1954, as amended. The Gift Tax Regulations are applicable to the transfer of property by gift by individuals in the calendar year 1955 and subsequent calendar years, and supersede the regulations contained in Part 86, Subchapter B, Chapter I, Title 26, Code of Federal Regulations (1939) (Regulations 108, Gift Tax), as prescribed and made applicable to the Internal Revenue Code of 1954 by Treasury Decision 6091, signed August 16, 1954 (19 F.R. 5167, Aug. 17, 1954).

(2) Section 2501(b) makes the provisions of chapter 12 of the Code apply in the case of gifts made after September 2, 1958, by certain citizens of the United States who were residents of a possession thereof at the time the gifts were made. Section 2501(c) makes the provisions of chapter 12 apply in the case of gifts made after September 14, 1960, by certain other citizens of the United States who were residents of a possession thereof at the time the gifts were made. See paragraphs (c) and (d) of § 25.2501–1. Except as otherwise provided in paragraphs (c) and (d) of § 25.2501–1, the provisions of these regulations do not apply to the making of gifts by such citizens.

PAR. 2. Section 25.2501 is amended to read as follows:

§ 25.2501 Statutory provisions; imposition of tax.

SEC. 2501. *Imposition of tax.*—(a) *General rule.* For the calendar year 1955 and each calendar year thereafter a tax, computed as provided in section 2502, is hereby imposed on the transfer of property by gift during such calendar year by any individual, resident or nonresident, except transfers of intangible property by a nonresident not a citizen of the United States and who was not engaged in business in the United States during such calendar year.

(b) *Certain residents of possessions considered citizens of the United States.* A donor who is a citizen of the United States and a resident of a possession thereof shall, for purposes of the tax imposed by this chapter, be considered a "citizen" of the United States within the meaning of that term wherever used in this title unless he acquired his United States citizenship solely by reason of (1) his being a citizen of such possession of the United States, or (2) his birth or residence within such possession of the United States.

(c) *Certain residents of possessions considered nonresidents not citizens of the United States.* A donor who is a citizen of the United States and a resident of a possession thereof shall, for purposes of the tax imposed by this chapter, be considered a "nonresident not a citizen of the United States" within the meaning of that term wherever used in this title, but only if such donor acquired his United States citizenship solely by reason of (1) his being a citizen of such possession of the United States, or (2) his birth or residence within such possession of the United States.

(d) *Cross references.* (1) For increase in basis of property acquired by gift for gift tax paid, see section 1015(d).

(2) For exclusion of transfers of property outside the United States by a nonresident who is not a citizen of the United States, see section 2511(a).

[Sec. 2501 as amended by secs. 43(b) and 102(b), Technical Amendments Act 1958 (72 Stat. 1641, 1674) and as amended by sec. 4 (d), Act of Sept. 14, 1960, Pub. Law 86–779 (74 Stat. 1000)]

PAR. 3. Section 25.2501–1 is amended by striking paragraph (b) and inserting in lieu thereof the following paragraphs:

§ 25.2501–1 Imposition of tax.

* * * * *

(b) *Resident.* A resident is an individual who has his domicile in the United States at the time of the gift. For this purpose the United States includes the States and the District of Columbia. The term also includes the Territories of Alaska and Hawaii prior to admission as a State. See section 7701(a)(9). All other individuals are nonresidents. A person acquires a domicile in a place by living there, for even a brief period of time, with no definite present intention of moving therefrom. Residence without the requisite intention to remain indefinitely will not constitute domicile, nor will intention to change domicile effect such a change unless accompanied by actual removal.

(c) *Certain residents of possessions considered citizens of the United States.* As used in this part, the term "citizen of the United States" includes a person who makes a gift after September 2, 1958 and who, at the time of making the gift, was domiciled in a possession of the United States and was a United States citizen, and who did not acquire his United States citizenship solely by reason of his being a citizen of such possession or by reason of his birth or residence within such possession. The gift of such a person is, therefore, subject to the tax imposed by section 2501 in the same manner in which a gift made by a resident of the United States is subject to the tax. See paragraph (a) of § 25.01 and paragraph (d) of this section for further information relating to the application of the Federal gift tax to gifts made by persons who were residents of possessions of the United States. The application of this paragraph may be illustrated by the following example and the examples set forth in paragraph (d) of this section:

Example. A, a citizen of the United States by reason of his birth in the United States at San Francisco, established residence in Puerto Rico and acquired Puerto Rican citizenship. A makes a gift of stock of a Spanish corporation on September 4, 1958, while a citizen and domiciliary of Puerto Rico. A's gift is, by reason of the provisions of section 2501(b) subject to the tax imposed by section 2501 inasmuch as his United States citizenship is based on birth in the United States and is not based solely on being a citizen of a possession or solely on birth or residence in a possession.

(d) *Certain residents of possessions considered nonresidents not citizens of the United States.* As used in this part, the term "nonresident not a citizen of the United States" includes a person who makes a gift after September 14, 1960, and who at the time of making the gift, was domiciled in a possession of the United States and was a United States citizen, and who acquired his United States citizenship solely by reason of his being a citizen of such possession or by reason of his birth or residence within such possession. The gift of such a person is, therefore, subject to the tax imposed by section 2501 in the same manner in which a gift is subject to the tax when made by a donor who is a "nonres-

ident not a citizen of the United States." See paragraph (a) of § 25.01 and paragraph (c) of this section for further information relating to the application of the Federal gift tax to gifts made by persons who were residents of possessions of the United States. The application of this paragraph may be illustrated by the following examples and the example set forth in paragraph (c) of this section. In each of the following examples the person who makes the gift is deemed a "nonresident not a citizen of the United States" and his gift is subject to the tax imposed by section 2501 in the same manner in which a gift is subject to the tax when made by a donor who is a nonresident not a citizen of the United States, since he made the gift after September 14, 1960, but would not have been so deemed and subject to such tax if the person who made the gift had made it on or before September 14, 1960.

Example (1). C, who acquired his United States citizenship under section 5 of the Act of March 2, 1917 (39 Stat. 953), by reason of being a citizen of Puerto Rico, while domiciled in Puerto Rico makes a gift on October 1, 1960, of real estate located in New York. C is considered to have acquired his United States citizenship solely by reason of his being a citizen of Puerto Rico.

Example (2). E, whose parents were United States citizens by reason of their birth in Boston, was born in the Virgin Islands on March 1, 1927. On September 30, 1960, while domiciled in the Virgin Islands, he made a gift of tangible personal property situated in Kansas. E is considered to have acquired his United States citizenship solely by reason of his birth in the Virgin Islands (section 306 of the Immigration and Nationality Act (66 Stat. 237, 8 U.S.C. 1406)).

Example (3). N, who acquired United States citizenship by reason of being a native of the Virgin Islands and a resident thereof on June 28, 1932 (section 306 of the Immigration and Nationality Act (66 Stat. 237, 8 U.S.C. 1406)), made a gift on October 1, 1960, at which time he was domiciled in the Virgin Islands, of tangible personal property situated in Wisconsin. N is considered to have acquired his United States citizenship solely by reason of his birth or residence in the Virgin Islands.

Example (4). P, a former Danish citizen, who on January 17, 1917, resided in the Virgin Islands, made the declaration to preserve his Danish citizenship required by Article 6 of the treaty entered into on August 4, 1916, between the United States and Denmark. Subsequently P acquired United States citizenship when he renounced such declaration before a court of record (section 306 of the Immigration and Nationality Act (66 Stat. 237, 8 U.S.C. 1406)). P, while domiciled in the Virgin Islands, made a gift on October 1, 1960, of tangible personal property situated in California. P is considered to have acquired his United States citizenship solely by reason of his birth or residence in the Virgin Islands.

Example (5). R, a former French citizen, acquired his United States citizenship through naturalization proceedings in a court located in the Virgin Islands after having qualified for citizenship by residing in the Virgin Islands for 5 years. R, while domiciled in the Virgin Islands, made a gift of tangible personal property situated in Hawaii on October 1, 1960. R is considered to have acquired his United States citizenship solely by reason of his birth or residence within the Virgin Islands.

PAR. 4. Paragraph (b) of § 25.2511–1 is amended to read as follows:

§ 25.2511–1 Transfers in general.

* * * * *

(b) In the case of a nonresident not a citizen who was not engaged in business in the United States (see § 25.2501–1) during the calendar year, the tax is imposed only if the gift consisted of real estate or tangible personal property situated within the United States at the time of transfer. See §§ 25.2501–1 and 25.2511–3.

PAR. 5. Section 25.2511–3 is amended to read as follows:

§ 25.2511–3 Transfers by nonresidents not citizens.

(a) *In general.* Sections 2511 and 2501 contain provisions relating to the taxation of transfers by a donor who is a nonresident not a citizen of the United States. (See paragraph (b) of § 25.2501–1 for definition of the term "resident".) As combined these rules are—

(1) If the nonresident not a citizen of the United States was not engaged in business in the United States during the calendar year in which the gift was made, the tax applies only to the transfer of real property and tangible personal property situated in the United States.

(2) If the nonresident not a citizen of the United States was engaged in business in the United States during the calendar year in which the gift was made, the tax applies to the transfer of all property (whether real or personal, tangible or intangible) situated in the United States.

(b) *Situs of property.* (1) Real property, tangible personal property, and, except as otherwise provided in subparagraph (2) of this paragraph (relating to shares of stock), the written evidence of intangible personal property which is treated as being the property itself are within the United States if physically situated therein. For example, a bond for the payment of money is not within the United States unless physically situated therein. Intangible personal property the written evidence of which is not treated as being the property itself constitutes property within the United States if consisting of a property right issuing from or enforceable against a resident of the United States or a domestic corporation (public or private) irrespective of where such written evidence is physically located.

(2) Shares of stock owned and held by a nonresident not a citizen of the United States constitute property within the United States if issued by a domestic corporation, irrespective of where the certificates are physically located. However, since a share of stock is intangible property, the transfer by gift by a nonresident not a citizen of the United States of a share of stock issued by a domestic corporation would, under the provisions of paragraph (a) of this section, be subject to the tax only if the donor was engaged in business in the United States during the calendar year in which the gift was made.

(3) Shares of stock owned and held by a nonresident not a citizen of the United States do not constitute property within the United States if issued by a corporation which is not a domestic corporation, irrespective of where the certificates are physically located. Therefore, the tax will not under any circumstances apply to the transfer of a share of such stock by a nonresident not a citizen of the United States.

PAR. 6. Section 25.2512–6 is amended by adding at the end thereof the following additional example:

§ 25.2512–6 Valuation of certain life insurance and annuity contracts.

* * * * *

Example (5). A donor purchases from a life insurance company for $15,198 a joint and survivor annuity contract which provides for the payment of $60 a month to the donor during his lifetime, and then to his sister for such time as she may survive him. The premium which would have been charged by the company for an annuity of $60 monthly payable during the life of the donor alone is $10,690. The value of the gift is $4,508 ($15,198 less $10,690).

PAR. 7. There is inserted immediately after § 25.2516–2 the following new sections:

§ 25.2517 Statutory provisions; certain annuities under qualified plans.

SEC. 2517. *Certain annuities under qualified plans*—(a) *General rule.* The exercise or nonexercise by an employee of an election or option whereby an annuity or other payment will become payable to any beneficiary at or after the employee's death shall not be considered a transfer for purposes of this chapter if the option or election and annuity or other payment is provided for under—

(1) An employees' trust (or under a contract purchased by an employees' trust) forming part of a pension, stock bonus, or profit-sharing plan which, at the time of such exercise or nonexercise, or at the time of termination of the plan if earlier, met the requirements of section 401(a);

(2) A retirement annuity contract purchased by an employer (and not by an employees' trust) pursuant to a plan which, at the time of such exercise or nonexercise, or at the time of termination of the plan if earlier, met the requirements of section 401(a) (3), (4), (5), and (6); or

(3) A retirement annuity contract purchased for an employee by an employer which is an organization referred to in section 503(b) (1), (2), or (3), and which is exempt from tax under section 501(a).

(b) *Transfers attributable to employee contributions.* If the annuity or other payment referred to in subsection (a) is attributable to any extent to payments or contributions made by the employee, then subsection (a) shall not apply to that part of the value of such annuity or other payment which bears the same proportion to the total value of the annuity or other payment as the total payments or contributions made by the employee bear to the total payments or contributions made. For purposes of the preceding sentence, payments or contributions made by the employee's employer or former employer toward the purchase of an annuity contract described in subsection (a)(3) shall, to the extent not excludable from gross income under section 403(b), be considered to have been made by the employee.

(c) *Employee defined.* For purposes of this section, the term "employee" includes a former employee.

[Sec. 2517 as added by sec. 68 and as amended by sec. 23(f), Technical Amendments Act 1958 (72 Stat. 1659)]

§ 25.2517–1 Employees' annuities.

(a) *In general.* (1) Section 2517 provides an exception to the general rule of section 2511 by exempting from gift tax all or part of the value of certain annuities or other payments for the benefit of employees' surviving beneficiaries. Under the general rule in section 2511, where an employee has an unqualified right to an annuity but takes a lesser annuity with the provision that upon his death a survivor annuity or other payment will be paid to his designated beneficiary, the employee has made a gift to the beneficiary at the time he gives up his power to deprive the beneficiary of the survivor annuity or other payment. See especially § 25.2511–1(h)(10). The making of such a gift by the employee may be accomplished in three principal ways:

(i) By irrevocably electing to take the reduced annuity and designating the individual who is to receive the survivor annuity or other payment. In this case the gift is made at the time the election and designation are irrevocably made.

(ii) By permitting a prior revocable election of a reduced annuity and designation of beneficiary to become irrevocable through failure to revoke during the period during which revocation could be made. In this case the gift is made at the time the prior election and designation become irrevocable.

(iii) By permitting an option to expire under which the employee could, by exercising the option, have defeated the beneficiary's interest in the survivor annuity or other payment, and thereby regain for himself the right to a full annuity. In this case the gift is made at the time the employee permits the option to expire.

The value of the gift is the value, on the date of the gift, of the survivor annuity or other payment, computed in accordance with the principles set forth in §§ 25.2512–1, 25.2512–5, and 25.2512–6. It should be noted that such a gift is a gift of a future interest within the contemplation of § 25.2503–3 and no part thereof may be excluded in determining the total amount of gifts made during the calendar year.

(2) Section 2517 exempts from gift tax all or a portion of the value of the annuities or other payments described in subparagraph (1) of this paragraph which otherwise would be considered as gifts by employees to their beneficiaries. See paragraph (b) of this section for a complete description of the annuities and other payments to which the exemption applies. Also see paragraph (c) of this section for the portion of the annuity or other payment which is to be excluded in those cases where the annuity or other payment is attributable to payments or contributions made by both the employee and the employer. In the case of an annuity or other payment payable under an employees' trust or under a retirement annuity contract described in paragraph (b)(1) (i) or (ii) of this section, the exemption applies if the gift would otherwise be considered as having been made on or after January 1, 1955. In the case of an annuity or other payment payable under a retirement annuity contract described in paragraph (b)(1)(iii) of this section, the exclusion applies if the gift would otherwise be considered as having been made on or after January 1, 1958.

(b) *Annuities or other payments to which section 2517 applies.* (1) Except to the extent provided otherwise in paragraph (c) of this section, section 2517 exempts from transfers subject to the gift tax the value of an annuity or other payment which, upon the death of an employee, will become payable to the employee's beneficiary under:

(i) An employees' trust (or under a contract purchased by an employees' trust) forming part of a pension, stock bonus or profit-sharing plan which, at the time of such exercise or nonexercise, or at the time of termination of the plan if earlier, met the requirements of section 401(a);

(ii) A retirement annuity contract purchased by an employer (and not by an employees' trust) pursuant to a plan which, at the time of such exercise or non-exercise, or at the time of termination of the plan if earlier, met the requirements of section 401(a) (3), (4), (5), and (6); or

(iii) A retirement annuity contract purchased for an employee by an employer which is an organization referred to in section 503(b) (1), (2), or (3), and which is exempt from tax under section 501(a).

(2) The term "annuity or other payment" as used in this section, has reference to one or more payments extending over any period of time. The payments may be equal or unequal, conditional or unconditional, periodic or sporadic. For purposes of this section, the term "employee" includes a former employee. The application of this paragraph may be illustrated by the following example:

Example. Pursuant to a pension plan, the employer made contributions to a trust which was to provide each employee, upon his retirement at age 60, with an annuity for life, and which contained a provision for designating either before or after retirement, a surviving beneficiary. No contributions under the plan were made by the employee. At the time of designating the surviving beneficiary (January 20, 1955), the pension trust formed part of a plan meeting the requirements of section 401(a). Assume that an employee made an irrevocable election whereby he would receive a lesser annuity, and after his death, annuity payments would be continued to his wife. Since the wife was designated annuitant under a qualified pension plan, no part of the value of such annuity is includible in the total amount of gifts for the calendar year by reason of the provisions of section 2517.

(c) *Amount excludable from gift.* (1) If an annuity or other payment described in paragraph (a)(1) of this section is attributable to payments or contributions made by both the employee and the employer, the exclusion is limited to that proportion of the value on the date of the gift (see paragraph (a)(1) of this section) of the annuity or other payment which the employer's contribution (or a contribution made on the employer's behalf) to the plan on the employee's account bears to the total contributions to the plan on the employee's account. In applying the ratio set forth in the preceding sentence, payments or contributions made by the employer toward the purchase of an annuity contract described in paragraph (b)(1)(iii) of this section are considered to be contributions made by the employee (and not by the employer) to the extent that such contributions are, or were, not excludable from the employee's gross income under section 403(b). The application of this subparagraph may be illustrated by the following examples:

Example (1). Pursuant to a pension plan, contributions were made by employer and employee to a trust which was to provide the employee, upon his retirement at age 60, with an annuity for life, and which contained a provision for designating either before or after retirement, a surviving beneficiary upon the employee's death. Assume that the employee made an irrevocable election on January 20, 1955, whereby he would receive a lesser annuity and that after his death annuity payments would be continued to his wife. At the time of making the election, the pension trust formed part of a plan meeting the requirements of section 401(a); contributions to the plan on the employee's account amounted to $20,000 of which $15,000 was contributed by the employer and $5,000 was contributed by the employee; and the value of the survivor annuity was $8,000. Since the wife's annuity was receivable under a qualified pension plan, that part of the value of such annuity which is attributable to the employer's contributions $\left(\frac{\$15,000}{\$20,000} \times \$8,000 \text{ or } \$6,000\right)$ is excludable from gifts by reason of the provisions of section 2517(b).

Example (2). An employer purchased a retirement annuity contract for an employee which was to provide the employee, upon his retirement at age 60, with an annuity for life and which in accordance with the employee's irrevocable election, under which he agreed to accept reduced annuity payments, provided that annuity payments would be continued to his wife after his death. At the time of making the election (January 20, 1955), the plan under which the retirement annuity contract was purchased met the requirements of section 401(a) (3), (4), (5), and (6). The retirement annuity contract was purchased from a life insurance company at a cost of $15,198 of which $3,039.60 was contributed by the employee. The premium which would have been charged by the life insurance company for the reduced retirement annuity payments for the life of the employee alone is $10,690. The value, at the time of the election, of the survivor annuity which will become payable to the wife if she survives the employee is $4,508 ($15,198−$10,690). Of such amount, only $901.60 is includible in the employee's gifts, computed as follows:

$$\frac{\$3,039.60 \text{ (employee's contribution)}}{\$15,198.00 \text{ (total contribution)}} \times \$4,508 = \$901.60.$$

Example (3). An employer purchased a retirement annuity contract for an employee which was to provide the employee, upon his retirement at age 60, with an annuity for life and which contained a provision for designating a surviving beneficiary. Assume that the employee made an irrevocable election whereby he would receive a lesser annuity, and after his death, annuity payments would be continued to his wife. At the time of making the election (January 20, 1959), the employer was an organization referred to

in section 503(b) (1), (2), or (3) and exempt from tax under section 501(a). As of the date of the election the total contributions toward the cost of the annuity, all by the employer, amounted to $25,000. Of this amount $6,000 was includible in the employee's income under the requirements of section 403(b) and is, therefore, considered as the employee's contributions for the purpose of applying section 2517(b).

(2) In certain cases, the employer's contribution (or a contribution made on his behalf) to a plan on the employee's account and thus the total contributions to the plan on the employee's account cannot be readily ascertained. In order to apply the ratio stated in subparagraph (1) of this paragraph in such a case, the method outlined in the following two sentences must be used unless a more precise method is presented. In such a case, the total contributions to the plan on the employee's account is the value of the annuities or other payments payable to the employee and his beneficiary computed in accordance with the rules set forth in § 25.2512-5. By subtracting from such value the amount of the employee's contribution to the plan, the amount of the employer's contribution to the plan on the employee's account may be obtained. The application of this subparagraph may be illustrated by the following example:

Example. Pursuant to a pension plan, the employer and the employee contributed to a trust which was to provide the employee, upon his retirement at age 60, with an annuity for life, and which contained a provision for designating either before or after retirement, a surviving beneficiary to receive an annuity upon the employee's death. At the time of the employee's retirement on January 20, 1955, he made an irrevocable election designating his wife as beneficiary. Also, at that time, the pension trust formed part of a plan meeting the requirements of section 401(a). Assume the following: (i) That the employer's contributions to the fund were not credited to the accounts of individual employees; (ii) that the value of the employee's annuity and his wife's annuity, computed as of the time of the employee's retirement, was $40,000; (iii) that the employee contributed $10,000 to the plan; and (iv) that the value at the time of the employee's retirement of the wife's annuity was $16,000. On the basis of these facts, the total contributions to the fund on the employee's account are presumed to be $40,000 and the employer's contribution to the plan on the employee's account is presumed to be $30,000 ($40,000 less $10,000). Since the election and the wife's annuity were provided for under a qualified pension plan, that part of the value of such annuity which is attributable to the employer's contributions $\left(\frac{\$30,000}{\$40,000} \times \$16,000, \text{ or } \$12,000\right)$ is excludable in determining the total amount of gifts for the calendar year by reason of the provisions of section 2517. Since the wife's right to a deferred annuity is a gift of a future interest the $3,000 exclusion provided in section 2503 is not allowable.

PAR. 8. Section 25.2522(c) is amended to read as follows:

§ 25.2522(c) Statutory provisions; charitable and similar gifts; disallowance of deductions in certain cases.

SEC. 2522. *Charitable and similar gifts.* • • •

(c) *Disallowance of deductions in certain cases.* For disallowance of certain charitable, etc., deductions otherwise allowable under this section, see sections 503 and 681. [Sec. 2522(c) as amended by sec. 30(d), Technical Amendments Act 1958 (72 Stat. 1681)]

PAR. 9. Subparagraph (4) of § 25.2523(e)-1(f) is revised to read as follows:

§ 25.2523(e)-1 Marital deduction; life estate with power of appointment in donee spouse.

• • • • •

(f) *Right to income.* • • •

(4) Provisions granting administrative powers to the trustees will not have the effect of disqualifying an interest transferred in trust unless the grant of powers evidences the intention to deprive the donee spouse of the beneficial enjoyment required by the statute. Such an intention will not be considered to exist if the entire terms of the instrument are such that the local courts will impose reasonable limitations upon the exercise of the powers. Among the powers which if subject to reasonable limitations will not disqualify the interest transferred in trust are the power to determine the allocation or apportionment of receipts and disbursements between income and corpus, the power to apply the income or corpus for the benefit of the spouse, and the power to retain the assets transferred to the trust. For example, a power to retain trust assets which consist substantially of unproductive property will not disqualify the interest if the applicable rules for the administration of the trust require, or permit the spouse to require, that the trustee either make the property productive or convert it within a reasonable time. Nor will such a power disqualify the interest if the applicable rules for administration of the trust require the trustee to use the degree of judgment and care in the exercise of the power which a prudent man would use if he were owner of the trust assets. Further, a power to retain a residence for the spouse or other property for the personal use of the spouse will not disqualify the interest transferred in trust.

[26 CFR (1954) Part 170]

MISCELLANEOUS REGULATIONS RELATING TO LIQUORS

Redemption of Stamps in Puerto Rico

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Director within the 30-day period. In such a case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

The purpose of this Treasury decision is to provide regulations for the redemption, in Puerto Rico, of certain stamps which, by reason of the amendment of 26 CFR Part 250, are no longer required. In order to accomplish this, the regulations in 26 CFR Part 170 are amended by adding, immediately following § 170.618, a new Subpart V, as follows:

Subpart V—Redemption of Stamps in Puerto Rico

Preamble. The regulations in this part shall not affect any act done or any liability or right accruing or accrued, or any suit or proceeding had or commenced before the effective date of the regulations in this subpart.

Sec.
170.631 Scope of subpart.
170.632 Meaning of terms.

REDEMPTION OF STAMPS IN PUERTO RICO

170.633 Stamps eligible for redemption.
170.634 Claim, Form 843.
170.635 Time for filing claim.
170.636 Authorized claimant.

AUTHORITY: §§ 170.631 to 170.636 issued under sec. 7805, I.R.C., 68A Stat. 917; 26 U.S.C. 7805. Provisions of section 6805 I.R.C., 68A Stat. 830, 26 U.S.C. 6805, interpreted.

§ 170.631 Scope of subpart.

The regulations in this subpart provide for the allowance or redemption, by refund of monies paid therefor, of unused special Puerto Rican rectification stamps and of unused rectification tax sheet stamps procured by bottlers in Puerto Rico.

§ 170.632 Meaning of terms.

When used in this subpart, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meaning ascribed in this section. Words in the plural shall include the singular, and vice versa, and words importing the masculine gender shall include the feminine.

Chief, Collection Branch. The principal revenue officer in Puerto Rico charged with the duty of collecting internal revenue taxes, in Puerto Rico, under the jurisdiction of the Director of the Office of International Operations, Internal Revenue Service, Treasury Department, Washington, D.C.

I.R.C. The Internal Revenue Code of 1954, as amended.

Person. An individual, trust, estate, partnership, association, company, or corporation.

U.S.C. The United States Code.

REDEMPTION OF STAMPS IN PUERTO RICO

§ 170.633 Stamps eligible for redemption.

Subject to the provisions of section 6805, I.R.C., and of this subpart, unused Puerto Rican special rectification stamps, or unused rectification tax sheet stamps, may be redeemed if claim is filed within 3 years of the date of purchase of the stamps.

§ 170.634 Claim, Form 843.

Redemption of unused stamps under this subpart shall be allowed by the Chief, Collection Branch, pursuant to a claim on Form 843, for refund of the amount paid for unused stamps and shall be made only to the person or his legal representative, who purchased such stamps from the Government. The claim shall be filed with the Chief, Collection Branch. Separate claims shall be filed for each of the premises for which the stamps were procured. The stamps for which claim is made shall be attached to the Form 843, and the class, number, and denomination thereof shall be listed in the claim or in an attachment thereto. If the claim includes stamps which had been destroyed, evidence satisfactory to the Chief, Collection Branch, establishing such destruction must accompany the claim.

§ 170.635 Time for filing claim.

No claim for the redemption of stamps eligible for redemption under § 170.633 shall be allowed unless presented within 3 years after the purchase of such stamps from the Government.

§ 170.636 Authorized claimant.

Claims should be made in the name of the purchaser of the stamps, except that in the case where such person is deceased the claim should be made in the name of the executor or administrator. Certified copies of the letters of administration or letters testamentary, or other similar evidence, should be attached to the claim to show that the claimant is the executor, etc. If the claim is signed by an attorney-in-fact for an individual, partnership, association, or corporation, or by one of the members of a partnership or association, or, in the case of a corporation, by an officer or other person, the authority for such signing must be evidenced by a duly authenticated copy of the power of attorney conferring authority upon the person signing the document to execute the same or, in the case of a corporation, by properly certified copies of extracts of the minutes of meetings of the board of directors authorizing certain officers or other persons to sign for the corporation: *Provided*, That such evidence of authority to sign need not be submitted with the claim where such document has previously been filed by the claimant with the Chief, Collection Branch. Powers of attorney shall be executed on Form 1534.

FEDERAL AVIATION AGENCY

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-NY-125]

FEDERAL AIRWAYS, CONTROL AREAS AND REPORTING POINTS

Revocation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Red Federal airway No. 19 extends from Traverse City, Mich., to Flint, Mich., and Brooke, Va., to Cape Charles, Va.

In an amendment to the Regulations of the Administrator, published in the FEDERAL REGISTER by the Federal Aviation Agency on November 29, 1960 (25 F.R. 12173), as Airspace Docket No. 60-KC-65 it was stated that the segment of Red 19 from Traverse City, Mich., to Flint, Mich., and its associated control areas and reporting points would be revoked effective February 9, 1961.

The Federal Aviation Agency is now considering revoking the remaining segment of Red 19 from Brooke, Va., to Cape Charles, Va. It is the policy of this Agency to revoke L/MF airways wherever adequate VOR airways are available, and it appears that the route from Brooke to Cape Charles is adequately served by VOR Federal airway No. 286. Therefore, it appears that retention of this airway is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Red 19, and its associated control areas from Brooke to Cape Charles. Adoption of this proposal would not necessarily result in discontinuance of the low frequency navigational aids associated with this airway. Any proposals to discontinue one or more of these aids would be processed in accordance with current Agency procedures. Concurrently with this action, § 601.4219, relating to reporting points associated with Red 19, would also be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 5, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11493; Filed, Dec. 9, 1960; 8:46 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-NY-118]

FEDERAL AIRWAYS, CONTROL AREAS AND REPORTING POINTS

Revocation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Red Federal airway No. 33 extends from Norfolk, Va., to Richmond, Va. The Federal Aviation Agency is considering revoking this airway. It is the policy of this Agency to revoke L/MF airways wherever adequate VOR airways are available, and it appears that the route between the Norfolk and Richmond terminal areas presently served by Red 33 is adequately served by a combination of VOR Federal airways No. 260, No. 156 and the application of radar air traffic control procedures by the Norfolk Air Route Traffic Control Center. In addition, the Federal Aviation Agency IFR peak-day airway traffic survey for the period July 1, 1959, through June 30, 1960, shows a maximum of nine aircraft movements between any two reporting points on this airway. Therefore, it appears that the retention of this airway is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Red 33, its associated control areas and reporting points. Adoption of this proposal would not necessarily result in discontinuance of the low frequency navigational aids associated with this airway. Any proposals to discontinue one or more of these aids would be processed in accordance with current Agency procedures. Concurrently with this action, § 601.4233, relating to designated reporting points on Red 33 would be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after pub-

lication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 5, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 60-11492; Filed, Dec. 9, 1960; 8:46 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-NY-115]

FEDERAL AIRWAYS, CONTROL AREAS AND REPORTING POINTS

Revocation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Red Federal airway No. 73 extends from the intersection of the west course of the New Castle, Del., radio range and the west course of the Philadelphia, Pa., radio range via the New Castle radio range to the intersection of the east course of the New Castle radio range and the northeast course of the Millville, N.J., radio range. The Federal Aviation Agency is considering revoking this airway. A Federal Aviation Agency IFR peak-day airway traffic survey for the period July 1, 1959, through June 30, 1960, showed one aircraft movement on the segment from the Newfield Intersection to the Elmer Intersection and no movements on the remainder of the airway. Therefore, it appears that the retention of this airway is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Red 73 and its associated control areas. Adoption of this proposal would not necessarily result in discontinuance of the low frequency navigational aids associated with this airway. Any proposals to discontinue one or more of these aids would be processed in accordance with current Agency procedures. Concurrently with this action, § 601.4273 relating to reporting points associated with Red 73 would also be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on December 5, 1960.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1032]

CARROTS GROWN IN SOUTH TEXAS

Notice of Proposed Expenses and Rate of Assessment

Notice is hereby given that the Secretary of Agriculture is considering the approval of the expenses and rate of assessment hereinafter set forth, which were recommended by the South Texas Carrot Committee, established pursuant to Marketing Agreement No. 142 and Marketing Order No. 132 (7 CFR Part 1032; 25 F.R. 9523).

Said marketing order regulates the handling of carrots grown in designated counties of South Texas, and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

Consideration will be given to any data, views, or arguments pertaining thereto which are filed with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than 15 days following publication of this notice in the FEDERAL REGISTER.

§ 1032.201 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred by the South Texas Carrot Committee, established pursuant to Marketing Agreement No. 142, and Order No. 132, to enable such committee to perform its functions pursuant to the provisions of the aforesaid marketing agreement and order during the fiscal period October 5, 1960, through July 31, 1961, will amount to $50,000.

(b) The rate of assessment to be paid by each handler pursuant to Marketing Agreement No. 142 and Order No. 132 shall be one and one-fourth cents ($0.0125) per 50 pound sack (or crate) of carrots, or the equivalent quantity thereof packed in other containers, handled by him as the first handler thereof during said fiscal period.

(c) All other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 142 and Order No. 132 (7 CFR Part 1032; 25 F.R. 9523).

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: December 7, 1960.

FLOYD F. HEDLUND,
Deputy Director,
Fruit and Vegetable Division.

Commodity Stabilization Service

[7 CFR Part 812]

HAWAII AND PUERTO RICO

Sugar Requirements for 1961 and Quotas for the Three-Month Period Ending March 31, 1961

Notice is hereby given that the Secretary of Agriculture, pursuant to authority vested in him by the Sugar Act of 1948, as amended (61 Stat. 922, as amended), is considering the determination of sugar requirements for local consumption in Hawaii and Puerto Rico for the calendar year 1961 and the establishment of quotas for the three-month period ending March 31, 1961.

In accordance with the rule making requirements of the Administrative Procedure Act (60 Stat. 237) all persons who desire to submit written data, views or arguments for consideration in connection with the proposed regulation may file the same in duplicate with the Director of the Sugar Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D.C., within 10 days after publication of this notice in the FEDERAL REGISTER.

The proposed determination of sugar requirements for Hawaii and Puerto Rico for 1961 and quotas for the three-month period ending March 31, 1961, set forth in form and language appropriate for issuance, if adopted by the Secretary, is as follows:

Basis and purpose. The purpose of Sugar Regulation 812 is to determine pursuant to sections 201 and 203 of the Sugar Act of 1948, as amended (hereinafter referred to as the "act"), the amount of sugar needed to meet the requirements of consumers in Hawaii and in Puerto Rico and to establish quotas for local consumption in such areas. To the extent required by Sec. 201 of the act, this regulation establishes sugar requirements based on official estimates of the Department of Agriculture and on statistics published by other agencies of the government.

Since the act provides that the Secretary of Agriculture determine during December 1960 sugar requirements for local consumption in Hawaii and in Puerto Rico and establish local consumption quotas for the three-month period ending March 31, 1961, it is found to be impracticable and not in the public interest to comply with the 30-day effective date requirements of the Administrative Procedure Act, and these regulations shall be effective January 1, 1961.

§ 812.1 Sugar requirements and quota—Hawaii.

It is hereby determined, pursuant to section 203 of the act, that the amounts of sugar needed to meet the requirements of consumers in Hawaii for the calendar year 1961 is 45,000 short tons, raw value, and a quota of 11,250 short tons, raw value, is hereby established for Hawaii for local consumption for the three-month period ending March 31, 1961.

§ 812.2 Sugar requirements and quota—Puerto Rico.

It is hereby determined, pursuant to section 203 of the act, that the amount of sugar needed to meet the requirements of consumers in Puerto Rico for the calendar year 1961 is 120,000 short tons, raw value, and a quota of 30,000 short tons, raw value, is hereby established for Puerto Rico for local consumption for the three-month period ending March 31, 1961.

§ 812.3 Restrictions on marketing.

Pursuant to section 209 of the act, for the three-month period ending March 31, 1961, all persons are hereby prohibited from marketing, pursuant to Part 816 of this chapter (23 F.R. 1943), in Hawaii or in Puerto Rico, for consumption therein, any sugar or liquid sugar after the quota for the area for the three-month period ending March 31, 1961, has been filled. Pursuant to section 211(c) of the act, the quota for each area may be filled only with sugar produced from sugarcane grown in the respective area.

STATEMENT OF BASES AND CONSIDERATIONS

Pursuant to section 203 of the act, the provisions of section 201 of the act deemed applicable to the determination of the amounts of sugar needed to meet the requirements of consumers in Hawaii and in Puerto Rico relate to (1) the quantities of sugar distributed for local consumption in Hawaii and in Puerto Rico during the twelve-month period ended October 31, 1960, (2) deficiencies or surpluses in inventories of sugar, and (3) changes in consumption because of changes in population and demand conditions.

The quantities of sugar distributed for consumption in Hawaii and Puerto Rico, including that which was lost in refining after charge to the local quotas, during such twelve-month period were approximately 41,000 short tons of sugar, raw value, and 113,000 short tons of sugar, raw value, respectively.

The official estimate of the total population for Hawaii as of April 1, 1960, is 632,772 and for Puerto Rico 2,349,544. Compared to official estimates of 1959 population, this represents a minute increase for Puerto Rico and a small decline for Hawaii. No official estimate for either of these areas for 1961 is available.

In Hawaii industrial use accounts for a substantial portion of the total consumption of sugar and this demand varies enough to make it a significant factor in the total sugar requirements. Recent trends and year-to-year variations suggest the possibility that requirements may be considerably higher in 1961 than in the twelve months ended October 31, 1960, when distribution was approximately 41,000 short tons, raw value.

In Puerto Rico during the first ten months of 1960, local distribution plus refining losses totaled 92,998 short tons, raw value. If stocks of refiners in Puerto Rico on December 31, 1960, are the same as a year previous, the total quantity of sugar used to meet the local needs in 1960 may approximate 117,000 short tons, raw value. In view of such possible local consumption in 1960, and after making allowance for expected consumption increases in 1961 resulting from population increases, the total sugar needed to meet requirements for local consumption in Puerto Rico in 1961 may be approximately 120,000 short tons, raw value.

Circumstances prevailing in the utilization of quota for local consumption in Hawaii and Puerto Rico are such that no special problems arise nor are the objectives of the act jeopardized if the 1961 local quota is not completely filled. It is, therefore, desirable to establish the 1961 requirements and quotas sufficiently high initially so that later adjustments may be avoided.

In accordance with the above, the requirements for local consumption in Hawaii and Puerto Rico for 1961 have been determined to be 45,000 and 120,000 short tons, raw value, respectively. Pursuant to Public Law 86-592 approved July 6, 1960, the quotas for local consumption in Hawaii and Puerto Rico for the three-month period ending March 31, 1961, have been established at one-fourth of the determined local consumption requirements for 1961.

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153. Interprets or applies Secs. 201, 203, 209, 210, 412; 61 Stat. 923, as amended, 925, 928; 7 U.S.C. 1111, 1112, 1119, 1120; Sec. 1, Pub. Law 86-592)

Done at Washington, D.C., this 7th day of December 1960.

CLARENCE L. MILLER,
Acting Secretary.

[F.R. Doc. 60-11540; Filed, Dec. 9, 1960; 8:52 a.m.]

Notices

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[No. 41]

RIVERTON PROJECT, WYOMING

Annual Water Rental Charges

NOVEMBER 29, 1960.

1. *Water rental.* Irrigation water will be furnished upon a rental basis during the irrigation season of 1961 to the irrigable acreages within the lands described in Public Notice No. 28 for the North Pavillion area, and in Public Notice No. 30 for the North Portal Area.

2. *Charges and terms of payment.* A minimum water rental charge shall be payable for irrigable acreages within the lands described in Public Notices Nos. 28 and 30, whether water is used or not. Such minimum charge need not be paid in any year for any acreage which the Riverton Project Manager certifies to be temporarily nonirrigable during such year due to seepage, land subsidence, shallow or impermeable soils, or excessive amounts of salts. Payment of the minimum water rental charge will entitle the water user to two acre-feet of water per irrigable acre. The minimum charge shall be payable in advance, and no water will be furnished until such charge is paid in full. Charges for water furnished in excess of two acre-feet per irrigable acre shall be payable on January 1 for water furnished during the preceding year.

The minimum water rental charge for lands in the North Pavillion and North Portal Areas described in Public Notices Nos. 28 and 30 shall be $2.30 per irrigable acre. Water in addition to two acre-feet per irrigable acre, if available, shall be furnished at the rate of $2.00 per acre-foot, or such lower rate as may be determined by the Secretary on or about November 15 or the year in which the water is used.

3. *Water for other lands.* Irrigation water, when available, will also be furnished at the rates described in Paragraph 2, to other lands in the North Pavillion and North Portal Areas upon the filing each year of a temporary water rental application covering such other lands. The approval of a water rental application for these lands shall not be deemed to constitute an action leading to a continuing right to receive water in subsequent years. The application for water on other lands can be made at any time during the irrigation year. At the time of application, the water rental charge is due, and no water will be delivered until all charges have been paid in full.

4. *Discounts and penalties.* If payment of the minimum charge for 1961 is made on or before December 31, 1960, a discount of 5 percent of such charge will be allowed. If payment of the charge for additional water used in 1961 is made on or before December 31, 1961, a discount of 5 percent will be allowed. If payment of the minimum is not made by April 1, 1961, and if payment for additional water furnished to any lands is not made by April 1, 1962, there shall be added on the following day a penalty of one-half of one percent of the amount unpaid and the same penalty shall be added on the first day of each calendar month thereafter so long as such default shall continue, and no water will be delivered until all charges and penalties have been paid in full.

5. *Place of payment.* Payment of water rental charges shall be made at the Bureau of Reclamation office in Riverton, Wyoming, or mailed to the Bureau of Reclamation, Riverton, Wyoming.

6. *Public Notice.* This notice supersedes Public Notices Nos. 39 and 40 with respect to water furnished in 1960, and supplements subparagraphs 24(b) and 24(c) of Public Notice No. 28, and subparagraphs 25(a) and 25(b) of Public Notice No. 30, Riverton Project.

BRUCE JOHNSON,
Regional Director.

HUNTING OF CANADA GEESE IN ALEXANDER, JACKSON, UNION AND WILLIAMSON COUNTIES, ILLINOIS

Notice of Closing of Canada Goose Season

Pursuant to the regulations prescribed and published in the FEDERAL REGISTER of September 9, 1960 (25 F.R. 8717), which limit to 14,000 the number of Canada geese that may be killed in the counties of Alexander, Jackson, Union and Williamson, Illinois, it having been determined that on the basis of the daily kill which has occurred since the opening of the hunting season November 1, 1960, the permissive kill of 14,000 Canada geese will occur on or before 3:00 p.m., Monday, December 12, 1960, the hunting season on Canada geese will be closed effective at 3:00 p.m. December 12, 1960, and no Canada geese shall be killed in these four counties after 3:00 p.m.

DANIEL H. JANZEN,
Director, Bureau of Sport Fisheries and Wildlife.

Topaz Lake and Tower House Springs Wildlife Area Classification Agreements

DECEMBER 5, 1960.

On pages 8036 and 8037 of the FEDERAL REGISTER for August 19, 1960, there was published a notice of preliminary approval of the classification agreements opening to oil and gas leasing certain lands withdrawn for the Topaz Lake Public Fishing Area and the Tower House Springs Upland Game Management Area in accordance with the regulations 43 CFR 192.9 as amended January 8, 1958. Interested persons were given thirty days within which to submit written comments, suggestions, or objections to the classification agreements. No adverse comments having been received, the Topaz Lake and Tower House Springs classification agreements are hereby finally approved without change.

FRED A. SEATON,
Secretary of the Interior.

Agricultural Marketing Service

CANNED RIPE PITTED OLIVES

Notice of Purchase Program BMP 196a

In order to encourage the domestic consumption of olives by diverting them from the normal channels of trade and commerce in accordance with section 32, Public Law 320, 74th Congress, approved August 24, 1935, as amended, the Agricultural Marketing Service offers to purchase canned ripe pitted olives from 1960 crop olives grown in the United States, for subsequent use in nonprofit school lunch programs and other eligible outlets. Details and specification of the offer to purchase are contained in Canned Ripe Pitted Olives Announcement FV-292 issued by the Department. Purchases will depend upon the quantities and prices offered. Information concerning this purchase program may be obtained from Mr. W. Allmendinger, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, 2082 Center Street, Berkeley 4, California, or the Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington 25, D.C.

(Sec. 32, 49 Stat. 774, as amended, 7 U.S.C. 612c)

Dated: December 7, 1960.

FRESH PEACHES GROWN IN GEORGIA

Order Directing That a Referendum Be Conducted; Designation of Referendum Agents To Conduct Such Referendum; and Determination of Representative Period

Pursuant to the applicable provisions of Marketing Agreement No. 99, as amended, and Order No. 62, as amended (7 CFR Part 962), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674), it is hereby directed that a referendum be conducted among the growers who, during the calendar year 1960 (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged, in Georgia, in the production of peaches for market to determine whether such growers favor the termination of the said amended marketing agreement and order. M. F. Miller of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, is hereby designated as agent of the Secretary of Agriculture to perform the following functions in connection with the referendum:

(a) Conduct said referendum in the manner herein prescribed:

(1) By giving opportunity to each of the aforesaid growers to cast his ballot, in the manner herein authorized, relative to the aforesaid termination of the amended marketing agreement and order, on a copy of the appropriate ballot form. A cooperative association of such growers, bona fide engaged in marketing fresh peaches grown in Georgia or in rendering services for or advancing the interests of the growers of such peaches, may vote for the growers who are members of, stockholders in, or under contract with, such cooperative association (such vote to be cast on a copy of the appropriate ballot form), and the vote of such cooperative association shall be considered as the vote of such growers.

(2) By determining the time of commencement and termination of the period of the referendum and by giving public notice, as prescribed in (a)(3) hereof, (i) of the time during which the referendum will be conducted, (ii) that any ballot may be cast by mail, and (iii) that all ballots so cast must be addressed to the Fruit and Vegetable Division, Agricultural Marketing Service, P.O. Box 19, Lakeland, Florida, and the time prior to which such ballots must be postmarked.

(3) By giving public notice (i) by utilizing available agencies of public information (without advertising expense) including both press and radio facilities in the State of Georgia; (ii) by mailing a notice thereof (including a copy of the appropriate ballot form) to each such cooperative association and to each grower whose name and address are known; and (iii) by such other means as said referendum agent may deem advisable.

(4) By conducting meetings of growers and arranging for balloting at the meeting places, if said referendum agent determines that voting shall be at meetings. At each such meeting, balloting shall continue until all of the growers who are present, and who desire to do so, have had an opportunity to vote. Any grower may cast his ballot at any such meeting in lieu of voting by mail.

(5) By giving ballots to growers at the meeting; and receiving any ballots when they are cast.

(6) By securing the name and address of each person casting a ballot and inquiring into the eligibility of such person to vote in the referendum.

(7) By giving public notice of the time and place of each meeting authorized hereunder by posting a notice thereof, at least two days in advance of each such meeting, at each such meeting place, and in two or more public places within the applicable area; and, so far as may be practicable, by giving additional notice in the manner prescribed in paragraph (a)(3) hereof.

(8) By appointing any county agricultural agent in the State of Georgia, and any other persons deemed necessary or desirable, to assist the said referendum agent in performing his duties hereunder. Each county agricultural agent and other person so appointed shall serve without compensation and may be authorized, by the said referendum agent, to perform any or all of the functions set forth in paragraphs (a) (5), (6), (7), and (8) hereof (which, in the absence of such appointment of subagents, shall be performed by said referendum agent) in accordance with the requirements herein set forth, and shall forward to M. F. Miller, Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, P.O. Box 19, Lakeland, Florida, immediately after the close of the referendum, the following:

(i) A register containing the name and address of each grower to whom a ballot form was given;

(ii) A register containing the name and address of each grower from whom an executed ballot was received;

(iii) All of the ballots received by the respective referendum agent in connection with the referendum, together with a certificate to the effect that the ballots forwarded are all of the ballots cast and which were received by the respective agent during the referendum period;

(iv) A statement showing when and where each notice of referendum posted by said agents was posted and, if the notice was mailed to growers, the mailing list showing the names and addresses to which the notice was mailed and the time of such mailing; and

(v) A detailed statement reciting the method used in giving publicity to such referendum.

(b) Upon receipt by M. F. Miller of all ballots cast in accordance with the provisions hereof, he shall canvass the ballots and prepare and submit to the Secretary a detailed report covering the results of the referendum, the manner in which the referendum was conducted, the extent and kind of public notice given, and all other information pertinent to the full analysis of the referendum and its results; and shall forward such report, together with the ballots and other information and data, to the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C.

(c) The referendum agent and appointee pursuant hereto shall not refuse to accept a ballot submitted or cast; but should he, or any of them, deem that a ballot should be challenged for any reason, or if such ballot is challenged by any other person, said agent or appointee shall endorse above his signature, on the back of said ballot, a statement that such ballot was challenged, by whom challenged, and the reasons therefor; and the number of such challenged ballots shall be stated when they are forwarded as provided herein.

(d) All ballots shall be treated as confidential.

The Director of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, is hereby authorized to prescribe additional instructions, not inconsistent with the provisions hereof, to govern the procedure to be followed by the said referendum agent and appointees in conducting said referendum.

Copies of the text of aforesaid amended marketing agreement and order may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Washington, D.C., and at the Office of W. E. Leigh, Manager, Industry Committee, Georgia Peach Marketing Agreement and Order, currently at 704 Grand Bldg., Macon, Georgia.

Ballots to be cast in the referendum may be obtained from the referendum agent and any appointee hereunder.

Dated: December 6, 1960.

CLARENCE L. MILLER,
Assistant Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 13841; FCC 60-1421]

COASTAL BROADCASTING CO. (WLAT)

Order Designating Application for Hearing on Stated Issues

In re application of Loys Marsdon Hawley and Herman Lee Hanks, d/b as Coastal Broadcasting Company (WLAT), Conway, South Carolina, has 1330 kc, 5 kw, D, requests 1330 kc, 500 w, 5 kw-LS, DA-N, U, Docket No. 13841, File No. BMP-8480; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 30th day of November 1960;

The Commission having under consideration the above-captioned and described application;

It appearing that except as indicated by the issues specified below, the instant applicant is legally, technically, financially, and otherwise qualified to construct and operate the instant proposal; and

It further appearing that pursuant to section 309(b) of the Communications Act of 1934, as amended, the Commission, in a letter dated June 24, 1960, and incorporated herein by reference, notified the applicant that the instant proposal would lose approximately 88.5 percent of the normally protected nighttime service area and about 46 percent of the population residing therein owing to interference received, and that, therefore, a question obtained as to whether the proposal represented an efficient utilization of the channel; and that a copy of the aforementioned letter is available for public inspection at the Commission's offices; and

It further appearing that the applicant filed a timely reply to the aforementioned letter, stating that Conway has no existing nighttime facility; that this proposal would serve the entire city of Conway; and that WLAT is, therefore, proposing the first primary nighttime service to 100 percent of the population within the proposed nighttime service area and falls within one of the express exceptions to § 3.28(c) of the rules; but we are of the opinion that a question still obtains as to whether, under § 3.24(b) of the rules, this proposal represents an efficient utilization of the channel; and that the Commission is unable to make a determination in this matter on the basis of the information before it and that an evidentiary hearing is necessary to obtain complete information relative to the above-captioned proposal and the grounds advanced in support of the applicant's belief that a grant of the application would serve the public interest; and is of the opinion that the application must be designated for hearing on the issues specified below;

It is ordered, That, pursuant to section 309(b) of the Communications Act of 1934, as amended, the instant application is designated for hearing, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of Station WLAT and the availability of other primary service to such areas and populations.

2. To determine whether, because of interference received, the proposed operation of WLAT would be consistent with § 3.24(b) of the rules, and, if not, whether circumstances exist which would warrant a waiver of said section.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant applications would serve the public interest, convenience and necessity.

It is further ordered, That this Order shall supersede the Commission's Order (FCC 60-1319) adopted herein on November 2, 1960.

Released: December 6, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 13659; FCC 60M-2054]

W. R. FRIER (WBHF)

Order Continuing Hearing

In re application of W. R. Frier (WBHF), Cartersville, Georgia, Docket No. 13659, File No. BP-12264; for construction permit.

The Chief Hearing Examiner having under consideration a petition filed on November 30, 1960, by the applicant, for continuance of hearing in the above-entitled proceeding which is presently scheduled to commence December 5, 1960;

It appearing that good cause exists to warrant a continuance of this matter and it is appropriate that the exact date be specified by the presiding Hearing Examiner;

It is ordered, This 2d day of December 1960, that the petition is granted and that hearing in the above proceeding is continued to a date to be specified by a subsequent order.

Released: December 5, 1960.

Acting Secretary.

[F.R. Doc. 60-11528; Filed, Dec. 9, 1960; 8:51 a.m.]

[Docket Nos. 13856, 13857; FCC 60-1419]

QUEEN CITY BROADCASTING CO. AND VAL VERDE BROADCASTING CO.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Queen City Broadcasting Company, Del Rio, Texas, requests 1490 kc, 250 w, U, Docket No. 13856, File No. BP-12115; Eugene Albert Houghton and Alton W. Stewart d/b as Val Verde Broadcasting Company, Del Rio, Texas, requests 1490 kc, 250 w, U, Docket No. 13857, File No. BP-13050; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 30th day of November 1960;

The Commission having under consideration the above-captioned and described applications;

It appearing, that except as indicated by the issues specified below, the Queen City Broadcasting Company is legally, technically, financially and otherwise qualified to construct its proposed station; and the Val Verde Broadcasting Company is legally and technically qualified but may not be financially and otherwise qualified; and

It further appearing, that pursuant to section 309(b) of the Communications Act of 1934, as amended, the Commission in letters dated February 25, September 3, and November 17, 1959, and April 8, 1960, and incorporated herein by reference, notified the instant applicants, and any other known parties in interest, of the grounds and reasons for the Commission's inability to make a finding that a grant of either of the applications would serve the public interest, convenience, and necessity; and that copies of the aforementioned letters are available for public inspection at the Commission's offices; and

It further appearing, that the instant applicants filed timely replies to the aforementioned letters; and

It further appearing, that, in an affidavit filed on June 1, 1959, E. A. Houghton, a partner in Val Verde Broadcasting Company, alleged that Julius Sadowsky, an officer and stockholder in Queen City Broadcasting Company, is not qualified to own and operate a broadcast station, but that the Commission is of the opinion that Houghton has stated insufficient facts to support said allegation or to raise a substantial question as to the qualifications of Julius Sadowsky; and

It further appearing that Don R. Howard tr/as Del Rio Broadcasting Company, licensee of Station KDLK, Del Rio, Texas, has alleged that the Queen City Broadcasting Company's estimates of construction and operating costs and expected revenues are unrealistic and that Queen City Broadcasting Company has not demonstrated its financial ability to meet the costs of constructing and operating its proposed station; but that examination of the Queen City application and amendments thereto indicates that Queen City is financially qualified to meet the costs of construction and initial operation of its proposed station; and

It further appearing that the licensee of Station KDLK, by a series of correspondence and pleadings dating from January 8, 1959, contends, in substance, that the authorizations of a second standard broadcast station in Del Rio would result in economic injury to KDLK, that the Del Rio and Val Verde County area cannot support another radio station at this time, that the granting of either application herein would result in financial destruction of both the successful applicant and KDLK to the detriment of the public interest, convenience and necessity, would be a disservice to the public and would deprive the public of the excellent radio coverage it presently enjoys; and that, therefore, KDLK must be made a party to a hearing proceeding on the applications herein; and

It further appearing that the above contentions have not been sufficiently supported by factual allegations to warrant the specification of an issue as to whether the operation of a second standard broadcast station in Del Rio would be detrimental to the public interest; and

It further appearing that Don R. Howard's allegations that he is the licensee of the only standard broadcast station in Del Rio and that said station would suffer economic injury as a result of the operation of a second station in Del Rio require that Howard be named a party to the hearing ordered below; and

It further appearing that by letters dated March 4, and April 13, 1960, the Queen City Broadcasting Company alleged, in substance, that the transmitter site proposed by the Val Verde Broadcasting Company was purchased from two persons, one of whom is the father of Don R. Howard, licensee of KDLK, that the application of the Val Verde Broadcasting Company was not filed in good faith but for the purpose of impeding, obstructing or delaying determination on the Queen City application; that Queen City has requested a conditional grant of its application pursuant to § 1.362(b)(1) of the Commission rules; that by affidavit filed May 16, 1960, the Val Verde Broadcasting Company denied that its application was filed to block or delay the granting of any other application; that, on the basis of the information before, it, the Commission is unable to conclude that the facts alleged raise a substantial question with respect to the bona fides of the Val Verde Broadcasting Company in filing its application; and

It further appearing that the Commission letter of April 8, 1960, advised the Val Verde Broadcasting Company that the information then on file did not show that adequate funds were available to finance the construction and initial operation of its proposed station; and that, on the basis of additional information filed in response to the Commission's letter, it cannot be determined that the Val Verde Broadcasting Company has sufficient cash or liquid assets available in sufficient amount over and above those needed to meet current expenditures to demonstrate that the Val Verde Broadcasting Company is financially qualified; and

It further appearing that, by amendment filed April 28, 1960, the application of the Val Verde Broadcasting Company was amended to show geographical coordinates which correctly indicate the location of the proposed antenna site; and that the antenna structure at the site proposed may constitute a hazard to air navigation; and

It further appearing that after consideration of the applicant's replies, the Commission is still unable to make the statutory finding that a grant of either of the instant applications would serve the public interest, convenience and necessity, and is of the opinion that the applications must be designated for hearing in a consolidated proceeding on the issues specified below;

It is ordered, That, pursuant to section 309(b) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine whether the Val Verde Broadcasting Company is financially qualified to construct and operate its proposed station.

2. To determine whether the antenna system proposed by Val Verde Broadcasting Company would constitute a hazard to air navigation.

3. To determine, on a comparative basis, which of the instant proposals would better serve the public interest, convenience and necessity in the light of the evidence adduced pursuant to the foregoing issues and the record made with respect to the significant differences between the applicants as to:

a. The background and experience of each having a bearing on the applicant's ability to own and operate its proposed station.

b. The proposals of each of the applicants with respect to the management and operation of the proposed station.

c. The programming service proposed in each of the said applicants.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either of the instant applications should be granted.

It is further ordered, That Don R. Howard tr/as Del Rio Broadcasting Company, licensee of Station KDLK, Del Rio, Texas, is made a party to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and party respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within twenty (20) days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That, the issues in the above-captioned proceedings may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding, and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: December 7, 1960.

[Docket Nos. 13663-13666; FCC 60M-2063]

NORMAN A. THOMAS ET AL.

Order Continuing Hearing

In re applications of Norman A. Thomas, Greeneville, Tennessee, Docket No. 13663, File No. BP-12729; Greene County Broadcasting Company, Incorporated, Greeneville, Tennessee, Docket No. 13664, File No. BP-13271; Wilkes Broadcasting Company (WATA), Boone, North Carolina, Docket No. 13665, File No. BP-13451; Radio Hendersonville, Inc. (WHKP), Hendersonville, North Carolina, Docket No. 13666, File No. BP-13487; for construction permits.

The Hearing Examiner having under consideration a "Petition for Continuance of Procedural Dates" filed by Greene County Broadcasting Company, Inc., on December 2, 1960, requesting a continuance of the procedural dates established by the parties in the above-entitled proceeding at a conference on October 5, 1960;

It appearing that the date established for the exchange of exhibits in response to issues 6 and 8 as set forth in the Commission Order of Designation was December 5, 1960; that notification of witnesses and program logs desired was December 15, 1960; and formal hearing to begin on January 4, 1961; and

It further appearing that additional time will be required for the preparation of the engineering exhibit; and

It further appearing that counsel for all of the parties have consented to a grant of the instant petition, and have agreed to waive the provisions of § 1.43 of the Commission's rules to permit immediate consideration thereof;

Now, therefore, it is ordered, This 5th day of December 1960 that the "Petition for Continuance of Procedural Dates" filed by Greene County Broadcasting Company, Inc., on December 2, 1960, be, and the same is, hereby granted, and that the dates for the exchange of exhibits, the notification of witnesses and program logs, and the formal hearing, presently scheduled for December 5, 1960, December 15, 1960, and January 4, 1961, be, and the same are, hereby continued to January 9, 1961, January 18, 1961, and February 1, 1961, respectively.

Released: December 6, 1960.

WALTERBORO RADIOCASTING CO. (WALD) AND ALTAMAHA BROADCASTING CO. (WBGR)

Order Continuing Hearing

In re applications of Walterboro Radiocasting Company (WALD), Walterboro, South Carolina, Docket No. 13828, File No. BP-12246, William Glenn Thomas, tr/as Altamaha Broadcasting Company (WBGR), Jesup, Georgia, Docket No. 13829, File No. BP-12461, for construction permits.

A prehearing conference in the above-entitled proceeding having been held as scheduled on December 2, 1960, and counsel having reached agreement on the procedures to be adopted which meet with the Examiner's approval;

It is ordered, This 5th day of December 1960, that the hearing presently scheduled to commence at 10:00 a.m. on December 13, 1960, at the Commission's offices, Washington, D.C., is hereby continued to Tuesday, February 7, 1961, at the same time and place;

It is ordered further, That engineering exhibits complete, but in draft form, are to be exchanged by January 13, 1961, that all exhibits in final form are to be exchanged by January 27 (with copies to be provided the hearing examiner), and that all other matters agreed upon are hereby deemed incorporated by reference to the transcript of the prehearing conference.

Released: December 5, 1960.

[Docket No. 13596]

STANDARD BROADCAST STATIONS

Operation With Full Carrier and Single Sideband; Order Providing Time for Filing Reply Comments

In the matter of Inquiry into amendment of Part 3 of the Commission's rules and technical standards to permit standard broadcast stations to operate with full carrier and single sideband; Docket No. 13596 (RM-156).

1. The Commission has before it for consideration a request of Westinghouse Broadcasting Company, Inc., filed on November 30, 1960, for authorization to file reply comments during a period of at least 45 days after original comments are filed.

2. Westinghouse submits that it has experimented with single sideband operation on its experimental station KG2XIB for a period of time after April 1958; that its engineers have observed laboratory tests conducted by the Kahn Research Laboratories; and that it is not able to submit further comments and views until it has had an opportunity to examine the comments filed by the Kahn Laboratories and others. It therefore urges that the Commission authorize a period of not less than 45 days for the filing of reply comments.

3. The Commission is of the view that the public interest would be served by granting the request.

4. *In view of the foregoing, it is ordered*, This 5th day of December 1960, that the request of Westinghouse Broadcasting Company is granted, and that the time for filing comments in reply to original comments filed in this proceeding is specified as January 16, 1961.

Released: December 7, 1960.

[Docket No. 13855; FCC 60-1417]

MANDAN RADIO ASSN.

Order To Show Cause

In the matter of revocation of license of Mandan Radio Association, for standard broadcast Station KBOM, Bismarck-Mandan, North Dakota, Docket No. 13855.

The Commission having under consideration certain violations of the Communications Act of 1934, as amended, and the Commission's rules involving (1) a series of Ownership Reports—FCC Form 323—filed by Mandan Radio Association on August 8, 1956, March 6, 1959, April 27, 1959, June 8, 1959, and April 11, 1960, respectively, pursuant to §§ 1.342 and 1.343 of the Commission's rules and regulations; (2) an application (BR-658) for the renewal of license of Station KBOM, which application was filed on March 6, 1959, by Mandan Radio Association and granted by the Commission on September 30, 1959; (3) a pending application (BTC-3423) filed by Mandan Radio Association on April 11, 1960, for Commission consent to the unauthorized relinquishment of positive control of said licensee through sale of stock from Charles E. Kempel to Clifford Nygard and 38 others (all stockholders); (4) a failure on the part of Mandan Radio Association, licensee of Station KBOM, Bismarck-Mandan, North Dakota, to file, in compliance with § 1.327 of the Commission's rules an application for modification of license to change its name to Mandan Radio Association, Inc.; and (5) certain misrepresentations and concealments of material facts; and

It appearing (1) That in the August 8, 1956, Ownership Report—FCC Form 323—which is signed by John K. Harris as President, it is indicated that the licensee had increased its capital authorization to 100,000 shares of common voting, $1.00 par value stock (previously 500 shares at $100 par value), of which 48,300 shares (previously 483 shares issued) had been issued to only three stockholders, as follows: 38,300 shares (79.30 percent) to C. E. Kempel, Chairman of the Board—5000 shares (10.35 percent) to John K. Harris, President and Manager—5000 shares (10.35 percent to Richard C. Johnson, Secretary—and that the licensee was also authorized to issue 500 shares of preferred nonvoting stock of $100 par value, of which none had been issued;

(2) That in the March 6, 1959 Ownership Report submitted with the above renewal application (BR-658), which was signed by Richard C. Johnson, Secretary, Messrs. Kempel, Harris and Johnson are represented, as to their holdings and offices, as in the August 8, 1956 report, but it is indicated that the preferred stock authorized was increased to 50,000 shares; that on the April 27, 1959 Ownership Report which was signed by Richard C. Johnson, Secretary, although Messrs. Kempel, Harris and Johnson maintained their offices in the licensee, the following changes had occurred as to stock: 57,000 shares of common stock were issued—C. E. Kempel owning 38,300 (67.19 percent)—John K. Harris owning 5,000 (8.77 percent)—Richard C. Johnson owning 13,700 (24.04 percent), and that 43,500 shares of preferred stock had now been issued (no stockholders listed); and that in the June 8, 1959 Ownership Report, which is signed by Richard C. Johnson, Secretary, all entries remained as stated above except that the preferred stock authorization was now at 500 shares of which 435 shares had been issued to 40 stockholders;

(3) That said licensee has changed its name to Mandan Radio Association, Inc., without having filed an application with the Commission requesting a modification of license to properly effectuate said change and without receiving Commission authorization therefor; and

It further appearing that subsequent to the grant of the above renewal of license application, and the filing of the above-mentioned Ownership Reports, information was brought to the attention of the Commission which indicated

(1) That an unauthorized transfer of control of Mandan Radio Association had been effectuated in 1956, in that Charles E. Kempel sold his 80 percent holdings in the licensee to several persons, and that John K. Harris had sold his 10 percent holdings; that Richard C. Johnson advised the Commission on November 16, 1959, that he would file an application showing that a transfer of control of the licensee had occurred in 1956; that on January 6, 1960, the Commission informed the licensee that no application had as yet been received and that an unauthorized transfer of control of the licensee had taken place; and that it was not until April 11, 1960, that the above-captioned application (BTC-3423) was filed by the licensee for Commission consent to the unauthorized relinquishment of positive control of said licensee by Charles E. Kempel to Clifford Nygard and 38 others;

(2) That section II, page 2, paragraph 12 of said application refers to one Merrel T. Elberg as a voting stockholder, said Mr. Elberg never having appeared on any of the licensee's Ownership Reports as such throughout its history, and whom it is later alleged by the licensee resigned as director and sold his stock in 1958; that Exhibit 2 of said application, showing stockholders and amounts, in general, remains inconsistent as to dates and amounts; that page 2 of said Exhibit 2 is incompatible with prior and subsequent statements regarding stock acquisitions by Messrs. Kempel, Harris and Johnson; and that section I, page 5, para. 2, is inconsistent with the stated facts surrounding the unauthorized transfer of control of the licensee;

(3) That in their sworn statement submitted with said application, Messrs. Kempel and Johnson alleged, among other things, that the duty to seek Commission consent to the stock transactions and informing the Commission of increases in stock authorizations was left to John K. Harris; that the unauthorized and unreported transactions occurred from July 1, 1956, to February 1, 1957, with the unauthorized transfer of control occurring on July 1, 1956; that between May 1956, and December 15, 1957, Mr. Harris was ill; that on December 15, 1957, Mr. Harris resigned his position at the station; that at the same time, the station's chief engineer resigned; that several stock transactions occurred as a result of the two foregoing resignations; that a Mr. Leupp replaced the engineer and Mr. Johnson assumed management of the station; that on January 20, 1958, the 8,000 shares of stock belonging to one Merrel T. Elberg were sold to his wife and son; and that it was not until 1958 that Mr. Johnson and Mr. Leupp became aware of the station's situation; and

It further appearing that after receipt of the above-mentioned application, further inquiry by the Commission disclosed, among other things,

(1) That several unauthorized and unreported transactions amounting to an unauthorized transfer of control had been effectuated within the licensee corporation from July 1, 1956 through 1958; that although John K. Harris had resigned his office in 1957 and disposed of his stock to Mr. Johnson, he had been carried as President and 8.77 percent stockholder of the licensee in its Ownership Reports through June 8, 1959; that Messrs. Kempel and Johnson could give no explanation as to the discrepancies concerning Messrs. Elberg and Harris except to say that these were part of a series of transactions they intended to clear up after the grant of the above renewal of license application; and that Mr. Elberg actually acquired 8,000 shares of stock from Mr. Kempel on July 1, 1956, and disposed of same to Mrs. Elberg on January 20, 1958;

(2) That it was admitted by Mr. Johnson that the only reason for not making any report to the Commission as to the unauthorized transactions, although he had knowledge of same in 1958, was that he wanted the renewal of license application to be granted first; that he admitted he believed that if a report had been made to the Commission, it would have delayed the grant of said renewal of license application; that he realized that, at the time of the grant of said renewal of license application, he had sworn to misrepresentations to the Commission; and that he could offer no excuse or reason for having waited so long to correct his and the station's situation except that he believed proper disclosure to the Commission would have jeopardized the granting of said renewal of license application; and

It further appearing that in the above-described applications (BR-658) and (BTC-3423), and in the above-described Ownership Reports Charles E. Kempel, John K. Harris, Richard C. Johnson and Mandan Radio Association did wilfully and knowingly, in violation of section 310 of the Communications Act of 1934, as amended, and of §§ 1.303, 1.304, 1.327, 1.329, 1.342 and 1.343 of the Commission's rules and regulations, and in order to deceive the Commission, make misrepresentations and false statements concerning the ownership and control of Mandan Radio Association and Station KBOM, upon which misrepresentations and statements the Commission relied in granting the application (BR-658) for renewal of license of Station KBOM on September 30, 1959; in accepting the Ownership Reports submitted to it on August 8, 1956, March 6, 1959, April 27, 1959, June 8, 1959, and April 11, 1960; and in accepting for filing on April 11, 1960, the application (BTC-3423) for Commission consent to the unauthorized relinquishment of positive control of Mandan Radio Association through the sale of stock from Charles E. Kempel to Clifford Nygard and 38 others (all stockholders);

It is ordered, This 30th day of November 1960, pursuant to the provisions of sections 301, 308(b), 312(a)(1), 312(a)(2), 312(a)(4) and 312(c) of the Communications Act of 1934, as amended, that the said licensee, Mandan Radio Association, is directed to show cause why an order revoking the aforementioned license for standard broadcast Station KBOM, Bismarck-Mandan, North Dakota, should not be issued, and to appear and give evidence with respect thereto at a hearing[1] to be held at a

[1] Section 1.62 of the Commission's rules provides that a licensee, in order to avail itself of the opportunity to be heard, shall, in person or by its attorney, file with the Commission, within thirty days of the receipt of the order to show cause, a written statement stating that it will appear at the hearing and present evidence on the matter specified in the order. In the event it would not be possible for respondent to appear for hearing in the proceeding if scheduled to be held in Washington, D.C., it should advise the Commission of the reasons for such inability within five days of the receipt of this

time and place to be specified by subsequent order, said time in no event to be less than 30 days after receipt of this Order; and

It is further ordered, That the Acting Secretary of the Commission send a copy of this Order by Registered Mail, Return Receipt Requested to the said licensee, Mandan Radio Association.

Released: December 7, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

DEPARTMENT OF COMMERCE

Bureau of the Census

DISTRIBUTORS' STOCKS OF CANNED FOOD

Notice of Consideration To Continue Surveys

Notice is hereby given that the Bureau of the Census is planning to conduct its usual annual survey of inventories covering 32 canned and bottled products, including vegetables, fruits, juices, and fish as of December 31, 1960, under the provisions of the Act of Congress approved August 31, 1954, 13 U.S.C. 181, 224, and 225. This survey, together with the previous surveys, provides the only continuing source of information on stocks of the specified canned foods held by wholesalers and in warehouses of retail multi-unit organizations.

On the basis of information received by the Bureau of the Census, these data will have significant application to the needs of the public, industry and the distributive trades, and governmental agencies and are not publicly available from nongovernmental or other governmental sources.

Such survey, if conducted, shall begin not earlier than 30 days after publication of this notice in the FEDERAL REGISTER.

Reports will not be required from all firms but will be limited to a scientifically selected sample of wholesalers and retail multi-unit organizations handling canned foods, in order to provide year-end inventories of the specified canned food items with measurable reliability. These stocks will be measured in terms of actual cases with separate data requested for "all sizes smaller than No. 10" and for "sizes No. 10 or larger."

Copies of the proposed forms and a description of the collection methods are available upon request to the Director, Bureau of the Census, Washington 25, D.C.

Any suggestions or recommendations concerning the subject matter of this proposed survey should be submitted in writing to the Director of the Census within 30 days after the date of this publication and will receive consideration.

ROBERT W. BURGESS,
Director, Bureau of the Census.

FEDERAL POWER COMMISSION

[Project No. 2283]

CENTRAL MAINE POWER CO.

Notice of Application for License

DECEMBER 6, 1960.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by Central Maine Power Company, of Augusta, Maine, for license for a constructed hydroelectric development, known as the Gulf Island-Deer Rips Project, designated Project No. 2283, and situated on the Androscoggin River, navigable waters of the United States, in Androscoggin County, Maine.

The project consists of two dams and three powerhouses and other appurtenant facilities, described as follows: Gulf Island—a concrete and earthfill dam, the concrete portion being comprised of a spillway section equipped with 7-foot hinged flashboards, two Stoney gates and seven Tainter gates, a powerhouse intake section and bulkhead section; a reservoir with an area of about 4,000 acres with normal water surface at an elevation of 262 feet (USGS) and extending upstream about 17 miles; a powerhouse integral with the dam containing three 9,000 horsepower turbines each connected to a 6,400-kilowatt generator; step-up transformers; and appurtenant facilities; Deer Rips—a concrete dam comprised of four gravity overflow sections, a canal intake section and powerhouse intake section; a reservoir with an area of about 130 acres with normal water surface at an elevation of 205.7 feet (USGS) and extending upstream to the tailwater of Gulf Island; a canal on the right bank extending about 600 feet to the Deer Rips powerhouse, which contains seven generating units with a total turbine capacity of 10,650 horsepower and generator capacity of 6,440 kilowatts; a step-up transformer; a forebay on the left bank about 25 feet long connecting the intake to Androscoggin No. 3 powerhouse, which contains one 5,500-horsepower turbine connected to a 3,600-kilowatt generator; excavated tailraces at both powerhouses; and appurtenant facilities.

Protests and petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day on which protests or petitions may be filed is January 31, 1961. The application is on file with the Commission for public inspection.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60-11495; Filed, Dec. 9, 1960; 8:47 a.m.]

order. If the licensee fails to file an appearance within the time specified, the right to a hearing shall be deemed to have been waived. Where a hearing is waived, a written statement in mitigation or justification may be submitted within thirty days of the receipt of the order to show cause. If such statement contains, with particularity, factual allegations denying or justifying the facts upon which the show cause order is based, the Hearing Examiner may call upon the submitting party to furnish additional information, and shall request all opposing parties to file an answer to the written statement and/or additional information. The record will then be closed and an initial decision issued on the basis of such procedure. Where a hearing is waived and no written statement has been filed within the thirty days of the receipt of the order to show cause, the allegations of fact contained in the order to show cause will be deemed correct and the sanctions specified in the order to show cause will be invoked.

[Project No. 2284]

CENTRAL MAINE POWER CO.

Notice of Application for License

DECEMBER 6, 1960.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by Central Maine Power Company, of Augusta, Maine, for license for a constructed hydroelectric development, known as the Brunswick-Topsham Project, designated Project No. 2284, and situated on the Androscoggin River, navigable waters of the United States, in Cumberland and Sagadahoc Counties, Maine.

The project consists of two dams and two powerhouses and other appurtenant facilities, described as follows: Brunswick—a dam comprised of two timber-crib overflow sections and a short concrete masonry non-overflow section connecting to the powerhouse on the right bank; a reservoir, with an area of about 12 acres and normal water surface at elevation 17.4 feet (USGS) contained within the river banks; a powerhouse containing four 483-horsepower turbines connected to three 375-kilowatt generators and one 348-kilowatt generator; step-up transformers; and appurtenant facilities; Topsham—a dam comprised of two concrete and one timber-crib sections; two intake sections, one on each shore; a reservoir, with an area of about 300 acres and normal water surface at elevation 39 feet (USGS), extending upstream about 4½ miles; an enclosed concrete flume extending from the left bank intake to a powerhouse containing three 400-horsepower turbines each connected to a 300-kilowatt generator; an overhead circuit to a non-project substation; step-up transformers; and appurtenant facilities.

Protests and petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day on which protests or petitions may be filed is January 31, 1961. The application is on file with the Commission for public inspection.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60-11496; Filed, Dec. 9, 1960; 8:47 a.m.]

[Docket No. E-6971]

KANSAS GAS AND ELECTRIC CO.

Notice of Application

DECEMBER 5, 1960.

Take notice that on November 29, 1960, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Kansas Gas and Electric Company ("Applicant"), a corporation organized under the laws of the State of West Virginia and doing business in the State of Kansas with its principal business office at Wichita, Kansas, seeking an order authorizing the issuance of $7,000,000 principal amount of First Mortgage Bonds, __ percent Series due 1991. Applicant proposes to issue $7,000,000 in principal amount of First Mortgage Bonds, __ percent Series due 1991 under a Mortgage and Deed of Trust to Guaranty Trust Company of New York (now Morgan Guaranty Trust Company of New York) and Wesley L. Baker (successor individual Trustee), as Trustees, dated as of April 1, 1940, as supplemented thereafter and as it will be further supplemented by a proposed Eighth Supplemental Indenture to be dated as of January 1, 1961. The interest rate to be borne by the Bonds (which shall be a multiple of ⅛ of 1 percent) and the price (exclusive of accrued interest) to be paid to Applicant for the Bonds (which shall be not less than the principal amount thereof and not more than 102¾ percent of such principal amount) will be determined by competitive bidding. Applicant states that the proceeds from the issuance and sale of the aforesaid First Mortgage Bonds will be used to meet expenditures in connection with its construction program.

Any person desiring to be heard or to make any protests with reference to said application should on or before the 30th day of December 1960, file with the Federal Power Commission, Washington 25, D.C. petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-11497; Filed, Dec. 9, 1960; 8:47 a.m.]

[Docket No. RP61-15]

TEXAS GAS TRANSMISSION CORP.

Order Permitting Filing of Tariff Sheets and Providing for Hearing on Proposed Revised Tariff Sheets and Suspension of Certain Filings

DECEMBER 5, 1960.

Texas Gas Trafnsmission Corporation (Texas Gas) tendered for filing 52 revised tariff sheets[1] proposing an increase in rates over those established by the Commission's order issued October 14, 1960 in settlement of the rate proceedings in Docket No. G-18886. The increased charges amount to $4,742,199, or 4.4 percent, annually based upon sales for the year ended June 30, 1960, as adjusted. Texas Gas requests an effective date of December 6, 1960, for the increases, but Texas Gas further requests that if its suspendable filings are in fact suspended, the non-suspendable filings—concerning the sale of gas for resale for industrial use only[2]—be made effective on the date the suspended tariff sheets become effective.

In support of its filings Texas Gas alleges (1) increased costs of purchased gas due to increased rates of suppliers and to shifts in sources from cheaper to higher priced gas, (2) reduced sales and volumes transported, (3) increased wages and salaries, (4) increased regulatory expenses, (5) increased depreciation expenses, and (6) a need for a 6½ percent rate of return and associated income taxes.

The claimed increased cost of purchased gas is partly contingent, the rates of 39 of Texas Gas's suppliers being effective subject to refund and the increased rates of two suppliers being suspended. In addition, several items in the cost data submitted by Texas Gas are questionable. Some of the questionable items are the 6½ percent rate of return and associated taxes, the extent of the reduction in volumes sold and transported, the claimed regulatory expense, the allocation of costs, and the rate tilt.

The proposed increased rates and charges provided for in the above-designated revised tariff tendered by Texas Gas on October 21, 1960, may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act, that the Commission enter upon a hearing concerning the lawfulness of the proposed changes in rates, charges, classifications or services, and that certain of the above-designated revised tariff sheets be suspended and the use thereof be deferred as hereinafter ordered.

(2) Good cause exists for waiving the 60-day maximum notice limit of § 154.22 of the Commission's regulations under the Natural Gas Act; for permitting the filing of Eighth Revised Sheet Nos. 45, 47, and 51 and Ninth Revised Sheet No. 49 to Texas Gas's FPC Gas Tariff, Second Revised Volume No. 1; and for making the said tariff sheets effective on the date hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure and regulations under the Natural Gas Act (18 CFR, Ch. I), a public hearing be held on a date to be designated by notice from the Secretary of the Commission, concerning the lawfulness of the rates, charges, classifications, and services contained in Texas Gas's proposed revised tariff sheets filed on October 21, 1960.

(B) Pending such hearing and decision thereon, Texas Gas's proposed Third Revised Sheet No. 68–I, Fourth Revised Sheets Nos. 68–BB, 68–G, 68–H,

[1] Third Revised Sheet No. 68–I; Fourth Revised Sheets Nos. 68–BB, 68–G, 68–H, 68–K, 68–L and 70–A; Fifth Revised Sheets Nos. 13, 15 and 68–C, Sixth Revised Sheets Nos. 7, 9, 19, 21, 25, 27 and 71; Seventh Revised Sheets Nos. 68–A, 68–B, 68–E and 68–F; Eighth Revised Sheets Nos. 45, 47, 51, 79–I and 79–J; Ninth Revised Sheets Nos. 5, 11, 23, 29, 33, 41, 49, 53, 55, 59, 61, 63, 67, 69, 70, 73 and 74; Tenth Revised Sheets Nos. 17, 31, 35, 37, 43, 57 and 65 and Eleventh Revised Sheet No. 39 to FPC Gas Tariff, Second Revised Volume No. 1 and First Revised Sheet No. 254 to FPC Gas Tariff, Original Volume No. 2.

[2] Eighth Revised Sheets Nos. 45, 47, and 51 and Ninth Revised Sheet No. 49.

68–K, 68–L, and 70–A; Fifth Revised Sheets Nos. 13, 15 and 68–C; Sixth Revised Sheets Nos. 7, 9, 19, 21, 25, 27 and 71; Seventh Revised Sheets Nos. 68–A, 68–B, 68–E and 68–F; Eighth Revised Sheets Nos. 70–I and 70–J; Ninth Revised Sheets Nos. 5, 11, 23, 29, 33, 41, 53, 55, 59, 61, 63, 67, 69, 70, 73 and 74; Tenth Revised Sheets Nos. 17, 31, 35, 37, 43, 57 and 65 and Eleventh Revised Sheet No. 39 to Texas Gas' FPC Gas Tariff, Second Revised Volume No. 1 and First Revised Sheet No. 254 to Texas Gas' FPC Gas Tariff, Original Volume No. 2 are hereby suspended and the use thereof deferred until May 6, 1961, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) The 60-days-maximum notice limit of § 154.22 of the Commission's regulations under the Natural Gas Act is waived; Eighth Revised Sheet Nos. 45, 47 and 51 and Ninth Revised Sheet No. 49 to Texas Gas's FPC Gas Tariff, Second Revised Volume No. 1, may be filed; and said tariff sheets shall become effective on the date the tariff sheets suspended in paragraph (B) above become effective.

(D) Neither the tariff sheets suspended, nor the tariffs sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(E) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before January 20, 1961.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

ALUMINUM COMPANY OF AMERICA ET AL.

Notice of Applications for Unlisted Trading Privileges and of Opportunity for Hearing

DECEMBER 6, 1960.

In the matter of applications of the Cincinnati Stock Exchange for unlisted trading privileges in certain securities.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(2) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

	File No.
Aluminum Co. of America	7–2110
Ampex Corp	7–2111
General Telephone and Electronics Corp	7–2112
Goodyear Tire and Rubber Co	7–2113
Gulf Oil Corp	7–2114
Minnesota Mining and Manufacturing Co	7–2115
United Aircraft Corp	7–2116
Western Union Telegraph Co	7–2117

Upon receipt of a request, on or before December 23, 1960 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington 25, D.C., not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

HOOVER BALL AND BEARING CO.

Notice of Application for Unlisted Trading Privileges and of Opportunity for Hearing

DECEMBER 6, 1960.

In the Matter of Application of the Detroit Stock Exchange for unlisted trading privileges in a certain security.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to Section 12(f)(2) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the common stock of the following company, which security is listed and registered on one or more other national securities exchanges:

Hoover Ball and Bearing Co., File 7–2119.

Upon receipt of a request, on or before December 23, 1960 from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington 25, D.C., not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

[F.R. Doc. 60–11506; Filed, Dec. 9, 1960; 8:48 a.m.]

[File No. 1–1368]

HOOVER BALL AND BEARING CO.

Notice of Application To Strike From Listing and Registration and of Opportunity for Hearing

DECEMBER 6, 1960.

In the Matter of Hoover Ball and Bearing Company, Common Stock, File No. 1–1368.

Detroit Stock Exchange has filed an application with the Securities and Exchange Commission pursuant to section 12(d) of the Securities Exchange Act of 1934 and Rule 12d2–1(b) promulgated thereunder, to strike the specified security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following: This application is made at the request of the issuer. The stock remains listed on the New York Stock Exchange.

Upon receipt of a request, on or before December 23, 1960, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D.C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official files of the Commission pertaining to the matter.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

[F.R. Doc. 60–11507; Filed, Dec. 9, 1960; 8:48 a.m.]

ROHR AIRCRAFT CORP.

Notice of Application for Unlisted Trading Privileges and of Opportunity for Hearing

DECEMBER 6, 1960.

In the matter of application of the Philadelphia-Baltimore Stock Exchange For Unlisted Trading Privileges in a Certain Security.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to section 12(f)(2) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the common stock of the following company, which security is listed and registered on one or more other national securities exchanges:

Rohr Aircraft Corp., File 7–2118.

Upon receipt of a request, on or before December 23, 1960 from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington 25, D.C., not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

By the Commission.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 300]

KANSAS

Declaration of Disaster Area

Whereas, it has been reported that during the month of November, 1960, because of the effects of certain disasters, damage resulted to residences and business property located in certain areas in the State of Kansas;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act.

Now, therefore, as Deputy Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b) of the Small Business Act may be received and considered by the Offices below indicated from persons or firms whose property situated in the following county (including any areas adjacent to said county) suffered damage or destruction as a result of the catastrophe hereinafter referred to:

County: Cloud (tornado occurring on or about November 26 and 27, 1960).

Offices: Small Business Administration Regional Office, Home Savings Building, Fifth Floor, 1006 Grand Avenue, Kansas City 6, Mo. Small Business Administration Branch Office, Board of Trade Building, Room 215, 120 South Market Street, Wichita 2, Kans.

2. No special field offices will be established at this time.

3. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to May 31, 1961.

Dated: November 30, 1960.

ROBERT F. BUCK,
Deputy Administrator.

Title 3—THE PRESIDENT

Executive Order 10899

AUTHORIZATION FOR THE COMMUNICATION OF RESTRICTED DATA BY THE CENTRAL INTELLIGENCE AGENCY

By virtue of the authority vested in me by the Atomic Energy Act of 1954, as amended (hereinafter referred to as the Act; 42 U.S.C. 2011 *et seq.*), and as President of the United States, it is ordered as follows:

The Central Intelligence Agency is hereby authorized to communicate for intelligence purposes, in accordance with the terms and conditions of any agreement for cooperation arranged pursuant to subsections 144a, b, or c of the Act (42 U.S.C. 2162 (a), (b), or (c)), such Restricted Data and data removed from the Restricted Data category under subsection 142d of the Act (42 U.S.C. 2162 (d)) as is determined

(i) by the President, pursuant to the provisions of the Act, or

(ii) by the Atomic Energy Commission and the Department of Defense, jointly pursuant to the provisions of Executive Order No. 10841,

to be transmissible under the agreement for cooperation involved. Such communications shall be effected through mechanisms established by the Central Intelligence Agency in accordance with the terms and conditions of the agreement for cooperation involved: *Provided*, that no such communication shall be made by the Central Intelligence Agency until the proposed communication has been authorized either in accordance with procedures adopted by the Atomic Energy Commission and the Department of Defense and applicable to conduct of programs for cooperation by those agencies, or in accordance with procedures approved by the Atomic Energy Commission and the Department of Defense and applicable to conduct of programs for cooperation by the Central Intelligence Agency.

Rules and Regulations

Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 30—LICENSING OF BYPRODUCT MATERIAL

Exemption of Luminous Dial Timepieces Containing Hydrogen 3 (Tritium)

On July 2, 1960, the Commission issued for public comment a proposed amendment to 10 CFR Part 30 to exempt from licensing and other regulatory controls luminous dial timepieces containing tritium. Comments filed by interested persons have been given careful consideration.

The amendment is designed to relieve from licensing and AEC regulatory controls persons who receive luminous dial timepieces containing tritium in accordance with the standards set forth in the amendment.

The principal changes which have been made in the amendment as published on July 2, 1960, as a notice of proposed rule making are as follows:

(a) The amendment will provide for a prelicensing evaluation of luminous dial timepieces to determine if the standards set forth in the amendment will be met rather than merely setting standards which licensees must meet in order to distribute timepieces. A person who applies tritium to timepieces or imports timepieces containing tritium from a foreign manufacturer must obtain a specific license which would authorize the exempt distribution of luminous timepieces.

(b) A requirement has been added to § 30.24 which requires an applicant for a specific license to submit detailed information on the type of luminous products which will be applied to timepieces, the methods which will be used in applying the luminous products to the timepieces, and the prototype and quality control testing which will be carried out to determine that the radioactive material is firmly bound to the hands or dials contained in the timepieces.

(c) A requirement has been added to § 30.24 which requires an applicant for a specific license to carry out specific tests which include (1) bending of hands, (2) a shock test by means of vibration of a timepiece and (3) an immersion test. Any visible flaking or chipping of the radioactive material or loss of more than five percent of the tritium will be considered a cause for rejection.

Further study is being given by the Commission to exemption of other radionuclides for use as luminescing agents for timepieces.

Notice is hereby given that the following amendments are adopted to be effective 30 days after publication in the FEDERAL REGISTER.

1. Add a new § 30.10 to read as follows:

§ 30.10 Certain luminous timepieces.

(a) Except for persons who apply tritium to luminous timepieces or hands or dials and persons who import for sale or distribution luminous timepieces or hands or dials containing tritium, any person is exempt from the requirements for a license set forth in section 81 of the Act and from the regulations in Parts 20 and 30 of this chapter to the extent that such person receives, possesses, uses, transfers, exports, owns or acquires luminous timepieces or hands or dials containing tritium.

(b) Any person who desires to apply tritium to luminous timepieces or hands or dials for sale or distribution, or desires to import for sale or distribution luminous timepieces or hands or dials containing tritium, should apply for a specific license, pursuant to § 30.24(i), which license states that the luminous timepieces or hands or dials may be distributed by the licensee to persons exempt from the regulations pursuant to paragraph (a) of this section.

§ 30.24 [Amendment]

2. Add a new paragraph (i) to § 30.24 to read as follows:

(i) *Certain luminous timepieces.* An application for a specific license to apply tritium contained in luminous compounds to timepieces or hands or dials, or to import timepieces or hands or dials containing tritium for use pursuant to § 30.10 will be approved if: (1) The applicant satisfies the general requirements specified in § 30.23 and (2) the applicant submits sufficient information relating to the chemical and physical composition and characteristics of the luminous compound(s), the method of application of each compound, quality control procedures and prototype testing of luminous dials, and

(i) The tritium is bound in the luminous compound in a non-water-soluble and non-labile form and the compound is bound to the dials or hands. The tritium will be considered to be properly bound to the dials and hands if there is no visible flaking or chipping and the total loss of tritium does not exceed 5 percent of the total tritium when prototype dials and hands are subjected to the following tests in the order specified below:

(a) Attachment of dials to a vibrating fixture and vibration at a rate of not less than 26 cycles per second and a vibration acceleration of not less than 2G for a period of not less than one hour; and

(b) Attachment of the hub ends of the hands to a clamp and bending of hands over a one-inch diameter cylinder; and

(c) Total immersion of the dials and hands used in the tests described in (a) and (b) of this subdivision in 100 milliliters of water at room temperature for a period of 24 consecutive hours and analysis of the test water for its radioactive material content by liquid scintillation counting or other equally sensitive method.

(ii) Not more than a total of 25 millicuries of tritium will be applied per timepiece; and

(iii) Not more than a total of 5 millicuries of tritium will be applied per hand and not more than 15 millicuries will be applied per dial (bezels when used shall be considered as part of the dial).

(Secs. 81, 161, 68 Stat. 935, 948; 42 U.S.C. 2111, 2201)

Dated at Germantown, Md., this 2d day of December 1960.

For the Atomic Energy Commission.

WOODFORD B. MCCOOL,
Secretary.

[F.R. Doc. 60-11548; Filed, Dec. 12, 1960; 8:45 a.m.]

PART 70—SPECIAL NUCLEAR MATERIAL

Material Transfer Reports

The following amendment prescribes a standard transfer and receipting form to be used by persons holding licenses issued pursuant to the regulations in Part 70, Chapter 1, Title 10, Code of Federal Regulations, in initiating and receipting shipments of special nuclear material.

Notice of proposed issuance of the amendment was published in the FEDERAL REGISTER on August 17, 1960 (25 F.R. 7890), and a period of 60 days was allowed for receipt of comments by interested persons. The comments filed have been given careful consideration.

The provisions of the new § 70.54 are unchanged from those which appeared in the notice of proposed rule making. However, slight changes have been made in the Form AEC-388, and in the accompanying instructions, as follows:

1. On the face of the Form AEC-388 the parenthetical instruction "(For AEC Use Only)" has been deleted from Item 5.

2. On the Face of Form AEC-388 Item 11 has been changed to read: "The items and quantities listed above were shipped on * * *".

3. On the face of Form AEC-388 Item 12 has been changed to read: "The items and quantities listed above were received on * * *".

4. In the instructions appearing on the reverse side of Form AEC-388 the "Note" at the bottom of the page is designated "Note No. 1", and a "Note No. 2" is added, reading: "Licensees are not required to report transfers of special nuclear material to another licensee or to the Commission, for disposal, if the material is contained in waste and if the material has been declared to the Commission as 'consumed' by a licensee. Licensees are required to report all other transfers of special nuclear material, even though the Commission may have been paid the full value therefor. In such cases the following statement should be inserted in Item 8: 'Full value paid to AEC'."

5. Instruction 5 has been changed to read: "Enter name, address, license number and lease number of the organization assuming lease responsibility for the material; also the applicable order (Form AEC-640) number, if available."

Copies of Form AEC-388 referred to in the amendment will be furnished upon request made to AEC Material Leasing Officer, U.S. Atomic Energy Commission, Oak Ridge, Tennessee.

Notice is hereby given that the following amendment to 10 CFR Part 70 is published as a document subject to codification and is effective 30 days after publication in the FEDERAL REGISTER:

1. Redesignate §§ 70.54 and 70.55 as 70.55 and 70.56, respectively.

2. Add the following new § 70.54:

§ 70.54 Material Transfer Reports.

Each licensee who transfers and each licensee who receives special nuclear material shall submit to the Commission on Form AEC-388,[1] in accordance with the instructions set out therein, reports concerning each transfer of special nuclear material which has been distributed by the Commission pursuant to section 53 of the Act. Such reports shall be transmitted to the Commission promptly after the transfer takes place.

Dated at Germantown, Md., this 2d day of December 1960.

For the Atomic Energy Commission.

WOODFORD B. MCCOOL,
Secretary.

[F.R. Doc. 60-11547; Filed, Dec. 12, 1960; 8:45 a.m.]

[1] Filed as part of original document.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Animal Feed or Animal-Feed Supplements

Subpart D—Food Additives Permitted in Food for Human Consumption

HYGROMYCIN B AND CHLORTETRACYCLINE IN ANIMAL FEED, ANIMAL FEED SUPPLEMENTS, AND IN FOOD FOR HUMAN CONSUMPTION

1. The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by Amercian Cyanamid Company, P.O. Box 383, Princeton, New Jersey, and other relevant material has concluded that the following regulation should issue in conformity with section 409 of the Federal Food, Drug, and Cosmetic Act, with respect to the food additives hygromycin B and chlortetracycline in medicated swine feed for the prevention and treatment of bacterial swine enteritis, for maintenance of weight gain in the presence of atrophic rhinitis, for reducing the incidence of cervical abscesses, and as an aid in the control of infestation of large roundworms (Ascaris suis), nodular worm (Oesophagostemum dentatum), and whipworm (Trichuris suis).

Therefore, pursuant to the provisions of the act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625): *It is ordered,* That § 121.208 (21 CFR 121.208) be amended to read as follows:

§ 121.208 Chlortetracycline in medicated feeds.

Chlortetracycline may be safely used in medicated feeds when incorporated therein in accordance with the conditions prescribed in this section:

(a) It is used, or intended for use as a component of low calcium diets in the treatment of the diseases of chickens described in § 146.26(b)(7) of this chapter, as follows:

(1) The quantity of chlortetracycline added to low calcium feed is such that the finished medicated feed contains not less than 110 parts per million (0.0110 percent) no more than 220 parts per million (0.0220 percent) of chlortetracycline.

(2) When feed contains 0.40 percent to 0.55 percent of dietary calcium, it shall not be fed continuously for more than 5 days.

(3) When feed contains 0.80 percent of dietary calcium, it shall not be fed continuously for more than 8 weeks.

(b) It is used, or intended for use, in combination with hygromycin in diets of normal calcium content in the prevention or treatment of diseases of swine described in § 146.26(b)(32)(iv) of this chapter and as an aid in the control of infestation of large roundworms (Ascaris suis), nodular worm (Oesophagostemum dentatum), and whipworm (Trichuris suis), as follows:

(1) For preventive use, the finished medicated feed shall contain 13 parts per million (0.0013 percent) of hydromycin B and 55 parts per million (0.0055 percent) of chlortetracycline.

(2) For treatment, the finished medicated feed shall contain 13 parts per million (0.0013 percent) of hygromycin B and 110 parts per million (0.0110 percent) of chlortetracycline.

(c) The quantities of the antibiotics referred to in this section refer to an activity equivalent to that of the antibiotic master standard.

(d) To assure safe use of the additive or additives, the label and labeling of the food-additive container, or that of any intermediate premix prepared therefrom, shall contain, in addition to other information required by the act, the following:

(1) The name of the additive or additives provided for in this section.

(2) A statement of the concentration or strength of the additive or additives contained therein.

(3) The word "medicated" prominently and conspicuously, wherever the term "feed" or "premix" is used, and in juxtaposition therewith.

(4) Adequate mixing directions to provide for a finished feed with the proper concentration of the additive or additives, whether or not intermediate premixes are to be used.

(5) Adequate use directions to provide a finished feed labeled as provided in paragraph (e) of this section.

(e) To assure safe use of the additive or additives, the label and labeling of the finished medicated feed shall contain, in addition to other information required by the act, the following:

(1) The name of the additive or additives provided for in this section.

(2) A statement of the concentration or strength of the additive or additives contained therein.

(3) The word "medicated" prominently and conspicuously, wherever the term "feed" appears on the label.

(4) If the additive is to be used as prescribed in paragraph (a) of this section, the label and labeling shall also include:

(i) The statement "contains 0.40 percent to 0.55 percent of dietary calcium—not to be fed continuously for more than 5 days", or the statement "contains 0.8 percent of dietary calcium—not to be fed continuously for more than 8 weeks", whichever is appropriate.

(ii) A statement that the medicated feed should not be used for laying hens.

(5) If the additive is to be used as prescribed in paragraph (b) of this section, the label and labeling shall also include:

(i) A statement that the medicated feed is to be used for prevention or treatment of the diseases of swine listed in § 146.26(b)(32)(iv) of this chapter, and as an aid in the control of infestation of large roundworms (Ascaris suis), nodular worm (Oesophagostemum dentatum), and whipworm (Trichuris suis), whichever is appropriate.

(ii) A statement that the medicated feed is to be fed to swine only.

(iii) A statement that the medicated feed must be withdrawn 48 hours prior to slaughtering for food.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

2. Based upon an evaluation of the data before him, and proceeding under the authority of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(4), 72 Stat. 1786; 21 U.S.C. 348(c)(4)), the Commissioner of Food and Drugs has further concluded that a tolerance limitation is required in order to assure that the use of the food additives hygromycin B and chlortetracycline will not cause the edible tissues of chickens or swine to which are fed foods treated with the additives in accordance with § 121.208 to be unsafe. Therefore, the following tolerances are established and Subpart D is amended by changing § 121.1044, and adding the following new section, to read as follows:

§ 121.1014 Tolerances for residues of chlortetracycline in the edible tissues of animals slaughtered for human food.

Tolerances are established for residues of chlortetracycline in the edible tissues of animals slaughtered for human food as follows:

(a) In edible tissues of chickens fed on chlortetracycline medicated feeds as follows:

(1) 4 parts per million (0.0004 percent) in uncooked kidneys.

(2) 1 part per million (0.0001 percent) in uncooked muscle, liver, fat, and skin.

Residues established in this section may be in addition to residues of chlortetracycline in chicken tissues provided for in § 120.117(a).

(b) In edible tissues of swine fed on chlortetracycline medicated feeds as follows:

Zero in all tissues.

§ 121.1024 Tolerance for residues of hygromycin B.

A tolerance of zero is established for residues of the food additive hygromycin B in or on the uncooked edible tissues of swine.

(Sec. 409(c)(4), 72 Stat. 1786; 21 U.S.C. 348(c)(4))

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c), 72 Stat. 1786; 21 U.S.C. 348(c))

Dated: December 6, 1960.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 60-11573; Filed, Dec. 12, 1960; 8:49 a.m.]

SUBCHAPTER C—DRUGS

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

Animal Feed Containing Antibiotic Drugs

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (23 F.R. 9500), the general regulations for the certification of antibiotic and antibiotic-containing drugs (21 CFR Part 146) are amended as follows:

In § 146.26 *Animal feed containing penicillin;* * * *, paragraph (b)(32) is amended by adding a new subdivision (iv) as follows:

(iv) It is also intended for the prevention and treatment of bacterial swine enteritis, for the maintenance of weight gains of swine in the presence of atrophic rhinitis and for reducing the incidence of cervical abscesses in swine, it contains hygromycin B in the amounts and under the conditions set forth in subdivision (i) of this subparagraph, and it contains, per pound of feed, 0.025 gram (50 grams per ton), of the chlortetracycline; except that if it is intended for use in the treatment of bacterial swine enteritis it shall contain, per pound of feed, 0.05 gram (100 grams per ton), of chlortetracycline.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it relaxes existing requirements; and since animal feed containing antibiotic drugs and conforming with the conditions prescribed in this order need not comply with the requirements of section 502(l) and 507 of the Federal Food, Drug, and Cosmetic Act in order to insure their safety and efficacy.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371. Interprets or applies secs. 502, 507, 52 Stat. 1050, 59 Stat. 463, as amended; 21 U.S.C. 352, 357)

Dated: December 6, 1960.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 60-11574; Filed, Dec. 12, 1960; 8:49 a.m.]

Title 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER E—ALCOHOL, TOBACCO, AND OTHER EXCISE TAXES

[T.D. 6515]

PART 170—MISCELLANEOUS REGULATIONS RELATING TO LIQUOR

Miscellaneous Amendments

In order to (1) delete reference to forms made obsolete by revision of other parts of this chapter; (2) to provide for the use of distilled spirits stamps in lieu of the now obsolete wholesale liquor dealer's stamps; and (3) to conform to changes made in Chapter 51, Internal Revenue Code, by the enactment of Public Law 85-859, the regulations in Subpart A of 26 CFR Part 170, Miscellaneous Regulations Relating to Liquor, are amended as follows:

1. Section 170.1 is amended to read:

§ 170.1 Scope of subpart.

The regulations in this subpart provide for the issuance of stamps to other than proprietors of distilled spirits plants for the restamping of packages of distilled spirits which have been duly stamped, but from which the stamps have been lost or destroyed by unavoidable accident.

§ 170.2 [Amendment]

2. Section 170.2 is amended by striking the Internal Revenue Code number "5010(a)" and inserting in lieu thereof "5205(e)".

3. Section 170.3 is amended to read:

§ 170.3 Applications.

Applications for restamping packages of distilled spirits should be made in writing to the assistant regional commissioner, alcohol and tobacco tax, for the region in which the packages to be restamped are situated. The applicant should state in detail the number of packages, description of the contents, the place where the packages are located, the kind of stamps lost or destroyed, and the nature of the applicant's interest in the property. The applicant shall submit with his application a certified copy of the Internal Revenue Service form on which (a) as to a package filled in internal revenue bond, report was made of the gauge for withdrawal of the package from bond; or (b) as to a package filled after tax payment or determination, report was made of the gauge of the package at the time of its filling.

§ 170.6 [Amendment]

4. Section 170.6 is amended by striking "wholesale liquor dealer's" before the word "stamp" in the first sentence and inserting in lieu thereof "distilled spirits."

§ 170.7 [Amendment]

5. Section 170.7 is amended by striking "wholesale liquor dealer's" before the word "stamps" and inserting in lieu thereof "distilled spirits."

This Treasury decision shall be effective December 31, 1960.

Because this Treasury decision makes changes only of a technical nature conforming to revisions made in related regulations and does not adversely affect the public, it is found unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4(a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4(c) of that Act.

(Sec. 7805, Internal Revenue Code of 1954; 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] CHARLES I. FOX,
Acting Commissioner of Internal Revenue.

Approved: DECEMBER 7, 1960.

FRED C. SCRIBNER, Jr.,
Acting Secretary of the Treasury.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6490]

PART 13—PROHIBITED TRADE PRACTICES

Asheville Tobacco Board of Trade, Inc., et al.

Subpart—Combining or conspiring: § 13.395 *To control marketing practices and conditions;* § 13.470 *To restrain and monopolize trade.* Subpart—Cutting off access to customers or market: § 13.573 *Limiting new warehouse facilities.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45). [Cease and desist order, Asheville Tobacco Board of Trade, Inc. (Asheville, N.C.), et al., Docket 6490, Oct. 18, 1960]

In the Matter of Asheville Tobacco Board of Trade, Inc., a Corporation, and Max M. Roberts, President and Director, J. Carlie Adams, Vice President and Director, Fred D. Cockfield, Secretary-Treasurer and Director, Jeter P. Ramsey, Ex Officio Assistant to the Secretary, Supervisor of Sales and General Director of the Asheville Market, L. G. Hill, Director, James W. Stewart, Director, and James E. Walker, Jr., Director, all Individually and as Officers and Directors of Asheville Tobacco Board of Trade, Inc., and James E. Walker, Jr., and John B. Walker, Part Owners, Co-Managers and Operators of Bernard-Walker Warehouses; J. Carlie Adams and Luther Hill, Co-Partners Trading Under the Name and Style of Adams & Hill Warehouses; Farmers Federation Cooperative, Inc., a Corporation, Leasing and Operating Carolina Warehouse; Fred D. Cockfield, and James W. Stewart, Co-Partners Trading Under the Name and Style of Planters Warehouses; Henry B. Duncan, A. R. Johnson, Jr., Sherrod N. Landon, J. W. Moore, E. G. Anderson, J. E. Godwin, Beverly G. Connor, W. G. Maples, Members of Asheville Tobacco Board of Trade, Inc.

Order, following remand by the Court of Appeals for the Fourth Circuit, clarifying the desist order of February 14, 1958 (23 F.R. 2178, Apr. 3, 1958)—requiring the Asheville Tobacco Board of Trade to discontinue unlawful restraints on new tobacco auction warehouses in the Asheville, N.C., area—by modifying paragraphs "1" and "2".

The modified order to cease and desist is as follows, including the further order requiring compliance therewith:

It is ordered, That respondents, Asheville Tobacco Board of Trade, Inc., a corporation, and Max M. Roberts, President and director, J. Carlie Adams, Vice President and director, Fred D. Cockfield, Secretary-Treasurer and director, Jeter P. Ramsey, ex officio Assistant to the Secretary, Supervisor of Sales and General Director of the Asheville market, L. G. Hill, director, James W. Stewart, director, and James E. Walker, Jr., director, all individually and as officers and directors of Asheville Tobacco Board of Trade, Inc., and James E. Walker, Jr., and John B. Walker, part owners, co-managers and operators of Bernard-Walker Warehouses; J. Carlie Adams and Luther Hill, co-partners trading under the name and style of Adams & Hill Warehouses; Farmers Federation Cooperative, Inc., a corporation, leasing and operating Carolina Warehouse; Fred D. Cockfield, and James W. Stewart, co-partners trading under the name and style of Planters Warehouses; Sherrod N. Landon, J. W. Moore, E. G. Anderson, J. E. Godwin, Beverly G. Connor, W. G. Maples, members of Asheville Tobacco Board of Trade, Inc., individually and as officers, directly or through any corporate or other device, in connection with procuring, purchasing, offering to purchase, selling or offering for sale leaf tobacco, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from devising, adopting, using, adhering to, maintaining or cooperating in the carrying out of any plan, system, method, policy or practice which:

1. Allots selling time to new entrant warehouses on the Asheville tobacco market on any basis or in any manner which fails to take into account and give reasonable credit for the size and capacity of a new entrant;

2. Limits the possible gain or loss in selling time allotted to any warehouse for any one selling season to 3½ percent, or any other unreasonably low percentage, of the selling time allotted to such warehouse for the preceding selling season, or in any other manner unreasonably limits the possible gain or loss in selling time allotted to any warehouse; or

3. Has the purpose or effect of foreclosing or preventing any new entrant warehouse on the Asheville tobacco market, or any other warehouse doing business on that market, from competing therein on a fair and equal basis.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this modified order to cease and desist, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied therewith.

Issued: October 18, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

Department of the Interior

Effective upon publication in the FEDERAL REGISTER, paragraph (a)(11) of § 6.310 is revoked.

(R.S. 1753, sec. 2, 22 Stat. 403, as amended; 5 U.S.C. 631, 633)

UNITED STATES CIVIL SERVICE COMMISSION,

[SEAL] MARY V. WENZEL,
Executive Assistant to the Commissioners.

[F.R. Doc. 60-11571; Filed, Dec. 12, 1960; 8:49 a.m.]

PART 30—ANNUAL AND SICK LEAVE REGULATIONS

Definitions; Travel Time

1. Section 30.101 is amended by the addition of three new paragraphs and rearrangement of the entire section to place the definitions in alphabetical order. As amended, the section reads as follows:

§ 30.101 Definitions.

(a) "Act" as used in this part means the Annual and Sick Leave Act of 1951, as amended.

(b) "Accrued leave" means leave earned by an employee during the current leave year.

(c) "Accumulated leave" means the unused leave remaining to the credit of the employee at the beginning of the first complete pay period occurring in any calendar year.

(d) "Agency" or "agency head" means "the heads of governing bodies" of the various Governmental agencies.

(e) "Contagious disease" means a disease ruled as subject to quarantine or requiring isolation of the patient by the health authorities having jurisdiction.

(f) "Employee" and "employees" include officer and officers, respectively.

(g) "Leave year" means the period from the beginning of the first complete pay period in the calendar year to the beginning of the first complete pay period in the following calendar year.

(h) "Medical certificate" means a written statement signed by a registered practicing physician or other practitioner, certifying to the period of disability of the patient while he was undergoing professional treatment.

(i) "Pay period" shall include biweekly, semimonthly, or other pay period when used in these regulations.

(j) "Terminal leave" means leave granted prior to separation from the Federal service without a return to duty.

(k) "United States" means the several States of the United States of America and the District of Columbia.

2. Effective the first day of the first pay period following September 6, 1960, § 30.802 is amended as set out below.

§ 30.802 Travel time.

The travel time granted an employee pursuant to § 203(e) shall be inclusive of the time necessarily occupied in traveling to and from his post of duty and his place of residence in the United States, in the Commonwealth of Puerto Rico or the possessions of the United States when his residence is outside the area of employment. His place of residence must be designated by the employee in his request for leave under the Act.

(Sec. 206, 65 Stat. 681; 5 U.S.C. 2065)

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 60-EC-57]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Segment of Federal Airway, Associated Control Areas and Reporting Points

On September 9, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 8723) stating that the Federal Aviation Agency proposed to revoke the segment of Blue Federal airway No. 3 from Goshen, Ind., to Grand Rapids, Mich., together with its associated control areas and reporting points.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), and for the reasons stated in the notice, the following actions are taken:

1. Section 600.603 (14 CFR 600.603, 25 F.R. 2159, 4450) is amended to read:

§ 600.603 Blue Federal airway No. 3 (Miami, Fla., to Tampa, Fla.; Kokomo, Ind., to Goshen, Ind.).

From the Miami, Fla., RBN via the Fort Myers, Fla., RBN to the Tampa, Fla., RR. From the INT of the S course of the Goshen, Ind., RR and the SW course of the Fort Wayne, Ind., RR to the Goshen, Ind., RR.

§ 601.603 [Amendment]

2. In the caption of § 601.603 (14 CFR 601.603, 25 F.R. 2159, 4450) *"Grand Rapids, Mich."* is deleted and *"Goshen, Ind."* is substituted therefor.

§ 601.4603 [Amendment]

3. In the caption of § 601.4603 (25 F.R. 4450) *"Grand Rapids, Mich."* is deleted and *"Goshen, Ind."* is substituted therefor.

These amendments shall become effective 0001 e.s.t. February 9, 1961.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 7, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11553; Filed, Dec. 12, 1960; 8:46 a.m.]

[Airspace Docket No. 60-WA-268]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 608—RESTRICTED AREAS

Revocation of Restricted Area and Modification of Federal Airways

The purpose of this amendment to §§ 608.26, 600.6009, and 600.6020 of the regulations of the Administrator is to revoke the Camp Villere (Slidell), La., Restricted Area (R-440) (New Orleans Chart) and modify the description of VOR Federal airways No. 9 and No. 20.

The Department of the Army has stated it no longer has a requirement for Restricted Area (R-440). Therefore, this area is unjustified as an assignment of airspace and revocation thereof will be in the public interest. Concurrent with this action, it is necessary to delete all reference to R-440 in the description of Victor 9 and Victor 20.

Since these amendments reduce a burden on the public, compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary and they may be made effective upon publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530, 25 F.R. 8005) the following actions are taken:

1. In § 608.26 *Louisiana*, the Camp Villere (Slidell), La., Restricted Area (R-440) (23 F.R. 8581, 9773, 24 F.R. 2234) is revoked.

2. In the text of § 600.6009 (14 CFR 600.6009) "The portion of this airway which lies within the geographical limits of, and between the designated altitudes of, the Camp Villere Restricted Area (R-440) is excluded during its time of designation." is deleted.

3. In the text of § 600.6020 (14 CFR 600.6020, 25 F.R. 5178, 7147, 7148, 7488) "The portion of this airway which lies within the geographical limits of, and between the designated altitudes of, the Camp Villere Restricted Area (R-440) is excluded during its time of designation." is deleted.

These amendments shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 7, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-11554; Filed, Dec. 12, 1960; 8:46 a.m.]

[Reg. Docket No. 583; Amdt. 195]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to standard instrument approach procedures contained herein are being adopted to become effective when indicated in order to promote safety. The revised procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the revised procedures specify the complete procedure and indicate the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act would be contrary to the public interest and is therefore not required.

Pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 609 is amended as follows:

1. The low or medium frequency range procedures prescribed in § 609.100(a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
				T-dn	300-1	300-1	200-½
				C-dn	500-1	600-1	600-1½
				A-dn	800-2	800-2	800-2

Standard procedure turn not authorized. All maneuvering and descent shall be accomplished in a one-minute right turn holding pattern on NW crs 303° Outbnd, 123° Inbnd. Minimum altitude, 2000'. Descent to 1400' authorized on final approach course inbnd 123°.
Minimum altitude over facility on final approach crs, 1400'.
Crs and distance, facility to airport, 153°—2.6.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 2.6 miles, make a climbing left turn to Merced LFR. Hold at 2000' on NW crs in a one-minute pattern—all turns to the right (303° Outbnd, 123° inbnd).

City, Merced; State, Calif.; Airport Name, Merced; Elev., 155'; Fac. Class., MRAWZ; Ident., CSL; Procedure No. 1, Amdt. Orig.; Eff. Date, 17 Dec. 60

2. The automatic direction finding procedures prescribed in § 609.100(b) are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure or such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those estaolished for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums

Minimum altitude over facility on final approach crs, 1000′. CAUTION: 281′ trees and terrain between LOM and LMM.
Crs and distance, facility to airport, 091°—2.7 mi.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 2.7 mi, turn right, climb to 2000′ to Coronado RBn/FM or, when directed by ATC, if visual contact not established at LMM, (1) make left climbing turn, climb to 1500′ on a 271° crs from ILS LOM within 10 mi, or (2) make left climbing turn to 2000′ on crs of 226° to Oceanside RBn. CAUTION: Buildings and terrain 472′ MSL 0.5 mile East of airport. Missed approach must be initiated at LMM if landing is not assured.
NOTE: Vectoring to final approach by Miramar Radar authorized in accordance with approved patterns.
6000–1 required on Runway 9.

City, San Diego; State, Calif.; Airport Name, Lindbergh Field; Elev., 15′; Fac. Class., LOM; Ident., SA; Procedure No. 1, Amdt. 3; Eff. Date, 17 Dec. 60; Sup Amdt. No. 2; Dated, 6 Aug. 60

3. The very high frequency omnirange (VOR) procedures prescribed in § 609.100(c) are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
					2-engine or less		More than 2-engine, more than 65 knots
From—	To—	Course and distance	Minimum altitude (feet)	Condition	65 knots or less	More than 65 knots	
				T–dn	300–1	300–1	200–½
				C–d	600–1	600–1	600–1½
				C–n	600–2	600–2	600–2
				A–dn	800–2	800–2	800–2

Procedure turn W side of crs, 007° Outbnd, 187° Inbnd, 2500′ within 10 mi.
Minimum altitude over facility on final approach crs, 2000′.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 2.0 mi, climb to 2800′ on R–214 within 10 mi.
Crs and distance, facility to airport, 187°—2.0.
CAUTION: 1780′ m.s.l. TV tower located 10 mi WNW VOR. 1350′ m.s.l. tower 2.2 mi SE of airport on direct line of NW/SE runway. 1847′ MSL tower located 3.6 mi SSE.

City, Eau Claire; State, Wis.; Airport Name, Eau Claire; Elev., 887′; Fac. Class., BVOR; Ident., EAU; Procedure No. 1, Amdt. 6; Eff. Date, 17 Dec. 60; Sup. Amdt. No. 5; Dated, 7 Dec. 58.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

PART 207—NAVIGATION REGULATIONS

Taylors Bayou, Texas; and Oakland Harbor, California

1. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.245 is hereby amended with respect to paragraph (j)(21) governing the operation of the Texas and New Orleans Railroad Company and Texas Highway Department bridges across Taylors Bayou, West Port Arthur, Texas, as follows:

§ 203.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

* * * * *

(j) *Waterways discharging into the Gulf of Mexico west of Mississippi River.* * * *

(21) Taylors Bayou, Tex.; Texas and New Orleans Railroad Company bridge and Texas Highway Department bridge at West Port Arthur. The draws need not be opened for the passage of vessels, and paragraphs (b) to (e), inclusive, of this section shall not apply to these bridges.

[Regs., Nov. 22, 1960, 285/91 (Taylors Bayou, Tex.)—ENGCW-O] (Sec. 5, 28 Stat. 362; 33 U.S.C. 499)

2. Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1), § 207.640(g)(2) is hereby amended to prescribe a system of traffic control signals to govern navigation in the entrance channel to the Naval Supply Center, Oakland Harbor, California, as follows:

§ 207.640 San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, San Joaquin River, and connecting waters, Calif.

* * * * *

(g) *Oakland Harbor in vicinity of Naval Supply Center, Oakland.* * * *

(2) All vessels over 1,000 tons displacement, bound for Naval Supply Center, Oakland, shall, before navigating the entrance channel, receive a signal that the channel is clear. Signals will be displayed on top of a signal tower which is located on top of a transit shed on the westerly end of Pier 4, Naval Supply Center. The signals are as follows:

(i) *Clear channel.* A black ball displayed from yard arm on top of signal tower between sunrise and sunset, and a green light displayed from the top of signal tower at night.

(ii) *Front channel.* A red light displayed on top of signal tower during daylight and at night with the following meanings:

One flash each 15 seconds—channel will be clear in less than 1 hour.

Two flashes each 15 seconds—channel will be foul for 1 to 3 hours.

Three flashes each 15 seconds—channel will be foul for 3 or more hours.

Effective date. These amendments shall become effective upon their publication in the FEDERAL REGISTER.

[Regs., 22 Nov. 22, 1960, 285/91 (Oakland Harbor, Calif.)—ENGCW-O] (Sec. 7, 40 Stat. 266; 33 U.S.C. 1)

R. V. LEE,
Major General, U.S. Army,
The Adjutant General.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 14]

IMPORTATION OF FEATHERS OF WILD BIRDS

Permit Fees and Quota Allocations

Notice is hereby given that pursuant to authority vested in the Secretary of the Interior by par. 1518, 46 Stat. 661, as amended (19 U.S.C. 1001, par. 1518), it is proposed to revise Part 14, Title 50, Code of Federal Regulations. The purpose of this revision is to establish a user's charge or fee for importation permits issued under Part 14 and to revise the methods of allocation and reallocation of annual import quotas among the qualified applicants. Final adoption of this revision is proposed on or about December 30, 1960, to become effective September 1, 1961.

It is the policy of the Department of the Interior whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed revision to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D.C., within 15 days of publication of this notice in the FEDERAL REGISTER.

Part 14 is revised to read as follows:

PART 14—IMPORTATION OF FEATHERS OF WILD BIRDS

Sec.
14.1 Fees and applications for importation permits.
14.2 Filing dates for applications.
14.3 Allocation of calendar year quotas.
14.4 Reallocation of unused calendar year quotas.
14.5 Issuance of importation permits.
14.6 Tenure of importation permits.
14.7 Compliance with other regulations.

AUTHORITY: §§ 14.1 to 14.7 issued under par. 1518, 46 Stat. 661, as amended; 19 U.S.C. 1001, par. 1518.

§ 14.1 Fees and applications for importation permits.

(a) Effective September 1, 1961 and thereafter, a fee of $10 will be charged for any importation permit issued pursuant to this part. Such fee must be submitted at the time and in the form prescribed in §§ 14.2(b) and 14.3(d).

(b) All persons desiring to share in the allocation of annual import quotas of skins bearing feathers of the grey jungle fowl (Callus sonneratii), the mandarin duck (Dendronessa galericulata), and the following species of pheasant: Lady Amherst pheasant (Chrysolophus amherstiae), golden pheasant (Chrysolophus pictus), silver pheasant (Lophura nycthemera), Reeves pheasant (Syrmaticus reevesii), blue-eared pheasant (Crossoptilon auritum), and brown-eared pheasant (Crossoptilon mantchuricum), must apply during the periods specified in § 14.2 by letter addressed to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D.C. The letter must contain the following information:

(1) Name and address of applicant, nature of business, and the purpose for which feathers are required.

(2) Port at which entry has been or is to be made.

(3) Quantity of each species of bird skin or part thereof for which an importation permit is desired.

(4) Certification, that in the case of grey jungle fowl and mandarin duck, the skins are to be used only in the manufacture of fishing flies.

§ 14.2 Filing dates for applications.

Each application for a quota allocation must be postmarked during the dates set forth in paragraphs (a) and (b) of this section in order to be considered.

(a) Applicants desiring to participate in the allocation of calendar year quotas shall submit applications from September 1 through September 30 of the year preceding the calendar year for which quota allocations are to be made.

(b) Applicants desiring to participate in the reallocation of such portions of the established annual quotas as may become available for reallocation, shall submit applications from July 1 through July 31 of the calendar year for which the unused portions of the quota allocations were originally made, and in order to be considered, such applications must be accompanied by the prescribed $10 fee in the form of a postal money order or a check made payable to the Bureau of Sport Fisheries and Wildlife.

§ 14.3 Allocation of calendar year quotas.

As promptly as possible after the closing date for filing, all applications timely filed will be considered and tentative quotas allocated by the method set forth in paragraphs (a) through (e) of this section. For the purposes of this section, the six species of pheasant named in § 14.1 shall be grouped together and considered as one species.

(a) The number of eligible applicants for skins of grey jungle fowl, mandarin duck, and pheasants, respectively, shall be divided into the quotas of skins available for the ensuing calendar year for the respective species, to determine the number of skins of each species the several applicants would be entitled to import on an equal basis.

(b) Any applicant for an allocation in an amount equal to or less than the average quantity established for all applicants pursuant to paragraph (a) of this section is entitled to receive an allocation of the quantity for which he applied.

(c) After the allocations are made under paragraph (b) of this section, all remaining unallocated quantities of skins of the respective species shall be allocated equally among those applicants who applied for more than the average quantities determined under paragraph (a) of this section. However, no applicant shall be allocated a quantity of skins in excess of the number applied for.

(d) Each applicant shall then be furnished a tabulation by Registered or Certified Mail, Return Receipt requested, of the quantities of each species requested and the quantities proposed to be allocated to each applicant. Each applicant must then report by letter addressed to the Director, postmarked not later than 30 days after date of receipt of the notice of proposed allocations, that he accepts the proposed allocation. The letter must contain satisfactory proof, such as a copy of a currently confirmed order, that orders have been placed for the importing of his allocation of bird skins and must be accompanied by the prescribed $10 fee in the form of a postal money order or a check made payable to the Bureau of Sport Fisheries and Wildlife. Applicants failing to respond to the notice of proposed allocations or failing to furnish the prescribed fee shall be deemed to have withdrawn their applications. Applicants who submit the required showing and fee by other than Registered or Certified Mail, do so at their own risk.

(e) Any quantities of bird skins of the respective species which become available for allocation through the failure of applicants to submit the proper showing as required in paragraph (d) of this section, shall promptly be allocated among those applicants whose requests were not satisfied in full, using the methods prescribed in paragraphs (a) through (c) of this section to determine the additional quantity of skins allowable to each such applicant.

§ 14.4 Reallocation of unused calendar year quotas.

Any portion of the calendar year quotas which may become available for reallocation through surrender or nonuse, in whole or in part, of permits expiring on June 30 of any year, shall be reallocated as promptly as possible after the closing date for filing among applicants who have submitted proper applications in accordance with § 14.2(b). Such reallocations shall be made by the method prescribed in § 14.3 (a) through (c). If the quantities of the respective species of bird skins are insufficient to permit reallocation among all applicants by such method, preference shall be given to those applications bearing the earliest postmark.

§ 14.5 Issuance of importation permits.

As soon as practicable after the annual quota allocations or reallocations have been determined, the quotas allocated to successful applicants shall be evidenced by importation permits, issued in letter

form, directed to the respective Collectors of Customs at the Ports of Entry specified in the applications. Such permits shall authorize the entry, or withdrawal from warehouse, of the quantities of bird skins allocated to each applicant. Until such time as it shall be found necessary to reduce the import quota established for pheasants, importation permits will not differentiate between the six species of pheasant named in § 14.1, but will authorize the importation of a stated number of pheasant skins in the aggregate, without specifying the species. A copy of the importation permit will be furnished each successful applicant as notice to him of his allocation. Importation permits are nontransferable and are subject to cancellation only if it is determined that the permit has been mistakenly issued, that the applicant has made a material misrepresentation in connection therewith, or if the permittee informs the Director that he will be unable to bring or import his quota of bird skins into the United States during the period specified in the permit. Permits are also subject to the further conditions set forth in § 14.6.

§ 14.6 Tenure of importation.

(a) Importation permits covering the calendar year quota allocations are issued as of January 1, and remain in effect through June 30 of the year of issue. No extension of time shall be granted on such permits and any portion of the quota allocations which become available through surrender or nonuse, in whole or in part, of a permit expiring on June 30, shall be reallocated among applicants who submit proper applications.

(b) Importation permits covering the reallocations made pursuant to § 14.2 (b) shall be issued as promptly as possible after July 31 and remain in effect through December 31 of the year of issue. No extension of time shall be granted on such permits, and any portion of the quotas so reallocated which are not imported through surrender of nonuse of reallocation permits, in whole or in part, on or before December 31 of the year of issue, shall lapse and no further allocation thereof shall be made.

§ 14.7 Compliance with other regulations.

Any importation permitted by the regulations in this part is also subject to any applicable health, quarantine, customs, or other requirements imposed by law or by regulation of duly authorized Federal or State agencies and municipalities.

ELMER F. BENNETT,
Under Secretary of the Interior.

DECEMBER 8, 1960.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 901]

[Docket No. AO-326]

MILK IN DENVER, COLO., MARKETING AREA

Notice of Hearing on Proposed Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the State Grange Building, 2425 West 26th Avenue, Denver, Colorado, beginning at 10:00 a.m., local time, on January 4, 1961, with respect to a proposed marketing agreement and order, regulating the handling of milk in the Denver, Colorado, marketing area.

The public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the proposed marketing agreement and order, hereinafter set forth, and any appropriate modifications thereof; and for the purpose of determining (1) whether the handling of milk in the area proposed for regulation is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects interstate or foreign commerce, (2) whether there is need for a marketing agreement or order regulating the handling of milk in the area, and (3) whether provisions specified in the proposals or some other provisions appropriate to the terms of the Agricultural Marketing Agreement Act of 1937, as amended, will tend to effectuate the declared policy of the Act.

The proposals, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by the Denver Milk Producers, Inc.:

Proposal No. 1.

DEFINITIONS

§ 901.1 Act.

"Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

§ 901.2 Secretary.

"Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the United States authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 901.3 Department.

"Department" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in this part.

§ 901.4 Person.

"Person" means any individual, partnership, corporation, association, or any other business unit.

§ 901.5 Cooperative Association.

"Cooperative Association" means any cooperative association of producers which the Secretary determines, after application by the association to be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act".

§ 901.6 Denver, Colorado, marketing area.

"Denver, Colorado, marketing area" hereinafter called the "marketing area" means all territory within the boundaries of the counties of Adams, Arapahoe, Boulder, Cheyenne, Clear Creek, Denver, Douglas, Elbert, Gilpin, Grand, Jefferson, Kit Carson, Larimer, Lincoln, Logan, Morgan, Park, Phillips, Sedgwick, Washington, Weld, and Yuma, all in the State of Colorado.

§ 901.7 Pool plant.

A "pool plant" shall be any plant meeting the conditions of paragraph (a) or (b) of this section except the plant of a handler exempted in § 901.60 or § 901.61:

(a) Any plant hereinafter referred to as a "distributing pool plant" in which fluid milk products are pasteurized or packaged and from which 20 percent or more of the total Class I sales are made on routes in the marketing area: *Provided*, That the total quantity of Class I milk disposed from such plant during the month is not less than 50 percent of such plants receipts of Grade A milk, which receipts shall include all milk diverted from such pool plant to a nonpool plant by the handler operating such pool plant or by a cooperative association;

(b) Any plant hereinafter referred to as a "supply pool plant" from which during the month not less than 50 percent of its dairy farm supply of Grade A milk is moved to a distributing pool plant: *Provided*, That any supply plant which has qualified as a pool plant for each of the months of September through February in any year shall be a pool plant for each of the months of March through August unless written request for nonpool status is furnished in advance to the market administrator.

§ 901.8 Nonpool plant.

"Nonpool plant" means any milk receiving, manufacturing, or processing plant other than a pool plant.

§ 901.9 Handler.

"Handler" means;

(a) Any person in his capacity as the operator of a pool plant;

(b) Any person who operates a nonpool plant from which fluid milk products are disposed of on routes in the marketing area; or

(c) A cooperative association with respect to the milk of its member producers which is diverted from a pool plant to a nonpool plant for the account of such cooperative association. Such milk shall be considered as having been received by such cooperative association at the plant to which it was diverted.

§ 901.10 Producer.

"Producer" means any person other than a producer-handler who produces milk in compliance with fluid milk product requirements of a duly constituted health authority having jurisdiction within the marketing area and whose milk is (a) received at a pool plant in an amount representing 16 or more days production during the month or (b) diverted to a nonpool plant for the account of a handler in an amount not to exceed 15 days production. Milk so diverted shall be deemed to have been received by the diverting handler at the plant to which it was diverted.

§ 901.11 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant at which, during the month, there is received no other source milk or milk from other producers.

§ 901.12 Producer milk.

"Producer milk" means all skim milk and butterfat in milk produced by a producer and received at a pool plant directly from producers or diverted pursuant to § 901.10.

§ 901.13 Other source milk.

"Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month of fluid milk products except: (1) Receipts from other pool plants or (2) producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 901.14 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream (sweet or sour, including any mixture of cream and milk or skim milk) and concentrated (fresh or frozen) milk, flavored milk or flavored milk drinks which are neither sterilized nor in hermetically sealed cans.

§ 901.15 Route.

"Route" means any delivery to retail or wholesale outlets (including delivery by a vendor or a sale from a plant or plant store) of any fluid milk product, other than a delivery to a pool plant or nonpool plant.

MARKET ADMINISTRATOR

§ 901.20 Designation.

The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at, the discretion of the Secretary.

§ 901.21 Powers.

The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 901.22 Duties.

The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this part;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds received by § 901.88 the cost of his bond and those of his employees, his own compensation, and all other expenses (except those incurred under § 901.87) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Verify all reports and payments of each handler, by audit of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and by such other means as are necessary;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the date upon which he is required to perform such acts, has not made (1) reports pursuant to § 901.30 to § 901.32 or (2) payments pursuant to § 901.80 to § 901.88;

(i) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate, and mail to each handler at his last known address, the prices determined for each month as follows:

(1) On or before the 6th day of each month, the Class I price and butterfat differential for the month, computed pursuant to § 901.51(a) and § 901.53(a), respectively;

(2) On or before the 6th day of each month, the Class II price and butterfat differential for the preceding month, computed pursuant to § 901.51(b) and § 901.53(b), respectively;

(3) On or before the 12th day of each month, the uniform price for producer milk computed pursuant to § 901.71, the location differential computed pursuant to § 901.81, and the butterfat differential computed pursuant to § 901.82, all for the preceding month;

(j) On or before the 12th day after the end of each month, report to each cooperative association which so requests the amount and class utilization of producer milk delivered by members of such association to each handler receiving such milk. For the purpose of this report, the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler; and

(k) Prepare and make available for the benefit of producers, consumers, and handlers, such general statistics and such information concerning the operations hereof as are appropriate to the purpose and functioning of this part and which do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 901.30 Reports of receipts and utilization.

On or before the 7th day after the end of each delivery period each handler, except a producer-handler or handler making payments pursuant to § 901.62(a) shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The receipts at each plant of milk from each producer, the average butterfat test, and the pounds of butterfat contained therein;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) fluid milk products received from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk;

(d) The pounds of skim milk and butterfat contained in all fluid milk products on hand at the beginning and at the end of the delivery period;

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section; and

(f) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 901.31 Payroll reports.

On or before the 23d day of each delivery period, each handler except a producer-handler or a handler making payments pursuant to § 901.62(a) shall submit to the market administrator his producer payroll for receipts during the preceding delivery period which shall show:

(a) The total pounds of milk, the average butterfat test thereof, and the pounds of butterfat received from each producer and cooperative association;

(b) The amount of payment to each producer and cooperative association; and

(c) The nature and amount of any deduction or charges involved in such payments.

§ 901.32 Other reports.

Each producer-handler and each handler making payments pursuant to § 901.61 or § 901.62(a) shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

§ 901.33 Records and facilities.

Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and tests for butterfat and other content of all products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all items of products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions, and the disbursement of money so deducted.

§ 901.34 Retention of records.

All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c(15)(A) of the Act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 901.40 Skim milk and butterfat to be classified.

All skim milk and butterfat at pool plants which is required to be reported pursuant to § 901.30 shall be classified by the market administrator, pursuant to the provisions of §§ 901.41 to 901.46.

§ 901.41 Classes of utilization.

Subject to the conditions set forth in §§ 901.42 to 901.46, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat (1) disposed of in the form of fluid milk products except those classified pursuant to paragraph (b) (2) and (3) of this section, or (2) not specifically accounted for as Class II utilization;

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat: (1) Used to produce any product other than a fluid milk product; (2) accounted for as livestock feed; (3) in skim milk dumped after prior notification to and opportunity for verification by the market administrator; (4) in inventory of fluid milk products on hand at the end of the month; (5) in shrinkage allocated to receipts of producer milk but not in excess of 2 percent of receipts of skim milk and butterfat directly from producers, plus 1.5 percent of receipts of skim milk and butterfat, respectively, transferred in bulk from pool plants of other handlers, less 1.5 percent of skim milk and butterfat, respectively, disposed of in bulk lots to the pool plants of other handlers; and (6) in shrinkage allocated to receipts of other source milk.

§ 901.42 Shrinkage.

The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat (1) in the quantity of milk from producers and in bulk tanks from pool plants of other handlers, and (2) in other source milk.

§ 901.43 Responsibility of handlers and reclassification of milk.

(a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 901.44 Transfers.

Skim milk or butterfat disposed of from a pool plant shall be classified:

(a) As Class I milk if transferred or diverted in the form of fluid milk product to the pool plant of another handler unless utilization in Class II is mutually indicated in writing to the market administrator by the operators of both plants on or before the 7th day after the end of the delivery period within which such transfer occurred: *Provided*, That the skim milk or butterfat so assigned to Class II shall be limited to the amount thereof remaining in Class II in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 901.46, and any additional amount of such skim milk or butterfat shall be assigned to Class I: *And provided further*, That if either or both plants have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk;

(b) As Class I milk if transferred in the form of a fluid milk product to a producer-handler;

(c) As Class I milk if transferred or diverted in the form of a fluid milk product to a nonpool plant located more than 200 miles from the Denver or Larimer County Courthouse, whichever is closer, by the shortest highway distance as determined by the market administrator;

(d) As Class I milk if transferred to a nonpool plant in the form of a fluid milk product in consumer packages; and

(e)(1) As Class I milk, if transferred or diverted in the form of a fluid milk product, in bulk, to a nonpool plant located not more than 200 miles from the Denver or Larimer County Courthouse, whichever is closer, by the shortest highway distance as determined by the market administrator, unless the following conditions are met:

(i) The transferring handler claims Class II utilization in his report submitted pursuant to § 901.30;

(ii) The operator of the nonpool plant keeps adequate books and records showing the utilization of all skim milk and butterfat received at such plant and the market administrator is permitted to examine such books and records for the purpose of verification; and

(iii) The skim milk and butterfat so transferred or diverted is allocated to the highest use classification remaining after subtracting in series beginning with the highest use classification, the skim milk and butterfat in milk received at the nonpool plant directly from dairy farmers who the market administrator determines constitutes its regular source of supply for Class I milk.

(2) If any skim milk or butterfat is transferred to a second nonpool plant under this paragraph, the same conditions of audit, classification, and allocation shall apply.

§ 901.45 Computation of skim milk and butterfat in each class.

For each month, the market administrator shall correct for mathematical and other obvious errors, the report submitted by each handler pursuant to § 901.30 and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk at all of the pool plants of such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be a quantity equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 901.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 901.45 the market administrator shall determine the classification of milk received from producers at the pool plant(s) of each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk allocated to shrinkage in skim milk received from producers pursuant to § 901.41(b)(5);

(2) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in other source milk other than that to be subtracted pursuant to subparagraph (3) of this paragraph;

(3) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in other source milk received from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the Act;

(4) Subtract from the pounds of skim milk remaining in each class the skim milk received from other pool plants according to its classification as determined pursuant to § 901.44(a).

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the pounds of skim milk remaining in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(7) Subtract from the pounds of skim milk remaining in each class any amount by which the pounds of skim milk remaining in both classes exceed the pounds of skim milk in milk received from producers in series beginning with Class II. Such excess shall be called "overage".

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of the Class I milk and of the Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 901.50 Basic formula price.

The basic formula price of each month to be used in determining the class prices set forth in § 901.51, shall be the higher of the prices computed pursuant to paragraphs (a) and (b) of this section, rounded to the nearest one-tenth cent:

(a) Determine the average of the basic, or field prices paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the Department:

Present Operator and Location

Carnation Co., Sparta, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-Score) bulk creamery butter per pound at Chicago, as reported by the Department during the month, subtract 3 cents, add 20 percent thereof, and multiply by 3.5.

(2) From the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound of nonfat dry milk, spray and roller process, respectively, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, multiply by 8.5, and then multiply by 0.965.

§ 901.51 Class prices.

Subject to the provisions of §§ 901.52 and 901.53, the class prices per hundredweight for the month shall be as follows:

(a) *Class I milk.* During the first eighteen months following the effective date of this part, the basic formula price for the preceding month plus $2.335.

(b) *Class II milk.* During the months of August through February the basic formula price for the month, and during the months of March through July the basic formula price for the month less 20 cents.

§ 901.52 Location differentials to handlers.

For milk which is received from producers at a pool plant located more than 80 miles by the shortest highway distance, as determined by the market administrator, from the Courthouse in Denver or Larimer, whichever is closest, and which is classified as Class I milk the prices computed pursuant to § 901.51 (a) shall be reduced by 13.5 cents of such plant is located more than 80 miles but not more than 90 miles from such Courthouse and by an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 90 miles: *Provided*, That for the purpose of calculating such differential transfers between pool plants shall be assigned to Class I milk in a volume not in excess of that by which Class I disposition at the transferee plant exceeds the receipts from producers at such plant, such assignment to transferor plants to be made first to plants at which no differential credit is applicable and then in the sequence beginning with the plant at which the lowest location differential credit would apply.

§ 901.53 Butterfat differentials to handlers.

For milk containing more or less than 3.5 percent butterfat, the class prices pursuant to § 901.51 shall be increased or decreased, respectively, for each one-tenth of one percent of butterfat by the appropriate rate rounded in each class to the nearest one-tenth cent, determined as follows:

(a) *Class I milk.* Multiply the butter price specified in § 901.50(b)(1) for the preceding month by 1.40 and divide the result by 10.

(b) *Class II milk.* Multiply the butter price specified in § 901.50(b)(1) by 1.20 and divide the result by 10.

§ 901.54 Use of equivalent prices.

If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 901.60 Producer-handler.

Sections 901.40 to 901.46, 901.50 to 901.54, 901.70 to 901.72, and 901.80 to 901.88 shall not apply to a producer-handler.

§ 901.61 Exempt plants.

The provisions of this part shall not apply to any distributing pool plant which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless (a) more Class I milk is disposed of from such plant on routes in the Denver marketing area than in the marketing area regulated pursuant to such other order, or (b) such plant was qualified as a supply plant under the other order, except that the operator of such plant shall make such reports of receipts and utilization of milk as the market administrator may require and allow verification of such reports by the market administrator.

§ 901.62 Handler operating a nonpool plant.

In lieu of the payments required pursuant to §§ 901.80 to 901.88, each handler, other than a producer-handler or one exempt pursuant to § 901.61, who operates during the month a nonpool plant, shall pay to the market administrator on or before the 25th day after the end of the month the amounts calculated pursuant to paragraph (a) of this section unless the handler elects, at the time of reporting pursuant to § 901.30, to pay the amounts computed pursuant to paragraph (b) of this section;

(a) The following amounts:

(1) To the producer-settlement fund, an amount equal to the value of all skim milk and butterfat disposed of as Class I

milk on routes in the marketing area at the Class I price applicable at the location of such handler's plant, less the value of such skim milk and butterfat at the Class II price; and

(2) As his share of the expense of administration, the rate specified in § 901.88 with respect to Class I milk so disposed of in the marketing area.

(b) The following amounts:

(1) To the producer-settlement fund, any plus amount remaining after deducting from the value that would have been computed pursuant to § 901.70 if such handler had operated a pool plant the gross payments made by such handler for milk received during the month from Grade A dairy farmers at such plant or at a plant which serves as a supply plant; and

(2) As his share of the expense of administration, an amount equal to that which would have been computed pursuant to § 901.88 had such plant been a pool plant, except that if such plant is also a nonpool plant under another order issued pursuant to the Act, and his Class I sales in such other marketing area exceed those made in the Denver marketing area, the payments due under this subparagraph shall be reduced by the amount of any administrative expense payments under the other order.

DETERMINATION OF UNIFORM PRICE

§ 901.70 Computation of the value of producer milk for each handler.

For each month, the market administrator shall compute the value of producer milk for each handler as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to § 901.46 by the applicable class price and total the resulting amounts;

(b) Add an amount computed by multiplying the pounds of any overage deducted from any class pursuant to § 901.46(a)(7) and, the corresponding step of § 901.46(b) by the applicable class price;

(c) Add an amount computed by multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the hundredweight of skim milk and butterfat remaining in Class II milk after the calculations pursuant to § 901.46 (a) (6) and (b) for the preceding month or the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 901.46(a)(5) and the corresponding step of § 901.46(b) for the current month, whichever is less; and

(d) For any skim milk or butterfat subtracted from Class I milk pursuant to § 901.46(a)(2) and the corresponding step of § 901.46(b), and pursuant to § 901.46(a)(5) and the corresponding step of § 901.46(b) which is in excess of the skim milk and butterfat applied pursuant to paragraph (c) of this section, add an amount equal to the differences between the values of such skim milk and butterfat at the Class I price and at the Class II price: *Provided*, That such calculations shall not apply if the total receipts of producer milk at pool plants during the month are less than 110 percent of the total Class I utilization of such plants for the month.

§ 901.71 Computation of the uniform price.

The market administrator shall compute the uniform price per hundredweight of producer milk as follows:

(a) Combine into one total the values computed pursuant to § 901.70 for the producer milk of all handlers who submitted reports prescribed in § 901.30, and who are not in default of payments pursuant to § 901.80 for the preceding month;

(b) Subtract, if the average butterfat content of the producer milk included under paragraph (a) of this section is greater than 3.5 percent, or add, if such average butterfat content is less than 3.5 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential pursuant to § 901.82 and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deduction to be made from producer payments for location differentials pursuant to § 901.81;

(d) Add an amount equal to one-half of the unobligated balance on hand in the producer-settlement fund;

(e) Divide the resulting amount by the total hundredweight of producer milk included under paragraph (a) of this section; and

(f) Subtract not less than 4 cents nor more than 5 cents. The resulting figure shall be the uniform price per hundredweight of producer milk of 3.5 percent butterfat content delivered to plants within the 80-mile zone.

§ 901.72 Notification of handlers.

On or before the 12th day after the end of each month, the market administrator shall mail to each handler, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the total thereof;

(b) The uniform price computed pursuant to § 901.71 and the producer location and butterfat differentials computed pursuant to §§ 901.81 and 901.82; and

(c) The amounts to be paid by such handler pursuant to §§ 901.84, 901.86, 901.87, and 901.88 and the amount due such handler pursuant to § 901.85.

PAYMENTS

§ 901.80 Payment to producers.

Except as provided in paragraph (c) of this section, each handler shall make payment to each producer from whom milk is received as specified in paragraphs (a) and (b) of this section:

(a) On or before the last day of the month, to each producer who had not discontinued shipping milk to such handler before the 18th day of the month, an advance payment with respect to milk received during the first 15 days of the month at the Class II price for the preceding month;

(b) On or before the 16th day after the end of each month, for milk received during such month, an amount computed at not less than the uniform price per hundredweight pursuant to § 901.71, subject to the butterfat differential computed pursuant to § 901.82 and location adjustment computed pursuant to § 901.81, plus or minus adjustments for errors made in previous payments to such producers and less (1) payments made pursuant to paragraph (a) of this section, (2) marketing service deductions pursuant to § 901.87, and (3) proper deductions authorized in writing by such producer: *Provided*, That if by such date such handler has not received full payment for such delivery period pursuant to § 901.85 he may reduce his total payment to all producers uniformly by not less than the amount of reduction in payment from the market administrator; the handler shall, however, complete such payments not later than the date for making such payments pursuant to this paragraph next following receipt of the balance from the market administrator.

(c) (1) Upon receipt of a written request from a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association each handler shall pay to the cooperative association on or before the second day prior to the date of payment to producers in lieu of payments pursuant to paragraphs (a) and (b), respectively, of this section an amount equal to the sum of the individual payments otherwise payable to such producers. The foregoing payment shall be made with respect to milk of each producer whom the cooperative association certifies is a member effective on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the cooperative association.

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the cooperative association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination.

(d) In making the payments to producers pursuant to paragraphs (b) and (c) of this section, each handler shall furnish each producer or cooperative association from whom he has received milk with a supporting statement which shall show for each month:

(1) The month and the identity of the handler and of the producer:

(2) The total pounds and the average butterfat content of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required pursuant to this part;

(4) The rate which is used in making the payment if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer.

§ 901.81 Location differential to producers.

For milk which is received at pool plants located more than 80 miles but not more than 90 miles by shortest highway distance, as determined by the market administrator, from the Courthouse in Denver or Larimer County, whichever is closest, there should be deducted 13.5 cents per hundredweight and an additional 1.5 cents shall be deducted for each 10 miles or fraction thereof that such distance exceeds 90 miles.

§ 901.82 Butterfat differential to producers.

The applicable uniform price to be paid producers pursuant to § 901.80 shall be increased or decreased for each one-tenth of one percent which the butterfat content of milk is above or below 3.5 percent, respectively, by a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a) and (b) of § 901.52 weighted by the pounds of butterfat in producer milk in each class and the result rounded to the nearest tenth of a cent.

§ 901.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 901.62 and 901.84 and out of which he shall make all payments pursuant to § 901.85: *Provided*, That any payments due to any handler shall be offset by any payments due from such handler.

§ 901.84 Payments to the producer-settlement fund.

On or before the 14th day after the end of each month, each handler who operates a pool plant shall pay to the market administrator any amount by which the value of his producer milk as computed pursuant to § 901.70, is greater than the amount owed by him for such milk at the appropriate uniform prices determined pursuant to § 901.80.

§ 901.85 Payments out of the producer-settlement fund.

On or before the 14th day after the end of each month, the market administrator shall pay to each handler any amount by which the total value of his producer milk, computed pursuant to § 901.70 is less than the amount owed by him for such milk at the appropriate uniform price determined pursuant to § 901.80. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the funds are available.

§ 901.86 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts or other verification discloses errors resulting in moneys due a producer or the market administrator from such handler or due such handler from the market administrator; the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments as set forth in the provisions under which such error occurred.

§ 901.87 Marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler in making payments to producers for milk (other than milk of his own production) pursuant to § 901.80, shall deduct 6 cents per hundredweight, or such lesser amount as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 16th day after the end of the month. Such money shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such services from a cooperative association;

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to producers as may be authorized by the membership agreement or marketing contract between the cooperative association and its members, and on or before the 16th day after the end of each month, the handler shall pay the aggregate amount of such deductions to the cooperative association, furnishing a statement showing the amount of the deductions and the quantity of milk on which the deduction was computed from each producer.

§ 901.88 Expense of administration.

As his pro rate share of the expense of the administration hereof, each handler shall pay the market administrator, on or before the 16th day after the end of each month, 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to (a) all milk received from producers during such month, including such handler's own farm production, (b) other source milk received at a pool plant and classified as Class I, and (c) the quantities of milk at the plants of handlers operating nonpool plants as specified in § 901.62 (a)(2) or (b)(2).

§ 901.89 Termination of obligations.

The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator received the handler's utilization report on the milk involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The months during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the names of such producer or cooperative associations, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the 2-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said 2-year period, with respect to such obligation shall not begin to run until the first day of the month following the month during which all such books and records pertaining to such obligations are made available to the market administrator or his representative.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the payment (including deduction or offset by the market administrator) was made by the handler, if a refund on such payment is claimed unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 901.90 Effective time.

The provisions of this part or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 901.91 Suspension or termination.

The Secretary shall, whenever he finds that any or all provisions of this part, or

any amendment thereto, obstruct or do not tend to effectuate the declared policy of the Act, terminate or suspend the operation of any or all provisions of this part or any amendment thereto. This part shall terminate in any event whenever the provisions of the Act authorizing it cease to be in effect.

§ 901.92 Continuing obligations.

If upon the suspension or termination of any or all provisions of this part, or any amendment thereto, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 901.93 Liquidation.

(a) Upon the suspension or termination of any or all provisions of this part, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition.

(b) If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 901.100 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent and representative in connection with any of the provisions of this part.

§ 901.101 Separability of provisions.

If any provisions of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Proposed by the Cache Valley Dairy Association:

Proposal No. 2. Modify §§ 901.1 through 901.70 of the order included in Proposal No. 1 to read as follows:

DEFINITIONS

§ 901.1 Act.

(Same as proponents).

§ 901.2 Secretary.

(Same as proponents).

§ 901.3 Department.

(Same as proponents).

§ 901.4 Person.

(Same as proponents).

§ 901.5 Cooperative Association.

(Same as proponents).

§ 901.6 Marketing area.

(Same as proponents).

§ 901.7 Fluid milk product.

"Fluid milk product" means the fluid form of milk, skim milk, buttermilk, milk concentrates, milk drinks (plain or flavored) cream (including sterilized cream), or any mixture of milk, skim milk, or cream which is approved for human consumption within the marketing area, except:

(a) Storage cream held in a commercial warehouse;

(b) Sour cream, or products with a sour cream base;

(c) Aerated cream products;

(d) Ice cream, ice cream mix, frozen desserts, or frozen dessert mix; and

(e) Evaporated or condensed milk and sterilized condensed products packaged in hermetically sealed metal containers.

§ 901.8 Route delivery.

"Route delivery" means delivery (including disposition from a plant store or from a distribution point and distribution by a vendor) of a fluid milk product(s) to a wholesale, institutional, or retail outlet(s) other than to a:

(a) Milk plant(s);

(b) Distribution point(s); or

(c) Food processing plant(s) for use other than for fluid consumption.

§ 901.9 Fluid milk plant.

"Fluid milk plant" means the building used for the receipt, preparation, or processing of milk which is approved by a duly constituted health authority for disposition as a fluid milk product, and:

(a) All or a portion of such milk is (1) disposed of during the month in the form of a fluid milk product(s) in the marketing area through route delivery, or (2) moved in the form of a fluid milk product(s) to a plant which disposes of milk as described in subparagraph (1) of this paragraph: *Provided*, That this definition shall not include any building which is used to hold or store bottled milk or milk products in finished form in transit for route delivery: *And provided further*, That this definition shall not include any location or equipment used for the transfer of milk which has moved from the farm in a tank truck and is commingled with other milk before entering a building: *And provided further*, That a "fluid milk plant" pursuant to this section shall not mean such portions of a building used for receiving or processing such milk, or milk products, as is required by the appropriate health authority to be kept physically separate from the receiving or processing of fluid milk product(s) for the community(s) served.

§ 901.10 Nonfluid milk plant.

"Nonfluid milk plant" means any milk receiving, manufacturing or processing plant other than a "fluid milk plant".

§ 901.11 Handler.

"Handler" means (a) any person who operates a fluid milk plant qualified pursuant to § 901.9, or (b) any cooperative association with respect to milk diverted by it in accordance with the conditions set forth in § 901.14(c)(2).

§ 901.12 Approved dairy farmer.

"Approved dairy farmer" means any person who produces milk which is:

(a) Approved by a duly constituted health authority for the production of milk for fluid disposition and which milk is permitted by the appropriate health authority in the marketing area to be disposed of as a fluid milk product within the marketing area (this definition shall include approval of milk by the authority to administer the regulations governing the quality of milk acceptable to agencies of the U. S. Government for fluid consumption in its institutions or bases located in the marketing area during any month in which such milk is disposed of to such institutions or bases); and

(b) Received at a fluid milk plant or diverted in accordance with the conditions set forth in § 901.14(c).

§ 901.13 Producer-handler.

"Producer-handler" means any person who processes and packages milk from his own farm production, who distributes any portion of such milk on delivery routes within the marketing area, and who receives no fluid milk product from other dairy farmers or from any source other than a fluid milk plant qualified pursuant to § 901.9: *Provided*, That any person who desires to qualify as a producer-handler shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence that:

(a) The care and management of all the dairy animals and other resources necessary to produce the entire amount of fluid milk products handled (excluding receipts from plants qualified pursuant to § 901.9) is the personal enterprise of and at the personal risk of such person; and

(b) The operation of the processing and distribution milk business is the personal enterprise of and at the personal risk of such person.

§ 901.14 Pool plant.

"Pool plant" means a fluid milk plant meeting the conditions of paragraph (a) or (b) of this section, except a plant operated by a producer-handler, or a plant pooled under another order issued pursuant to the Act:

(a) Any such plant wherein, during the months of August through January, at least 50 percent, and during all other months, at least 30 percent of the milk of approved dairy farmers reported pursuant to § 901.30 is classified as Class I milk pursuant to § 901.41(a), and at least 20 percent of such Class I milk is a route delivery(s) within the marketing area;

(b) Any such plant wherein, during the months of August through January, at least 50 percent, and during all other months, at least 30 percent of the milk of approved dairy farmers reported pursuant to § 901.30 is delivered to (and is physically received in) a plant(s) which operated in the manner described in paragraph (a) of this section: *Provided*, That any such plant that was a pool plant during each of the months of August through January immediately preceding shall continue to be a pool plant for each of the succeeding months of February through July unless the milk received at the plant does not continue to be qualified for use as a fluid milk product in the marketing area, or the plant delivers more than 50 percent of its milk from approved dairy farmers to a plant(s) regulated under another order issued pursuant to the Act, or the operator of the plant notifies the market administrator in writing that the plant should be withdrawn from the pool, and in the event such notification is given, the plant will no longer be a pool plant starting with the beginning of the delivery period following receipt of the notification by the market administrator, except during any delivery period(s) in which the pool plant requirements under this paragraph are fulfilled; and

(c) For the purpose of this definition (1) milk of an approved dairy farmer diverted by a handler other than a cooperative association from a pool plant to the pool plant of another handler for not more than ten consecutive days (10 days' production in the case of every-other-day pick up) during any month shall be deemed to have been received at the pool plant from which diverted, and milk diverted for more than ten consecutive days during the month shall be considered as received at the plant to which it was diverted for the entire period of diversion; (2) milk diverted by a cooperative association, which does not operate a pool plant, for the account of such cooperative association from the pool plant of another handler to a nonpool plant shall be considered to have been received by such cooperative association at a pool plant at the same location as that from which the milk was diverted; and (3) milk diverted from a pool plant by the handler operating such pool plant to a nonpool plant shall be considered to have been received at the plant from which diverted.

§ 901.15 Producer.

"Producer" means an approved dairy farmer described pursuant to § 901.12, other than a producer-handler, whose milk is:

(a) Received at a pool plant; or

(b) Diverted from a pool plant by a handler for his account: *Provided*, That for each of the months of August through January milk so diverted shall be limited to deliveries of such person not exceeding 12 days production during such month.

§ 901.16 Producer milk.

"Producer milk" means milk produced by one or more producers handled under the conditions set forth pursuant to § 901.15.

§ 901.17 Other source milk.

"Other source milk" means all skim milk and butterfat contained in, or represented by:

(a) Receipts during the month in the form of a fluid milk product(s), except:

(1) Producer milk;

(2) Fluid milk products received from other pool plants;

(3) Inventory of fluid milk products at the beginning of the month; or

(4) Cream held in storage by the handler pursuant to § 901.41(b)(3); and

(b) Products derived in whole or in part from milk, other than fluid milk products, from any source (including those produced at the plant) which are repackaged, reprocessed or converted to another product in the plant, or for which other utilization or disposition is not established pursuant to § 901.41.

§ 901.18 Nonpool plant.

"Nonpool plant" means a fluid, or nonfluid milk plant other than a pool plant.

MARKET ADMINISTRATOR

§ 901.20 Designation.

(Same as proponents).

§ 901.21 Powers.

(Same as proponents).

§ 901.22 Duties.

(Same as proponents).

REPORTS, RECORDS, AND FACILITIES

§ 901.30 Reports of receipts and utilization.

(Same as proponents).

§ 901.31 Payroll reports.

(Same as proponents).

§ 901.32 Other reports.

(Same as proponents).

§ 901.33 Records and facilities.

(Same as proponents).

§ 901.34 Retention of records.

(Same as proponents).

CLASSIFICATION

§ 901.40 Skim milk and butterfat to be classified.

(Same as proponents).

§ 901.41 Classes of utilization.

The classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including that used to produce concentrated and reconstituted or fortified skim milk) and butterfat (1) disposed of as a fluid milk product except those classified pursuant to paragraph (b)(2) of this section, and (2) not specifically accounted for as Class II milk; and

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce other than a fluid milk product; (2) disposed of for livestock feed and skim milk (only) dumped, upon prior notice as prescribed by the market administrator; (3) in cream stored and frozen; (4) in inventory of fluid milk products on hand at the end of the month; (5) in shrinkage not to exceed one-half of one percent of the skim milk and butterfat, respectively, in producer milk physically received at the plant, plus one and one-half percent of such receipts and of the receipts of skim milk and butterfat in bulk fluid milk products from pool plants, less such products disposed of by such plants in bulk to another plant; and (6) in shrinkage of other source milk.

§ 901.42 Shrinkage.

In computing shrinkage for the purposes of § 901.41(b) (5) and (6) the market administrator shall determine the shrinkage of skim milk and butterfat, respectively, in the following manner:

(a) Compute total shrinkage at each pool plant by subtracting the skim milk and butterfat, respectively, classified as Class I milk pursuant to § 901.41(a)(1) and as Class II milk pursuant to § 901.41(b)(1), (2), (3), and (4) (subject to the provisions of §§ 901.43 to 901.45) from the receipts of the skim milk and butterfat, respectively, required to be reported pursuant to § 901.30; and

(b) Prorate the total shrinkage of skim milk and butterfat, respectively, computed pursuant to paragraph (a) of this section, among the pounds of producer milk, physically received at such plant, other source milk received in the form of fluid milk products in bulk, and fluid milk products in bulk received from other pool plants in excess of transfers of such products in bulk to other plants.

§ 901.43 Responsibility of handlers and reclassification of milk.

(Same as proponents.)

§ 901.44 Transfers.

Skim milk or butterfat disposed of by a handler from a pool plant shall be classified as follows:

(a) As Class I milk if transferred or diverted in the form of a fluid milk product to another pool plant, unless:

(1) Utilization in another class is claimed by the operator of both plants in their reports submitted pursuant to § 901.30; and

(2) The transferee plant has utilization in Class II milk of an equivalent amount of skim milk and butterfat, respectively, after making the assignments pursuant to § 901.46(a) (1) to (5) and the corresponding steps of § 901.46(b) and any remaining quantities shall be classified as Class I milk: *Provided*, That if the transferring plant has other source milk during the month, the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the highest priced available class utilization to the producer milk at both plants;

(b) As Class I milk if transferred or diverted to a producer-handler in the form of a fluid milk product;

(c) As Class I milk, if transferred or diverted in the form of a fluid milk product, in bulk tank loads or containers larger than 5 gallons, to a nonpool plant located in Cache or Weber Counties of the State of Utah, or not more than 200 miles from the Denver County Courthouse by the shortest highway distance, as determined by the market administrator, unless the following conditions are met:

(1) The handler claims classification in Class II in his report submitted to the market administrator pursuant to § 901.30;

(2) The operator of the nonpool plant maintains books and records showing the receipts and utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for verification;

(3) An amount of skim milk and butterfat, respectively, of not less than that so claimed by the handler was used in products included in Class II milk;

(4) The classification reported by the handler results in an amount of skim milk and butterfat in Class I milk claimed by all handlers transferring or diverting milk to such nonpool plant of not less than the amount of assignable Class I milk remaining after the following computation:

(i) From the total skim milk and butterfat, respectively, in fluid milk products disposed of from such nonpool plant and classified as Class I milk, pursuant to the classification provisions of this order applied to such nonpool plant, subtract the skim milk and butterfat received at such plant directly from dairy farmers who are approved by a duly constituted health authority to supply Grade A milk and who the market administrator determines constitute the regular source of supply for such nonpool plant; and

(ii) From the remaining amount of Class I milk, subtract the skim milk and butterfat, respectively, in fluid milk products received from another market and which is classified and priced as Class I milk pursuant to another order issued pursuant to the Act: *Provided*, That the amount subtracted pursuant to this subdivision shall be limited to such market's pro rata share of such remainder based on the total receipts of skim milk and butterfat, respectively, at such nonpool plant which are subject to the pricing provisions of an order issued pursuant to the Act;

(5) If the skim milk and butterfat, respectively, transferred by all handlers (including transfers from fluid milk plants subject to § 901.62(a)) to such a nonpool plant and reported as Class I milk is less than the skim milk and butterfat assignable to Class I milk, pursuant to subparagraph (4) of this paragraph, an equivalent amount of skim milk and butterfat shall be reclassified as Class I milk pro rata in accordance with the total of the lower price classification reported by each of such handlers;

(d) As Class I milk, if transferred or diverted in the form of a fluid milk product, in bulk tank loads or containers larger than 5 gallons, to a nonpool plant not located in Cache or Weber Counties of the State of Utah, or more than 200 miles from the Denver County Courthouse by the shortest highway distance, as determined by the market administrator; and

(e) As Class I milk if transferred in packaged form of less than 5 gallons to any nonpool handler.

§ 901.45 Computation of skim milk.

For each month, the market administrator shall correct for mathematical and other obvious errors the monthly report submitted for the pool plant of each handler pursuant to § 901.30 and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such plant: *Provided*, That if any of the water contained in the milk from which a product is made is removed before such product is disposed of by the handler, the hundredweight of skim milk used to produce and disposed of in such products shall be considered to be an amount equivalent to the nonfat solids contained in such product, plus all of the water originally associated with such solids.

§ 901.46 Allocation of skim milk and butterfat classified.

(a) The pounds of skim milk remaining in each class after making the following computations each month with respect to each pool plant of each handler, shall be the pounds of skim milk in such class allocated to the producer milk for such month.

(1) Subtract from the total pounds of skim milk in Class II milk the shrinkage of skim milk classified as Class II pursuant to § 901.41(b)(5);

(2) Subtract from the pounds of skim milk in Class I milk the pounds of skim milk in fluid milk products received in consumer packages, not larger than five (5) gallons, and so disposed of in such package, if such skim milk is subject to the Class I pricing provisions of another order issued pursuant to the Act;

(3) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk which is not subject to the Class I pricing provisions of an order issued pursuant to the Act: *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk;

(4) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk received in the form of a fluid milk product in bulk and which was subject to the Class I pricing provisions of another order issued pursuant to the Act: *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk;

(5) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk contained in frozen storage cream which had previously been classified pursuant to § 901.41(b)(3) and was reported as a receipt in the plant during the current month: *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk.

(6) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk contained in inventory of fluid milk products at the beginning of the month: *Provided*, That if the pounds of skim milk in such inventory exceed the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk remaining in Class I milk;

(7) Subtract the pounds of skim milk in fluid milk products received from other pool plants from the pounds of skim milk remaining in the class to which assigned, pursuant to § 901.44(a)(2).

(8) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(9) If the pounds of skim milk remaining in all classes exceed the pounds of skim milk in milk received from producers, subtract such excess from the pounds of skim milk remaining in series beginning with Class II milk. Any amount so subtracted shall be known as "overage."

(b) Determine the pounds of butterfat in each class to be allocated to producer milk in the manner prescribed in paragraph (a) of this section for determining the allocation of skim milk to producer milk; and

(c) Add the pounds of skim milk and pounds of butterfat in each class calculated pursuant to paragraphs (a) and (b) of this section and determine the percentage of butterfat in the producer milk allocated to each class.

MINIMUM PRICES

§ 901.50 Basic formula price.

(Same as proponents.)

§ 901.51 Class prices.

(Same as proponents.)

§ 901.52 Location differentials to handlers.

For producer milk which is received at a pool plant located 70 miles or more from the closest point within the marketing area, by the shortest hard-surfaced highway distance, as determined by the market administrator, and which is classified as Class I milk, the price specified in § 901.51(a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers.

Distance from closest point within the marketing area:	*Rate per hundredweight (cents)*
70 but less than 80 miles	7.5
For each additional 10 miles or major fraction thereof an additional	1.0

Provided, That for the purpose of calculating such location differential, fluid milk products which are transferred between pool plants shall be assigned to any remainder of Class II in the transferee plant after making the calculations prescribed in § 901.46(a)(6), and the comparable steps in § 901.46(b) for such plant, such assignment to transferrer-plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 901.53 Butterfat differentials to handlers.

(Same as proponents).

§ 901.54 Use of equivalent prices.

(Same as proponents).

§ 901.55 Rate of payment on unpriced milk.

The rate of payment per hundredweight on unpriced Class I milk shall be calculated as follows:

(a) For the months of April through July, subtract the Class II price, adjusted by the Class II butterfat differential from the Class I price, adjusted by the Class I butterfat differential and the Class I location differential at the location of the plant from which such milk is supplied.

(b) For the months of August through March, subtract the uniform price to producers from the Class I price adjusted by the appropriate butterfat differential and adjusted by the Class I location differential at the location of the plant from which such milk is supplied.

APPLICATION OF PROVISIONS

§ 901.60 Producer-handler.

(Same as proponents.)

§ 901.61 Plants subject to other Federal orders.

(Same as proponents).

§ 901.62 Handler operating a nonpool plant.

On or before the 25th day after the end of each month, each handler, except a producer-handler, operating a fluid milk plant pursuant to § 901.9(a)(1) which is a nonpool plant, shall pay to the market administrator the amounts computed pursuant to paragraph (a) of this section, unless the handler elects at the time of reporting pursuant to § 901.30 to pay the amounts computed pursuant to paragraph (b) of this section.

(a) An amount:

(1) For deposit into the producer-settlement fund, equal to any plus amount remaining after deducting from the obligation that would have been computed pursuant to § 901.70 for such nonpool plant and any supply plant(s) (meeting the requirements equivalent to § 901.14(b)) which serves as a source of milk for such nonpool plant if such plant(s) were a pool plant(s),

(i) The gross payments made on or before the 18th day after the end of the month for milk received at such plant(s) during the month from dairy farmers meeting the conditions in § 901.12(a); and

(ii) Any obligations incurred in accordance with provisions similar to those contained in this subparagraph or paragraph (b)(1) of this section applicable to such plant as a partially regulated plant under another order issued pursuant to the Act: *Provided*, That in the application of § 901.44 for the purpose of this subparagraph, transfers or diversions of milk from such milk plant(s) to a pool plant shall be classified as Class I and Class II milk in the same ratio as other source milk is allocated to each class in such pool plant pursuant to § 901.46 (a)(3) and the corresponding step of (b): *And provided further*, That in the application of § 901.46(a)(7) and the corresponding step of § 901.46(b), receipts of fluid milk products at such fluid milk plant(s) from a pool plant(s) shall be allocated from the class in which such products are classified at the pool plant pursuant to § 901.44 (c) or (d); and

(2) For administrative assessment, equal to the amount which would have been computed pursuant to § 901.86 if such fluid milk plant were a pool plant during the month: *Provided*, That such amount shall be reduced by any amounts paid as an administrative expense assessment determined on the basis of Class I milk disposed of on routes in other marketing areas, pursuant to the terms of other orders issued under the Act: *And provided further*, That

(i) If less Class I milk is disposed of from such plant on routes in the Denver marketing area than is disposed of on routes in another marketing area(s) as defined in an order(s) issued pursuant to the Act; and

(ii) If an administrative expense assessment is applied at such plant as if a fully regulated (pool) plant under the order for the marketing area where the volume of Class I milk disposed of from such plant is greatest, no administrative expense assessment shall be applicable under this order.

(b) An amount:

(1) For deposit in the producer-settlement fund, equal to the rate of payment on unpriced milk pursuant to § 901.55 multiplied by the hundredweight of skim milk and butterfat disposed of from such plant as Class I milk (computed in accordance with § 901.45) in the marketing area on routes during such month; and

(2) For administrative assessment, equal to the rate specified in § 901.86 applied to such Class I milk.

DETERMINATION OF UNIFORM PRICES

§ 901.70 Net obligation of each handler.

The net obligation of each handler for producer milk received during the month shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of such milk in each class by the applicable class price and add together the resulting amounts;

(b) Add an amount computed by multiplying the pounds of any overage deducted from each class pursuant to § 901.46(a)(9) by the applicable class price(s);

(c) Add an amount computed by multiplying the hundredweight of other source milk subtracted from Class I milk pursuant to § 901.46(a)(3) and the corresponding step in § 901.46(b) by the rate of payment determined pursuant to § 901.55 applicable to milk at the nearest plant(s) from which an equivalent amount of other source milk was received: *Provided*, That if the source of any such fluid milk product is not clearly established or if such skim milk and butterfat is in a form other than a fluid milk product, such product shall be considered to have been received from a source at the location of the pool plant where it is classified; and

(d) Add an amount computed by multiplying the difference between the applicable Class II price plus 25 cents for the month in which such product was classified as Class II and the applicable Class I price for the month by the pounds of skim milk and butterfat contained in frozen stored cream substracted from Class I pursuant to § 901.46(a)(5) and the corresponding step in § 901.46(b);

(e) Add the amounts computed under subparagraphs (1) and (2) of this paragraph:

(1) Multiply the difference between the applicable Class II price for the preceding month and the applicable Class I price for the month by the pounds of skim milk and butterfat remaining in Class II milk after the calculations pursuant to § 901.46(a)(6) and the corresponding step of § 901.46(b) for the preceding month, or the pounds of skim milk and butterfat subtracted from Class I milk pursuant to § 901.46(a)(6) and the corresponding step of § 901.46(b) for the month, whichever is less; and

(2) If the pounds on which payment is applicable pursuant to subparagraph (1) of this paragraph are less than the pounds subtracted from Class I milk pursuant to § 901.46(a)(6) for the month, add an additional amount computed by multiplying the rate of payment pursuant to § 901.55 by such difference to the extent that the pounds of skim milk and butterfat in other source milk assigned to Class II milk pursuant to § 901.46(a)(3) and the corresponding step of § 901.46(b) for the preceding month exceeds the total pounds of skim milk and butterfat classified as Class II milk pursuant to § 901.41(b)(1), (2), (3), and (6) (subject to the provisions of § 901.44) for such preceding month.

Proposed by the National Cheese Company:

Proposal No. 3. That sour cream manufactured from milk subject to the pricing and pooling of Chicago Marketing Order No. 41 be allocated to Class I at plants which may be designated as pool plants or otherwise fully regulated, under the proposed order for the Denver, Colorado, milk marketing area where such sour cream is received, handled and distributed in the same consumer or institutional size package in which it is received.

Proposed by the Borden's Carlson-Frink Company:

Proposal No. 4. That this order be written in such a way that a handler could buy milk from the producer cooperative in tank load lots, paying the cooperative for the tank of milk received using the blended test of the tank. Individual producer's samples would be taken at the farm. These samples to be delivered to the cooperative, who would use the samples and the individual weights of producers to pay producers. The handler would have an allowable shrinkage in Class II of one and one-half percent and the cooperative would have an allowable shrinkage of one-half of one percent.

Copies of this notice may be procured from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D.C., or may be there inspected.

Issued at Washington, D.C., this 8th day of December 1960.

ROY W. LENNARTSON,
Deputy Administrator.

[7 CFR Part 938]

IRISH POTATOES GROWN IN RED RIVER VALLEY OF NORTH DAKOTA AND MINNESOTA

Exemption Certificates and Safeguards

Notice is hereby given that the Secretary of Agriculture is considering the approval of a proposed amendment to § 938.140 of the rules and regulations for establishment of safeguards (Subpart—Exemption Certificates and Safeguards) as hereinafter set forth. This amendment pertains to evidence required of registered handlers of potatoes for chipping with respect to handling of potatoes for chips as set forth in § 938.140(a)(1)(iv). The amendment was recommended by the Red River Valley Potato Committee, established pursuant to Marketing Agreement No. 135 and Order No. 38 (7 CFR Part 938), regulating the handling of Irish potatoes grown in certain designated counties in North Dakota and Minnesota. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Consideration will be given to any data, views, or arguments pertaining thereto, which are filed with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than 15 days following publication of this notice in the FEDERAL REGISTER.

As amended, § 938.140 is set forth below.

§ 938.140 Registered handlers of potatoes for chipping.

(a)(1) Handlers of potatoes that have been conditioned, or are to be conditioned, for special use as potato chips may apply for registration with the committee as registered handlers of potatoes for chipping. Handlers who apply for registration as registered handlers of potatoes for chipping shall furnish the committee with evidence of special storage and other facilities for conditioning potatoes for potato chips and shall agree to furnish the committee with such reports as the committee may require. Application may be made on forms furnished by the committee. Evidence required by the committee shall include the following:

(i) Location of the applicant's storage facilities within the production area.

(ii) Size or other description of storage facilities.

(iii) Facilities for control of storage, temperature and humidity, and other pertinent information concerning the adequacy and effectiveness of applicant's facilities for conditioning potatoes for chipping.

(iv) Evidence of a contract or other arrangement with a manufacturer or processor of potatoes for potato chips, or such other evidence of regular operations as a supplier of potatoes for potato chips as the committee deems adequate.

(v) Such other information as the committee may require to enable the committee to determine the applicant's qualifications as a handler of potatoes for chipping.

(2) The committee or its duly authorized agent shall give prompt consideration to each application. Approval of an application based upon a determination as to whether the information contained therein and other information available to the committee supports approval shall be evidenced by notification in writing to the applicant. If an application is denied it shall be returned to the applicant with a brief statement in writing of the reasons therefor.

(b) The committee from time to time may conduct surveys of the operations of registered handlers of potatoes for chipping to determine whether such handlers are complying with requirements applicable to the handling of potatoes for chipping. Whenever the committee finds that a registered handler of potatoes for chipping has failed to furnish reports or information requested by the committee or is failing to comply with requirements and regulations applicable to the handling of potatoes for chipping, the committee may rescind the registration of such handler. Such disqualification shall apply to and not exceed a reasonable period of time as determined by the committee but in no event shall it extend beyond the succeeding fiscal period. Any handler whose registration as a registered handler of potatoes for chipping is rescinded, or whose application therefor has been denied, may appeal to the committee in writing for reconsideration of such disqualification or denial.

Dated: December 8, 1960.

FLOYD F. HEDLUND,
Deputy Director,
Fruit and Vegetable Division.

[F.R. Doc. 60–11579; Filed, Dec. 12, 1960; 8:50 a.m.]

[7 CFR Part 1032]

CARROTS GROWN IN SOUTH TEXAS

Notice of Proposed Rule Making

Notice is hereby given that the Secretary of Agriculture is considering the approval of the rules and regulations, hereinafter set forth, which were recommended by the South Texas Carrot Committee, established pursuant to Marketing Agreement No. 142 and Order No. 132 (7 CFR Part 1032; 25 F.R. 9523) regulating the handling of carrots grown in designated counties of South Texas. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

Consideration will be given to any data, views, or arguments pertaining thereto which are filed with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than 10 days following publication of this notice in the FEDERAL REGISTER. The proposals are as follows:

GENERAL

Sec.
1032.100 Order.
1032.101 Terms.
1032.102 Communications.
1032.103 Registered handler.
1032.104 Fiscal period.

SAFEGUARDS

1032.120 Policy.
1032.121 Qualification.
1032.122 Application.
1032.123 Approval.
1032.124 Reports.
1032.125 Disqualification.

AUTHORITY: §§ 1032.100 to 1032.125 issued under Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

GENERAL

§ 1032.100 Order.

Order means this part (§ 1032.1 to 1032.92; 25 F.R. 9523) regulating the handling of carrots grown in South Texas.

§ 1032.101 Terms.

The terms used in this subpart shall have the same meaning as when used in the order.

§ 1032.102 Communications.

Unless otherwise provided in the order, or by specific direction of the committee, all reports, applications, submittals, requests and communications in connection with the order shall be addressed to the South Texas Carrot Committee, at its principal office.

§ 1032.103 Registered handler.

For purposes of this part any person who operates an established packing house within the production area with commonly accepted adequate facilities for grading and packing carrots for market, and who customarily buys carrots from producers for grading, packing, and marketing shall be recorded by the committee as a registered handler. Any other person who wishes to be listed as a registered handler may make application for registration on forms furnished by the committee. If such applicant has facilities available to him that are determined by the committee to be adequate for grading and packing carrots for market, and he assumes responsibility for inspection of carrots handled by him, and for assessments thereon, he may be approved and recorded as a registered handler. If the committee determines from the available information that the applicant is not entitled to be registered with the committee, he shall be so informed by written notice stating the reason for denial of his application. Any registration of a handler pursuant to this section may be canceled by the committee under circumstances which would have justified denial of his application. Any handler whose registration has been canceled shall be so informed by written notice thereof stating the reason therefor. The committee shall also notify producers of each such cancellation of handler registration through committee bulletins or published notice in local newspapers of general distribution or both.

§ 1032.104 Fiscal period.

The inital fiscal period shall begin on the effective date of this part, October 5, 1960, and end on July 31, 1961. Thereafter, each fiscal period shall begin on August 1 of each year and end on July 31 of the following year, both dates inclusive.

SAFEGUARDS

§ 1032.120 Policy.

Whenever shipments of carrots for special purposes pursuant to § 1032.53 are relieved in whole or in part from regulations issued under § 1032.52, the committee may require information and evidence on the manner, methods, and timing of such shipments as safeguards against the entry of any such carrots in trade channels other than those for which intended. Such information and evidence shall include requirements set forth below with respect to Certificates of Privilege.

§ 1032.121 Qualification.

Before handling carrots for special purposes which do not meet regulations issued pursuant to § 1032.52, a handler, when required by such regulations, must qualify with the committee to handle shipments for special purposes. To qualify he must (a) apply for and receive a Certificate of Privilege indicating his intent to so handle carrots, (b) agree to comply with reporting and other requirements set forth in §§ 1032.120 to 1032.125, inclusive, with respect to such shipments, and (c) receive approval of the committee, or its duly authorized agents, to so handle carrots. Such approval will be based upon evidence furnished in his application for Certificate of Privilege and other information available to the committee.

§ 1032.122 Application.

(a) Applications for a Certificate of Privilege shall be made on forms furnished by the committee. Each application may contain, but need not be limited to, the name and address of the handler; the quantity by grade, size, and quality of the carrots to be shipped; the mode of transportation; the consignee; the destination; the purpose for which the carrots are to be used; and certification to the United States Department of Agriculture and to the committee as to the truthfulness of the information shown thereon, and any other appropriate information or documents deemed necessary by the committee or its duly authorized agents for the purposes stated in § 1032.120.

(b) The committee may require each handler making shipments of carrots for export to include with his application a copy of the Department of Commerce Shippers Export Declaration Form No. 7525–V applicable to such shipment.

§ 1032.123 Approval.

The committee or its duly authorized agents shall give prompt consideration to each application for a Certificate of Privilege. Approval of an application, based upon the determination as to whether the information contained therein and other information available to the committee supports approval, shall be evidenced by the issuance of a Certificate of Privilege to the applicant. Each certificate shall cover a specified period and specified qualities and quantities of carrots to be sold or transported to a designated consignee for the purposes declared.

§ 1032.124 Reports.

Each handler of carrots shipping under Certificates of Privilege shall supply the committee with reports as requested by the committee, or its duly authorized agents, showing the name and address of the shipper; the car or truck identification; the loading point; destination; consignee; the inspection certificate number when inspection is required; and any other information deemed necessary by the committee.

§ 1032.125 Disqualification.

The committee from time to time may conduct surveys of handling of carrots for special purposes requiring Certificates of Privilege to determine whether handlers are complying with the requirements and regulations applicable to such certificates. Whenever the committee finds that the handler or consignee is failing to comply with requirements and regulations applicable to handling of carrots in special outlets and requiring such certificates, a Certificate or Certificates of Privilege issued such handler may be rescinded and subsequent certificates denied. Such disqualification shall apply to, and not exceed, a reasonable period of time as determined by the committee, but in no event shall it extend beyond the date of the succeeding fiscal period. Any handler who has a Certificate rescinded or denied may appeal to the committee in writing for reconsideration of his disqualification.

Dated: December 8, 1960.

FLOYD F. HEDLUND,
Deputy Director,
Fruit and Vegetable Division.

ATOMIC ENERGY COMMISSION

[10 CFR Part 25]

PERMITS FOR ACCESS TO RESTRICTED DATA

Notice of Proposed Rule Making

The Atomic Energy Commission is considering proposed amendments to the regulations governing "Permits for Access to Restricted Data," 10 CFR Part 25.

All classified work in the gas centrifuge field that private firms may desire to perform for private accounts will be within the purview, and subject to the applicable conditions, of the AEC access program. The proposed amendments would establish the criteria for access to Secret Restricted Data in a new Category C–24, Isotope Separation—Gas Centrifuge Method, and prescribe additional information to be included in an application for a permit for access to Secret Restricted Data in Category C–24.

In addition to the terms and conditions prescribed in § 25.23 and the requirements of section 151 of the Atomic Energy Act of 1954, a person granted an access permit authorizing access to Secret Restricted Data in Category C–24, Isotope Separation—Gas Centrifuge Method, will be required (i) to report to the Atomic Energy Commission on a quarterly basis all patent applications on inventions and discoveries and other information (including proprietary information) pertaining to the permittee's activities in the gas centrifuge field during the term of the access permit and for one year thereafter; and (ii) to make available to the Atomic Energy Commission for inspection all experimental equipment and technical data developed during the term of the access permit and for one year thereafter in the course of the permittee's work in the gas centrifuge field. To the extent that the Atomic Energy Commission desires to use any such invention, discovery or proprietary information, it will have the right to do so and will pay just compensation for any such use.

Notice is hereby given that adoption of the following amendments to 10 CFR Part 25, is contemplated. All interested persons who desire to submit written comments and suggestions for consideration in connection with the proposed rules should send them in triplicate to the Secretary, U.S. Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Reactor Development, within sixty days after publication of this notice in the FEDERAL REGISTER.

The Atomic Energy Commission emphasizes that the granting of an access permit under the proposed amendment will impose no obligation on the Commission to grant any license for a production facility or otherwise facilitate the commercial use or sale of any invention or development which may result therefrom.

The proposed amendments are as follows:

1. Section 25.11 is amended by revising the undesignated sentence following paragraph (d)(7) to read as follows:

In addition, if access to Secret Restricted Data in Category C–24, Isotope Separation—Gas Centrifuge Method, or Category C–65, Plutonium Production is requested, the application should also include sufficient information to satisfy the requirements of § 25.15(b)(2) or (3), as the case may be.

2. Section 25.15(b) is amended by adding subparagraph (3) as follows:

(3) An application for an access permit authorizing access to Secret Restricted Data in Category C–24, Isotope Separation—Gas Centrifuge Method will be approved only if the application demonstrates also that the applicant: (i) Possesses qualifications demonstrating that he is capable of making a contribution to research and development in the gas centrifuge method of isotope separation and is directly engaged in or proposes to engage in a substantial research and development program in the centrifuge field or a substantial effort to develop, design, build or operate a gas centrifuge plant; or (ii) is furnishing to a permittee having access to Category C–24 under the subdivision (i) of this subparagraph substantial scientific, engineering or other professional services

to be used by said permittee in carrying out the activities for which said permittee received access to Category C–24.

3. Section 25.23 is amended as follows:

a. The following sentence is added to paragraph (c) (4):

In the case of an access permit authorizing access to Secret Restricted Data in Category C–24, Isotope Separation—Gas Centrifuge Method, the agreement shall also provide for such requirements as the permittee considers necessary for purposes of fulfilling its obligations under paragraph (d) of this section.

b. The following new paragraph (d) is added:

(d) The following terms and conditions are applicable to an access permit authorizing access to Secret Restricted Data in Category C–24, Isotope Separation—Gas Centrifuge, irrespective of whether access to AEC's Restricted Data information is desired:

(1) The permittee will, upon request, grant to the United States a non-exclusive, irrevocable license, to use and have used for Government purposes any U.S. patent or any U.S. patent application (otherwise in condition for allowance except for a secrecy order thereon) on any invention or discovery made or conceived, during the term of the permit and for one year thereafter, by the permittee or its employees or others engaged by the permittee, in the course of the permittee's work in the gas centrifuge field. The United States will pay reasonable royalties for any use it may make of any such invention or discovery.

(2) The permittee will, upon request, grant to the Commission the right to use, for any Commission research development, production, or manufacturing programs, any technical information or data of a proprietary nature, developed during the term of the permit and for one year thereafter, by the permittee or its employees or others engaged by the permittee, in the course of the permittee's work in the gas centrifuge field, and not covered by a U.S. patent or U.S. patent application referred to in subsection 1 above. In the event that the Commission desires to make use of such proprietary, technical information or data it will pay reasonable compensation therefore. If the Commission disseminates any such proprietary technical information or data in its possession to any of its contractors for use in any Commission research, development, production, or manufacturing programs, it will do so under contractural provisions pursuant to which the contractor would undertake to use the information only for the work under the pertinent Commission contract. Notwithstanding the foregoing provisions of this subparagraph, the permittee waives any claim against the Commission for compensation, or otherwise, in connection with any use or dissemination of information or data not specifically identified and claimed by the permittee as proprietary in a written notice to the Commission at the time of the furnishing of the information or data to the Commission. As used in this subsection 2, the term "technical information or data of a proprietary nature" means information or data which (i) is not the property of the Government by virtue of any agreement; (ii) concerns the details of trade secrets or manufacturing processes which the permittee has protected from use by others; and (iii) is specifically identified as proprietary at the time it is made available to the Commission. Technical information or data shall not be deemed proprietary in nature whenever similar technical information is available to the Commission which has been prepared, developed or furnished as non-proprietary information by another source independently of the proprietary information and data furnished by the permittee.

(3) The acceptance, exercise, or use of the licenses or rights provided for subparagraphs (1) and (2) of this paragraph shall not prevent the Government, at any time, from contesting their validity, scope or enforceability.

(4) The permittee agrees to make quarterly reports to the Commission in writing, in reasonable detail, respecting all technical information or data which the permittee or the Commission considers may be of interest to the Commission including reports of patent applications on inventions and discoveries and of technical information and data of a proprietary nature. These reports will cover the results of the permittee's work in the gas centrifuge field. All reports referred to in this subparagraph shall pertain only to activities during the term of the access permit and for one year thereafter.

(5) The permittee agrees to make available to the Commission, at all reasonable times, for inspection by Commission personnel, or by mutual agreement, others on behalf of the Commission, all experimental equipment and technical data developed, during the term of the permit and for one year thereafter, by the permittee or its employee or others engaged by the permittee, in the course of the permittee's work in the gas centrifuge field. The foregoing provision of this subparagraph shall be subject to the provisions of subparagraphs (1) and (2) of this paragraph.

4. Appendix "A" is amended by adding the following:

C–24 Isotope Separation—Gas Centrifuge Method. This Category includes information on the following:

(a) Any aspect of separating one or more isotopes of an element from a composition containing a mixture of isotopes of that element by the gas centrifuge method.

(b) Design, construction and operation of any plant, facility or device capable of separating one or more isotopes of an element from a composition containing a mixture of isotopes of that element by the gas centrifuge method, including means and methods of transporting materials from one to another centrifuge.

Dated at Germantown, Md., this 6th day of December 1960.

For the Atomic Energy Commission.

HAROLD D. ANAMOSA,
Acting Secretary.

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 107]

SMALL BUSINESS INVESTMENT COMPANIES

Notice of Proposed Rule Making

Notice is hereby given that pursuant to the authority contained in sections 304 and 308 of the Small Business Investment Act of 1958, Pub. Law 85–699, 72 Stat. 694, as amended, it is proposed to amend, as set forth below, § 107.103–1, twelfth paragraph, § 107.304–1, and § 107.305–1 of Part 107, Subchapter B, Chapter I, of Title 13 of the Code of Federal Regulations. Prior to the final adoption of such amendments, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in triplicate, to the Small Business Investment Division, Small Business Administration, Washington 25, D.C., within a period of twenty days of the date of publication of this notice in the FEDERAL REGISTER.

Information. The amendments under consideration provide a clarification of the definition of a small business concern, in addition to the size standards, and clarify and provide certain requirements to assure long-term financing.

It is proposed to amend the Small Business Investment Company Regulations as follows:

1. Deleting § 107.103–1, twelfth paragraph, and inserting in lieu thereof the following new paragraph. As amended § 107.103–1, twelfth paragraph, reads as follows:

§ 107.103–1 Definitions.

* * * * *

Small business concern. "Small business concern" means (a) one which meets the size standard under § 121.3–11 of this chapter; (b) one which intends to conduct a regular and continuous business operation for profit for a period of not less than five years from the date of any financing by the Licensee, including a regular operation consisting of a series of projects, ventures, or activities; and (c) one which is not a holding company or passive investor.

2. Deleting paragraphs (e) to (g) of § 107.304–1 and inserting in lieu thereof the following new paragraphs (e) through (i) and redesignating paragraphs (h), (i), (j), (k), (l), (m), (n), and (o) as (j), (k), (l), (m), (n), (o), (p), and (q). As amended § 107.304–1 (e) to (i) reads as follows:

§ 107.304–1 Equity Capital for incorporated small business concerns.

* * * * *

(e) A Licensee shall not purchase or acquire any type of Equity Securities if the purpose of such purchase or acquisition is to furnish the small business concern with financing for a period of less than five years' duration. Equity Securities shall not require repayments during the first five years at a rate exceeding twenty percent of principal per annum.

(f) A small business concern which conducts a business operation consisting of a series of projects, ventures or activities, each of which would normally require less than five years to complete, shall not be permitted to repay or redeem the financing during the first five years at a rate in excess of twenty percent of the principal per annum.

(g) Equity Securities which evidence a debt shall have stated maturities of not less than five years and, except as provided in paragraph (f) of this section, shall be callable on such terms as may be negotiated at the time of issuance of such Equity Securities, in whole or in part, by the issuer on any interest payment date, upon three months' notice, provided that any right to convert the debt may be exercised prior to the effective date of such call. Such securities shall be acquired by a Licensee simultaneously with the disbursement of Equity Capital and shall evidence the total principal amount, plus interest rate, required to be paid by the small business concern in consideration for the amount of Equity Capital disbursed. Such disbursement may be evidenced by an instrument or instruments in such form and substance as may be negotiated between the Licensee and said concern consistent with the Act and regulations thereunder, provided that the maturity or maturities set forth in such instrument or instruments shall not require repayment of the total principal amount evidenced by such instrument or instruments during the first five years at a rate in excess of twenty percent of the total principal thereof per annum. Whenever more than one instrument is employed, each instrument shall state on the face thereof the maturity date of the particular instrument and make reference to the maturity date(s) of the other instrument(s) constituting the disbursement.

(h) Except as provided in paragraph (f) of this section, any redemption provisions of certificates of stock shall be on such terms as may be negotiated at the time of issuance thereof, provided the redemption provisions are exercisable, in whole or in part, upon three months' notice, and provided further that any such stock which contains conversion rights may be converted prior to the effective date of such redemption.

(i) Equity Securities with maturities of less than five years may be purchased or acquired by a Licensee when necessary to protect the interests of the Licensee in previously issued long-term Equity Securities provided that the identical conditions and privileges covering the long-term Equity Securities shall otherwise apply thereto. Equity Securities with maturities of less than five years' duration will not be construed "to protect the interests of the Licensee in previously issued Equity Securities" if the purpose of such short-term Equity Securities is to take care of seasonal or routine short-term requirements of the small business concern.

3. Deleting paragraphs (b) and (c) of § 107.305–1 and inserting in lieu thereof the following new paragraphs (b) to (e) and redesignating paragraphs (d), (e), and (f) as (f), (g), and (h). As amended § 107.305–1 reads as follows:

§ 107.305–1 Long-term loans by Licensees to small business concerns.

* * * * *

(b) A Licensee shall not make any such loan if the purpose of such loan is to furnish the small business concern with financing for a period of less than five years' duration. Any such loan shall not require repayments during the first five years at a rate exceeding twenty percent of principal per annum.

(c) A small business concern which conducts a business operation consisting of a series of projects, ventures or activities, each of which would normally require less than five years to complete, shall not be permitted to repay any such loan during the first five years at a rate in excess of twenty percent of the principal per annum.

(d) Any such loan shall have a stated maturity of not less than five years and, except as provided in paragraph (c) of this section, all or any part of any such loan may be anticipated by the borrower on any interest payment date upon such terms as may be negotiated at the time of disbursement of the loan. The instrument or instruments evidencing any such loan shall be acquired by a Licensee simultaneously with the disbursement of the loan funds and shall evidence the total principal amount, plus interest rate, required to be paid by the small business concern, in consideration for the amount of loan funds disbursed. Such disbursement may be evidenced by an instrument or instruments in such form and substance as may be negotiated between the Licensee and said concern consistent with the Act and regulations thereunder, provided that the maturity or maturities set forth in such instrument or instruments shall not require repayment of the total principal amount evidenced by such instrument or instruments during the first five years at a rate in excess of twenty percent of the total principal thereof per annum. Whenever more than one instrument is employed, each instrument shall state on the face thereof the maturity date of the particular instrument and make reference to the maturity date(s) of the other instrument(s) constituting the disbursement.

(e) Loans with maturities of less than five years may be made by a Licensee to a borrower when necessary to protect the interests of the Licensee in previously issued long-term loans or Equity Securities. Loans with maturities of less than five years' duration will not be construed "to protect the interests of the Licensee" if the purpose of such short-term loan is to take care of seasonal or routine short-term requirements of the small business concern.

Dated: December 5, 1960.

PHILIP MCCALLUM,
Administrator.

Notices

DEPARTMENT OF THE TREASURY

Bureau of Narcotics

REGULATORY TAXES ON NARCOTIC DRUGS

Excepted Narcotic Pharmaceutical Preparations

On November 9, 1960, a notice was published in the FEDERAL REGISTER (25 F.R. 10702) that the Commissioner of Narcotics proposed to make a finding excepting certain narcotic pharmaceutical preparations from some of the requirements of the Federal narcotic laws and regulations pursuant to the provisions of section 4702(a) of the Internal Revenue Code of 1954, as amended by section 4(c) of the Narcotics Manufacturing Act of 1960 (74 Stat. 58).

After due notice and opportunity for public hearing, and after consideration of all relevant matters presented, including the proposal set forth in the notice, it is hereby found that the following described pharmaceutical preparations containing narcotic drugs either possess no addiction-forming or addiction-sustaining liability, or do not possess an addiction-forming or addiction-sustaining liability sufficient to warrant imposition of all the requirements of the Federal narcotic laws, and do not permit recovery of a narcotic drug having such an addiction-forming or addiction-sustaining liability, with such relative technical simplicity and degree of yield as to create a risk of improper use:

1. Pharmaceutical preparations containing not more than 129.6 mgs. (2 grs.) opium per 29.5729 cc (1 fl. oz.) or per 28.3 Gms. (1 av. oz.);

2. Pharmaceutical preparations containing not more than 16.2 mgs. (¼ gr.) morphine, or any of its salts, per 29.5729 cc (1 fl. oz.) or per 28.3 Gms. (1 av. oz.);

3. Pharmaceutical preparations containing not more than 64.8 mgs. (1 gr.) codeine, or any of its salts, per 29.5729 cc (1 fl. oz.) or per 28.3 Gms. (1 av. oz.);

4. Pharmaceutical preparations containing not more than 32.4 mgs. (½ gr.) dihydrocodeine, or any of its salts, per 29.5729 cc (1 fl. oz.) or per 28.3 Gms. (1 av. oz.);

5. Pharmaceutical preparations containing not more than 16.2 mgs. (¼ gr.) ethylmorphine, or any of its salts, per 29.5729 cc (1 fl. oz.) or per 28.3 Gms. (1 av. oz.).

Each preparation mentioned in 1, 2, 3, 4, and 5 shall in addition contain one or more non-narcotic active medicinal ingredients in sufficient proportion to confer upon the preparation valuable medicinal qualities other than those possessed by the narcotic drug alone.

6. Pharmaceutical preparations in solid form containing not more than 2.5 mgs. diphenoxylate and not less than 25 micrograms atropine sulfate per dosage unit;

7. Pharmaceutical preparations containing noscapine, or any of its salts;

8. Pharmaceutical preparations containing papaverine, or any of its salts;

9. Pharmaceutical preparations containing narceine, or any of its salts;

10. Pharmaceutical preparations containing cotarnine, or any of its salts.

Each preparation mentioned in 7, 8, 9, and 10 shall not be limited by quantity of the narcotic drug, but the preparation shall contain active or inactive non-narcotic ingredients of the type used in medicinal preparations.

It is further found that the first six pharmaceutical preparations shall be designated as Class "X" products, to be subjected to such requirements as indicated for Class "X" products, as set forth in 26 CFR 151.421–151.427, as amended.

It is found further that the last four pharmaceutical preparations shall be designated as Class "M" products, to be subjected to such requirements as indicated for Class "M" products in 26 CFR 151.421–151.427, as amended.

This notice shall be effective on and after January 1, 1961.

Dated: December 2, 1960.

[SEAL] H. J. ANSLINGER,
Commissioner of Narcotics.

Approved: December 6, 1960.

A. GILMORE FLUES,
Acting Secretary of the Treasury.

[F.R. Doc. 60–11561; Filed, Dec. 12, 1960; 8:50 a.m.]

Office of the Secretary

[Treasury Dept. Order 150–53]

ANCHORAGE, ALASKA

Internal Revenue District

By virtue of the authority vested in me as Secretary of the Treasury by Reorganization Plan No. 26 of 1950, Reorganization Plan No. 1 of 1952, section 7621 of the Internal Revenue Code of 1954, as amended, and Executive Order 10289, approved September 17, 1951, made applicable to the Internal Revenue Code of 1954 by Executive Order 10574, approved November 5, 1954, it is hereby ordered:

1. *Area comprising Alaska removed from Internal Revenue District, Seattle.* The area comprising the State of Alaska is removed from the Internal Revenue District, Seattle.

2. *Establishment of Internal Revenue District and Office of District Director.* An internal revenue district to be known as Internal Revenue District, Anchorage, which shall include the area comprising the State of Alaska, and an office of District Director, Anchorage, are established in the San Francisco Region for all purposes authorized by the internal revenue laws of the United States.

3. *Effective date.* This order shall be effective January 1, 1961.

Dated: December 7, 1960.

[SEAL] FRED C. SCRIBNER, Jr.,
Acting Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

COLORADO

Notice of Proposed Withdrawal and Reservation of Lands

DECEMBER 6, 1960.

The Bureau of Reclamation of the United States Department of the Interior has filed an application, Serial Number Colorado 046748, for withdrawal of the lands described below from public entry, under the first form of withdrawal as provided by section 3 of the Act of June 17, 1902 (32 Stat. 388).

The applicant desires the land for reclamation purposes in connection with the Savery-Pot Hook Project.

For a period of thirty days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Colorado State Office, 339 New Custom House, P.O. Box 1018, Denver 1, Colorado.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary of the Interior on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

[W–0118976]

WYOMING

Notice of Proposed Withdrawal and Reservation of Lands

DECEMBER 6, 1960.

The Bureau of Reclamation, United States Department of the Interior, has filed an application in the Wyoming Land Office, Serial No. Wyoming 0118976, for withdrawal of the lands described below from all forms of appropriation under the first form of withdrawal as provided by section 3 of the Act of June 17, 1902 (32 Stat. 388). Grazing administration will remain under the jurisdiction of the Bureau of Land Management until such time as the lands are actually required for reclamation purposes.

The applicant desires the land for construction of the Savery-Pot Hook Project features and potential farm units, in connection with the Savery-Pot Hook Project.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the State Supervisor, Bureau of Land Management, P.O. Box 929, Cheyenne, Wyoming.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary of the Interior on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN

T. 13 N., R. 89 W.,
Sec. 11, SE¼NW¼, NE¼SW¼, SW¼SW¼;
Sec. 15, SW¼SE¼.
T. 14 N., R. 89 W.,
Sec. 2, Lots 5, 6, 7, NE¼NW¼;
T. 15 N., R. 89 W.,
Sec. 25, Lot 6;
Sec. 35 Lots 1 to 5, inclusive, SE¼NW¼, SW¼.
T. 12 N., R. 90 W.,
Sec. 1, Lot 1;
Sec. 8, SE¼;
Sec. 17, NE¼NE¼;
Sec. 19, Lots 1, 2.
T. 13 N., R. 91 W.,
Sec. 27, SW¼NW¼;
Sec. 34, Lot 1.
T. 12 N., R. 93 W.,
Sec. 17, SW¼NE¼, S½NW¼, S½;
Sec. 18, SE¼SE¼;
Sec. 19, Lot 2;
Sec. 20, Lots 1, 2;
Sec. 21, Lots 1, 2.

The above areas aggregate 1485.45 acres more or less of public lands.

EUGENE L. SCHMIDT,
Lands and Minerals Officer.

DEPARTMENT OF COMMERCE

Federal Maritime Board

[Docket No. 926]

INCREASED INTER-ISLAND CLASS AND COMMODITY RATES BETWEEN PORTS OF CALL WITHIN STATE OF HAWAII

Notice of Investigation and Hearing

On December 1, 1960, the Federal Maritime Board entered the following order:

It appearing, that there has been filed with the Federal Maritime Board by Young Brothers, Limited of Honolulu, Hawaii, a tariff setting forth increased class and commodity rates between ports of call on the Islands of Oahu, Hawaii, Maui, Kauai, and Molokai, to become effective December 4, 1960, designated as follows:

Young Brothers, Limited of Honolulu, Hawaii, F.M.B.F.—No. 2

It further appearing, that upon consideration of the said schedule, there is reason to believe that it would, if permitted to become effective, result in rates and charges, rules and regulations or practices which would be unjust and unreasonable or otherwise unlawful in violation of the Shipping Act, 1916, and the Intercoastal Shipping Act, 1933, as amended; and good cause appearing therefor;

It is ordered, That an investigation be, and it is hereby, instituted into and concerning the lawfulness of the rates, charges, rules, regulations and practices contained in said schedule, as amended, with a view to making such findings and orders in the premises as the facts and circumstances shall warrant; and

It is further ordered, That the operation of said schedule, be and it is hereby suspended in full, and that the use thereof be deferred to and including April 3, 1961, unless otherwise ordered by the Board; and

It is further ordered, That the schedule hereby suspended may not be changed until this investigation and suspension proceeding has been disposed of or until the period of suspension has expired, unless otherwise authorized by the Board; and

It is further ordered, That there shall be filed immediately with the Board by the Young Brothers, Limited of Honolulu, Hawaii, a consecutively-numbered supplement to Tariff F.M.B.F.-No. 2 which shall reproduce the portion of this Order

wherein the suspended designated tariff is described, and shall state that such tariff as amended is suspended and that the rates, charges, rules, regulations and practices therein stated may not be used until the fourth day of April, 1961, unless otherwise authorized by the Board; and that neither the rates, charges, rules, regulations and practices hereby deferred nor those which sought to be altered thereby, may be changed during the period of suspension or any extension thereof, unless otherwise authorized by the Board; and

It is further ordered, That copies of this order shall be filed with said tariff schedule in the Office of Regulations of the Federal Maritime Board; and

It is further ordered, That the investigation herein ordered be assigned for hearing before an examiner of the Board's Office of Hearing Examiners at a date and place to be determined and announced by the Chief Examiner; that Young Brothers, Limited of Honolulu, Hawaii, be and is hereby made respondent in this proceeding; that a copy of this order shall be forthwith served upon respondent and protestants herein; that respondent and protestants be duly notified of the time and place of the hearing herein ordered; and that this order be published in the FEDERAL REGISTER.

Pursuant to the above order, notice is hereby given that the hearing herein ordered will be held before an examiner of the Board's Office of Hearing Examiners' at a date and place to be determined and announced by the Chief Examiner. The hearing will be conducted in accordance with the Board's rules of practice and procedure, and an initial decision will be issued by the examiner.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies), having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Board promptly and file petitions for leave to intervene in accordance with Rule 5(n) (46 CFR 201.74) of said rules.

Dated: December 7, 1960.

By order of the Federal Maritime Board.

THOMAS LISI,
Secretary.

CIVIL AERONAUTICS BOARD

[Docket No. 3496]

CAPITAL AIRLINES, INC., ET AL.; GREENSBORO-HIGH POINT/WINSTON-SALEM; SERVICE THROUGH A SINGLE AIRPORT

Notice of Hearing

In the matter of the investigation to determine whether Greensboro-High Point/Winston-Salem should be served through a single designated airport and, if so, which airport should be designated for service by Capital Airlines, Inc., Eastern Air Lines, Inc., and/or Piedmont Aviation, Inc.

Notice is hereby given pursuant to the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding is assigned to be held on January 4, 1961, in the Board Room of the Winston-Salem Chamber of Commerce, 2640 North Cherry Street, Winston-Salem, North Carolina, at 10 a.m., e.s.t., before Examiner Paul N. Pfeiffer.

Without limiting the scope of the issues to be considered, particular attention will be directed to the following matters:

1. Whether the Board should order the alteration, amendment, or modification of the certificates of public convenience and necessity of Capital Airlines, Inc., Eastern Air Lines, Inc., and/or Piedmont Aviation, Inc., so as to provide service to the single designated point Greensboro-High Point/Winston-Salem through a single airport or through more than one airport.

2. If the Board orders service by one or more of the above-designated air carriers through a single airport, whether the airport so designated for service shall be the Greensboro-High Point Friendship Airport, the Winston-Salem Smith Reynolds Airport or a third airport in the area as yet unconstructed.

For further details of the issues involved in this proceeding interested persons are referred to the applications and any amendments thereto, petitions, motions, and orders entered in the docket of this proceeding, all of which are on file with the Civil Aeronautics Board.

Notice is further given that any person other than parties of record desiring to be heard in this proceeding should file with the Board, on or before January 4, 1961, a statement setting forth the issues of fact or law to be presented.

Dated at Washington, D.C., December 8, 1960.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[F.R. Doc. 60-11575; Filed, Dec. 12, 1960; 8:49 a.m.]

[Docket 11612]

McDONNELL AIRCRAFT CORP.

Notice of Prehearing Conference

In the matter of the application of McDonnell Aircraft Corporation for a temporary certificate of public convenience and necessity authorizing supplemental air service to transport persons and property between points within the United States.

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on December 19, 1960, at 10:00 a.m., e.s.t., in Room 911, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C., before Examiner Paul N. Pfeiffer.

Dated at Washington, D.C., December 7, 1960.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

DECEMBER 8, 1960.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 36767: *Vermiculite and perlite from and to southwestern territory.* Filed by Southwestern Freight Bureau, Agent, (No. B-7933), for interested rail carriers. Rates on Vermiculite and perlite, in carloads, as described in the application, between points in southwestern territory, on the one hand, and points in Illinois territory, on the other.

Grounds for relief: Short-line distance formula and grouping.

Tariff: Supplement 84 to Southwestern Freight Bureau tariff I.C.C. 4330.

FSA No. 36768: *Bituminous coal to Connecticut points.* Filed by R. G. Gill, Agent, (No. E.R. 2564), for interested rail carriers. Rates on bituminous coal, in carloads, as described in the application, from origins in Clearfield and Westmoreland mine regions of Pennsylvania, as described in the application, to East Wallingford, Middlefield, Rockfall and Middletown, Conn.

Grounds for relief: Maintain origin rate relationships.

Tariff: Supplement 49 to Baltimore and Ohio Railroad tariff C&C I.C.C. 3150, and other schedules named in the application.

FSA No. 36769: *Peanut hulls from and to points in official territory.* Filed by Traffic Executive Association-Eastern Railroads, Agent, (No. E.R. 2563), for interested rail carriers. Rates on peanut hulls, in carloads, between points in official (not including Illinois) territory, between points in official (not including Illinois) territory, on the one hand, and points in Illinois territory, on the other, between points in Illinois territory, also from points in southern territory to points in official (including Illinois) territory.

Grounds for relief: Short-line distance formula and grouping.

Tariff: Supplements 23 and 25 to Traffic Executive Association-Eastern Railroads tariffs I.C.C. 137 and 135, respectively, and supplements 24 and 32 to Illinois Freight Association tariffs I.C.C. 935 and 938, respectively.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-8925]

COLUMBIA GAS SYSTEM, INC.

Notice of Proposed Issuance and Sale of Short-Term Notes to Banks

DECEMBER 5, 1960.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 of the Act and Rule 50(a)(2) thereunder as applicable to the proposed transaction. All interested persons are referred to said declaration for a statement of the proposed transaction which is summarized below.

Columbia proposes to issue and sell up to $5,000,000 face amount of its unsecured promissory notes to each of two banks, namely, Morgan Guaranty Trust Company of New York and Mellon National Bank and Trust Company, Pittsburgh, Pa. The notes are to be issued on or about December 15, 1960, are to mature 60 days from date of issue, are to bear interest at the prime commercial rate in effect at the date of their issuance and may be prepaid at any time without penalty. No stand-by or commitment fee is to be paid by Columbia.

The proceeds from the sale of the notes to banks are to be used for various temporary corporate purposes including the payment in December 1960 of State and Federal taxes, gas purchases and possible rate refunds by certain subsidiaries.

The estimated fees and expenses to be incurred in connection with the proposal aggregate $300. It is represented that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than December 15, 1960, at 12:30 p.m., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

PART II

FEDERAL REGISTER

VOLUME 25 NUMBER 241

Washington, Tuesday, December 13, 1960

Uniform System of Accounts for Class C Public Utilities and Licensees

Title 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

SUBCHAPTER C—ACCOUNTS, FEDERAL POWER ACT

[Order No. 225; Docket No. R–184]

PART 104—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS C PUBLIC UTILITIES AND LICENSEES

This Commission has under consideration in this proceeding the revision of Part 104—Application of Uniform System of Accounts to Class C and Class D Public Utilities and Licensees of Subchapter C—Accounts, Federal Power Act, of Chapter I—Federal Power Commission, Title 18—Conservation of Power, of the Code of Federal Regulations (CFR), to prescribe a revised Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject to the Provisions of the Federal Power Act (Class C). That revised System of Accounts, as set forth in the attachment to the Notice of Proposed Rulemaking in this docket (25 F.R. 7567–7600) is prescribed hereinafter to become effective January 1, 1961.

Part 104, §§ 104.1 through 104.11, of said Title and Code correspond to, and appear at pages 195–219 of the Commission's pamphlet publication of its Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject to the Provisions of the Federal Power Act, effective January 1, 1937 (effective January 1, 1938, as to Class C and Class D Public Utilities and Licensees),[1] revised to September 1, 1957, as amended by Order No. 204[2] issued May 29, 1958 (23 F.R. 4160, June 12, 1958). That System of Accounts, as revised and prescribed hereinafter, follows the numbering system (accounts, instructions, definitions, etc.) used in the Notice of Proposed Rulemaking referred to above.

Important developments in the electric power industry since the adoption in 1936 of the Uniform System of Accounts effective January 1, 1938, and the experience of the Commission over the past 24 years indicated the need for a revision of the System of Accounts. Accordingly, this proceeding was commenced by Notice of Proposed Rulemaking served upon interested parties, including State and Federal regulatory agencies, and by publication in the FEDERAL REGISTER on August 10, 1960 (25 F.R. 7566). Copies of the proposed revised System of Accounts were served and published as a part of that general notice, as heretofore noted.

The revisions of the Commission's System of Accounts, as then proposed are prescribed hereinafter as a part of the Commission's Uniform System of Accounts to become effective January 1, 1961.

Heretofore, the Commission has not had a separately issued Uniform System of Accounts for Class C Public Utilities and Licensees, as such. The accounting requirements presently effective for small utilities (Class C and Class D), consist of an abridgement of the accounts for large public utilities and licensees by means of account charts appearing as Appendix III of the pamphlet version of the Uniform System of Accounts. In these account charts, the condensed accounts applicable to the small utilities are indicated by bracketing related account titles applicable to Class A and Class B utilities. The result is that small utilities have had to work with an inordinate amount of textual materials designed for larger utilities. An objective of the System of Accounts, prescribed hereinafter is to relieve small utilities from that burden. It is believed that the revised System of Accounts provides these smaller utilities with a simplified System of Accounts appropriate for the magnitude of their operations. The revised System of Accounts prescribed herein reflects the basic principles found in this Commission's recently issued revised Uniform System of Accounts Prescribed for Class A and Class B Public Utilities and Licensees subject to the Provisions of the Federal Power Act, Docket No. R–173. The revised System of Accounts introduces the following important improvements in this Commission's small utility accounting requirements:

a. New size classifications for electric utilities;

b. Certain necessary new accounts;

c. New arrangement of balance sheet and certain other accounts to make them more informative;

d. A reduced number of expense account classifications, mainly but not entirely, by the discontinuance of segregations of numerous functional accounts as to labor and other expenses;

e. Expanded items lists of account texts and clearer description of such items according to their functional nature, to facilitate use and consistency of respective account classifications; and

f. Restatements of the accounting aspects of certain accounting interpretations issued in the past.

In recommending the form of revised System of Accounts accompanying the Notice of Proposed Rulemaking in this proceeding, the staff of this Commission correlated its activities with the activities of the National Association of Railroad and Utility Commissioners (NARUC) which has recently prepared a form of NARUC Uniform System of Accounts for Class C electric utilities. This was done to promote continued consistency and uniformity of approach to the common problems with which the two accounting systems are concerned; and to assure a minimum amount of deviation where the two accounting systems do differ. The staff's activities in this regard were undertaken mainly with the Committee on Statistics and Accounts of the NARUC.

The aforesaid Notice of Proposed Rulemaking provided for the submission of data, views, comments, or protests in writing not later than September 12, 1960. To date no such data, views, comments, or protests have been received.

The Commission recognizes that some burden and expense will have to be borne by the accounting and reporting parties affected in connection with the transition from the present to the revised System of Accounts. However, the Commission is of the opinion that the physical burden and monetary cost of the change over is of minor importance when viewed in relation to the immediate and future benefits to be derived from the revised System of Accounts, as prescribed herein.

For the convenience of all parties concerned, Appendix A set forth below correlates the account titles of the Commission's Uniform System of Accounts applicable to Class C Public Utilities and Licensees, effective January 1, 1938, with the revised System of Accounts prescribed herein effective January 1, 1961. Being a schematic presentation only, and of a very general nature, nothing contained therein shall be construed as in any way modifying the general or specific account titles, texts, and instructions of either of the Systems of Accounts.

Also, it should be noted that for the period of time required for the preparation and publication of the revised System of Accounts prescribed herein in pamphlet form, the revised System of Accounts (18 CFR Part 104) will be available in the printed form set forth below as Appendix B.

The Commission finds:

(1) In view of the foregoing, and upon consideration of all relevant matters presented, it is necessary and appropriate for the purposes of the Federal Power Act, that the proposed revised System of Accounts as set forth in the Notice of Proposed Rulemaking (25 F.R. 7567–7600), be adopted and promulgated as this Commission's revised Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject to the Provisions of the Federal Power Act (Class C), effective January 1, 1961, all in the manner as hereinafter provided.

(2) Good cause exists for the adoption of the revised System of Accounts set forth herein to be effective as of January 1, 1961.

The Commission, acting pursuant to the Federal Power Act, as amended, particularly sections 301(a), 304, and 309 (16 U.S.C. 825, 825c, and 825h), orders:

(A) Effective January 1, 1961, Part 104, Subchapter C—Accounts, Federal Power Act of Chapter I—Federal Power Commission, Title 18—Conservation of Power, of the Code of Federal Regulations is amended to read as set forth in Appendix B below.

(B) Effective January 1, 1961, all Class C Public Utilities and Licensees under the Federal Power Act shall keep their accounts in the manner set forth in the revised System of Accounts appearing in Appendix B below.

(C) The Secretary of the Commission shall cause prompt publication of this order.

Issued: December 13, 1960.

By the Commission.

[SEAL] J. H. GUTRIDE, *Secretary.*

[1] The Uniform System of Accounts effective January 1, 1938, was prescribed by Commission Order No. 43, dated December 31, 1936 (2 F.R. 77, January 16, 1937); and was contained in the codification and reissuance of the Commission's general rules promulgated by Commission Order No. 141, December 11, 1947, effective January 1, 1948 (12 F.R. 8461). Insofar as the above sections are by their terms applicable to State and municipal licensees, that requirement was dispensed with by the Act of August 15, 1953, 67 Stat. 587.

[2] Also see Order No. 216 issued October 22, 1959 (24 F.R. 8790, October 29, 1959).

APPENDIX B—UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR PUBLIC UTILITIES AND LICENSEES SUBJECT TO THE PROVISIONS OF THE FEDERAL POWER ACT (CLASS C)

Definitions

When used in this system of accounts:

1. "Accounts" means the accounts prescribed in this system of accounts.

2. "Actually issued," as applied to securities issued or assumed by the utility, means those which have been sold to bona fide purchasers for a valuable consideration, those issued as dividends on stock, and those which have been issued in accordance with contractual requirements direct to trustees of sinking funds.

3. "Actually outstanding," as applied to securities issued or assumed by the utility, means those which have been actually issued and are neither retired nor held by or for the utility; provided, however, that securities held by trustees shall be considered as actually outstanding.

4. "Amortization" means the gradual extinguishment of an amount in an account by distributing such amount over a fixed period, over the life of the asset or liability to which it applies, or over the period during which it is anticipated the benefit will be realized.

5. A. "Associated companies" means companies or persons that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the accounting company.

B. "Control" (including the terms "controlling," "controlled by," and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of a company, whether such power is exercised through one or more intermediary companies, or alone, or in conjunction with, or pursuant to an agreement, and whether such power is established through a majority or minority ownership or voting of securities, common directors, officers, or stockholders, voting trusts, holding trusts, associated companies, contract or any other direct or indirect means.

6. "Book cost" means the amount at which property is recorded in these accounts without deduction of related provisions for accrued depreciation, amortization, or for other purposes.

7. "Commission" means the Federal Power Commission.

8. "Cost" means the amount of money actually paid for property or services. When the consideration given is other than cash in a purchase and sale transaction, as distinguished from a transaction involving the issuance of common stock in a merger or a pooling of interest, the value of such consideration shall be determined on a cash basis.

9. "Cost of removal" means the cost of demolishing, dismantling, tearing down or otherwise removing electric plant, including the cost of transportation and handling incidental thereto.

10. "Debt expense" means all expenses in connection with the issuance and initial sale of evidences of debt, such as fees for drafting mortgages and trust deeds; fees and taxes for issuing or recording evidences of debt; cost of engraving and printing bonds and certificates of indebtedness; fees paid trustees; specific costs of obtaining governmental authority: fees for legal services; fees and commissions paid underwriters, brokers, and salesmen for marketing such evidences of debt; fees and expenses of listing on exchanges; and other like costs.

11. "Depreciation," as applied to depreciable electric plant, means the loss in service value not restored by current maintenance incurred in connection with the consumption or prospective retirement of electric plant in the course of service from causes which are known to be in current operation and against which the utility is not protected by insurance. Among the causes to be given consideration are wear and tear, decay, action of the elements, inadequacy, obsolescence, changes in the art, changes in demand and requirements of public authorities.

12. "Discount" as applied to the securities issued or assumed by the utility, means the excess of the par (stated value of no-par stocks) or face value of the securities plus interest or dividends accrued at the date of the sale over the cash value of the consideration received from their sale.

13. "Investment advances" means advances, represented by notes or book accounts only, with respect to which it is mutually agreed or intended between the creditor and debtor that they shall be settled by the issuance of securities or shall not be subject to current settlement.

14. "Licensee" means any person, or State, licensed under the provisions of the Federal Power Act and subject to the Commission's accounting requirements under the terms of the license.

15. "Minor items of property" means the associated parts or items of which retirement units are composed.

16. "Net salvage value" means the salvage value of property retired less the cost of removal.

17. "Nominally issued," as applied to securities issued or assumed by the utility, means those which have been signed, certified, or otherwise executed, and placed with the proper officer for sale and delivery, or pledged, or otherwise placed in some special fund of the utility, but which have not been sold, or issued direct to trustees of sinking funds in accordance with contractual requirements.

18. "Nominally outstanding," as applied to securities issued or assumed by the utility, means those which, after being actually issued, have been reacquired by or for the utility under circumstances which require them to be considered as held alive and not retired, provided, however, that securities held by trustees shall be considered as actually outstanding.

19. "Nonproject property" means the electric plant of a licensee which is not a part of the project property subject to a license issued by the Commission.

20. "Original cost," as applied to electric plant, means the cost of such property to the person first devoting it to public service.

21. "Person" means an individual, a corporation, a partnership, an association, a joint stock company, a business trust, or any organized group of persons, whether incorporated or not, or any receiver or trustee.

22. "Premium," as applied to securities issued or assumed by the utility, means the excess of the cash value of the consideration received from their sale over the sum of their par (stated value of no-par stocks) or face value and interest or dividends accrued at the date of sale.

23. "Project" means complete unit of improvement or development, consisting of a power house, all water conduits, all dams and appurtenant works and structures (including navigation structures) which are a part of said unit, and all storage, diverting, or forebay reservoirs directly connected therewith, the primary line or lines transmitting power therefrom to the point of junction with the distribution system or with the interconnected primary transmission system, all miscellaneous structures used and useful in connection with said unit or any part thereof, and all water rights, rights of way, ditches, dams, reservoirs, lands, or interest in lands the use and occupancy of which are necessary or appropriate in the maintenance and operation of such unit.

24. "Project property" means the property described in and subject to a license issued by the Commission.

25. "Property retired," as applied to electric plant, means property which has been removed, sold, abandoned, destroyed, or which for any cause has been withdrawn from service.

26. "Public utility" means any person who owns or operates facilities subject to the jurisdiction of the Commission under the Federal Power Act. (See section 201(e) of said act.)

27. "Replacing" or "replacement," when not otherwise indicated in the context, means the construction or installation of electric plant in place of property retired, together with the removal of the property retired.

28. "Retirement units" means those items of electric plant which, when retired, with or without replacement, are accounted for by crediting the book cost thereof to the electric plant account in which included.

29. "Salvage value" means the amount received for property retired, less any expenses incurred in connection with the sale or in preparing the property for sale; or, if retained, the amount at which the material recoverable is chargeable to materials and supplies, or other appropriate account.

30. "Service life" means the time between the date electric plant is includible in electric plant in service, or electric plant leased to others, and the date of its retirement. If depreciation is accounted for on a production basis rather than on a time basis, then service life should be measured in terms of the appropriate unit of production.

31. "Service value" means the difference between original cost and net salvage value of electric plant.

32. "State" means a State admitted to the Union, the District of Columbia, and any organized Territory of the United States.

33. "Utility," as used herein and when not otherwise indicated in the context, means any public utility or licensee to which this system of accounts is applicable.

General Instructions

1. *Classification of Utilities.*

A. For the purpose of applying systems of accounts prescribed by the Commission, electric utilities and licensees are divided into four classes, as follows:

Class A. Utilities having annual electric operating revenues of $2,500,000 or more.

Class B. Utilities having annual electric operating revenues of $1,000,000 or more but less than $2,500,000.

Class C. Utilities having annual electric operating revenues of $150,000 or more but less than $1,000,000.

Class D. Utilities having annual electric operating revenues of $25,000 or more but less than $150,000.

B. This system of accounts applies to Class C utilities. Those applicable to Classes A and B and to Class D utilities are issued separately.

C. The class to which any utility belongs shall originally be determined by the average of its annual electric operating revenues for the last three consecutive years. Subsequent changes in classification shall be made when the annual electric operating revenues for each of the three immediately preceding years shall exceed the upper limit, or be less than the lower limit, of the annual electric operating revenues of the classification previously applicable to the utility.

D. Any utility may, at its option, adopt the system of accounts prescribed by the Commission for any larger class of utilities.

2. *Records.*

A. Each utility shall keep its books of account, and all other books, records, and memoranda which support the entries in such books of account so as to be able to furnish readily full information as to any item included in any account. Each entry shall be supported by such detailed information as will permit ready identification, analysis, and verification of all facts relevant thereto.

B. The books and records referred to herein include not only accounting records in a limited technical sense, but all other records, such as minute books, stock books, reports, correspondence, memoranda, etc., which may be useful in developing the history of or facts regarding any transaction.

C. No utility shall destroy any such books or records unless the destruction thereof is permitted by rules and regulations of the Commission.

D. In addition to prescribed accounts, clearing accounts, temporary or experimental accounts, and subdivisions of any account, may be kept, provided the integrity of the prescribed accounts is not impaired.

E. All amounts included in the accounts prescribed herein for electric plant and operating expenses shall be just and reasonable and any payments or accruals by the utility in excess of just and reasonable charges shall be included in account 426, Other Income Deductions.

F. The arrangement or sequence of the accounts prescribed herein shall not be controlling as to the arrangement or sequence in report forms which may be prescribed by the Commission.

3. *Numbering System.*

A. The account numbering plan used herein consists of a system of three-digit whole numbers as follows:

100–199	Assets and other debits.
200–299	Liabilities and other credits.
300–399	Plant accounts.
400–439	Income accounts.
440–459	Revenue accounts.
500–599	Production, transmission and distribution expenses.
900–949	Customer accounts, sales and general administrative expenses.

B. In certain instances, numbers have been skipped in order to allow for possible later expansion or to permit better coordination with the number system for other utility departments.

C. The numbers prefixed to account titles are to be considered as parts of the titles. Each utility, however, may adopt for its own purposes a different system of account numbers (see also general instruction 2D) provided that the numbers herein prescribed shall appear in the descriptive headings of the ledger accounts and in the various sources of original entry; however, if a utility uses a different group of account numbers and it is not practicable to show the prescribed account numbers in the various sources of original entry, such reference to the prescribed account numbers may be omitted from the various sources of original entry. Moreover, each utility using different account numbers for its own purposes shall keep readily available a list of such account numbers which it uses and a reconciliation of such account numbers with the account numbers provided herein. It is intended that the utility's records shall be so kept as to permit ready analysis by prescribed accounts (by direct reference to sources of original entry to the extent practicable) and to permit preparation of financial and operating statements directly from such records at the end of each accounting period according to the prescribed accounts.

4. *Accounting Period.*

Each utility in Class C shall keep its books on a monthly basis so that for each accounting period all transactions applicable thereto, as nearly as may be ascertained, shall be entered in the books of the utility. Each utility shall close its books at the end of each calendar year unless otherwise authorized by the Commission.

5. *Submittal of Questions.*

To maintain uniformity of accounting, utilities shall submt questions of doubtful interpretation to the Commission for consideration and decision.

6. *Item Lists.*

Lists of "items" appearing in the texts of the accounts or elsewhere herein are for the purpose of more clearly indicating the application of the prescribed accounting. The lists are intended to be representative, but not exhaustive. The appearance of an item in a list warrants the inclusion of the item in the account mentioned only when the text of the account also indicates inclusion inasmuch as the same item frequently appears in more than one list. The proper entry in each instance must be determined by the texts of the accounts.

7. *Accounting to be on Accrual Basis.*

A. The utility is required to keep its accounts on the accrual basis. This requires the inclusion in its accounts of all known transactions of appreciable amount which affect the accounts. If bills covering such transactions have not been received or rendered, the amounts shall be estimated and appropriate adjustments made when the bills are received.

B. When payments are made in advance for items such as insurance, rents, taxes, or interest, the amount applicable to future periods shall be charged to account 165, Prepayments, and spread over the periods to which applicable by credits to account 165, and charges to the accounts appropriate for the expenditure.

8. *Distribution of Pay and Expenses of Employees.*

The charges to electric plant, operating expense, and other accounts for services and expenses of employees engaged in activities chargeable to various accounts, such as construction, maintenance, and operations, shall be based upon the actual time engaged in the respective classes of work, or in case that method is impracticable, upon the basis of a study of the time actually engaged during a representative period.

9. *Payroll Distribution.*

Underlying accounting data shall be maintained so that the distribution of the cost of labor charged direct to the various accounts will be readily available. Such underlying data shall permit a reasonably accurate distribution to be made of the cost of labor charged initially to clearing accounts so that the total labor cost may be classified among construction, cost of removal, electric operating functions (steam generation, hydraulic generation, transmission, distribution, etc.) and nonutility operations.

10. *Operating Reserves.*

Accretions to operating reserve accounts made by charges to operating expenses shall not exceed a reasonable provision for the expense. Material balances in such reserve accounts shall not be diverted from the purpose for which provided unless the permission of the Commission is first obtained.

11. *Accounting for Other Departments.*

If the utility also operates other utility departments, such as gas, water, etc., it shall keep such accounts for the other departments as may be prescribed by proper authority and in the absence of prescribed accounts, it shall keep such accounts as are proper or necessary to reflect the results of operating each such department. It is not intended that pro-

prietary and similar accounts which apply to the utility as a whole shall be departmentalized.

12. *Separate Accounts or Records for Each Licensed Project.*

The accounts or records of each licensee shall be so kept as to show for each project under license:

(a) The actual legitimate original cost of the project, including the original cost (or fair value as determined under section 23 of the Federal Power Act) of the original project, the original cost of additions thereto and betterments thereof, credits for property retired from service, and credits for related contributions in aid of construction, as determined under the Commission's regulations.

(b) The charges for operation and maintenance of the project property directly assignable to the project;

(c) The credits and debits to the depreciation reserve account, and the balance in such account;

(d) The credits and debits to operating revenue, income, and surplus accounts that can be identified with and directly assigned to the project.

NOTE: The purpose of this instruction is to insure that accounts or records are currently maintained by each licensee from which reports may be made to the Commission for use in determining the net investment in each licensed project. The instruction covers only the debit and credit items appearing in the licensee's accounts which may be identified with and assigned directly to any licensed project. In the determination of the net investment as defined in section 3 of the Federal Power Act, allocations of items affecting the net investment may be required where direct assignment is not practicable.

Electric Plant Instructions

1. *Electric Plant To Be Recorded at Cost.*

A. All amounts included in the accounts for electric plant acquired as an operating unit or system, except as otherwise provided in the texts of the intangible plant accounts, shall be stated at the cost incurred by the person who first devoted the property to utility service. All other electric plant shall be included in the accounts at the cost incurred by the utility. Where the term "cost" is used in the detailed plant accounts, it shall have the meaning stated in this paragraph.

B. When the consideration given for property is other than cash, the value of such consideration shall be determined on a cash basis. (See, however, definition 8). In the entry recording such transaction, the actual consideration shall be described with sufficient particularity to identify it. The utility shall be prepared to furnish the Commission the particulars of its determination of the cash value of the consideration if other than cash.

C. When property is purchased under a plan involving deferred payments, no charge shall be made to the electric plant accounts for interest, insurance, or other expenditures occasioned solely by such form of payment.

D. Electric plant contributed to the utility or constructed by it from contributions to it of cash or its equivalent shall be charged to the electric plant accounts at cost of construction, estimated if not known. There shall be credited to the accounts for accumulated depreciation and amortization the estimated amount of depreciation and amortization applicable to the property at the time of its contribution to the utility. The difference between the amounts included in the electric plant accounts and the accumulated depreciation and amortization shall be credited to account 271, Contributions in Aid of Construction.

2. *Components of Construction Cost.*

The cost of construction of property chargeable to the electric plant accounts shall include, where applicable, the cost of labor, materials and supplies, transportation, work done by others for the utility, injuries and damages incurred in construction work, privileges and permits, special machine service, interest during construction and such portion of general engineering, administrative salaries and expenses, insurance, taxes and other analogous items as may be properly includible in construction costs.

3. *Overhead Construction Costs.*

A. All overhead construction costs, such as engineering, supervision, general office salaries and expenses, construction engineering and supervision by others than the accounting utility, law expense, insurance, injuries and damages, relief and pensions, taxes and interest, shall be charged to particular jobs or units on the basis of the amounts of such overheads reasonably applicable thereto, to the end that each job or unit shall bear its equitable proportion of such costs and that the entire cost of the unit, both direct and overhead, shall be deducted from the plant accounts at the time the property is retired.

B As far as practicable, the determination of payroll charges includible in construction overheads shall be based on time card distributions thereof. Where this procedure is impractical, special studies shall be made periodically of the time of supervisory employees devoted to construction activities to the end that only such overhead costs as have a definite relation to construction shall be capitalized. The addition to direct construction costs of arbitrary percentages or amounts to cover assumed overhead costs is not permitted.

4. *Electric Plant Purchased or Sold.*

A. When utility plant constituting an operating unit or system is acquired by purchase, merger, consolidation, liquidation, or otherwise, after the effective date of this system of accounts, the costs of acquisition, including expenses incidental thereto properly includible in utility plant, shall be charged to account 102, Electric Plant Purchased or Sold.

B. The accounting for the acquisition shall then be completed as follows:

(1) The original cost of plant, estimated if not known, shall be credited to account 102, Electric Plant Purchased or Sold, and concurrently charged to the appropriate utility plant in service accounts and to account 104, Electric Plant Leased to Others, account 105, Electric Plant Held for Future Use, and account 107, Construction Work in Progress—Electric, as appropriate.

(2) The depreciation and amortization applicable to the original cost of the properties purchased, shall be charged to account 102, Electric Plant Purchased or Sold, and concurrently credited to the appropriate account for accumulated provision for depreciation or amortization.

(3) The cost to the utility of any property includible in account 121, Nonutility Property, shall be transferred thereto.

(4) The amount of contributions in aid of construction applicable to the property acquired, shall be charged to account 102, Electric Plant Purchased or Sold, and concurrently credited to account 271, Contributions in Aid of Construction, unless otherwise authorized by the Commission.

(5) The amount remaining in account 102, Electric Plant Purchased or Sold, shall then be closed to account 114, Electric Plant Acquisition Adjustments.

C. If property acquired in the purchase of an operating unit or system is in such physical condition when acquired that it is necessary substantially to rehabilitate it in order to bring the property up to the standards of the utility, the cost of such work, except replacements, shall be accounted for as a part of the purchase price of the property.

D. When any property acquired as an operating unit or system includes duplicate or other plant which will be retired by the accounting utility in the reconstruction of the acquired property or its consolidation with previously owned property, the proposed accounting for such property shall be presented to the Commission.

E. In connection with the acquisition of electric plant constituting an operating unit or system, the utility shall procure, if possible, all existing records relating to the property acquired, or certified copies thereof, and shall preserve such records in conformity with regulations or practices governing the preservation of records of its own construction.

F. When electric plant constituting an operating unit or system is sold, conveyed, or transferred to another by sale, merger, consolidation, or otherwise, the book cost of the property sold or transferred to another shall be credited to the appropriate electric plant accounts, including amounts carried in account 114, Electric Plant Acquisition Adjustments, and the amounts (estimated if not known) carried with respect thereto in the accounts for accumulated provision for depreciation and amortization and in account 252, Customer Advances for Construction, and account 271, Contributions in Aid of Construction, shall be charged to such accounts and the contra entries made to account 102, Electric Plant Purchased or Sold. Unless otherwise ordered by the Commission, the difference, if any, between (a) the net amount of debits and credits and (b) the consideration received for the property (less commissions and other expenses of making the sale), shall be included in account 434, Miscellaneous Credits to Surplus, or account 435, Miscellaneous Debits to Surplus. (See account 102, Electric Plant Purchased or Sold.)

NOTE: In cases where existing utilities merge or consolidate because of financial or operating reasons or statutory requirements rather than as a means of transferring title of purchased properties to a new owner, the accounts of the constituent utilities, with the approval of the Commission, may be combined. In the event original cost has not been determined, the resulting utility shall proceed to determine such cost as outlined herein.

5. *Expenditures on Leased Property.*

A. The cost of substantial initial improvements (including repairs, rearrangements, additions and betterments) made in the course of preparing for utility service property leased for a period of more than one year, and the cost of subsequent substantial additions, replacements, or betterments to such property, shall be charged to the electric plant account appropriate for the class of property leased. If the service life of the improvements is terminable by action of the lease, the cost, less net salvage, of the improvements shall be spread over the life of the lease by charges to account 404, Amortization of Limited-Term Electric Plant. However, if the service life is not terminated by action of the lease but by depreciation proper, the cost of the improvements, less net salvage, shall be accounted for as depreciable plant.

B. If improvements made to property leased for a period of more than one year are of relatively minor cost, or if the lease is for a period of not more than one year, the cost of the improvements shall be charged to the account in which the rent is included, either directly or by amortization thereof.

6. *Land and Land Rights.*

A. The accounts for land and land rights shall include the cost of land owned in fee by the utility and rights, interests, and privileges held by the utility in land owned by others, such as leaseholds, easements, water and water power rights, diversion rights, submersion rights, rights of way, and other like interests in land.

B. Where special assessments for public improvements provide for deferred payments, the full amount of the assessments shall be charged to the appropriate land account and the unpaid balance shall be carried in an appropriate liability account. Interest on unpaid balances shall be charged to the appropriate interest account. If any part of the cost of public improvements is included in the general tax levy, the amount thereof shall be charged to the appropriate tax account.

C. The net profit from the sale of timber, cord wood, or other property acquired with rights of way or other lands shall be credited to the appropriate land and land rights or clearing land account. Where land is held for a considerable period of time and timber on the land at the time of purchase increases in value, the net profit (after giving effect to the cost of the timber) from the sales of timber or its products shall be credited to account 421, Miscellaneous Nonoperating Income.

D. Separate entries shall be made for the acquisition, transfer or retirement of each parcel of land, and each land right (except rights of way for distribution lines), or water right having a life of more than one year. A record shall be maintained showing the nature of ownership, full legal description, area, map reference, purpose for which used, city, county, and tax district in which situated, from whom purchased or to whom sold, payment given or received, other costs, contract date and number, date of recording of deed, and book and page of record. Entries transferring or retiring land or land rights shall refer to the original entry recording its acquisition.

E. Any difference between the amount received from the sale of land or land rights, less agents' commissions and other costs incident to the sale, and the book cost of such land or rights, shall be included in account 434, Miscellaneous Credits to Surplus, or account 435, Miscellaneous Debits to Surplus, as appropriate, unless a reserve therefore has been authorized and provided. Appropriate adjustments of the accounts shall be made with respect to any structures or improvements located on land sold.

F. The cost of buildings and other improvements (other than public improvements) shall not be included in the land accounts. If at the time of acquisition of an interest in land such interest extends to buildings or other improvements (other than public improvements), which are then devoted to utility operations, the land and improvements shall be separately appraised and the cost allocated to land and buildings or improvements on the basis of the appraisals. If the improvements are removed or wrecked without being used in operations, the cost of removing or wrecking shall be charged and the salvage credited to the account in which the cost of the land is recorded.

G. When the purchase of land for electric operations requires the purchase of more land than needed for such purposes, the charge to the specific land account shall be based upon the cost of the land purchased, less the fair market value of that portion of the land which is not to be used in utility operations. The portion of the cost measured by the fair market value of the land not to be used shall be included in account 105, Electric Plant Held for Future Use, or account 121, Nonutility Property, as appropriate.

H. Provision shall be made for amortizing amounts carried in the accounts for limited-term interests in land so as to apportion equitably the cost of each interest over the life thereof. (See account 404, Amortization of Limited-Term Electric Plant.)

I. The items of cost to be included in the accounts for land and land rights are as follows:

1. Bulkheads, buried, not requiring maintenance or replacement.
2. Cost, first, of acquisition including mortgages and other liens assumed (but not subsequent interest thereon).
3. Clearing (first cost) the land of brush, trees, and debris, except in the case of account 332, Reservoirs, Dams and Waterways, and account 351 (Transmission Plant), Clearing Land and Rights of Way.
4. Condemnation proceedings, including court and counsel costs.
5. Consents and abutting damages, payment for.
6. Conveyancers' and notaries' fees.
7. Fees, commissions, and salaries to brokers, agents and others in connection with the acquisition of the land or land rights.
8. Grading the land, except when directly occasioned by the building of a structure.
9. Leases, cost of voiding upon purchase to secure possession of land.
10. Removing, relocating, or reconstructing property of others, such as buildings, highways, railroads, bridges, cemeteries, churches, telephone and power lines, etc., in order to acquire quiet possession.
11. Retaining walls unless identified with structures.
12. Special assessments levied by public authorities for public improvements on the basis of benefits for new roads, new bridges, new sewers, new curbing, new pavements, and other public improvements, but not taxes levied to provide for the maintenance of such improvements.
13. Surveys in connection with the acquisition, but not amounts paid for topographical surveys and maps where such costs are attributable to structures or plant equipment erected or to be erected or installed on such land.
14. Taxes assumed, accrued to date of transfer of title.
15. Title, examining, clearing, insuring and registering in connection with the acquisition and defending against claims relating to the period prior to the acquisition.
16. Appraisals prior to closing title.
17. Cost of dealing with distributees or legatees residing outside of the state or county, such as recording power of attorney, recording will or exemplification of will, recording satisfaction of state tax.
18. Filing satisfaction of mortgage.
19. Documentary stamps.
20. Photographs of property at acquisition.
21. Fees and expenses incurred in the acquisition of water rights and grants.
22. Cost of fill to extend bulkhead line over land under water, where riparian rights are held, which is not occasioned by the erection of a structure.
23. Sidewalks and curbs constructed by the utility on public property.
24. Labor and expenses in connection with securing right of way, where performed by company employees and company agents.

7. *Structures and Improvements.*

A. The accounts for structures and improvements shall include the cost of all buildings and facilities to house, support, or safeguard property or persons, including all fixtures permanently attached to and made a part of buildings and which cannot be removed therefrom without cutting into the walls, ceilings, or floors, or without in some way impairing the buildings, and improvements of a permanent character on or to land.

B. The cost of specially provided foundations not intended to outlast the machinery or apparatus for which provided, and the cost of angle irons, castings, etc., installed at the base of any item of equipment, shall be charged to the same account as the cost of the machinery, apparatus, or equipment.

C. Minor buildings and structures, such as valve towers, patrolmen's towers, telephone stations, etc., which are used directly in connection with or form a part of a reservoir dam, waterway, etc., shall be considered a part of the facility

in connection with which constructed or operated and the cost thereof accounted for accordingly.

D. Where furnaces and boilers are used primarily for furnishing steam for some particular department and only incidentally for furnishing steam for heating a building and operating the equipment therein, the entire cost of such furnaces and boilers shall be charged to the appropriate plant account, and no part to the building account.

E. Where the structure of a dam forms also the foundation of the power plant building, such foundation shall be considered a part of the dam.

F. The cost of disposing of materials excavated in connection with construction of structures shall be considered as a part of the cost of such work, except as follows: (a) When such material is used for filling, the cost of loading, hauling, and dumping shall be equitably apportioned between the work in connection with which the removal occurs and the work in connection with which the material is used; (b) When such material is sold, the net amount realized from such sales shall be credited to the work in connection with which the removal occurs. If the amount realized from the sale of excavated materials exceeds the removal costs and the costs in connection with the sale, the excess shall be credited to the land account in which the site is carried.

G. Lighting or other fixtures temporarily attached to buildings for purposes of display or demonstration shall not be included in the cost of the building but in the appropriate equipment account.

H. The items of cost to be included in the accounts for structures and improvements are as follows:

1. Architects' plans and specifications including supervision.
2. Athletic field structures and improvements.
3. Boilers, furnaces, piping, wiring fixtures, and machinery for heating, lighting, signaling, ventilating, and air conditioning systems, plumbing, vacuum cleaning systems, incinerator and smoke pipe, flues, etc.
4. Bulkheads, including dredging, riprap fill, piling, decking, concrete, fenders, etc., when exposed and subject to maintenance and replacement.
5. Coal bins and bunkers.
6. Commissions and fees to brokers, agents, architects and others.
7. Conduit (not to be removed) with its contents.
8. Damages to abutting property during construction.
9. Drainage and sewerage systems.
10. Elevators, cranes, hoists, etc., and the machinery for operating them.
11. Excavation, including shoring, bracing, bridging, refill, and disposal of excess excavated material, cofferdams around foundation, pumping water from cofferdam during construction, test borings.
12. Fences and fence curbs (not including protective fences isolating items of equipment, which shall be charged to the appropriate equipment account).
13. Fire protection systems when forming a part of a structure.
14. Foundations and piers for machinery, constructed as a permanent part of a building or other item listed herein.
15. Grading and clearing when directly occasioned by the building of a structure.
16. Intrasite communication system, poles, pole fixtures, wires and cables.
17. Landscaping, lawns, shrubbery, etc.
18. Leases, voiding upon purchase to secure possession of structures.
19. Leased property, expenditures on.
20. Lighting fixtures and outside lighting system.
21. Painting, first cost.
22. Permanent paving, concrete, brick, flagstone, asphalt, etc., within the property lines.
23. Permits and privileges.
24. Platforms, railings and gratings when constructed as a part of a structure.
25. Retaining walls except when identified with land.
26. Roadways, railroads, bridges, and trestles intrasite, except railroads provided for in equipment accounts.
27. Sidewalks, culverts, curbs and streets constructed by the utility on its property.
28. Stacks—brick, steel, or concrete, when set on foundation forming part of general foundation and steel work of a building.
29. Storage facilities constituting a part of a building.
30. Subways, areaways, and tunnels, directly connected to and forming part of a structure.
31. Tanks, constructed as part of a building or as a distinct structural unit.
32. Temporary shanties and other facilities used during construction (net cost).
33. Tunnels, intake and discharge, when constructed as part of a structure, including sluice gates, and those constructed to house mains.
34. Vaults constructed as part of a building.
35. Water basins or reservoirs.
36. Wharves.

NOTE: Structures and Improvements accounts shall be credited with the cost of coal bunkers, stacks, foundations, subways, tunnels, etc., the use of which has terminated with the removal of the equipment with which they are associated even though they have not been physically removed.

8. *Equipment.*

A. The cost of equipment chargeable to the electric plant accounts, unless otherwise indicated in the text of an equipment account, includes the net purchase price thereof, sales taxes, investigation and inspection expenses necessary to such purchase, expenses of transportation when borne by the utility, labor employed, materials and supplies consumed, and expenses incurred by the utility in unloading and placing the equipment in readiness to operate.

B. Exclude from equipment accounts hand and other portable tools, which are likely to be lost or stolen or which have relatively small value (for example, $50 or less) or short life, unless the correctness of the accounting therefor as electric plant is verified by current inventories. Special tools acquired and included in the purchase price of equipment shall be included in the appropriate plant account. Portable drills and similar tool equipment when used in connection with the operation and maintenance of a particular plant or department, such as production, transmission, distribution, etc., or in "stores," shall be charged to the plant account appropriate for their use.

C. The equipment accounts shall include angle irons and similar items which are installed at the base of an item of equipment, but piers and foundations which are designed to be as permanent as the buildings which house the equipment or which are constructed as a part of the building and which cannot be removed without cutting into the walls, ceilings or floors or without in some way impairing the building, shall be included in the building accounts.

D. The equipment accounts shall include the necessary costs of testing or running a plant or part thereof during an experimental or test period prior to becoming available for service. The utility shall furnish the Commission with full particulars of and justification for any test or experimental run extending beyond a period of thirty days.

E. The cost of efficiency or other tests made subsequent to the date equipment becomes available for service shall be charged to the appropriate expense accounts, except that tests to determine whether equipment meets the specifications and requirements as to efficiency, performance, etc., guaranteed by manufacturers, made after operations have commenced and within the period specified in the agreement or contract of purchase, may be charged to the appropriate electric plant account.

9. *Additions and Retirements of Electric Plant.*

A. For the purpose of avoiding undue refinement in accounting for additions to and retirements and replacements of utility plant, all property shall be considered as consisting of (1) retirement units and (2) minor items of property. Each utility shall use such list of retirement units as is in use by it at the effective date hereof or as may be prescribed by the Commission, with the option, however, of using smaller units, provided the utility's practice in this respect is consistent.

B. The addition and retirement of retirement units shall be accounted for as follows:

(1) When a retirement unit is added to electric plant, the cost thereof shall be added to the appropriate electric plant account, except that when units are acquired in the acquisition of any electric plant constituting an operating system, they shall be accounted for as provided in electric plant instruction 4.

(2) When a retirement unit is retired from electric plant, with or without replacement, the book cost thereof shall be credited to the electric plant account in which it is included, determined in the manner set forth in paragraph D, below. If the retirement unit is of a depreciable class the book cost of the unit retired and credited to electric plant shall be charged to the accumulated provision for depreciation applicable to such property. The cost of removal and the salvage shall be charged or credited, as appropriate, to such depreciation account.

C. The addition and retirement of minor items of property shall be accounted for as follows:

(1) When a minor item of property which did not previously exist is added to plant, the cost thereof shall be accounted for in the same manner as for the addition of a retirement unit, as set forth in paragraph B(1), above, if a substantial addition results, otherwise

the charge shall be to the appropriate maintenance expense account.

(2) When a minor item of property is retired and not replaced, the book cost thereof shall be credited to the electric plant account in which it is included; and, in the event the minor item is a part of depreciable plant, the account for accumulated provision for depreciation shall be charged with the book cost and cost of removal and credited with the salvage. If, however, the book cost of the minor item retired and not replaced has been or will be accounted for by its inclusion in the retirement unit of which it is a part when such unit is retired, no separate credit to the property account is required when such minor item is retired.

(3) When a minor item of depreciable property is replaced independently of the retirement unit of which it is a part, the cost of replacement shall be charged to the maintenance account appropriate for the item, except that if the replacement effects a substantial betterment (the primary aim of which is to make the property affected more useful, more efficient, of greater durability, or of greater capacity), the excess cost of the replacement over the estimated cost at current prices of replacing without betterment shall be charged to the appropriate electric plant account.

D. The book cost of electric plant retired shall be the amount at which such property is included in the electric plant accounts, including all components of construction costs. The book cost shall be determined from the utility's records and if this cannot be done, it shall be estimated. When it is impracticable to determine the book cost of each unit, due to the relatively large number or small cost thereof, an appropriate average book cost of the units, with due allowance for any differences in size and character, shall be used as the book cost of the units retired.

E. The book cost of land retired shall be credited to the appropriate land account. If the land is sold, the difference between the book cost (less any accumulated provision for depreciation or amortization therefor which has been authorized and provided) and the sale price of the land (less commissions and other expenses of making the sale) shall be included in account 435, Miscellaneous Debits to Surplus, or account 434, Miscellaneous Credits to Surplus, as appropriate. If the land is not used in utility service but is retained by the utility, the book cost shall be charged to account 105, Electric Plant Held for Future Use, or account 121, Nonutility Property, as appropriate.

F. The book cost less net salvage of electric plant retired shall be charged in its entirety to account 110, Accumulated Provision for Depreciation and Amortization of Electric Plant. Any amounts which, by approval or order of the Commission, are charged to account 182, Extraordinary Property Losses, shall be credited to account 110, Accumulated Provision for Depreciation and Amortization of Electric Plant.

10. *Transfers of Property.*

When property is transferred from one electric plant account to another, from one utility department to another, such as from electric to gas, from one operating division or area to another, to or from Electric Plant in Service, Electric Plant Leased to Others, Electric Plant Held for Future Use, and Nonutility Property, the transfer shall be recorded by transferring the original cost thereof from one account, department, or location to the other. Any related amounts carried in the accounts for accumulated provision for depreciation or amortization shall be transferred in accordance with the segregation of such accounts.

11. *Common Utility Plant.*

A. If the utility is engaged in more than one utility service such as electric, gas, and water, and any of its utility plant is used in common for several utility services or for other purposes to such an extent and in such a manner that it is impracticable to segregate it by utility services currently in the accounts, such property, with the approval of the Commission, may be designated and classified as "common utility plant."

B. The book amount of utility plant designated as common plant shall be included in account 118, Other Utility Plant, and if applicable in part to the electric department, shall be segregated and accounted for in subaccounts as electric plant is accounted for in accounts 101 to 107, inclusive, and electric plant adjustments in account 116; any amounts classifiable as common plant acquisition adjustments or common plant adjustments shall be subject to disposition as provided in paragraphs C and B of accounts 114 and 116, respectively, for amounts classified in those accounts. The original cost of common utility plant in service shall be classified according to detailed utility plant accounts appropriate for the property.

C. The utility shall be prepared to show at any time and to report to the Commission annually, or more frequently, if required, and by utility plant accounts (301 to 399) the following: (1) The book cost of common utility plant, (2) the allocation of such cost to the respective departments using the common utility plant, and (3) the basis of the allocation.

D. The accumulated provision for depreciation and amortization of the utility shall be segregated so as to show the amount applicable to the property classified as common utility plant.

E. The expenses of operation, maintenance, rents, depreciation and amortization of common utility plant shall be recorded in the accounts prescribed herein, but designated as common expenses, and the allocation of such expenses to the departments using the common utility plant shall be supported in such manner as to reflect readily the basis of allocation used.

12. *Transmission and Distribution Plant.*

For the purpose of this system of accounts:

A. "Transmission system" means:

(1) All land, conversion structures, and equipment employed at a primary source of supply (i.e., generating station, or point of receipt in the case of purchased power) to change the voltage or frequency of electricity for the purpose of its more efficient or convenient transmission;

(2) All land, structures, lines, switching and conversion stations, high tension apparatus, and their control and protective equipment between a generating or receiving point and the entrance to a distribution center or wholesale point; and

(3) All lines and equipment whose primary purpose is to augment, integrate or tie together the sources of power supply.

B. "Distribution system" means all land, structures, conversion equipment, lines, line transformers, and other facilities employed between the primary source of supply (i.e., generating station, or point of receipt in the case of purchased power) and of delivery to customers, which are not includible in transmission system, as defined in paragraph A, whether or not such land, structures, and facilities are operated as part of a transmission system or as part of a distribution system.

NOTE: Stations which change electricity from transmission to distribution voltage shall be classified as distribution stations.

C. Where poles or towers support both transmission and distribution conductors, the poles, towers, anchors, guys, and rights of way shall be classified as transmission system. The conductors, crossarms, braces, grounds, tiewire, insulators, etc., shall be classified as transmission or distribution facilities, according to the purpose for which used.

D. Where underground conduit contains both transmission and distribution conductors, the underground conduit and right of way shall be classified as distribution system. The conductors shall be classified as transmission or distribution facilities according to the purpose for which used.

E. Land (other than rights of way) and structures used jointly for transmission and distribution purposes shall be classified as transmission or distribution according to the major use thereof.

Operating Expense Instructions

1. *Maintenance.*

A. The cost of maintenance chargeable to the various operating expense and clearing accounts includes labor, materials, overheads and other expenses incurred in maintenance work. A list of work operations applicable generally to electric plant is included hereunder. Other work operations applicable to specific classes of plant are listed in functional maintenance expense accounts.

B. Materials recovered in connection with the maintenance of property shall be credited to the same account to which the maintenance cost was charged.

C. If the book cost of any property is carried in account 102, Electric Plant Purchased or Sold, the cost of maintaining such property shall be charged to the accounts for maintenance of property of the same class and use, the book cost of which is carried in other utility plant in service accounts. Maintenance of property leased from others shall be treated

as provided in operating expenses instruction 2.

Items

1. Direct field supervision of maintenance.

2. Inspecting, testing, and reporting on condition of plant specifically to determine the need for repairs, replacements, rearrangements and changes and inspecting and testing the adequacy of repairs which have been made.

3. Work performed specifically for the purpose of preventing failure, restoring service ability or maintaining life of plant.

4. Rearranging and changing the location of plant not retired.

5. Repairing for reuse materials recovered from plant.

6. Testing for, locating and clearing trouble.

7. Net cost of installing, maintaining, and removing temporary facilities to prevent interruptions in service.

8. Replacing or adding minor items of plant which do not constitute a retirement unit. (See electric plant instruction 9.)

2. *Rents.*

A. The rent expense accounts provided under the several functional groups of expense accounts shall include all rents, including taxes paid by the lessee on leased property, for property used in utility operations, except (1) minor amounts paid for occasional or infrequent use of any property or equipment and all amounts paid for use of equipment that, if owned, would be includible in plant accounts 391 to 398, inclusive, which shall be treated as an expense item and included in the appropriate functional account and (2) rents which are chargeable to clearing accounts, and distributed therefrom to the appropriate account. If rents cover property used for more than one function, such as production and transmission, or by more than one department, the rents shall be apportioned to the appropriate rent expense or clearing accounts of each department on an actual, or, if necessary, an estimated basis.

B. When a portion of property or equipment rented from others for use in connection with utility operations is subleased, the revenue derived from such subleasing shall be credited to the rent revenue account in operating revenues; provided, however, that in case the rent was charged to a clearing account, amounts received from subleasing the property shall be credited to such clearing account.

C. The cost, when incurred by the lessee, of operating and maintaining leased property, shall be charged to the accounts appropriate for the expense if the property were owned.

D. The cost incurred by the lessee of additions and replacements to electric plant leased from others shall be accounted for as provided in electric plant instruction 5.

Balance Sheet Accounts

ASSETS AND OTHER DEBITS

1. Utility Plant

101 Electric plant in service.
102 Electric plant purchased or sold.
103 Electric plant in process of reclassification.
104 Electric plant leased to others.
105 Electric plant held for future use.
107 Construction work in progress—Electric.
110 Accumulated provision for depreciation and amortization of electric plant.
114 Electric plant acquisition adjustments.
116 Other electric plant adjustments.
118 Other utility plant.
119 Accumulated provision for depreciation and amortization of other utility plant.

2. Other Property and Investments

121 Nonutility property.
122 Accumulated provision for depreciation and amortization of nonutility property.
124 Other investments.
125 Special funds.

3. Current and Accrued Assets

131 Cash and working funds.
132 Temporary cash investments.
141 Notes receivable.
142 Customer accounts receivable.
143 Other accounts receivable.
144 Accumulated provision for uncollectible accounts—Cr.
145 Notes receivable from associated companies.
146 Accounts receivable from associated companies.
150 Materials and supplies.
165 Prepayments.
170 Other current and accrued assets.

4. Deferred Debits

181 Unamortized debt discount and expense.
182 Extraordinary property losses.
183 Other deferred debits.

LIABILITIES AND OTHER CREDITS

5. Proprietary Capital

201 Common capital stock.
204 Preferred capital stock.
207 Other paid-in capital.
212 Installments received on capital stock.
213 Discount on capital stock.
214 Capital stock expense.
215 Appropriated earned surplus.
216 Unappropriated earned surplus.
217 Reacquired capital stock.

6. Long-Term Debt

221 Bonds.
223 Advances from associated companies.
224 Other long-term debt.

7. Current and Accrued Liabilities

231 Notes payable.
232 Accounts payable.
233 Notes payable to associated companies.
234 Accounts payable to associated companies.
235 Customer deposits.
236 Taxes accrued.
237 Interest accrued.
238 Other current and accrued liabilities.

8. Deferred Credits

251 Unamortized premium on debt.
252 Customer advances for construction.
253 Other deferred credits.

9. Operating Reserves

261 Property insurance reserve.
262 Injuries and damages reserve.
263 Pensions and benefits reserve.
264 Amortization reserve—Federal.
265 Miscellaneous operating reserves.

10. Contributions in Aid of Construction

271 Contributions in aid of construction.

11. Accumulated Deferred Income Taxes

281 Accumulated deferred income taxes—Accelerated amortization.
282 Accumulated deferred income taxes—Liberalized depreciation.
283 Accumulated deferred income taxes—Other.

Balance Sheet Accounts

ASSETS AND OTHER DEBITS

1. Utility Plant

101 Electric plant in service.

A. This account shall include the original cost of electric plant, included in the plant accounts prescribed herein, owned and used by the utility in its electric operations, and having an expectation of life in service of more than one year from date of installation, including such property owned by the utility but held by nominees.

B. The cost of additions to and betterments of property leased from others, which are includible in this account, shall be maintained in subdivisions separate and distinct from those relating to owned property. (See electric plant instruction 5.)

102 Electric plant purchased or sold.

A. This account shall be charged with the cost of electric plant acquired as an operating unit or system by purchase, merger, consolidation, liquidation, or otherwise, and shall be credited with the selling price of like property transferred to others pending the distribution to appropriate accounts in accordance with electric plant instruction 4.

B. Within six months from the date of acquisition or sale of property recorded herein, there shall be filed with the Commission the proposed journal entries to clear from this account the amounts recorded herein.

103 Electric plant in process of reclassification.

A. This account shall include temporarily the balance of electric plant as of the effective date of the prior system of accounts, which has not yet been reclassified as of the effective date of this system of accounts. The detail or primary accounts in support of this account employed prior to such date shall be continued pending reclassification into the electric plant accounts herein prescribed (301–399), but shall not be used for additions, betterments, or new construction.

B. No charges other than as provided in paragraph A, above, shall be made to this account, but retirements of such unclassified electric plant shall be credited hereto and to the supporting (old) fixed capital accounts until the reclassification shall have been accomplished.

104 Electric plant leased to others.

A. This account shall include the original cost of electric plant owned by the utility, but leased to others as operating units or systems, where the lessee has exclusive possession.

B. The property included in this account shall be classified according to the detailed accounts (301–399) prescribed for utility plant in service, and this account shall be maintained in such detail as though the property were used by the owner in its utility operations.

105 Electric plant held for future use.

A. This account shall include the original cost of electric plant owned and held for future use in electric service under a definite plan for such use. There shall

be included herein property acquired but never used by the utility in electric service, but held for such service in the future under a definite plan, and property previously used by the utility in electric service, but retired from such service and held pending its reuse in the future, under a definite plan, in electric service.

B. The property included in this account shall be classified according to the detailed accounts (301–399) prescribed for electric plant in service and the account shall be maintained in such detail as though the property were in service.

Note: Materials and supplies, meters and transformers held in reserve, or normal spare capacity of plant in service shall not be included in this account.

107 Construction work in progress—Electric.

This account shall include the total of the balances of work orders for electric plant in process of construction but not ready for service at the date of the balance sheet.

110 Accumulated provision for depreciation and amortization of electric plant.

A. This account shall be credited with the following:

(1) Amounts charged to account 403, Depreciation Expense, to account 404, Amortization of Limited-Term Electric Plant, to account 405, Amortization of Other Electric Plant, to account 413, Expenses of Electric Plant Leased to Others, to account 416, Costs and Expenses of Merchandising, Jobbing and Contract Work, or to clearing accounts for currently accruing depreciation and amortization.

(2) Amounts charged to account 435, Miscellaneous Debits to Surplus, for past accrued depreciation or amortization.

(3) Amounts of depreciation applicable to electric properties acquired as operating units or systems. (See electric plant instruction 4.)

(4) Amounts chargeable to account 182, Extraordinary Property Losses, when authorized by the Commission.

(5) Amounts of depreciation applicable to electric plant donated to the utility.

B. At the time of retirement of electric plant, this account shall be charged with the book cost of the property retired and the cost of removal, and shall be credited with the salvage value and any other amounts recovered, such as insurance. When retirements, cost of removal and salvage are entered originally in retirement work orders, the net total of such work orders may be included in a separate subaccount hereunder. Upon completion of the work order, the proper distribution to subdivisions of this account shall be made as provided in the following paragraph.

C. For general ledger and balance sheet purposes, this account shall be regarded and treated as a single composite provision for depreciation. This account shall be subdivided to show the amount applicable to Electric Plant in Service, Electric Plant Leased to Others, and Electric Plant Held for Future Use. These subsidiary records shall show the current credits and debits to this account in sufficient detail to show separately for each subdivision, (1) the amount of accrual for depreciation or amortization, (2) the book cost of property retired, (3) cost of removal, (4) salvage and (5) other items, including recoveries from insurance.

D. When transfers of plant are made from one electric plant account to another, or from or to nonutility property, the accounting shall be as provided in electric plant instruction 10.

E. The utility is restricted in its use of the accumulated provision for depreciation to the purposes set forth above. It shall not transfer any portion of this account to surplus or make any other use thereof without authorization by the Commission.

114 Electric plant acquisition adjustments.

A. This account shall include the difference between (a) the cost to the accounting utility of electric plant acquired as an operating unit or system by purchase, merger, consolidation, liquidation, or otherwise, and (b) the original cost, estimated, if not known, of such property, less the amount or amounts credited by the accounting utility at the time of acquisition to accumulated provision for depreciation and amortization and contributions in aid of construction with respect to such property.

B. With respect to acquisitions after the effective date of this system of accounts, this account shall be subdivided so as to show the amounts included herein for each property acquisition and to electric plant in service, electric plant held for future use, and electric plant leased to others. (See electric plant instruction 4.)

C. The amounts recorded in this account with respect to each property acquisition shall be amortized, or otherwise disposed of, as the Commission may approve or direct.

116 Other electric plant adjustments.

A. This account shall include the difference between the original cost, estimated if not known, and the book cost of electric plant to the extent that such difference is not properly includible in account 114, Electric Plant Acquisition Adjustments.

B. Amounts included in this account shall be classified in such manner as to show the origin of each amount and shall be disposed of as the Commission may approve or direct.

Note: The provisions of this account shall not be construed as approving or authorizing the recording of appreciation of electric plant.

118 Other utility plant.

This account shall include the balances in accounts for utility plant, other than electric plant, such as gas, railway, etc.

119 Accumulated provision for depreciation and amortization of other utility plant.

This account shall include the accumulated provision for depreciation and amortization applicable to utility property other than electric plant.

2. Other Property and Investments

121 Nonutility property.

A. This account shall include the book cost of land, structures, equipment or other tangible or intangible property owned by the utility, but not used in utility service and not properly includible in account 105, Electric Plant Held for Future Use.

B. This account shall be subdivided so as to show the amount of property used in operations which are nonutility in character but nevertheless constitute a distinct operating activity of the company (such as operation of an ice department where such activity is not classed as a utility) and the amount of miscellaneous property not used in operations. The records in support of each subaccount shall be maintained so as to show an appropriate classification of the property.

122 Accumulated provision for depreciation and amortization of nonutility property.

This account shall include the accumulated provision for depreciation and amortization applicable to nonutility property.

124 Other investments.

A. This account shall include the book cost of investments in securities issued or assumed by other companies, investment advances to such companies, and any investments not accounted for elsewhere. Include also the offsetting entry to the recording of amortization of discount or premium on interest bearing investments. (See account 419, Interest and Dividend Income.)

B. The cost of capital stock of the utility reacquired by it under a definite plan for resale pursuant to authorization by the Board of Directors may, if permitted by statutes, be included in a separate subdivision of this account. (See also account 207, Other Paid-in Capital, and account 217, Reacquired Capital Stock.)

C. The records shall be maintained in such manner as to show the amount of each investment and the investment advances to each person.

Note A: Securities owned and pledged shall be included in this account, but securities held in special deposits or in special funds shall be included in appropriate deposit or fund accounts. A complete record of securities pledged shall be maintained.

Note B: Securities held as temporary cash investments shall not be included in this account.

Note C: The utility may write down the cost of any security in recognition of a decline in the value thereof. Securities shall be written off or written down to a nominal value if there be no reasonable prospect of substantial value. Fluctuations in market value shall not be recorded but a permanent impairment in the value of securities shall be recognized in the accounts. When securities are written off or written down, the amount of the adjustment shall be charged to account 435, Miscellaneous Debits to Surplus, or to an appropriate account for provisions for loss in value established as a separate subdivision of this account.

125 Special funds.

This account shall include the amount of cash and book cost of investments

which have been segregated in special funds for bond retirements, property additions and replacements, insurance, employees' pensions, savings, relief, hospital, and other purposes not provided for elsewhere. A separate account, with appropriate title, shall be kept for each fund.

NOTE A: Amounts deposited with a trustee under the terms of an irrevocable trust agreement for pensions or other employees benefits shall not be included in this account.

NOTE B: Licensees under the Federal Power Act which are required to establish an amortization fund under terms of the license shall provide a special subdivision of this account for the purpose of accounting for and identifying the cash, investments or other specific assets associated with account 264, Amortization Reserve—Federal.

3. CURRENT AND ACCRUED ASSETS

Current and accrued assets are cash, those assets which are readily convertible into cash or are held for current use in operations or construction, current claims against others, payment of which is reasonably assured, and amounts accruing to the utility which are subject to current settlement, except such items for which accounts other than those designated as current and accrued assets are provided. There shall not be included in the group of accounts designated as current and accrued assets any item, the amount or collectibility of which is not reasonably assured, unless an adequate provision for possible loss has been made therefor. Items of current character but of doubtful value may be written down and for record purposes carried in these accounts at nominal value.

131 Cash and working funds.

This account shall include the amount of cash on hand and in banks and cash advanced to officers, agents, employees, and others as petty cash or working funds. Special cash deposits for payment of interest, dividends or other special purposes shall be included in this account in separate subdivisions which shall specify the purpose for which each such special deposit is made.

NOTE: Special Deposits for more than one year, which are not offset by current liabilities, shall not be charged to this account but to account 125, Special Funds.

132 Temporary cash investments.

A. This account shall include the book cost of investments, such as demand and time loans, bankers' acceptances, United States Treasury certificates, marketable securities, and other similar investments, acquired for the purpose of temporarily investing cash.

B. This account shall be so maintained as to show separately temporary cash investments in securities of associated companies and of others. Records shall be kept of any pledged investments.

141 Notes receivable.

This account shall include the book cost, not includible elsewhere, of all collectible obligations in the form of notes receivable and similar evidences (except interest coupons) of money due on demand or within one year from the date of issue, excepting, however, notes receivable from associated companies. (See account 132, Temporary Cash Investments, and account 145, Notes Receivable from Associated Companies.)

NOTE: The face amount of notes receivable, discounted, sold, or transferred without releasing the utility from liability as endorser thereon, shall be credited to a separate subdivision of this account and appropriate disclosure shall be made in financial statements of any contingent liability arising from such transactions.

142 Customer accounts receivable.

A. This account shall include amounts due from customers for utility service, and for merchandising, jobbing and contract work. This account shall not include amounts due from associated companies.

B. This account shall be maintained so as to permit ready segregation of the amounts due for merchandising, jobbing and contract work.

143 Other accounts receivable.

A. This account shall include amounts due the utility upon open accounts, other than amounts due from associated companies and from customers for utility services and merchandising, jobbing and contract work.

B. This account shall be maintained so as to show separately amounts due on subscriptions to capital stock and from officers and employees, but the account shall not include amounts advanced to officers or others as working funds. (See account 131, Cash and Working Funds.)

144 Accumulated provision for uncollectible accounts—Cr.

A. This account shall be credited with amounts provided for losses on accounts receivable which may become uncollectible, and also with collections on accounts previously charged hereto. Concurrent charges shall be made to account 904, Uncollectible Accounts, for amounts applicable to utility operations, and to corresponding accounts for other operations. Records shall be maintained so as to show the write-offs of accounts receivable for each utility department.

B. This account shall be subdivided to show the provision applicable to the following classes of accounts receivable:

Utility customers.
Merchandising, jobbing and contract work.
Officers and employees.
Other.

NOTE A: Accretions to this account shall not be made in excess of a reasonable provision against losses of the character provided for.

NOTE B: If provisions for uncollectible notes receivable or for uncollectible receivables from associated companies are necessary, separate subaccounts therefor shall be established under the account in which the receivable is carried.

145 Notes receivable from associated companies.

146 Accounts receivable from associated companies.

These accounts shall include notes and drafts upon which associated companies are liable, and which mature and are expected to be paid in full not later than one year from date of issue, together with any interest thereon, and debit balances subject to current settlement in open accounts with associated companies. Items which do not bear a specified due date but which have been carried for more than twelve months and items which are not paid within twelve months from due date shall be transferred to account 124, Other Investments.

NOTE A: On the balance sheet, accounts receivable from an associated company may be set off against accounts payable to the same company.

NOTE B: The face amount of notes receivable discounted, sold or transferred without releasing the utility from liability as endorser thereon, shall be credited to a separate subdivision of this account and appropriate disclosure shall be made in financial statements of any contingent liability arising from such transactions.

150 Materials and supplies.

A. This account shall include the cost of fuel on hand and unapplied materials and supplies (except line transformers and meters). It shall include also the book cost of materials recovered in connection with construction, maintenance or the retirement of property, such materials being credited to construction, maintenance, or accumulated depreciation provision, respectively, and included herein as follows:

(1) Reusable materials consisting of large individual items shall be included in this account at original cost, estimated if not known. The cost of repairing such items shall be charged to the maintenance account appropriate for the previous use.

(2) Reusable materials consisting of relatively small items, the identity of which (from the date of original installation to the final abandonment or sale thereof) cannot be ascertained without undue refinement in accounting, shall be included in this account at current prices new for such items. The cost of repairing such items shall be charged to the appropriate expense account as indicated by previous use.

(3) Scrap and nonusable materials included in this account shall be carried at the estimated net amount realized therefrom. The difference between the amounts realized for scrap and nonusable materials sold and the net amount at which the materials were carried in this account, as far as practicable shall be adjusted to the accounts credited when the materials were charged to this account.

B. Materials and supplies issued shall be credited hereto and charged to the appropriate construction, operating expense, or other account on the basis of a unit price determined by the use of cumulative average, first-in first-out, or such other method of inventory accounting as conforms with accepted accounting standards consistently applied.

C. Inventories of materials, supplies, fuel, etc., shall be taken at least annually and the necessary adjustments shall be made to bring this account into agreement with the actual inventories. In effecting the adjustments, large differences which can be assigned to important classes of materials shall be equitably adjusted among the accounts to which such classes of materials have been charged since the previous inventory. Other differences shall be equitably apportioned among the accounts to which materials have been charged.

ITEMS

1. Invoice price of materials less cash or other discounts.
2. Freight, switching or other transportation charges when practicable to include as part of the cost of particular materials to which they relate.
3. Customs duties and excise taxes.
4. Costs of inspection and special tests prior to acceptance.
5. Insurance and other directly assignable charges.

NOTE A: Where expenses applicable to materials purchased cannot be directly assigned to particular purchases, they may be charged to a stores expense clearing account and distributed therefrom to the appropriate account.

NOTE B: When materials and supplies are purchased for immediate use, they need not be carried through this account but may be charged directly to the appropriate utility plant or expense account.

165 Prepayments.

A. This account shall include the amount of rents, taxes, insurance, interest and like disbursements made in advance of the period to which they apply. As the periods covered by such prepayments expire, credit this account and charge the proper operating expense or other account with the amount applicable to the period.

B. This account shall be kept or supported in such manner as to disclose the amount of each class of prepayments.

170 Other current and accrued assets.

This account shall include the book cost of all other current and accrued assets, appropriately designated and supported so as to show the nature of each asset included herein.

4. DEFERRED DEBITS

181 Unamortized debt discount and expense.

A. This account shall include the total of the unamortized balance of discount and expense for all classes of long-term debt.

B. The discount and expense shall be amortized over the life of the respective issues under a plan which will distribute the amounts equitably over the life of the securities. The amortization shall be charged to account 428, Amortization of Debt Discount and Expense. The utility may, however, accelerate the writing off of discount and expense where the amounts are insignificant.

182 Extraordinary property losses.

A. When authorized or directed by the Commission, this account shall include extraordinary losses on property abandoned or otherwise retired from service which are not provided for by the accumulated provisions for depreciation or amortization and which could not reasonably have been foreseen and provided for, and extraordinary losses, such as unforeseen damages to property, which could not reasonably have been anticipated and which are not covered by insurance or other provisions.

B. The entire cost, less net salvage, of depreciable property retired shall be charged to accumulated provision for depreciation. If all, or a portion, of the loss is to be included in this account, the accumulated provision for depreciation shall then be credited and this account charged with the amount properly chargeable hereto.

C. Application to the Commission for permission to use this account shall be accompanied by a statement giving a complete explanation with respect to the items which it is proposed to include herein, the period over which, and the accounts to which it is proposed to write off the charges and other pertinent information.

183 Other deferred debits.

A. This account shall include the following classes of items:

(1) Expenditures for preliminary surveys, plans, investigations, etc., made for the purpose of determining the feasibility of utility projects under contemplation. If construction results, this account shall be credited with the amount applicable thereto and the appropriate plant accounts shall be charged with an amount which does not exceed the expenditures which may reasonably be determined to contribute directly and immediately and without duplication to plant. If the work is abandoned, the charge shall be to account 435, Miscellaneous Debits to Surplus, or to the appropriate operating expense accounts.

(2) Undistributed balances in clearing accounts at the date of the balance sheet. Balances in clearing accounts shall be substantially cleared not later than the end of the calendar year unless items held therein relate to a future period.

(3) Balances representing expenditures for work in progress other than on utility plant. This includes jobbing and contract work in progress.

(4) Other debit balances, the proper final disposition of which is uncertain, and unusual or extraordinary expenses, not included in other accounts, which are in process of being written off.

B. The records supporting the entries to this account shall be so kept that the utility can furnish full information as to each deferred debit included herein.

5. PROPRIETARY CAPITAL

201 Common capital stock.

204 Preferred capital stock.

A. These accounts shall include the par value or the stated value of stock without par value if such stock has a stated value, and if not, the cash value of the consideration received for such nonpar stock, of each class of capital actually issued, including the par or stated value of such capital stock in account 124, Other Investments, and account 217, Reacquired Capital Stock.

B. When the actual cash value of the consideration received is more or less than the par or stated value of any stock having a par or stated value, the difference shall be credited or debited, as the case may be, to the premium or discount account for the particular class and series.

C. When capital stock is retired, these accounts shall be charged with the amount at which such stock is carried herein.

D. A separate ledger account, with a descriptive title, shall be maintained for each class and series of stock. The supporting records shall show the shares nominally issued, actually issued, and nominally outstanding.

NOTE: When a levy or assessment, except a call for payment on subscriptions, is made against holders of capital stock, the amount collected upon such levy or assessment shall be credited to account 207, Other Paid-in Capital; provided, however, that the credit shall be made to account 213, Discount on Capital Stock, to the extent of any remaining balance of discount on the issue of stock.

207 Other paid-in capital.

This account shall include the balance of all other credits for paid-in capital not includible in the capital stock accounts, and shall be kept so as to show the source of the credits includible herein.

ITEMS

1. Premium received on original issues of capital stock.
2. Donations received from stockholders or reduction of debt of the utility, and the cash value of other assets received as a donation.
3. Reduction in par or stated value of capital stock.
4. Gain on resale or cancellation of reacquired capital stock.
5. Miscellaneous paid-in capital.

NOTE: Premium on capital stock shall not be set off against expenses. Further, a premium received on an issue of a certain class or series of stock shall not be set off against expense of another issue of the same class or series.

212 Installments received on capital stock.

A. This account shall include in a separate subdivision for each class and series of capital stock the amount of installments received on capital stock on a partial or installment payment plan for subscribers who are not bound by legally enforceable subscription contracts.

B. As subscriptions are paid in full and certificates issued, this account shall be charged and the appropriate capital stock account credited with the par or stated value of such stock. Any discount or premium on an original issue shall be included in the appropriate discount or premium account.

213 Discount on capital stock.

A. This account shall include in a separate subdivision for each class and series of capital stock all discount on the original issuance and sale of capital stock, including additional capital stock of a particular class or series as well as first issues.

B. When capital stock which has been actually issued is retired, the amount in this account applicable to the shares retired shall be written off to account 207, Other Paid-in Capital, provided, however, that the amount shall be charged to account 435, Miscellaneous Debits to

Surplus, to the extent that it exceeds the balance in account 207.

C. The utility may amortize the balance in this account by systematic charges to account 425, Miscellaneous Amortization, or it may write off capital stock discount in whole or in part by charges to account 435, Miscellaneous Debits to Surplus.

214 Capital stock expense.

A. This account shall include in a separate subdivision for each class and series of stock all commissions and expenses incurred in connection with the original issuance and sale of capital stock, including additional capital stock of a particular class or series as well as first issues. Expenses applicable to capital stock shall not be deducted from premium on capital stock.

B. When capital stock which has been actually issued by the utility is retired, the amount in this account applicable to the shares retired shall be written off to account 207, Other Paid-in Capital, to the extent of gains on resale or cancellation of reacquired stock includible therein; provided, however, that the amount shall be charged to account 435, Miscellaneous Debits to Surplus, to the extent that it exceeds the balance in account 207, from such source.

C. The utility may amortize the balance carried in this account by systematic charges to account 425, Miscellaneous Amortization, or it may write off capital stock expense in whole or in part by charges to account 435, Miscellaneous Debits to Surplus.

NOTE: Expenses in connection with the reacquisition or resale of the utility's capital stock shall not be included herein.

215 Appropriated earned surplus.

This account shall include the amount of earned surplus which has been appropriated or set aside for specific purposes. Separate subaccounts shall be maintained under such titles as will designate the purpose for which each appropriation was made.

216 Unappropriated earned surplus.

This account shall include the balance, either debit or credit, of unappropriated surplus arising from earnings. It shall not include items includible in any subaccount of account 207, Other Paid-in Capital.

217 Reacquired capital stock.

A. This account shall include in a separate subdivision for each class and series of capital stock, the cost of capital stock actually issued by the utility and reacquired by it and not retired or canceled, except, however, stock which is held by trustees in sinking or other funds.

B. When reacquired capital stock is retired or canceled, the difference between its cost, including commissions and expenses paid in connection with the reacquisition, and its par or stated value plus any premium and less any discount and expenses applicable to the shares retired, shall be debited or credited, as appropriate, to account 207, Other Paid-in Capital, provided, however, that debits shall be charged to account 435, Miscellaneous Debits to Surplus, to the extent that they exceed the balance of gains on resale or cancellation of reacquired stock included in account 207.

C. When reacquired capital stock is resold by the utility, the difference between the amount received on the resale of the stock, less expenses incurred in the resale, and the cost of the stock included in this account shall be accounted for as outlined in paragraph B.

NOTE A: See account 124, Other Investments, for permissive accounting treatment of stock reacquired under a definite plan for resale.

NOTE B: The accounting for reacquired stock shall be as prescribed herein unless otherwise specifically required by statute.

6. LONG-TERM DEBT

221 Bonds.

A. Separate accounts shall be maintained hereunder for unmatured bonds of each class and series. Each such account shall be subdivided so as to show, (1) the face value of the actually issued and unmatured bonds, which have not been retired or canceled; also the face value of such bonds issued by others, the payment of which has been assumed by the utility, (2) the face value of bonds actually issued or assumed by the utility and reacquired by it and not paid, retired, or canceled. The account for reacquired debt shall not include securities which are held by trustees in sinking or other funds.

B. When bonds are reacquired, the difference between face value, adjusted for unamortized discount, expense or premium and the amount paid upon reacquisition, shall be included in account 434, Miscellaneous Credits to Surplus, or account 435, Miscellaneous Debits to Surplus, as appropriate.

223 Advances from associated companies.

A. This account shall include the face value of notes payable to associated companies and the amount of open book accounts representing advances from associated companies. It does not include notes and open accounts representing indebtedness subject to current settlement which are includible in account 233, Notes Payable to Associated Companies, or account 234, Accounts Payable to Associated Companies.

B. The records supporting the entries to this account shall be so kept that the utility can furnish complete information concerning each note and open account.

224 Other long-term debt.

A. This account shall include, until maturity, all long-term debt not otherwise provided for. This covers such items as receivers' certificates, real estate mortgages executed or assumed, assessment for public improvement, notes and unsecured certificates of indebtedness now owned by associated companies, receipts outstanding for long-term debt, and other obligations maturing more than one year from date of issue or assumption.

B. Separate accounts shall be maintained for each class of obligation, and records shall be maintained to show for each class all details as to date of obligation, date of maturity, interest dates and rates, security for the obligation, etc.

NOTE: Miscellaneous long-term debt reacquired shall be accounted for in accordance with the procedure set forth in account 221, Bonds.

7. CURRENT AND ACCRUED LIABILITIES

Current and accrued liabilities are those obligations which have either matured or which become due within one year from the date thereof; except, however, bonds, receivers' certificates and similar obligations which shall be classified as long-term debt until date of maturity; accrued taxes, such as income taxes, which shall be classified as accrued liabilities even though payable more than one year from date; compensation awards, which shall be classified as current liabilities regardless of date due; and minor amounts payable in installments which may be classified as current liabilities. If a liability is due more than one year from date of issuance or assumption by the utility, it shall be credited to a long-term debt account appropriate for the transaction, except, however, the current liabilities previously mentioned.

231 Notes payable.

This account shall include the face value of all notes, drafts, acceptances, or other similar evidences of indebtedness, payable on demand or within a time not exceeding one year from date of issue, to other than associated companies.

232 Accounts payable.

This account shall include all amounts payable by the utility within one year, which are not provided for in other accounts.

233 Notes payable to associated companies.

234 Accounts payable to associated companies.

These accounts shall include amounts owing to associated companies on notes, drafts, acceptances, or other similar evidences of indebtedness, and open accounts payable on demand or not more than one year from date of issue or creation.

NOTE: Exclude from these accounts notes and accounts which are includible in account 223, Advances from Associated Companies.

235 Customer deposits.

This account shall include all amounts deposited with the utility by customers as security for the payment of bills.

236 Taxes accrued.

A. This account shall be credited with the amount of taxes accrued during the accounting period, corresponding debits being made to the appropriate accounts for tax charges. Such credits may be based upon estimates, but from time to time during the year as the facts become known, the amount of the periodic credits shall be adjusted so as to include as nearly as can be determined in each year the taxes applicable thereto. Any amount representing a prepayment of taxes applicable to the period subsequent to the date of the balance sheet, shall be shown under account 165, Prepayments.

B. If accruals for taxes are found to be insufficient or excessive, correction thereof shall be made through current tax accruals. However, if such corrections are so large as to seriously distort current expenses, they shall be included in account 434, Miscellaneous Credits to Surplus, or account 435, Miscellaneous Debits to Surplus, as appropriate.

C. Accruals for taxes shall be based upon the net amount payable after credit for any discounts and shall not include any amounts for interest on tax deficiencies or refunds. Interest received on refunds shall be credited to account 419, Interest and Dividend Income, and interest paid on deficiencies shall be charged to account 431, Other Interest Expense.

D. The records supporting the entries to this account shall be kept so as to show for each class of taxes, the amount accrued, the basis for the accrual, the accounts to which charged, and the amount of tax paid.

237 Interest accrued.

This account shall include the amount of interest accrued but not matured on all liabilities of the utility not including, however, interest which is added to the principal of the debt on which incurred. Supporting records shall be maintained so as to show the amount of interest accrued on each obligation.

238 Other current and accrued liabilities.

This account shall include the amount of all other current and accrued liabilities not provided for elsewhere appropriately designated and supported so as to show the nature of each liability.

Items

1. Dividends declared but not paid.
2. Matured long-term debt.
3. Matured interest.
4. Taxes collected through payroll deductions or otherwise pending transmittal to the proper taking authority.

8. DEFERRED CREDITS

251 Unamortized premium on debt.

A. This account shall include the total of the unamortized balance of premium and expense for all classes of long-term debt, including receivers' certificates.

B. The premium and expense shall be amortized over the life of the respective issues under a plan which will distribute the amounts equitably over the life of the securities. The amortization shall be credited to account 429, Amortization of Premium on Debt—Credit.

252 Customer advances for construction.

This account shall include advances by customers for construction which are to be refunded either wholly or in part. When a customer is refunded the entire amount to which he is entitled, according to the agreement or rule under which the advance was made, the balance, if any, remaining in this account shall be credited to account 271, Contributions in Aid of Construction.

253 Other deferred credits.

This account shall include advance billings and receipts and other deferred credit items, not provided for elsewhere, including amounts which cannot be entirely cleared or disposed of until additional information has been received.

9. OPERATING RESERVES

261 Property insurance reserve.

A. This account shall include amounts reserved by the utility for self-insurance against losses through accident, fire, flood, or other hazards to its own property or property leased from others. A schedule of risks covered by this reserve shall be maintained, giving a description of the property involved, the character of the risks covered and the rates used.

B. Charges shall be made to this account for losses covered by self-insurance. Details of these charges shall be maintained according to the year the casualty occurred which gave rise to the loss.

262 Injuries and damages reserve.

A. This account shall be credited with amounts charged to account 925, Injuries and Damages, or other appropriate accounts, to meet the probable liability, not covered by insurance, for deaths or injuries to employees and others, and for damages to property neither owned nor held under lease by the utility.

B. When liability for any injury or damage is admitted by the utility either voluntarily or because of the decision of a court or other lawful authority, such as a workmen's compensation board, the admitted liability shall be charged to this account and credited to the appropriate liability account. Details of these charges shall be maintained according to the year the casualty occurred which gave rise to the loss.

NOTE: Recoveries or reimbursements for losses charged to this account shall be credited hereto; the cost of repairs to property of others if provided for herein, shall be charged to this account.

263 Pensions and benefits reserve.

A. This account shall include provisions made by the utility and amounts contributed by employees for pensions, accident and death benefits, savings, relief, hospital and other provident purposes, where the funds represented by the reserve are included in the assets of the utility either in general or in segregated fund accounts.

B. Amounts paid by the utility for the purposes for which this reserve is established shall be charged hereto.

C. A separate account shall be kept for each kind of reserve included herein.

NOTE: If employee pension or benefit plan funds are not included among the assets of the utility but are held by outside trustees, payments into such funds, or accruals therefor, shall not be included in this account.

264 Amortization reserve—Federal.

A. This account shall be credited with such amounts as are appropriated or set aside by a licensee from earnings for amortization purposes in accordance with the requirements of a license; also interest or other income from investments of a special amortization fund established pursuant to license requirements. (See account 125, Special Funds.)

B. This account shall be debited with only such items or amounts as the Commission may require or approve.

265 Miscellaneous operating reserves.

A. This account shall include all operating reserves maintained by the utility which are not provided for elsewhere.

B. This account shall be maintained in such manner as to show the amount of each separate reserve and the nature and amounts of the debits and credits thereto.

NOTE: This account includes only such reserves as may be created for operating purposes and does not include any reservations of income the credits for which should be carried in account 215, Appropriated Earned Surplus.

10. CONTRIBUTIONS IN AID OF CONSTRUCTION

271 Contributions in aid of construction.

A. This account shall include donations or contributions in cash, services, or property from States, municipalities or other governmental agencies, individuals, and others for construction purposes.

B. The credits to this account shall not be transferred to earned surplus or to any other account without the approval of the Commission.

C. The records supporting the entries to this account shall be so kept that the utility can furnish information as to the purpose of each donation, the conditions, if any, upon which it was made, the amount of donations from (a) States, (b) municipalities, (c) customers and (d) others, and the amount applicable to each utility department.

D. This account shall be subdivided as follows:

Contributions in Aid of Construction—General.
Contributions in Aid of Construction—Federal.

Contributions in Aid of Construction—General shall include all the donations to the various utility departments except those which are made in respect to a licensed project. Contributions in Aid of Construction—Federal shall be kept only by licensees. There shall be included therein donations from States, municipalities, individuals or others which have been expended for plant, or which are included in the plant accounts, of a licensed project, referred to in section 3, subsection (13) of the Federal Power Act, 49 Stat. 839; 16 U.S.C. 796(13). This treatment shall not affect the determination of actual legitimate original cost or net investment in accordance with the Act.

NOTE: There shall not be included in this account advances for construction which are ultimately to be repaid wholly or in part. (See account 252, Customer Advances for Construction.)

11. ACCUMULATED DEFERRED INCOME TAXES

Public utilities and licensees shall use the accounts provided below for prior

accumulations of deferred taxes on income and for additional provisions. A copy of the order or other authorization to practice deferred tax accounting of the state public service commission also having jurisdiction shall be filed with the Commission, or, in the absence of a state public service commission having accounting jurisdiction, the public utility or licensee shall file with this Commission a copy of its plan of accounting for deferred taxes on income. The filing of such order or other authorization, or accounting plan, shall constitute permission for additional accumulations of deferred taxes on income. Account 283 is provided for use of those public utilities and licensees which have obtained permission of the Commission for specific types of deferrals on taxes on income other than with respect to accelerated amortization or liberalized depreciation.

NOTE A: The text of the accounts below are designed primarily to cover deferrals of federal income taxes pursuant to provisions of the Internal Revenue Code of 1954 but the accounts are also applicable to deferrals of State taxes on income.

NOTE B: Public Utilities and Licensees which, in addition to an electric utility department, have another utility department, gas, water, etc., and which have deferred taxes on income with respect thereto shall classify such deferrals in the accounts provided below under subdivisions for each utility department.

281 Accumulated deferred income taxes—Accelerated amortization.

A. This account shall be credited and account 410, Provision for Deferred Income Taxes, shall be debited with an amount equal to that by which taxes on income payable for the year are lower because of the use of accelerated (5-year) amortization of certified defense facilities in computing such taxes, as permitted by section 168 of the Internal Revenue Code of 1954 (section 124A of previous Internal Revenue Code), as compared to the depreciation deduction otherwise appropriate and allowable for tax purposes according to the straight line or other nonaccelerated depreciation method and appropriate estimated useful life for such property.

B. This account shall be debited and account 411 Income Taxes Deferred in Prior Years—Credit, shall be credited with an amount equal to that by which taxes on income payable for the year are greater because of the use in prior years of accelerated (5-year) amortization of certified defense facilities instead of nonaccelerated or nonliberalized depreciation otherwise appropriate for income tax purposes, and deferral of taxes in such prior years as described in paragraph A, above. Such debit to this account and credit to account 411 shall, in general, represent the effect on taxes payable for the current year of the unavailability of a depreciation deduction for tax purposes, or a reduced amount, with respect to any depreciable property for which accelerated amortization was used in prior years, as compared to the depreciation deduction otherwise available and appropriate for such property, considering its estimated useful life, according to the depreciation method ordinarily used by the utility for similar property in computing depreciation for tax purposes by a nonaccelerated or nonliberalized depreciation method.

C. Records with respect to entries to this account, as described above, and the account balance, shall be so maintained as to show the factors of calculation and the separate amounts applicable to the facilities of each certification or authorization of accelerated amortization for tax purposes.

D. The use of this account and the accounting described above are not mandatory for any utility, which in accordance with a consistent policy elects not to follow deferred tax accounting even though accelerated amortization is used in computing taxes on income. If, however, deferred tax accounting is initiated with respect to any certified defense facility, the accounting shall not be suspended or discontinued on the property covered by that certificate, without approval of the Commission.

E. The utility is restricted in its use of this account to the purposes set forth above. It shall not transfer the balance in this account or any portion thereof to surplus or make any use thereof except as provided in the text of this account without prior approval of the Commission. Any remaining balance of accumulated deferred taxes with respect to any certified defense facility for which deferred tax accounting has been followed, shall, upon expiration of the estimated useful life of the facility on which deferred tax calculations were based, or upon retirement of such facility or predominant part thereof, be credited to account 411, Income Taxes Deferred in Prior Years—Credit, or otherwise be applied as the Commission may authorize or direct.

282 Accumulated deferred income taxes—Liberalized depreciation.

A. This account shall be credited and account 410, Provision for Deferred Income Taxes, shall be debited with an amount equal to that by which taxes on income payable for the year are lower because of the use of liberalized depreciation in computing such taxes, as permitted by Section 167 of the Internal Revenue Code of 1954, as compared to the depreciation deduction otherwise appropriate and allowable for tax purposes for similar property of the same estimated useful life according to the straight line or other nonliberalized method of depreciation.

B. This account shall be debited and account 411, Income Taxes Deferred in Prior Years—Credit, shall be credited with an amount equal to that by which taxes on income payable for the year are greater because of the use in prior years of liberalized depreciation for income tax purposes, and deferral of taxes in such prior years as described in paragraph A above. Such debit to this account and credit to account 411, shall, in general, represent the effect on taxes payable for the current year of the smaller amount of depreciation permitted for tax purposes for the current year with respect to any depreciable property for which liberalized depreciation was used in prior years, as compared to the depreciation deduction otherwise appropriate and available for similar property of the same estimated useful life according to the straight line or other nonliberalized depreciation method ordinarily used by the utility in computing depreciation for tax purposes.

C. Records with respect to entries to this account, as described above, and account balance, shall be so maintained as to show the factors of calculation and the separate amounts applicable to the plant additions of each vintage year for each class, group, or unit as to which different liberalized depreciation methods and estimated useful lives have been used. The underlying calculations to segregate and associate deferred tax amounts with the respective vintage years may be based on reasonable methods of approximation, if necessary, consistently applied.

D. The use of this account and the accounting described above are not mandatory for any utility, which in accordance with a consistent policy, elects not to follow deferred tax accounting even though liberalized depreciation is used in computing taxes on income. If however, deferred tax accounting is initiated with respect to any property such accounting shall not be discontinued on that property, without approval of the Commission.

E. The utility is restricted in its use of this account to the purposes set forth above. It shall not transfer the balance in the account or any portion thereof to surplus or make any use thereof except as provided in the text of this account without prior approval of the Commission. Any remaining deferred tax balance with respect to any year's plant additions or subdivisions thereof for which liberalized depreciation accounting has been followed upon retirement from service of such property or predominant portion thereof, or upon expiration of the estimated useful life on which the depreciation calculations for tax purposes are based, shall be credited to account 411, Income Taxes Deferred in Prior Years—Credit, or otherwise applied as the Commission may authorize or direct.

283 Accumulated deferred income taxes—Other.

A. This account, when its use has been authorized by the Commission for specific types of tax deferrals shall be credited and account 410, Provision for Deferred Income Taxes, shall be debited with an amount equal to that by which taxes on income payable for the year are lower because of the current use of deductions other than accelerated amortization or liberalized depreciation in the computation of income taxes, which deductions for general accounting purposes will not be fully reflected in the utility's determination of annual net income until subsequent years.

B. This account, when its use has been authorized by the Commission, shall be debited and account 411, Income Taxes Deferred in Prior Years—Credit, shall be credited with an amount equal to that by which taxes on income payable for the year are greater because of deferral of taxes on income in previous years, as provided by paragraph A, above, because of difference in timing for tax purposes of particular income deductions from that recognized by the utility for general accounting purposes, other than with respect to accelerated amortization or liberalized depreciation. Such debit to this account and credit to account 411 shall, in general, represent the effect on taxes payable in the current year of the smaller deduction permitted for tax purposes as compared to the amount recognized in the utility's general accounts with respect to the item or class of items for which deferred tax accounting by the utility was authorized by the Commission.

C. Records with respect to entries to this account, as described above, and the account balance, shall be so maintained as to show the factors of calculation with respect to each annual amount of the item or class of items, other than accelerated amortization or liberalized depreciation, for which tax deferral accounting by the utility is authorized by the Commission.

D. The utility is restricted in its use of this account to the purposes set forth above. It shall not transfer the balance in the account or any portion thereof to surplus or make any use thereof except as provided in the text of this account, without prior approval of the Commission. Any remaining deferred tax account balance with respect to an amount for any prior year's tax deferral, the amortization of which or other recognition in the utility's income accounts has been completed, or other disposition made, shall be credited to account 411, Income Taxes Deferred in Prior Years—Credit, or otherwise disposed of as the Commission may authorize or direct.

NOTE: In determining appropriate use of this account as a basis of request to the Commission for authorization of its use, consideration shall be given to the relative importance of the amount involved, and to other items in the utility's accounts where "prepaid tax accounting" may be appropriate such as situations (a) where the time of taking a deduction in computing taxes on income is such that the tax deduction must be delayed or applied to a series of future years as opposed to earlier recognition of such item in determination of income in the general accounts of the utility, or (b) where inclusion of an income item is required for tax purposes but is to be recognized in whole or in part in the utility's income accounts of a subsequent year or years.

Electric Plant Accounts

1. INTANGIBLE PLANT

301 Organization.
302 Franchises and consents.
303 Miscellaneous intangible plant.

2. PRODUCTION PLANT

A. STEAM PRODUCTION

310 Land and land rights.
311 Structures and improvements.
312 Boiler plant equipment.
313 Engines and engine driven generators.
314 Turbogenerator units.
315 Accessory electric equipment.
316 Miscellaneous power plant equipment.

B. HYDRAULIC PRODUCTION

330 Land and land rights.
331 Structures and improvements.
332 Reservoirs, dams and waterways.
333 Water wheels, turbines and generators.
334 Accessory electric equipment.
335 Miscellaneous power plant equipment.
336 Roads, railroads and bridges.

C. OTHER PRODUCTION

340 Land and land rights.
341 Structures and improvements.
342 Fuel holders, producers and accessories.
343 Prime movers.
344 Generators.
345 Accessory electric equipment.
346 Miscellaneous power plant equipment.

3. TRANSMISSION PLANT

350 Land and land rights.
351 Clearing land and rights of way.
352 Structures and improvements.
353 Station equipment.
354 Towers and fixtures.
355 Poles and fixtures.
356 Overhead conductors and devices.
357 Underground conduit.
358 Underground conductors and devices.
359 Roads and trails.

4. DISTRIBUTION PLANT

360 Land and land rights.
361 Structures and improvements.
362 Station equipment.
363 Storage battery equipment.
364 Poles, towers and fixtures.
365 Overhead conductors and devices.
366 Underground conduit.
367 Underground conductors and devices.
368 Line transformers.
369 Services.
370 Meters.
371 Installations on customers' premises.
372 Leased property on customers' premises.
373 Street lighting and signal systems.

5. GENERAL PLANT

389 Land and land rights.
390 Structures and improvements.
391 Office furniture and equipment.
392 Transportation equipment.
393 Stores equipment.
394 Tools, shop and garage equipment.
395 Laboratory equipment.
396 Power operated equipment.
397 Communication equipment.
398 Miscellaneous equipment.
399 Other tangible property.

Electric Plant Accounts

1. INTANGIBLE PLANT

301 Organization.

This account shall include all fees paid to federal or state governments for the privilege of incorporation and expenditures incident to organizing the corporation, partnership, or other enterprise and putting it into readiness to do business.

ITEMS

1. Cost of obtaining certificates authorising an enterprise to engage in the public-utility business.
2. Fees and expenses for incorporation.
3. Fees and expenses for mergers or consolidations.
4. Office expenses incident to organizing the utility.
5. Stock and minute books and corporate seal.

NOTE A: This account shall not include any discounts upon securities issued or assumed; nor shall it include any costs incident to negotiating loans, selling bonds or other evidences of debt or expenses in connection with the authorization, issuance or sale of capital stock.

NOTE B: Exclude from this account and include in the appropriate expense account the cost of preparing and filing papers in connection with the extension of the term of incorporation unless the first organization costs have been written off. When charges are made to this account for expenses incurred in mergers, consolidations, or reorganizations, amounts previously included herein or in similar accounts in the books of the companies concerned shall be excluded from this account.

302 Franchises and consents.

A. This account shall include amounts paid to the federal government, to a State or to a political subdivision thereof in consideration for franchises, consents, water power licenses, or certificates, running in perpetuity or for a specified term of more than one year, together with necessary and reasonable expenses incident to procuring such franchises, consents, water power licenses, or certificates of permission and approval, including expenses of organizing and merging separate corporations where statues require, solely for the purpose of acquiring franchise.

B. If a franchise, consent, water power license, or certificate is acquired by assignment, the charge to this account in respect thereof shall not exceed the amount paid therefor by the utility to the assignor, nor shall it exceed the amount paid by the original grantee, plus the expense of acquisition, to such grantee. Any excess of the amount actually paid by the utility over the amount above specified shall be charged to account 435, Miscellaneous Debits to Surplus.

C. When any franchise has expired, the book cost thereof shall be credited hereto and charged to account 435, Miscellaneous Debits to Surplus, or to account 110, Accumulated Provision for Depreciation and Amortization of Electric Plant, as appropriate.

D. Records supporting this account shall be kept so as to show separately the book cost of each franchise or consent.

NOTE: Annual or other periodic payments under franchises shall not be included herein but in the appropriate operating expense account.

303 Miscellaneous intangible plant.

A. This account shall include the cost of patent rights, licenses, privileges, and other intangible property necessary or valuable in the conduct of utility operations and not specifically chargeable to any other account.

B. When any item included in this account is retired or expires, the book cost thereof shall be credited hereto and charged to account 435, Miscellaneous Debits to Surplus, or account 110, Accumulated Provision for Depreciation and Amortization of Electric Plant, as appropriate.

C. This account shall be maintained in such a manner that the utility can furnish full information with respect to the amounts included herein.

2. Production Plant

A. Steam production

310 Land and land rights.

This account shall include the cost of land and land rights used in connection with steam-power generation. (See electric plant instruction 6.)

311 Structures and improvements.

This account shall include the cost in place of structures and improvements used in connection with steam-power generation. (See electric plant instruction 7.)

NOTE: Include steam production roads and railroads in this account.

312 Boiler plant equipment.

This account shall include the cost installed of furnaces, boilers, coal and ash handling and coal preparing equipment, steam and feed water piping, boiler apparatus and accessories used in the production of steam, mercury, or other vapor, to be used primarily for generating electricity.

ITEMS

1. Ash handling equipment, including hoppers, gates, cars, conveyors, hoists, sluicing equipment, including pumps and motors, sluicing water pipe and fittings, sluicing trenches and accessories, etc., except sluices which are a part of a building.

2. Boiler feed system, including feed water heaters, evaporator condensers, heater drain pumps, heater drainers, deaerators, and vent condensers, boiler feed pumps, surge tanks, feed water regulators, feed water measuring equipment, and all associated drives.

3. Boiler plant cranes and hoists and associated drives.

4. Boilers and equipment, including boilers and baffles, economizers, superheaters, soot blowers, foundations and settings, water walls, arches, grates, insulation, blow-down system, drying out of new boilers, also associated motors or other power equipment.

5. Breeching and accessories, including breeching, dampers, soot spouts, hoppers and gates, cinder eliminators, breeching insulation, soot blowers and associated motors.

6. Coal handling and storage equipment, including coal towers, coal lorries, coal cars, locomotives and tracks when devoted principally to the transportation of coal, hoppers, downtakes, unloading and hoisting equipment, skip hoists and conveyors, weighing equipment, magnetic separators, cable ways, housings and supports for coal handling equipment.

7. Draft equipment, including air preheaters and accessories, induced and forced draft fans, air ducts, combustion control mechanisms, and associated motors or other power equipment.

8. Gas-burning equipment, including holders, burner equipment and piping, control equipment, etc.

9. Instruments and devices, including all measuring, indicating, and recording equipment for boiler plant service together with mountings and supports.

10. Lighting systems.

11. Oil-burning equipment, including tanks, heaters, pumps with drive, burner equipment and piping, control equipment, etc.

12. Pulverized fuel equipment, including pulverizers, accessory motors, primary air fans, cyclones and ducts, dryers, pulverized fuel bins, pulverized fuel conveyors and equipment, burners, burner piping, priming equipment, air compressors, motors, etc.

13. Stacks, including foundations and supports, stack steel and ladders, stack brick work, stack concrete, stack lining, stack painting (first), when set on separate foundations, independent of substructure or superstructure of building.

14. Station piping, including pipe, valves, fittings, separators, traps, desuperheaters, hangers, excavation, covering, etc. for station piping system, including all steam, condensate, boiler feed and water supply piping, etc., but not condensing water, plumbing, building heating, oil, gas, air piping or piping specifically provided for in account 313.

15. Stoker or equivalent feeding equipment, including stokers and accessory motors, clinker grinders, fans and motors, etc.

16. Ventilating equipment.

17. Water purification equipment, including softeners and accessories, evaporators and accessories, heat exchangers, filters, tanks for filtered or softened water, pumps, motors, etc.

18. Water-supply systems, including pumps, motors, strainers, raw-water storage tanks, boiler wash pumps, intake and discharge pipes and tunnels not a part of a building.

19. Wood fuel equipment, including hoppers, fuel hogs and accessories, elevators and conveyors, bins and gates, spouts, measuring equipment and associated drives.

NOTE: When the system for supplying boiler or condenser water is elaborate, as when it includes a dam, reservoir, canal, pipe line, cooling ponds, or where gas or oil is used as a fuel for providing steam and is supplied through a pipe line system owned by the utility, the cost of such special facilities shall be charged to a subdivision of account 311, Structures and Improvements.

313 Engines and engine driven generators.

This account shall include the cost installed of steam engines, reciprocating or rotary, and their associated auxiliaries; and engine driven main generators, except turbogenerator units.

ITEMS

1. Air cleaning and cooling apparatus, including blowers, drive equipment, air ducts not a part of building, louvers, pumps, hoods, etc.

2. Belting, shafting, pulleys, reduction gearing, etc.

3. Circulating pumps, including connections between condensers and intake and discharge tunnels.

4. Cooling system, including towers, pumps, tank, and piping.

5. Condensers, including condensate pumps, air and vacuum pumps, ejectors, unloading valves and vacuum breakers, expansion devices, screens, etc.

6. Cranes, hoists, etc., including items wholly identified with items listed herein.

7. Engines, reciprocating or rotary.

8. Fire-extinguishing systems.

9. Foundations and settings, especially constructed for and not expected to outlast the apparatus for which provided.

10. Generators—main, A.C. or D.C., including field rheostats and connections for self-excited units, and excitation systems when identified with the generating unit.

11. Governors.

12. Lighting systems.

13. Lubricating systems, including gauges, filters, tanks, pumps, piping, motors, etc.

14. Mechanical meters, including gauges, recording instruments, sampling and testing equipment.

15. Piping—main exhaust, including connections between generator and condenser and between condenser and hotwell.

16. Piping—main steam, including connections from main throttle valve to turbine inlet.

17. Platforms, railings, steps, gratings, etc., appurtenant to apparatus listed herein.

18. Pressure oil system, including accumulators, pumps, piping, motors, etc.

19. Throttle and inlet valve.

20. Tunnels, intake and discharge, for condenser system, when not a part of a structure.

21. Water screens, motors, etc.

314 Turbogenerator units.

This account shall include the cost installed of main turbine driven units and accessory equipment used in generating electricity by steam.

ITEMS

1. Air cleaning and cooling apparatus, including blowers, drive equipment, air ducts not a part of building, louvers, pumps, hoods, etc.

2. Circulating pumps, including connections between condensers and intake and discharge tunnels.

3. Condensers, including condensate pumps, air and vacuum pumps, ejectors, unloading valves and vacuum breakers, expansion devices, screens, etc.

4. Generator hydrogen gas piping system and hydrogen detrainment equipment.

5. Cooling system, including towers, pumps, tanks, and piping.

6. Cranes, hoists, etc., including items wholly identified with items listed herein.

7. Excitation system, when identified with main generating units.

8. Fire-extinguishing systems.

9. Foundations and settings, especially constructed for and not expected to outlast the apparatus for which provided.

10. Governors.

11. Lighting systems.

12. Lubricating systems, including gauges, filters, water separators, tanks, pumps, piping, motors, etc.

13. Mechanical meters, including gauges, recording instruments, sampling and testing equipment.

14. Piping—main exhaust, including connections between turbogenerator and condenser and between condenser and hotwell.

15. Piping—main steam, including connections from main throttle valve to turbine inlet.

16. Platforms, railings, steps, gratings, etc., appurtenant to apparatus listed herein.

17. Pressure oil systems, including accumulators, pumps, piping, motors, etc.

18. Steelwork, specially constructed for apparatus listed herein.

19. Throttle and inlet valve.

20. Tunnels, intake and discharge, for condenser system, when not a part of structure, water screens, etc.

21. Turbogenerators—main, including turbine and generator, field rheostats and electric connections for self-excited units.

22. Water screens, motors, etc.

23. Moisture separators for turbine steam.

24. Turbine lubricating oil (initial charge).

315 Accessory electric equipment.

This account shall include the cost installed of auxiliary generating apparatus, conversion equipment, and equipment used primarily in connection with the control and switching of electric energy produced by steam power, and the protection of electric circuits and equipment, except electric motors used to drive equipment included in other accounts. Such motors shall be included in the account in which the equipment with which they are associated is included.

ITEMS

1. Auxiliary generators, including boards, compartments, switching equipment, control equipment, and connections to auxiliary power bus.

2. Excitation system, including motor, turbine and dual-drive exciter sets and rheostats, storage batteries and charging equipment, circuit breakers, panels and accessories, knife switches and accessories, surge arresters, instrument shunts, conductors and conduit, special supports for conduit, generator field and exciter switch panels, exciter bus tie panels, generator and exciter rheostats, etc., special housing, protective screens, etc.

3. Generator main connections, including oil circuit breakers and accessories, disconnecting switches and accessories, operating mechanisms and interlocks, current transformers, potential transformers, protective relays, isolated panels and equipment, conductors and conduit, special supports for generator main leads, grounding switch, etc., special housing, protective screens, etc.

4. Station buses, including main, auxiliary, transfer, synchronizing and fault ground buses, including oil circuit breakers and accessories, disconnecting switches and accessories, operating mechanisms and interlocks, reactors and accessories, voltage regulators and accessories, compensators, resistors, starting transformers, current transformers, potential transformers, protective relays, storage batteries and charging equipment, isolated panels and equipment, conductors and conduit, special supports, special housings, concrete pads, general station grounding system, special fire-extinguishing system, and test equipment.

5. Station control system, including station switchboards with panel wiring, panels with instruments and control equipment only, panels with switching equipment mounted or mechanically connected, truck-type boards complete, cubicles, station supervisory control boards, generator and exciter signal stands, temperature recording devices, frequency-control equipment, master clocks, watt-hour meters and synchronoscope in the turbine room, station totalising wattmeter, boiler-room load indicator equipment, storage batteries, panels and charging sets, instrument transformers for supervisory metering, conductors and conduit, special supports for conduit, switchboards, batteries, special housing for batteries, protective screens, doors, etc.

NOTE A: Do not include in this account transformers and other equipment used for changing the voltage or frequency of electricity for the purpose of transmission or distribution.

NOTE B: When any item of equipment listed herein is used wholly to furnish power to equipment included in another account, its cost shall be included in such other account.

316 Miscellaneous power plant equipment.

This account shall include the cost installed of miscellaneous equipment in and about the steam generating plant devoted to general station use, and which is not properly includible in any of the foregoing steampower production accounts.

ITEMS

1. Compressed air and vacuum cleaning systems, including tanks, compressors, exhausters, air filters, piping, etc.

2. Cranes and hoisting equipment, including cranes, cars, crane rails, monorails, hoists, etc., with electric and mechanical connections.

3. Fire-extinguishing equipment for general station use.

4. Foundations and settings specially constructed for and not expected to outlast the apparatus for which provided.

5. Locomotive cranes not includible elsewhere.

6. Locomotives not includible elsewhere.

7. Marine equipment, including boats, barges, etc.

8. Miscellaneous belts, pulleys, countershafts, etc.

9. Miscellaneous equipment, including atmospheric and weather indicating devices, intrasite communication equipment, laboratory equipment, signal systems, callophones, emergency whistles and sirens, fire alarms, insect-control equipment, and other similar equipment.

10. Railway cars not includible elsewhere.

11. Refrigerating systems, including compressors, pumps, cooling coils, etc.

12. Station maintenance equipment, including lathes, shapers, planers, drill presses, hydraulic presses, grinders, etc., with motors, shafting, hangers, pulleys, etc.

13. Ventilating equipment, including items wholly identified with apparatus listed herein.

NOTE: When any item of equipment listed herein is wholly used in connection with equipment included in another account its cost shall be included in such other account.

B. Hydraulic production

330 Land and land rights.

This account shall include the cost of land and land rights used in connection with hydraulic power generation. (See electric plant instruction 6.)

331 Structures and improvements.

This account shall include the cost in place of structures and improvements used in connection with hydraulic power generation. (See electric plant instruction 7.)

332 Reservoirs, dams and waterways.

This account shall include the cost in place of facilities used for impounding, collecting, storage, diversion, regulation, and delivery of water used primarily for generating electricity.

ITEMS

1. Bridges and culverts (when not a part of roads or railroads).

2. Clearing and preparing land.

3. Dams, including wasteways, spillways, flash boards, spillway gates with operating and control mechanisms, tunnels, gate houses, and fish ladders.

4. Dikes and embankments.

5. Electric system, including conductors, control system, transformers, lighting fixtures, etc.

6. Excavation, including shoring, bracing, bridging, refill, and disposal of excess excavated materials.

7. Foundations and settings specially constructed for and not expected to outlast the apparatus for which provided.

8. Intakes, including trash racks, rack cleaners, control gates and valves with operating mechanisms, and intake house when not a part of station structure.

9. Platforms, railings, steps, gratings, etc., appurtenant to structures listed herein.

10. Power lines wholly identified with items included herein.

11. Retaining walls.

12. Water conductors and accessories, including canals, tunnels, flumes, penstocks, pipe conductors, forebays, tailraces, navigation locks and operating mechanisms, water-hammer and surge tanks, and supporting trestles and structures.

13. Water storage reservoirs, including dams, flashboards, spillway gates and operating mechanisms, inlet and outlet tunnels, regulating valves and valve towers, silt and mud sluicing tunnels with valve or gate towers, and all other structures wholly identified with any of the foregoing items.

333 Water wheels, turbines and generators.

This account shall include the cost installed of water wheels and hydraulic turbines (from connection with penstock or flume to tail-race) and generators driven thereby devoted to the production of electricity by water power or for the production of power for industrial or other purposes, if the equipment used for such purposes is a part of the hydraulic power plant works.

ITEMS

1. Exciter water wheels and turbines, including runners, gates, governors, pressure regulators, oil pumps, operating mechanisms, scroll cases, draft tubes, and draft-tube supports.

2. Fire-extinguishing equipment.

3. Foundations and settings, specially constructed for and not expected to outlast the apparatus for which provided.

4. Generator cooling system, including air cooling and washing apparatus, air fans and accessories, air ducts, etc.

5. Generators-main, A.C. or D.C., including field rheostats and connections for self-excited units and excitation system when identified with the generating unit.

6. Lighting systems.

7. Lubricating systems, including gauges, filters, tanks, pumps, piping, etc.

8. Main penstock valves and appurtenances, including main valves, control equipment, bypass valves and fittings, and other accessories.

9. Main turbines and water wheels, including runners, gates, governors, pressure regulators, oil pumps, operating mechanisms, scroll cases, draft tubes, and draft-tube supports.

10. Mechanical meters and recording instruments.

11. Miscellaneous water-wheel equipment, including gauges, thermometers, meters, and other instruments.

12. Platforms, railings, steps, gratings, etc., appurtenant to apparatus listed herein.

13. Scroll case filling and drain system, including gates, pipe, valves, fittings, etc.

14. Water-actuated pressure-regulator system, including tanks and housings, pipes, valves, fittings and insulations, piers and anchorage, and excavation and backfill.

334 Accessory electric equipment.

This account shall include the cost installed of auxiliary generating apparatus, conversion equipment, and equipment used primarily in connection with the control and switching of electric energy produced by hydraulic power and the protection of electric circuits and equipment, except electric motors used to drive equipment included in other accounts, such motors being included in the account in which the equipment with which they are associated is included.

ITEMS

1. Auxiliary generators, including boards, compartments, switching equipment, control equipment, and connections to auxiliary power bus.

2. Excitation system, including motor, turbine, and dual-drive exciter sets and rheostats, storage batteries and charging equipment, circuit breakers, panels and accessories,

knife switches and accessories, surge arresters, instrument shunts, conductors and conduit, special supports for conduit, generator field and exciter switch panels, exciter bus tie panels, generator and exciter rheostats, etc., special housings, protective screens, etc.

3. Generator main connections, including oil circuit breakers and accessories, disconnecting switches and accessories, operating mechanisms and interlocks, current transformers, potential transformers, protective relays, isolated panels and equipment, conductors and conduit, special supports for generator main leads, grounding switch, etc., special housings, protective screens, etc.

4. Station buses, including main, auxiliary, transfer, synchronizing, and fault ground buses, including oil circuit breakers and accessories, disconnecting switches and accessories, operating mechanisms and interlocks, reactors and accessories, voltage regulators and accessories, compensators, resistors, starting transformers, current transformers, potential transformers, protective relays, storage batteries and charging equipment, isolated panels and equipment, conductors and conduit, special supports, special fire-extinguishing system, and test equipment.

5. Station control system, including station switchboards with panel wiring, panels with instruments and control equipment only, panels with switching equipment mounted or mechanically connected, truck type boards complete, cubicles, station supervisory control devices, frequency control equipment, master clocks, watt-hour meter, station totalizing watt-meter, storage batteries, panels and charging sets, instrument transformers for supervisory metering, conductors and conduit, special supports for conduit, switchboards, batteries, special housings for batteries, protective screens, doors, etc.

NOTE A: Do not include in this account transformers and other equipment used for changing the voltage or frequency of electricity for the purpose of transmission or distribution.

NOTE B: When any item of equipment listed herein is used wholly to furnish power to equipment, it shall be included in such equipment account.

335 Miscellaneous power plant equipment.

This account shall include the cost installed of miscellaneous equipment in and about the hydroelectric generating plant which is devoted to general station use and is not properly includible in other hydraulic production accounts.

ITEMS

1. Compressed air and vacuum cleaning systems, including tanks, compressors, exhausters, air filters, piping, etc.

2. Cranes and hoisting equipment, including cranes, cars, crane rails, monorails, hoists, etc., with electric and mechanical connections.

3. Fire-extinguishing equipment for general station use.

4. Foundations and settings, specially constructed for and not expected to outlast the apparatus for which provided.

5. Locomotive cranes not includible elsewhere.

6. Locomotives not includible elsewhere.

7. Marine equipment, including boats, barges, etc.

8. Miscellaneous belts, pulleys, countershafts, etc.

9. Miscellaneous equipment, including atmospheric and weather indicating devices, intrasite communication equipment, laboratory equipment, insect control equipment, signal system, callophones, emergency whistles and sirens, fire alarms, and other similar equipment.

10. Railway cars, not includible elsewhere.

11. Refrigerating system, including compressors, pumps, cooling coils, etc.

12. Station maintenance equipment, including lathes, shapers, planers, drill presses, hydraulic presses, grinders, etc., with motors, shafting, hangers, pulleys, etc.

13. Ventilating equipment, including items wholly identified with apparatus listed herein.

NOTE: When any item of equipment, listed herein is used wholly in connection with equipment included in another account, its cost shall be included in such other account.

336 Roads, railroads and bridges.

This account shall include the cost of roads, railroads, trails, bridges, and trestles used primarily as production facilities. It includes also those roads, etc., necessary to connect the plant with highway transportation systems, except when such roads are dedicated to public use and maintained by public authorities.

ITEMS

1. Bridges, including foundations, piers, girders, trusses, flooring, etc.

2. Clearing land.

3. Railroads, including grading, ballast, ties, rails, culverts, hoists, etc.

4. Roads, including grading, surfacing, culverts, etc.

5. Structures, constructed and maintained in connection with items listed herein.

6. Trails, including grading, surfacing, culverts, etc.

7. Trestles, including foundations, piers, girders, trusses, flooring, etc.

NOTE A: Roads intended primarily for connecting employees' houses with the power plant shall not be included herein but in account 331, Structures and Improvements.

NOTE B: The cost of temporary roads, bridges, etc., necessary during the period of construction but abandoned or dedicated to public use upon completion of the plant, shall not be included herein but shall be charged to the accounts appropriate for the construction.

C. OTHER PRODUCTION

340 Land and land rights.

This account shall include the cost of land and land rights used in connection with other power generation. (See electric plant instruction 6.)

341 Structures and improvements.

This account shall include the cost in place of structures and improvements used in connection with other power generation. (See electric plant instruction 7.)

342 Fuel holders, producers, and accessories.

This account shall include the cost installed of fuel handling and storage equipment used between the point of fuel delivery to the station and the intake pipe through which fuel is directly drawn to the engine, also the cost of gas producers and accessories devoted to the production of gas for use in prime movers driving main electric generators.

ITEMS

1. Blower and fans.
2. Boilers and pumps.
3. Economizers.
4. Exhauster outfits.
5. Flues and piping.
6. Pipe system.
7. Producers.
8. Regenerators.
9. Scrubbers.
10. Steam injectors.
11. Tanks for storage of oil, gasoline, etc.
12. Vaporizers.

343 Prime movers.

This account shall include the cost installed of Diesel or other prime movers devoted to the generation of electric energy, together with their auxiliaries.

ITEMS

1. Air-filtering system.
2. Belting, shafting, pulleys, reduction gearing, etc.
3. Cooling system, including towers, pumps, tanks, and piping.
4. Cranes, hoists, etc., including items wholly identified with apparatus listed herein.
5. Engines, Diesel, gasoline, gas or other internal combustion.
6. Foundations and settings specially constructed for and not expected to outlast the apparatus for which provided.
7. Governors.
8. Ignition system.
9. Inlet valve.
10. Lighting systems.
11. Lubricating systems, including filters, tanks, pumps, and piping.
12. Mechanical meters, including gauges, recording instruments, sampling and testing equipment.
13. Mufflers.
14. Piping.
15. Starting systems, compressed air, or other, including compressors and drives, tanks, piping, motors, boards and connections, storage tanks, etc.
16. Steelwork, specially constructed for apparatus listed herein.
17. Waste heat boilers, antifluctuators, etc.

344 Generators.

This account shall include the cost installed of Diesel or other power driven main generators.

ITEMS

1. Cranes, hoists, etc., including items wholly identified with such apparatus.
2. Fire-extinguishing equipment.
3. Foundations and settings, specially constructed for and not expected to outlast the apparatus for which provided.
4. Generator cooling system, including air cooling and washing apparatus, air fans and accessories, air ducts, etc.
5. Generators—main, A.C. or D.C., including field rheostats and connections for self-excited units and excitation system when identified with the generating unit.
6. Lighting systems.
7. Lubricating system, including tanks, filters, strainers, pumps, piping, coolers, etc.
8. Mechanical meters, and recording instruments.
9. Platforms, railings, steps, gratings, etc., appurtenant to apparatus listed herein.

NOTE: If prime movers and generators are so integrated that it is not practical to separately classify as Prime Movers, the entire unit may be included in account 344, Generators.

345 Accessory electric equipment.

This account shall include the cost installed of auxiliary generating apparatus, conversion equipment, and equipment used primarily in connection with the control and switching of electric energy produced in other power generating stations, and the protection of electric circuits and equipment, except electric motors used to drive equipment included in other accounts. Such motors shall be included in the account in which the equipment with which it is associated is included.

ITEMS

1. Auxiliary generators, including boards, compartments, switching equipment, control equipment, and connections to auxiliary power bus.

2. Excitation system, including motor, turbine and dual drive exciter sets and rheostats, storage batteries and charging equipment, circuit breakers, panels and accessories, knife switches and accessories, surge arresters, instrument shunts, conductors and conduit, special supports for conduit, generator field and exciter switch panels, exciter bus tie panels, generator and exciter rheostats, etc., special housings, protective screens, etc.

3. Generator main connections, including oil circuit breakers, and accessories, disconnecting switches and accessories, operating mechanisms and interlocks, current transformers, potential transformers, protective relays, isolated panels and equipment, conductors and conduit, special supports for generator main leads, grounding switch, etc., special housing, protective screens, etc.

4. Station control system, including station switchboards with panel wiring, panels with instruments and control equipment only, panels with switching equipment mounted or mechanically connected, trunk-type boards complete, cubicles, station supervisory control boards, generator and exciter signal stands, temperature-recording devices, Frequency control equipment, master clocks, watt-hour meter, station totalizing watt-meter, storage batteries, panels and charging sets, instrument transformers for supervisory metering, conductors and conduit, special supports for conduit, switchboards, batteries, special housing for batteries, protective screens, doors, etc.

5. Station buses, including main, auxiliary, transfer, synchronizing and fault ground buses, including oil circuit breakers and accessories, disconnnecting switches and accessories, operating mechanisms and interlocks, reactors and accessories, voltage regulators and accessories, compensators, resistors, starting transformers, current transformers, potential transformers, protective relays, storage batteries, and charging equipment, isolated panels and equipment, conductors and conduit, special supports, special housings, concrete pads, general station ground system, special fire-extinguishing system, and test equipment.

NOTE A: Do not include in this account transformers and other equipment used for changing the voltage or frequency of electric energy for the purpose of transmission or distribution.

NOTE B: When any item of equipment listed herein is used wholly to furnish power to equipment included in another account, its cost shall be included in such other account.

3. TRANSMISSION PLANT

350 Land and land rights.

This account shall include the cost of land and land rights used in connection with transmission operations. (See electric plant instruction 6.)

351 Clearing land and rights of way.

This account shall include the cost of initial or original clearing of transmission land and rights of way.

NOTE: The cost of removing stumps, grading, excavating, etc., incident to the preparation of foundations for towers or other structures or to the construction of roads, trails, and bridges, shall not be included in this account but in the accounts directly benefited.

352 Structures and improvements.

This account shall include the cost in place of structures and improvements used in connection with transmission operations. (See electric plant instruction 7.)

353 Station equipment.

This account shall include the cost installed of transforming, conversion, and switching equipment used for the purpose of changing the characteristics of electricity in connection with its transmission or for controlling transmission circuits.

ITEMS

1. Bus compartments, concrete, brick, and sectional steel, including items permanently attached thereto.
2. Conduit, including concrete and iron duct runs not part of a building.
3. Control equipment, including batteries, battery charging equipment, transformers, remote relay boards, and connections.
4. Conversion equipment, including transformers, indoor and outdoor, frequency changers, motor generator sets, rectifiers, synchronous converters, motors, cooling equipment, and associated connections.
5. Fences.
6. Fixed and synchronous condensers, including transformers, switching equipment, blowers, motors, and connections.
7. Foundations and settings, specially constructed for and not expected to outlast the apparatus for which provided.
8. General station equipment, including air compressors, motors, hoists, cranes, test equipment, ventilating equipment, etc.
9. Platforms, railings, steps, gratings, etc., appurtenant to apparatus listed herein.
10. Primary and secondary voltage connections, including bus runs and supports, insulators, potheads, lightning arresters, cable and wire runs from and to outdoor connections or to manholes and the associated regulators, reactors, resistors, surge arresters, and accessory equipment.
11. Switchboards, including meters, relays, control wiring, etc.
12. Switching equipment, indoor and outdoor, including oil circuit breakers and operating mechanisms, truck switches, and disconnect switches.
13. Tools and appliances.

354 Towers and fixtures.

This account shall include the cost installed of towers and appurtenant fixtures used for supporting overhead transmission conductors.

ITEMS

1. Anchors, guys, braces.
2. Brackets.
3. Crossarms, including braces.
4. Excavation, backfill, and disposal of excess excavated material.
5. Foundations.
6. Guards.
7. Insulator pins and suspension bolts.
8. Ladders and steps.
9. Railings, etc.
10. Towers.

355 Poles and fixtures.

This account shall include the cost installed of transmission line poles, wood, steel, concrete, or other material, together with appurtenant fixtures used for supporting overhead transmission conductors.

ITEMS

1. Anchors, head arm and other guys, including guy guards, guy clamps, strain insulators, pole plates, etc.
2. Brackets.
3. Crossarms and braces.
4. Excavation and backfill, including disposal of excess excavated material.
5. Extension arms.
6. Gaining, roofing, stenciling, and tagging.
7. Insulator pins and suspension bolts.
8. Paving.
9. Pole steps.
10. Poles, wood, steel, concrete, or other material.
11. Racks complete with insulators.
12. Reinforcing and stubbing.
13. Settings.
14. Shaving and painting.

356 Overhead conductors and devices.

This account shall include the cost installed of overhead conductors and devices used for transmission purposes.

ITEMS

1. Circuit breakers.
2. Conductors, including insulated and bare wires and cables.
3. Ground wires and ground clamps.
4. Insulators, including pin, suspension, and other types.
5. Lightning arresters.
6. Switches.
7. Other line devices.

357 Underground conduit.

This account shall include the cost installed of underground conduit and tunnels used for housing transmission cables or wires. (See electric plant instruction 12.)

ITEMS

1. Conduit, concrete, brick or tile, including iron pipe, fiber pipe, Murray duct, and standpipe on pole or tower.
2. Excavation, including shoring, bracing, bridging, backfill, and disposal of excess excavated material.
3. Foundations and settings specially constructed for and not expected to outlast the apparatus for which provided.
4. Lighting systems.
5. Manholes, concrete or brick, including iron or steel, frames and covers, hatchways, gratings, ladders, cable racks and hangers, etc., permanently attached to manholes.
6. Municipal inspection.
7. Pavement disturbed, including cutting and replacing pavement, pavement base and sidewalks.
8. Permits.
9. Protection of street openings.
10. Removal and relocation of subsurface obstructions.
11. Sewer connections, including drains, traps, tide valves, check valves, etc.
12. Sumps, including pumps.
13. Ventilating equipment.

358 Undergound conductors and devices.

This account shall include the cost installed of underground conductors and devices used for transmission purposes.

ITEMS

1. Armored conductors, buried, including insulators, insulating materials, splices, potheads, trenching, etc.
2. Armored conductors, submarine, including insulators, insulating materials, splices in terminal chambers, potheads, etc.
3. Cables in standpipe, including pothead and connection from terminal chamber of manhole to insulators on pole.
4. Circuit breakers.
5. Fireproofing, in connection with any item listed herein.
6. Hollow-core oil-filled cable, including straight or stop joints, pressure tanks, auxiliary air tanks, feeding tanks, terminals, potheads and connections, ventilating equipment, etc.
7. Lead and fabric covered conductors, including insulators, compound filled, oil filled, or vacuum splices, potheads, etc.
8. Lightning arresters.
9. Municipal inspection.
10. Permits.
11. Protection of street openings.
12. Racking of cables.
13. Switches.
14. Other line devices.

359 Roads and trails.

This account shall include the cost of roads, trails, and bridges used primarily as transmission facilities.

ITEMS

1. Bridges, including foundation piers, girders, trusses, flooring, etc.
2. Clearing land.
3. Roads, including grading, surfacing, culverts, etc.
4. Structures, constructed and maintained in connection with items included herein.
5. Trails, including grading, surfacing, culverts, etc.

NOTE: The cost of temporary roads, bridges, etc., necessary during the period of construction but abandoned or dedicated to public use upon completion of the plant, shall be charged to the accounts appropriate for the construction.

4. DISTRIBUTION PLANT

360 Land and land rights.

This account shall include the cost of land and land rights used in connection with distribution operations. (See electric plant instruction 6.)

NOTE: Do not include in this account the cost of permits to erect poles, towers, etc., or to trim trees. See account 364, Poles, Towers and Fixtures, and account 365, Overhead Conductors and Devices.

361 Structures and improvements.

This account shall include the cost in place of structures and improvements used in connection with distribution operations. (See electric plant instruction 7.)

362 Station equipment.

This account shall include the cost installed of station equipment, including transformer banks, etc., which are used for the purpose of changing the characteristics of electricity in connection with its distribution.

ITEMS

1. Bus compartments, concrete, brick and sectional steel, including items permanently attached thereto.
2. Conduit, including concrete and iron duct runs not part of building.
3. Control equipment, including batteries, battery charging equipment, transformers, remote relay boards, and connections.
4. Conversion equipment, indoor and outdoor, frequency changers, motor generator sets, rectifiers, synchronous converters, motors, cooling equipment, and associated connections.
5. Fences.
6. Fixed and synchronous condensers, including transformers, switching equipment, blowers, motors, and connections.
7. Foundations and settings, specially constructed for and not expected to outlast the apparatus for which provided.
8. General station equipment, including air compressors, motors, hoists, cranes, test equipment, ventilating equipment, etc.
9. Platforms, railings, steps, gratings, etc., appurtenant to apparatus listed herein.
10. Primary and secondary voltage connections, including bus runs and supports, insulators, potheads, lightning arresters, cable and wire runs from and to outdoor connections or to manholes and the associated regulators, reactors, resistors, surge arresters, and accessory equipment.
11. Switchboards, including meters, relays, control wiring, etc.
12. Switching equipment, indoor and outdoor, including oil circuit breakers and operating mechanisms, truck switches, disconnect switches.

NOTE: The cost of rectifiers, series transformers, and other special station equipment devoted exclusively to street lighting service shall not be included in this account, but in account 373, Street Lighting and Signal Systems.

363 Storage battery equipment.

This account shall include the cost installed of storage battery equipment for the purpose of supplying electricity to meet emergency or peak demands.

ITEMS

1. Batteries, including elements, tanks, tank insulators, etc.
2. Battery room connections, including cable or bus runs and connections.
3. Battery room flooring, when specially laid for supporting batteries.
4. Charging equipment, including motor generator sets and other charging equipment and connections, and cable runs from generator or station bus to battery room connections.
5. Miscellaneous equipment, including instruments, water stills, etc.
6. Switching equipment, including end-cell switches and connections, boards and panels, used exclusively for battery control, not part of general station switchboard.
7. Ventilating equipment, including fans and motors, louvers, and ducts not part of building.

NOTE: Storage batteries used for control and general station purposes shall not be included in this account but in the account appropriate for their use.

364 Poles, towers, and fixtures.

This account shall include the cost installed of poles, towers, and appurtenant fixtures used for supporting overhead distribution conductors and service wires.

ITEMS

1. Anchors, head arm, and other guys, including guy guards, guy clamps, strain insulators, pole plates, etc.
2. Brackets.
3. Crossarms and braces.
4. Excavation and backfill, including disposal of excess excavated material.
5. Extension arms.
6. Foundations.
7. Guards.
8. Insulator pins and suspension bolts.
9. Paving.
10. Permits for construction.
11. Pole steps and ladders.
12. Poles, wood, steel, concrete, or other material.
13. Racks complete with insulators.
14. Railings.
15. Reinforcing and stubbing.
16. Settings.
17. Shaving, painting, gaining, roofing, stenciling, and tagging.
18. Towers.
19. Transformer racks and platforms.

365 Overhead conductors and devices.

This account shall include the cost installed of overhead conductors and devices used for distribution purposes.

ITEMS

1. Circuit breakers.
2. Conductors, including insulated and bare wires and cables.
3. Ground wires, clamps, etc.
4. Insulators, including pin, suspension, and other types, and tie wire or clamps.
5. Lightning arresters.
6. Railroad and highway crossing guards.
7. Splices.
8. Switches.
9. Tree trimming initial cost including the cost of permits therefor.
10. Other line devices.

NOTE: The cost of conductors used solely for street lighting or signal systems shall not be included in this account but in account 373, Street Lighting and Signal Systems.

366 Underground conduit.

This account shall include the cost installed of underground conduit and tunnels used for housing distribution cables or wires.

ITEMS

1. Conduit, concrete, brick and tile, including iron pipe, fiber pipe, Murray duct, and standpipe on pole or tower.
2. Excavation, including shoring, bracing, bridging, backfill, and disposal of excess excavated material.
3. Foundations and settings specially constructed for and not expected to outlast the apparatus for which constructed.
4. Lighting systems.
5. Manholes, concrete or brick, including iron or steel frames and covers, hatchways, gratings, ladders, cable racks and hangers, etc., permanently attached to manholes.
6. Municipal inspection.
7. Pavement disturbed, including cutting and replacing pavement, pavement base, and sidewalks.
8. Permits.
9. Protection of street openings.
10. Removal and relocation of subsurface obstructions.
11. Sewer connections, including drains, traps, tide valves, check valves, etc.
12. Sumps, including pumps.
13. Ventilating equipment.

NOTE: The cost of underground conduit used solely for street lighting or signal systems shall be included in account 373, Street Lighting and Signal Systems.

367 Underground conductors and devices.

This account shall include the cost installed of underground conductors and devices used for distribution purposes.

ITEMS

1. Armored conductors, buried, including insulators, insulating materials, splices, potheads, trenching, etc.
2. Armored conductors, submarine, including insulators, insulating materials, splices in terminal chamber, potheads, etc.
3. Cables in standpipe, including pothead and connection from terminal chamber or manhole to insulators on pole.
4. Circuit breakers.
5. Fireproofing, in connection with any items listed herein.
6. Hollow-core oil-filled cable, including straight or stop joints, pressure tanks, auxiliary air tanks, feeding tanks, terminals, potheads and connections, etc.
7. Lead and fabric covered conductors, including insulators, compound-filled, oil-filled or vacuum splices, potheads, etc.
8. Lightning arresters.
9. Municipal inspection.
10. Permits.
11. Protection of street openings.
12. Racking of cables.
13. Switches.
14. Other line devices.

NOTE: The cost of underground conductors and devices used solely for street lighting or signal systems shall be included in account 373, Street Lighting and Signal Systems.

368 Line transformers.

A. This account shall include the cost installed of overhead and underground distribution line transformers and pole-type and underground voltage regulators owned by the utility, for use in transforming electricity to the voltage at which it is to be used by the customer, whether actually in service or held in reserve.

B. When a transformer is permanently retired from service, the original installed cost thereof shall be credited to this account.

C. The records covering line transformers shall be so kept that the utility can furnish the number of transformers of various capacities in service and those in reserve, and the location and the use of each transformer.

ITEMS

1. Installation, labor of (first installation only).
2. Transformer cut-out boxes.
3. Transformer, lightning arresters.
4. Transformers, line and network.
5. Capacitors.
6. Network protectors.

NOTE: The cost of removing and resetting line transformers shall not be charged to this account but to account 561, Line and Station Labor, or account 562, Line and Station Supplies and Expenses, as appropriate. The cost of line transformers used solely for street lighting or signal systems shall be included in account 373, Street Lighting and Signal Systems.

369 Services.

This account shall include the cost installed of all overhead and underground conductors leading from a point where wires leave the last pole of the overhead system or the distribution box or manhole, or the top of the pole of the distribution line, to the point of connection with the customer's outlet or wiring. Conduit used for underground service conductors shall be included herein.

ITEMS

1. Brackets.
2. Cables and wires.
3. Conduit.
4. Insulators.
5. Municipal inspection.
6. Overhead to underground, including conduit or standpipe and conductor from last splice on pole to connection with customer's wiring.
7. Pavement disturbed, including cutting and replacing pavement, pavement base, and sidewalks.
8. Permits.
9. Protection of street openings.
10. Service switch.
11. Suspension wire.

370 Meters.

A. This account shall include the cost installed of meters or devices and appurtenances thereto, for use in measuring the electricity delivered to its users; whether actually in service or held in reserve.

B. When a meter is permanently retired from service, the installed cost included herein shall be credited to this account.

C. The records covering meters shall be so kept that the utility can furnish information as to the number of meters of various capacities in service and in reserve as well as the location of each meter owned.

ITEMS

1. Alternating current watt-hour meters.
2. Current limiting devices.
3. Demand indicators.
4. Demand meters.
5. Direct current watt-hour meters.
6. Graphic demand meters.
7. Installation, labor of (first installation only).
8. Instrument transformers.
9. Maximum demand meters.
10. Meter badges and their attachments.
11. Meter boards and boxes.
12. Meter fittings, connections, and shelves (first set).
13. Meter switches and cut-outs.
14. Prepayment meters.
15. Protective devices.
16. Testing new meters.

NOTE A: This account shall not include meters for recording output of a generating station, substation meters, etc. It includes only those meters used to record energy delivered to customers.

NOTE B: The cost of removing and resetting meters shall be charged to account 566, Meter Expenses.

371 Installations on customers' premises.

This account shall include the cost installed of equipment on the customer's side of a meter when the utility incurs such cost and when the utility retains title to and assumes full responsibility for maintenance and replacement of such property. This account shall not include leased equipment for which see account 372, Leased Property on Customers' Premises.

ITEMS

1. Cable vaults.
2. Commercial lamp equipment.
3. Foundations and settings specially provided for equipment included herein.
4. Frequency changer sets.
5. Motor generator sets.
6. Motors.
7. Switchboard panels, high or low tension.
8. Wire and cable connections to incoming cables.

NOTE: Do not include in this account any costs incurred in connection with merchandising, jobbing, or contract work activities.

372 Leased property on customers' premises.

This account shall include the cost of electric motors, transformers, and other equipment on customers' premises (including municipal corporation), leased or loaned to customers, but not including property held for sale.

NOTE A: The cost of setting and connecting such appliances or equipment on the premises of customers and the cost of resetting or removal shall not be charged to this account but to operating expenses, account 567, Customer Installations Expenses.

NOTE B: Do not include in this account any costs incurred in connection with merchandising, jobbing, or contract work activities.

373 Street lighting and signal systems.

This account shall include the cost installed of equipment used wholly for public street and highway lighting or traffic, fire alarm, police, and other signal systems.

ITEMS

1. Armored conductors, buried or submarine, including insulators, insulating materials, splices, trenching, etc.
2. Automatic control equipment.
3. Conductors, overhead or underground, including lead or farbric covered, parkway cables, etc., including splices, insulators, etc.
4. Lamps, arc, incandescent, or other types, including glassware, suspension fixtures, brackets, etc.
5. Municipal inspection.
6. Ornamental lampposts.
7. Pavement disturbed, including cutting and replacing pavement, pavement base, and sidewalks.
8. Permits.
9. Posts and standards.
10. Protection of street openings.
11. Relays or time clocks.
12. Series contactors.
13. Switches.
14. Transformers, pole or underground.

5. GENERAL PLANT

389 Land and land rights.

This account shall include the cost of land and land rights used for utility purposes, the cost of which is not properly includible in other land and land rights

accounts. (See electric plant instruction 6.)

390 Structures and improvements.

This account shall include the cost in place of structures and improvements used for utility purposes, the cost of which is not properly includible in other structures and improvements accounts. (See electric plant instruction 7.)

391 Office furniture and equipment.

This account shall include the cost of office furniture and equipment owned by the utility and devoted to utility service, and not permanently attached to buildings, except the cost of such furniture and equipment which the utility elects to assign to other plant accounts on a functional basis.

ITEMS

1. Bookcases and shelves.
2. Desks, chairs, and desk equipment.
3. Drafting-room equipment.
4. Filing, storage, and other cabinets.
5. Floor covering.
6. Library and library equipment.
7. Mechanical office equipment, such as accounting machines, typewriters, etc.
8. Safes.
9. Tables.

392 Transportation equipment.

This account shall include the cost of transportation vehicles used for utility purposes.

ITEMS

1. Airplanes.
2. Automobiles.
3. Bicycles.
4. Electrical vehicles.
5. Motor trucks.
6. Motorcycles.
7. Repair cars or trucks.
8. Tractors and trailers.
9. Other transportation vehicles.

393 Stores equipment.

This account shall include the cost of equipment used for the receiving, shipping, handling, and storage of materials and supplies.

ITEMS

1. Chain falls.
2. Counters.
3. Cranes (portable).
4. Elevating and stacking equipment (portable).
5. Hoists.
6. Lockers.
7. Scales.
8. Shelving.
9. Storage bins.
10. Trucks, hand and power driven.
11. Wheelbarrows.

394 Tools, shop and garage equipment.

This account shall include the cost of tools, implements, and equipment used in construction, repair work, general shops and garages and not specifically provided for or includible in other accounts.

ITEMS

1. Air compressors.
2. Anvils.
3. Automobile repair shop equipment.
4. Battery charging equipment.
5. Belts, shafts and countershafts.
6. Boilers.
7. Cable pulling equipment.
8. Concrete mixers.
9. Drill presses.
10. Derricks.
11. Electric equipment.
12. Engines.
13. Forges.
14. Furnaces.
15. Foundations and settings specially constructed for and not expected to outlast the equipment for which provided.
16. Gas producers.
17. Gasoline pumps, oil pumps and storage tanks.
18. Greasing tools and equipment.
19. Hoists.
20. Ladders.
21. Lathes.
22. Machine tools.
23. Motor driven tools.
24. Motors.
25. Pipe threading and cutting tools.
26. Pneumatic tools.
27. Pumps.
28. Riveters.
29. Smithing equipment.
30. Tool racks.
31. Vises.
32. Welding apparatus.
33. Work benches.

395 Laboratory equipment.

This account shall include the cost installed of laboratory equipment used for general laboratory purposes and not specifically provided for or includible in other departmental or functional plant accounts.

ITEMS

1. Ammeters.
2. Current batteries.
3. Frequency changers.
4. Galvanometers.
5. Inductometers.
6. Laboratory standard millivolt meters.
7. Laboratory standard volt meters.
8. Meter-testing equipment.
9. Millivolt meters.
10. Motor generator sets.
11. Panels.
12. Phantom loads.
13. Portable graphic ammeters, voltmeters, and wattmeters.
14. Portable loading devices.
15. Potential batteries.
16. Potentiometers.
17. Rotating standards.
18. Standard cell, reactance, resistor, and shunt.
19. Switchboards.
20. Synchronous timers.
21. Testing panels.
22. Testing resistors.
23. Transformers.
24. Voltmeters.
25. Other testing, laboratory, or research equipment not provided for elsewhere.

396 Power operated equipment.

This account shall include the cost of power operated equipment used in construction or repair work exclusive of equipment includible in other accounts. Include, also, the tools and accessories acquired for use with such equipment and the vehicle on which such equipment is mounted.

ITEMS

1. Air compressors, including driving unit and vehicle.
2. Back filling machines.
3. Boring machines.
4. Bulldozers.
5. Cranes and hoists.
6. Diggers.
7. Engines.
8. Pile drivers.
9. Pipe cleaning machines.
10. Pipe coating or wrapping machines.
11. Tractors—Crawler type.
12. Trenchers.
13. Other power operated equipment.

NOTE: It is intended that this account include only such large units as are generally self-propelled or mounted on movable equipment.

397 Communication equipment.

This account shall include the cost installed of telephone, telegraph, and wireless equipment for general use in connection with utility operations.

ITEMS

1. Antennae.
2. Booths.
3. Cables.
4. Distributing boards.
5. Extension cords.
6. Gongs.
7. Hand sets, manual and dial.
8. Insulators.
9. Intercommunicating sets.
10. Loading coils.
11. Operators' desks.
12. Poles and fixtures used wholly for telephone or telegraph wire.
13. Radio transmitting and receiving sets.
14. Remote control equipment and lines.
15. Sending keys.
16. Storage batteries.
17. Switchboards.
18. Telautograph circuit connections.
19. Telegraph receiving sets.
20. Telephone and telegraph circuits.
21. Testing instruments.
22. Towers.
23. Underground conduit used wholly for telephone or telegraph wires and cable wires.

398 Miscellaneous equipment.

This account shall include the cost of equipment, apparatus, etc., used in the utility operations, which is not includible in any other account of this system of accounts.

ITEMS

1. Hospital and infirmary equipment.
2. Kitchen equipment.
3. Recreation equipment.
4. Radios.
5. Restaurant equipment.
6. Soda fountains.
7. Operators' cottage furnishings.
8. Other miscellaneous equipment.

NOTE: Miscellaneous equipment of the nature indicated above wherever practicable shall be included in the utility plant accounts on a functional basis.

399 Other tangible property.

This account shall include the cost of tangible utility plant not provided for elsewhere.

Income Accounts

1. UTILITY OPERATING INCOME

400	Operating revenues.
	Operating expenses:
401	Operation expense.
402	Maintenance expense.
403	Depreciation expense.
404	Amortization of limited-term electric plant.
405	Amortization of other electric plant.
406	Amortization of electric plant acquisition adjustments.
407	Amortization of property losses.
408	Taxes other than income taxes.
409	Income taxes.
410	Provision for deferred income taxes.
411	Income taxes deferred in prior years—Credit.
	Total operating expenses.
	Operating income.
412–413	Income from electric plant leased to others.
414	Other utility operating income.
	Total operating income.

2. OTHER INCOME

415–416	Income from merchandising, jobbing and contract work.
417	Income from nonutility operations.
418	Nonoperating rental income.
419	Interest and dividend income.
421	Miscellaneous nonoperating income.
	Total other income.

3. MISCELLANEOUS INCOME DEDUCTIONS

425	Miscellaneous amortization.
426	Other income deductions.
	Total income deductions.
	Income before interest charges.

4. INTEREST CHARGES

427	Interest on long-term debt.
428	Amortization of debt discount and expense.
429	Amortization of premium on debt—Cr.
430	Interest on debt to associated companies.
431	Other interest expense.
432	Interest charged to construction—Cr.
	Total interest charges.
	Net income.

5. EARNED SURPLUS

216	Unappropriated earned surplus (at beginning of period).
433	Balance transferred from income.
434	Miscellaneous credits to surplus.
435	Miscellaneous debits to surplus.
436	Appropriations of surplus.
	Net addition to earned surplus.
437	Dividends declared—Preferred stock.
438	Dividends declared—Common stock.
216	Unappropriated earned surplus (at end of period).

Income Accounts

1. UTILITY OPERATING INCOME

400 Operating revenues.

There shall be shown under this caption the total amount included in the electric operating revenue accounts provided herein.

401 Operation expense.

There shall be shown under this caption the total amount included in the electric operation expense accounts provided herein.

402 Maintenance expense.

There shall be shown under this caption the total amount included in the electric maintenance expense accounts provided herein.

403 Depreciation expense.

A. This account shall include the amount of depreciation expense for all classes of depreciable electric plant in service except such depreciation expense as is chargeable to clearing accounts or to account 416, Costs and Expenses of Merchandising, Jobbing and Contract Work.

B. The utility shall keep such records of property and property retirements as will reflect the service life of property which has been retired and aid in estimating probable service life by mortality, turnover, or other appropriate methods; and also such records as will reflect the percentage of salvage and cost of removal for property retired from each account, or subdivision thereof, for depreciable electric plant.

NOTE A: Depreciation expense applicable to property included in account 104, Electric Plant Leased to Others, shall be charged to account 413, Expenses of Electric Plant Leased to Others.

NOTE B: Depreciation expense applicable to transportation equipment, shop equipment, tools, work equipment, power operated equipment, and other general equipment may be charged to clearing accounts as necessary, in order to obtain a proper distribution of expenses between construction and operation.

404 Amortization of limited-term electric plant.

This account shall include amortization charges applicable to amounts included in the electric plant accounts for limited-term franchises, licenses, patent rights, limited-term interests in land, and expenditures on leased property where the service life of the improvements is terminable by action of the lease. The charges to this account shall be such as to distribute the book cost of each investment as evenly as may be over the period of its benefit to the utility. (See account 110, Accumulated Provision of Depreciation and Amortization of Electric Plant.)

405 Amortization of other electric plant.

A. When authorized by the Commission, this account shall include charges for amortization of intangible or other electric plant in service which does not have a definite or terminable life and which is not subject to charges for depreciation expense.

B. This account shall be supported in such detail as to show the amortization applicable to each investment being amortized, together with the book cost of the investment and the period over which it is being written off.

406 Amortization of electric plant acquisition adjustments.

This account shall be debited or credited, as the case may be, with amounts includible in operating expenses, pursuant to approval or order of the Commission, for the purpose of providing for the extinguishment of the amount in account 114, Electric Plant Acquisition Adjustments.

407 Amortization of property losses.

This account shall be charged with amounts credited to account 182, Extraordinary Property Losses, when the Commission has authorized the amount in the latter account to be amortized by charges to electric operations.

408 Taxes other than income taxes.

A. This account shall include the amount of ad valorem, gross revenue or gross receipts taxes, state unemployment insurance, franchise taxes, federal excise taxes, social security taxes, and all other taxes assessed by federal, state, county, municipal, or other local governmental authorities, which are properly chargeable to electric operations, except income taxes.

B. This account shall be charged with the amount of taxes which is applicable thereto, with concurrent credits to account 236, Taxes Accrued, or account 165, Prepayments, as appropriate. When it is not possible to determine the exact amount of taxes, the amount shall be estimated and adjustments made in current accruals as the actual tax levies become known.

C. The charges to this account shall be made or supported so as to show the amount of each tax and the basis upon which each charge is made. In the case of a utility rendering more than one utility service, taxes of the kind includible in this account shall be assigned directly to the utility department the operation of which gave rise to the tax in so far as practicable. Where the tax is not attributable to a specific utility department, it shall be distributed among the utility departments or nonutility operations on an equitable basis.

NOTE A: Taxes applicable to nonutility property or investments shall be charged to the account in which the income from the property or investments is included.

NOTE B: Special assessments for street and similar improvements shall be included in the appropriate utility plant or nonutility property account.

NOTE C: Taxes specifically applicable to construction shall be included in the cost of construction.

NOTE D: Taxes assumed by the utility on property leased from others for use in utility operations shall be charged to the appropriate rent expense or clearing account.

NOTE E: Gasoline and other sales taxes shall be charged as far as practicable to the same account as the materials on which the tax is levied.

NOTE F: Social Security and other forms of so-called pay roll taxes shall be distributed to utility departments and to nonutility functions on a basis related to pay roll. Amounts applicable to construction shall be charged to the appropriate plant account.

409 Income taxes.

A. This account shall include the amount of State and federal taxes on income properly accruable during the period covered by the income statement to meet the actual liability for such taxes. Concurrent credits for the tax accruals shall be made to account 236, Taxes Accrued, and as the exact amount of taxes becomes known, the current tax accruals shall be adjusted accordingly so that this account, as nearly as can be ascertained, shall include the actual taxes payable which are chargeable to utility operations.

B. The accruals for income taxes shall be apportioned among utility departments and nonutility operations so that, as nearly as practicable, each tax shall be included in the expenses of the utility department or nonutility operation the income from which gave rise to the tax.

NOTE A: Taxes assumed by the utility on interest shall be charged to account 431, Other Interest Expense.

NOTE B: Income taxes on income from electric plant leased to others shall be charged to account 413, Expenses of Electric Plant Leased to Others.

NOTE C: Where statutes or regulatory practices require that the profits or losses of merchandising, jobbing and contract work shall not be considered in arriving at rates to be charged for utility service, income taxes on income from merchandising, jobbing and contract work shall be charged to account 416, Costs and Expenses of Merchandising, Jobbing and Contract Work.

NOTE D: Income taxes on nonutility income shall be charged to the account in which the income is included. If the amount of nonutility income is relatively small, the allocation of income taxes thereto may be made annually.

NOTE E: Interest on tax refunds or deficiencies shall not be included in this account but in account 419, Interest and Dividend Income, or account 431, Other Interest Expense, as appropriate.

410 Provision for deferred income taxes.

This account shall be debited, and Accumulated Deferred Income Taxes shall be credited with an amount equal to any deferral of taxes on income as provided by the texts of accounts 281, 282 and 283. There shall not be netted against entries required to be made to this account any credit amounts appropriately includible in account 411, Income Taxes Deferred in Prior Years—Credit.

411 Income taxes deferred in prior years—Credit.

This account shall be credited and Accumulated Deferred Income Taxes debited with an amount equal to the portion of taxes on income payable for the year that is attributable to a deferral of taxes on income in a prior year, in accordance with the plan of deferred tax accounting provided by the texts of accounts 281, 282, and 283. There shall not be netted against entries required to be made to this account any debit amounts appropriately includible in account 410, Provision for Deferred Income Taxes.

412 Revenues from electric plant leased to others.

413 Expenses of electric plant leased to others.

A. These accounts shall include, respectively, revenues from electric property constituting a distinct operating unit or system leased by the utility to others, and which property is properly includible in account 104, Electric Plant Leased to Others, and the expenses attributable to such property.

B. The detail of expenses shall be kept or supported so as to show separately the following:

Operation.
Maintenance.
Rents.
Depreciation.
Amortization.
Taxes Other Than Income Taxes.
Income Taxes.

414 Other utility operating income.

A. This account shall include the revenues received and expenses incurred in connection with the operations of utility plant, the book cost of which is included in account 118, Other Utility Plant.

B. The expenses shall include every element of cost incurred in such operations, including depreciation, rents, taxes, and insurance.

2. OTHER INCOME

415 Revenues from merchandising, jobbing and contract work.

416 Costs and expenses of merchandising, jobbing and contract work.

A. These accounts shall include, respectively, all revenues derived from the sale of merchandise and jobbing or contract work, including any profit or commission accruing to the utility on jobbing work performed by it as agent under contracts whereby it does jobbing work for another for a stipulated profit or commission, and all expenses incurred in such activities.

B. Records in support of these accounts shall be so kept as to permit ready summarization of revenues, costs and expenses by such major items as are feasible.

NOTE: Revenues and expenses of merchandising, jobbing and contract work shall be reported in these accounts, if a state regulatory body having jurisdiction over the utility requires the net income to be reported as other income; but the revenues and expenses shall be reported in accounts 914, Revenues from Merchandising, Jobbing and Contract Work, and 915, Costs and Expenses of Merchandising, Jobbing and Contract Work, if such regulatory body requires the net income to be reported as an operating income or expense item. In the absence of a requirement by a state regulatory body, the utility may use these accounts or accounts 914 and 915 at its option, in which case the practice of the utility must be consistent.

ITEMS

Account 415:

1. Revenues from sale of merchandise and from jobbing and contract work.
2. Discounts and allowances made in settlement of bills for merchandise and jobbing work.

Account 416:

Labor—

1. Canvassing and demonstrating appliances in homes and other places for the purpose of selling appliances.
2. Demonstrating and selling activities in sales rooms.
3. Installing appliances on customer premises where such work is done only for purchasers of appliances from the utility.
4. Installing wiring, piping, or other property work, on a jobbing or contract basis.
5. Preparing advertising materials for appliance sales purposes.
6. Receiving and handling customer orders for merchandise or for jobbing services.
7. Cleaning and tidying sales rooms.
8. Maintaining display counters and other equipment used in merchandising.
9. Arranging merchandise in sales rooms and decorating display windows.
10. Reconditioning repossessed appliances.
11. Bookkeeping and other clerical work in connection with merchandise and jobbing activities.
12. Supervising merchandise and jobbing operations.

Materials and Expenses—

13. Advertising in newspapers, periodicals, radio, television, etc.
14. Cost of merchandise sold and of materials used in jobbing work.
15. Stores expenses on merchandise and jobbing stocks.
16. Fees and expenses of advertising and commercial artists' agencies.
17. Printing booklets, dodgers, and other advertising data.
18. Premiums given as inducement to buy appliances.
19. Light, heat, and power.
20. Depreciation on equipment used primarily for merchandise and jobbing operations.
21. Rent of sales rooms or of equipment.
22. Transportation expense in delivery and pick-up of appliances by utility's facilities or by others.
23. Stationery and office supplies and expenses.
24. Taxes directly assignable to merchandise and jobbing operations including income taxes on net income derived therefrom.
25. Losses from uncollectible merchandise and jobbing accounts.

417 Income from nonutility operations.

A. This account shall include revenues and expenses applicable to operations which are nonutility in character but nevertheless constitute a distinct operating activity of the enterprise as a whole, such as the operation of an ice department where applicable statutes do not define such operation as a utility, or the operation of a servicing organization for furnishing supervision, management, engineering, and similar services to others.

B. The expenses shall include all elements of costs incurred in such operations, and the accounts shall be maintained so as to permit ready summarization as follows:

Operation.
Maintenance.
Rents.
Depreciation.
Amortization.
Taxes Other Than Income Taxes.
Income Taxes.

418 Nonoperating rental income.

A. This account shall include all rent revenues and related expenses of land, buildings, or other property included in account 121, Nonutility Property, which is not used in operations covered by account 417.

B. The expenses shall include all elements of costs incurred in the ownership and rental of the property and the accounts shall be maintained so as to permit ready summarization as follows:

Operation.
Maintenance.
Rents.
Depreciation.
Amortization.
Taxes Other Than Income Taxes.
Income Taxes.

419 Interest and dividend income.

A. This account shall include interest revenues on securities, loans, notes, advances, special deposits, tax refunds and all other interest-bearing assets, and dividends on stocks of other companies, whether the securities on which the interest and dividends are received are carried as investments or included in sinking or other special fund accounts.

B. If any interest or dividends are required to be retained in a special fund and the fund is represented by a reserve, the amount of such accretion to the fund shall concurrently be credited to the appropriate reserve account and charged to account 436, Appropriations of Surplus.

C. This account may include the pro rata amount necessary to extinguish (during the interval between the date of acquisition and the date of maturity) the difference between the cost to the utility and the face value of interest-bearing securities. Amounts thus credited or charged shall be concurrently included in the accounts in which the securities are carried.

D. Where significant in amount, expenses, including operating taxes and income taxes, applicable to security investments and to interest and dividend

revenues thereon shall be charged hereto.

NOTE: Interest accrued, the payment of which is not reasonably assured, dividends receivable which have not been declared or guaranteed, and interest or dividends upon reacquired securities issued or assumed by the utility shall not be credited to this account.

421 Miscellaneous nonoperating income.

This account shall include all revenue and expense items properly includible in the income account and not provided for elsewhere.

ITEMS

1. Profit on sale of timber. (See electric plant instruction 6, C.)
2. Profits from operations of others realized by the utility under contracts.

3. MISCELLANEOUS INCOME DEDUCTIONS

425 Miscellaneous amortization.

This account shall include amortization charges not includible in other accounts which are properly deductible in determining the income of the utility before interest charges. Charges includible herein, if significant in amount, must be in accordance with an orderly and systematic amortization program. Similar charges made irregularly without a definite program, or which are dependent upon the amount of net income shall be charged to account 435, Miscellaneous Debits to Surplus.

ITEMS

1. Amortization of utility plant acquisition adjustments, or of intangibles included in utility plant in service when not authorized to be included in utility operating expenses by the Commission.
2. Amortization of amounts in account 182, Extraordinary Property Losses, when not authorized to be included in utility operating expenses by the Commission.
3. Amortization of capital stock discount or expenses when in accordance with a systematic amortization program.

426 Other income deductions.

This account shall include miscellaneous expense items which are nonoperating in nature but which are properly deductible before determining total income before interest charges.

ITEMS

1. Donations for charitable, social or community welfare purposes.
2. Life insurance of officers and employees where utility is beneficiary (net premiums less increase in cash surrender value of policies).
3. Penalties or fines for violation of statutes pertaining to regulation.

NOTE: The classification of expenses as nonoperating and their inclusion in this account is for accounting purposes. It does not preclude Commission consideration of proof to the contrary for ratemaking or other purposes.

4. INTEREST CHARGES

427 Interest on long-term debt.

A. This account shall include the amount of interest on outstanding long-term debt issued or assumed by the utility, the liability for which is included in account 221, Bonds, or account 224, Other Long-Term Debt.

B. This account shall be so kept or supported as to show the interest accruals on each class and series of long-term debt.

NOTE: This account shall not include interest on nominally issued or nominally outstanding long-term debt, including securities assumed.

428 Amortization of debt discount and expense.

A. This account shall include the amortization of unamortized debt discount and expense on outstanding long-term debt. Amounts charged to this account shall be credited concurrently to account 181, Unamortized Debt Discount and Expense.

B. This account shall be so kept or supported as to show the debt discount and expense on each class and series of long-term debt.

429 Amortization of premium on debt—Cr.

A. This account shall include the amortization of unamortized net premium on outstanding long-term debt. Amounts credited to this account shall be charged concurrently to account 251, Unamortized Premium on Debt.

B. This account shall be so kept or supported as to show the premium on each class and series of long-term debt.

430 Interest on debt to associated companies.

A. This account shall include the interest accrued on amounts included in account 223, Advances from Associated Companies, and on all other obligations to associated companies.

B. The records supporting the entries to this account shall be so kept as to show to whom the interest is to be paid, the period covered by the accrual, the rate of interest and the principal amount of the advances or other obligations on which the interest is accrued.

431 Other interest expense.

This account shall include all interest charges not provided for elsewhere.

ITEMS

1. Interest on notes payable on demand or maturing one year or less from date and on open accounts, except notes and accounts with associated companies.
2. Interest on customers' deposits.
3. Interest on claims and judgments, tax assessments, and assessments for public improvements past due.
4. Income and other taxes levied upon bondholders of utility and assumed by it.

432 Interest charged to construction—Cr.

This account shall include concurrent credits for interest charged to construction based upon the net cost for the period of construction of borrowed funds used for construction purposes and a reasonable rate upon other funds when so used. No interest shall be capitalized on plant which is completed and ready for service.

5. EARNED SURPLUS

433 Balance transferred from income.

This account shall include the net credit or debit transferred from income for the year.

434 Miscellaneous credits to surplus.

This account shall include credits affecting earned surplus not provided for elsewhere. If an amount otherwise required by the uniform system of accounts to be credited to this account is not significant with respect to net income determination for the year, it may be credited to the appropriate non-operating income account. All items included in this account shall be sufficiently described in the entries relating thereto as to permit ready analysis.

ITEMS

1. Delayed credits.
2. Profit on reacquisition and resale or retirement of utility's debt securities.
3. Profit on sale of property or investments.

435 Miscellaneous debits to surplus.

This account shall include amounts chargeable to earned surplus but not provided for elsewhere. If an amount otherwise required by the uniform system of accounts to be charged to this account is not significant with respect to net income determination for the year, it may be charged to the appropriate non-operating income deduction account. All items included in this account shall be sufficiently described in the entries relating thereto as to permit ready analysis.

ITEMS

1. Decline in value of investments.
2. Delayed debits.
3. Loss on reacquisition and resale or retirement of utility's debt securities.
4. Provision for past accrued depreciation not provided for.
5. Long-term debt discount or expense written off.
6. Loss on sale of property or investments.
7. Write-off of utility plant acquisition adjustments or of intangibles when not done under an orderly systematic program indicating the propriety of inclusion of the annual charges in account 425, Miscellaneous Amortization.
8. Preliminary survey and investigation expenses on abandoned projects.
9. Income taxes, both state and federal, occasioned by items included in account 434, Miscellaneous Credits to Surplus.
10. Charges from retirement or resale of reacquired capital stock.

436 Appropriations of surplus.

This account shall include appropriations of earned surplus for purposes not provided for elsewhere.

ITEMS

1. Appropriations of income required under terms of mortgages, orders of courts, contracts or other agreements.
2. Appropriations of income required by action of regulatory authorities.
3. Miscellaneous appropriations of income made at option of utility for specified purposes.

437 Dividends declared—Preferred stock.

A. This account shall include amounts declared payable out of earned surplus as dividends on actually outstanding preferred or prior lien capital stock issued by the utility.

B. Dividends shall be segregated for each class and series of preferred stock as to those payable in cash, stock and other forms. If not payable in cash, the

medium of payment shall be described with sufficient particularity to identify it.

438 Dividends declared—Common stock.

A. This account shall include amounts declared payable out of earned surplus as dividends on actually outstanding common capital stock issued by the utility.

B. Dividends shall be segregated for each class of common stock as to those payable in cash, stock and other forms. If not payable in cash, the medium of payment shall be described with sufficient particularity to identify it.

Operating Revenue Accounts

1. SALES OF ELECTRICITY

440 Residential sales.
442 Commercial and industrial sales.
444 Public street and highway lighting.
447 Sales for resale.
448 Interdepartmental sales.
449 Other sales.

2. OTHER OPERATING REVENUES

450 Forfeited discounts.
451 Miscellaneous service revenues.
453 Sales of water and water power.
454 Rent from electric property.
455 Interdepartmental rents.
456 Other electric revenues.

Operating Revenue Accounts

1. SALES OF ELECTRICITY

440 Residential sales.

A. This account shall include the net billing for electricity supplied for residential or domestic purposes.

B. Records shall be maintained so that the quantity of electricity sold and the revenue received under each rate schedule shall be readily available.

NOTE: When electricity supplied through a single meter is used for both residential and commercial purposes, the total revenue shall be included in this account, or account 442, Commercial and Industrial Sales, according to the rate schedule which is applied. If the same rate schedules apply to residential as to commercial and industrial service, classification shall be made according to principal use.

442 Commercial and industrial sales.

A. This account shall include the net billing for electricity supplied to customers for commercial and industrial purposes.

B. Records shall be maintained so that the quantity of electricity sold and the revenue received under each rate schedule shall be readily available. Records shall be maintained also so as to show separately the revenues from commercial and industrial customers (a) which have demands generally of 1000 kw or more, and (b) those which have demands generally less than 1000 kw. Reasonable deviations above or below the 1000 kw demand are permissible in order that transfers of customers between the two classes during the year may be minimized.

NOTE A: If the utility classifies large commercial and industrial customers and related revenues on a lesser basis than 1000 kilowatts of demand, or segregates industrial customers and related revenues according to a recognized definition of an industrial customer, such classifications are acceptable in lieu of those otherwise required by the text of this account on the basis of 1000 kilowatts of demand.

NOTE B: When electricity supplied through a single meter is used for both commercial and residential purposes, the total revenue shall be included in this account, or in account 440, Residential Sales, according to the rate schedule which is applied. If the same rate schedules apply to residential as to commercial and industrial service, classification shall be made according to the principal use.

444 Public street and highway lighting.

A. This account shall include the net billing for electricity supplied and services rendered for the purposes of lighting streets, highways, parks and other public places, or for traffic or other signal system service, for municipalities or other divisions or agencies of state or federal governments.

B. Records shall be maintained so that the quantity of electricity sold and the revenue received from each customer shall be readily available. In addition, the records shall be maintained so as to show the revenues from (a) contracts which include both electricity and services, and (b) contracts which include sales of electricity only.

447 Sales for resale.

A. This account shall include the net billing for electricity supplied to other electric utilities or to public authorities for resale purposes.

B. Records shall be maintained so as to show the quantity of electricity sold and the revenue received from each customer. (See account 545, Purchased Power, for credits includible herein arising from exchange, pooling or interconnection arrangements.)

NOTE: Revenues from electricity supplied to other public utilities for use by them and not for distribution, shall be included in account 442, Commercial and Industrial Sales, unless supplied under the same contract as and not readily separable from revenues includible in this account.

448 Interdepartmental sales.

A. This account shall include amounts charged by the electric department at tariff or other specified rates for electricity supplied by it to other utility departments.

B. Records shall be maintained so that the quantity of electricity supplied each other department and the charges therefor shall be readily available.

449 Other sales.

A. This account shall include revenues for electricity supplied which are not provided for elsewhere.

B. Records shall be maintained so as to show the quantity of electricity sold and the revenues received from each customer.

2. OTHER OPERATING REVENUES

450 Forfeited discounts.

This account shall include the amount of discounts forfeited or additional charges imposed because of the failure of customers to pay their electric bills on or before a specified date.

451 Miscellaneous service revenues.

This account shall include revenues for all miscellaneous services and charges billed to customers which are not specifically provided for in other accounts.

ITEMS

1. Fees for changing, connecting or disconnecting service.
2. Profit on maintenance of appliances, wiring, piping or other installations on customers' premises.
3. Net credit or debit (cost less net salvage and less payment from customers) on closing of work orders for plant installed for temporary service of less than one year.
4. Recovery of expenses in connection with current diversion cases (billing for the electricity consumed shall be included in the appropriate electric revenue account).

453 Sales of water and water power.

A. This account shall include revenues derived from the sale of water for irrigation, domestic, industrial or other uses, or for the development by others of water power, or for headwater improvements; also, revenues derived from furnishing water power for mechanical purposes when the investment in the property used in supplying such water or water power is carried as electric plant in service.

B. The records for this account shall be kept in such manner as to permit an analysis of the rates charged and the purposes for which the water was used.

454 Rent from electric property.

A. This account shall include rents received for the use by others of land, buildings, and other property devoted to electric operations by the utility.

B. When property owned by the utility is operated jointly with others under a definite arrangement for apportioning the actual expenses among the parties to the arrangement, any amount received by the utility for interest or return or in reimbursement of taxes or depreciation on the property shall be credited to this account.

NOTE. Do not include in this account rents from property constituting an operating unit or system. (See account 412, Revenues from Electric Plant Leased to Others.)

455 Interdepartmental rents.

This account shall include rents credited to the electric department on account of rental charges made against other departments (gas, water, etc.) of the utility. In the case of property operated under a definite arrangement to allocate the costs among the departments using the property, any reimbursement to the electric department for interest or return and depreciation and taxes shall be credited to this account.

456 Other electric revenues.

This account shall include revenues derived from electric operations not includible in any of the foregoing accounts.

ITEMS

1. Commission on sale or distribution of electricity of others when sold under rates filed by such others.
2. Compensation for minor or incidental services provided for others such as customer billing, engineering, etc.
3. Profit or loss on sale of material and supplies not ordinarily purchased for resale and not handled through merchandising and jobbing accounts.
4. Sale of steam, but not including sales made by a steam-heating department or transfers of steam under joint facility operations.

Operation and Maintenance Expense Accounts

1. POWER PRODUCTION EXPENSES

A. STEAM POWER GENERATION

Operation

500 Operation supervision and labor.
501 Fuel.
502 Operation supplies and expenses.
503 Steam from other sources.
504 Steam transferred—Cr.
505 Rents.

Maintenance

506 Maintenance of steam production plant.

B. HYDRAULIC POWER GENERATION

Operation

530 Operation supervision and labor.
531 Water for power.
532 Operation supplies and expenses.
533 Rents.

Maintenance

535 Maintenance of hydraulic production plant.

C. OTHER POWER GENERATION

Operation

538 Operation supervision and labor.
539 Fuel.
540 Operation supplies and expenses.
541 Rents.

Maintenance

543 Maintenance of other power production plant.

D. OTHER POWER SUPPLY EXPENSES

Operation

545 Purchased power.
546 Other expenses.

2. TRANSMISSION EXPENSES

Operation

550 Operation supervision and labor.
551 Operation supplies and expenses.
552 Rents.

Maintenance

553 Maintenance of transmission plant.

3. DISTRIBUTION EXPENSES

Operation

560 Operation supervision expenses.
561 Line and station labor.
562 Line and station supplies and expenses.
563 Street lighting and signal system expenses.
566 Meter expenses.
567 Customer installations expenses.
569 Miscellaneous distribution expenses.
570 Rents.

Maintenance

571 Maintenance of structures and equipment.
572 Maintenance of lines.
573 Maintenance of line transformers.
574 Maintenance of street lighting and signal systems.
575 Maintenance of meters.
576 Maintenance of miscellaneous distribution plant.

4. CUSTOMER ACCOUNTS EXPENSES

Operation

901 Meter reading labor.
902 Accounting and collecting labor.
903 Supplies and expenses.
904 Uncollectible accounts.

5. SALES EXPENSES

Operation

910 Sales expenses.
914 Revenues from merchandising, jobbing and contract work.
915 Costs and expenses of merchandising, jobbing and contract work.

6. ADMINISTRATIVE AND GENERAL EXPENSES

Operation

920 Administrative and general salaries.
921 Office supplies and expenses.
922 Administrative expenses transferred—Cr.
923 Outside services employed.
924 Property insurance.
925 Injuries and damages.
926 Employee pensions and benefits.
927 Franchise requirements.
928 Regulatory commission expenses.
929 Duplicate charges—Cr.
930 Miscellaneous general expenses.
931 Rents.
933 Transportation expenses.

Maintenance

935 Maintenance of general plant.

Operation and Maintenance Expense Accounts

1. POWER PRODUCTION EXPENSES

A. STEAM POWER GENERATION

Operation

500 Operation supervision and labor.

This account shall include the cost of supervision and labor in the operation of steam power generating stations.

ITEMS

Boiler Room Labor:
1. Supervising steam production.
2. Operating fuel conveying, storage, weighing and processing equipment within boiler plant.
3. Operating boiler and boiler auxiliary equipment.
4. Operating boiler feed water purification and treatment equipment.
5. Operating ash collecting and disposal equipment located inside the plant.
6. Operating boiler plant electrical equipment.
7. Keeping boiler plant log and records and preparing reports on boiler plant operations.
8. Testing boiler water.
9. Testing, checking, and adjusting meters, gauges and other instruments in boiler plant.
10. Cleaning boiler plant equipment when not incidental to maintenance work.
11. Repacking glands and replacing gauge glasses where the work involved is of a minor nature and is performed by regular operating crews. Where the work is of a major character such as that performed on high pressure boilers the item should be considered as maintenance.

Electric Plant Labor:
12. Supervising electric production.
13. Operating turbines, engines, generators and exciters.
14. Operating condensers, circulating water systems and other auxiliary apparatus.
15. Operating generator cooling system.
16. Operating lubrication and oil control system, including oil purification.
17. Operating switchboards, switch gear and electric control and protective equipment.
18. Keeping electric plant log and records and preparing reports on electric plant operations.
19. Testing, checking and adjusting meters, gauges, and other instruments, relays, controls and other equipment in electric plant.
20. Cleaning electric plant equipment when not incidental to maintenance work.
21. Repacking glands and replacing gauge glasses.

Miscellaneous Labor:
22. General clerical and stenographic work at plant.
23. Guarding and patrolling plant and yard.
24. Building service.
25. Care of grounds including snow removal, cutting grass, etc.
26. Miscellaneous labor.

501 Fuel.

A. This account shall include the cost of fuel used in the production of steam for the generation of electricity, including expenses in unloading fuel from the shipping media and handling thereof up to the point where the fuel enters the first boiler plant bunker, hopper, bucket, tank or holder of the boiler house structure. Records shall be maintained to show the quantity, B.T.U. content and cost of each type of fuel used.

B. The cost of fuel shall be charged initially to appropriate fuel accounts carried under account 150, Materials and Supplies, and cleared to this account on the basis of the fuel used. Fuel handling expenses may be charged to this account as incurred or charged initially to an appropriate subaccount of account 150, Materials and Supplies. In the latter event, they shall be cleared to this account on the basis of the fuel used. Respective amounts of fuel stock and fuel stock expenses shall be readily available.

ITEMS

Labor:
1. Supervising purchasing and handling of fuel.
2. All routine fuel analyses.
3. Unloading from shipping facility and putting in storage.
4. Moving of fuel in storage and transferring fuel from one station to another.
5. Handling from storage or shipping facility to first bunker, hopper, bucket, tank or holder of boiler house structure.
6. Operation of mechanical equipment, such as locomotives, trucks, cars, boats, barges, cranes, etc.

Materials and Expenses:
7. Cost of fuel including freight, switching, demurrage and other transportation charges.
8. Excise taxes, insurance, purchasing commissions and similar items.
9. Stores expenses to extent applicable to fuel.
10. Transportation and other expenses in moving fuel in storage.
11. Tools, lubricants, and other supplies.
12. Operating supplies for mechanical equipment.
13. Residual disposal expenses less any proceeds from sale of residuals.

NOTE: Abnormal fuel handling expenses occasioned by emergency conditions shall be charged to expense as incurred.

502 Operation supplies and expenses.

This account shall include the cost of materials used and expenses incurred in the operation of steam power generating stations.

ITEMS

1. Chemicals and boiler inspection fees.
2. Lubricants and control system oils.
3. Boiler feed water purchased and pumping supplies.
4. Generator cooling gases.
5. Circulating water purification supplies.
6. Cooling water purchased.

7. Motor and generator brushes.
8. General operating supplies, such as tools, gaskets, packing waste, gauge glasses, hose, indicating lamps, record and report forms, etc.
9. First-aid supplies and safety equipment.
10. Employees' service facilities expenses.
11. Building service supplies.
12. Communication service.
13. Miscellaneous office supplies and expenses, printing and stationery.
14. Transportation expenses.
15. Meals, traveling and incidental expenses.

503 Steam from other sources.

This account shall include the cost of steam purchased, or transferred from another department of the utility or from others under a joint facility operating arrangement, for use in prime movers devoted to the production of electricity.

NOTE: The records shall be so kept as to show separately for each company from which steam is purchased, the point of delivery, the quantity, the price, and the total charge. When steam is transferred from another department or from others under a joint operating arrangement, the utility shall be prepared to show full details of the cost of producing such steam, the basis of the charge to electric generation and the extent and manner of use by each department or party involved.

504 Steam transferred—Cr.

A. This account shall include credits for expenses of producing steam which are charged to others or to other utility departments under a joint operating arrangement. Include also credits for steam expenses chargeable to other electric accounts outside of the steam generation group. Full details of the basis of the determination of the cost of steam transferred shall be maintained.

B. If the charges to others or to other departments of the utility include an amount for depreciation, taxes and return on the joint steam facilities, such portion of the charge shall be credited, in the case of others, to account 454, Rent from Electric Property, and in the case of other departments of the utility, to account 455, Interdepartmental Rents.

505 Rents.

This account shall include all rents of property of others used, occupied or operated in connection with steam power generation. (See operating expense instruction 2.)

Maintenance

506 Maintenance of steam production plant.

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of steam production plant the book cost of which is includible in plant accounts 311 to 316, inclusive. (See operating expense instruction 1.)

B. HYDRAULIC POWER GENERATION

Operation

530 Operation supervision and labor.

This account shall include the cost of supervision and labor in the operation of hydraulic power generating stations.

ITEMS

Hydraulic Labor:
1. Supervising hydraulic operation.
2. Removing debris and ice from trash racks, reservoirs and waterways.
3. Patrolling reservoirs and waterways.
4. Operating intakes, spillways, sluiceways, and outlet works.
5. Operating bubbler, heater or other deicing systems.
6. Ice and log jam work.
7. Operating navigation facilities.
8. Operations relating to conservation of game, fish, forests, etc.
9. Insect control activities.

Electric Labor:
10. Supervising electric production.
11. Operating prime movers, generators and auxiliary equipment.
12. Operating generator cooling system.
13. Operating lubrication and oil control systems, including oil purification.
14. Operating switchboards, switchgear, and electric control and protection equipment.
15. Keeping plant log and records and preparing reports on plant operations.
16. Testing, checking and adjusting meters, gauges, and other instruments, relays, controls, and other equipment in the plant.
17. Cleaning plant equipment when not incidental to maintenance work.
18. Repacking glands.

Miscellaneous Labor:
19. General clerical and stenographic work.
20. Guarding and patrolling plant and yard.
21. Building service.
22. Care of grounds, including snow removal, cutting grass, etc.
23. Snow removal from roads and bridges.
24. Miscellaneous labor.

531 Water for power.

This account shall include the cost of water used for hydraulic power generation.

ITEMS

1. Cost of water purchased from others, including water tolls paid reservoir companies.
2. Periodic payments for licenses or permits from any governmental agency for water rights, or payments based on the use of the water.
3. Periodic payments for riparian rights.
4. Periodic payments for headwater benefits or for detriments to others.
5. Cloud seeding.

532 Operation supplies and expenses.

This account shall include the cost of materials used and expenses incurred in the operation of hydraulic power generating stations.

ITEMS

1. Insect control materials.
2. Lubricants, packing, and other supplies used in operation of hydraulic equipment.
3. Supplies and expenses in conservation of game, fish, forests, etc.
4. Transportation expense.
5. Control system oils.
6. Motor and generator brushes.
7. General operating supplies, such as tools, gaskets, packing, waste hose, indicating lamps, record and report forms, etc.
8. First-aid supplies and safety equipment.
9. Employees' service facilities expenses.
10. Building service supplies.
11. Communication service.
12. Office supplies, printing and stationery.
13. Transportation expenses.
14. Fuel.
15. Meals, traveling and incidental expenses.

533 Rents.

This account shall include all rents of property of others used, occupied or operated in connection with hydraulic power generation, including amounts payable to the United States for the occupancy of public lands and reservations for reservoirs, dams, flumes, forebays, penstocks, power houses, etc., but not including transmission right of way. (See operating expense instruction 2.)

Maintenance

535 Maintenance of hydraulic production plant.

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of hydraulic production plant the book cost of which is includible in plant accounts 331 to 336, inclusive. (See operating expense instruction 1.)

C. OTHER POWER GENERATION

Operation

538 Operation supervision and labor.

This account shall include the cost of supervision and labor in the operation of other power generating stations.

ITEMS

Generating Labor:
1. Supervising other power generation operation.
2. Operating prime movers, generators and auxiliary apparatus and switching and other electric equipment.
3. Keeping plant log and records and preparing reports on plant operations.
4. Testing, checking, cleaning, oiling and adjusting equipment.

Miscellaneous Labor:
5. General clerical and stenographic work.
6. Guarding and patrolling plant and yard.
7. Building service.
8. Care of grounds, including snow removal, cutting grass, etc.
9. Miscellaneous labor.

539 Fuel.

This account shall include the cost delivered at the station (see account 150, Materials and Supplies) of all fuel, such as gas, oil, kerosene, and gasoline used in other power generation.

540 Operation supplies and expenses.

This account shall include the cost of materials used and expenses incurred in the operation of other power generating stations.

ITEMS

1. Dynamo, motor, and generator brushes.
2. Lubricants and control system oils.
3. Water for cooling engines and generators.
4. Building service supplies.
5. First-aid supplies and safety equipment.
6. Communication service.
7. Employees' service facilities expenses.
8. Office supplies, printing and stationery.
9. Transportation expense.
10. Meals, traveling and incidental expenses.
11. Fuel for heating.
12. Water for fire protection or general use.
13. Miscellaneous supplies, such as hand tools, drills, saw blades, files, etc.

541 Rents.

This account shall include all rents of property of others used, occupied, or operated in connection with other power

generation. (See operating expense instruction 2.)

Maintenance

543 Maintenance of other power production plant.

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of other power generation plant, the book cost of which is includible in plant accounts 341 to 346, inclusive. (See operating expense instruction 1.)

D. OTHER POWER SUPPLY EXPENSES

Operation

545 Purchased power.

A. This account shall include the cost at point of receipt by the utility of electricity purchased for resale. It shall include, also, net settlements for exchange of electricity or power, such as economy energy, off-peak for on-peak energy, spinning reserve capacity, etc. In addition, the account shall include the net settlements for transactions under pooling or interconnection agreements wherein there is a balancing of debits and credits for energy, capacity, etc. Distinct purchases and sales shall not be recorded as exchanges and net amounts only recorded merely because debit and credit amounts are combined in the voucher settlement.

B. The records supporting this account shall show, by months, the demands and demand charges, kilowatt-hours and prices thereof, under each purchase contract and the charges and credits under each exchange or power pooling contract.

546 Other expenses.

A. This account shall be charged with any production expenses, including expenses incurred directly in connection with the purchase of electricity, which are not specifically provided for in other production expense accounts. Charges to this account shall be supported so that a description of each type of charge will be readily available.

B. Recoveries from insurance companies, under use and occupancy provisions of policies, of amounts in reimbursement of excessive or added production costs for which the insurance company is liable under the terms of the policy shall be credited to this account.

2. TRANSMISSION EXPENSES

Operation

550 Operation supervision and labor.

This account shall include the cost of supervision and labor in the operation of the transmission system.

ITEMS

Load Dispatching Labor:
1. Directing switching.
2. Arranging and controlling clearances for construction, maintenance, test and emergency purposes.
3. Controlling system voltages.
4. Obtaining reports on the weather and special events.
5. Preparing operating reports and data for billing and budget purposes.

Station Labor:
6. Supervising station operation.
7. Adjusting station equipment where such adjustment primarily affects performance, such as regulating the flow of cooling water, adjusting current in fields of a machine or changing voltage of regulators, changing station transformer taps.
8. Inspecting, testing and calibrating station equipment for the purpose of checking its performance.
9. Keeping station log and records and preparing reports on station operation.
10. Operating switching and other station equipment.
11. Standing watch, guarding, and patrolling station and station yard.
12. Sweeping, mopping, and tidying station.
13. Care of grounds, including snow removal, cutting grass, etc.

Line Labor:
14. Supervising line operation.
15. Inspecting and testing lightning arresters, circuit breakers, switches, and grounds.
16. Load tests of circuits.
17. Routine line patrolling.
18. Routine voltage surveys made to determine the condition or efficiency of transmission system.
19. Transferring loads, switching and reconnecting circuits and equipment for operating purposes. (Switching for construction or maintenance purposes is not includible in this account.)
20. Routine inspection and cleaning of manholes, conduit, network and transformer vaults.
21. Electrolysis surveys.
22. Inspecting and adjusting line testing equipment such as voltmeters, ammeters, wattmeters, etc.
23. Regulation and addition of oil or gas in high voltage cable systems.

Miscellaneous Labor:
24. General records of physical characteristics of lines and stations, such as capacities, etc.
25. Ground resistance records.
26. Janitor work at transmission office buildings, including care of grounds, snow removal, cutting grass, etc.
27. Joint pole maps and records.
28. Line load and voltage records.
29. Preparing maps and prints.
30. General clerical and stenographic work.
31. Miscellanequs labor.

551 Operation supplies and expenses.

This account shall include the cost of materials used and expenses incurred in the operation of the transmission system.

ITEMS

1. Building service expenses.
2. Operating supplies, such as lubricants, commutator brushes, water, and rubber goods.
3. Station meter and instrument supplies, such as ink and charts.
4. Station record and report forms.
5. Communication service.
6. First-aid supplies.
7. Tool expense.
8. Transportation expenses.
9. Meals, traveling, and incidental expenses.

552 Rents.

This account shall include rents of property of others used, occupied, or operated in connection with the transmission system, including payments to the United States and others for use of public or private lands and reservations for transmission line rights of way. (See operating expense instruction 2.)

Maintenance

553 Maintenance of transmission plant.

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of transmission plant the book cost of which is includible in plant accounts 351 to 359, inclusive. (See operating expense instruction 1.)

ITEMS

1. Work of the following character on poles, towers and fixtures:
a. Installing or removing additional clamps or strain insulators on guys in place.
b. Moving line or guy pole in relocation of the same pole or section of line.
c. Painting poles, towers, crossarms or pole extensions.
d. Readjusting and changing position of guys or braces.
e. Realigning and straightening poles, crossarms, braces and other pole fixtures.
f. Reconditioning reclaimed pole fixtures.
g. Relocating crossarms, racks, brackets, and other fixtures on poles.
h. Repairing or realigning pins, racks, or brackets.
i. Repairing pole supported platform.
j. Repairs by others to jointly owned poles.
k. Shaving, cutting rot, or treating poles or crossarms in use or salvaged for reuse.
l. Stubbing poles already in service.
m. Supporting fixtures and conductors and transferring them to new pole during pole replacement.
n. Maintenance of pole signs, stencils, tags, etc.
2. Work of the following character on overhead conductors and devices:
a. Overhauling and repairing line cutouts, line switches, line breakers, etc.
b. Cleaning insulators and bushings.
c. Refusing cutouts.
d. Repairing line oil circuit breakers and associated relays and control wiring.
e. Repairing grounds.
f. Resagging, retying, or rearranging position or spacing of conductors.
g. Standing by phones, going to calls, cutting faulty lines clear, or similar activities at times of emergencies.
h. Sampling, testing, changing, purifying, and replenishing insulating oil.
i. Repairing line testing equipment.
j. Transferring loads, switching and reconnecting circuits and equipment for maintenance purposes.
k. Trimming trees and clearing brush.
l. Chemical treatment of right of way areas when occurring subsequent to construction of line.
3. Work of the following character on roads and trails:
a. Repairing roadway, bridges, etc.
b. Trimming trees and brush to maintain previous roadway clearance.
c. Snow removal from roads and trails.
d. Maintenance work on publicly owned roads and trails when done by utility at its expense.
4. Work of the following character on underground conduit:
a. Cleaning ducts, manholes, and sewer connections.
b. Minor alterations of handholes, manholes, or vaults.
c. Refastening, repairing, or moving racks, ladders, or hangers in manholes, or vaults.
d. Plugging and shelving or replugging ducts.
e. Repairs to sewers and drains, walls and floors, rings and covers.
5. Work of the following character on underground conductors and devices:
a. Repairing oil circuit breakers, switches, cutouts, and control wiring.
b. Repairing grounds.

c. Retraining and reconnecting cables in manhole, including transfer of cables from one duct to another.
d. Repairing conductors and splices.
e. Repairing or moving junction boxes and potheads.
f. Refireproofing of cables and repairing supports.
g. Repairing electrolysis preventive devices for cables.
h. Repairing cable bonding systems.
i. Sampling, testing, changing, purifying and replenishing insulating oil.
j. Transferring loads, switching and reconnecting circuits and equipment for maintenance purposes.
k. Repairing line testing equipment.
l. Repairs to oil or gas equipment in high voltage cable system and replacement of oil or gas.

3. Distribution Expenses

Operation

560 Operation supervision expenses.

This account shall include the cost of labor and expenses incurred in the general supervision and direction of the operation of the distribution system. Direct supervision of specific activities, such as station operation, line operation, meter department operation, etc., shall be charged to the appropriate account.

561 Line and station labor.

This account shall include the cost of labor incurred in the operation of distribution lines and stations.

Items

Line Labor:
1. Supervising line operation.
2. Changing line transformer taps.
3. Inspecting and testing lightning arrester, line circuit breakers, switches, and grounds.
4. Inspecting and testing line transformers for the purpose of determining load, temperature, or operating performance.
5. Patrolling lines.
6. Load tests and voltages surveys of feeders, circuits, and line transformers.
7. Removing line transformers and voltage regulators with or without replacement.
8. Installing line transformers or voltage regulators with or without change in capacity provided that the cost of first installation of these items is included in account 368, Line Transformers.
9. Voltage surveys, either routine or upon request of customers, including voltage tests at customer's main switch.
10. Transferring loads, switching and reconnecting circuits and equipment for operation purposes.
11. Electrolysis surveys.
12. Inspecting and adjusting line testing equipment.

Station Labor:
1. Supervising station operation.
2. Adjusting station equipment where such adjustment primarily affects performance, such as regulating the flow of cooling water, adjusting current in fields of a machine, changing voltage of regulators, or changing station transformer taps.
3. Keeping station log and records and preparing reports on station operation.
4. Inspecting, testing, and calibrating station equipment for the purpose of checking its performance.
5. Operating switching and other station equipment.
6. Standing watch, guarding and patrolling station and station yard.
7. Sweeping, mopping, and tidying station.
8. Care of grounds, including snow removal, cutting grass, etc.

562 Line and station supplies and expenses.

This account shall include the cost of materials used and expenses incurred in the operation of distribution lines and stations.

Items

1. Building service expenses.
2. Operating supplies, such as lubricants, commutator brushes, water, and rubber goods.
3. Station meter and instrument supplies, such as ink and charts.
4. Station record and report forms.
5. Tool expense.
6. Transportation expense.
7. Meals, traveling, and incidental expenses.

565 Street lighting and signal system expenses.

This account shall include the cost of labor, materials used and expenses incurred in the operation of street lighting and signal system plant.

Items

Labor:
1. Supervising street lighting and signal systems operation.
2. Replacing lamps and incidental cleaning of glassware and fixtures in connection therewith.
3. Routine patrolling for lamp outages, extraneous nuisances or encroachments, etc.
4. Testing lines and equipment including voltage and current measurement.
5. Winding and inspection of time switch and other controls.

Materials and Expenses:
6. Street lamp renewals.
7. Transportation and tool expense.
8. Meals, traveling, and incidental expenses.

566 Meter expenses.

This account shall include the cost of labor, materials used and expenses incurred in the operation of customer meters and associated equipment.

Items

Labor:
1. Supervising meter operation.
2. Clerical work on meter history and associated equipment record cards, test cards, and reports.
3. Disconnecting and reconnecting, removing and reinstalling, sealing and unsealing meters and other metering equipment in connection with initiating or terminating services including the cost of obtaining meter readings, if incidental to such operation.
4. Consolidating meter installations due to elimination of separate meters for different rates of service.
5. Changing or relocating meters, instrument transformers, time switches, and other metering equipment.
6. Resetting time controls, checking operation of demand meters and other metering equipment, when done as an independent operation.
7. Inspecting and adjusting meter testing equipment.
